	years. (Exceeding minimum time period)

Sheet 39

The County of Sussex must adopt a Capital Budget and Capital Improvement Program for the six-year period 2017 through 2022. The Capital Budget is for projects planned to be authorized in 2017. The Capital Improvement Program, in turn, must attempt to project capital expenditures through 2022. The Capital Budget may be amended by resolution during the year for projects not determined at this time or due to a change in project priorities and/or availability of funding.

2017 Capital Budget

Planned projects in the 2017 Capital Budget include appropriations for the replacement and enhancement of technology, \$884,000; replacement of Fleet vehicles and equipment, \$1,152,000; various road improvements, \$6,181,900; bridge replacement and rehabilitation, \$3,208,000; facilities improvements, \$1,197,000; Sussex County Technical School, \$1,331,000; Sussex County Community College, \$1,450,000; and down payment/debt issuance, \$700,000. The sum of the 2017 Capital Budget is \$16,103,900. Planned funding for 2017 capital projects will come from the following sources: Capital improvement Fund, \$700,000; Vocational School Bonds, \$1,331,000; County College Bonds, \$1,450,000; and General Improvement Bonds, \$8,630,000. Also included are grants from NJDOT for capital purposes: \$2,522,900 County Aid Allotment for road resurfacing and \$1,470,000 from the Local Bridges, Future Needs for replacement of Bridge X-09 (\$1M(and Bridge C-18 (\$470K). The planned debt to be authorized would be financed in two ways: temporary financing to meet immediate cash flow needs would be the issuance of bond anticipation notes for a one-year period or less; and/or the permanent financing for these projects through the sale of general obligation, and vocational school bonds to be held when municipal bond market conditions and other factors are favorable.

Debt Service, Net Debt and Remaining Borrowing Capacity

The 2017 Operating Budget contains line-item appropriations totaling \$11,355,000 for the payment of bond principal for outstanding bonds maturing in 2017: Vocational School Bonds, \$650,000; General Improvement Bonds including Refunding Bonds, \$8,585,000; County College Bond Act, \$1,200,000; and County College Bonds, \$920,000; Interest on Other Bonds, Vocational School Bonds, County College Bonds, and County College Chapter 12 Bonds totals \$2,303,998. Interest on BANs totals \$476,910. Solar-related debt service is \$2,400,000.

The County's net debt as of December 31, 2016 was \$111,347,324 or sixty-six hundredths of one per cent of its debt incurring capacity of \$338,434,122. Permanently financed debt for serial bonds amounts to \$73,964,000, BANs issued in 2016, \$15,299,000 for County capital improvement, \$1,520,000 for Vocational School improvements, \$2,469,000 for road reconstruction and resurfacing (which is reimbursable by NJDOT under the High Risk rural Roads Program), and \$1,908,000 for the renewable energy project associated with the Morris County Improvement Authority (MCIA). Unfunded debt amounts to \$75,000 for Sussex County Technical School Improvements, \$634,000 for various County Capital Improvements, \$1,139,619 for the renewable energy projects associated with MCIA, and \$168,228 for the County road reconstruction and resurfacing program '(which is reimbursable by NJDOT under the High Risk Rural Roads Program). Outstanding County-guaranteed solar-related obligations amounts to \$26,670,000.

Capital Projects Authorized in Calendar Year 2016

Capital appropriations (by bond ordinance) authorized during 2016 included \$2,440,000 for Sussex County Technical School Improvements, \$3,000,000 for Sussex County Community College improvements, \$7,980,000 for Various County Capital Improvements, including computer equipment, public works vehicles, facilities improvements, resurfacing of various roads, roadway, intersection, bridge and drainage improvements, and \$3,200,000 for the renewable energy projects associated with the MCIA.

Capital appropriations (by fully-funded ordinances) authorized during 2016: \$53,300 for various County roofing and electrical improvements funded from capital fund surplus, \$2,000,000 for the rehabilitation of Bridges X-09 and C-17 funded from Local Bridges, Future Needs grants, and \$2,470,100 for improvements to various County streets, roads and Bridge C-17 funded from NJDOT County Aid allotments.

The project cost of the construction or acquisition may include architect's fees, and other 'soft' costs such as engineering and inspection fees, legal expenses, preliminary planning, test and survey expenses, and the costs of authorizing, selling and issuing bonds or notes for permanent or temporary financing.

Temporary and Permanent Financing Activity in 2016

In June 2016, the County sold \$3,000,000 in Bonds consisting of \$1,500,000 County College Bonds and \$1,500,000 Chapter 12 County College Bonds (County College Bond Act, 1971 NJ Laws c.12), at interest rates of 2.00%, and sold \$21,196,000 in Bond Anticipation Notes at an interest rate of 2.25%.

Capital Process for Capital Construction

The Capital Projects Committee has set forth a detailed planning process for capital construction. This process follows a general theme whereby certain departments/divisions develop plans including specific requests for projects. Those plans are sent to the Capital Projects Committee, which prioritizes the requests using previously adopted criteria for what must be done, should be done and could be done. The initial list contains plenty of the core infrastructure projects that we believe are essential to meeting efficiently and effectively the County's responsibilities for public works, regulation, human services, health and welfare, public safety and educational functions. After thorough review and discussion by the Capital Projects Committee, the recommended list includes projects that have the approvals necessary for construction to start, lacking only the funds to proceed. As well as improvements that may only be in the redesign, design, property acquisition or environmental review stage. Of course, a common management problem that most bedevils states, counties and municipalities is insufficient funding for regular maintenance of the structures that are already in place.

The County has an estimated annual capital spending needs in excess of \$16 million with about 88 percent of the capital budget for repair and replacement projects to keep roads, bridges, and buildings in working order. Facilities improvements, \$4,700,000; vehicles and heavy equipment, \$1,000,000; information technology, including electronic voting systems, \$900,000; roads resurfacing & improvements, \$6,500,000; bridge repair, replacement, and rehabilitation, \$3,000,000. Regular inventory by our Information Systems, Facilities Management, Engineering & Public Works, and Fleet Management staff as to the condition of our infrastructure and vehicles and heavy equipment makes known that the repair and maintenance backlog is beyond the funding capacity. However, the Capital Projects Committee looks at the priorities of the County's infrastructure plan to make the best use of available funding to help ensure that required levels of investment are met to maintain operations. The County's secondary and postsecondary educational institutions, Sussex Technical School and SCCC's capital needs must also be factored into the Capital Budget and Capital Improvement Program.

Implementation and Management of Capital Improvement Projects

The County's infrastructure assets are currently planned, budgeted and managed through the Capital Projects Committee; with elected officials and staff knowledge and experience from all participating departments (engineering, public works, facilities, human services, finance, executive management, fleet management). Consolidation of capital project management responsibility under the Capital Projects Committee facilitates the timeline for moving a project from concept to completion.

Conclusion

The Capital Budget and Capital Improvement Program is a planning tool for updating an effective and efficient infrastructure plan. Although it will not resolve the preventative maintenance deficit. But it will help stretch bond dollars borrowed against future revenues, and generate the most suitable capital appropriations for maintaining a transportation, physical plant, information and education infrastructure that supports County government services.
