## ARTICLE V

### POWER PURCHASE AGREEMENT

#### Section 5.1. Power Purchase Agreement.

(a) The Authority shall enter into the Power Purchase Agreement, if not contemporaneously herewith, on such terms and conditions as shall be approved by the Licensor, which approval shall not be unreasonably withheld or delayed, and which approval shall be dispositively evidenced by the Licensor's acknowledgement of the terms thereof as part of the Power Purchase Agreement, including all amendments or supplements thereto that would have a material affect on the Licensor, it being expressly understood that any such amendment having no material affect other than (x) on the Authority, (y) one or more of the other Series 2011 Local Units, or (z) some other third party shall not require the acknowledgment of the Licensor.

(i) Unless the Licensor specifically acknowledges terms and conditions other than the following, the Power Purchase Agreement shall provide, at a minimum, (A) for the sale of electricity conforming to the parameters set forth in subsection (c)(i) below, and (B) for a minimum fifteen (15) year term, unless extended in accordance with subsection (b) below; and

(ii) Although the following related matters need not be set forth in the Power Purchase Agreement, the Authority shall cause such terms to be provided for in the Company Lease Agreement or other Company Documents, which may, to the extent desirable, include the Power Purchase Agreement: (A) the Licensor's Fair Market Value purchase option set forth in subsection (d) below, and (B) the removal of the Sussex County Community College Renewable Energy Projects and restoration of the Sussex County Community College Local Unit Facilities matters set forth in subsection (e) below.

(b) The Power Purchase Agreement shall not be extended beyond its original fifteen (15) year term, regardless of whether permitted by the original terms of the Power Purchase Agreement, or by an amendment thereof or supplement thereto, without the express written consent of the Licensor, which consent shall not be unreasonably withheld, but which consent shall not be forthcoming unless any such extension is allowable under applicable law. To the extent an amendment or supplement of the Power Purchase Agreement is required to effect such an extension, such Licensor consent shall be dispositively evidenced if set forth in the Licensor's acknowledgement of the terms of any such amendment thereto or supplement thereof as part of the Power Purchase Agreement.

(c) The Authority hereby assigns to the Licensor and the Licensor hereby assumes (and to the extent any such Power Purchase Agreement shall be entered into subsequent to the date of authorization, execution and delivery of this Sussex County Community College Local Unit License Agreement, such assignment shall take effect immediately upon the authorization, execution and delivery of the Power Purchase Agreement) all of its rights, duties and obligations under the Power Purchase Agreement, insofar as it relates to the Licensor or the applicable Series

2011 Local Unit, subject to the proviso below, including without limitation the rights and obligations to purchase power from the Company thereunder from the Sussex County Community College Local Unit Facilities, all in accordance with the terms and conditions set forth in the Power Purchase Agreement; provided however that such assignment shall and hereby does specifically exclude (I) any rights specifically reserved under the Power Purchase Agreement to the Authority, if any, and (II) the Local Unit License and the other rights being assigned by the Authority to the other Series 2011 Local Units with respect to their Local Unit Facilities under their respective Local Unit License Agreements.

(i) Specifically, without limitation, upon the Licensor's acknowledgment of the Power Purchase Agreement, as assignee of such Authority interests contemplated by this subsection (c), the Licensor shall and hereby does agree, during the Term for so long as the Power Purchase Agreement shall be in effect, to purchase the electricity generated by the Sussex County Community College Renewable Energy Projects located on, or as applicable, in the Sussex County Community College Local Unit Facilities from the Company for the price established under the Power Purchase Agreement (including any escalators set forth therein), and the Licensor shall pay the Trustee directly, on behalf of the Company (unless the Licensor receives a written notice from the Authority to the effect that the Company has prepaid all of the Series 2011 Bonds and that the Lessee has delivered the required Certificate of an Authorized Officer of the Lessee pursuant to Sections 402(a)(iii) and 703(b)(iii) of the Company Lease Agreement, in which case the Licensor shall pay either (i) the Company, or (ii) a third-party at the direction of the Company), for any such electricity, upon the terms set forth in the Power Purchase Agreement. Such terms include, without limitation, the payment by the Licensor of the PPA Price on or before the Commencement Date, (as such terms are defined in the Power Purchase Agreement), all as set forth in Section 3.5 (including any adjustments referenced therein) and Exhibit B of the Power Purchase Agreement. Subject to Force Majeure (as defined in the Power Purchase Agreement), the Licensor shall make such payments in full and on time, without regard to set-off or any other rights it might assert against the Authority, the Company or the Trustee for any reason, which rights against the Authority, the Company and the Trustee are hereby waived by the Licensor.

(d) Subject to Section 5.2 hereof, the Authority shall cause the Company Documents to include provisions providing for the following, upon the expiration of the Power Purchase Agreement (without or after one or more extensions to the extent permissible under applicable law): (i) providing the Licensor or the Authority, at the direction of the Licensor, as applicable, an option to purchase the Sussex County Community College Renewable Energy Projects installed on or, as applicable, in the Sussex County Community College Local Unit Facilities, which option shall remain outstanding for a period of no fewer than thirty (30) days, (ii) providing for a purchase price equal to the then existing Fair Market Value (as defined in the Power Purchase Agreement) of the Sussex County Community College Renewable Energy Projects, such Fair Market Value to be determined in accordance with Section 3.7(b) of the Power Purchase Agreement which determination of Fair Market Value shall take into account all

the facts and circumstances of the marketplace for such Sussex County Community College Renewable Energy Projects at such time, including without limitation, its continued operation and maintenance costs, its technological feasibility, as compared to then existing alternatives, and its continued utility to the Licensor, and (iii) to the effect that upon the exercise of any such Fair Market Value option by the Licensor, the removal and restoration obligations set forth in subsection (e) below shall be of no further effect, unless the Company or their agents have damaged the Licensor's Local Unit Facility from the Company's operation and maintenance of such Renewable Energy Projects, in which case the restoration obligations shall remain in effect. The purchase price for any such Fair Market Value purchase is not contemplated in the sizing of the Bonds, and the Licensor shall be solely obligated to finance and pay (or pay out of available funds) such purchase price to or on behalf of the Company; *provided, however*, that to the extent practicable, the Authority shall determine whether it can assist the Licensor with the funding of any such Fair Market Value purchase through the issuance of bonds, notes or other obligations of the Authority, if so requested by the Licensor at such time, and if practicable, the Authority shall provide such Fair Market Value purchase funds to the Licensor at terms that are consistent with then existing current market conditions.

(e) The Authority shall cause the Power Purchase Agreement to include Force Majeure provisions, and shall further cause the Company Documents to include provisions to the effect that, upon the expiration of the Power Purchase Agreement (without or after one or more extensions to the extent permissible under applicable law), and to the extent the Licensor foregoes its right to exercise its Fair Market Value option set forth in subsection (d) above or, as applicable, its purchase option set forth in Section 5.2 below, the Company, or any other Sussex County Community College Licensees, as applicable, shall be obligated to (i) remove, within a reasonable period of time (as reasonably determined by the Authority), the Sussex County Community College Renewable Energy Projects from the Sussex County Community College Local Unit Facilities at the sole cost and expense and effort of the Company or any such other Sussex County Community College Licensees, and (ii) restore, within a reasonable period of time, the Sussex County Community College Local Unit Facilities, as improved by the Sussex County Community College Capital Improvement Projects, to the condition prior to the installation of the Sussex County Community College Renewable Energy Projects, reasonable wear and tear excepted, it being expressly understood by the Parties that the Local Unit shall expend no cost in any such removal or restoration, but shall, to the extent practical, provide such assistance as shall be necessary, desirable or convenient to effect such removal and restoration, and the Sussex County Community College Local Unit License shall not expire until such removal and restoration shall have been completed, and the Licensor issues a written certificate of an Authorized Officer of the Licensor to such effect to the Authority.

## **Section 5.2. Substitute Power Purchase Price.**

(a) To the extent the Company causes an Event of Default to occur as defined under the Company Lease Agreement prior to the expiration of its original fifteen (15) year term, or any subsequent period of extension, and the nature of such Event of Default (including, without limitation, the failure of the Company to make all Basic Lease Payments thereunder on time and in full) causes the termination of the Company Lease Agreement and the Power Purchase Agreement, this Sussex County Community College Local Unit License Agreement

shall continue in full force and effect, with the following changes, which shall not require amendment or supplement hereof or hereto, but which changes shall be in place automatically upon the termination of the Company Lease Agreement and the Power Purchase Agreement:

(i) As Section 5.1(c)(i) hereof controls the purchase and payment by the Licensor for electricity generated from its Sussex County Community College Renewable Energy Projects so long as the Power Purchase Agreement is in effect, upon the early termination of the Power Purchase Agreement for the reasons set forth above in subsection (a), the Licensor shall and hereby does agree, during the remainder of the Term, to purchase the electricity generated by the Sussex County Community College Renewable Energy Projects located on, or as applicable, in the Sussex County Community College Local Unit Facilities from the Authority, as owner of the Sussex County Community College Renewable Energy Projects, for the same price previously established under the prior Power Purchase Agreement (including any escalators set forth therein, the "**Gross Substitute Power Purchase Price**"), and the Licensor shall pay the Authority directly for any such electricity, or alternatively, the Authority may direct the Licensor to pay all or a portion of such Gross Substitute Power Purchase Price, less the amounts set forth in clauses (ii) and (iii) below (after taking into account such payments in clauses (ii) and (iii) below, the "**Net Substitute Power Purchase Price**") (A) to or on behalf of the County Security Provider, as part of the Reimbursement Collateral to the extent a County Security Agreement is then in place and the County Security has fully reimbursed the County for payments under its County Guaranty, or (B) if such conditions are not fulfilled, to the Trustee, on behalf of the County for deposit in the County Security Fund, as the case may be, or (C) as otherwise set forth in a Certificate of an Authorized Officer of the Authority. The Licensor shall make all such payments in full and on time, without regard to set-off or any other rights it might assert against the Authority, the County, the Trustee or any other person or entity for any reason, which rights against such persons or entities, if any, are hereby waived by the Licensor;

(ii) The Licensor acknowledges that a portion of the Gross Substitute Power Purchase Price may be retained by the Authority as payment of its annual Administrative Fee previously payable by the Company as an Additional Lease Payment under the Company Lease Agreement;

(iii) The Licensor acknowledges that upon the termination of the Company Lease Agreement, pursuant to this Section 5.2, the Authority may determine, under the Act, in accordance with all other applicable law, and in its sole discretion, to select an entity to operate and maintain the Sussex County Community College Renewable Energy Projects for the balance of the Term to the same extent as previously required in the Company Lease Agreement, or any performance bond required under the Company RFP and/or the Power Purchase Agreement, as the case may be, and the Licensor further acknowledges, that upon the written direction of the Authority and at the Authority's sole discretion, a

portion of the Gross Substitute Power Purchase Price shall be paid over or directed to the payment of such firm(s) rendering such services, if so required by the terms of any agreement between the Authority and such entity so rendering such services, the terms of which such agreement shall be automatically acceptable to the Licensor, without any further act, if the terms of any such agreement are in fact so within the parameters of the applicable Company Lease Agreement, the Company Service Agreement, or any performance bond required under the Company RFP and/or the Power Purchase Agreement; and

(iv) Notwithstanding Section 5.1(d) hereof, due to the termination of the Company Lease Agreement, pursuant to this Section 5.2, and the Company's extinguishment of any interest in and to the Sussex County Community College Renewable Energy Projects, unless a replacement person or entity and agreements are in place immediately prior to the expiration of the Term hereof, at such time the Licensor shall be entitled to acquire all of the Authority's right, title and interest in and to the Sussex County Community College Renewable Energy Projects for the purchase price of \$1, which shall be full and complete consideration for the acquisition thereof.

**LEASE PURCHASE AGREEMENT**  
**(Sussex County Renewable Energy Program, Series 2011)**

THIS “**LEASE PURCHASE AGREEMENT (Sussex County Renewable Energy Program, Series 2011)**” (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this “**Company Lease Agreement**”), dated as of December 1, 2011, is made by and among the **MORRIS COUNTY IMPROVEMENT AUTHORITY** (including any successors and assigns, the “**Authority**” or “**Lessor**”), duly created by resolution of the Board of Chosen Freeholders (“**Board of Freeholders**”) of the County of Morris (the “**County of Morris**”), State of New Jersey (“**State**”) as a public body corporate and politic of the State pursuant to and in accordance with the provisions of the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “**Act**”) and other applicable law, and **SUNLIGHT GENERAL SUSSEX SOLAR, LLC**, a limited liability company organized and existing under the laws of the State of Delaware, duly authorized to conduct business in the State (including any successors and assigns, the “**Company**” or “**Lessee**”).

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the “*County*”) desires to undertake the development and implementation of a renewable energy program (the “*Renewable Energy Program*”) for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and biomass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the “*Renewable Energy Projects*”) for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the “*Local Units*”);

**WHEREAS**, the Morris County Improvement Authority (the “*Authority*”) has been duly created by resolution no. 42 entitled “Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority” duly adopted by the Board of Chosen Freeholders (the “*Morris County Board of Freeholders*”) of the County of Morris (the “*Morris County*”) in the State of New Jersey (the “*State*”) on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “*Act*”), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy

Program, limited initially to Renewable Energy Projects involving solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the “*Local Unit Facilities*”);

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the “*Capital Improvement Projects*” and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the “*Projects*”), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the “*Municipal Series 2011 Local Units*”); and

- (iii) County, Sussex County Community College and Sussex County Technical School (the “*County Series 2011 Local Units*”);

(each a “*Series 2011 Local Unit*”, and, collectively, the “*Series 2011 Local Units*”), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, “County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds,

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year’s worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*”);

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the “*Bonds*”) shall be issued pursuant to the terms of that certain “RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY” adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the “*Bond Resolution*”), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County Security*") to be issued by a sufficiently rated banking or other financial institution, or if the County Security is provided by or on behalf of the Company, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for the payment of the Series 2011 Bonds), the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the "*EPC Contractor*"), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated December 12, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*EPC Contract*") between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the "*In-Kind Equity Contribution*") until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y) the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic Lease

Payment Date (the "Cash Equity Contribution") which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the In-Kind Equity Contribution, together with the Cash Equity Contribution shall be known as the "*Equity Contribution*"), (ii) a cash reserve in the amount of \$1,500,000 (the "*County Reserve*") to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution), which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

(A) Administrative Expenses (including the Authority's annual Administrative Fee, but excluding those properly payable by the Applicable Series 2011 Local Unit(s)) at the times set forth in invoices to be received by the Lessee from the Trustee in accordance with the Bond Resolution, provided that no further invoice shall be required for payment of the annual Administrative Fee and the Trustee's annual fee in an annual amount not to exceed \$5,000, which shall be due and payable in advance on the first day of any Bond Year (except that the initial Administrative Fee shall be funded from a portion of the proceeds of the Series 2011 Bonds);

(B) Interest on any overdue Lease Payments at the Overdue Rate, which amounts shall be immediately due and payable to the extent any Lease Payments are overdue;

(C) The Purchase Option Price in accordance with Section 701 of the Company Lease Agreement;

(D) The Mandatory Purchase Price in accordance with Section 702 of the Company Lease Agreement; and

(E) All other amounts, costs, liabilities and obligations that the Lessee assumes or agrees to pay to the Lessor or to others hereunder or under the terms of any other Company Document, which shall be deposited in the Administrative Fund if no other direction is set

forth in the Company Documents or to the particular Fund or Account set forth in any such Company Document.

(iv) For deposit in the County Security Fund, \$1,500,000, the initial amount of the County Security Fund Requirement for the County Reserve, to be funded by the Lessee no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and thereafter, any deficiency in the County Security Fund Requirement shall be funded by the Company to the extent of any available funds after payment of all reasonable Company expenses and prior to any member distributions; and

(b) The Lessee shall be entitled to a credit against Basic Lease Payments for unused moneys held in the Project Fund in accordance with Section 510(e)(i)(B) hereof, and for earnings on other funds held by the Trustee and certain other Revenue Fund transfers in accordance with Section 310(b) hereof, all at the times and in the amounts and determined in accordance with the provisions of the Bond Resolution and this Company Lease Agreement; provided, however, that such credits, if applicable, shall be applied first to the Interest Portion and then the Principal Portion of Basic Lease Payments and second to Additional Lease Payments due, if any.

(c) Notwithstanding anything to the contrary herein, the Lessee may make any and all Lease Payments in immediately available funds through wire transfer or otherwise, to the extent the Trustee or other payee consents in writing to such method of delivery.

**SECTION 302. Lease Payments to be Unconditional, Except for Power Purchase Price Payments; No Abatement or Set-Off.**

(a) Except as set forth in clauses (i) and (ii) below, the obligation of the Lessee to make Lease Payments in full and when due shall be absolute and unconditional in all events, including without limitation any circumstance regarding the Projects, regardless of whether any such event shall be foreseen or otherwise, and regardless of whether any such event shall occur by accident or otherwise. The Lessee hereby acknowledges and irrevocably covenants that the terms of this Company Lease Agreement create a valid and binding obligation of the Lessee to make Lease Payments from any available source under all circumstances.

(i) Lessee shall receive a credit against the Interest Portion of any Basic Lease Payment due and owing on any Basic Lease Payment Date to the extent of all Power Purchase Price Payments made by the Series 2011 Local Units and received by the Trustee since the immediately prior Basic Lease Payment

Date.

(ii) Lessee shall receive a credit against the Principal Portion of any Basic Lease Payment due and owing on any Basic Lease Payment Date to the extent of any remaining Power Purchase Price Payments made by the Series 2011 Local Units and received by the Trustee since the immediately prior Basic Lease Payment Date, after accounting for the application of the credit set forth in clause (i) above.

(iii) For purposes of applying this credit, Power Purchase Price Payments made by the Series 2011 Local Units and received by the Trustee within ten (10) Business Days of any Basic Lease Payment Date shall be deemed to have been received by the Trustee the Business Day after such Basic Lease Payment Date (and therefore the Lessee shall not be entitled to a credit for such amounts paid by the Series 2011 Local Units until the following Basic Lease Payment Date). The Lessor shall cause the Trustee, pursuant to the terms of the Bond Resolution, to notify the Company in writing (with a copy to the Lessor) of the aggregate amount of all Power Purchase Price Payments made by the Series 2011 Local Units since the prior Basic Lease Payment Date that are available for such credit, (A) as of the date that is thirty (30) days' prior to each Basic Lease Payment Date, and (B) on the Business Day immediately following the ten (10) Business Day credit cutoff date noted above.

(b) Notwithstanding any dispute between the Lessor and the Lessee, or between or among any party hereto and any one or more of any Renewable Energy Program Interested Party or any other person, in any case concerning any provision of any Program Document, the Lessee shall make all Lease Payments in full and when due, and the Lessee shall not withhold any Lease Payment pending final resolution of such dispute, nor shall the Lessee assert against the Lessor, the Trustee, any Renewable Energy Program Interested Party or any other person any right of set-off, recoupment or counterclaim against its obligation to make such Lease Payments, regardless of whether or not the Projects are completed, available for use, or used by the Lessee or any other Renewable Energy Program Interested Party, as applicable.

(c) However, nothing herein shall be construed to release the Lessor from the performance of its obligations hereunder; and if the Lessor should fail to perform any such obligation, the Lessee may institute such legal action against the Lessor as the Lessee may deem necessary to compel the performance of such obligation; but if and only if the Lessee is not in default under the terms of this Company Lease Agreement and if the Lessee shall have paid all amounts that are required to be paid pursuant to the terms of this Company Lease Agreement; and if the Lessee shall have performed all of its obligations under the terms of this Company Lease Agreement and continues to pay and perform as provided herein, the Lessee shall not be precluded from bringing any action it may otherwise have against the Lessor.

**SECTION 303. Termination of Lease Term; Lease Payment Obligation.**

The Lessee shall not terminate this Company Lease Agreement (other than such termination as is provided for under the terms of this Company Lease Agreement) or be excused from its obligations hereunder, including without limitation Lessee's obligations to make Lease Payments, for any reason, including, without limiting the generality of the foregoing, any acts or circumstances that may constitute an eviction or constructive eviction, failure of consideration, failure of title or frustration of purpose, any damage to or destruction of any Project, the taking by eminent domain of title or the right of temporary use of all or any part of any Project, or the failure of the Lessor or any other Renewable Energy Program Interested Party to perform and observe any agreement or covenant, whether expressed or implied, or any duty, liability or obligation that arises out of or that is related to this Company Lease Agreement or any other Program Document.

**SECTION 304. Return of Renewable Energy Projects upon Termination of Company Lease Agreement; CIP Acceptance State.**

(a) To the extent this Company Lease Agreement is terminated and the Renewable Energy Projects are sold by the Lessee to the Applicable Series 2011 Local Units for Fair Market Value (as defined in the Power Purchase Agreement) in accordance with Section 609(d) hereof, Lessee shall (i) take no action regarding the removal of any such Renewable Energy Projects from the Local Unit Facilities for such Applicable Series 2011 Local Units and (ii) expend such sums, and take all such other actions necessary to return the Capital Improvement Projects, if any, or if none, the Local Unit Facilities to the state of the Local Unit Facility prior to the commencement of the Local Unit License Agreement for each respective Series 2011 Local Unit, after giving effect to the normal wear and tear thereon or thereto from that would ordinarily degrade the state of any such Capital Improvement Projects, if any, or Capital Improvement Project from the date of any such CIP Acceptance Certificate, or if none, from the date of the Applicable Local Unit License Agreement, to the date of any such termination, the intent of this clause being for the Lessee to repair only such damage caused by or on behalf of the Lessee, including by any Contractor, to any such Capital Improvement Projects, if any, or Local Unit Facility, as applicable, from the Lessee's operation and maintenance of such Renewable Energy Projects.

(b) To the extent this Company Lease Agreement is terminated and the Renewable Energy Projects are eligible for sale by the Lessee to the Applicable Series 2011 Local Units for Fair Market Value in accordance with Section 609(d) hereof, but no accommodation on sale price or other terms shall be reached in accordance with Section 3.7(b) of the Power Purchase Agreement, and the Lessee shall accordingly be prospectively entitled to the full use and enjoyment of any such Renewable Energy Projects, the Lessee shall (i) promptly remove such Renewable Energy Projects from the Local Unit Facilities for such Applicable Series 2011 Local Units and (ii) expend such sums, and take all such other actions necessary to return the Capital Improvement Projects, if any, for any such Applicable Series 2011 Local Units to the CIP Acceptance State, or if no Capital Improvement Projects, to the state of the Local Unit Facility prior to the commencement of the Local Unit License Agreement for each respective Series 2011 Local Unit, after giving effect to the normal wear and tear thereon or thereto from that would ordinarily degrade the state of any such Capital Improvement Projects or Local Unit Facility from the date of any such CIP Acceptance Certificate, or if none, from the date of the Applicable Local Unit License Agreement, to the date of any such termination, the intent of this clause being for the Lessee to repair only such damage caused by or on behalf of the Lessee, including by any Contractor, to any such Capital Improvement Projects, if any, or Local Unit Facility, as applicable, from either (A) the Lessee's operation and maintenance of such Renewable Energy Projects or (B) the Lessee's removal of such Renewable Energy Projects.

(c) To the extent this Company Lease Agreement is terminated and the Renewable Energy Projects are sold by the Lessor to the Applicable Series 2011 Local Units for nominal consideration in accordance with Section 609(f) hereof (after a Lessee Event of Default), Lessee shall (i) take no action regarding the removal of any such Renewable Energy Projects

from the Local Unit Facilities for such Applicable Series 2011 Local Units and (ii) expend such sums, and take all such other actions necessary to return the Capital Improvement Projects, if any, for any such Applicable Series 2011 Local Units to the CIP Acceptance State, after giving effect to the normal wear and tear thereon or thereto from that would ordinarily degrade the state of any such Capital Improvement Projects from the date of any such CIP Acceptance Certificate to the date of any such termination, the intent of this clause being for the Lessee to repair only such damage caused by or on behalf of the Lessee, including by any Contractor, to any such Capital Improvement Projects, if any, from the Lessee's operation and maintenance of such Renewable Energy Projects.

**SECTION 305. Basic Lease Payments; Principal Portion.**

(a) The Principal Portion of Basic Lease Payments shall be due on each Basic Lease Payment Date in the amount of principal due and payable on the Bonds, including the Series 2011 Bonds, on the immediately succeeding Principal Payment Date, with respect to regularly scheduled Principal Payment Dates, all as set forth on **Exhibit A-3** hereto; *provided, however*, that no Principal Portion of Basic Lease Payments shall be payable by the Lessee, or the Principal Portion of Basic Lease Payments shall be reduced, as applicable, (a) to the extent of a balance available for payment of principal on the Bonds on deposit in the Principal Account of the Debt Service Fund as of any applicable Basic Lease Payment Date, as a result of (i) a credit to the Principal Portion of Basic Lease Payments in accordance with (A) Section 302(a)(ii) hereof with respect to certain Power Purchase Price Payments made by the Series 2011 Local Units, (B) Section 310(b) hereof with respect to investment earnings and certain other Revenue Fund transfers, (C) Section 510(e)(i)(B) hereof with respect to excess amounts in the Project Fund, (D) Section 5.07(3)(a) of the Bond Resolution regarding the transfer of funds from the County Security Fund, if any, to the Aged Account of the Revenue Fund, (E) Section 701(a) of the Company Lease Agreement with respect to partial prepayments (provided that there is no additional credit to the extent of that portion of the partial prepayment, if any, funded from the County Security Fund (if any) transfer contemplated in clause (D) above in order to avoid the same funds being double counted), (F) Section 3.7(a)(iv)(A) of the Local Unit License Agreements for each Series 2011 Local Unit upon the revocation of their Local Unit License, or (G) Section 802(c) of the Company Lease Agreement with respect to certain application of the Net Proceeds of any insurance or condemnation award or (ii) otherwise.

(b) The Lessor shall cause the Trustee, pursuant to the terms of the Bond Resolution, to notify the Company in writing (with a copy to the Lessor) of the availability of any such additional credit, where notice has not otherwise been provided for herein, in the notice that the Trustee is obligated to send to the Company (with a copy to the Lessor) regarding the investment earnings credit in accordance with Section 302(a)(iii)(B) hereof.

(b) The Lessor shall cause the Trustee, pursuant to the terms of the Bond Resolution, to notify the Company in writing (with a copy to the Lessor) of the availability of any such additional credit, where notice has not otherwise been provided for herein, in the notice that the Trustee is obligated to send to the Company (with a copy to the Lessor) regarding the investment earnings credit in accordance with Section 302(a)(iii)(B) hereof.

**SECTION 307. Interest Calculation.**

The Interest Portion of Basic Lease Payments is equal to the interest accrued on the Bonds, including the Series 2011 Bonds. Interest on the Bonds is computed upon the basis of a 360-day year, consisting of twelve 30-day months.

**SECTION 308. Additional Lease Payments.**

(a) At the times required in the definition of “Administrative Fee”, when not otherwise provided for from a portion of the proceeds of a Series of Bonds, including the Series 2011 Bonds, the Lessee shall pay the Administrative Fee to the Trustee as an Additional Lease Payment for deposit in the Administrative Expense Account of the Administrative Fund.

(b) The Lessee shall pay to the Trustee, for deposit in the Administrative Expense Account of the Administrative Fund as an Additional Lease Payment, from time to time

upon the Lessee's receipt from the Trustee of an invoice therefore in accordance with the terms of the Bond Resolution, reasonable compensation for all services rendered by the Trustee pursuant to the Bond Resolution, all reasonable expenses, charges, counsel fees and other disbursements (including those of the Trustee's attorneys, agents and employees) incurred in the performance of its powers and duties under the Bond Resolution, and any other Administrative Expenses.

(e) The Lessee shall immediately pay to the Trustee, as an Additional Lease Payment, the Mandatory Purchase Price in accordance with Section 702 hereof, reflecting the acceleration or any other mandatory payment of a Series of Bonds, including the Series 2011 Bonds.

(f) The Lessee shall immediately pay to the Trustee, as an Additional Lease Payment, the amounts required to fund the Restoration Security Fund at the Restoration Security Fund Requirement, in the amounts and at the times as set forth in Section 5.07(9) and Exhibit C to the Bond Resolution. Notwithstanding the foregoing, however, the Lessee shall be required to pay to the Restoration Security Fund an amount to bring the balance therein to the Restoration Security Fund Requirement from time to time if the Lessee has sufficient available cash flow to fund the same after making all other payments payable by the Company during such year; provided, however, in no event shall cash flow distributions be made to the members of the Company in any year in which the Restoration Security Fund is required to be funded to the extent the Restoration Security Fund is not funded in such year to the level required by the Restoration Security Fund Requirement.

**SECTION 309. General Obligation of Company to Make Lease Payments; Pledge of Reimbursement Collateral; Company Pledge Agreement.**

(a) The Lessee hereby covenants to make all Lease Payments due under this Company Lease Agreement, during the entire Lease Term, from any and all funds or other assets available to the Lessee, including without limitation, but not limited to, such economic benefits as may be conferred upon the Company pursuant to the Program Documents.

Subject to American Recovery and Reinvestment Act of 2009, as security and further assurance for the Lessee's obligations to make certain initial Lease Payments at the times, in the amounts, and otherwise in accordance with the terms and provisions of this Company Lease Agreement, the Lessee hereby grants to the Trustee a collateral security interest in the Section 1603 Grant, such grant of a collateral security interest to remain in effect only so long as set forth in the Company Pledge Agreement, including specifically Sections 2.01 and 7.11 thereof. At the Lessee's discretion for so long as the EPC Contractor is continuing to provide the In-Kind Equity Contribution and no Event of Default has occurred hereunder, the aforementioned security interest granted in favor of the Trustee may be subordinate to that of the EPC Contractor under the EPC Contract.

(c) Pledge of Certain Revenues to Authority. As security and further assurance for the Lessee's obligations to perform its obligations under the Company Documents, including the making of Lease Payments at the times, in the amounts, and otherwise in accordance with the terms and provisions of this Company Lease Agreement, the Lessee hereby grants to the Authority a collateral security interest in any funds it may receive with respect to the following:

At the Lessee's discretion for so long as the EPC Contractor is continuing to provide the In-Kind Equity Contribution and no Event of Default has occurred hereunder, the aforementioned security interest granted in favor of the Authority may be subordinate to that of the EPC Contractor under the EPC Contract.

The Lessor hereby covenants that the security interest granted pursuant to this

Section 309(c) shall not, provided no Event of Default has occurred and is continuing, adversely affect any of the Lessee's:

(A) use and enjoyment of the Renewable Energy Projects,

(B) sale of the renewable energy produced therefrom under the Power Purchase Agreement to the respective Series 2011 Local Units under the respective Local Unit License Agreements, or

(C) SRECs.

(d) As security and further assurance for the Lessee's obligations under the Company Documents, including the making of Lease Payments at the times, in the amounts, and otherwise in accordance with the terms and provisions of this Company Lease Agreement, the Lessee shall and hereby does acknowledge

(i) that the Lessor has the right to deliver the County Security Agreement, if any, in accordance with the provisions of Section 5.07 of the Bond Resolution, whereupon the Reimbursement Collateral shall be assigned and pledged by the Lessor to the County and the County Security Provider, if any, in accordance with the terms of the County Guaranty Agreement and such County Security Agreement, respectively, as to which terms the Lessor hereby covenants that the rights of the County and the County Security Provider to the Reimbursement Collateral shall not adversely affect any of the Lessee's:

(A) use and enjoyment of the Renewable Energy Projects,

(B) sale of the renewable energy produced therefrom under the Power Purchase Agreement to the respective Series 2011 Local Units under the respective Local Unit License Agreements, or

(C) SRECs,

in all cases prior to the date of an Event of Default caused by the Lessee, it being the express intent of the parties that any such assignment and pledge of the Reimbursement Collateral is only to protect the County and/or the County Security Provider to the extent any such Renewable Energy Program Interested Party shall not have been reimbursed for funds expended under the Program Documents due to the Lessee's actions or inactions under the Program Documents, and it being the further express intent of the parties that any and all such remedies flowing from any such Event of Default caused by the Lessee are within the Lessee's control to prevent by complying with the terms of this and all

other Program Documents, including without limitation the making of Lease Payments in full and on time,

(ii) upon an Event of Default, including an occurrence as a result of the Lessee's failure to make its Lease Payments on time and in full, the Lessee's rights to the Leased Property may be terminated in accordance with the terms hereof, and the County and the County Security Provider, if any, may realize all or a portion of the Reimbursement Collateral in accordance with the terms of their respective County Guaranty Agreement and County Security Agreement, if any and as applicable, which economic benefits comprising the Reimbursement Collateral had been previously available to the Lessee, and would continue to be so available, should any such Event of Default never occur or be timely cured.

(e) As security and further assurance for the Lessee's obligations under the Company Documents, including the making of Lease Payments at the times, in the amounts, and otherwise in accordance with the terms and provisions of this Company Lease Agreement, the Lessee hereby covenants to deliver the Company Pledge Agreement from the Pledgor defined in the Company Pledge Agreement contemporaneously herewith, and in any event, no later than the issuance of the Series 2011 Bonds, the terms of which Company Pledge Agreement are hereby acknowledged and accepted by the Lessee.

(f) The Lessee, as debtor, authorizes the Trustee, on behalf of itself as creditor, and the Lessor, as creditor, to file UCC1 financing statements with respect to the foregoing pledge of collateral contemplated by this Section 309.

**SECTION 310. Investment of Bond Resolution Funds; Credit for Certain Investment Earnings.**

(a) The Lessor shall cause the monies in the Funds and Accounts established under the Bond Resolution to be invested in accordance with the provisions of Section 5.11 of the Bond Resolution; *provided, however*, that the Lessee may direct the Lessor in writing to cause the Trustee to invest the Project Fund, the County Security Fund and the Restoration Security Fund in any Investment Securities available under the Bond Resolution; absent any such direction from the Lessee, the Lessor may cause the investment of the Project Fund, the County Security Fund and the Restoration Security Fund in such Investment Securities as the Lessor shall determine.

(b) (i) To the extent interest earnings on any such Funds or Accounts are transferred to the Aged Account of the Revenue Fund in accordance with the provisions of Section 5.11(3) and (4) of the Bond Resolution prior to any Basic Lease Payment Date, the Lessee shall be entitled to a credit in the amount of such earnings, plus interest earned thereon as of any such Basic Lease Payment Date, against the next due Interest Portion of Basic Lease

Payments due and owing from the Lessee, and if not fully applied, against the next due Principal Portion of Basic Lease Payments due and owing from the Lessee, and if still not fully applied or if additional interest earnings are on deposit in the Aged Account, against the next due future Interest Portion, and then Principal Portion, of Basic Lease Payments until fully applied. The Lessor shall cause the Trustee, pursuant to the terms of the Bond Resolution, to notify the Company in writing (with a copy to the Lessor), within ten (10) Business Days after each Basic Lease Payment Date, of the amount of such interest earnings credit available to the Company as of the next Basic Lease Payment Date.

(ii) To the extent the amount on deposit in the Aged Account of the Revenue Fund, including interest earnings thereon, are transferred to the Interest Account of the Debt Service Fund in accordance with the provisions of Section 5.05(4)(b)(i) of the Bond Resolution prior to any Basic Lease Payment Date, the Lessee shall be entitled to a credit in the amount of such transfer against the next due Interest Portion of Basic Lease Payments due and owing from the Lessee, and if not fully applied, against the next due Principal Portion of Basic Lease Payments due and owing from the Lessee, and if still not fully applied, against the next due future Interest Portion, and then Principal Portion, of Basic Lease Payments until fully applied. (iii) To the extent amount on deposit in the Aged Account of the Revenue Fund, including interest earnings thereon, are transferred to the Principal Account of the Debt Service Fund in accordance with the provisions of Section 5.05(4)(b)(ii) of the Bond Resolution prior to any Basic Lease Payment Date, the Lessee shall be entitled to a credit in the amount of such transfer against the next due Principal Portion of Basic Lease Payments due and owing from the Lessee, and if still not fully applied, against the next due future Interest Portion, and then Principal Portion, of Basic Lease Payments until fully applied. The Lessor shall cause the Trustee, pursuant to the terms of the Bond Resolution, to notify the Company in writing (with a copy to the Lessor), promptly after any such transfer, of the amount of such transfer credit available to the Company as of the next Basic Lease Payment Date.

## ARTICLE IV

### LEASE OF LEASED PROPERTY; TERM OF COMPANY LEASE AGREEMENT

#### SECTION 401. Lease of Leased Property.

(a) The Lessor hereby agrees to (i) finance its share of the Renewable Energy Projects and the Capital Improvement Projects, if any, for the Series 2011 Local Units, through the issuance of the Series 2011 Bonds, the balance of which shall be financed by or on behalf of the Lessee through the Equity Contribution, and (ii) enter into the Local Unit License Agreements with the Series 2011 Local Units, thereby giving the Lessor nominal ownership of the Renewable Energy Projects, and providing the Company with a license and access to the Local Unit Facilities for the Series 2011 Local Units.

(b) The Lessee hereby agrees to (i) design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects as described on **Exhibit A-1** hereof and (ii) design, permit, acquire, construct, renovate, and install the Capital Improvement Projects, if any, as described on **Exhibit A-2** hereof, all for the Series 2011 Local Units.

(c) Upon the acquisition of title to the Leased Property from the Contractor (the timing of which does not adversely affect the Lessee's obligations hereunder, including the obligations to make Lease Payments), the Lessor hereby agrees to lease to the Lessee, except for the Reserved Rights, all of its right, title and interest in and to the Leased Property for the duration of the Lease Term hereof, and to grant to the Lessee an option to purchase the Leased Property as set forth in Article VII hereof. The Lessee hereby agrees to take and lease from the Lessor, other than the Reserved Rights, all of the Lessor's right, title and interest in and to the Leased Property on the terms and conditions set forth in this Company Lease Agreement, including, without limitation, all of the Lessee's duties and obligations under the Program Documents. The lease of the Leased Property from the Lessor to the Lessee is also intended to convey to the Lessee any product of the Leased Property, including any right, title and interest of the Lessor in and to the SRECs and the right to electricity generated from the Renewable Energy Projects for the Series 2011 Local Units at their respective Local Unit Facilities, subject to the terms and conditions of the Program Documents. The Lessor hereby acknowledges the Lessee's intent to exercise such option to purchase the Leased Property during or upon the termination of the Lease Term.

(d) It is an express purpose of this Company Lease Agreement that the benefits and burdens of owning the Leased Property being conveyed by the Lessor to the Lessee pursuant to this Company Lease Agreement be such that the Lessee shall be deemed to be the owner of the Leased Property for purposes of the Code. Accordingly, Lessor and Lessee agree and acknowledge that, for federal income tax purposes: (i) Lessee will treat the use of Series 2011 Bond proceeds to purchase, construct and install the Renewable Energy Projects as construction loan advances of Series 2011 Bond proceeds to Lessee by Authority; (ii) Lessee will treat all payments (or credits against such payments) made under this Company Lease Agreement

as payments of interest and principal to the Authority with respect to such construction loan, with an allocation of principal and interest based upon the Authority's related principal and interest payments on the Series 2011 Bonds; and (iii) Lessee will report all payments made by the Series 2011 Local Units under the Power Purchase Agreements as revenues earned by Lessee. Notwithstanding the foregoing, for State law purposes, Lessor and Lessee agree that under the Program Document structure, any benefit to the Company shall be deemed incidental, the primary purpose of the Renewable Energy Program being to provide the Series 2011 Local Units with electricity at multi-year locked in rates to the greatest extent practicable below tariff, which goal has been effectively realized through the financing structure contemplated by the Program Documents.

#### **SECTION 402. Lease Term.**

(a) This Company Lease Agreement shall be and remain in effect with respect to the Leased Property (the "**Lease Term**") commencing on the date of authorization, execution, authentication and delivery of the Series 2011 Bonds that shall finance, among other things, the Renewable Energy Project component of the Leased Property, and continuing until terminated as provided for in this Section 402. The Term of this Company Lease Agreement shall terminate upon the occurrence of the first of the following of events:

(i) The exercise by the Lessee of its option or its requirement to purchase the Lessor's entire interest in the Leased Property pursuant to Article VII hereof;

(ii) The occurrence and continuation of an Event of Default hereunder by the Lessee and the Lessor's election to exercise remedies under this Company Lease Agreement pursuant to Section 1002 hereof;

(iii) Subject to an extension of this Company Lease Agreement in accordance with clause (iv) below, which provisions shall control even if the other requirements of this clause (iii) have been satisfied, the occurrence of all of the following: (A) the payment by the Lessee of all Lease Payments, which requirement as to Basic Lease Payments (unless sooner terminated or extended in accordance with the provisions hereof) shall be fully satisfied on December 15, 2027 (unless extended by an amendment hereto resulting from the issuance of Additional Bonds), (B) the Bonds, including the Series 2011 Bonds, shall no longer be Outstanding under the Bond Resolution, and if the provisions of Section 703(b) are applicable, and (C) on the date specified in the Certificate of Authorized Officer of the Lessee required by Section 703(b)(iii); or

(iv) The expiration date of any extension to the initial term of this Company Lease Agreement, which initial term would be determined by clauses (i), (ii), and (iii) above, as such extension date shall be set forth in any amendment of this Company Lease Agreement (in accordance with the

amendment provisions of Section 1103 hereof), to the extent permitted under then applicable law.

(b) Notwithstanding the foregoing, this Company Lease Agreement shall be in effect until all the obligations created hereunder have been fulfilled.

(c) Notwithstanding the foregoing, any termination by reason of clause (a)(ii) above shall not alter or terminate the Lessee's unconditional payment obligations hereunder, including Sections 302 and 309 hereof.

#### **SECTION 403. Net Lease.**

(a) The Lessee intends for the Lease Payments to be net to the Lessor. The obligation of the Lessee to pay Lease Payments shall be absolute and unconditional and shall in no way be released, discharged or otherwise affected for any reason, including, without limitation, (i) any defect in the condition, quality or fitness for use of, or title to, any Project or (ii) any damage to or abandonment, destruction, requisition or taking of any portion of any Project.

(b) The Lessee shall comply with and pay all (i) local, state and federal taxes incurred with respect to the design, permitting, acquisition, construction, renovation, installation, operation, maintenance, ownership, possession or use of any Renewable Energy Project or the design, permitting, acquisition, construction, renovation or installation of any Capital Improvement Projects, including, without limitation, income, franchise, gross receipts, sales, use, documentary stamp, excise and real and personal property taxes, (ii) payments in lieu of taxes, assessments, licenses, registration fees, freight and transportation charges and any other charges imposed or liabilities incurred with respect to the design, permitting, acquisition, construction, renovation, installation, operation, maintenance, ownership, possession or use of any Renewable Energy Project or the design, permitting, acquisition, construction, renovation or installation of any Capital Improvement Projects, (iii) Lease Payments, and (iv) penalties, fines or interest imposed on any of the foregoing during the Lease Term.

(c) The Lessee shall pay, from a portion of the proceeds of the Bonds or otherwise, all reasonable expenses incurred by the Lessor in connection with all filings or recordings of any documents relating to this Company Lease Agreement, the other Company Documents, or the Lessor's rights hereunder and thereunder. The Lessor shall have the right to make any of the payments required of the Lessee, but shall not be obligated to pay the same, and to charge such payment with interest at the Overdue Rate from the due date thereof through the date of payment as an Additional Lease Payment to be paid by the Lessee with the next Basic Lease Payment due under this Company Lease Agreement.

## ARTICLE V

### CONSTRUCTION OF PROJECT; CARE AND USE; DRAW PROCEDURES

#### SECTION 501. Design of Project.

(a) Within ninety (90) days of the execution and delivery of this Company Lease Agreement, the Lessee shall cause preliminary Plans and Specifications to be prepared by one or more Architects or other Contractors with respect to all of the Projects for all of the Series 2011 Local Units and within the parameters set forth in the Company RFP. In preparing or causing the preparation of such preliminary Plans and Specifications, the Lessee expressly acknowledges that the Lessor shall only be providing financing, through the issuance of the Series 2011 Bonds, for the Maximum Net Bond Funded Project Cost Amount, and that any costs and expenses beyond such amount, except for any Completion Projects agreed in writing to be financed by the Lessor, are to be borne solely and wholly by the Lessee from any available funds.

(b) Copies of the Plans and Specifications, when in form satisfactory to the Lessee, shall be promptly delivered to the Lessor and the Applicable Series 2011 Local Units for the review, comment and approval of the Applicable Series 2011 Local Units. Within five (5) Business Days of receipt, each Applicable Series 2011 Local Unit shall have reviewed, and either commented on or approved the Plans and Specifications prepared by the Lessee for each respective Renewable Energy Project and each Capital Improvement Project, if any, for the respective Series 2011 Local Units. To the extent approval from any Series 2011 Local Unit shall not be received, the Lessee shall promptly modify the Plans and Specifications to address the Series 2011 Local Unit's reasonable concerns, whereupon the Lessee shall resubmit the Plans and Specifications to the Lessor and the Applicable Series 2011 Local Unit for further review, comment and approval. Such process shall continue until the Lessor and Lessee have received the approval of all of the Series 2011 Local Units; provided however, that both parties and the Applicable Series 2011 Local Units shall endeavor to complete the review, comment and approval process within one (1) month of the original submission to the Lessor and the Series 2011 Local Units. Notwithstanding any other provision of this Agreement or any other Company Document, to the extent an Applicable Series 2011 Local Unit does not adhere to the timetable set forth in this Section 501(b), then the required completion date for the respective Renewable Energy Project shall be extended by a time period equal to the delay by the Applicable Series 2011 Local Unit.

(c) Promptly after having received the respective Series 2011 Local Unit approvals of the Plans and Specifications related to their respective Projects, the Lessee shall submit or cause the submission of such Plans and Specifications to all other federal, state or local governmental or quasi-governmental agencies having jurisdiction over the Projects or any part thereof, and shall receive any required Project permits or approvals.

## **SECTION 502. Construction of Project.**

(a) The Lessee shall be responsible for entering into the Development Agreement with the Developer and for the letting of Development Contracts with Contractors for (a) the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for all of the Series 2011 Local Units, (b) the design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects for all of the Series 2011 Local Units, (c) the completion and acceptance of the Renewable Energy Projects in accordance with the Plans and Specifications therefor and the other terms hereof, including the filing of the REP Acceptance Certificates in accordance with Section 510(d)(i) hereof, (d) the completion of the Capital Improvement Projects in accordance with the Plans and Specifications therefor and the other terms hereof, including the filing of the CIP Acceptance Certificates in accordance with Section 510(d)(ii) hereof, and (e) all other matters that are incidental to the performance of the duties and powers that are expressly granted to the Lessee herein in connection with any of the foregoing. The Lessee may carry out its functions hereunder without obtaining any further approval of the Lessor; provided, however, that the Lessee shall issue monthly reports to the Lessor and the Applicable Series 2011 Local Unit detailing the progress of the foregoing and the anticipated completion dates thereof.

(b) After complying with the notification provisions of this subsection (b), the Lessee shall enter into one or more Development Contracts with the Contractor(s) providing for (i) the design, permitting, acquisition, construction, installation, operation and/or maintenance of the Renewable Energy Projects in accordance with the Plans and Specifications and/or (ii) the design, permitting, acquisition, construction, renovation, and/or installation of the Capital Improvement Projects in accordance with the Plans and Specifications. At least five (5) Business Days prior to the Lessee's entering into of each such Development Contract, the Lessee shall notify and provide each of the Lessor, the Applicable Series 2011 Local Unit and the Construction Manager with substantially final drafts thereof. Within a reasonable period of time thereafter, the Lessor, the Applicable Series 2011 Local Units and/or the Construction Manager shall notify the Lessee of any deviation therein from the Plans and Specifications for the Projects or from applicable law, if any. The Lessee shall, in its discretion, determine to incorporate or disregard any such advice into the final form of such Development Contracts; provided, however, that any such action or inaction shall not relieve the Lessee from completing the Projects in accordance with the agreed upon Plans and Specifications and in accordance with all applicable law. After such five (5) Business Day notice period, the Lessee may enter into such Development Contracts, providing only that final executed copies thereof be delivered to each of the Lessor, the Applicable Series 2011 Local Unit and the Construction Manager. After such execution, the Lessee shall cause each Contractor to perform its obligations under the Development Contracts, and shall deliver the completed Project available for occupancy and use by the Company with respect to the Renewable Energy Projects and the Applicable Series 2011 Local Unit with respect to the Capital Improvement Projects, on or before December 14, 2012, as such date may be extended in accordance with the Program Documents.

(c) None of the Lessor, the Series 2011 Local Unit or the Trustee makes any warranties or representations or accepts any liabilities or responsibilities with respect to or for the adequacy, sufficiency or suitability of, or defects in or with respect to, the design, permitting, acquisition, construction, renovation or installation of the Project.

**SECTION 503. Construction Performance Bond and Other Guaranty.**

Any Development Contracts authorized to be entered into by the Lessor under the terms of this Company Lease Agreement in connection with the design, permitting, acquisition, construction, and installation of the Renewable Energy Projects and the design, permitting, acquisition, construction, renovation and installation of the Capital Improvement Projects shall be let in accordance with the requirements set forth in Article VII, Sections 7.3, 7.5 and 7.6 of the Company RFP attached as part of **Exhibit A-1** hereto. The Lessor shall cause each Contractor to provide a Construction Performance Bond covering, with respect to the portion of the Projects to which the Development Contract applies, the (a) performance of the Development Contract, including coverage for correction of defects developing within one year after completion of construction and commencement of commercial operation of each Project, and (b) payment for labor and materials, in each case issued by a responsible surety company qualified to do business in the State. Such bond or bonds shall name the Lessor, the Lessee as co-obligees, or shall otherwise entitle the Lessor to draw upon such Construction Performance Bond, and shall be in amounts equal to the fixed contract price plus the Equity Contribution, if not so included in the fixed contract price; provided, however, that the one-year post completion and commencement of commercial operation portion may be limited to ten percent of the Development Contract price allocated to such Project in the Development Contract.

**SECTION 504. Default in Contractors' Performance.**

(a) In the event of default of the Contractor, including any subcontractor, under any Development Contract made in connection with any Project, the Lessee shall promptly proceed, either separately or in conjunction with others, to exhaust the remedies of the Lessee against the Contractor or any subcontractor so in default and against each surety for the performance of such Contractor or subcontractor. All such actions shall be construed to be Costs of the Project for purposes of this Company Lease Agreement, inasmuch as the same shall be necessary to enable any such Project to be designed, permitted, constructed, acquired, renovated or installed in accordance with the terms hereof and of the Development Contracts. The Lessee agrees to advise the Lessor, in writing, of the steps it intends to take in connection with any such default. If the Lessee shall so notify the Lessor, the Lessor may, in good faith, in its own name or in the name of the Lessee, with notice to the Lessee, prosecute or defend any action or proceeding or take such other action involving the Contractor, including any subcontractor, or surety that the Lessor deems reasonably necessary, and in such event the Lessor hereby agrees to cooperate fully with the Lessee, but at the sole cost and expense of the Lessor. Any amounts recovered by way of damages, refunds, adjustments or otherwise in connection with the foregoing shall be paid into the Project Fund or the Revenue Fund, as shall be determined by the Lessee.

(b) In the event that the Lessee is unable to comply with its requirements under this Company Lease Agreement prior to the execution of any Acceptance Certificate or if for any reason the design, permitting, acquisition, construction, renovation and installation of any Project is delayed, there shall be no resulting liability on the part of the Lessor and there shall be no diminution in or postponement of the amounts that are due and payable by the Lessee to the Lessor under the terms of this Company Lease Agreement.

**SECTION 505. Additional Rights of Lessee.**

The Lessor agrees that the Lessee shall, at its own expense, have the right to make immaterial changes to any Project or to make such additions, modifications and improvements thereto as in the Lessee's judgment are necessary to enable it to perform its obligations under this Company Lease Agreement without materially impairing the Project or materially changing the design of the Project from the Plans and Specifications; provided, however, that none of the foregoing shall in any way damage the Project or cause the Project to be used for purposes other than those authorized under the provisions of all applicable law. With respect to any such additions (only) to the Project in accordance with the provisions of this Section 505, such additions shall for all purposes of this Company Lease Agreement be deemed to be and remain the property of the Lessee and shall not become part of the Project, and any such item may be removed, altered or changed by the Lessee upon or before the termination of this Company Lease Agreement; provided, however, that such removal, alteration or change shall not damage the Project or, if any such damage shall occur, the Lessee shall repair the same at its sole cost and expense.

**SECTION 506. Maintenance and Use of Project; Lessor Access; Repairs Not to Create Liens.**

(a) With respect to the Renewable Energy Projects or a portion thereof financed under this Company Lease Agreement, the Lessee shall, at its own and sole expense, maintain, preserve and keep such Projects or any portion thereof, as the case may be, in good repair, working order and condition, and shall from time to time make all repairs, replacements and improvements necessary to keep such Projects or any portion thereof in such condition. The requirements to repair and keep the Capital Improvement Projects in good working order shall remain with the owners thereof, the Applicable Series 2011 Local Units.

(b) The Lessee agrees that the Lessor and the Applicable Series 2011 Local Unit shall have the right (but not the obligation) to enter upon the premises at reasonable times and upon reasonable notice in a reasonable manner where the Renewable Energy Projects or a portion thereof, as the case may be, is located in order to inspect the same for the purpose of assuring that such Renewable Energy Projects are being properly maintained, preserved and kept in good repair and condition. The Lessee further agrees that the Lessor or the Applicable Series 2011 Local Unit shall have such rights of access to such Renewable Energy Projects as may be reasonably necessary to cause the proper maintenance, preservation and keeping in good repair of

such Renewable Energy Projects in the event of a failure by the Lessee to perform its obligations hereunder, which rights of access shall in no way imply any obligation on the part of the Lessor or the Applicable Series 2011 Local Unit.

(c) The Lessee shall not permit any mechanic's or materialmen's or other lien to be established or remain against any portion of the Projects for labor or materials furnished in connection with any remodeling, additions, modifications, improvements, repairs, renewals or replacements made by the Lessee pursuant to Section 505 hereof and this Section 506, other than Permitted Encumbrances; provided, however, that if any such lien is established and the Lessee notifies the Lessor of its intention so to do, the Lessee may, in good faith, contest any lien filed or established against the Projects and, in such event, permit the items so contested to remain undischarged and unsatisfied during the period of such contest and any appeal therefrom, unless the Lessor shall notify the Lessee that, in the opinion of independent counsel, by nonpayment of any such item, the interest of the Lessor or the Applicable Series 2011 Local Unit in such Project shall be materially endangered or such Project or any part thereof shall be subject to loss or forfeiture, in which event the Lessee shall promptly pay and cause to be satisfied and discharged all such unpaid items or provide the Lessor and the Applicable Series 2011 Local Unit with full security against any such loss or forfeiture. The Lessor shall cooperate, and shall cause the Applicable Series 2011 Local Unit to cooperate fully with the Lessee in any such contest upon such request at the sole cost and expense of the Lessee.

**SECTION 507. Possession and Enjoyment of Projects during Lease Term.**

(a) From and after the execution and delivery of the REP Acceptance Certificate with respect to the applicable Renewable Energy Projects, the Lessor hereby agrees that during the Lease Term the Lessee, so long as the Lessee is not in default hereunder, shall have the quiet use and enjoyment of such Renewable Energy Projects, and the Lessee shall during such Lease Term peaceably and quietly have, hold and enjoy such Renewable Energy Projects, without suit, trouble or hindrance from the Lessor, any 2011 Local Unit, or any party claiming under or through the Lessor or such Local Unit, except as expressly set forth in the Program Documents. The Lessor and the Applicable Series 2011 Local Unit shall, at the request of the Lessee and at the Lessee's sole cost and expense, join in any legal action in which the Lessee asserts its right to such possession and enjoyment against any third-party to the extent the Lessor and the Applicable Series 2011 Local Unit lawfully may so do; in addition, the Lessee, while not in default hereunder, may in its discretion and at its sole cost and expense bring any such action in the name of the Lessor.

(b) From and after the execution and delivery of the CIP Acceptance Certificate with respect to the applicable Capital Improvement Projects, if any, the Lessor and the Lessee hereby agrees that during the Lease Term, the Applicable Series 2011 Local Unit, as fee owner thereof, shall have the quiet use and enjoyment of such Capital Improvement Projects, and the Applicable Series 2011 Local Unit shall during such Lease Term peaceably and quietly have, hold and enjoy such Capital Improvement Projects, without suit, trouble or hindrance from the Lessor or the Lessee, or any party claiming under or through the Lessor or the Lessee, except as

may be expressly set forth in the Program Documents.

**SECTION 508. Lessee's Negligence.**

Subject to Section 608 hereof, the Lessee assumes all risks and liabilities, whether or not covered by insurance, for loss or damage to the Projects, or any portion thereof, and for injury to or death of any person or damage to any property, whether such injury or death be with respect to agents or employees of the Lessee or of Contractors or other third parties, and whether such property damage be to the Lessee's property or to the property of others, which injury, death or damage is proximately caused by the negligent conduct of the Lessee or its officers, employees and agents, including any Contractors. The Lessee hereby assumes responsibility for and agrees to reimburse the Lessor and the Applicable Series 2011 Local Unit for all liabilities, obligations, losses, damages, penalties, claims, actions, costs and expenses (including reasonable attorneys' fees), of whatsoever kind and nature, imposed on, incurred by or asserted against the Lessor or the Applicable Series 2011 Local Unit that in any way relate to or arise out of a claim, suit or proceeding based in whole or in part upon the negligent conduct of the Lessee or its officers, employees and agents, to the maximum extent permitted by law.

**SECTION 509. Project Costs; Payment.**

(a) The Project Costs to be incurred by the Lessee, or on behalf of the Lessee by any Contractor, relating to the acquisition, construction, and installation of the Renewable Energy Projects and the acquisition, construction, renovation and installation of the Capital Improvement Projects for all Series 2011 Local Units have been estimated by the Lessee under the Company RFP to be an aggregate amount not to exceed the sum of the Maximum Gross Bond Funded Project Cost Amount plus the Equity Contribution. Accordingly, the Lessor shall cause the Series 2011 Bonds to be issued, and further, shall cause the Maximum Net Bond Funded Project Cost Amount to be deposited in the Project Fund upon issuance of the Series 2011 Bonds pursuant to Section 2.03(7)(e)(i) and (ii) of the Bond Resolution. The Lessee represents that such initial deposit of the Maximum Net Bond Funded Project Cost Amount, together with interest to be earned thereon prior to disbursement in accordance with the terms hereof and of the Bond Resolution giving rise to the Maximum Gross Bond Funded Project Cost Amount, together with the Equity Contribution, shall be sufficient to pay all of the Costs to design, permit, acquire, construct, and install all of the Renewable Energy Projects and to design, permit, acquire, construct, renovate, and install all of the Capital Improvement Project Costs, in either case for all of the Series 2011 Local Units on, in or about their Local Unit Facilities and in accordance with the Plans and Specifications.

(b) It is expressly acknowledged by the Lessee and the Lessor that the Lessor shall be under no obligation to issue any Bonds in an amount in excess of the Maximum Net Bond Funded Project Cost Amount to fund any Project Cost, including the Costs of any Completion Project related to either the Renewable Energy Projects or the Capital Improvement Projects of the Series 2011 Local Units on, in or about their Local Unit Facilities, unless the Authority agrees to issue a Series of Additional Bonds pursuant to the provisions of Section

202(h) hereof.

(c) Any Project Costs in excess of such estimated Project Cost amount as set forth in subsection (a) above shall be solely borne by and solely paid from any funds available to the Lessee (which shall not include monies under the Bond Resolution, absent the Lessor's written consent). The Lessee hereby covenants to complete all of the Projects in accordance with the Plans and Specifications regardless of the actual Costs of such Projects and regardless of the amounts remaining on deposit in the Project Fund to pay such Project Costs. To the extent the Lessee shall complete all of the Projects in accordance with the Plans and Specifications in an aggregate amount less than any such deposit, plus estimated investment earnings, in the amount of such estimated Project Costs, any excess amounts remaining on deposit in the Project Fund, after the final Acceptance Certificate shall have been filed by the Lessee in accordance with the terms hereof, shall be applied as a credit to the next due Basic Lease Payments otherwise due and owing by the Lessee in accordance with Section 510(e)(i)(B) hereof and Section 5.02(3)(b) of the Bond Resolution.

(d) The Lessee shall cause moneys on hand from time to time in the Project Fund, held by the Trustee, to be made available for payment of all Project Costs, in the manner provided herein for submission of Draw Papers, including Sections 510 and 511 hereof, and in the Bond Resolution, including Sections 5.02(1) and 5.02(2)(a) thereof. The Lessee may cause moneys on hand from time to time in the Project Fund held by the Trustee to be made available for payment of all Company Development Fees and Expenses up to an aggregate amount of \$800,000 unless the Lessee receives the written acknowledgment of a higher ceiling from the Lessor, through the submission of a Certificate of an Authorized Officer of the Lessee substantially in the form of **Exhibit D** hereto, and otherwise following the terms set forth in Section 5.02(2)(b) of the Bond Resolution; provided, however, that notwithstanding the foregoing, the Lessee may not withdraw moneys from the Project Fund for payment of Company Development Fees and Expenses in excess of \$500,000, excluding those third-party and other Company Development Fees and Expenses approved by the Authority and paid upon issuance of the Series 2011A Bonds or thereafter, until the Company has satisfied, or caused the satisfaction of, all of the Completion Conditions. The Lessee, at its sole discretion, may apply less of the aggregate amount on deposit in the Project Fund and earmarked for payment of Company Development Fees and Expenses to such purpose, and instead apply all or a portion of such earmark (including any interest earned thereon) toward Costs of the Renewable Energy Projects or Capital Improvement Projects in the manner contemplated by Sections 510 and 511 hereof, and Section 5.02(2)(a) of the Bond Resolution. Any moneys remaining on deposit in the Project Fund, including interest earnings, upon the payment of all Project Costs (for which the Company shall submit Draw Papers) and all Company Development Fees and Expenses (for which the Company shall submit such **Exhibit D** form Certificate), shall be applied in the manner set forth in Section 510(e) hereof.

**SECTION 510. Submission of Draws; Procedures; Acceptance Certificates.**

(a) As payments are required for the Project under this Company Lease

Agreement, the Lessee shall prepare and assemble the Draw Papers (as defined below) and submit them to the Trustee.

(b) On or before 10:00 a.m. EST on each date on which the Lessee intends to submit Draw Papers requisitioning funds held by the Trustee in the Project Fund for Costs of the Renewable Energy Projects or Capital Improvement Projects for an Applicable Series 2011 Local Unit (each a “**Draw Date**”), the Lessee shall advise the Trustee in writing of the aggregate amount of funds needed for disbursement to pay such Project Costs. An amount equal to the lesser of (i) such aggregate amount of funds needed and (ii) the amount of funds available in the Project Fund (and not otherwise earmarked to pay the Costs of the Projects for the other Series 2011 Local Units) shall be applied to the payment of such Project Costs upon submission of the Draw Papers in accordance with subsection (c) below.

(c) Except as otherwise provided in Section 511 hereof, the Lessee shall cause the Trustee to make payments from the Project Fund to the Contractors under the Development Contracts or other third-party vendors, in either case for Costs of the Projects, but only after the Lessee shall have supplied the Trustee with a duly authorized, completed and executed requisition from the Lessee substantially in the form of **Exhibit C** hereto (together with any attachments thereto, the “**Draw Papers**”), each executed by the Lessee, acknowledged by the Applicable Series 2011 Local Unit (in accordance with Section 4.1(d) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), and acknowledged as to form only by the Lessor (in accordance with Section 4.1(e) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), stating with respect to each such payment to be made: (i) the requisition number, (ii) the name and address of the Contractor, other person, other corporation or other entity to which payment is due or, if for reimbursement to the Lessee, to which Contractor, other person, other corporation or other entity and when payment has previously been made by the Lessee, and as applicable in either case, the Development Contract under which such payment is or was due, (iii) the amount to be paid, (iv) the Renewable Energy Project or Capital Improvement Project to which such payment is to be applied, including the Applicable Series 2011 Local Unit and their Local Unit Facility, (v) that such payment obligation has been properly incurred in accordance with the Plans and Specifications, is an item of the Cost of such Project, is a proper charge against the Project Fund, and has not been the basis of any previous withdrawal, (vi) that attached thereto is a bill, invoice, receipt or other evidence that payment on such Project Cost is due and owing or has been paid by or on behalf of the Lessee. Lessee also agrees to file a monthly Initial Project Workforce Form AA201, and (vii) the amount being requisitioned shall not exceed seventy percent (70%) of any Renewable Energy Project Cost for which payment is being sought, it being expressly understood by the Lessee that for each requisition being submitted, the Lessee shall pay or cause to be paid at least thirty percent (30%) from the Equity Contribution (the ratio of not exceeding seventy percent (70%) payment from requisition and at least thirty percent (30%) payment from Equity Contribution for each Project Cost for which a requisition is submitted shall be defined herein as the “**Draw Paper Ratio**”), substantially in the form of, and consistent with the instructions included in, **Exhibit C-1** attached hereto, with the Lessor and the Division of Public Contracts

Equal Opportunity Compliance, through and including the month after the final Acceptance Certificate has been filed.

(d) From time to time, in accordance with the terms of the Company Lease Agreement, the Local Unit License Agreements with respect to the Series 2011 Local Units, and this Bond Resolution, the Lessee shall file with the Trustee, duly authorized, completed, executed, acknowledged, and delivered Acceptance Certificates in the form of **Exhibit B** hereto at the following times and with respect to the following matters, and upon receipt thereof, the Trustee shall take the following actions:

(i) The Lessee shall file with the Trustee (A) the REP Acceptance Certificates in the form of **Exhibit B-1** hereto, one for each Series 2011 Local Unit, signed by an Authorized Officer of the Lessee with respect to the Renewable Energy Projects or, where applicable, any Completion Project related thereto, for each such Series 2011 Local Units, (x) when the Lessee has submitted all Draw Papers respecting Costs of such Renewable Energy Projects or the Completion Project related thereto, if any, to be paid from the Project Fund that are eligible to be approved with respect thereto for each such Series 2011 Local Unit, (y) when all such Renewable Energy Projects or Completion Project related thereto, as the case may be, for each such Series 2011 Local Unit have been designed, acquired, constructed and installed in accordance with the Plans and Specifications therefor, (z) when all such Renewable Energy Projects or Completion Project related thereto, as the case may be, for each such Series 2011 Local Unit have been accepted by the Lessee and such Series 2011 Local Unit, and (B) a statement regarding the funds remaining on deposit in the Project Fund earmarked for any such Renewable Energy Projects, if any, all in accordance with Section 5.02 of the Bond Resolution. Each such REP Acceptance Certificate shall not be filed by the Lessee with the Trustee until so acknowledged by the Applicable Series 2011 Local Unit (in accordance with Section 4.2(c) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), until each such Certificate shall be further acknowledged by an Authorized Officer of the Lessor as to form only (in accordance with Section 4.2(d) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager) and until accompanied by one or more Interconnection Agreements with respect to all such Renewable Energy Projects or Completion Projects related thereto;

(ii) The Lessee shall file with the Trustee (A) the CIP Acceptance Certificates in the form of **Exhibit B-2** hereto, one for each Series 2011 Local Unit that is financing Capital Improvement Projects with a portion of the proceeds of the Bonds, signed by an Authorized Officer of the Lessee with respect to such Capital Improvement Projects or, where applicable, any Completion Project related thereto, for each such Series 2011 Local Units, (x)

when the Lessee has submitted all Draw Papers respecting Costs of such Capital Improvement Projects or the Completion Project related thereto, if any, to be paid from the Project Fund that are eligible to be approved with respect thereto for each such Series 2011 Local Unit, (y) when all such Capital Improvement Projects or Completion Project related thereto, as the case may be, for each such Series 2011 Local Unit have been designed, acquired, constructed, renovated and installed in accordance with the Plans and Specifications therefor, (z) when all such Capital Improvement Projects or Completion Project related thereto, as the case may be, for each such Series 2011 Local Unit have been accepted by such Series 2011 Local Unit, and (B) a statement regarding the funds remaining on deposit in the Project Fund earmarked for any such Capital Improvement Projects, if any, all in accordance with Section 5.02 of the Bond Resolution. Each such REP Acceptance Certificate shall not be filed by the Lessee with the Trustee until so acknowledged by the Applicable Series 2011 Local Unit, and until each such Certificate shall be further acknowledged by an Authorized Officer of the Lessor as to form only. Each such CIP Acceptance Certificate shall not be filed by the Lessee with the Trustee until so acknowledged by the Applicable Series 2011 Local Unit (in accordance with Section 4.3(c) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), and until each such Certificate shall be further acknowledged by an Authorized Officer of the Lessor as to form only (in accordance with Section 4.3(d) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager); and

At the Lessee's option, as directed in a Certificate of an Authorized Officer of the Company delivered by the Company to the Trustee, the Lessor, and the County accompanying any such partial prepayment, any such partial prepayment shall be either (i) credited to the next due Interest Portion of Basic Lease Payments due from the Lessee, and if not fully applied, to the next due Principal Portion of Basic Lease Payments due from the Lessee, and then to the next due future Interest Portion, and then Principal Portion, of Basic Lease Payments until fully applied or (ii) applied to defease Outstanding Bonds in the manner contemplated by Article XII of the Bond Resolution, and in the amounts and on the dates as set forth in any such partial prepayment Certificate of the Company, which in the case of such defeasance option selected by the Company, such Certificate of the Company shall be acknowledged by an Authorized Officer of the Authority to the effect that such dates and amounts conform to the requirements of the Bond Resolution. Upon any such partial prepayment, new schedules reflecting the revised Basic Lease Payments due from the Lessee, taking into account any such partial prepayment, shall be attached by the Lessor hereto.

The Lessee may not utilize funds in the County Security Fund or Restoration Security Fund, if any, toward any such partial prepayment; provided, however, that such limitation does not extend to monies previously released from the County Security Fund and transferred to the Aged Account in the Revenue Fund in accordance with Section 5.07(3)(a) of the Bond Resolution at the time of any such partial prepayment; provided, further however, that such limitation does not extend to such amounts that would be eligible for release pursuant to the calculations referred to in Section 5.07(3)(a) of the Bond Resolution immediately after any such partial prepayment (to the extent the Series 2011 Bonds will not be redeemed simultaneously with the prepayment, the Series 2011 Bonds that will be defeased upon the prepayment shall not be considered Outstanding for purposes of such calculations, and therefore can be released and applied to any such prepayment if the calculations so warrant release), to the extent the Lessor has verified such calculations in writing to the Lessee and the Trustee. In any such instance where this limitation does not so extend, the Lessee may direct the Trustee in writing, with a copy to the Lessor, to apply any such amounts in the County Security Fund, if any, to any such partial prepayment, and the Lessor shall cause the Trustee, pursuant to the terms set forth in the Bond Resolution, to promptly comply with any such direction.

(b) The Lessee is further hereby granted the option to prepay and purchase all

of the Lessor's right, title and interest in and to the Renewable Energy Projects (but not the Capital Improvement Projects, if any) in whole, at the times set forth in Section 701(c) hereof, by paying to the Trustee the "Purchase Option Price", which for any date of calculation shall be the sum of (i) the aggregate amount of unpaid principal of the Bonds to their maturity date under the terms of the Bond Resolution and as set forth in the Lessee's notice to the Trustee of such prepayment, (ii) any interest accrued on the Bonds from the last Interest Payment Date thereof on which interest thereon was paid to the final maturity date set forth in clause (i) above, (iii) the redemption premium, if any, applicable to the payment of the Bonds on the maturity date set forth in clause (i) above, and (iv) any costs of redemption or defeasance or other Administrative Expenses incurred by any party to a Program Document in implementing such prepayment.

The Lessee may direct the Trustee in writing, with a copy to the Lessor, that all or a portion of the Purchase Option Price (where all of the Outstanding Bonds shall be paid) shall be funded from the County Security Fund, if any, and the Lessor shall cause the Trustee, pursuant to the terms set forth in the Bond Resolution, to promptly comply with any such direction.

(c) The prepayment options set forth in subsections (a) and (b) above may be exercised by the Lessee at any time by (i) giving written notice to the Trustee and the Lessor of the exercise of such option at least fifty-two (52) days prior to the final maturity date set forth in such notice, and (ii) if the prepayment shall occur before January 15, 2021, complying with any other requirements of Article XII of the Bond Resolution that may be required by the Trustee or the Lessor to defease the Bonds in accordance with the terms of the Bond Resolution, including, without limitation, a verification report from a nationally recognized accounting firm approved by the Trustee and the Lessor to the effect that the amount so prepaid shall equal the Purchase Option Price (for a full prepayment) and shall therefore be sufficient to defease the Bonds (in whole or in part, as the case may be) by paying all of the principal thereof and redemption premium, if any, thereon through and including the final maturity thereof, plus all interest accruing thereon to such final maturity date. Such option shall be exercised by depositing with said notice cash and/or Investment Securities in such amount as shall be sufficient, together with interest to accrue thereon, to pay the Bonds to be defeased on said redemption date.

(d) Notwithstanding any provision herein or in any Program Document to the contrary, the Lessee may not advance refund, currently refund or otherwise refund any Series of Bonds with bonds, notes or other obligations of the Lessee, or such other moneys available to the Lessee, and use such moneys to make any prepayments hereunder unless (i) provision has been made by the Lessee for the payment of all (A) principal of, redemption premium if any, and interest on the Series of Bonds being refunded to any redemption date and (B) Administrative Expenses of the Lessor relating thereto, and (ii) if applicable, prior written notification of any such refunding has been given to the Lessor. Notwithstanding the foregoing, the Lessor may, in its sole discretion at the times and under the circumstances and for the purposes set forth in the Bond Resolution, advance refund, currently refund, or otherwise refund any Series of Bonds, the allocation of the benefit from which shall be determined between the Lessor and the Lessee at the time of any such defeasance and/or refunding.

**SECTION 702. Mandatory Prepayment and Purchase of Project; Mandatory Purchase Price.**

(a) Upon the acceleration of the Bonds, the Lessee shall forthwith prepay and purchase all of the Renewable Energy Projects (but not the Capital Improvement Projects, if any) by paying to the Trustee, immediately upon receipt of notice of such acceleration, the "*Mandatory Purchase Price*", which for any date of calculation shall be the sum of (i) the aggregate amount of the unpaid principal of the Bonds, (ii) any interest accrued on the Bonds from the last Interest Payment Date thereof on which interest thereon was paid to the date that the amount in clause (i) above has been paid in full, and (iii) any costs of acceleration or other Administrative Expenses incurred by any party to a Program Document in implementing such prepayment.

(b) In the event the Mandatory Purchase Price remains unpaid when due, the Lessee shall make an Additional Lease Payment immediately due and payable equal to, for any date of such deficiency, the amount of such deficiency times the per diem Overdue Rate.

**SECTION 703. Effect of Prepayment.**

(a) In the event of a deposit sufficient to purchase the Renewable Energy Projects (but not the Capital Improvement Projects, if any) pursuant to Section 701 or 702 hereof and to pay any and all amounts due hereunder, (i) all of the Lessor's right, title and interest in and to such Renewable Energy Projects (but not the Capital Improvement Projects, as to which the Lessor has no right, title or interest) shall be deemed sold to the Lessee for the consideration set forth in such Sections, (ii) except for the rights of the Series 2011 Local Units to effect a Fair Market Value purchase of their respective Renewable Energy Projects in accordance with Section 609(d) hereof, to the extent all Lease Payments have been made by the Lessee in full, all other covenants, agreements and obligations of the parties hereto under this Company Lease Agreement shall cease, terminate, and be deemed discharged and satisfied, and (iii) the Lessor and its officers shall take all actions necessary to authorize, execute and deliver to the Lessee any and all documents necessary to vest in the Lessee all of the Lessor's right, title and interest in and to the Renewable Energy Projects (but not the Capital Improvement Projects, as to which the Lessor has no right, title or interest), free and clear of all liens, leasehold interests and encumbrances, including, if necessary, a release of any and all liens or interests created under the provisions of this Company Lease Agreement. In such event, the Trustee shall cause a statement of debits and credits for such period or periods as shall be requested by the Lessor or the Lessee to be prepared and filed with the Lessor and the Lessee, and, upon the request of the Lessor or the Lessee, shall execute and deliver to the Lessor and the Lessee all such instruments as may be desirable to evidence such discharge and satisfaction.

(b) Notwithstanding anything to the contrary herein or in any Program Document, including without limitation subsection (a) above, to the extent the Lessee has satisfied all of the conditions of subsection (a) above in order to terminate this Company Lease Agreement, including the payment of all amounts due and owing hereunder and under the other Company

Documents, and at the date all of such conditions are satisfied, (i) the Lessee is not in any continuing default or Event of Default hereunder or under any Company Document, (ii) the term of one (1) or more Local Unit License Agreements with one (1) or more Series 2011 Local Units has not expired, (iii) the Lessee delivers to the Lessor and such Series 2011 Local Unit a Certificate of an Authorized Officer of the Lessee expressing the Lessee's interest in continuing the term of this Company Lease Agreement to a specified date which date shall be no later than the termination date of any such Local Unit License Agreements, then without any further action (a) the Company Lease Agreement shall not terminate, but rather shall continue for a term no longer than the termination date of the Applicable Local Unit License Agreement, all as set forth in any such Certificate, (b) the Lessee's only remaining payment obligations under the Company Lease Agreement are to pay rent for the Leased Property in an amount that shall be the sum of (I) the Authority's annual Administrative Fee, (II) any Administrative Expense that Lessee causes the Authority, the County or any such Series 2011 Local Unit to incur, both as Additional Lease Payments hereunder, there being no continuing obligation to make Basic Lease Payments as the Series 2011 Bonds and any Additional Bonds that are Outstanding are either defeased or redeemed under the Bond Resolution, and (III) ten (10) dollars per annum, payable annually in advance, (c) the Lessee can only cause an Event of Default hereunder should the Lessee fail to pay such amounts, fail to operate and maintain the Applicable Renewable Energy Project, or fail to allow the Applicable Series 2011 Local Unit to discharge its obligations under its Local Unit License Agreement, such as to take and pay for the Electricity generated under the Renewable Energy Program by the Lessee for the benefit of any such Series 2011 Local Unit, and (d) the Company retains all other rights, duties and obligations under the Program Documents, until the termination of the Applicable Local Unit License Agreement with respect to the particular Project, including without limitation the right to receive the PPA Price, as escalated, for the duration of any such term. The Lessee may continue this arrangement with the Authority and more than one (1) Series 2011 Local Unit, to the extent all such conditions are satisfied with respect to any other Series 2011 Local Unit and their respective Renewable Energy Projects, until the termination of this Company Lease Agreement, without interruption, in accordance with the terms of Section 402(a)(iii) hereof, in which case title to the Applicable Renewable Energy Project(s) shall transfer in accordance with the provisions of Section 609(b) hereof.

**SECTION 704. Substitution of Project.**

The Lessee is hereby granted the full power of substitution with respect to any Project so long as the Lessor and the Trustee receive the prior written consent of the Applicable Series 2011 Local Unit and the Authority, along with revised Exhibits to the Applicable Program Documents.

## ARTICLE VIII

### DAMAGE, DESTRUCTION AND CONDEMNATION; USE OF NET PROCEEDS

#### SECTION 801. Damage, Destruction and Condemnation.

(a) If either (i) the Projects or any portion thereof are destroyed or damaged by fire or other casualty or (ii) title to or the temporary use of the Projects or any part thereof, or the interest of the Lessor, the Applicable Series 2011 Local Unit or the Lessee in the Projects or any part thereof, shall be taken under a valid exercise of the power of eminent domain by any governmental body, other than Sussex County, a division of Sussex County Government, any Series 2011 Local Unit, or by any person, firm or corporation acting under governmental authority, and provided the Lessee shall not have caused an Event of Default hereunder, in which event the Net Proceeds shall be applied as directed by the Lessor, the Lessee shall have the following mutually exclusive rights to cause the application of Net Proceeds sufficient to perform either of the following, which the Lessee may exercise in its sole discretion: (y) the Lessee shall cause the application of any Net Proceeds to the prompt repair, restoration, modification, improvement, construction or installation of the Project by causing the Lessor to transfer, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so transfer, such Net Proceeds to the Trustee for deposit in the Project Fund, thereby allowing the Lessee to file with the Trustee the appropriate Draw Papers to requisition such Net Proceeds from the Project Fund in accordance with the terms hereof, in which event the Lessee shall continue to be obligated to pay the Lease Payments due hereunder, without adjustment; or (z) the Lessee shall exercise its option to purchase the Project in whole by paying the then applicable Purchase Option Price in accordance with Section 701 hereof and causing the Lessor to deposit, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so deposit, such Net Proceeds with the Trustee in the Revenue Fund, the Debt Service Fund, or such other Fund or Account that would allow the application of the Net Proceeds toward the Purchase Option Price. Subsections (y) and (z) above are mutually exclusive.

(b) If title to or the temporary use of the Projects or any part thereof, or the interest of the Lessor, the Applicable Series 2011 Local Unit or the Lessee in the Projects or any part thereof, shall be taken under a valid exercise of the power of eminent domain by Sussex County, a division of Sussex County Government, or any Series 2011 Local Unit, and provided the Lessee shall not have caused an Event of Default hereunder, in which event the Net Proceeds shall be applied as directed by the Lessor, the Lessee shall have the following mutually exclusive rights to cause the application of Net Proceeds sufficient to perform either of the following, which the Lessee may exercise in its sole discretion: (y) the Lessee shall cause the application of any Net Proceeds to the prompt repair, restoration, modification, improvement, construction or installation of the Project by causing the Lessor to transfer, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so transfer, such Net Proceeds to the Trustee for deposit in the Project Fund, thereby allowing the Lessee to file with the Trustee the appropriate Draw Papers to requisition such Net Proceeds from the Project

Fund in accordance with the terms hereof, in which event the Lessee shall continue to be obligated to pay the Lease Payments due hereunder, without adjustment; or (z) the Lessee shall exercise its option to have no further obligation with respect to the affected Project(s). Subsections (y) and (z) above are mutually exclusive.

(c) In the event of any damage, destruction, condemnation, taking or other event that constitutes a revocation or deemed revocation under Section 3.7 of any Local Unit License Agreement with respect to a Project requiring payment of the amounts set forth in Section 3.7(a)(iv) of such Local Unit License Agreement, upon receipt of such amount, this Company Lease Agreement and the obligations of Lessee thereunder with respect of and solely with respect to such Project, shall terminate and title thereto shall vest in Lessee. Such event shall have no effect on the Lessee's obligations to continue to make all Lease Payments on time and in full.

#### **SECTION 802. Insufficiency of Net Proceeds.**

If the Net Proceeds are insufficient to pay in full the cost of any repair, restoration, modification or improvement relating to the Projects as so damaged or taken, the Lessee shall either:

(a) direct the application of the Net Proceeds in the manner as set forth in Sections 801(a)(y) or 801(b)(y) above, thereby requiring the Lessee to complete the work relating to the Projects as so set forth, except that the Lessee shall itself pay any Project Costs in excess of the amount of the Net Proceeds, and, if by reason of any such insufficiency of the Net Proceeds the Lessee shall make any payments pursuant to the provisions of this Section 802(a), the Lessee shall not be entitled to any reimbursement therefor from the Lessor, nor shall the Lessee be entitled to any diminution of the Lease Payments due hereunder with respect to the Projects;

(b) direct the application of the Net Proceeds in the manner as set forth in Section 801(a)(z) above, thereby requiring the Lessee to make an equity contribution to the extent the Net Proceeds are insufficient to cover the Purchase Option Price and thereupon exercise Lessee's option to purchase the Project in whole, in accordance with Article VII hereof, in which event the Net Proceeds shall be used toward this purpose; or

(c) direct the application of the Net Proceeds consistent with the determination contemplated in Section 801(b)(y) above, thereby causing the Net Proceeds to be applied to the payment of the Interest Portion and, to the extent available, the Principal Portion of the Basic Lease Payments due on the immediately succeeding Basic Lease Payment Dates until all of the Net Proceeds have been so applied, in which event the Lessee shall not be entitled to any reimbursement therefor from the Lessor nor shall the Lessee be entitled to any diminution of the Lease Payments due hereunder with respect to the Project. Subsections (a), (b) and (c) above are mutually exclusive.

**SECTION 803. Cooperation of Lessor.**

The Lessor and the Applicable Series 2011 Local Unit shall cooperate fully with the Lessee, at the sole cost and expense of the Lessee, in filing any proof of loss with respect to any insurance policy covering the casualties described in Section 801 hereof and in the prosecution or defense of any prospective or pending condemnation proceeding with respect to the Projects or any part thereof. In no event shall the Lessor or the Applicable Series 2011 Local Unit voluntarily settle, or consent to the settlement of, any proceeding arising out of any insurance claim or any prospective or pending condemnation proceeding with respect to the Projects or any part thereof, without the prior written consent of the Lessee.

**SECTION 804. Condemnation of Other Property Owned by Lessee.**

The Lessee shall be entitled to the Net Proceeds of any condemnation award or portion thereof made for the destruction of, damage to or taking of its property not included in the Project.

## **ARTICLE IX**

### **ASSIGNMENT, SUBLEASING, MORTGAGING AND SELLING**

#### **SECTION 901. Assignment by Lessor.**

Except for this Company Lease Agreement and as otherwise provided below and in any other Program Document, including without limitation with respect to its payment obligations under the Power Purchase Agreement to the Series 2011 Local Units under the Local Unit License Agreements, or with respect to the assignment of the Reimbursement Collateral to the County and the County Security Provider, if any, under the County Guaranty Agreement and the County Security Agreement, if any and as applicable, the Lessor shall not assign its obligations under this Company Lease Agreement and no such purported assignment thereof shall be effective. All of the Lessor's right, title and interest in and to this Company Lease Agreement, the Lease Payments and the other amounts due to it hereunder and under the Project shall be assigned by the Lessor to the Trustee pursuant to the pledge of the Trust Estate under the Bond Resolution no later than the execution and delivery hereof.

#### **SECTION 902. Lease Payments to Trustee.**

The Lessor and the Lessee hereby agree that from and after the adoption of the Bond Resolution and the execution of this Company Lease Agreement, so long as the same shall remain in effect, payment by the Lessee to the Trustee or, if applicable, to the successor thereto of any moneys or sums due hereunder from the Lessee to the Lessor shall satisfy the obligation of the Lessee to pay such money or sums.

#### **SECTION 903. Assignment and Subleasing by Lessee.**

This Company Lease Agreement may not be assigned or subleased by the Lessee without the prior written consent of the Lessor and the Applicable Series 2011 Local Units, in their sole discretion, as the Lessee entered into this Company Lease Agreement as the successful respondent pursuant to the Company RFP and all applicable law, and the Lessor and the Series 2011 Local Units have selected the Lessee, and not any assignee, to receive the rights, and perform the duties and obligations hereunder. Any such purported assignment or sublease shall be deemed null and void without such prior written consent.

#### **SECTION 904. Restriction on Mortgage or Sale of Project by Lessee.**

The Lessee shall not mortgage, sell, assign, transfer or convey the Projects or any portion thereof during the Term of this Company Lease Agreement without the prior written consent of the Lessor and the Applicable Series 2011 Local Units, in their sole discretion, as the Program Documents contemplate such Projects being available, directly in the case of the Capital Improvement Projects, or indirectly in the case of the Renewable Energy Projects as a source of power, for the benefit of the Series 2011 Local Units.

**SECTION 905. Reorganization.**

It is understood and agreed by the parties hereto that reorganization of the Lessee with the consent of the Lessor shall not constitute an assignment under this Article IX.

## ARTICLE X

### EVENTS OF DEFAULT; REMEDIES

#### SECTION 1001. Events of Default.

(a) An Event of Default hereunder means the occurrence of any one or more of the following events:

(i) The Lessee fails to (A) make any Basic Lease Payment as it becomes due or (B) make any Additional Lease Payment as it becomes due or maintain any insurance requirement set forth hereunder, and in the case of (B) only, such failure is not cured within thirty (30) days after written notice thereof has been given to the Lessee by the Lessor or the Trustee; provided, however, if the Basic Lease Payment is paid with funds from the County Reserve, such payment will not constitute an Event of Default.

(ii) The Lessee fails to perform or observe any other covenant, condition or agreement to be performed or observed by it hereunder or under any Company Document, and such failure is not cured within ninety (90) days after written notice thereof has been given to the Lessee by the Lessor or the Trustee; provided, however, that if such failure cannot be cured within said ninety (90) day period, the Lessee shall not be in default if it has commenced to cure within such ninety (90) day period, it continuously proceeds with the cure, and if such action to cure the default is acceptable to the Lessor and the Lessor indicates the same in writing.

(iii) The discovery by the Lessor or the Trustee that any material statement, representation or warranty made by the Lessee in this Company Lease Agreement, or in any writing delivered by the Lessee pursuant hereto or in connection herewith, is false, misleading or erroneous in any material respect.

(iv) The Lessee becomes insolvent or admits in writing its inability to pay its debts as they mature or applies for, consents to or acquiesces in the appointment of a trustee, receiver or custodian for the Lessee or a substantial part of its property; or in the absence of such application, consent or acquiescence, a trustee, receiver or custodian is appointed for the Lessee or a substantial part of its property and is not discharged within sixty (60) days; or any bankruptcy, reorganization, debt arrangement, moratorium or other proceeding under bankruptcy or insolvency law, or any dissolution or liquidation proceeding, is instituted by or, if permitted by law, against the Lessee and, if instituted against the Lessee, is consented to or acquiesced in by the Lessee or is not dismissed within sixty (60) days.

(v) The entering of an order or decree appointing a receiver for the Leased Property or for any part thereof or for the revenues thereof with or without the consent or acquiescence of the Lessee, and such order or decree shall not be vacated, discharged or stayed within ninety (90) days after the date of such entry.

(b) Upon the occurrence of an Event of Default under this Section 1001, the Trustee shall transmit a written notice, including electronic mail, of such Event of Default to the Lessor, the Lessee and the Series 2011 Local Units within thirty (30) days of the Trustee's knowledge thereof.

(c) Upon the occurrence of an Event of Default under this Section 1001, all obligations of the Lessee under this Company Lease Agreement shall remain in full force and effect.

#### **SECTION 1002. Remedies.**

(a) Upon the occurrence and continuation of any Event of Default as described in Section 1001 hereof, at the option of the Lessor, the Mandatory Purchase Price with respect to the Project shall become immediately due and payable by the Lessee upon the Lessor's declaration. So long as the Lessor is not in default hereunder, the Lessor shall have the right to direct all remedial proceedings under this Company Lease Agreement, including the consent to remedies taken upon an Event of Default. Subject to the preceding sentence, the Lessor shall have the right, without any further demand or notice, to take one or any combination of the remedial steps below:

(i) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and exclude the Lessee from using it; provided, however, that if this Company Lease Agreement has not been terminated, the Lessor shall return possession of same to the Lessee when the Event of Default has been cured; and provided, further, that the Lessee shall continue to be responsible for the Lease Payments due hereunder during the remainder of the Lease Term.

(ii) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and sell, lease or sublease its interest therein or any part thereof.

(iii) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and apply any portion of same, or of the proceeds of same (in accordance with clause (ii) above) in accordance with the

provisions of Section 5.07(1)(b) of the Bond Resolution.

(iv) With or without terminating this Company Lease Agreement, declare all Lease Payments due or to become due hereunder to be immediately due and payable by the Lessee, whereupon such Lease Payments shall be immediately due and payable.

(v) Take whatever action at law or in equity may appear necessary or desirable to collect the Lease Payments then due and thereafter to become due hereunder with respect to the Project or to enforce performance and observance of any obligation, agreement or covenant of the Lessee under this Company Lease Agreement.

(b) Notwithstanding any other provisions of this Section 1002, in no event shall there be any transfer of any Renewable Energy Project or any interest therein to any person (such as a governmental entity) if such transfer would result in a Tax Benefit Recapture Event as described in Section 609.

#### **SECTION 1003. Reinstatement.**

Notwithstanding any termination of this Company Lease Agreement that shall be made in accordance with the provisions of Section 1002 hereof, unless the Lessor shall have entered into a firm bilateral agreement providing for the reletting of the Project for a period of at least one year, if, after the maturity of the Outstanding Bonds shall have been accelerated by the Trustee (upon the occurrence of an Event of Default) under the terms of the Bond Resolution, (a) all arrears of interest on such Outstanding Bonds and interest on overdue installments of principal, redemption premium, if any, and (to the extent permitted by law) interest on such Bonds at a rate per annum equal to the highest rate per annum borne by any of the Bonds shall have been paid, (b) the principal and redemption premium, if any, on all Outstanding Bonds that have become due and payable (other than by an acceleration) shall have been paid, (c) all other sums payable under the terms of the Bond Resolution, except the principal of and the interest on such Bonds that by such acceleration shall have become due and payable, and under the terms of the other Program Documents shall have been paid, (d) all other things shall have been performed in respect of which there was an Event of Default, (e) the reasonable fees and expenses of the Lessor, the Trustee, the Series 2011 Local Units, the County, the County Security Provider, and the Bondholders, including Administrative Expenses thereof (including reasonable attorneys' fees paid or incurred) shall have been paid, and (f) such acceleration under the terms of the Bond Resolution is rescinded, then the Lessee's Event of Default hereunder shall be waived without further action by the Trustee or the Lessor or any other Renewable Energy Program Interested Party. Upon such payment and waiver, this Company Lease Agreement shall be fully reinstated as if it had never been terminated, and the Lessee shall be restored to the use, occupancy and possession of the Renewable Energy Projects and the other Leased Property.

**SECTION 1004. Election of Remedies; No Waiver of Elected Remedies.**

No failure on the part of either party to exercise, and no delay in exercising any right or remedy so provided for herein, shall operate as a waiver thereof, nor shall any single or partial exercise by either party of any right or remedy so provided hereunder preclude any other or further exercise of any other right or remedy provided hereunder.

**SECTION 1005. No Additional Waiver Implied by One Waiver.**

In the event any agreement contained in this Company Lease Agreement should be breached by either party and thereafter waived by the other party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder, and shall not be construed to be an implied term hereof or a course of dealing between the parties hereto.

**SECTION 1006. Agreement to Pay Attorneys' Fees and Expenses.**

In the event either party to this Company Lease Agreement should default under any of the provisions hereof and the non-defaulting party should employ attorneys or incur other expenses for the collection of moneys or the enforcement, performance or observance of any obligation or agreement on the part of the defaulting party herein contained, the defaulting party agrees that it shall, on demand therefor, pay to the non-defaulting party the reasonable fees of such attorneys and such other expenses so incurred by the non-defaulting party.

**SECTION 1007. Late Charges.**

Whenever any payment of Lease Payments is not made when due, the Lessee promises to pay to the Lessor, in addition to the amount due, interest thereon at the Overdue Rate; provided, however, that this Section 1007 shall not be applicable if or to the extent the application thereof would affect the validity of this Company Lease Agreement.

**SECTION 1008. Delay; Notice.**

No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof. Any such right or power may be exercised from time to time and as often as may be deemed expedient, and any one exercise thereof shall not be deemed an exclusive exercise. To entitle any party to exercise any remedy reserved to it in this Company Lease Agreement, it shall not be necessary to give any notice other than as may be specifically required in this Company Lease Agreement.

**SECTION 1102. Severability.**

In the event any provision of this Company Lease Agreement shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.

### **SECTION 1103. Amendments, Changes and Modifications.**

(a) This Company Lease Agreement may be amended, supplemented, or otherwise modified with respect to the recomputation of Basic Lease Payments or Additional Lease Payments related to the Purchase Option Price or Mandatory Purchase Price, or with respect to any other term of this Company Lease Agreement affecting the security of the Bond Resolution, by (i) written amendment authorized executed and delivered by each of the Lessor and the Lessee and (ii) by compliance with Article XI of the Bond Resolution regarding conditions required for amendment of the Bond Resolution, which may include the consent of the Trustee.

(b) Other than as provided in subsection (a) above, this Company Lease Agreement may be amended, supplemented, or otherwise modified with respect to its Term or any of its other provisions by written amendment authorized and executed by the Lessor, the Lessee, and to the extent any of the rights, duties or obligations of any Series 2011 Local Units or other Renewable Energy Program Interested Parties under a Program Document are affected, with the written acknowledgment and consent of any one or more such Series 2011 Local Units and/or Renewable Energy Program Interested Parties, as applicable.

(c) To the extent Bonds are Outstanding at the time of any amendment, supplement or modification of this Company Lease Agreement, any such proposed amendment, supplement or modification, in substantially final form, shall be delivered by the Lessor at least fifteen (15) days in advance of its execution to the Trustee and each Rating Agency that at such time is rating any such Bonds, unless this provision is waived by any such Rating Agency and the Trustee; moreover, no such amendment, supplement or modification shall be entered into by the parties unless there shall be no adverse affect on the rating of such Bonds. Where there shall be no such adverse affect on the rating of such Bonds, a final copy of any such authorized, executed and delivered amendment, supplement or modification of this Company Lease Agreement shall be promptly delivered to each such Rating Agency and the Trustee.

### **SECTION 1104. Further Assurances and Corrective Instruments.**

**POWER PURCHASE AGREEMENT**  
**(Sussex County Renewable Energy Program, Series 2011)**

THIS “**POWER PURCHASE AGREEMENT (Sussex County Renewable Energy Program, Series 2011)**” (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this “*Power Purchase Agreement*”), dated as of December 1, 2011, is made by and among the **MORRIS COUNTY IMPROVEMENT AUTHORITY** (including any successors and assigns, the “*Authority*”), duly created by resolution of the Board of Chosen Freeholders (“*Board of Freeholders*”) of the County of Morris (the “*County of Morris*”), State of New Jersey (“*State*”) as a public body corporate and politic of the State pursuant to and in accordance with the provisions of the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “*Act*”) and other applicable law, and **SUNLIGHT GENERAL SUSSEX SOLAR, LLC**, a limited liability company organized and existing under the laws of the State (including any successors and assigns, the “*Company*” or “*Service Provider*”).

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the “*County*”) desires to undertake the development and implementation of a renewable energy program (the “*Renewable Energy Program*”) for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the “*Renewable Energy Projects*”) for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the “*Local Units*”);

**WHEREAS**, the Morris County Improvement Authority (the “*Authority*”) has been duly created by resolution no. 42 entitled “Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority” duly adopted by the Board of Chosen Freeholders (the “*Morris County Board of Freeholders*”) of the County of Morris (the “*Morris County*”) in the State of New Jersey (the “*State*”) on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “*Act*”), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent

of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to Renewable Energy Projects involving solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with

the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the “*Projects*”); and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the “*Municipal Series 2011 Local Units*”); and
- (ii) Byram Township School District, Frankford Township’s Consolidated Schools, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Board of Education, High Point Regional School District, Kittatinny Regional School District, Newton Board of Education (collectively, the “*Board of Education Series 2011 Local Units*”); and
- (iii) County, Sussex County Community College and Sussex County Technical School (the “*County Series 2011 Local Units*”);

(each a “*Series 2011 Local Unit*”, and, collectively, the “*Series 2011 Local Units*”), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, “County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)” dated their date of delivery (the “*Series 2011A Bonds*”) the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the “*Series 2011A Bonds*”), and (ii) one series of notes in the aggregate principal amount of \$985,000 and entitled, “County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)” (the “*Series 2011B Note*”, and together with the Series 2011A Bonds, “*Series 2011 Bonds*”), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such

terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year's worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*");

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the "*Bonds*") shall be issued pursuant to the terms of that certain "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY" adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the "*Bond Resolution*"), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, payment of the principal of (including mandatory sinking fund installments, if any) and interest on the Series 2011 Bonds, shall be secured by the Trust Estate as defined under and in accordance with the terms of the Bond Resolution, which shall include, among other things, (i) Basic Lease Payments to be made by the Company under, and as defined in, the Company Lease Agreement, (ii) certain Additional Lease Payments to be made by the Company under, and as defined in, the Company Lease Agreement, which Additional Lease Payments shall be attributable to (a) the Purchase Option Price payable in accordance with Section 701 of the Company Lease Agreement upon any optional redemption of the Series 2011 Bonds or (b) the Mandatory Purchase Price payable in accordance with Section 702 of the Company Lease Agreement upon any acceleration of the Series 2011 Bonds, and (iii) payments by the County under the hereinafter defined County Guaranty to the extent other funds (including the Basic Lease Payments) are not available to make the Series 2011 Bond debt service payments on time and in full, all in accordance with the terms of the Bond Resolution;

certificate to be executed by an authorized officer of the County within each Series 2011 Bond and (iii) that certain "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Guaranty Agreement*") by and between the County and the Authority, as acknowledged by the Company setting forth, among other things, the County's obligation to make any such guaranty payments in accordance with and within the parameters set forth in the guaranty ordinance and the Bond Resolution (collectively, the "*County Guaranty*"), all pursuant to Section 37 ("*Section 37*") of the Act (N.J.S.A. 40:37A-80);

**WHEREAS**, the holders of any Additional Bonds issued under the terms of the Bond Resolution, the Act and all other applicable law shall also be entitled to the pledge of the Trust Estate under the Bond Resolution on a pro-rata basis with the holders of any Outstanding Bonds as defined therein, including the Series 2011 Bonds, although the guaranty of the County shall only extend to any such Series of Additional Bonds to the extent (i) the aggregate principal amount of all such Series of Additional Bonds, when taken together with the aggregate principal amount of the Series 2011 Bonds, shall not exceed \$50,000,000, or (ii) the County adopts and executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County Security*") to be issued by a sufficiently rated banking or other financial institution, or if the County Security is provided by or on behalf of the Company, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for the payment of the Series 2011 Bonds), the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the "*EPC Contractor*"), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated December 12, 2011 (as the same may be amended or supplemented

from time to time in accordance with its terms, the “*EPC Contract*”) between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the “*In-Kind Equity Contribution*”) until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y) the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic Lease Payment Date (the “*Cash Equity Contribution*”) which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the *In-Kind Equity Contribution*, together with the *Cash Equity Contribution* shall be known as the “*Equity Contribution*”), (ii) a cash reserve in the amount of \$1,500,000 (the “*County Reserve*”) to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution), which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

**WHEREAS**, should the County otherwise have insufficient sources of funds to make its Basic Lease Payments on time and in full, the Company shall have the ability to draw funds from the County Reserve in order to enable the Company to make its Basic Lease Payments;

**WHEREAS**, should the Company fail to make its Basic Lease Payments on time and in full, thereby causing the County to make payments to the Series 2011 Bondholders under the County Guaranty, which in turn causes the County Security to be drawn upon to reimburse the County for all or a portion of any such County Guaranty repayments, (i) the County Security Agreement, if any, may provide that the Authority assign and pledge the Reimbursement Collateral to the County Security Provider, as reimbursement security for any such draw on the County Security, or (ii) to the extent no County Security Agreement shall exist, then the Company, as County Security Provider in such instance, shall only be entitled to such excess County Security, as Reimbursement Collateral, if any shall remain available, after and to the extent the County has been fully paid under its County Guaranty but only to the extent of any County Security provided by or on behalf of the Company;

**WHEREAS**, in the event the Company provides the County Security Fund requirement, in part, through such a covenant to provide immediately available funds, if applicable, but in any event

to secure other Company obligations under the Company Documents, the Authority shall require the Company to further secure such obligations by pledging certain property interests of the Company and its member's interest in and to the Company to the Trustee, all as shall be set forth in the Company Lease Agreement and that certain "Pledge and Security Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*Company Pledge Agreement*"), and issued by the sole member of the Company, in favor of the Trustee, and acknowledged and accepted by the Company;

**WHEREAS**, the Company as a potential "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12 ("*Rule 15c-12*") promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, shall be required to enter into that certain "Company Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*Company Continuing Disclosure Agreement*") with the Authority and the Trustee, as dissemination agent (the "*Dissemination Agent*") in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution and/or the Continuing Disclosure Agreements, the Authority shall (i) not be considered a "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12, and (ii) be required to provide certain material events notices in accordance with Rule 15c2-12, and accordingly, the Authority shall be required to provide such material events notices under the terms of the Company Continuing Disclosure Agreement and the County Continuing Disclosure Agreement, all in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application dated July 19, 2011 (the "*Local Finance Board Application*") to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the "*Local Finance Board*") in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall by negotiated sale publicly offer the Series 2011 Bonds, in which public offering case the Authority shall have authorized (i): the distribution of a preliminary official statement "deemed final" within

the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the "*Preliminary Official Statement*"); and (ii) the execution and delivery of a bond purchase agreement (the "*Bond Purchase Agreement*") with an underwriter to be selected by the Authority through a fair and open process (alternatively, the "*Underwriter*") to purchase all of the Series 2011 Bonds, and (iii) delivery of a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the "*Official Statement*", and together with the Preliminary Official Statement, and the Bond Purchase Agreement, and any of the same or other offering or sale documents that may be required by the County "*Sale Documents*");

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 ("*Section 13*") of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the "*Sussex County Board of Freeholders*") and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Documents, the County Documents, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the "*Program Documents*"), and which report and amended report shall be accepted by both the County and Morris County by resolution adopted by the Sussex County Board of Freeholders and the Morris County Board of Freeholders pursuant to Section 13.

**NOW, THEREFORE**, for and in consideration of the mutual covenants and conditions referenced and exchanged herein, the sufficiency and receipt of which are hereby acknowledged, the parties hereto, intending to be legally bound hereby, covenant and agree as follows:

**ARTICLE II**  
**CONDITIONS**

**Section 2.1 Conditions Precedent for Service Provider.**

The obligations of Service Provider under this Power Purchase Agreement are expressly conditioned on and subject to the satisfaction, or waiver by Service Provider, of the following conditions precedent:

(a) The execution and delivery by the Customer of any license, easement, or other real property interests in or contract rights to use the Customer's real property that Customer is obligated to deliver hereunder prior to the scheduled commencement of construction of the Projects. The Parties acknowledge that such condition precedent shall be satisfied by the authorization, execution and delivery of the Local Unit License Agreements by each Customer and the Authority contemporaneously herewith, which Local Unit License Agreements, among other things, by their respective terms (including Section 3.1(a) thereof) provide authority for the Company (and their subcontractors, consultants, agents or other designees) to access the Local Unit Facilities of Customer for the purpose of (i) designing, permitting, acquiring, constructing, installing, operating and maintaining the Renewable Energy Projects and (ii) designing, permitting, acquiring, constructing, renovating and installing the Capital Improvement Projects, if any.

**Section 2.2 Conditions Precedent for Authority.**

The obligations of the Authority hereunder, assumed by the respective Customers under the Local Unit License Agreements (including Section 5.11 thereof) to accept deliveries of Electricity derived from the Renewable Energy Projects and make service payments hereunder to the Service Provider, are expressly conditioned on and subject to the satisfaction or waiver of the following conditions precedent:

(a) The receipt by or on behalf of the Authority of the County Security, County Security Agreement, if any, the Company Lease Agreement and the other Program Documents.

**Section 2.3 Conditions Precedent for all Parties.**

The respective obligations of Service Provider, the Authority and the Customer with respect to the Projects related to any Customer are each expressly conditioned on and subject to the receipt, prior to the commencement of construction of such Projects, of (a) any policies of insurance that the Service Provider is required to maintain hereunder and under the Company Lease Agreement and (b) the receipt by Service Provider of all required State and local regulatory permits, consents and approvals, including without limitation the New Jersey Department of Education to (i) design, permit, acquire, construct and install the Renewable Energy Projects in accordance with the Plans and Specifications and the technical specifications of Appendix C to the Company RFP attached as a portion of Exhibit A-1 to the Company Lease Agreement, such that the REP Acceptance Certificates required under the Company Lease Agreement can be obtained prior to the Required Completion Date, and (ii) design, permit, acquire, construct, renovate and install the Capital Improvement Projects, if any, in accordance with the Plans and Specifications and the attached technical

specifications of the Company RFP such that the CIP Acceptance Certificates required under the Company Lease Agreement can be obtained prior to the Required Completion Date.

(b) In the event that the conditions precedent set forth in this Article II are not satisfied, after the provisions of Section 4.6 hereof have been pursued and both Parties agree in writing that such provisions do not provide a solution to the issues preventing the satisfaction of such conditions, unless Service Provider, or the Authority, on behalf of the Customers, shall elect to waive such conditions precedent, then Service Provider or the Authority may terminate this Power Purchase Agreement with respect to such Projects without further liability effective upon five (5) days advance written notice to the other Party, in which event neither Party shall have any further rights or obligations hereunder.

(b) Unless otherwise terminated as provided herein, this Power Purchase Agreement shall remain in full force and effect, for each Customer, for a period of time (i) beginning on the respective Commencement Dates for each such Customer as established in accordance with Section 3.5 below and (ii) ending on the fifteenth (15<sup>th</sup>) annual anniversary of each such Commencement Date.

#### Section 3.2 The Construction and Interconnection Phase.

The period commencing on the Effective Date and continuing until the earlier occurrence of either (a) the respective Commencement Dates for each Customer or (b) a termination of this Power Purchase Agreement as to the Project(s) relative to each such Customer in accordance with Section 2.4 herein shall be hereinafter referred to as the "**Construction and Interconnection Phase**" for each such Customer. During this phase, the Service Provider shall use commercially reasonable efforts to complete (but in any event shall complete by December 14, 2012, unless extended, per Project, by Force Majeure or Series 2011 Local Unit Event of Default as defined in and contemplated by the applicable Local Unit License Agreement), for each such Customer, the construction, start-up and testing of their respective Renewable Energy Projects and the interconnection of their Renewable Energy Projects to their applicable Local Unit Facility, all to permit the transfer of Electricity on or before the applicable Required Completion Date. Note that pursuant to the Company Lease Agreement, the applicable Interconnection Agreement must be in place prior to the issuance of the Acceptance Certificates, which are a prerequisite to the Commencement Dates for each Customer. The Service Provider further agrees to commence construction of the first Renewable Energy Projects by June 15, 2012 and all of the Renewable Energy Projects for each Customer no later than December 14, 2012, unless extended, per Project, by Force Majeure or Series 2011 Local Unit Event of Default as defined in and contemplated by the applicable Local Unit License Agreement or cure period which absent a cure would lead to a Series 2011 Local Unit Event of Default. Service Provider agrees to the maximum extent practicable that it shall not interfere with the Customer's use of the Local Unit Facility during the Construction and Interconnection Phase.

### **Section 3.3 Designated Representatives.**

(a) To insure a smooth and orderly coordination of activities during the Construction and Interconnection Phase, the Authority, the Service Provider and each Customer shall appoint a designated representative of such Party (each a “**Designated Representative**”) who or which shall be authorized and directed by its principal to meet with the Designated Representative of the other Parties and shall have full power and authority, to the greatest extent practicable in light of Applicable Law governing the actions of the Authority and Customer, to bind its principal with respect to all construction matters relating to the Projects, and all operational matters relating to the Renewable Energy Projects.

(b) As soon as practicable following the Effective Date, the Designated Representatives shall hold, at a mutually acceptable time and location, an initial Project meeting, at which time the Designated Representatives shall prepare jointly, based on the best information available to Customer and Service Provider (and if applicable, the Authority) at such time, a preliminary schedule for completing the construction of the Projects, and the interconnection, testing and start-up of the Renewable Energy Projects. After the initial Project meeting, the Designated Representatives shall meet periodically, but no less frequently than once every two (2) weeks, at such times and locations as they may mutually agree or as may be requested by one of the Parties for the purposes of coordinating all relevant construction matters with respect to the Projects, and all relevant operational matters with respect to the Renewable Energy Projects, and achieving a timely completion of all Project work and all testing of the Renewable Energy Projects.

(c) The Authority hereby appoints the Construction Manager designated by it under the Company Lease Agreement as its Designated Representative. The Service Provider shall submit its proposed Designated Representative to each Customer. Each Customer shall have five (5) Business Days to either approve or reject Service Provider’s proposed Designated Representative; *provided however*, that its approval shall not be unreasonably withheld, and any failure to respond within the five (5) Business Days specified shall be deemed to be a conclusive approval of Service Provider’s proposed Designated Representative.

### **Section 3.4 Cooperation.**

The Authority and each Customer agree to reasonably cooperate and assist Service Provider to the fullest extent practicable, at Service Provider’s cost, to perform any and all actions within their respective control that Service Provider may reasonably request in connection with (a) the design, permitting, acquisition, construction, installation, interconnection, start-up, and testing of the Renewable Energy Projects, and (b) the design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects, if any, including, without limitation, the granting of any required rights of access to Service Provider and its contractors in accordance with the terms of the Local Unit License Agreements, the timely execution and return of any required consent of the Authority and/or such Customers, the execution and delivery of any Interconnection Agreement, and the participation as and when required of the Authority’s and/or Customers’ employees and representatives, including the Construction Manager, in the performance of any test in respect of the Renewable Energy Projects. The Service Provider must require the EPC Contractor to provide the names of all employees, agents, and workers of the EPC Contractor and

subcontractors who will be present at the site, and the Service Provider acknowledges that the same will be used for purposes of checking all identities against the Megans law registry.

### **Section 3.5. Commencement Dates and PPA Price.**

(a) Each Customer shall have its own Commencement Date (which may or may not be the same date as that for one or more other Customers) determined as set forth in subsection (b) below. As there are two (2) Municipal Series 2011 Local Units, eight (8) Board of Education Series 2011 Local Units, and three (3) County Series 2011 Local Units, except as set forth in subsection (c) below, there shall be thirteen (13) Commencement Dates for purposes of this Power Purchase Agreement and the Local Unit License Agreements.

(b) Except as the Authority, in its sole discretion, may determine in accordance with subsection (c) below, the “**Commencement Date**” for each Customer shall be the date on which the Company shall have filed with the Trustee both the REP Acceptance Certificate and the CIP Acceptance Certificate, if any, with respect to all of the Local Unit Facilities for such Customer (see **Exhibit A** hereto for a list of Customers and their Local Unit Facilities), certifying that all of the Renewable Energy Projects and Capital Improvement Projects, if any, for such Customer have been completed and accepted.

(c) Notwithstanding subsection (b) above, the Authority may, in its sole discretion, determine to establish an earlier Commencement Date for one or more Customers, by written notification of same to the Company, the Trustee, and the affected Customer, but only with respect to the completed Renewable Energy Projects and Capital Improvement Projects for the Local Unit Facilities of such Customer (otherwise eligible for the issuance of Acceptance Certificates, were it not for the following), and only in the event the Authority determines that the Acceptance Certificates (which require completion of all such Projects for a Customer under subsection (b) above) are being unduly delayed for some reason not within the control of the Company.

- (i) Nothing in this subsection (c) shall waive the requirement to ultimately receive such Acceptance Certificates for other purposes of the Renewable Energy Program.
- (ii) Should the Authority act to establish an earlier Commencement Date for one or more Renewable Energy Projects for a Customer (as opposed to when all Renewable Energy Projects for such Customer shall have received Acceptance Certificates under subsection (b) above) in accordance with this subsection (c), there shall be more than one Commencement Date for such Customer, and the terms and provisions in this Power Purchase Agreement relating to Commencement Dates shall be applied separately, as applicable, for such one or more Renewable Energy Projects of such Customer.

(d) Upon the earlier to occur of (i) the completion of the construction and start-up of each Renewable Energy Project for any Customer and the interconnection thereof to the applicable Local Unit Facility for such Customer, or (ii) the applicable Commencement Date for such Customer, then:

- (A) The full Electricity production capability of such completed Renewable Energy Project for such Customer shall be exclusively dedicated to such Customer for the applicable Initial Term and any extensions thereto;
- (B) Service Provider shall operate and maintain the Renewable Energy Projects for such Customer through the Initial Term and any extensions thereof;
- (C) Service Provider shall commence the delivery of all Electricity produced from such Renewable Energy Projects to such Customer; and
- (D) Upon receipt of such Electricity, such Customer shall pay the PPA Price in the amount and manner as set forth in subsection (e) below, in Section 6.4 hereof, and **Exhibit B** attached hereto.

(e) (i) When Service Provider commences deliveries of Electricity to such Customer in accordance with subsection (d) above, either prior to or on the applicable Commencement Date for such Customer, such Customer shall pay for such deliveries, at the initial PPA Price specified in **Exhibit B, Section 1** attached hereto, without escalation. Therefore, the escalation to the first year PPA Price specified in **Exhibit B, Section 1** attached hereto shall not be made until the first annual anniversary of the Commencement Date for such Customer. The escalation (as specified in **Exhibit B, Section 2** attached hereto) for amounts payable in any following year shall be made on each succeeding anniversary after such Commencement Date, for such succeeding year. Escalation adjustments (as specified in **Exhibit B, Section 2** attached hereto) shall be made on each such anniversary date through the end of the Initial Term and any extension thereto for such Customer. As so adjusted for each subsequent year beyond the first annual anniversary of the Commencement Date, each such escalated amount (as specified in **Exhibit B** attached hereto) shall be the PPA Price payable for such year.

(ii) Notwithstanding anything to the contrary herein or in any other Program Document, the PPA Price set forth in **Exhibit B, Section 1** attached hereto, shall be promptly adjusted (without any further authorization or other action required by any Renewable Energy Program Interested Party, but with notice of such change to be promptly provided by the Authority to the Company (and any other County Security Provider, if any), the County, the Series 2011 Local Units, and the Trustee) to reflect any change in the County Security Fund Requirement in accordance with the terms of the definition thereof as set forth in the Bond Resolution.

(f) The obligations of Customers under this Power Purchase Agreement, including those to take and pay for Electricity with respect to their applicable Local Unit Facilities, shall be several, and not joint. The Authority shall have no obligation with respect to such take and pay obligations other than to obligate the Series 2011 Local Units, as Customers, to take and pay for

such Electricity in accordance with the terms hereof, including this Section 3.5, and other than to enforce such obligations, all as set forth in the Local Unit License Agreements, including Section 5.1I thereof.

**Section 3.6. Required Completion Date; Liquidated Completion Damages.**

(a) Unless excused by reason of Force Majeure, fault of Customer due to its default under the Local Unit License Agreement, or otherwise as may be expressly provided herein, Service Provider hereby covenants to satisfy the following conditions (the “**Completion Conditions**”) no later than December 14, 2012 (the “**Required Completion Date**”):

(i) Service Provider shall, in such order and timeframe as Service Provider shall determine, as shall be communicated by Service Provider to the Authority and Customer in accordance with Section 3.3 hereof, complete, in accordance with the Plans and Specifications for Projects prepared by or on behalf of Service Provider and approved by the applicable Customer (all in accordance with Section 501 of the Company Lease Agreement), which Customer approval shall be promptly provided to Service Provider and not withheld unreasonably, which Plans and Specifications shall incorporate, as necessary, desirable or convenient, the technical specifications of the Company RFP, and any further applicable requirements of (A) **Exhibits C and D** to this Power Purchase Agreement, (B) Exhibit A-2 to the Company Lease Agreement and (C) Exhibit C to the Local Unit License Agreements:

(Y) The design, permitting, acquisition, construction, installation, interconnection, start-up, and testing of all of the Renewable Energy Projects for all Customers on their Local Unit Facilities (see **Exhibit A** attached hereto); and

(Z) The design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects, if any, for all applicable Customers on their Local Unit Facilities (see **Exhibit A** attached hereto);

(ii) Service Provider shall obtain all of the Acceptance Certificates relating to all Customers on all of the Local Unit Facilities; and

(iii) Service Provider shall commence the production, delivery and sale of Electricity to all Customers through the operation and maintenance of the Renewable Energy Projects, to continue through the Initial Term of this Power Purchase Agreement, and any extensions hereof.

(b) Unless excused by reason of Force Majeure, fault of Customer due to its default under the Local Unit License Agreement, or otherwise as may be expressly provided herein, if Service Provider fails to satisfy the conditions set forth in subsection (a) prior to the Required Completion Date, then Service Provider shall pay liquidated damages to each such Customer equal to the difference between the variable line item per kWh costs for delivered electricity payable by

each such Customer to the local electric utility distribution provider, minus the initial PPA Price (as specified in **Exhibit B, Section 1** attached hereto per kWh), multiplied by the guaranteed kWh production of Electricity referenced in Section 6.1(b) of this Power Purchase Agreement for each day after the Required Completion Date, until the Renewable Energy Projects for such respective Customers are able to produce, and Service Provider shall deliver, Electricity for and to such Customers as contemplated by this Power Purchase Agreement.

(c) At the Authority's option, whereby the Authority may look to be directed by the respective Customers, or determine on its own, as the Authority shall in its sole discretion decide, the Authority may recover any amounts due and owing by the Service Provider in accordance with subsection (b) above either through realization of such liquidated damage amount under the Construction Performance Bond provided by Service Provider, or alternatively, accrue and offset such liquidated damage amount against next due PPA Price payments made by Customers, or some combination thereof, in any event as such determination shall be communicated in writing by the Authority to Service Provider and Customer.

(d) In the event Service Provider has an allowable excuse as outlined in subsection (a) above, which shall be the sole cause for failing to meet the timeframes and conditions set forth in subsection (a) above, and after Service Provider has used all commercially reasonable efforts to meet such timeframes and conditions (e.g., overtime), then Service Provider shall not be liable to Customer for such liquidated damages contemplated by subsection (b) above. In the event of any such performance excusing event, Service Provider shall promptly give written notice to Customer and the Authority (but in no event later than twenty-four (24) hours following such occurrence), specifying the Force Majeure event or Customer's alleged failure to act, cooperate or assist Service Provider or other performance excusing event, as applicable. Should the Service Provider performance excusing event be caused by Customer's action or inaction, Customer shall promptly respond (but in no event later than forty-eight (48) hours) to Service Provider and the Authority regarding such notice by outlining all such remedial actions to be undertaken by or on behalf of Customer, and further, Customer shall promptly implement such action outlined in such response as shall be necessary, desirable or convenient in order to remedy such event, and allow Service Provider to meet such conditions as set forth in subsection (a), as soon as practicable, after the Required Completion Date.

### **Section 3.7 Extension of Initial Term and other options; Obligations at Termination.**

(a) At least one-hundred and twenty (120) days prior to the expiration of the Initial Term, to the extent then permitted by Applicable Law, the Authority, on behalf of one or more Customers, may submit a written request to Service Provider expressing a desire by such Customer to pursue a possible extension of this Power Purchase Agreement. Upon receipt of the Authority's request, Service Provider, the Authority and Customer agree to promptly meet with the intent of negotiating an amendment on mutually agreeable terms and conditions, reflecting, among other things, the cost of any necessary equipment replacements or upgrades, the costs of contract maintenance and operating services, and Service Provider's profit and overhead. Neither Service Provider nor Customer shall be legally obligated to enter into or perform any extension or

replacement of this Power Purchase Agreement until and unless reduced to a writing duly executed and delivered by both parties, and the provisions of Sections 5.1 and 7.1 of the applicable Local Unit License Agreement are either complied with or waived by the Authority and/or the applicable Customer.

(b) If the parties shall fail to enter into an agreement extending the Initial Term, then Customer shall elect, at its sole option, to either require that the Service Provider promptly remove the Renewable Energy Projects and return and restore the Local Unit Facilities to the state and condition existing prior to construction and installation of the Renewable Energy Projects (i.e., after the construction, renovation and installation of the Capital Improvement Projects on the applicable Local Unit Facility, if applicable), reasonable wear and tear excluded, at Service Provider's sole cost, although Service Provider is permitted to use any and all funds on deposit in the Restoration Security Fund for such purpose, or purchase the physical Renewable Energy Projects at Fair Market Value, in any event in compliance with Sections 5.1 and 7.1 of the applicable Local Unit License Agreement. Such Fair Market Value shall be established by an appraisal firm agreed to by the Parties. The cost of the appraisal shall be shared equally by Service Provider and the applicable Customer. In the event the Parties cannot agree to a single appraisal firm, then the Company, the Authority and the Customer shall each contract with a qualified appraisal firm for an appraisal at its own cost, and Fair Market Value shall be the average of the three (3) appraisals.

(i) In the event the end of term option selected by the Local Unit is removal of the Renewable Energy Projects, Service Provider shall remove all of its tangible property comprising such Renewable Energy Projects from the Local Unit Facility by a mutually convenient date but in no case later than one hundred eighty (180) days after the end of the Initial Term. Service Provider shall provide Customer, the applicable roof warrantor for the applicable Local Unit Facility, and the Authority, with a removal plan, at Service Provider's sole cost and expense, with respect to such removal, although Service Provider is permitted to use any and all funds on deposit in the Restoration Security Fund for such purpose. Such removal plan is subject to the review and approval by Customer, such warrantors, and the Authority, which approval (with respect to Customer and the Authority) shall not be unreasonably withheld or delayed.

(ii) In implementing such removal plan, Service Provider (A) shall cause the portion of the Local Unit Facility on which the Renewable Energy Projects were installed to be returned to the state and condition set forth in subsection (b) above, including removal of above grade electrical wires and conduits, inverters, photovoltaic panels, steel superstructure, combiner boxes, and Renewable Energy Projects disconnect switches, and (B) shall not adversely affect the remaining warranties then in existence with respect to such roofs on such Local Unit Facilities. Not included in the removal schedule are below-grade electric/wiring components (unless otherwise specified in the approved removal plan), material that cannot be removed due to safety concerns, and ordinary wear and tear. Service Provider shall leave the portion of the Local Unit Facilities on which the Renewable Energy Projects were installed in neat and clean order, having sealed any penetrations into such portion of the roofs of such Local Unit Facilities, all subject to the applicable Customer's inspection and approval, not to be unreasonably withheld or delayed.

## ARTICLE IV

### DEVELOPMENT OF PROJECTS AND RELATED AGREEMENTS AND UNDERTAKINGS

#### Section 4.1 Development of Projects.

(a) Service Provider has covenanted to undertake the obligations set forth in Section 3.6(a) hereof with respect to the development of the Projects prior to the Required Completion Date. Thereupon, Service Provider shall deliver Electricity to each Customer, each Customer shall pay for such Electricity, and Service Provider shall operate and maintain the Renewable Energy Projects, all through the Initial Term and any extensions thereof, and all as set forth in Section 3.5(d) hereof.

(b) Service Provider shall be solely responsible for taking, and shall take or cause to be taken, with the cooperation of the Authority and Customer, including as applicable and as required pursuant to Section 3.4 hereof, all action deemed necessary, desirable or convenient by Service Provider in order to discharge its obligations set forth in subsection (a) above. Toward that end, Service Provider shall coordinate all Project construction activities with the Authority and the applicable Customer, and shall provide the Authority and such Customer with all Plans and Specifications and other information that the Authority or such Customer may reasonably request from time to time. The Authority and such Customer shall be provided with submittals during design and construction of such Projects. Such Customer shall provide comments, if any, within five (5) Business Days of receipt of such submittals. Review and comments by Customer, if any, shall not relieve Service Provider of its obligations under this Power Purchase Agreement. The Authority shall have no obligation, but may on its own volition undertake, to review and comment on such submittals. Service Provider reserves the right to substitute products provided such substitutions are equal or better in quality and performance than the products submitted in the Company Proposal, based on which the Authority selected Service Provider, as the successful respondent to the Company RFP, as such substitution shall be agreed to and approved in writing (consent not to be unreasonably withheld) by such Customer and the Authority. Service Provider shall timely apply for all required permits and approvals from all applicable authorities having jurisdiction relating to the construction of the Projects, and the operation and maintenance of the Renewable Energy Projects, and any other activities contemplated by this Power Purchase Agreement. If despite commercially reasonable efforts, Service Provider is unable to obtain a required permit; such occurrence shall be deemed an event of Force Majeure hereunder.

(c) For its undertaking of the obligations set forth in subsection (a), Service Provider shall be entitled to receive the PPA Price from Customer in accordance with Section 6.2 hereof, as full and complete consideration for such services and the undertaking and discharging such obligations by Service Provider.

## **Section 4.2 Operation and Maintenance of the Renewable Energy Projects.**

Throughout the Initial Term and any extensions thereof, Service Provider shall operate and maintain the Renewable Energy Projects in a manner that meets or exceeds good industry practice, and in good working order and repair, and shall coordinate all planned maintenance activities with Customer in order to minimize any adverse impact on Customer and/or its Local Unit Facility. The Renewable Energy Projects shall remain in Service Provider's sole custody and control during the term of this Power Purchase Agreement and Customer shall not attempt to use, repair or otherwise interfere with Service Provider's custody, except in accordance with Service Provider's express consent. Service Provider shall have the right, but not the obligation, to replace or exchange, in its discretion, any component of the Renewable Energy Projects during the Initial Term or any extensions thereof provided that the Renewable Energy Projects continue to operate in accordance with the Plans and Specifications. Service Provider shall be responsible, at its sole cost and expense, for performing all required Renewable Energy Projects operation and maintenance to insure that the Renewable Energy Projects shall operate in an efficient manner in accordance with the Plans and Specifications. It is understood and agreed that Service Provider may delegate its operation and maintenance responsibilities to a technically qualified and financially responsible third party, upon notification to the Authority and the applicable Customer, and upon their review and approval of any such contract, which Authority and Customer approval shall be promptly provided to Service Provider and not withheld unreasonably. Any delegation by Service Provider to such third party shall not relieve Service Provider from its obligations under this Power Purchase Agreement.

## **Section 4.3 Reserved**

## **Section 4.4 Outages.**

Service Provider, the Authority and Customer understand and agree that from time to time it shall be necessary for Service Provider to remove all or part of the production, distribution, and interconnection portions of the Renewable Energy Projects from service to make any necessary repairs or replacements. Accordingly, Service Provider shall have the right to interrupt, reduce or discontinue the delivery of Electricity for the purposes of inspection, maintenance, repair, replacement, construction, installation, removal or alteration of the equipment used for the production or delivery of the same; *provided however*, that unless the exigencies of the situation require otherwise, Service Provider shall use commercially reasonable efforts to only interrupt or restrict delivery of Electricity at such times as Service Provider and Customer shall mutually agree. Customer and Service Provider agree to act in good faith to accommodate the reasonable requests of the other in fulfilling their respective obligations under this Power Purchase Agreement. If the circumstances require Service Provider to remove the Renewable Energy Projects from service for more than several hours, Service Provider shall take such actions as are reasonable under the circumstances to minimize the effect on Customer's Local Unit Facility and its operations. Unless the exigencies of the situation require otherwise, Service Provider shall provide Customer with at least ten (10) days prior notice of any proposed service outage, which notice shall explain in detail the reason for the proposed interruption, the proposed maintenance or other corrective action to be undertaken, and the expected length of the interruption. For the purposes of this Section 4.4, exigent circumstances shall include, but shall not be limited to, conditions which, in Service Provider's reasonable judgment, pose an imminent and unreasonable risk of personal injury or property loss, or circumstances under which Service Provider's failure to remove its system from service would, in

Service Provider's reasonable judgment, constitute an illegality or violation of any statute, regulation or order of any Governmental Authority in the exercise of its regulatory jurisdiction, or any similar events or circumstances.

#### **Section 4.5 Removal and Re-installation of Panels; Roof Maintenance & Repairs.**

(a) If at any time during the term of this Power Purchase Agreement, Customer is required to remove or interrupt, or cause the removal or interruption, as applicable, of the operation of one or more of Service Provider's solar panels that comprise a portion of the Renewable Energy Projects, to repair or replace the roof of such Customer's Local Unit Facility, or perform required maintenance on any other of the Local Unit's equipment located on such roof, or for any other governmental reason for which no other commercially reasonable solution exists other than to interrupt some portion of service provided by the Renewable Energy Projects, Customer shall promptly notify Service Provider and the Authority of the specific panels and/or other portion of the affected Renewable Energy Project that must be removed or shut down, and when removal or shut-down is required, taking into account to the greatest extent practicable any efforts within Customer's control to minimize the loss of Electricity generated by such removed or shut down (in whole or in part) of the Renewable Energy Project. In such instance, Service Provider agrees to remove and re-install or shut down and re-initiate the operation of such minimum number of panels for the minimum amount of time necessary in order to allow Customer access to its Local Unit Facility to undertake the required task causing the need for such removal.

(b) To the extent Customer is required to take the action set forth in subsection (a) above in whole or in part due to some action or inaction of Service Provider or any of its designees, consultants, subcontractors or agents, or another licensee (other than the Authority or the Authority's designees, consultants, subcontractors or agents) under Customer's Local Unit License Agreement, then Service Provider shall (i) bear and pay for the cost of such removal, and (ii) reimburse Customer for the difference between (A) Customer's actual cost for electricity, as evidenced by that amount delivered and billed by the local electric utility distribution provider to Customer in lieu of the Electricity to have been provided by Service Provider during such applicable period for which Customer is not receiving Electricity from Service Provider, in whole or in part, and (B) the PPA Price that would have been applicable to such amount of electricity so delivered to Customer under clause (i) above, had Service Provider delivered such deficient amount of Electricity during such period.

(c) Conversely, to the extent Service Provider is required, with the Authority's consent, to remove and re-install or shut down and re-initiate the operation of a portion, or all of a Renewable Energy Project due to some action or inaction by Customer or any of its designees, consultants, subcontractors, or agents, Service Provider shall be reimbursed by Customer at Service Provider's actual out-of-pocket cost, plus ten percent (10%) overhead. Further, Customer shall reimburse the Service Provider for the cost of lost production during the period of removal or shut-down in excess of ten (10) days in any twelve (12) month period, starting on the Commencement Date (for such Customer or as applicable, such Local Unit Facility) and each anniversary thereafter. The cost of lost production shall include an allowance for both lost Electricity at the applicable PPA Price, and lost SRECs, at the market value of such SREC's as determined in comparable transactions. Customer may at its option, elect to pay Service Provider any amounts in this subsection (c) in either a lump sum payment, or in uniform monthly payments, including interest on

the unpaid balance, at the rate set out in Section 6.4 (relating to payment terms) over not greater than a twelve (12) month period. For purposes of this subsection, an action of inaction of a Customer's designees, consultants, subcontractors or agents shall not include students unless such students are under the direct control of the Customer at the time such action or inaction occurred.

#### **Section 4.6 Certain Local Unit Facility Issues.**

(a) Prior to commencement of construction of each of the Renewable Energy Projects, preferably prior to the Effective Date, and no later than the completion of the design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects, if applicable, for each Local Unit Facility, Service Provider shall investigate and secure an opinion from a structural engineer licensed in the State that the Local Unit Facility roof is structurally sound and requires no structural reinforcement to support the Renewable Energy Projects to be provided in accordance with the terms hereof. To the extent required by the applicable local building code for a Local Unit Facility, a wind analysis shall also be conducted by or on behalf of Service Provider to insure the proposed mounting structures for the Renewable Energy Projects shall be sufficient to meet wind conditions at each Local Unit Facility. A copy of such opinion and analysis, if so required, for each Local Unit Facility shall be delivered to the Authority and applicable Customer.

(b) If the Service Provider delivers to the Authority a Certificate of an Authorized Officer of the Service Provider to the effect that such opinion and/or analysis and/or other credible evidence demonstrates any of the following: (i) that structural reinforcement of a Local Unit Facility would be required in order to support the contemplated Renewable Energy Projects, (ii) that any roof of a Local Unit Facility is structurally unsound or that the Local Unit Facility is not otherwise available for the contemplated Project, including issues of title, damage, or condemnation affecting the Local Unit Facility, (iii) that there are other latent subsurface or structural conditions present at any Local Unit Facility that is not a roof, which latent subsurface or structural conditions were not contemplated in its Company Proposal and would have a material adverse financial impact on the Service Provider or (iv) that the existing warranties can only be maintained through an unreasonable scope of work, or at an unreasonable cost, in either case as determined solely by the Authority, and if in any such case (clauses (i) – (iv) inclusive) the Authority, in exercising its reasonable discretion (with input from the Customer), agrees with such determination as evidenced by their acknowledgment of such Service Provider Certificate by an Authorized Officer of the Authority, then neither the Authority nor Customer shall have any responsibility to provide any additional funding for such Renewable Energy Projects, and Service Provider is not entitled to any additional compensation for such Renewable Energy Projects, it being understood by the Parties that any such circumstance has been preliminarily reviewed and subject to a diligence review by Service Provider, as any contemplated cost relating thereto shall have been included in the Company Proposal as part of the submitted cost of the Projects.

(c) To the extent the Authority executes and delivers to the Service Provider the acknowledgment contemplated by subsection (b) above, notwithstanding the other provisions of subsection (b) above the Parties shall work together in good faith to select an alternative location (hereinafter, such alternative location shall be known as the revised Local Unit Facility for such Series 2011 Local Unit for all purposes hereof and of the other Program Documents) within the jurisdiction of the following, and in the following order: (i) first of the affected Series 2011 Local

Unit for which the Renewable Energy Project shall no longer be developed, in which case the revised Local Unit Facility shall act as the location for the replacement renewable energy project (hereinafter a Renewable Energy Project for all purposes hereof and of the other Program Documents), and as necessary, required or desirable, the revised capital improvement project (hereinafter a Capital Improvement Project for all purposes hereof and of the other Program Documents), (ii) second, within the jurisdiction of any other Series 2011 Local Unit, in which case the revised Local Unit Facility and Project shall be located in such agreed upon jurisdiction, and (iii) if a suitable replacement location within such jurisdiction is still not available on a mutually agreeable basis, then from any location within (and including) the County upon which the Parties can agree, in which case the revised Local Unit Facility and Project shall be located in such agreed upon jurisdiction. Any alternative Projects shall, to the maximum extent practicable, be of a similar (or more advantageous to the Parties) size, scope and economic impact as the Projects being replaced.

(d) Should an alternative Local Unit Facility be selected by the Parties in accordance with subsection (c) above, (i) a new Commencement Date and a new Completion Date shall be developed for the replacement Renewable Energy Project, and as applicable, Capital Improvement Project, (ii) such revised Commencement Date and Completion Date for such replacement Renewable Energy Project shall be incorporated into this Power Purchase Agreement via a written amendment executed by the Parties, which amendment shall also incorporate a revised **Exhibit A** hereto and any other changes the Parties deem necessary, desirable, or convenient to implement the change in Project and Local Unit Facility, and (iii) the other Program Documents shall be amended to reflect any required changes caused by such amendment hereof, including without limitation the revised Project, the replaced Local Unit Facility, and if necessary, a new Series 2011 Local Unit (in which case instead of an amended Local Unit License Agreement with such new Series 2011 Local Unit, there shall be a new Local Unit License Agreement with such new Series 2011 Local Unit), provided that the economic rights and responsibilities of the Parties shall not be amended (including without limitation, the PPA Price), unless agreed to at the complete discretion of the Parties.

(e) If after good faith negotiations the Parties are unable to secure a replacement Local Unit Facility and Project within six (6) months of the date of the Authority's acknowledgment of the Certificate of an Authorized Officer of the Service Provider contemplated in subsection (b) above, then the Service Provider shall have the option, exercisable at any time within nine (9) months of the date of such Authority Certificate, to abandon the Project associated with the Local Unit Facility that was to be replaced. Such option shall be exercised by the Service Provider delivering a Certificate of an Authorized Officer of the Service Provider to the Trustee, the County, the Authority, and the affected Series 2011 Local Unit, (i) setting forth the authorization for, and the reasons why the Project and Local Unit Facility are being abandoned, and (ii) further, that attached thereto is a partial prepayment of Basic Lease Payments (or evidence thereof, in the case of a wire transfer or other similar conveyance) in immediately available funds that shall be applied in the manner set forth in Section 701(a) of the Company Lease Agreement. Upon the abandonment of any Project, the Service Provider, the Authority and the Customer will enter into such amendments of the Program Documents as shall be necessary to evidence the partial termination of the Program Documents solely with respect to such Project.

**Section 4.7 Incorporation of Certain Company RFP Terms and Conditions.**

To the extent not otherwise inconsistent with the provisions of this Power Purchase Agreement and the other Program Documents, the terms and conditions of Article VII and Appendix C to the Company RFP, as attached to the Company Lease Agreement as part of Exhibit A-1 thereto, are hereby incorporated by reference into this Power Purchase Agreement.

**Section 4.8 Service Provider's Ability to Choose Subcontractors.**

Service Provider shall enter into the applicable contract(s) for construction, renovation and installation of the Projects, subject to the terms of any Renewable Energy Program agreement executed by any Party. Prior to implementing any such contract(s), Service Provider and Customer shall have agreed upon a list of acceptable subcontractors, with all other subcontractors subject to notification to the Authority and Customer's consent, such consent not to be unreasonably withheld or delayed; *provided, however*, that Customer's agreement as to the list of acceptable subcontractors shall not make the Authority or Customer in any way responsible for, or a guarantor of, such subcontractors, nor relieve Service Provider of any of its duties and obligations with respect to subcontractors or otherwise hereunder. Service Provider shall insure all subcontractors are qualified, reputable and adhere to all applicable regulations and laws of the State. The Service Provider must require the EPC Contractor to provide the names of all employees, agents, and workers of the EPC Contractor and subcontractors who will be present at the site, and the Service Provider acknowledges that the same will be used for purposes of checking all identities against the Megans law registry. The Service Provider identified and the Authority and Customer have approved the initial list of subcontractors, as set forth in **Exhibit H**, by the time of execution and delivery hereof (such list is not intended to be exclusive, should Service Provider subsequently determine to proffer one or more other subcontractors).

## ARTICLE V

### LOCAL UNIT LICENSE AGREEMENT – LOCAL UNIT FACILITY ACCESS

#### Section 5.1. Local Unit License Agreement.

(a) For consideration of the transactions contemplated by this Power Purchase Agreement and the Local Unit License Agreement, Service Provider, the Authority and Customer hereby agree that Service Provider and their subcontractors, including the EPC Contractor pursuant to their Development Contract with Service Provider, and other agents and designees shall each be deemed a permitted licensee under Customer's Local Unit License Agreement, and accordingly, Service Provider and their subcontractors and other agents and designees shall have access to the Local Unit Facility of Customer to (i) design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects, (ii) design, permit, acquire, construct, renovate, and install the Capital Improvement Projects, if any, and (iii) perform the other related Project activities set forth in Section 3.1, including subsection (c) thereof, of the Local Unit License Agreement for Customer.

(b) The license provided to Service Provider in accordance with subsection (a) and Customer's Local Unit License Agreement, subject to Section 3.7 of such Customer's Local Unit License Agreement, shall be irrevocable for the Initial Term of this Power Purchase Agreement and any extension, for so long as Service Provider is not in default of its delivery obligations hereunder, thereby causing an Event of Default hereunder, and except as otherwise expressly provided in this Power Purchase Agreement.

(c) Service Provider shall insure that any equipment used or installed by the Service Provider shall not adversely affect the structural integrity or existing roofing warranties of the Local Unit Facility roof and shall be completed in strict accordance with manufacturer's requirements by a certified manufacturer roofing contractor.

(d) In the event a Customer exercises revocation rights pursuant to Section 3.7 of such Customer's Local Unit License Agreement, upon the satisfaction of all requirements under such Section 3.7, this Power Purchase Agreement shall be terminated in respect of, and solely with respect to, such applicable Project.

## ARTICLE VI

### ENERGY SERVICES PROVIDED BY SERVICE PROVIDER PRIOR TO OR UPON COMMENCEMENT DATE

#### Section 6.1 Sale and Purchase of Electricity Converted from Solar Energy.

(a) On the date set forth in Section 3.5(d) of this Power Purchase Agreement, which date shall be on or prior to the Commencement Date, Customer shall purchase and take, and Service Provider shall sell and deliver, all Electricity produced from the Renewable Energy Projects.

(b) The Plans and Specifications for the Renewable Energy Projects shall provide for the output guaranteed by Service Provider in Section 6(b) of its Form A-1 of the Company Proposal attached hereto as **Exhibit C** (which, in accordance with Form A-1 of the Company Proposal, needs to be adjusted to reflect the actual solar insolation measured at the site for the time period under review), unless Customer agrees in writing to a different output to be set forth in such Plans and Specifications. For the avoidance of doubt, the Parties hereto expressly agree that the proposed output for the Renewable Energy Projects for the Series 2011 Local Units so set forth in Form A-1 of the Company Proposal and as detailed in Company Proposal Table 6(b) that is made a part of **Exhibit C** hereto shall be the standard against which the output guaranty contemplated by this Power Purchase Agreement shall be measured, notwithstanding the fact that the anticipated output for such Renewable Energy Projects shall be as detailed in Company Proposal Table 6(a) and also incorporated in **Exhibit C** hereto. The Parties hereto agree that Exhibit C hereto shall be amended upon the completion and sizing of the Projects.

(c) Service Provider shall guarantee the output of the Renewable Energy Projects cumulatively through the 5<sup>th</sup>, 10<sup>th</sup>, and 15<sup>th</sup> years of the Initial Term to be within ten percent (10%) of the output (calculated using the PV Watts version 1.0 with initial system sizes rated at STC methodology employed by the Company in the Company Proposal, using a de-rate assumption of .80 and a default location of Newark, based on tilt and azimuth assumptions provided in the Company Proposal) as set forth in the final Plans and Specifications for the Renewable Energy Projects; provided, that to the extent that such output shall fall below such limit, the remedy therefor shall be solely as set forth in subsection (d) below.

(d) To the extent that the Renewable Energy Projects' output shall fall below the limits set out in the preceding subsection (c) and such shortfall is not due to an action of the Customer, Service Provider shall reimburse Customer for the difference between Customer's variable line item cost for electricity, per kWh, as evidenced by that amount delivered and billed by the local electric utility distribution provider to Customer in lieu of the Electricity to have been provided by Service Provider, and the PPA Price, per kWh, set forth in this Power Purchase Agreement, such difference in price per kWh to be applied to the amount of such Renewable Energy Projects' output deficiency. Such reimbursement shall occur no later than sixty (60) days after the next occurring anniversary of the Commencement Date that arises after the date in which the shortfall occurred. In the event such reimbursement payment is not made by Service Provider, Customer shall be entitled to deduct such amount in three (3) equal amounts from its PPA Price invoice payments in the following three (3) months after such sixty (60) days, or if invoice amounts

are not large enough to allow for the entirety of such credit during such time, the balance shall be credited as quickly as possible thereafter.

(e) To the extent that the Renewable Energy Projects' output shall fall below the limits set out in the preceding subsection (c) at the end of one of the 5-year periods of the Initial Term, and Service Provider reimburses Customer as set out in the preceding subsection (d), the amount of the shortfall in kWh upon which the reimbursement payment is based shall be deducted from the cumulative guaranteed output amounts at the end of subsequent 5-year periods.

(f) To the extent that a reduction in the amount of Electricity produced by the Renewable Energy Projects is caused due to action of the Customer, such as that contemplated in Section 4.5(c) or due to the circumstances described in Sections 3.6(d), 4.6(b) or 6.6 hereof, 100% of the amount of Electricity that would otherwise have been produced will be deducted from both (i) the cumulative guaranteed output at the end of the 5-year period in which the reduction due to Customer action occurs, and (ii) the cumulative guaranteed output amounts at the end of all subsequent 5-year periods.

## **Section 6.2 Rates and Charges.**

Customer shall pay to Service Provider the monthly fees and charges for Electricity as set forth in **Exhibit B** and Sections 3.5(e) and 6.4 hereof (the "PPA Price").

## **Section 6.3 Service Provider Reservation of Rights; Benefits Shared.**

(a) Service Provider retains all ownership and rights to use, sell, or transfer (i) except as set forth in subsection (c) below, SRECs and (ii) rights with respect to Federal tax benefits (Investment Tax Credit and MACRS Depreciation) associated with the Renewable Energy Projects. Nothing in this Section 6.3 shall relieve Service Provider from its obligation to sell Electricity generated by the Renewable Energy Projects to the Customers.

(b) The Authority shall have the option, in accordance with Section 6.3(e), to direct an Authorized Officer of the Authority directing the Service Provider to sell to the Authority, from the period on and after the date of the election, fifty percent (50%) of any financial / environmental benefits, with the exception of SRECs or as described in Section 6.3(d) hereof (allocated in accordance with subsections (a) and (c)), determined in the future (but unknown at this time) to be attributable to the Renewable Energy Projects for the Series 2011 Local Units. If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and sell or otherwise monetize such financial / environmental benefits on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee. The balance of any such financial / environmental benefits are the property of the Service Provider. If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and sell such financial and environmental benefits on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee.

(c) The Authority shall have the option, exercisable by the Authority in its sole discretion at any time from July 15, 2017 until and including December 15, 2017, through the execution by the Authority and delivery to the Service Provider of a Certificate of an Authorized Officer of the Authority directing the Service Provider to sell to the Authority fifty percent (50%) of the remaining SRECs to be realized from the expected generation of electricity from all of the Renewable Energy Projects from December 15, 2017 through and including December 15, 2027. The purchase price for any such sale of SRECs, to the extent the Authority exercises this option, shall be three hundred dollars (\$300). If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and sell such SRECs on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee.

(d) The Authority shall have the option, in accordance with Section 6.3(e) to direct the Service Provider to sell to the Authority, from the period on and after the date of election, fifty percent (50%) of any additional benefits resulting from the Service Provider's participation in the Authority's Renewable Energy Program, including without limitation any savings resulting from one or more refundings of the Series 2011 Bonds, with such specific terms of allocation to be set forth in a Certificate of an Authorized Officer of the Authority, as acknowledged in writing by Service Provider. The purchase price for any such sale, to the extent the Authority exercises this option, shall be set forth in any such Certificate. If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and monetize such benefit on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee.

(e) The option provided in Sections 6.3(b) and (d) shall be exercisable simultaneously by the Authority in its sole discretion during the period July 15, 2017 through December 15, 2017 by a Certificate of an Authorized Officer of the Authority to the Service Provider and accompanied by (x) the payment of \$250,000, and (y) such other amount as the parties may agree constitutes fair market value therefor, and accompanied by a professional opinion that such alternative amount is consistent with the fair market value of the rights described in Sections 6.3(b) and (d).

#### **Section 6.4 Payment Terms.**

Service Provider shall measure and read all Meters on or about the first Business Day of each calendar month during the term of this Power Purchase Agreement, commencing the first month immediately following the date set forth in Section 3.5(d) of this Power Purchase Agreement, which date shall be on or prior to the Commencement Date. Promptly thereafter, Service Provider shall provide in writing to Customer, with a copy to the Trustee, an invoice setting forth the Electricity charges as set forth in **Exhibit B** and quantity of Electricity delivered during the previous period. Should an error in invoicing be determined, then Service Provider agrees to promptly provide for an adjustment of the next-due invoice to remedy said error. Customer shall have thirty (30) Business Days after the date of the invoice in which to pay the invoice in full. Any sums owing and remaining unpaid after the expiration of said period of time shall bear interest at a rate equal to the lesser of one and one-half percent (1 and ½%) per month until paid in full, or highest rate allowed by law.

### **Section 6.5 Taxes; Other Governmental Charges.**

To the extent that Service Provider, Customer, and/or the Authority shall become responsible for the payment of any tax as a result of the placement, operation or maintenance of the Renewable Energy Projects on the Local Unit Facility (other than taxes imposed by Customer after the date of this Power Purchase Agreement), Service Provider shall be responsible for the payment of all such taxes and or assessments. Such obligation shall be limited to the Renewable Energy Project improvements constructed by the Service Provider on the Local Unit Facility. The Service Provider shall have the right to challenge the lawfulness of any tax or assessment associated with the construction, operation, or maintenance of the Renewable Energy Projects on the Local Unit Facility that shall be imposed on Service Provider, or that shall be attributable to Customer and/or the Authority for which Service Provider shall be required to pay. The Authority and Customer shall be notified of any such challenge by Service Provider, and further, shall be periodically kept informed of all developments, including copies of any pleadings or other documents comprising the docket of any such challenge.

### **Section 6.6 Alterations to Customer's Facilities.**

The Authority and Customer agree not to undertake any structural alterations or repairs to the Local Unit Facilities that may adversely impact the operation and maintenance of the Renewable Energy Projects by Service Provider, without giving prior written notice to Service Provider, and without obtaining the input from Service Provider regarding the best manner in which such alterations or repairs might be conducted without affecting, or minimizing the effect on, as applicable, the operations and maintenance of the Renewable Energy Projects. If the Authority or Customer shall perform any alterations or repairs that permanently reduce the production of the Renewable Energy Projects resulting from such alteration or repairs, then the Parties shall negotiate a per kWh PPA Price adjustment to make the Service Provider whole for any loss in production capability. The per kWh PPA Price adjustment shall be established by negotiation by the Parties or, failing agreement within a reasonable time, by arbitration pursuant to the provisions of Section 14.5.

### **Section 6.7 Point of Delivery.**

Service Provider agrees that it shall provide Electricity services to Customer at the Point of Delivery as specified in the Plans and Specifications.

### **Section 6.8 Energy Metering.**

The output of the Renewable Energy Projects will be measured by revenue grade production meters in addition to load metering, inverter monitoring, and sub-combiner monitoring meters installed by the Service Provider in accordance with industry standards. Service Provider shall conduct tests of the Meters at such times as it deems appropriate in accordance with industry standards, but not less than once in any two year period. Service Provider shall promptly repair all Meter failures or defects. Should a Meter ever be deemed to reflect inaccuracies in measurement, the Service Provider shall make corresponding adjustments to the records of the amount of Electricity being provided by the Renewable Energy Project delivered based on the period in between the date of the discovery of the inaccuracy and the last testing date of the Meter. Should the Meter ever become non-operational, but Electricity is still being provided by Service Provider to Customer

hereunder, then the Parties hereto shall endeavor in good faith to address the Meter failure based upon, among other things, historical and cyclical consumption. To the extent that the Parties hereto are unable to adjust the inaccuracy, then they shall appoint their respective engineers or an independent meter consultant who, along with a third party independent engineer chosen by the Parties' engineers, shall review, examine, mediate and arbitrate the Meter adjustment. The decision of the engineers shall be final, and shall be reduced to the form of an invoice adjustment to be delivered by Service Provider to Customer. Notwithstanding the existence of any inaccuracy, or the allegation or belief of the existence of an erroneous Meter reading, Customer shall at all times pay all invoices in accordance with those time periods set forth herein, with the understanding that adjustments shall be reflected on subsequent invoices. Customer shall have no right to withhold invoice payment due to the actual or alleged existence of Meter inaccuracy except in the case when the current invoice varies by thirty percent (30%) or greater compared with historic like month data.

**Section 6.9 Information Technology Support.**

Customer shall provide Service Provider with access to the Customer's data management network for the Service Provider to monitor system performance and metering from remote locations, as required by Section 3.1(c)(iv) of the Local Unit License Agreement.

Notwithstanding the foregoing, the Service Provider shall have no indemnity obligation nor any remediation or other obligation with respect to on-site contamination that exists prior to commencement of the installation work at a Local Unit Facility except to the extent a release of hazardous materials from the contaminated areas occurs due to the negligent acts of the Service Provider or its contractors or subcontractors (or their employees or agents).

(a) Upon a Service Provider Event of Default as described in Section 9.1(a) hereof, the affected Customer may terminate the Power Purchase Agreement as to such Customer by written notice to Service Provider, which notice shall be effective upon delivery, which may give rights to certain Parties or other interested parties involved in the Renewable Energy Program to the County Security and/or the Construction Performance Bond. Such rights shall be in addition to any and all other rights and remedies that Customer may have at law or in equity including, without limitation, the right to recover monetary damages and thereafter pursue such damages or other relief to which Customer may be entitled with respect to any monetary damages owed by Service Provider which do not result in a termination of this Power Purchase Agreement,

(b) Upon a Service Provider Event of Default as described in Section 9.1(b), the Authority may exercise its rights under any other Company Document.

(c) Upon a Service Provider Event of Default as described in Section 9.1(c), the sole remedy of any other Party shall be specific performance or if applicable monetary damages.

#### **Section 10.2 Remedies upon a Customer Event of Default.**

(a) Upon a Customer Event of Default as described in Section 9.2(a) hereof (i.e., following expiration of the 45-day period following Service Provider's written demand for payment), (i) Service Provider may suspend performance hereunder until such time as Customer cures the Event of Default), and (ii) if such Event of Default continues for another 30 days, Service Provider may terminate the Power Purchase Agreement with respect to such Customer by written notice to the Authority and such Customer, which notice shall be effective upon delivery, it being expressly understood however that any such termination shall not relieve Service Provider from its obligations under the Company Lease Agreement with respect to the lease payments due thereunder, or under any other Company Lease Agreement, with respect to any other Customer. Such rights shall be in addition to any and all other rights and remedies that Service Provider may have at law or in equity including, without limitation, the right to recover monetary damages and thereafter pursue such damages or other relief to which Service Provider may be entitled.

(b) Upon a Customer Event of Default as described in Section 9.2(b), the sole remedy available to any other Party shall be specific performance or, if applicable, monetary damages.

(a) This Power Purchase Agreement and the rights and obligations of the Parties shall be governed by, construed, and enforced in accordance with, the laws of the State. In order to expedite resolution of any actions, suits, or proceedings that arise under this Power Purchase Agreement, and in light of the complexity of the transactions contemplated hereby, each of the Parties (i) irrevocably waives the right to trial by jury in any such actions, suit, or proceeding of any kind or nature in any court to which it may be a Party and (ii) other than with respect to arbitration in accordance with the provisions of Section 14.5 hereof, agrees that venue shall be laid in the Superior Courts of Morris County, New Jersey.

(b) With respect to any such action, suit, or proceedings relating to this Power Purchase Agreement or arising in connection with the transactions contemplated hereby, the Parties irrevocably (i) submit to the exclusive jurisdiction of the federal and State courts of the State; (ii) waive any objection which it or they may have at any time to the laying of venue of any action, suit or proceeding in any such court; (iii) waive any claim that any such action, suit, or proceeding has been brought in an inconvenient forum and (iv) waive the right to object that such court does not have jurisdiction over the Parties.

### **Section 14.3. Successors and Assigns.**

This Power Purchase Agreement shall inure to the benefit of, and be binding upon the Parties hereto and to their successors and assigns.

### **Section 14.4 Waiver.**

No provision of this Power Purchase Agreement may be waived absent the express written consent of the Authority, the Service Provider and each affected Customer, if any. The failure of any Party hereto to assert any of its rights under this Power Purchase Agreement shall not be construed to constitute a waiver of such provision, nor in any way be deemed to affect the validity of this Power Purchase Agreement or any part hereof or the right of any Party hereto to thereafter subsequently enforce its rights and remedies as otherwise provided herein. No express and written waiver of any breach of this Power Purchase Agreement shall be held to constitute a waiver of any other provision hereof or any subsequent breach hereof.

### **Section 14.5 Arbitration.**

Should any dispute, controversy or claim arise hereunder, then the Parties covenant and agree, to the extent permitted by law, that all such disputes, controversies or claims shall be submitted to non-binding arbitration, and in all other cases legal actions concerning such disputes, controversies and claims shall be brought in the Superior Court of Morris County, New Jersey. Arbitration shall be conducted before an arbitrator chosen by the American Arbitration Association, should the Parties hereto not be able to otherwise agree upon an arbitrator to adjudicate said matter. The arbitration shall be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association. The cost of arbitration, along with the prevailing Party's legal fees and costs of arbitration, shall be borne by that Party which the arbitrator deems to be the non-prevailing Party to the arbitration. It is the intent of the Parties that there shall be liberal discovery permitted including depositions and document production.

### **Section 14.6 Entire Agreement, Amendment.**

This Power Purchase Agreement, together with the other Program Documents, constitutes the entire agreement by and between the Parties hereto and supersedes and replaces all previous understandings and agreements, whether written or oral, which may have existed between the Parties hereto. This Power Purchase Agreement may only be modified by a subsequent written instrument which shall be executed by the Authority and the Service Provider, and to the extent any such amendment involves any terms that could adversely affect any Customer, by such Customer.

### **Section 14.7 Partial Invalidity.**

If any non-material part of this Power Purchase Agreement is held to be unenforceable, the rest of this Power Purchase Agreement will continue in effect. If a material provision is determined to be unenforceable and the Party which would have been benefited by the provision does not waive its unenforceability, then the Parties shall negotiate in good faith and if they are unable to reach

agreement on an appropriate amendment within a reasonable time, their disagreement shall constitute a dispute and be resolved pursuant to the provisions of Section 14.5 (relating to arbitration). The arbitrator may grant any remedy or relief, including reformation of this Power Purchase Agreement, that the arbitrator deems just and equitable.

#### **Section 14.8 Non-Substitution.**

Customer covenants and agrees that throughout the Initial Term of this Power Purchase Agreement, and all extensions hereof, that with respect to the Local Unit Facility (a) it shall not purchase, lease or rent property to perform the same function or provide the same services as, or functions or services taking the place of, those functions and services being provided by Service Provider under this Power Purchase Agreement, (b) it shall not permit such functions or services to be performed or supplied by Customer's own employees or by Customer or any agency, affiliate or third party of Customer, (c) it shall not otherwise enter into any agreement with any third party or otherwise affiliated party to perform such functions or services, and/or (d) otherwise take steps to circumvent or defeat the intentions of this paragraph or this Power Purchase Agreement. During the Initial Term of this Power Purchase Agreement and throughout all extensions hereof, Customer covenants and agrees to look to and consider Service Provider as the Local Unit's sole and exclusive supplier of Electricity up to the total amount generated by the Renewable Energy Projects.

#### **Section 14.9 Further Assurances.**

The Parties hereto agree to execute all documents and take all further actions which might be reasonably requested by any other Party in order to better fulfill or evidence the intentions of the Parties hereto.

This Power Purchase Agreement may be executed and acknowledged in counterparts, and when signed by all of the Parties hereto shall constitute one binding agreement. Facsimile Signatures shall be deemed the same as originals.

#### **Section 14.11 Waiver of Sovereign Immunity.**

For the purposes of this Power Purchase Agreement, the Authority and each Customer acknowledge and agree that (a) its execution and delivery of this Power Purchase Agreement and (b) its performance of the actions contemplated by this Power Purchase Agreement, constitute private and commercial acts rather than public or governmental acts. To the extent that, in any jurisdiction, the Authority or such Customer in respect of itself or its assets, properties or revenues, shall be entitled to any contract immunity from suit, from the jurisdiction of any court, from attachment prior to judgment, from attachment in aid of execution of judgment, from execution, or enforcement of a judgment, or from any other legal or judicial process or remedy, such party hereby, except with respect to tort claims related to this Power Purchase Agreement, (i) expressly and irrevocably agrees not to claim or assert, and expressly and irrevocably waives, any such immunity to the fullest extent permitted by the laws of such jurisdiction solely as to the Company and (ii) consents generally to the giving of any relief or the issue of any process in connection with any proceeding. This waiver does not apply to any Series 2011 Local Units tort immunity as established by law.

### **PPA Price**

#### **- Electricity Rates and Escalation Adjustments**

For any year of this Power Purchase Agreement and with respect to each respective Customer, the PPA Price payable by any one such Customer is the sum of Sections a and b below (after the escalation percentage factor in Section 2 below is converted into a dollar amount for the applicable year of computation).

(a) Cost of Electricity, per kWh, pursuant to the Power Purchase Agreement, for the period (a) from the date of the first delivery by the Service Provider to such Customer of Electricity from the Renewable Energy Project on the Local Unit Facility of such Customer (b) to, but excluding, the first anniversary of the applicable Commencement Date for such Customer: \$0.0935/ kWh.

(b) Annual escalation (expressed as a fixed percentage increase from the prior year's PPA Price) applicable as of each anniversary date of the Commencement Date for such Customer in effect for the following year to, but not including, the immediately succeeding anniversary of such Commencement Date for such Customer: three percent (3.00%).

(i) This escalation factor commences on the first anniversary of the Commencement Date for such Customer, and ends at the end of the Initial Term, unless further adjusted in accordance with the terms of any extension of the Initial Term pursuant to the terms of the Power Purchase Agreement.

(c) The Parties further agree to the following:

(i) Although the percentage of escalation is fixed in Section 2, since it is based on the prior year's PPA Price, which is itself increasing on an annual basis, the actual dollar amount of each year's escalation increases.

(ii) With the possibility that each Customer shall have different Commencement Dates, and although each Customer shall be subject to the same base cost of Electricity governed by Section 1 above and the same escalation factor governed by Section 2 above, the actual PPA Price payable by one or more Customers may vary on the same date of computation for different Customers.

(iii) In light of the provisions of Section 6.5 of the Power Purchase Agreement, the PPA Price for any Applicable Customer shall be further escalated for any increase in taxes assessed or levied against the Renewable Energy Projects, which taxes shall be imposed by or on behalf of any such Customer, if any; provided, however, that any such increase shall be solely available to the entity that must pay any such tax, the intent being that there shall be no after tax effect on the PPA Price, should any such tax ever be imposed.

(Federally Taxable), consisting of:  
\$26,715,000 Series 2011A Bonds, and  
\$985,000 Series 2011B Note

THIS “**COUNTY GUARANTY AGREEMENT (Sussex County Renewable Energy Program, Series 2011)**” dated as of December 1, 2011 (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this “*County Guaranty Agreement*”) by and between the **MORRIS COUNTY IMPROVEMENT AUTHORITY** (including any successors and assigns, the “*Authority*”), duly created by resolution of the Board of Chosen Freeholders (“*Board of Freeholders*”) of the hereinafter defined County as a public body corporate and politic of the State of New Jersey (“*State*”) pursuant to and in accordance with the provisions of the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “*Act*”) and other applicable law, and the **COUNTY OF SUSSEX**, a political subdivision of the State (the “*County*”).

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the “*County*”) desires to undertake the development and implementation of a renewable energy program (the “*Renewable Energy Program*”) for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the “*Renewable Energy Projects*”) for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the “*Local Units*”);

**WHEREAS**, the Morris County Improvement Authority (the “*Authority*”) has been duly created by resolution no. 42 entitled “Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority” duly adopted by the Board of Chosen Freeholders (the “*Morris County Board of Freeholders*”) of the County of Morris (the “*Morris County*”) in the State of New Jersey (the “*State*”) on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “*Act*”), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to Renewable Energy Projects involving solar panels, are to be installed on,

in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "*Projects*"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year’s worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*”);

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the “*Bonds*”) shall be issued pursuant to the terms of that certain “RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY” adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the “*Bond Resolution*”), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, pursuant to N.J.S.A. 40:37A-77 of the Act, N.J.S.A. 40A:65-4 of the Shared Services Act and other applicable law, upon or prior to the issuance of the Series 2011 Bonds, the Authority shall have entered into a “License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, each agreement shall constitute a “*Local Unit License Agreement*”, and collectively, the “*Local Unit License Agreements*”) with each Series 2011 Local Unit that would, among other things, provide the Authority and/or its assignees the right and obligation to (i) access the Local Unit Facilities of each such Series 2011 Local Unit, most particularly their roofs, parking area and/or grounds and electrical systems (the “*Local Unit License*”), (ii) finance, design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects on, in, affixed or adjacent to, or for the benefit of such Local Unit Facilities, (iii) receive the right to the renewable energy produced from the Renewable Energy Projects financed by the Series 2011 Bonds, and (iv) sell all or a portion of the renewable energy produced from such

**WHEREAS**, upon or prior to the issuance of the Series 2011 Bonds, and in accordance with (i) N.J.S.A. 40A:11-4.1(k) of the Local Public Contracts Law and N.J.S.A. 18A:18A-4.1(k) of the Public Schools Contracts Law, (ii) Local Finance Board Notice 2008-20, December 3, 2008, *Contracting for Renewable Energy Services*, (iii) the State Board of Public Utilities (“BPU”) protocol for measuring energy savings in PPA agreements dated February 20, 2009 (*Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines*), (iv) Local Finance Board Notice 2009-10 dated June 12, 2009, *Contracting for Renewable Energy Services: Update on Power Purchase Agreements*, and (v) all other applicable law, and pursuant to a competitive contracting process governed thereby, which included a request for solar developer proposals issued by the Authority dated September 8, 2011, as amended (the “*Company RFP*”) and the receipt of proposals from prospective solar developers, including that proposal dated October 13, 2011 (the “*Company Proposal*”) submitted with respect to Sunlight General Sussex Solar, LLC (the “*Company*”), the Authority selected the Company to design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects for the designated Local Unit Facilities of such Series 2011 Local Units, with such Program terms as are set forth in the following Company Documents to be entered into between the Company and, at a minimum, the Authority, or acknowledged by the Company, as applicable:

(I) The Company established a power purchase price based, in part, on the Authority’s covenant in the Company Lease Agreement to issue the Series 2011 Bonds to finance the Renewable Energy Projects, and if applicable, the Capital Improvement Projects, for the Series 2011 Local Units, and the Company shall be entitled to draw a dedicated portion of the net proceeds of the Series 2011 Bonds for the design, permitting, acquisition construction, renovation, and installation of such Projects on a requisition basis,

(II) The Company established a power purchase price based, in part, on the Authority’s covenant in the Company Lease Agreement, as nominal owner of the Renewable Energy Projects for State law purposes, to assign to the Company all or a portion of the Authority’s rights to the Solar Renewable Energy Certificates (“SRECs”) generated by the Renewable Energy Projects for the Series 2011 Local Units, and

(III) The Company shall sell to the Authority for the benefit of the Series 2011 Local Units, for a term of fifteen (15) years, plus extensions if applicable, for a fixed power purchase price per kilowatt hour, as escalated under the terms thereof (such terms to be established pursuant to the Company Proposal), the renewable energy generated by the Renewable Energy Projects, which Authority obligation to purchase shall be assigned to the Series 2011 Local Units as part of the Local Unit License Agreements; and

(c) The Company Lease Agreement, the Power Purchase Agreement and the hereinafter defined Company Disclosure Agreement, Company Pledge

Agreement, EPC Contract, and County Security Agreement, if any, may be collectively defined as the "*Company Documents*";

**WHEREAS**, payment of the principal of (including mandatory sinking fund installments, if any) and interest on the Series 2011 Bonds, shall be secured by the Trust Estate as defined under and in accordance with the terms of the Bond Resolution, which shall include, among other things, (i) Basic Lease Payments to be made by the Company under, and as defined in, the Company Lease Agreement, (ii) certain Additional Lease Payments to be made by the Company under, and as defined in, the Company Lease Agreement, which Additional Lease Payments shall be attributable to (a) the Purchase Option Price payable in accordance with Section 701 of the Company Lease Agreement upon any optional redemption of the Series 2011 Bonds or (b) the Mandatory Purchase Price payable in accordance with Section 702 of the Company Lease Agreement upon any acceleration of the Series 2011 Bonds, and (iii) payments by the County under the hereinafter defined County Guaranty to the extent other funds (including the Basic Lease Payments) are not available to make the Series 2011 Bond debt service payments on time and in full, all in accordance with the terms of the Bond Resolution;

**WHEREAS**, the payment of the principal (including mandatory sinking fund installments, if any) of, and interest (at interest rates not to exceed the maximum rates set forth in the Local Finance Board Application) on the Series 2011 Bonds, but not any redemption premium, shall be fully, unconditionally and irrevocably guaranteed in accordance with (i) the terms of a guaranty ordinance of the County finally adopted by the Board of Freeholders on August 17, 2011, (ii) by a guaranty certificate to be executed by an authorized officer of the County within each Series 2011 Bond and (iii) that certain "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Guaranty Agreement*") by and between the County and the Authority, as acknowledged by the Company setting forth, among other things, the County's obligation to make any such guaranty payments in accordance with and within the parameters set forth in the guaranty ordinance and the Bond Resolution (collectively, the "*County Guaranty*"), all pursuant to Section 37 ("*Section 37*") of the Act (N.J.S.A. 40:37A-80);

**WHEREAS**, the holders of any Additional Bonds issued under the terms of the Bond Resolution, the Act and all other applicable law shall also be entitled to the pledge of the Trust Estate under the Bond Resolution on a pro-rata basis with the holders of any Outstanding Bonds as defined therein, including the Series 2011 Bonds, although the guaranty of the County shall only extend to any such Series of Additional Bonds to the extent (i) the aggregate principal amount of all such Series of Additional Bonds, when taken together with the aggregate principal amount of the Series 2011 Bonds, shall not exceed \$50,000,000, or (ii) the County adopts and executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County Security*") to be

issued by a sufficiently rated banking or other financial institution, or if the County Security is provided by or on behalf of the Company, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for the payment of the Series 2011 Bonds), the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the "*EPC Contractor*"), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated December 12, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*EPC Contract*") between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the "*In-Kind Equity Contribution*") until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y) the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic Lease Payment Date (the "*Cash Equity Contribution*") which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the In-Kind Equity Contribution, together with the Cash Equity Contribution shall be known as the "*Equity Contribution*"), (ii) a cash reserve in the amount of \$1,500,000 (the "*County Reserve*") to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution), which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy

Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

**WHEREAS**, should the County otherwise have insufficient sources of funds to make its Basic Lease Payments on time and in full, the Company shall have the ability to draw funds from the County Reserve in order to enable the Company to make its Basic Lease Payments;

**WHEREAS**, should the Company fail to make its Basic Lease Payments on time and in full, thereby causing the County to make payments to the Series 2011 Bondholders under the County Guaranty, which in turn causes the County Security to be drawn upon to reimburse the County for all or a portion of any such County Guaranty repayments, (i) the County Security Agreement, if any, may provide that the Authority assign and pledge the Reimbursement Collateral to the County Security Provider, as reimbursement security for any such draw on the County Security, or (ii) to the extent no County Security Agreement shall exist, then the Company, as County Security Provider in such instance, shall only be entitled to such excess County Security, as Reimbursement Collateral, if any shall remain available, after and to the extent the County has been fully paid under its County Guaranty but only to the extent of any County Security provided by or on behalf of the Company;

**WHEREAS**, in the event the Company provides the County Security Fund requirement, in part, through such a covenant to provide immediately available funds, if applicable, but in any event to secure other Company obligations under the Company Documents, the Authority shall require the Company to further secure such obligations by pledging certain property interests of the Company and its member's interest in and to the Company to the Trustee, all as shall be set forth in the Company Lease Agreement and that certain "Pledge and Security Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*Company Pledge Agreement*"), and issued by the sole member of the Company, in favor of the Trustee, and acknowledged and accepted by the Company;

**WHEREAS**, the Company as a potential "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12 ("*Rule 15c-12*") promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, shall be required to enter into that certain "Company Continuing Disclosure Agreement (Sussex County

Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the “*Company Continuing Disclosure Agreement*”) with the Authority and the Trustee, as dissemination agent (the “*Dissemination Agent*”) in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution, as a “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12, the County will be required to enter into that certain “County Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the “*County Continuing Disclosure Agreement*” and together with the Company Continuing Disclosure Agreement, the “*Continuing Disclosure Agreements*”; the County Continuing Disclosure Agreement, along with the County Guaranty and the County Security Agreement, if any, shall be collectively known as the “County Documents”) with the Dissemination Agent in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution and/or the Continuing Disclosure Agreements, the Authority shall (i) not be considered a “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12, and (ii) be required to provide certain material events notices in accordance with Rule 15c2-12, and accordingly, the Authority shall be required to provide such material events notices under the terms of the Company Continuing Disclosure Agreement and the County Continuing Disclosure Agreement, all in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application dated July 19, 2011 (the “*Local Finance Board Application*”) to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the “*Local Finance Board*”) in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall by negotiated sale publicly offer the Series 2011 Bonds, in which public offering case the Authority shall have authorized (i): the distribution of a preliminary official statement “deemed final” within the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the “*Preliminary Official Statement*”); and (ii) the execution and delivery of a bond purchase agreement (the “*Bond Purchase Agreement*”) with an underwriter to be selected by the Authority through a fair and open process (alternatively, the “*Underwriter*”) to purchase all of the Series 2011 Bonds, and (iii) delivery of a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the “*Official Statement*”, and together with the Preliminary Official Statement, and the Bond Purchase Agreement, and any of the same or other offering or sale documents that may be required by the County “*Sale Documents*”);

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 (“*Section 13*”) of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the “Sussex County Board of Freeholders”) and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Documents, the County Documents, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the “*Program Documents*”), and which report and amended report shall be accepted by both the County and Morris County by resolution adopted by the Sussex County Board of Freeholders and the Morris County Board of Freeholders pursuant to Section 13.

**NOW, THEREFORE**, in consideration of the premises and the mutual covenants and agreements set forth herein, the Authority and the County and its successors and assigns, do mutually covenant, promise and agree as follows:

**Section 1.** Pursuant to the provisions of the Act and the County Guaranty ordinance, the County shall, and hereby agrees to fully, irrevocably, and unconditionally guarantee the punctual payment of the principal of (including sinking fund installments) and the interest on the Series 2011 Bonds. The full faith and credit of the County are hereby pledged for the full and punctual performance of the County Guaranty. Accordingly, the Freeholder-Director of the County shall, and hereby is, authorized and directed to execute and deliver the County Guaranty Certificate in the form set forth in Section 14.01 of the Bond Resolution upon initial issuance of the Series 2011 Bonds, as part of each such Series 2011 Bond. This County Guaranty Agreement shall not guaranty the payment of any redemption premium with respect to the Series 2011 Bonds. Capitalized terms not defined herein shall have the meaning ascribed to such terms in the Bond Resolution.

**Section 2.** The Authority agrees to apply the proceeds derived from the sale of the Series 2011 Bonds to Costs associated with the Projects for the Series 2011 Local Units, including payment of Costs of Issuance, Administrative Expenses and required reserves, if any, and such other matters as set forth in the Bond Resolution.

**Section 3.** The Authority will keep, or cause to be kept by the Trustee or otherwise, proper books of record and account in which complete and correct entries shall be made of its transactions relating to the Projects and which, together with all other books and papers of the Authority, shall at all reasonable times be subject to inspection by the County.

**Section 4.** Attached hereto as **Exhibit A** is the following information required by the County in order to discharge its obligations under this County Guaranty Agreement:

(a) The date of issuance, the maturity dates, the principal amortization, the interest rate or rates, and the Trustee and Paying Agent for the Series 2011 Bonds.

(b) The Basic Lease Payments and the Basic Lease Payment Dates.

**Section 5.** If, thirty (30) days prior to any Interest Payment Date or Principal Payment Date, the amounts that are on deposit in the Aged Account of the Revenue Fund established under the Bond Resolution are insufficient to provide for the payment of the principal of (including sinking fund payments, if any) and/or interest on the Series 2011 Bonds that are due and payable on such payment dates, the Trustee shall notify the County's Chief Financial Officer on such day of the amounts that are necessary to provide for the payment of the principal of and/or interest on the Series 2011 Bonds (the "**Deficiency**"). The County shall be obligated to make payment of the Deficiency to the Trustee no later than one (1) Business Day prior to the Interest Payment Date or the Principal Payment Date, as applicable, of the Series 2011 Bonds. Notwithstanding any other provision of this Guaranty Agreement, failure by the Trustee to give the County notice as provided herein shall not relieve the County of its obligations to make payment under the terms of the County Guaranty.

(a) Notwithstanding the foregoing provisions of this Section 5, upon the occurrence and continuance of the Deficiency one (1) Business Day prior to the Interest Payment Date or the Principal Payment Date,

(i) with respect to the Series 2011A Bonds only, the County may, in its sole discretion determine to exercise its right to cause the optional redemption or if applicable, defeasance and subsequent optional redemption, of all or a portion of the Series 2011A Bonds, which optional redemption is contemplated by Section 2.03(5)(a) and (b) of the Bond Resolution, and which defeasance is contemplated by Article XII of the Bond Resolution. In any such instance, the County may establish the defeasance date, as applicable, at any time, and the redemption date at any time on or after June 15, 2021, all with written notice to the Authority and the Trustee and otherwise in accordance with the terms of the Bond Resolution. Nothing in this Section 5(a)(i) is intended to diminish the County's rights to reimbursement, including those rights set forth in Section 7 hereof.

(ii) with respect to the Series 2011B Note only, the Series 2011B Note is not subject to redemption.

**Section 6.** Subject to Section 5(a) hereof, when notice has been provided, as described above, the County shall take all necessary actions to make payment of the Deficiency to the Trustee as provided above. Such actions shall include the adoption of an emergency appropriation or an emergency temporary appropriation and the funding of such appropriation in accordance with the requirements of the Local Budget Law (N.J.S.A. 40A:4A-1 *et seq.*), the levy of *ad valorem* taxes on all taxable property in the County, without limitation as to rate or amount, or any other actions that are legally permitted to be taken to meet the requirements of such County Guaranty (including the adoption of a bond ordinance pursuant to the provisions of the Local Bond Law).

**Section 7.** (a) The Authority hereby covenants to the County that in the event the County Guaranty is called upon, the Authority shall be obligated and shall take all actions within its power (in accordance with the terms of the Act), including causing the Trustee to pay over to the County all funds on deposit in the County Security Fund, if any, held by the Trustee under the Bond Resolution as monies therein shall not be part of the Trust Estate pledged to the payment of debt service on the Series 2011 Bonds, so as to enable the County to be reimbursed, to the maximum extent practicable, up to the amount that shall have been paid by the County pursuant to the terms of this County Guaranty Agreement (i.e., the Deficiency), at the earliest practicable date. The Authority shall not be obligated to pay the Deficiency from funds within its general control that are not contemplated by the Program Documents; the Authority, shall, however, pay or cause the Deficiency to be paid from amounts the Authority controls on deposit in the County Security Fund, or from any past due Basic Lease Payments it receives from the Company. The County and the Authority acknowledge and agree that as of the date of this Guaranty Agreement, it has been determined that the amount of the County Security Fund Requirement will be \$1,500,000, and there is no County Security Agreement, County Security Provider or other form of County Security, and any provisions herein with respect to such terms are hereby of no further force or effect.

(b) Nothing herein provided shall in any way diminish the County's rights to receive payment from the County Security Fund for reimbursement of any County payment of the Deficiency. The Authority shall take all actions necessary, desirable or convenient to assist the County in any such reimbursement action, and simultaneously with the authorization, execution and delivery hereof, the Authority shall (i) deliver or cause to be delivered for the benefit of the County the County Reserve to be deposited with the Trustee in the County Security Fund created under the Bond Resolution, in which case no County Security Agreement shall exist, and further, the Authority shall (ii) incorporate into the Program Documents repayment provisions to the County relating to the County Security, including without limitation Section 5.07 of the Bond Resolution.

(c) As further security and further assurance for the Company's obligations to (i) make Basic Lease Payments, (ii) make those Additional Lease Payments constituting part of the Trust Estate, and (iii) pay interest at the Overdue Rate on such amounts in clauses (i) and (ii), all at the times, in the amounts, and otherwise in accordance with the terms and provisions of the Company Lease Agreement, the failure to make timely and full payment of which could cause any such Deficiency, the Authority hereby further assigns and pledges all of its right, title and interest in and to the Reimbursement Collateral to the County, to be held as collateral to secure such Deficiency payment; provided, however, that to the extent the County is never required to make payment under its County Guaranty or the County is reimbursed in full for its Deficiency payment(s) by or on behalf of the County Security Provider from the County Security, the County expressly acknowledges it shall have no further rights to the Reimbursement Collateral, and further, that the County Security Provider (upon issuance of the Series 2011 Bonds, with no County Security Agreement, being the Company) shall, in such instance, be exclusively entitled to any balance of the Reimbursement Collateral. This County Guaranty Agreement shall be deemed to be a security agreement for purposes of the Uniform Commercial Code and all other applicable law.

**Section 8.** The obligations of the County under this County Guaranty Agreement shall be full, absolute, irrevocable, and unconditional, and shall remain in full force and effect until the entire principal of (including Sinking Fund Installments, if any) and interest on the Series 2011 Bonds shall have been paid or duly provided for in accordance with the provisions of the Bond Resolution. The County Guaranty is a guaranty of payment and not of collectability. The obligations of the County hereunder shall not be affected, modified or impaired upon the occurrence from time to time of any event, including without limitation any of the following, whether or not with notice to, or the consent of, the County:

(a) The waiver, compromise, settlement, release or termination of any or all of the obligations, covenants or agreements of the Authority which are contained in the Bond Resolution and any other Program Document, or of the payment, performance or observance thereof;

(b) The failure to give notice to the County of the occurrence of an event of default under the provisions of this County Guaranty Agreement;

(c) The transfer, assignment or mortgaging or the purported transfer, assignment or mortgaging of all or any part of the interest or security interest of the Authority in the Projects;

(d) The extension of the time for payment of the principal of or interest on the Series 2011 Bonds or of the time for performance of any obligations, covenants or agreements under or arising out of the Program Documents;

(e) The modification or amendment (whether material or otherwise) of any obligation, covenant or agreement set forth in the Program Documents;

(f) The taking, suffering or the omission of any of the actions referred to in the Series 2011 Bond Resolution or of any actions under this County Guaranty Agreement;

(g) Any failure, omission, delay or lack on the part of the Authority to enforce, assert or exercise any right, power or remedy conferred on the Authority in this County Guaranty Agreement, the Series 2011 Bond Resolution or any other act or acts on the part of the Authority or any of the holders from time to time of the Series 2011 Bonds;

(h) The voluntary or involuntary liquidation, dissolution, sale or other disposition of all or substantially all of the assets, marshalling of assets and liabilities, receivership, insolvency, bankruptcy, assignment for the benefit of creditors, reorganization, arrangement, composition with creditors or readjustment or other similar proceedings affecting the Authority, the Company or any other Renewable Energy Program Interested Party or any assets of any of them, or any allegation or contest of the validity of the County Guaranty, or the Series 2011 Bond Resolution;

(i) To the extent permitted by law, any event or action that would, in the absence of this clause, result in the release or discharge by operation of law of the County from the

performance or observance of any obligation, covenant or agreement contained in this County Guaranty Agreement; or

(j) The default or failure of the County fully to perform any of its obligations set forth in this County Guaranty Agreement.

**Section 9.** No set-off, counterclaim, reduction, recoupment, or diminution of any obligation, or any defense of any kind or nature (other than full and timely performance by the County of its obligations hereunder) which the County or the Authority has or may have against the Authority, the County, the Trustee, any other Renewable Energy Program Interested Party, or against any holder of the Series 2011 Bonds, shall be available to the County or the Authority hereunder against the Authority, the County, the Trustee, any other Renewable Energy Program Interested Party, or against any holder of the Series 2011 Bonds or anyone succeeding to the respective interests thereof.

**Section 10.** The County further guarantees that all payments made with respect to the Series 2011 Bonds, when made, will be final and agrees that if such payment is recovered from or repaid by or on behalf of the Authority or the holders of the Series 2011 Bonds in whole or in part in any bankruptcy, insolvency or similar proceeding instituted by or against the Authority or the Company, the County Guaranty shall continue to be fully applicable to such liabilities to the same extent as though the payment so recovered or repaid had never been originally made on such liabilities.

**Section 11.** In the event of a default in payment of the principal of or interest on the Series 2011 Bonds when and as the same shall become due, whether at the stated maturity thereof or otherwise, the Authority, the Trustee or any party to whom the Authority's or the Trustee's rights have been assigned may proceed to enforce their rights hereunder and may proceed first and directly against the County under the terms of this County Guaranty Agreement without proceeding against or exhausting any other remedies which it may have and without resorting to any other security held by the Authority or the Trustee. In any such event, the County shall be subrogated to the rights of such party with respect to such security. All moneys recovered pursuant to this County Guaranty Agreement shall be applied in accordance with the provisions of the Bond Resolution.

The Series 2011 A Bonds are assumed to include annual principal payments on June 15, 2013 through and including June 15, 2027 and semiannual interest payments on June 15th and December 15th of each year, commencing on June 15, 2012 (the June 15, 2012 and December 15, 2012 interest payments will be paid by capitalized interest being funded through the Series 2011B Bonds). The Series 2011B Bonds are assumed to be issued on December 14, 2011 simultaneously with the bond financing and will include a single payment of principal and interest on January 15, 2013. The interest rates included in this schedule correspond to the principal payment dates of the Series 2011 Bonds which are 5-months after such Basic Lease Payment dates.*

There is no Series 2011B Note interest due on such dates.

### POWERS OF THE PLEDGOR PRIOR TO AN EVENT OF DEFAULT

Section 2.01 Distributions; Exercise of Rights. Unless an Event of Default has occurred and is continuing, and subject to the terms of the Company Agreements, the Pledgor shall be entitled to (a) receive cash Distributions (including in respect of the Section 1603 Grant or the proceeds from the sale of any SRECs) allocable to the Pledged Collateral, and (b) exercise (but only in a manner that will not (i) violate or be inconsistent with the terms hereof or of any other Company Agreement or (ii) have the effect of impairing the position or interests of the Trustee) the voting, consent, administration, management and all other powers, rights and remedies of the Pledgor with respect to the Pledged Collateral under the Organizational Agreements of any Pledged Entity (including all other rights and powers thereunder which are pledged hereunder or otherwise). If the Pledgor shall become entitled to receive or shall receive from any Pledged Entity (A) any non-cash Distribution as an addition to, on account of, in substitution of, or in exchange for the Pledged Collateral or any part thereof, or (B) upon the occurrence of any Event of Default that is continuing, any cash Distributions, in either case the same shall immediately be remitted to the Trustee (in the exact form received, with the Pledgor's endorsement or assignment or other instrument as the Trustee may deem appropriate) to be held as additional Pledged Collateral for the Obligations or for application thereto, as applicable, and until so remitted, shall be received and held by the Pledgor in trust and as agent for the Trustee. For the avoidance of doubt, any Distribution by the Company (including in respect of the Section 1603 Grant or any proceeds from the sale of SRECs) occurring prior to an Event of Default shall be irrevocable and shall not be subject to refund or recovery by the Trustee, including without limitation, upon the occurrence of an Event of Default.

Section 2.02 Termination of Powers. ### ARTICLE III

#### REPRESENTATIONS, WARRANTIES AND COVENANTS OF PLEDGOR

The Pledgor hereby represents, warrants and covenants with and to the Trustee as follows:

Section 3.01 Percentage Ownership. As of the date hereof, the Pledgor owns one hundred (100%) percent of the legal and beneficial ownership interests in and to all Pledged Equity. The Pledgor does not have any outstanding options or rights or other agreements to acquire or sell or otherwise transfer all or any portion of any Pledged Equity.

Section 3.02 Title to Pledged Collateral. The Pledgor validly acquired and is the legal and beneficial owner of the Pledged Collateral in which it has granted a security interest, and transferred a collateral interest, herein, free and clear of all Liens except such as are created pursuant to this Agreement. The Pledgor has the legal right to pledge and grant a security interest in the Pledged Collateral as herein provided without the consent of any other person or entity, other than any such consent that has been obtained. The Pledgor will have like title in, and the right to pledge, any other property at any time hereafter acquired by the Pledgor and pledged to the Trustee as Pledged Collateral hereunder.

Section 3.03 Defense of Title. The Pledgor will defend the Trustee's right, title and interest in and to the Pledged Collateral against the claims and demands of all other persons and entities.

Section 3.04 No Transfer. Except for the transfer effected by this Agreement, the Pledgor will not transfer the Pledged Collateral, or any portion thereof, or suffer or permit any transfer thereof to occur. Any transfer made in violation of the foregoing provisions shall be an immediate Event of Default hereunder without notice or opportunity to cure and shall be void and of no force and effect, and upon demand of the Trustee, shall forthwith be cancelled or satisfied by an appropriate instrument in writing. Notwithstanding any other provisions herein, nothing in this Agreement shall limit the transferability of ownership interests in Pledgor or the admission or withdrawal of members of the Pledgor.

Section 3.05 Perfected Security Interest. Giving effect to this Agreement, the Trustee has, with respect to all Pledged Collateral owned by the Pledgor as of the Closing Date, and will have with respect to any other property at any time hereafter acquired by the Pledgor and pledged to the Trustee as Pledged Collateral hereunder, a valid, perfected and continuing first lien upon and security interest in the Pledged Collateral. For purposes hereof, "Closing Date" shall mean the date of issuance of the Series 2011 Bonds.

Section 3.06 No Financing Statements. Except for financing statements filed or to be filed in favor of the Trustee as secured party, or such other financing statements expressly permitted with the Trustee's prior written consent, which may be withheld in the Trustee's sole

and absolute discretion, there are not now any financing statements under the UCC covering any or all of the Pledged Collateral filed in any public office, and the Pledgor will not authorize the filing of any such financing statements.

Section 3.07 Certificated Securities. The Pledgor represents and warrants that if all of the Pledged Equity is not evidenced by a certificated security, it shall promptly take all actions required to perfect the security interest of the Trustee in such Pledged Equity under applicable law as required under Section 1.03 of this Agreement. The Pledgor further agrees to take such additional actions as the Trustee deems necessary or desirable to effect the foregoing and to permit the Trustee to exercise any of its rights and remedies hereunder and agrees to provide an opinion of counsel satisfactory to the Trustee with respect to any such pledge of Equity Interests which are not Certificated Securities promptly upon request of the Trustee. Without limiting the effect of the immediately preceding clause, the Pledgor, upon the occurrence of an Event of Default, hereby grants to the Trustee an irrevocable proxy to vote the Pledged Equity and to exercise all other rights, powers, privileges and remedies to which a holder of the pledged equity would be entitled (including without limitation (a) giving or withholding written consents, (b) calling special meetings, (c) voting at such meetings, and (d) voting at any time or place) with respect to any action, decision, determination or election by the pledged entities or the holders of the respective equity interests therein that the Pledged Equity (or any new or additional equity interest in such Pledged Entity) be, or cease to be, a certificated security, and all other matters related to any such action, decision, determination or election, which proxy shall be effective automatically and without the necessity of any action (including any transfer of any pledged equity on the record books of the issuer thereof) by any other person (including the issuer of the Pledged Equity or any officer or agent thereof) as of the date hereof, and which proxy shall only terminate upon the termination of this Agreement.

Section 3.08 Fully Paid and Non-Assessable. All of the Pledged Equity has been duly authorized and validly created and is subject to no options to purchase or similar rights of any Person. The Pledgor is not, and will not become, a party to or otherwise be or become bound by any agreement, other than this Agreement and the other Company Agreements, which restricts in any manner the rights of any present or future holder of any of the Pledged Equity with respect thereto. There are no set-offs, counterclaims or defenses with respect to the Pledged Collateral owned by the Pledgor and no agreement, oral or written, has been made with any other person or party under which any deduction or discount may be claimed with respect to such Pledged Collateral and the Pledgor knows of no fact which would prohibit or prevent the Pledgor assigning or granting a security interest in the Pledged Collateral.

Section 3.09 Organizational Agreements. Attached hereto as Exhibit B are true, correct, and complete copies of the Organizational Agreements of each Pledged Entity. The Organizational Agreements are in full force and effect and have not been modified or amended except as attached hereto. The Pledgor is not in default of any of its obligations under the Organizational Agreements nor is the Pledgor aware of a default by any other member in their respective obligations under the Organizational Agreements.

Section 3.10 Amendments. The Pledgor shall not allow any Pledged Entity to (a) amend any provision of its Organizational Agreements, (b) dissolve, liquidate, wind-up, merge

or consolidate with any other entity or (c) transfer any of its respective assets and properties to any Person except as permitted by the Company Agreements.

Section 3.11 Authority, Enforceability, Etc. The execution, delivery and performance of this Agreement by the Pledgor will not cause a violation of or a default under the Organizational Agreements of the Pledgor or any Pledged Entity. The execution and delivery of this Agreement and the performance of the Pledgor's obligations hereunder will not conflict with or result in a breach of the terms or provisions of any (a) applicable law, (b) agreement to which the Pledgor or any Pledged Entity is a party or by which any of his assets are bound, or (c) judgment, decree, arbitration award, or pending litigation to which the Pledgor or any Pledged Entity is subject. No approval by, authorization or consent of, or filing with any governmental authority or any other Person is necessary in connection with the execution, delivery and performance by the Pledgor of this Agreement, or if such approval, authorization, or consent is necessary, it has been obtained. This Agreement constitutes the valid and legally binding obligations of the Pledgor and is fully enforceable against the Pledgor in accordance with its terms, subject to the effects of Bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally and limitations imposed by general principles of equity. The jurisdiction of organization (as such term is defined in the UCC) and place of business of the Pledgor is set forth in the signature block of the Pledgor. No change has been or will be made in the jurisdiction of organization or place of business of the Pledgor, except upon at least thirty (30) days' prior notice to the Trustee.

## ARTICLE IV

### EVENTS OF DEFAULT AND REMEDIES

If an Event of Default shall occur during the term of this Agreement and during its continuance:

Section 4.01 Transfer Rights. Subject to the limitation of Section 4.10 hereof, the Trustee shall have the right, at any time and from time to time, to affect the transfer of any or all of the Pledged Collateral, subject only to the provisions of the UCC and any other applicable statute which, in accordance with such statute, cannot be waived, in any one or more of the following ways:

(a) Register in the name of, or transfer to, the Trustee, a nominee or nominees, or designee or designees, of the Trustee; provided that the provisions of Section 5.06 of this Agreement are complied with;

(b) Sell, resell, assign and deliver, in the Trustee's sole and absolute discretion, any or all of the Pledged Collateral (whether in whole or in part and at the same or different times) and all right, title and interest, claim and demand therein and right of redemption thereof, at public or private sale, for cash or upon credit (by the Trustee only), in accordance with the applicable procedures specified in Article V of this Agreement; and

(c) Proceed by a suit or suits at law or in equity to foreclose all or any part of the security interests in the Pledged Collateral and sell the Pledged Collateral or any portion thereof, under a judgment or decree of a court of competent jurisdiction, retaining during the duration of such judicial enforcement all other rights with respect to the Pledged Collateral, including specifically the rights specified hereafter in Article V of this Agreement with respect to each Pledged Entity.

Section 4.02 Voting Rights. Upon the occurrence of an Event of Default and during its continuance, the Trustee may exercise, either by itself or by its nominee or designee, in the name of the Pledgor, the rights, powers and remedies granted to the Trustee hereunder and under the other Company Agreements in respect of the Pledged Collateral at any time prior to effecting the transfer of such Pledged Collateral to the Trustee or its nominee or designee, or any third party purchasers, as contemplated in Sections 4.01(a) and (b) above, and whether or not any judicial action as contemplated in Sections 4.01(c) above has been commenced or is continuing prior to a final unappealable judgment. Such rights and remedies shall include, without limitation, and the Pledgor hereby grants to the Trustee the right to exercise by delivering notice to the Pledgor and the applicable Pledged Entity, (a) all voting, consent, managerial and other rights relating to the Pledged Equity, whether in the Pledgor's name or otherwise, including without limitation the right to appoint officers, directors, managers and other similar positions and (b) the right to exercise the Pledgor's rights, if any, of conversion, exchange, or subscription, or any other rights, privileges or options pertaining to any of the Pledged Equity, including, without limitation, the

right to exchange, at the Trustee's sole and absolute discretion, any and all of the Pledged Equity upon the merger, consolidation, reorganization, recapitalization or other readjustment of such Pledged Entity, all without liability, except to account for property actually received by the Trustee. The Pledgor hereby irrevocably authorizes and directs each Pledged Entity, on receipt of any such notice (i) to deem and treat the Trustee or its nominee in all respects as a member, partner or shareholder, as applicable (and not merely an assignee of a member, partner or shareholder) of such Pledged Entity, entitled to exercise all the rights, powers and privileges (including, without limitation, the right to vote on or take any action with respect to such Pledged Entity matters pursuant to the Organizational Agreement) thereof, to receive all distributions, to be credited with the capital account and to have all other rights, powers and privileges pertaining to such member, partner or shareholder interest, as applicable, to which the Pledgor would have been entitled had the Pledgor not executed this Agreement and (ii) to file an amendment to the Organizational Agreement of such Pledged Entity admitting the Trustee or such nominee(s) as a member, partner or shareholder in place of the Pledgor.

Section 4.03 Power of Attorney.

(a) The Pledgor hereby irrevocably authorizes and empowers the Trustee, and assigns and transfers of the Trustee, and constitutes and appoints the Trustee and any of its assigns, its true and lawful attorney-in-fact (coupled with an interest) and as its agent with full power of substitution for the Pledgor to proceed from time to time in the Pledgor's name, in order to more fully vest in the Trustee the rights and remedies provided for herein, in any statutory or non-statutory legal or other proceeding, including without limitation, any Bankruptcy proceeding affecting any Pledged Entity or the Pledged Collateral and Pledgor's interest in any Pledged Entity or the Pledged Collateral.

(b) The Trustee and any of its assigns, or their respective nominees, may, to the extent permitted by applicable law, either pursuant to such power-of-attorney or otherwise, take any action and exercise and execute any instrument that it determines necessary or advisable to accomplish the purposes of this Agreement, including without limitation: (i) execute and file proof of claim with respect to any or all of the Pledged Collateral against any Pledged Entity and vote such claims with respect to all or any portion of such Pledged Collateral (A) for or against any proposal or resolution, (B) for a trustee or trustees or for a receiver or receivers or for a committee of creditors, and/or (C) for the acceptance or rejection of any proposed arrangement, plan of reorganization, composition or extension; (ii) receive, endorse and collect all drafts, checks and other instruments for the payment of money made payable to the Pledgor representing any interest, payment of principal or other distribution payable in respect of the Pledged Collateral; (iii) execute endorsements, assignments or other instruments of conveyance or transfer in respect of any other property which is or may become a part of the Pledged Collateral hereunder; and (iv) execute releases and negotiate settlements, as appropriate, including on account of, or in exchange for, any or all of the Pledged Collateral, or any payment or distribution received by the Pledgor, or the Trustee on the Pledgor's behalf.

(c) The foregoing power-of-attorney is irrevocable and coupled with an interest, and any similar or dissimilar powers previously given by the Pledgor in respect

of the Pledged Collateral or any Pledged Entity to any Person or any other person or entity (other than the Trustee) are hereby revoked. The power-of-attorney granted herein shall terminate automatically upon the termination of this Agreement in accordance with the terms hereof.

Section 4.04 Management Rights. The Trustee may at such time and from time to time thereafter, without notice to, or consent of, the Pledgor or any Person (to the extent permitted by law), but without affecting any of the Obligations, in the name of the Pledgor or in the name of the Trustee: (a) notify any other party to make payment and performance directly to the Trustee, (b) extend the time of payment and performance of, compromise or settle for cash, credit or otherwise, and upon any terms and conditions, any obligations owing to the Pledgor, or claims of the Pledgor under any Organizational Agreement of any Pledged Entity, as applicable, (c) file any claims, commence, maintain or discontinue any actions, suits or other proceedings deemed by the Trustee reasonably necessary or advisable for the purpose of collecting upon or enforcing any Organizational Agreement of any Pledged Entity and (d) execute any instrument and do all other things deemed reasonably necessary and proper by the Trustee to protect and preserve and realize upon the Pledged Collateral or any portion thereof and the other rights contemplated hereby.

Section 4.05 Right of Substitution. The Trustee shall have the right, without notice to or consent of the Pledgor, to become, or to designate its nominee, designee, agent or assignee to become, a partner, member, officer or director, as applicable, of any Pledged Entity, in substitution of any existing Person serving in such capacity, subject to the terms of the Organizational Agreement.

Section 4.06 UCC Rights. The Trustee may exercise all of the rights and remedies of a secured party under the UCC.

Section 4.07 The Trustee Self-Help Rights.

(a) Subject to all applicable Laws, the Trustee shall have the right, but not the obligation, to take any appropriate action as it, in its reasonable judgment, may deem necessary to (i) cure any Event of Default, (ii) cause any term, covenant, condition or obligation required under this Agreement or other Company Agreement to be promptly performed or observed on behalf of the Pledgor or (iii) protect the Pledged Collateral and any other security obtained pursuant to the other Company Agreements. All amounts advanced by, or on behalf of, the Trustee in exercising its rights under this Article IV (including, without limitation, reasonable legal expenses and disbursements incurred in connection therewith), together with interest thereon at the Overdue Rate (as defined in the Company Lease Agreement) from the date of any such advance, shall be payable by the Pledgor to the Trustee upon demand therefor and shall be secured by the Pledged Collateral.

(b) The Trustee shall not be obligated to perform or discharge any obligation of the Pledgor or any Pledged Entity as a result of this Agreement. The acceptance by the Trustee of this Agreement shall not at any time or in any event obligate the Trustee to (i)

appear in or defend any action or proceeding relating to the Pledged Collateral to which it is not a party, or (ii) take any action hereunder or thereunder, or expend any money or incur any expenses or perform or discharge any obligation, duty or liability under the Pledged Collateral.

Section 4.08 Remedies Cumulative. The obligations of the Pledgor under this Agreement shall be absolute and unconditional and shall remain in full force and effect without regard to, and shall not be released, suspended, discharged, terminated or otherwise affected by, any circumstances or occurrence except as specifically provided in this Agreement. The rights, powers and remedies of the Trustee under this Agreement shall be cumulative and not exclusive of any other right, power or remedy which the Trustee may have against the Pledgor or any Person pledging collateral pursuant to the other Company Agreements or existing at law or in equity or otherwise. The Trustee's rights, powers and remedies may be pursued singly, concurrently or otherwise, at such time and in such order as the Trustee may determine in its sole and absolute discretion. **THE TRUSTEE SHALL HAVE NO DUTY TO EXERCISE ANY OF THE AFORESAID RIGHTS, POWERS AND REMEDIES AND SHALL NOT BE RESPONSIBLE FOR ANY FAILURE TO DO SO OR DELAY IN SO DOING.**

Section 4.09 Notice of Exercise of Remedies. The Pledgor hereby waives notice of acceptance hereof, and except as otherwise specifically provided herein or required by provision of law which may not be waived, hereby waives any and all notices or demands with respect to any exercise by the Trustee of any rights or powers which it may have or to which it may be entitled with respect to the Pledged Collateral, except that notwithstanding the foregoing or anything herein to the contrary, the Trustee shall provide thirty (30) days advance notice prior to the Trustee's exercising any such rights or powers with respect to the Pledged Collateral, during which time the Pledgor shall have the opportunity to cure the circumstance giving rise to such notice.

Section 4.10 Limitation. The Trustee may not sell or otherwise transfer any interest in the Pledged Collateral to a person (such as a governmental entity) if such transfer would result in a Tax Benefit Recapture Event. The expression, "***Tax Benefit Recapture Event***", means an event which would entitle the United States Department of the Treasury or Internal Revenue Service to require that the Company return all or part of the Section 1603 Grant in lieu of tax credit received in connection with the Renewable Energy Projects, or to disallow the Company's tax deductions or recapture all or a portion of investment tax credits previously claimed with respect to investments in energy property or for depreciation.

## ARTICLE V

### SALES OF THE PLEDGED COLLATERAL

Section 5.01 Right to Conduct Partial Sale of Pledged Collateral. In connection with any sale of the Pledged Collateral, the Trustee may grant options and may impose reasonable conditions such as requiring any purchaser to represent that any "securities" constituting any part of the Pledged Collateral are being purchased for investment only. If all or any of the Pledged Collateral is sold at any such sale by the Trustee to a third party upon credit, the Trustee shall not be liable for the failure of the purchaser to purchase or pay for the same and, in the event of any such failure, the Trustee may resell such Pledged Collateral. It is expressly agreed that the Trustee may exercise its rights with respect to less than all of the Pledged Collateral, leaving unexercised its rights with respect to the remainder of the Pledged Collateral; provided, however, that such partial exercise shall in no way restrict or jeopardize the Trustee's right to exercise its rights with respect to the remaining Pledged Collateral at a later time or times. The Pledgor hereby waives and releases any and all rights of redemption with respect to the sale of any Pledged Collateral.

Section 5.02 Sale Procedures. Except as may be required by any applicable laws, no demand, advertisement or notice, all of which are hereby expressly waived by the Pledgor, shall be required in connection with any sale or other disposition of all or any part of the Pledged Collateral, except that the Trustee shall give the Pledgor at least ten (10) days' prior notice of the time and place of any public sale or of the time and the place at which any private sale or other disposition is to be made, which notice the Pledgor hereby agrees is reasonable. All other demands, advertisements and notices are hereby irrevocably waived by the Pledgor. The notice of such sale shall (a) in case of a public sale, state the time and place fixed for such sale, (b) in case of a sale at a broker's board or on a securities exchange, state the board or exchange at which such sale is to be made and the day on which the Pledged Collateral, or the portion thereof so being sold, first will be offered for sale at such board or exchange, and (c) in the case of a private sale, state the date after which such sale may be consummated. Any such public sale shall be held at such time or times within ordinary business hours and at such place or places as the Trustee may fix in the notice of such sale.

Section 5.03 Adjournment; Credit Sale. The Trustee shall not be obligated to make any sale of the Pledged Collateral if it shall determine, in its sole and absolute discretion, not to do so, regardless of the fact that notice of sale may have been given, and the Trustee may without notice or publication adjourn any public or private sale, and such sale may, without further notice, be made at the time and place to which the same was so adjourned. Upon each public or private sale of all or any portion of the Pledged Collateral, unless prohibited by any applicable statute which cannot be waived, the Trustee (or its nominee or designee) may purchase all or any portion of the Pledged Collateral being sold, free and clear of, and discharged from, any trusts, claims, equity or right of redemption of the Pledgor, all of which are hereby waived and released to the extent permitted by law, and may make payment therefor by credit against any of the Obligations in lieu of cash or any other obligations.

Section 5.04 Expenses of Sale. In the case of any sale, public or private, of any portion of or all of the Pledged Collateral, the Pledgor shall be responsible for the payment of all reasonable costs and expenses of every kind for the sale and delivery, including, without limitation, brokers' and reasonable attorneys' fees and disbursements and any tax imposed thereon. The proceeds of the sale of the Pledged Collateral shall be available to cover such costs and expenses, and, after deducting such costs and expenses from the proceeds of the sale, the Trustee shall apply any remaining amounts to the payment of the Obligations in the order of priority as set forth in the Company Agreements.

Section 5.05 No Public Registration of Sale. The Pledgor is aware that §9-610(c) of the UCC may restrict the Trustee's ability to purchase the Pledged Collateral at a private sale. The Pledgor is also aware that Securities and Exchange Commission (the "SEC") staff personnel have, over a period of years, issued various No-Action Letters that describe procedures which, in the view of the SEC staff, permit a foreclosure sale of securities to occur in a manner that is public for purposes of Part 6 of Article 9 of the UCC, yet not public for purposes of Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act"). The Pledgor is also aware that the Trustee may wish to purchase certain interests that are sold at a foreclosure sale, and the Pledgor believes that such purchases would be appropriate in circumstances in which such interests are sold in conformity with the principles set forth in such No-Action Letters. §9-603 of the UCC permits the Pledgor to agree on the standards for determining whether the Trustee has complied with its obligations under §9-610. Pursuant to §9-603 of the UCC, the Pledgor specifically agrees that a foreclosure sale conducted in conformity with the principles set forth in such No-Action Letters (a) shall be considered to be a "public disposition" for purposes of §9-610(c) of the UCC; (b) will be considered commercially reasonable notwithstanding that the Trustee has not registered or sought to register the interests under the Securities Act, even if the Pledgor or any Pledged Entity agree to pay all costs of the registration process; and (c) shall be considered to be commercially reasonable, notwithstanding that the Trustee purchases such interests at such a sale.

Section 5.06 Strict Foreclosure. Upon the occurrence of an Event of Default:

(a) The Trustee may, but shall have no obligation to, in its sole and absolute discretion, either negotiate an agreement ("Strict Foreclosure Agreement") with the Pledgor, or make a written proposal ("Strict Foreclosure Proposal") to the Pledgor, to retain the Pledged Collateral in full or partial satisfaction of the financial Obligations in accordance with the procedures specified in §9-620 of the UCC.

(b) In the case of a Strict Foreclosure Proposal, the Pledgor shall, within ten (10) Business Days of the Pledgor's receipt of the Strict Foreclosure Proposal, indicate the Pledgor's (i) acceptance or rejection of such Strict Foreclosure Proposal and (ii) waiver of any right to redeem the Pledged Collateral pursuant to §9-624(c) of the UCC ("UCC Waiver"). The Pledgor's indication of acceptance of a Strict Foreclosure Proposal shall be made by delivering a notice in a form substantially identical to the form attached hereto as Exhibit C.

(c) The Trustee shall notify any guarantor, any other creditor with perfected lien rights in the Pledged Collateral, and any Person, or any other person or entity entitled to notice under §9-621 of the UCC ("Interested Parties") of any Strict Foreclosure Agreement or Strict Foreclosure Proposal. Such Interested Party shall, within ten (10) Business Days of receipt of notice thereof, indicate its (i) acceptance or rejection of the Strict Foreclosure Agreement or the Strict Foreclosure Proposal, and (ii) UCC Waiver.

(d) If The Trustee fails to receive (i) the Pledgor's acceptance of a Strict Foreclosure Proposal and UCC Waiver or (ii) acknowledgements from all Interested Parties of acceptance of the Strict Foreclosure Agreement or the Strict Foreclosure Proposal, as applicable) and their respective UCC Waivers, within ten (10) Business Days of receipt of the notice periods specified in subsections (b) and (c) above (collectively the "Notice Period"), then the Pledgor, or such other Interested Party, as applicable, shall be deemed to have objected to the Strict Foreclosure Agreement or the Strict Foreclosure Proposal, as applicable.

(e) Notwithstanding the acceptance of either a Strict Foreclosure Agreement or a Strict Foreclosure Proposal by the Pledgor and each Interested Party within the applicable Notice Period, the Pledgor and the Trustee shall not be required to consummate such transfer of the Pledged Collateral unless and until (i) twenty (20) days have elapsed after the delivery of such acceptance and, (ii) any Interested Party shall have not paid and satisfied the financial Obligations in full within such twenty (20) day period as contemplated under §9-623 of the UCC (a "Redemption"). If a Redemption is consummated, the Pledgor's acceptance shall be deemed to have been revoked with the consent of the Trustee.

(f) If all the conditions specified in subsections (a) through (e) of this Section 5.06 have been satisfied, the Pledgor and each Pledged Entity shall fully cooperate, at their sole expense, in all matters deemed reasonably necessary by the Trustee to effect such transfer of ownership on the records of such Pledged Entity in accordance with any applicable requirements of the Organizational Agreement of such Pledged Entity and/or the Company Agreements. Such cooperation shall include using the Pledgor's best efforts to assist the Trustee in obtaining any necessary review, approvals and other administrative action from such Pledged Entity and the Trustee. Such assistance shall include, at the Trustee's request (i) attending all meetings with, and providing all related financial and operational documents and materials to, such third parties, and (ii) providing such assurances and executing such documentation as is required by such third parties or The Trustee to effect such transfer.

Section 5.07 Receipt of Sales Proceeds. Upon any sale of the Pledged Collateral, or any portion thereof, by the Trustee hereunder (whether by virtue of the power of sale herein granted, pursuant to judicial process or otherwise), the receipt of the proceeds by the Trustee or the officer making the sale shall be a sufficient discharge to the purchaser or purchasers of the Pledged Collateral so sold, and such purchaser or purchasers shall not be obligated to see to the application of any part of the purchase money paid over to the Trustee or such officer or be answerable in any way for the misapplication or non-application thereof.

Section 5.08 Application of Pledged Collateral. All proceeds from the sale of all or any portion of the Pledged Collateral, and all Distributions now or at any time hereafter received or retained by the Trustee pursuant to the provisions of this Agreement shall be applied by the Trustee to the satisfaction of the Obligations in such order and priority as determined by the Trustee in its sole and absolute discretion and in accordance with applicable law.

Section 5.09 Preferences. The Trustee shall have no obligation to marshal any assets in favor of the Pledgor or any other party or against, or in payment of, any or all of the Obligations. To the extent the Pledgor makes a payment or payments to the Trustee, which payment or proceeds or any part thereof are subsequently invalidated, declared to be fraudulent or preferential, set aside or required to be repaid to a trustee, receiver or any other party under any Bankruptcy law, state or federal law, common law or equitable cause, then, to the extent of such payment or proceeds received, the Obligations intended to be satisfied shall be revived and continue in full force and effect, as if such payment or proceeds had not been received by the Trustee.

Section 5.10 Limitation. The rights and powers of the Trustee set out in this Article V are subject to the limitation of Section 4.10 hereof.

### SECURITIES ACT

Section 6.01 Private Securities Sale. If at any time when the Trustee shall determine to exercise its right to sell all or any part of the Pledged Collateral pursuant to Article V of this Agreement, and such Pledged Collateral or the part thereof to be sold shall not, for any reason whatsoever, be effectively registered under the Securities Act, as then in effect, the Trustee may, in its sole and absolute discretion, sell such Pledged Collateral or part thereof by private sale (for securities law purposes) in such manner and under such circumstances as the Trustee may deem necessary or advisable in order that such sale may legally be effected without such registration, provided that at least ten (10) days' notice is given to the Pledgor in accordance with the private sale notice provisions of Article V of this Agreement. Without limiting the generality of the foregoing, in any such event the Trustee, in its sole and absolute discretion (a) may proceed to make such private sale notwithstanding that a registration statement for the purpose of registering such Pledged Collateral or part thereof shall have been filed under such Securities Act, (b) may approach and negotiate with a single potential purchaser to effect such sale, and (c) may restrict such sale to a purchaser who will represent and agree that such purchaser is purchasing for its own account, for investment, and not with a view to the distribution or sale of such Pledged Collateral or part thereof. In the event of any such sale, the Trustee shall incur no responsibility or liability for selling all or any part of the Pledged Collateral at a price which the Trustee may in good faith deem reasonable under the circumstances, notwithstanding the possibility that a substantially higher price might be realized if the sale was made pursuant to a filed registration statement under the Securities Act.

### MISCELLANEOUS

Section 7.01 Further Assurances. The Pledgor hereby agrees to sign and deliver to the Trustee financing statements, continuation statements and other documents, agreements, and instruments, in form acceptable to the Trustee, and do such further acts, as the Trustee may from time to time reasonably request or which are reasonably necessary to establish and maintain a valid and perfected security interest in the Pledged Collateral (and to pay any filing fees relative thereto) or to further assure or confirm the Trustee's rights hereunder. Without limiting the foregoing, the Pledgor authorizes the Trustee, to the extent permitted by law, to file such financing statements and amendments thereto and continuations thereof relating to all or any part of the Pledged Collateral without the signature of the Pledgor (including, to the extent permitted by law, to file a photographic or other reproduction of this Agreement).

Section 7.02 No Release, Etc. No delay or omission to exercise any remedy, right or power accruing upon a default or an Event of Default shall impair any such remedy, right or power or shall be construed as a waiver thereof, but any such remedy, right or power may be exercised from time to time and as often as may be deemed expedient. A waiver of any default or Event of Default shall not be construed to be a waiver of any subsequent default or Event of Default or to impair any remedy, right or power of the Trustee. Any and all of the Trustee's rights with respect to any Pledged Collateral shall continue unimpaired, and the Pledgor shall be and remain obligated in accordance with the terms hereof, notwithstanding, among other things: (a) any renewal, extension, amendment or modification of, or addition or supplement to, or deletion from, this Agreement or any other Company Agreement or any other instrument or agreement referred to therein, or any assignment or transfer of any thereof; (b) any waiver, consent, delay, extension of time, indulgence or other action or inaction under or in respect of this Agreement or any other Company Agreement; (c) any exercise or non-exercise of any right, remedy, power or privilege under or in respect of this Agreement or any other Company Agreement; (d) any sale, exchange, release, surrender, or substitution of, or realization upon, any Pledged Collateral (except to the extent otherwise specifically agreed to by the Trustee) or any other security held by the Trustee to cure the financial Obligations; (e) the furnishing to or acceptance by the Trustee of any additional security to secure the financial Obligations; or (f) any invalidity, irregularity or unenforceability of all or any part of the Obligations or of any security therefor.

Section 7.03 Notices. All notices, consents, approvals, demands and requests required or permitted hereunder shall be given in the manner set forth in the Acknowledgment.

Section 7.04 Modification; Waiver in Writing. No modification, amendment, extension, discharge, termination or waiver of any provision of this Agreement, nor consent to any departure by the Pledgor therefrom, shall in any event be effective unless the same shall be in a writing signed by the party against whom enforcement is sought, and then such waiver or consent shall be effective only in the specific instance, and for the purpose, for which given. Except as otherwise expressly provided herein, no notice to, or demand on the Pledgor, shall

entitle the Pledgor to any other or future notice or demand in the same, similar or other circumstances.

Section 7.05 Number and Gender. All references to sections and exhibits are to sections and exhibits in or to this Agreement unless otherwise specified. Unless otherwise specified, the words "hereof," "herein" and "hereunder" and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision, article, section or other subdivision of this Agreement. Unless otherwise specified, all meanings attributed to defined terms herein shall be equally applicable to both the singular and plural forms of the terms so defined. Whenever the context may require, any pronouns used herein shall include the corresponding masculine, feminine or neuter forms, and the singular form of nouns and pronouns shall include the plural and vice versa.

Section 7.06 Headings, Etc. The headings and captions of various paragraphs of this Agreement are for the convenience of reference only and are not to be construed as defining or limiting, in any way, the scope or intent of the provisions hereof.

Section 7.07 Counterparts. This Agreement may be executed in several counterparts, each of which counterparts shall be deemed an original instrument and all of which together shall constitute a single Agreement. The failure of any party hereto to execute this Agreement, or any counterpart hereof, shall not relieve the other signatories from their obligations hereunder.

Section 7.08 GOVERNING LAW; SEVERABILITY. THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HERETO SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW JERSEY, WITHOUT REGARD TO THE PRINCIPLES OF CONFLICT OF LAWS THEREUNDER. WHEREVER POSSIBLE, EACH PROVISION OF THIS AGREEMENT SHALL BE INTERPRETED IN SUCH MANNER AS TO BE EFFECTIVE AND VALID UNDER APPLICABLE LAW, BUT IF ANY PROVISION OF THIS AGREEMENT SHALL BE PROHIBITED BY OR INVALID UNDER APPLICABLE LAW, SUCH PROVISION SHALL BE INEFFECTIVE TO THE EXTENT OF SUCH PROHIBITION OR INVALIDITY, WITHOUT INVALIDATING THE REMAINDER OF SUCH PROVISION OR THE REMAINING PROVISIONS OF THIS AGREEMENT.

Section 7.09 JURY TRIAL. THE PLEDGOR AND THE TRUSTEE (BY ACCEPTANCE OF THIS AGREEMENT) MUTUALLY HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE THE RIGHT TO A TRIAL BY JURY IN RESPECT OF ANY CLAIM BASED HEREON, ARISING OUT OF, UNDER OR IN CONNECTION WITH THE COMPANY AGREEMENTS CONTEMPLATED TO BE EXECUTED IN CONNECTION HERewith OR ANY COURSE OF CONDUCT, COURSE OF DEALINGS, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY, INCLUDING, WITHOUT LIMITATION, ANY COURSE OF CONDUCT, COURSE OF DEALINGS, STATEMENTS OR ACTIONS OF THE TRUSTEE RELATING TO THE ADMINISTRATION OR ENFORCEMENT OF THE COMPANY AGREEMENTS, AND AGREE THAT NEITHER PARTY WILL SEEK TO CONSOLIDATE ANY SUCH ACTION WITH ANY OTHER ACTION IN WHICH A JURY TRIAL CANNOT BE OR HAS

NOT BEEN WAIVED. EXCEPT AS PROHIBITED BY LAW, THE PLEDGOR HEREBY WAIVES ANY RIGHT IT MAY HAVE TO CLAIM OR RECOVER IN ANY LITIGATION ANY EXEMPLARY, OR PUNITIVE DAMAGES OR ANY DAMAGES OTHER THAN, OR IN ADDITION TO, ACTUAL DAMAGES. THE PLEDGOR CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF THE TRUSTEE HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT TRUSTEE WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER. THIS WAIVER CONSTITUTES A MATERIAL INDUCEMENT FOR TRUSTEE TO ACCEPT THIS AGREEMENT.

Section 7.10 Successors and Assigns. This Agreement and all obligations of the Pledgor hereunder shall be binding upon the successors and assigns of the Pledgor, except that the Pledgor shall not have the right to assign its rights hereunder or any interest herein without the prior written consent of the Trustee. The Trustee shall have the right to assign its interest in this Agreement and all rights and remedies of the Trustee hereunder shall inure to the benefit of the Trustee and its participants, successors and assigns. Neither this Agreement nor anything set forth herein is intended to, nor shall it, confer any rights on any person or entity other than the parties hereto and all third party rights are expressly negated.

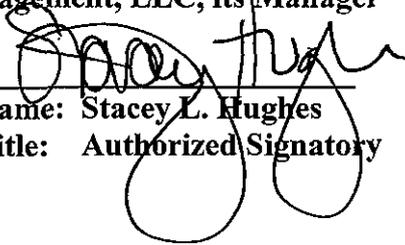

Section 7.11 Term; Termination of Pledge. This Agreement shall terminate at the end of the recapture period relating to the investment tax credit (or the Section 1603 Grant in lieu of such credit) available to the Company under Sections 38, 46 and 48 of the Code in connection with the Renewable Energy Projects, as certified to the Trustee by an Authorized Officer of the Company in a certificate to such effect delivered by or on behalf of the Company to the Trustee and the Authority.

**COUNTY CONTINUING DISCLOSURE AGREEMENT  
(SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011)**

THIS COUNTY CONTINUING DISCLOSURE AGREEMENT (SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011) (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "*County Continuing Disclosure Agreement*") is made and entered into as of December 1, 2011 by and among the COUNTY OF SUSSEX, NEW JERSEY, a political subdivision of the hereinafter defined State (the "*County*"), U.S. BANK NATIONAL ASSOCIATION (the "*Bank*"), a national banking association authorized and acting under the laws of the United States of America and further authorized to conduct business in the State of New Jersey (the "*State*"), where the Bank acts as trustee under and pursuant to the hereinafter defined Bond Resolution (including any successors and assigns, the "*Trustee*"), and the MORRIS COUNTY IMPROVEMENT AUTHORITY, a public body corporate and politic duly created and validly existing under the laws of the State (including any successors and assigns, the "*Authority*").

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

**WHEREAS**, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "*Act*"), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy

Program, limited initially to Renewable Energy Projects involving solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the “*Local Unit Facilities*”);

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the “*Capital Improvement Projects*” and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the “*Projects*”), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the “*Municipal Series 2011 Local Units*”); and
- (ii) Byram Township School District, Frankford Township’s Consolidated Schools, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Board of Education, High Point Regional School District, Kittatinny Regional School District, Newton Board of Education (collectively, the “*Board of Education Series 2011 Local Units*”); and
- (iii) County, Sussex County Community College and Sussex County Technical School (the “*County Series 2011 Local Units*”);

(each a “*Series 2011 Local Unit*”, and, collectively, the “*Series 2011 Local Units*”), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, “County of Sussex Guaranteed Renewable Energy Program Lease

Revenue Bonds, Series 2011A (Federally Taxable)” dated their date of delivery (the “*Series 2011A Bonds*”) the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the “*Series 2011A Bonds*”), and (ii) one series of notes in the aggregate principal amount of \$985,000 and entitled, “County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)” (the “*Series 2011B Note*”, and together with the Series 2011A Bonds, “*Series 2011 Bonds*”), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year’s worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*”);

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the “*Bonds*”) shall be issued pursuant to the terms of that certain “RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY” adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the “*Bond Resolution*”), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, pursuant to N.J.S.A. 40:37A-77 of the Act, N.J.S.A. 40A:65-4 of the Shared Services Act and other applicable law, upon or prior to the issuance of the Series 2011 Bonds, the Authority shall have entered into a “License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, each agreement shall constitute a “*Local Unit License Agreement*”, and collectively, the “*Local Unit License Agreements*”) with each Series 2011 Local Unit that would, among other things, provide the Authority and/or its assignees the right and obligation to (i) access the Local Unit Facilities of each such Series 2011 Local Unit, most particularly their roofs, parking area and/or grounds and electrical systems (the “*Local Unit License*”), (ii) finance, design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects on, in, affixed or adjacent to, or for the benefit of such Local Unit Facilities, (iii) receive the right to the renewable energy produced

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County Security*") to be issued by a sufficiently rated banking or other financial institution, or if the County Security is provided by or on behalf of the Company, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for the payment of the Series 2011 Bonds), the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the "*EPC Contractor*"), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated December 12, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*EPC Contract*") between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the "*In-Kind Equity Contribution*") until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y) the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic

Lease Payment Date (the “Cash Equity Contribution”) which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the In-Kind Equity Contribution, together with the Cash Equity Contribution shall be known as the “*Equity Contribution*”), (ii) a cash reserve in the amount of \$1,500,000 (the “*County Reserve*”) to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution), which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

**WHEREAS**, should the County otherwise have insufficient sources of funds to make its Basic Lease Payments on time and in full, the Company shall have the ability to draw funds from the County Reserve in order to enable the Company to make its Basic Lease Payments;

**WHEREAS**, should the Company fail to make its Basic Lease Payments on time and in full, thereby causing the County to make payments to the Series 2011 Bondholders under the County Guaranty, which in turn causes the County Security to be drawn upon to reimburse the County for all or a portion of any such County Guaranty repayments, (i) the County Security Agreement, if any, may provide that the Authority assign and pledge the Reimbursement Collateral to the County Security Provider, as reimbursement security for any such draw on the County Security, or (ii) to the extent no County Security Agreement shall exist, then the Company, as County Security Provider in such instance, shall only be entitled to such excess County Security, as Reimbursement Collateral, if any shall remain available, after and to the extent the County has been fully paid under its County Guaranty but only to the extent of any County Security provided by or on behalf of the Company;

**WHEREAS**, in the event the Company provides the County Security Fund requirement, in part, through such a covenant to provide immediately available funds, if applicable, but in any event to secure other Company obligations under the Company Documents, the Authority shall require the Company to further secure such obligations by pledging certain property interests of the Company and its member’s interest in and to the Company to the Trustee, all as shall be set forth in the Company Lease Agreement and that certain “Pledge and Security Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the

“*Company Pledge Agreement*”), and issued by the sole member of the Company, in favor of the Trustee, and acknowledged and accepted by the Company;

**WHEREAS**, the Company as a potential “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12 (“*Rule 15c-12*”) promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, shall be required to enter into that certain “Company Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the “*Company Continuing Disclosure Agreement*”) with the Authority and the Trustee, as dissemination agent (the “*Dissemination Agent*”) in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution, as a “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12, the County will be required to enter into that certain “County Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the “*County Continuing Disclosure Agreement*” and together with the Company Continuing Disclosure Agreement, the “*Continuing Disclosure Agreements*”; the County Continuing Disclosure Agreement, along with the County Guaranty and the County Security Agreement, if any, shall be collectively known as the “County Documents”) with the Dissemination Agent in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution and/or the Continuing Disclosure Agreements, the Authority shall (i) not be considered a “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12, and (ii) be required to provide certain material events notices in accordance with Rule 15c2-12, and accordingly, the Authority shall be required to provide such material events notices under the terms of the Company Continuing Disclosure Agreement and the County Continuing Disclosure Agreement, all in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application dated July 19, 2011 (the “*Local Finance Board Application*”) to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the “*Local Finance Board*”) in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall by negotiated sale publicly offer the Series 2011 Bonds, in which public offering case the Authority shall have authorized (i): the distribution of a preliminary official statement “deemed final” within the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the “*Preliminary*”

*Official Statement*"); and (ii) the execution and delivery of a bond purchase agreement (the "*Bond Purchase Agreement*") with an underwriter to be selected by the Authority through a fair and open process (alternatively, the "*Underwriter*") to purchase all of the Series 2011 Bonds, and (iii) delivery of a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the "*Official Statement*", and together with the Preliminary Official Statement, and the Bond Purchase Agreement, and any of the same or other offering or sale documents that may be required by the County "*Sale Documents*");

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 ("*Section 13*") of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the "*Sussex County Board of Freeholders*") and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Documents, the County Documents, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the "*Program Documents*"), and which report and amended report shall be accepted by both the County and Morris County by resolution adopted by the Sussex County Board of Freeholders and the Morris County Board of Freeholders pursuant to Section 13.

This County Continuing Disclosure Agreement is being executed and delivered by the County, the Trustee and the Authority for the benefit of the Bondholders and in order to assist the Participating Underwriter in complying with clause (b)(5) of Rule 15c2-12.

Section 4.2. The Authority and the Bondholders.

(a) The Authority may enforce any such right, remedy or claim conferred, given or granted hereunder in favor of the Trustee or the Holders of the Series 2011 Bonds.

(b) Each Bondholder is hereby recognized as being a third-party beneficiary hereunder and each may enforce, for the equal benefit and protection of all Bondholders similarly situated, any such right, remedy or claim conferred, given or granted hereunder in favor of the Trustee, to the extent permitted in Section 3.1(a) hereof.

Section 4.3. Obligations of the Authority Hereunder; Indemnified Parties. Neither the Authority nor any member, official, employee, counsel, consultant or agent of the Authority or any person executing the Series 2011 Bonds shall bear any obligation for the performance of any duty, agreement or covenant of the County or the Trustee under this County Continuing Disclosure Agreement. **COMPANY CONTINUING DISCLOSURE AGREEMENT  
(SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011)**

THIS COMPANY CONTINUING DISCLOSURE AGREEMENT (SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011) (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "*Company Continuing Disclosure Agreement*") is made and entered into as of December 1, 2011 by and among SUNLIGHT GENERAL SUSSEX SOLAR, LLC, a limited liability company organized and existing under the laws of the State of New Jersey (the "State") (including any successors and assigns, the "*Company*"), U.S. BANK NATIONAL ASSOCIATION (the "*Bank*"), a national banking association authorized and acting under the laws of the United States of America and further authorized to conduct business in the State, where the Bank acts as trustee under and pursuant to the hereinafter defined Bond Resolution (including any successors and assigns, the "*Trustee*"), and the MORRIS COUNTY IMPROVEMENT AUTHORITY, a public body corporate and politic duly created and validly existing under the laws of the State (including any successors and assigns, the "*Authority*").

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

**WHEREAS**, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "*Act*"), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to Renewable Energy Projects involving solar panels, are to be

installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the “*Local Unit Facilities*”);

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the “*Capital Improvement Projects*” and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the “*Projects*”), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the “*Municipal Series 2011 Local Units*”); and
- (ii) Byram Township School District, Frankford Township’s Consolidated Schools, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Board of Education, High Point Regional School District, Kittatinny Regional School District, Newton Board of Education (collectively, the “*Board of Education Series 2011 Local Units*”); and
- (iii) County, Sussex County Community College and Sussex County Technical School (the “*County Series 2011 Local Units*”);

(each a “*Series 2011 Local Unit*”, and, collectively, the “*Series 2011 Local Units*”), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, “County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)” dated their date of delivery (the “*Series 2011A Bonds*”) the terms of which sale shall be as set forth in that certain Bond Purchase

Agreement between the Underwriter and the Authority (the "Series 2011A Bonds"), and (ii) one series of notes in the aggregate principal amount of \$985,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)" (the "*Series 2011B Note*", and together with the Series 2011A Bonds, "*Series 2011 Bonds*"), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year's worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*");

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the "*Bonds*") shall be issued pursuant to the terms of that certain "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY" adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the "*Bond Resolution*"), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, pursuant to N.J.S.A. 40:37A-77 of the Act, N.J.S.A. 40A:65-4 of the Shared Services Act and other applicable law, upon or prior to the issuance of the Series 2011 Bonds, the Authority shall have entered into a "License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, each agreement shall constitute a "*Local Unit License Agreement*", and collectively, the "*Local Unit License Agreements*") with each Series 2011 Local Unit that would, among other things, provide the Authority and/or its assignees the right and obligation to (i) access the Local Unit Facilities of each such Series 2011 Local Unit, most particularly their roofs, parking area and/or grounds and electrical systems (the "*Local Unit License*"), (ii) finance, design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects on, in, affixed or adjacent to, or for the benefit of such Local Unit Facilities, (iii) receive the right to the renewable energy produced from the Renewable Energy Projects financed by the Series 2011 Bonds, and (iv) sell all or a portion of the renewable energy produced from such Renewable Energy Projects through the Authority to the respective Series 2011 Local Units, pursuant to an assignment (under each Local

Unit License Agreement) from the Authority to the Series 2011 Local Units of the Power Purchase Agreement (as hereinafter defined), the terms of which Power Purchase Agreement could be entered into directly by the Series 2011 Local Units under N.J.S.A. 40A:11-15(45) of the Local Public Contracts Law (for the Municipal and County Series 2011 Local Units). under N.J.S.A. 18A:18A-42(o) of the Public Schools Contracts Law (for the Board of Education Series 2011 Local Units) and under N.J.S.A. 18A:64A-25.1 et seq. of the County College Contracts Law for the College Series 2011 Local Unit;

**WHEREAS**, upon or prior to the issuance of the Series 2011 Bonds, and in accordance with (i) N.J.S.A. 40A:11-4.1(k) of the Local Public Contracts Law and N.J.S.A. 18A:18A-4.1(k) of the Public Schools Contracts Law, (ii) Local Finance Board Notice 2008-20, December 3, 2008, *Contracting for Renewable Energy Services*, (iii) the State Board of Public Utilities (“BPU”) protocol for measuring energy savings in PPA agreements dated February 20, 2009 (*Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines*), (iv) Local Finance Board Notice 2009-10 dated June 12, 2009, *Contracting for Renewable Energy Services: Update on Power Purchase Agreements*, and (v) all other applicable law, and pursuant to a competitive contracting process governed thereby, which included a request for solar developer proposals issued by the Authority dated September 8, 2011, as amended (the “*Company RFP*”) and the receipt of proposals from prospective solar developers, including that proposal dated October 13, 2011 (the “*Company Proposal*”) submitted with respect to Sunlight General Sussex Solar, LLC (the “*Company*”), the Authority selected the Company to design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects for the designated Local Unit Facilities of such Series 2011 Local Units, with such Program terms as are set forth in the following Company Documents to be entered into between the Company and, at a minimum, the Authority, or acknowledged by the Company, as applicable:

(I) The Company established a power purchase price based, in part, on the Authority's covenant in the Company Lease Agreement to issue the Series 2011 Bonds to finance the Renewable Energy Projects, and if applicable, the Capital Improvement Projects, for the Series 2011 Local Units, and the Company shall be entitled to draw a dedicated portion of the net proceeds of the Series 2011 Bonds for the design, permitting, acquisition construction, renovation, and installation of such Projects on a requisition basis,

(II) The Company established a power purchase price based, in part, on the Authority's covenant in the Company Lease Agreement, as nominal owner of the Renewable Energy Projects for State law purposes, to assign to the Company all or a portion of the Authority's rights to the Solar Renewable Energy Certificates ("SRECs") generated by the Renewable Energy Projects for the Series 2011 Local Units, and

**WHEREAS**, the payment of the principal (including mandatory sinking fund installments, if any) of, and interest (at interest rates not to exceed the maximum rates set forth in the Local Finance Board Application) on the Series 2011 Bonds, but not any redemption premium, shall be fully, unconditionally and irrevocably guaranteed in accordance with (i) the terms of a guaranty ordinance of the County finally adopted by the Board of Freeholders on August 17, 2011, (ii) by a guaranty certificate to be executed by an authorized officer of the County within each Series 2011 Bond and (iii) that certain "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Guaranty Agreement*") by and between the County and the Authority, as acknowledged by the Company setting forth, among other things, the County's obligation to make any such guaranty payments in accordance with and within the parameters set forth in the guaranty ordinance and the Bond Resolution (collectively, the "*County Guaranty*"), all pursuant to Section 37 ("*Section 37*") of the Act (N.J.S.A. 40:37A-80);

**WHEREAS**, the holders of any Additional Bonds issued under the terms of the Bond Resolution, the Act and all other applicable law shall also be entitled to the pledge of the Trust Estate under the Bond Resolution on a pro-rata basis with the holders of any Outstanding Bonds as defined therein, including the Series 2011 Bonds, although the guaranty of the County shall only extend to any such Series of Additional Bonds to the extent (i) the aggregate principal amount of all such Series of Additional Bonds, when taken together with the aggregate principal amount of the Series 2011 Bonds, shall not exceed \$50,000,000, or (ii) the County adopts and executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County Security*") to be issued by a sufficiently rated banking or other financial institution, or if the

County Security is provided by or on behalf of the Company, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for the payment of the Series 2011 Bonds), the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the "*EPC Contractor*"), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated December 12, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*EPC Contract*") between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the "*In-Kind Equity Contribution*") until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y) the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic Lease Payment Date (the "*Cash Equity Contribution*") which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the In-Kind Equity Contribution, together with the Cash Equity Contribution shall be known as the "*Equity Contribution*"), (ii) a cash reserve in the amount of \$1,500,000 (the "*County Reserve*") to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution), which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of

the Renewable Energy Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

**WHEREAS**, should the County otherwise have insufficient sources of funds to make its Basic Lease Payments on time and in full, the Company shall have the ability to draw funds from the County Reserve in order to enable the Company to make its Basic Lease Payments;

**WHEREAS**, should the Company fail to make its Basic Lease Payments on time and in full, thereby causing the County to make payments to the Series 2011 Bondholders under the County Guaranty, which in turn causes the County Security to be drawn upon to reimburse the County for all or a portion of any such County Guaranty repayments, (i) the County Security Agreement, if any, may provide that the Authority assign and pledge the Reimbursement Collateral to the County Security Provider, as reimbursement security for any such draw on the County Security, or (ii) to the extent no County Security Agreement shall exist, then the Company, as County Security Provider in such instance, shall only be entitled to such excess County Security, as Reimbursement Collateral, if any shall remain available, after and to the extent the County has been fully paid under its County Guaranty but only to the extent of any County Security provided by or on behalf of the Company;

**WHEREAS**, in the event the Company provides the County Security Fund requirement, in part, through such a covenant to provide immediately available funds, if applicable, but in any event to secure other Company obligations under the Company Documents, the Authority shall require the Company to further secure such obligations by pledging certain property interests of the Company and its member's interest in and to the Company to the Trustee, all as shall be set forth in the Company Lease Agreement and that certain "Pledge and Security Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*Company Pledge Agreement*"), and issued by the sole member of the Company, in favor of the Trustee, and acknowledged and accepted by the Company;

**WHEREAS**, the Company as a potential "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12 ("*Rule 15c-12*") promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, shall be required to enter into that certain "Company Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011

(as the same may be amended and supplemented from time to time in accordance with its terms, the "*Company Continuing Disclosure Agreement*") with the Authority and the Trustee, as dissemination agent (the "*Dissemination Agent*") in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution, as a "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12, the County will be required to enter into that certain "County Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Continuing Disclosure Agreement*" and together with the Company Continuing Disclosure Agreement, the "*Continuing Disclosure Agreements*"; the County Continuing Disclosure Agreement, along with the County Guaranty and the County Security Agreement, if any, shall be collectively known as the "County Documents") with the Dissemination Agent in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution and/or the Continuing Disclosure Agreements, the Authority shall (i) not be considered a "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12, and (ii) be required to provide certain material events notices in accordance with Rule 15c2-12, and accordingly, the Authority shall be required to provide such material events notices under the terms of the Company Continuing Disclosure Agreement and the County Continuing Disclosure Agreement, all in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

(2) To enter into a collective bargaining agreement under which it will withhold union dues, fees or assessments from the wages of the employees and pay the same on behalf of said employees to the labor organization.

A copy of each contract for charter or operation on a nonscheduled route shall be maintained in the office of the authority as a public record available for inspection during normal business hours.

Any county improvement authority which establishes or acquires public transportation facilities may contract with any person or corporation for the operation thereof upon such terms and conditions as the authority shall determine.

COUNTY IMPROVEMENT AUTHORITIES

40:37A-102. Responsibility for selection of final site; approval required

Subject to an enabling resolution adopted by the governing body of the county which has created such an authority or by the governing body of any beneficiary county (hereinafter referred to as the host county) pursuant to P.L. 1960, c.183 (C.40:37A-44 et seq.), the county improvement authority shall have the responsibility for selecting a final site location or locations for any garbage and solid waste collection, treatment or disposal facilities to be operated by said authority. The governing body of such county shall not, however, adopt any such enabling resolution until the site location or locations tentatively designated by the improvement authority shall have been approved by:

a. The Commissioner of Environmental Protection after an evaluation of all studies, surveys and plans, and any accompanying maps and data, as may be required by the commissioner pursuant to section 4 of P.L. 1973, c.330 (C.40:37A-101);

b. The governing bodies of the several municipalities situate within such county, by the adoption of concurring resolutions by any combination of such municipalities with an aggregate population of at least 75% of the total population of said county, as determined by the last decennial census; and

c. The planning board of the host county, by a resolution affirming that such site location or locations are compatible with the host county's master plan, or such county planning policies as may exist.

P.L. 1973, c.330, s.5; amended 1994, c.76, s.14.

40:37A-103. Classification of solid waste facility as public utility

Any solid waste facilities owned or operated by a county improvement authority pursuant to the provisions of this amendatory and supplementary act, shall be deemed a public utility and shall be subject to such rules and regulations as may be adopted by the Board of Public Utilities in accordance with the provisions of the "Solid Waste Utility Control Act" (P.L. 1970, c.40, C.48:13A-1 et seq.). The improvement authority's application to operate any solid waste facility shall be considered at a public hearing by the Board of Public Utilities.

P.L. 1973, c.330, s.6; amended 1991, c.381, s.46.

40:37A-104. Municipalities; use of facilities

All facilities of a solid waste disposal system operated by a county improvement authority shall be open to use by any municipality or municipalities situate in the host county. Such facilities shall also be open to use by any municipality or municipalities situate in any county contiguous to the host county, provided that the population of said municipality, or the aggregate population of any several such municipalities, would not by itself or when added to the nonhost county population already using the improvement

COUNTY IMPROVEMENT AUTHORITIES

authority's facilities, be in excess of 10% of the total population of the host county. When the prospective nonhost county user population would exceed the foregoing 10% limit, the applications for use of the petitioning nonhost county municipalities shall require the prior approval of the governing bodies of the host county, and of any combination of municipalities situate therein, in accordance with the requirements and procedures set forth in section 5 of this amendatory and supplementary act.

P.L. 1973, c. 330, § 7, eff. Dec. 27, 1973.

**40:37A-105. Exclusion of alternate method of solid waste disposal by municipality with contract with county**

Upon contracting with a county improvement authority for the collection, treatment or disposal of garbage or solid waste as herein provided, no municipality shall, during the term of the contract, engage in, or grant, permit or enter into any new contract for the collection, treatment and disposal of garbage and solid waste that might be competitive with the facilities or services being provided under contract to that municipality by the improvement authority.

This section shall in no way be construed so as to prevent or prohibit any municipality from erecting, constructing, operating and maintaining an incinerator or garbage and solid waste disposal plant or other means for the disposition of garbage and solid wastes in any manner or by any means by which the same may be lawfully erected, constructed, operated or maintained.

P.L. 1973, c. 330, § 8, eff. Dec. 27, 1973.

**40:37A-106. Legislative findings and declarations**

The Legislature finds and declares that:

- a. The supply of decent and affordable housing, particularly for families of low and moderate income has become increasingly scarce, especially in certain areas of this State.
- b. In communities experiencing rapid development and the problems associated with the economic impact of land speculation, the cost of developing comprehensive housing programs is prohibitive, thus calling for action in the form of mortgage and housing finance assistance for the development of private housing programs by appropriate governmental agencies.
- c. The "county improvement authorities law," P.L. 1960, c. 183 (C. 40:37A-44 et seq.) provides for the creation of a county level agency which, with the cooperation and approval of the governing body of a municipality, may undertake certain improvement and development projects within that municipality. Such an agency, and county and municipal government interaction, are appropriate to provide a means of addressing the

COUNTY IMPROVEMENT AUTHORITIES

apertures to improve or enhance the housing project and the neighborhood or area in which the housing project is located.

g. "Municipality" means any municipality located within the county wherein the authority has been established or within any beneficiary county.

i. "Project cost" means the sum total of all costs incurred in the development of a housing project, which are approved by the authority as reasonable and necessary, less any and all net rents and other net revenues received from the operation of the real and personal property on the project site during construction. Costs shall include, but are not necessarily limited to: (1) cost of land acquisition and any buildings thereon, (2) cost of site preparation, demolition and development, (3) architect, engineer, legal, authority and other fees paid or payable in connection with the planning, execution and financing of the project, (4) cost of necessary studies, surveys, plans and permits, (5) insurance, interest, financing, tax and assessment costs and other operating and carrying costs during construction, (6) cost of construction, reconstruction, fixtures, and equipment related to the real property, (7) cost of land improvements, (8) necessary expenses in connection with initial occupancy of the project, (9) a reasonable profit or fee to the builder and developer, (10) an allowance established by the authority for working capital and contingency reserves, and reserves for any anticipated operating deficits during the first two years of occupancy, and (11) the cost of such other items, including tenant relocation, as the authority shall determine to be reasonable and necessary for the development of the project.

All project costs shall be subject to approval and audit by the authority. The authority may adopt rules and regulations specifying in detail the types and categories of costs which shall be allowable if actually incurred in the construction or reconstruction of a housing project.

j. "Qualified housing sponsor" means: (1) any housing corporation heretofore qualified under the provisions of the "Limited-Dividend Nonprofit Housing Corporations or Associations Law," P.L. 1949, c.184 (C.55:16-1 et seq.), repealed by P.L. 1991, c.431, (2) any urban renewal corporation or association heretofore qualified under the provisions of the "Urban Renewal Corporation and Association Law of 1961," P.L. 1961, c.40 (C.40:55C-40 et seq.), repealed by P.L. 1991, c.431, or any urban renewal nonprofit corporation or association heretofore qualified under the provisions of the "Urban Renewal Nonprofit Corporation Law of 1965," P.L. 1965, c.95 (C.40:55C-77 et seq.), repealed by P.L. 1991, c.431, which has as one of its purposes the construction, rehabilitation or operation of housing projects, (3) any general corporation formed under the provisions of Title 14 of the Revised Statutes or Title 14A of the New Jersey Statutes,

The period of usefulness in which such municipal debt obligations or such

COUNTY IMPROVEMENT AUTHORITIES

agreements must mature shall, notwithstanding any provision of law to the contrary, be based on the reasonable life of such housing projects directly or indirectly financed with such municipal debt obligations or such agreements, but in no event shall the period of usefulness be less than the minimum established under the "Fair Housing Act," P.L. 1985, c.222 (C.52:27D-301 et al.); and

(5) Prepare, carry out, acquire, own, lease and operate housing projects and provide for the construction, reconstruction, improvement, alteration or repair of those housing projects, and to lease or rent any dwellings, accommodations, lands, buildings, structures or other facilities comprising a housing project, subject to the limitations of this act.

b. No application for a loan for the construction or rehabilitation of a housing project to be located in any municipality shall be processed unless there shall be filed with the secretary of the authority prior to such application a certified copy of a resolution adopted by said municipality reciting that there is a need for low and moderate income housing projects in said municipality.

P.L. 1979, c. 275, § 4, eff. Jan. 3, 1980.

40:37A-110. Priority in grant of loans; considerations

In considering any application for a loan, the authority shall give first priority to applications for loans for the construction or rehabilitation of housing projects, designed primarily to serve families whose incomes do not exceed the median for the standard metropolitan statistical area in which the project is located, and wherein 10% or more units will be subsidized by, or occupied by tenants whose rents will be subsidized by, any program of housing assistance, and which will be a part of, or constructed in connection with, an urban renewal program, and also shall give consideration to:

a. The comparative need of the area to be served by the proposed project for housing for families of low and moderate income, with particular emphasis on the needs of individuals and families displaced or caused to be displaced by public or private action;

b. The ability of the applicant to construct, operate, manage and maintain the proposed housing project;

c. The existence of zoning or other regulations to protect adequately the proposed housing project against detrimental future uses which could cause undue depreciation in the value of the project;

d. The proximity of the proposed project to, and the accessibility of, adequate parks, recreational areas, utilities, schools, transportation and parking;

e. The proximity of the proposed project to, and the accessibility of, places of adequate employment opportunities and,

f. Where applicable, the eligibility of the applicant to make payments in lieu of taxes to the municipality in which the housing project is located.

P.L. 1979, c. 275, § 5, eff. Jan. 3, 1980.

40:37A-111. Terms and conditions of loans

Loans made by the authority shall be subject to the following terms and conditions:

a. The loan shall be for a period of time not in excess of 50 years as determined by the authority;

b. The amount of the loan shall not exceed 90% of the project cost as determined by the authority, except that in the case of projects to be owned, constructed, rehabilitated, operated, managed and maintained as mutual housing or by any corporation or association organized not for profit which has as one of its purposes the construction or rehabilitation of housing projects, the amount of the loan shall not exceed 100% of the project cost as determined by the authority; provided, however, that any such loan shall be subject to an agreement between the authority and any such corporation or association organized not for profit or for mutual housing, prohibiting the transfer of ownership or management responsibilities by said corporation or association at any time prior to repayment of at least 10% of the original loan, unless the transfer of ownership or management responsibilities is ordered by a court of competent jurisdiction to a qualified housing sponsor;

c. The interest rate on the loan shall be established by the authority at the lowest level consistent with the authority's cost of operation and its responsibilities to the holders of its bonds, bond anticipation notes and other obligations;

d. The loan shall be evidenced by a mortgage note or bond and by a mortgage which shall be a first lien on the project, except as provided in subsection i. of this section, and which shall contain such terms and provisions and be in such form, as approved by the authority. The authority shall require the qualified housing sponsor receiving a loan or its contractor to post labor and materials, and construction performance, surety bonds in amounts related to the project cost as established by rule or regulation, and to execute such other assurances and guarantees as the authority may deem necessary, and may require its principals or stockholders to also execute such other assurances and guarantees as the authority shall deem necessary;

COUNTY IMPROVEMENT AUTHORITIES

c. The loan shall be subject to an agreement between the authority and the qualified housing sponsor which will subject said qualified housing sponsor and its principals or stockholders to limitations established by the authority as to rentals and other charges, builders' and developers' profits and fees, and the disposition of its property and franchises, to the extent more restrictive limitations are not provided by the law under which the borrower is incorporated or organized;

f. The loan shall be subject to an agreement between the authority and the qualified housing sponsor limiting said qualified housing sponsor, and its principals or stockholders, to a return of 8% per annum of its investment in any housing project assisted with a loan from the authority. No qualified housing sponsor which is permitted by the provisions of the law under which it is organized or incorporated to earn a return on its investment, nor any of the principals or stockholders of such qualified housing sponsor, shall at any time earn, accept or receive a return greater than 8% per annum of its investment in any housing project assisted with a loan from the authority whether upon the completion of the construction or rehabilitation of such project, or upon the operation thereof, or upon the sale, assignment or lease of such project to any other person, association or corporation;

g. No loan shall be executed, except a loan made to a corporation or association organized not for profit which has as one of its purposes the construction or rehabilitation of housing projects or for mutual housing, unless the qualified housing sponsor agrees: (1) to certify upon completion of project construction or rehabilitation, subject to audit by the authority, either that the project cost as defined in this act exceeded the amount of the loan proceeds by 10% or more, or the amount by which the loan proceeds 90% of the project cost; and (2) to pay forthwith to the authority, to be applied to reduce the principal of the loan, the amount, if any, of such excess loan proceeds, subject to audit and determination by the authority. No loan shall be made to a corporation or association organized not for profit or for mutual housing unless it agrees to certify the project cost upon completion of the project, subject to audit and determination by the authority, and further agrees to pay forthwith to the authority, to be applied to reduce the principal of the loan, the amount, if any, by which the proceeds of the loan exceed the certified project cost, subject to audit and determination by the authority. Notwithstanding the provisions of this subsection, the authority may accept, in lieu of any certification of project cost as provided herein, such other assurances of the said project cost, in any form or manner whatsoever, as will enable the authority to determine with reasonable accuracy the amount of said project cost.

h. No loan shall be made for the construction or rehabilitation of a housing project for which tax exemption is granted by a municipality unless such tax exemption remains in effect during the entire term of the loan, unless a lesser period of tax exemption is approved by the authority; and

i. Notwithstanding any other provisions of this section to the contrary, the authority may, if it shall determine that the construction or rehabilitation of low and moderate income housing would be facilitated thereby and that financial benefits may as a result be obtained for families who would reside in the housing, make a loan to a qualified housing sponsor that shall be subordinated to one or more loans holding senior

40:37A-112. Additional conditions; powers of authority

As a condition of the loan, the authority shall have the power at all times during the construction and rehabilitation of a housing project and the operation thereof:

a. To enter upon and inspect without prior notice any project, including all parts thereof, for the purpose of investigating the physical and financial condition thereof, and its construction, rehabilitation, operation, management and maintenance, and to examine all books and records with respect to capitalization, income and other matters relating thereto and to make such charges as may be required to cover the cost of such inspections and examinations;

b. To order such alterations, changes or repairs as may be necessary to protect the security of its investment in a housing project or the health, safety, and welfare of the occupants thereof;

c. To order any managing agent, project manager or owner of a housing project to so such acts as may be necessary to comply with the provisions of all applicable laws or ordinances, or of any rule or regulation of the authority, or of the terms of any agreement concerning the said project, or to refrain from doing any acts in violation thereof, and in this regard the authority shall be a proper party to file a complaint and to prosecute thereon for any violations of laws or ordinances as set forth herein;

d. To require the adoption and continuous use of uniform systems of accounts and records for a project and to require all owners or managers of same to file annual reports containing such information and verified in such manner as the authority shall require, and to file at such times and on such forms as it may prescribe, reports and answers to specific inquiries required by the authority to determine the extent of compliance with any agreement, the terms of the loan, the provisions of this act, or any other applicable law; and,

e. To enforce, by court action if necessary, the terms and provisions of any agreement between the authority and the qualified housing sponsor and the terms of any agreement between the qualified housing sponsor and any municipality granting tax exemption, as to schedules of rental or carrying charges, income limits as applied to tenants or occupants, or any other limitation imposed upon the qualified housing sponsor concerning the finances, construction or operation of the project.

In the event of a violation by the qualified housing sponsor of the terms of any agreement between the authority and the qualified housing sponsor, or between the municipality granting tax exemption and the qualified housing sponsor, or in the event of a violation by the qualified housing sponsor of this act, or of the terms of the mortgage loan agreement or other loan agreement, or of any rules and regulations of the authority duly

promulgated pursuant to this act, the authority may remove any or all of the existing officers and directors of such qualified housing sponsor and appoint such person or persons whom the authority in its sole discretion deems advisable, who may be officers or employees of the authority, as new officers or directors to serve in place of those removed. Officers or directors so appointed need not be stockholders or meet other qualifications which may be prescribed by the certificate of incorporation or bylaws of such qualified housing sponsor. In the absence of fraud or bad faith, officers or directors so appointed shall not be personally liable for debts, obligations or liabilities of such qualified housing sponsor. Officers or directors so appointed shall serve only for a period consistent with the duration of such violation or until the authority is satisfied that such violation, or violations of a similar nature, have not and will not reoccur. Officers or employees of the authority who are so appointed as officers or directors shall serve in such capacity without compensation, but shall be reimbursed, if and as the certificate of incorporation or bylaws of such qualified housing sponsor may provide, for all necessary expenses incurred in the discharge of their duties as officers or directors so appointed of such qualified housing sponsor and for such other necessary expenses incurred in the discharge of their duties as officers or directors of such qualified housing sponsor as determined by the authority.

P.L. 1979, c. 275, § 7, eff. Jan. 3, 1980.

**40:37A-113. Eligibility for admission to housing projects; periodic examination of income; removal due to excessive income**

a. Admission to housing projects constructed or rehabilitated under this act shall be limited to families of low and moderate income whose gross aggregate family income at the time of admission does not exceed six times the annual rental or carrying charges, including the value or cost of heat, light, water, sewerage, parking facilities and cooking fuel, of the dwellings that may be furnished to such families, or seven times said charges if there are three or more dependents. There may be included in the carrying charges to any family for residence in any mutual housing project constructed or rehabilitated with a loan from the authority an amount equal to 6% of the original cash investment of the family in said mutual housing project and, to the extent authorized by the authority where not included in said carrying charges, the value or cost of repainting the apartment and replacing any fixtures or appliances. Notwithstanding the provisions of this section, no family or individual shall be eligible for admission to any housing project constructed or rehabilitated with a loan from the authority whose gross aggregate family income exceeds \$32,100.00 as adjusted from time to time by the authority, by rules or regulations promulgated hereunder, so as to reflect changes in any wage or salary indices for this State as determined and prepared by any department, division, office or agency of this State; provided however, that with respect to any project financed by an authority mortgage insured or guaranteed by the United States of America or any agency or instrumentality thereof, the authority may adopt the admission standards for such projects then currently utilized or required by the guarantor or insurer.

COUNTY IMPROVEMENT AUTHORITIES

b. The authority shall by rules and regulations provide for the periodic examination of the income of any person or family residing in any housing project constructed or rehabilitated with a loan from the authority. In the event that the gross aggregate family income of a family residing in any such housing project increases, and the ratio of such family income to the current rental or carrying charges of the dwelling unit becomes greater than the ratio prescribed for admission in subsection a. of this section but does not exceed by more than 25% the maximum family income permitted for admission to the project specified in such subsection, the owner or managing agent of such housing project shall permit the family to continue to occupy the unit. The authority or, with the approval of the authority, the qualified housing sponsor of any housing project constructed or rehabilitated with a loan from the authority, may terminate the tenancy or interest of any family residing in such housing project whose gross aggregate family income continues to exceed by more than 25% the maximum family income so permitted for a period of 6 months or more; provided, that no tenancy or interest of any such family in any such housing project shall be terminated except upon reasonable notice and opportunity to obtain suitable alternate housing, in accordance with rules and regulations of the authority; provided further, that any such family, with the approval of the authority, may be permitted to continue to occupy the unit, subject to payment of a rent or carrying charge surcharge to the qualified housing sponsor in accordance with a schedule of surcharges fixed by the authority. Said qualified housing sponsor shall pay such surcharge to the municipality granting tax exemption, but only up to an amount that, together with payments made to the municipality in lieu of taxes and for any land taxes, equals 25% of the total rents or carrying charges of the housing project for the current and any prior years that the project has been in operation. Any remainder of the surcharge, or the total surcharge if tax exemption has not been granted, shall be paid to the authority.

c. Any family residing in a mutual housing project required to remove from the project because of excessive income as herein provided shall be discharged from liability on any note, bond or other evidence of indebtedness relating thereto and shall be reimbursed, in accordance with the rules of the agency, for all sums paid by such family to the qualified housing sponsor on account of the purchase of stock or debentures as a condition of occupancy or on account of the acquisition of title for such purpose.

P.L. 1979, c. 275, § 8, eff. Jan. 3, 1980.

**40:37A-114. Priorities in eligibility for admission**

The authority shall establish rules and regulations concerning admissions to any housing project financed in whole or in part by loans authorized hereunder which shall provide priority categories for persons displaced or caused to be displaced by public or private action or by urban renewal projects, highway programs or other public works, persons living in substandard housing, persons and families who, by reason of family income, family size or disabilities have special needs, elderly persons, and families living under conditions violative of minimum health and safety standards.

a. For the purposes of the "county improvement authorities law," P.L. 1960, c.183 (C.40:37A-44 et seq.), where by reason of the provisions of any other law a qualified housing sponsor has entered, or intends to enter, into any agreement with any municipality to make payments in lieu of taxes, or to obtain special tax treatment of any real property of the qualified housing sponsor to be financed by the authority, that agreement may, notwithstanding any provisions of any such other law to the contrary, require the qualified housing sponsor to pay to the municipality an amount not exceeding 20% of the annual gross revenue from each housing project situated on the real property for each year of the project's operation following its substantial completion. For the purpose of this section, "annual gross revenue" means the total annual gross rental or carrying charge and other income of a qualified housing sponsor from a housing project. The assumed assessed value of such property in each municipality shall be determined by the county board of taxation in the following manner: (1) the amount of payments in lieu of real property taxes received by each municipality during the preceding tax year pursuant to this section shall be divided by the general tax rate of the municipality for such preceding tax year to obtain an assumed assessed value of such property; (2) this assumed assessed value shall be divided by the fraction produced by dividing the aggregate assessed value by the aggregate true value of the real property as determined by the county board of taxation for equalization purposes in the current tax year, exclusive of class II railroad property, in the municipality; (3) the resulting quotient shall be included in the net valuation of each municipality on which county taxes are apportioned.

For the first tax year during which any payments in lieu of real property taxes are made to any municipality pursuant to this section, there shall be included in the equalization table for such county the true value of the property as determined by the assessor in the tax year immediately prior to the tax year in which any payments in lieu of taxes are made pursuant to this section.

The times set forth in this section may be extended by mutual agreement of the authority and the Local Finance Board.

Except as otherwise provided in this act, these obligations shall be authorized and issued in the manner provided for in Title 40 of the Revised Statutes or Title 40A of the New Jersey Statutes;
- c. That the local unit or units execute a service contract with the authority;

- b. Items of appropriation are properly set forth;
- c. In itemization, form and content, the budget will permit the exercise of the comptroller function within the authority;
- d. The schedule of rates, fees and charges then in effect will produce sufficient revenues, together with all other anticipated revenues, to satisfy all obligations to the holders of bonds of the authority, to meet operating expenses, capital outlays, debt

If the director finds that all requirements of law and the rules and regulations of the Local Finance Board have been met, he shall, within 45 days of his receipt of the budget, approve it; otherwise he shall within that time refuse to approve it. The director, in refusing to approve the budget, shall not substitute his discretion with respect to the amount of an appropriation when that amount is not made mandatory by law or regulation.

Any decision of the director in the course of budget review under this section may be appealed to the Local Finance Board in the manner generally provided by law.

P.L. 1983, c. 313, s. 11.

### **40A:5A-12. Funding of deficit**

The Local Finance Board shall have the power, in the case of a service contract between an authority and a local unit or units, to enforce, by appropriate order, the terms and provisions thereof with respect to the funding of a deficit, whether in existence or anticipated. If the Local Finance Board has reason to believe that an authority is faced with financial difficulty, it shall have the power to order an increase in rents, rates, fees or other charges of the authority, and this order shall be valid and enforceable, notwithstanding any provisions to the contrary in R.S. 48:2-1 et seq. The Local Finance Board, before issuing this order, shall first hold a hearing consistent with section 18 of this act. The Local Finance Board also shall have authority to provide that a requirement that a local unit or units pay a deficit under a service contract be funded through the issuance of notes as provided in section 14 of this act (C. 40A:5A-14). Any order so issued shall be deemed conclusive and final, and upon receipt of this order all persons shall be estopped from contesting the order or the provisions thereof. Any authority or local unit or units affected by the order shall promptly take the action necessary to comply with this order.

The notes may be renewed

from time to time. All notes and any renewals thereof shall mature not later than the close of the succeeding fiscal year and shall be payable in that fiscal year. Payment shall, however, be subordinate to the payment of principal and interest on, or sinking fund payments with respect to, bonds or other obligations (other than "Authority Temporary Funding Notes" ) of the authority.

The proceeds of the sale of "Authority Temporary Funding Notes" shall be deposited in the fund or funds in which a deficiency exists, or is expected to exist, as set forth in the resolution under which the notes are issued.

An authority shall notify the Local Finance Board in writing of its intention to issue "Authority Temporary Funding Notes" pursuant to this section, including therein a statement of the deficits which the proceeds of the notes are intended to fund, and a statement of the manner in which the authority plans to either retire or refinance the notes on or before the close of the succeeding fiscal year. The notification shall be made at least 30 days prior to issuance, or within such lesser time period as the Local Finance Board shall permit.

P.L. 1983, c. 313, s. 13.

### **40A:5A-14. Deficit funding notes**

If the issuance of "Authority Temporary Funding Notes" is not permitted by the terms of a bond resolution, then the local unit or units, if obligated to make payments on account of a deficiency in revenues under the terms of a service contract, may issue emergency notes pursuant to the provisions of sections 40A:4-46 through 40A:4-50 of the New Jersey Statutes to fund this payment or portions thereof. These obligations shall be general obligations of the issuer. Each note shall be authorized by resolution of the governing body and may be renewed from time to time. All notes and the renewals thereof shall mature not later than the last day of the fiscal year next succeeding the fiscal year in which these notes were issued and the emergency appropriations authorized.

A local unit shall notify the Local Finance Board in writing of its intention to issue notes pursuant to this section at least 30 days prior to the issuance, or within such lesser time period as the Local Finance Board shall permit, including therein a statement of the deficit which the proceeds of the notes are intended to fund, and a statement of the manner in which the local unit plans to either retire or refinance the notes on or before the close of the succeeding fiscal year.

The audit shall be completed and filed with the authority within four months after the close of the fiscal year of the authority. A certified duplicate copy thereof shall be filed with the governing body of each local unit having created the authority and with the director within five days after the original report is filed with the authority. The Local Finance Board shall by rule or regulation prescribe the accounting principles and policies, auditing procedures, and financial reporting practices applicable to authorities and authority audits conducted pursuant to this section. The rules and regulations may include or be similar to any provisions of the "Local Fiscal Affairs Law" , (N.J.S. 40A:5-1 et seq.,) which the Local Finance Board shall deem to be practicable or necessary.

### **40A:5A-16. Synopsis of audit; publication**

A synopsis of the annual audit shall be prepared by the chairman of the authority and published at least once in a newspaper circulating in the district of the authority. A copy of the synopsis shall be filed with the director within 10 days after publication.

### **40A:5A-17. Certification of review of audit**

The members of the governing body of each authority shall, within 45 days of receipt of the annual audit, certify by resolution to the Local Finance Board that each member thereof has personally reviewed the annual audit report, and specifically the sections of the audit report entitled General Comments and Recommendations, and has evidenced same by group affidavit signed by a majority of the full membership of the authority in the form prescribed by the Local Finance Board. P.L. 1983, c. 313, s. 18.

### **40A:5A-19. Order implementing financial plan to alleviate financial difficulties**

If the Local Finance Board determines that financial difficulties exist which (1) jeopardize the payment of operating expenses and debt service on obligations of the authority or either of the aforesaid; or place an undue financial burden on the inhabitants of the local unit or units or the users of the system or facilities of an authority; and (2) that these difficulties are likely to recur and, if they continue, will impair the credit of the authority and local unit or units or either of the aforesaid to the detriment of the inhabitants thereof; and (3) no financial plan designed to prevent a recurrence of these conditions and which is deemed to be practicable and feasible by the director has been undertaken by the authority or the local unit or units, the Local Finance Board shall order the implementation of a financial plan which will assure the payment of debt service on obligations of the authority, or provide relief from undue financial burden. The order shall be deemed conclusive and final and upon receipt of the order all persons shall be estopped from contesting the order or the provisions thereof and the authority or local unit or units affected thereby shall take the action to comply with the order.

P.L. 1983, c. 313, s. 19.

### **40A:5A-20. Dissolution of authority**

Notwithstanding the provisions of any other law to the contrary, the governing body of a local unit which has established an authority shall have the power and is authorized by ordinance in the case of a municipality, and ordinance or resolution, as appropriate, in the case of a county, to dissolve the authority, except that the ordinance or resolution, as the case may be, shall be approved by the Local Finance Board prior to adoption. Any authority established by more than one municipality or county may be dissolved by the adoption of parallel ordinances or resolutions, as appropriate. The Local Finance Board shall approve the dissolution if it finds that the ordinance or resolution makes adequate provision in accordance with a bond resolution or otherwise for the payment of all creditors or obligees of the authority and that adequate provision is made for the assumption of those services provided by the authority which are necessary for the health, safety and welfare of the recipients of those services. The ordinance or resolution shall be introduced and adopted in the manner provided by law, shall take effect immediately after final adoption, and shall not be subject to referendum. A copy of the ordinance or resolution as adopted shall be filed immediately with the Local Finance Board and with the Secretary of State. In the event that an authority has obligations outstanding at the time of the taking effect of the ordinance or resolution to dissolve the authority, the local

unit or units dissolving the authority are authorized to issue obligations in furtherance of the dissolution, and the obligations shall have a period of usefulness not exceeding 40 years from the date of issuance. The bonds shall be authorized by a bond ordinance to be introduced and adopted in accordance with the provisions of the "Local Bond Law," N.J.S. 40A:2-1 et seq.), except for the provisions of sections 40A:2-11, 40A:2-26, 40A:2-27 and 40A:2-31 of the New Jersey Statutes, and except that the bond ordinance shall take effect immediately after final adoption and shall not be subject to referendum. The bonds may be deducted from the gross debt of the local unit by action of the Local Finance Board in accordance with subsection d. of N.J.S. 40A:2-7. Bonds issued for this purpose shall be sold under the direction and supervision of the Local Finance Board, and may be sold at either public or private sale as the board shall prescribe.

Nothing contained in this section or in this act shall limit the powers accorded under any other law to any county or municipality to dissolve any authority which it has created or of which it has joined in the creation, nor limit any general reorganization powers accorded under law to any county or municipality to alter or abolish its agencies, but the provisions of this section and this act shall be supplementary to the powers accorded under any other law.

P.L. 1983,c.313; amended by L. 1987,c.319,s.9.

### **40A:5A-21. Ordering of dissolution**

The Local Finance Board may order the dissolution of a local authority if, after holding a hearing consistent with section 18 of this act, it determines that, due to financial difficulties or mismanagement, the dissolution of an authority will be in the public interest and will serve the health, welfare, or convenience of the inhabitants of the local unit or units, and the dissolution will achieve a more efficient means for providing and financing local public facilities, except that an order dissolving an authority shall assure adequate provision in accordance with a bond resolution or otherwise for all creditors or obligees of the authority. Any order so adopted by the Local Finance Board to provide for the dissolution of an authority shall take effect only upon its approval by the Commissioner of the Department of Community Affairs, the State Treasurer and the Attorney General. Upon approval, the order shall be immediately transmitted to the authority, to the clerk of the governing body of the local unit or units, and to the Secretary of State.

40A:11-3. Bid threshold; period of contracts<sup>1</sup>

a. When the cost or price of any contract awarded by the contracting agent in the aggregate does not exceed in a contract year the total sum of \$17,500, the contract may be awarded by a purchasing agent when so authorized by ordinance or resolution, as appropriate to the contracting unit, of the governing body of the contracting unit without public advertising for bids, except that the governing body of any contracting unit may adopt an ordinance or resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations. If the purchasing agent is qualified pursuant to subsection b. of section 9 of P.L.1971, c.198 (C.40A:11-9), the governing body of the contracting unit may establish that the bid threshold may be up to \$25,000. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section.

b. Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to subparagraph (f) of paragraph (a) of subsection (1) of section 5 of P.L.1971, c.198 (C.40A:11-5) may be awarded for a period not exceeding 12 consecutive months. The Division of Local Government Services shall adopt and promulgate rules and regulations concerning the methods of accounting for all contracts that do not coincide with the contracting unit's fiscal year.

c. The Governor, in consultation with the Department of the Treasury, shall, no later than March 1 of every fifth year beginning in the fifth year after the year in which P.L.1999, c.440 takes effect, adjust the threshold amount and the higher threshold amount which the governing body is permitted to establish, as set forth in subsection a. of this section, or the threshold amount resulting from any adjustment under this subsection, in direct proportion to the rise or fall of the index rate as that term is defined in section 2 of P.L.1971, c.198 (C.40A:11-2), and shall round the adjustment to the nearest \$1,000. The Governor shall, no later than June 1 of every fifth year, notify each governing body of the adjustment. The adjustment shall become effective on July 1 of the year in which it is made.

L.1971, c. 198, s. 3; amended 1975, c. 353, s. 2; 1977, c. 53, s. 1; 1979, c. 350, s. 1; 1985, c. 60, s. 1; 1985, c. 469, s. 6; 1991, c. 143, s. 1; 1996, c. 113, s. 18; 1999, c. 440, s. 7.

40A:11-4. Contracts required to be advertised, disqualification of bidder

a. Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefor, except as is provided otherwise in this act or specifically by any other law. The governing body of a contracting unit may, by resolution approved by a majority of the governing body and subject to subsections b. and c. of this section, disqualify a

bidder who would otherwise be determined to be the lowest responsible bidder, if the governing body finds that it has had prior negative experience with the bidder.

b. As used in this section, "prior negative experience" means any of the following:

- (1) the bidder has been found, through either court adjudication, arbitration, mediation, or other contractually stipulated alternate dispute resolution mechanism, to have failed to provide or perform goods or services; or failed to complete the contract in a timely manner; or otherwise performed unsatisfactorily under a prior contract with the contracting unit;
- (2) the bidder defaulted on a contract, thereby requiring the local unit to utilize the services of another contractor to provide the goods or perform the services or to correct or complete the contract;
- (3) the bidder defaulted on a contract, thereby requiring the local unit to look to the bidder's surety for completion of the contract or tender of the costs of completion; or
- (4) the bidder is debarred or suspended from contracting with any of the agencies or departments of the executive branch of the State of New Jersey at the time of the contract award, whether or not the action was based on experience with the contracting unit.

c. The following conditions apply if the governing body of a contracting unit is contemplating a disqualification based on prior negative experience:

- (1) The existence of any of the indicators of prior negative experience set forth in this section shall not require that a bidder be disqualified. In each instance, the decision to disqualify shall be made within the discretion of the governing body and shall be rendered in the best interests of the contracting unit.
- (2) All mitigating factors shall be considered in determining the seriousness of the prior negative experience and in deciding whether disqualification is warranted.
- (3) The bidder shall be furnished by the governing body with a written notice (a) stating that a disqualification is being considered; (b) setting forth the reason for the disqualification; and (c) indicating that the bidder shall be accorded an opportunity for a hearing before the governing body if the bidder so requests within a stated period of time. At the hearing, the bidder shall show good cause why the bidder should not be disqualified by presenting documents and testimony. If the governing body determines that good cause has not been shown by the bidder, it may vote to find the bidder lacking in responsibility and, thus, disqualified.
- (4) Disqualification shall be for a reasonable, defined period of time which shall not exceed five years.
- (5) A disqualification, other than a disqualification pursuant to which a governing body is prohibited by law from entering into a contract with a bidder, may be voided or the period thereof may be reduced, in the discretion of the governing body, upon the submission of a good faith application under oath, supported by documentary evidence, setting forth substantial and appropriate grounds for the granting of relief, such as reversal of a judgment, or actual change of ownership, management or control of the bidder.
- (6) An opportunity for a hearing need not be offered to a bidder whose disqualification is based on its suspension or debarment by an agency or department of the executive branch of the State of New Jersey. The term of such a disqualification shall be concurrent with the term of the suspension or debarment by the State agency or department.

  - (2) the operation, management or administration of recreation or social service facilities or programs, which shall not include the administration of benefits under the Work First New Jersey program established pursuant to P.L.1997, c.38 [C.44:10-55 et seq.], or under General Assistance; or

- j. Concessions;
- k. The operation, management or administration of other services, with the approval of the Director of the Division of Local Government Services.

a. A notice of the availability of request for proposal documentation shall be published in an official newspaper of the contracting unit at least 20 days prior to the date established for the submission of proposals. The contracting unit shall promptly reply to any request by an interested vendor by providing a copy of the request for proposals. The contracting unit may charge a fee for the proposal documentation that shall not exceed \$50.00 or the cost of reproducing the documentation, whichever is greater.

b. Each interested vendor shall submit a proposal which shall include all the information required by the request for proposals. Failure to meet the requirements of the request for proposals may result in the contracting unit disqualifying the vendor from further consideration. Under no circumstances shall the provisions of a proposal be subject to negotiation by the contracting unit.

c. If the contracting unit, at the time of solicitation, utilizes its own employees to provide the goods or perform the services, or both, considered for competitive contracting, the governing body shall, at any time prior to, but no later than the time of solicitation for competitive contracting proposals, notify affected employees of the governing body's intention to solicit competitive contracting proposals. Employees or their representatives shall be permitted to submit recommendations and proposals affecting wages, hours, and terms and conditions of employment in such a manner as to meet the goals of the competitive contract. If employees are represented by an organization that has negotiated a contract with the contracting unit, only the bargaining unit shall be authorized to submit such recommendations or proposals. When requested by such employees, the governing body shall provide such information regarding budgets and the costs of performing the services by such employees as may be available. Nothing shall prevent such employees from making recommendations that may include modifications to existing labor agreements in order to reduce such costs in lieu of award of a competitive contract, and agreements implementing such recommendations may be considered as cause for rejecting all other proposals.

d. The purchasing agent or counsel or administrator shall evaluate all proposals only in accordance with the methodology described in the request for proposals. After proposals have been evaluated, the purchasing agent or counsel or administrator shall prepare a report evaluating and recommending the award of a contract or contracts. The report shall list the names of all potential vendors who submitted a proposal and shall summarize the proposals of each vendor. The report shall rank vendors in order of evaluation, shall recommend the selection of a vendor or vendors, as appropriate, for a contract, shall be clear in the reasons why the vendor or vendors have been selected among others considered, and shall detail the terms, conditions, scope of services, fees, and other matters to be incorporated into a contract. The report shall be made available to the public at least 48 hours prior to the awarding of the contract, or when made available to the governing body, whichever is sooner. The governing body shall have the right to reject all proposals for any of the reasons set forth in section 21 of P.L.1999, c.440 (C.40A:11-13.2).

e. Award of a contract shall be made by resolution of the governing body of the contracting unit within 60 days of the receipt of the proposals, except that the proposals of any vendors who consent thereto, may, at the request of the contracting unit, be held for consideration for such longer period as may be agreed.

f. The report prepared pursuant to subsection d. of this section shall become part of the public record and shall reflect the final action of the governing body. Contracts shall be executed pursuant to section 14 of P.L.1971, c.198 (C.40A:11-14).

**40A:11-4.3. Competitive contracting process; resolution, administration**

a. In order to initiate competitive contracting, the governing body shall pass a resolution authorizing the use of competitive contracting each time specialized goods or services enumerated in section 1 of P.L.1999, c.440 (C.40A:11-4.1) are desired to be contracted. If the desired goods or services have previously been contracted for using the competitive contracting process then the original resolution of the governing body shall suffice.

b. The competitive contracting process shall be administered by a purchasing agent qualified pursuant to subsection b. of section 9 of P.L.1971, c.198 (C.40A:11-9), or, by legal counsel of the contracting unit, or by an administrator of the contracting unit. Any contracts awarded under this process shall be made by resolution of the governing body of the contracting unit, subject to the provisions of subsection e. of section 5 of P.L.1999, c.440 (C.40A:11-4.5).

L.1999, c. 440, s. 3.

**40A:11-4.4. Request for proposals; documentation; provisions**

The competitive contracting process shall utilize request for proposals documentation in accordance with the following provisions:

- a. The purchasing agent or counsel or administrator shall prepare or have prepared a request for proposal documentation, which shall include: all requirements deemed appropriate and necessary to allow for full and free competition between vendors; information necessary for potential vendors to submit a proposal; and a methodology by which the contracting unit will evaluate and rank proposals received from vendors.
- b. The methodology for the awarding of competitive contracts shall be based on an evaluation and ranking, which shall include technical, management, and cost related criteria, and may include a weighting of criteria, all developed in a way that is intended to meet the specific needs of the contracting unit, and where such criteria shall not unfairly or illegally discriminate against or exclude otherwise capable vendors. When an evaluation methodology uses a weighting of criteria, at the option of the contracting unit the weighting to be accorded to each criterion may be disclosed to vendors prior to receipt of the proposals. The methodology for awarding competitive contracts shall comply with such rules and regulations as the director may adopt, after consultation with the Commissioner of Education, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.).
- c. At no time during the proposal solicitation process shall the purchasing agent or counsel or administrator convey information, including price, to any potential vendor which could confer an unfair advantage upon that vendor over any other potential vendor. If a purchasing agent or counsel or administrator desires to change proposal documentation, the purchasing agent or counsel or administrator shall notify only those potential vendors who received the proposal documentation of any and all changes in writing and all existing documentation shall be changed appropriately.
- d. All proposals and contracts shall be subject to the provisions of section 1 of P.L.1977, c.33 (C.52:25-24.2) requiring submission of a statement of corporate ownership and the provisions of P.L.1975, c.127 [C.10:5-31 et seq.] concerning equal employment opportunity and affirmative action.

L.1999, c. 440, s. 4.

**40A:11-4.5. Competitive contracting proposal solicitation**

g. The clerk or secretary of the contracting unit shall publish a notice in the official newspaper of the contracting unit summarizing the award of a contract, which shall include but not be limited to, the nature, duration, and amount of the contract, the name of the vendor and a statement that the resolution and contract are on file and available for public inspection in the office of the clerk or secretary of the municipality, county, local public authority or special district of the governing body.

h. All contract awards shall be subject to rules concerning certification of availability of funds adopted pursuant to section 3 of P.L.1971, c.198 (C.40A:11-3) and section 15 of P.L.1971, c.198 (C.40A:11-15).

i. The director, after consultation with the Commissioner of Education, may adopt additional rules and regulations, in accordance with the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), as may be necessary to effectuate the provisions of sections 1 through 5 of P.L.1999, c.440 (C.40A:11-4.1 through C.40A:11-4.5).

L.1999, c. 440, s. 5.

**40A:11-4.6. Implementation of energy savings improvement program by contracting unit; definitions**

a. A contracting unit, as defined in P.L.1971, c.198 (C.40A:11-1 et seq.), may implement an energy savings improvement program in the manner provided by this section whenever it determines that the savings generated from reduced energy use from the program will be sufficient to cover the cost of the program's energy conservation measures as set forth in an energy savings plan. Under such a program, a contracting unit may enter into an energy savings services contract with an energy services company to implement the program or the contracting unit may authorize separate contracts to implement the program. The provisions of P.L.1971, c.198 (C.40A:11-1 et seq.) shall apply to any contracts awarded pursuant to this section to the extent that the provisions of such law are not inconsistent with any provision of this section.

b. (1) To be eligible to enter into an energy savings services contract, an energy services company shall be a commercial entity that is qualified to provide energy savings services in accordance with the provisions of this section. A contracting unit may determine to enter into an energy savings services contract either through public advertising for bids and the receipt of bids therefor or through competitive contracting in lieu of public bidding in the manner provided by sections 1 through 5 of P.L.1999, c.440 (C.40A:11-4.1 et seq.).

(2) (a) Public works activities performed under an energy savings improvement program shall be subject to all requirements regarding public bidding, bid security, performance guarantees, insurance and other public contracting requirements that are applicable to public works contracts, to the extent not inconsistent with this section. A general contractor, energy services company serving as general contractor, or any subcontractor hired for the furnishing of plumbing and gas fitting and all kindred work, and of steam and hot water heating and ventilating apparatus, steam power plants and kindred work, and electrical work, structural steel and ornamental iron work, shall be classified by the Division of Property Management and Construction in the Department of the Treasury in order to perform public works activities under an energy savings improvement program.

(b) Individuals or organizations performing energy audits, acting as commissioning agents, or conducting verification of energy savings plans, implementation of energy conservation measures, or verifying guarantees shall be prequalified by the Division of Property Management and Construction in the Department of the Treasury to perform their work under an energy savings improvement program.

(3) An energy services company may be designated as the general contractor for improvements to be made pursuant to an energy savings plan, provided that the hiring of subcontractors that are required to be classified pursuant to subparagraph (a) of paragraph (2) of this subsection shall be performed pursuant to the public bidding requirements of the contracting unit. A contract with an energy savings company shall include, but not be limited to: preparation of an energy savings plan; the responsibilities of the parties for project schedules, installations, performance and quality, payment of subcontractors, project completion, commissioning, savings implementation; a requirement that the savings to be achieved by energy conservation measures be verified upon commissioning of the improvements; allocation of State and federal rebates and tax credits; and any other provisions deemed necessary by the parties.

(4) Except as provided in paragraph (5) of this subsection, a subsidiary or wholly-owned or partially-owned affiliate of the energy services company shall not be an eligible contractor or subcontractor under an energy savings services contract.

(5) When the energy services company is the manufacturer of direct digital control systems and contracts with the contracting unit to provide a guaranteed energy savings option pursuant to subsection f. of this section, the specification of such direct digital control systems may be treated as proprietary goods and if so treated, the bid specification shall set forth an allowance price for its supply by the energy services company which shall be used by all bidders in the public bidding process. Direct digital controls shall be open protocol format and shall meet the interoperability guidelines established by the American Society of Heating, Refrigerating and Air-Conditioning Engineers.

c. An energy savings improvement program may be financed through a lease-purchase agreement or through the issuance of energy savings obligations pursuant to this subsection.

(1) An energy savings improvement program may be financed through a lease-purchase agreement between a contracting unit and an energy services company or other public or private entity. Under a lease-purchase agreement, ownership of the energy savings equipment or improved facilities shall pass to the contracting unit when all lease payments have been made. Notwithstanding the provisions of any other law to the contrary, the duration of such a lease-purchase agreement shall not exceed 15 years, except that the duration of a lease purchase agreement for a combined heat and power or cogeneration project shall not exceed 20 years.

(2) Any lease-purchase agreement entered into pursuant to this subsection, may contain: a clause making it subject to the availability and appropriation annually of sufficient funds as may be required to meet the extended obligation; and a non-substitution clause maintaining that if the agreement is terminated for non-appropriation, the contracting unit may not replace the leased equipment or facilities with equipment or facilities that perform the same or similar functions.

(3) A contracting unit may arrange for incurring energy savings obligations to finance an energy savings improvement program. Energy savings obligations may be funded through appropriations for utility services in the annual budget of the contracting unit and may be issued as refunding bonds pursuant to N.J.S.A.40A:2-52 et seq., including the issuance of bond anticipation notes as may be necessary, provided that all such bonds and notes mature within the periods authorized for such energy savings obligations. Energy savings obligations may be issued either through the contracting unit or another public agency authorized to undertake financing on behalf of the unit.

(4) Lease-purchase agreements and energy savings obligations shall not be used to finance maintenance, guarantees, or verification of guarantees of energy conservation measures.

Lease-purchase agreements and energy savings obligations may be used to finance the cost of an energy audit or the cost of verification of energy savings as part of adopting an energy savings plan. Notwithstanding any law to the contrary, lease-purchase agreements and energy savings certificates shall not be excepted from any budget or tax levy limitation otherwise provided by law. Maturity schedules of lease-purchase agreements or energy savings obligations must exceed the estimated useful life of the individual energy conservation measures.

d. (1) The energy audit component of an energy savings improvement program shall be conducted either by the contracting unit or by a qualified independent third party retained by the governing body for that purpose. It shall not be conducted by an energy services company subsequently hired to develop an energy savings improvement program. The energy audit shall identify the current energy use of any or all facilities and energy conservation measures that can be implemented in which the energy savings and energy efficiency could be realized and maximized.

(2) To implement an energy savings improvement program, a contracting unit shall develop a plan that consists of one or more energy conservation measures. The plan shall:

- contain the results of an energy audit;
- describe the energy conservation measures that will comprise the program;
- estimate greenhouse gas reductions resulting from those energy savings;
- identify all design and compliance issues that require the professional services of an architect or engineer and identify who will provide these services;
- include an assessment of risks involved in the successful implementation of the plan;
- identify the eligibility for, and costs and revenues associated with the PJM Independent System Operator for demand response and curtailable service activities;
- include schedules showing calculations of all costs of implementing the proposed energy conservation measures and the projected energy savings;
- identify maintenance requirements necessary to ensure continued energy savings, and describe how they will be fulfilled; and
- if developed by an energy services company, a description of, and cost estimates of an energy savings guarantee.

All professionals providing engineering services under the plan shall have errors and omissions insurance.

(3) Prior to the adoption of the plan, the contracting unit shall contract with a qualified third party to verify the projected energy savings to be realized from the proposed program have been calculated as required by subsection e. of this section.

(4) Upon adoption, the plan shall be submitted to the Board of Public Utilities, which shall post it on the Internet on a public webpage maintained for such purpose. If the contracting unit maintains its own website, it shall also post the plan on that site. The board may require periodic reporting concerning the implementation of the plan.

(5) Verification by a qualified third party shall be required when energy conservation measures are placed in service or commissioned, to ensure the savings projected in the energy savings plan shall be achieved.

(6) Energy-related capital improvements that do not reduce energy usage may be included in an energy savings improvement program but the cost of such improvements shall not be financed as a lease-purchase or through energy savings obligations authorized by subsection c. of this section. Nothing herein is intended to prevent financing of such capital improvements through otherwise authorized means.

(7) A qualified third party when required by this subsection may include an employee of the contracting unit who is properly trained and qualified to perform such work.

e. (1) The calculation of energy savings for the purposes of determining that the energy savings resulting from the program will be sufficient to cover the cost of the program's energy conservation measures, as provided in subsection a. of this section, shall involve determination of the dollar amount saved through implementation of an energy savings improvement program using the guidelines of the International Performance Measurement and Verification Protocol or other protocols approved by the Board of Public Utilities and standards adopted by the Board of Public Utilities pursuant to this section. The calculation shall include all applicable State and federal rebates and tax credits, but shall not include the cost of an energy audit and the cost of verifying energy savings. The calculation shall state which party has made application for rebates and credits and how these applications translate into energy savings.

(2) For the purposes of this section, the Board of Public Utilities shall adopt standards and uniform values for interest rates and escalation of labor, electricity, oil, and gas, as well as standards for presenting these costs in a life cycle and net present value format, standards for the presentation of obligations for carbon reductions, and other standards that the board may determine necessary.

f. (1) When an energy services company is awarded an energy savings services contract, it shall offer the contracting unit the option to purchase, for an additional amount, an energy savings guarantee. The guarantee, if accepted by a separate vote of the governing body of the contracting unit, shall insure that the energy savings resulting from the energy savings improvement program, determined periodically over the duration of the guarantee, will be sufficient to defray all payments required to be made pursuant to the lease-purchase agreement or energy savings obligation, and if the savings are not sufficient, the energy services company will reimburse the contracting unit for any additional amounts. Annual costs of a guarantee shall not be financed or included as costs in an energy savings plan but shall be fully disclosed in an energy savings plan.

(2) When a guaranteed energy savings option is purchased, the contract shall require a qualified third party to verify the energy savings at intervals established by the parties.

g. As used in this section:

"direct digital control systems" means the devices and computerized control equipment that contain software and computer interfaces that perform the logic that control a building's heating, ventilating, and air conditioning system. Direct digital controls shall be open protocol format and shall meet the interoperability guidelines established by the American Society of Heating, Refrigerating and Air-Conditioning Engineers;

"energy conservation measure" means an improvement that results in reduced energy use, including, but not limited to, installation of energy efficient equipment; demand response equipment; combined heat and power systems; facilities for the production of renewable energy; water conservation measures, fixtures or facilities; building envelope improvements that are part of an energy savings improvement program; and related control systems for each of the foregoing;

Whenever a contracting unit shall determine that a bid was not arrived at independently in open competition pursuant to subsection (3) of this section it shall thereupon notify the county prosecutor of the county in which the contracting unit is located and the Attorney General of the facts upon which its determination is based, and when appropriate, it may institute appropriate proceedings in any State or federal court of competent jurisdiction for a violation of any State or federal antitrust law or laws relating to the unlawful restraint of trade.

(4) The contracting unit has solicited and received at least three quotations on materials, supplies or equipment for which a State contract has been issued pursuant to section 12 of P.L.1971, c.198 (C.40A:11-12), and the lowest responsible quotation is at least 10% less than the price the contracting unit would be charged for the identical materials, supplies or equipment, in the same quantities, under the State contract. Any such contract entered into pursuant to this subsection may be awarded only upon adoption of a resolution by the affirmative vote of two-thirds of the full membership of the governing body of the contracting unit at a meeting thereof authorizing such a contract. A copy of the purchase order relating to any such contract, the requisition for purchase order, if applicable, and documentation identifying the price of the materials, supplies or equipment under the State contract and the State contract number shall be filed with the director within five working days of the award of any such contract by the contracting unit. The director shall notify the contracting unit of receipt of the material and shall make the material available to the State Treasurer. The contracting unit shall make available to the director upon request any other documents relating to the solicitation and award of the contract, including, but not limited to, quotations, requests for quotations, and resolutions. The director periodically shall review material submitted by contracting units to determine the impact of such contracts on local contracting and shall consult with the State Treasurer on the impact of such contracts on the State procurement process. The director may, after consultation with the State Treasurer, adopt rules in accordance with the "Administrative Procedure Act," P.L.1968, c.410 (C.S.2:14B-1 et seq.) to limit the use of this subsection, after considering the impact of contracts awarded under this subsection on State and local contracting, or after considering the extent to which the award of contracts pursuant to this subsection is consistent with and in furtherance of the purposes of the public contracting laws.

(5) Notwithstanding any provision of law, rule or regulation to the contrary, the subject matter consists of the combined collection and marketing, or the cooperative combined collection and marketing of recycled material recovered through a recycling program, or any product intentionally produced or derived from solid waste received at a resource recovery facility or recovered through a resource recovery program including, but not limited to, refuse-derived fuel, compost materials, methane gas, and other similar products, provided that in lieu of engaging in such public advertising for bids and the bidding therefor, the contracting unit shall, prior to commencing the procurement process, submit for approval to the Director of the Division of Local Government Services, a written detailed description of the process to be followed in securing said services. Within 30 days after receipt of the written description the director shall, if the director finds that the process provides for fair competition and integrity in the negotiation process, approve, in writing, the description submitted by the contracting unit. If the director finds that the process does not provide for fair competition and integrity in the negotiation process, the director shall advise the contracting unit of the deficiencies that must be remedied. If the director fails to respond in writing to the contracting unit within 30 days, the procurement process as described shall be deemed approved. As used in this section,

The Legislature finds and declares it to be in the public interest and to be the public policy of the State to foster and promote by all reasonable means the collection, storage and distribution of an adequate supply of water for the inhabitants and businesses of the counties and municipalities of this State and to foster and promote the public health by providing for the collection and treatment of sewerage through adequate sewerage facilities.

To further promote these interests, and notwithstanding the provisions of any other law, rule or regulation to the contrary, the governing body of a city of the first class may enter into a contract with a duly incorporated nonprofit association for the provision of water supply services as defined in subsection (16) of section 15 of P.L.1971, c.198 (C.40A:11-15), or for the provision of wastewater treatment services as defined in subsection (19) of section 15 of P.L.1971, c.198 (C.40A:11-15), or both, as the case may be.

Any concession fee or monetary benefit paid by a duly incorporated nonprofit association to the governing body of a city of the first class shall be used for the purposes of reducing or off-setting property taxes, reducing water supply services or wastewater treatment services charges, rates or fees, one-time nonrecurring expenses or capital asset expenditures related to water supply facilities or wastewater treatment systems.

#### 40A:11-6.1. Award of contracts

All contracts enumerated in this section shall be awarded as follows:

a. For all contracts that in the aggregate are less than the bid threshold but 15 percent or more of that amount, and for those contracts that are for subject matter enumerated in subsection (1) of section 5 of P.L.1971, c.198 (C.40A:11-5), except for paragraph (a) of that subsection concerning professional services and paragraph (b) of that subsection concerning work by employees of the contracting unit, the contracting agent shall award the contract after soliciting at least two competitive quotations, if practicable. The award shall be made to a vendor whose response is most advantageous, price and other factors considered. The contracting agent shall retain the record of the quotation solicitation and shall include a copy of the record with the voucher used to pay the vendor.

b. When in excess of the bid threshold, and after documented effort by the contracting agent to secure competitive quotations, a contract for extraordinary unscalable services may be awarded upon a determination in writing by the contracting agent that the solicitation of competitive quotations is impracticable. Any such contract shall be awarded by resolution of the governing body.

c. If authorized by the governing body by resolution or ordinance, all contracts that are in the aggregate less than 15 percent of the bid threshold may be awarded by the contracting agent without soliciting competitive quotations.

d. Whenever two or more responses to a request of a contracting agent offer equal prices and are the lowest responsible bids or proposals, the contracting unit may award the contract to the vendor whose response, in the discretion of the contracting unit, is the most advantageous, price and other factors considered. In such a case, the award resolution or purchase order documentation shall explain why the vendor selected is the most advantageous.

Notwithstanding the provisions of section 15 of P.L.1971, c.198 (C.40A:11-15) to the contrary, a county government contracting unit may enter into or extend a contract for the marketing of recyclable materials recovered through a recycling program subject to the following conditions:

- (1) The program includes one or more interlocal services agreements with municipalities in that county for the delivery of recyclable materials to a contractor; and
- (2) The contract for the marketing of recyclable material includes fixed or formula based fees for the marketing services so provided and the contractor owns the buildings and equipment necessary to perform the contract.

b. Whenever an existing contract satisfies the conditions contained in subsection a. of this section, the contract may be extended for a period of up to 10 years; however, the length of the existing contract together with any extension thereof shall not exceed a total of 12 years. A new contract for the marketing of recyclable materials shall not exceed 10 years. Notwithstanding the provisions of section 5 of P.L.1971, c.198 (C.40A:11-5) to the contrary, a new contract for the marketing of recyclable materials for a term exceeding five years shall be entered into pursuant to public bidding or competitive contracting.

L.2003, c. 150, s. 1.

**40A:11-16. Separate plans for various types of work; bids; contracts**

a. In the preparation of plans and specifications for the construction, alteration or repair of any public building by any contracting unit, when the entire cost of the work will exceed the bid threshold, the architect, engineer or other person preparing the plans and specifications may prepare separate plans and specifications for

- (1) The plumbing and gas fitting and all kindred work;
- (2) Steam power plants, steam and hot water heating and ventilating apparatus and all kindred work;
- (3) Electrical work;
- (4) Structural steel and ornamental iron work; and
- (5) All other work required for the completion of the project.

The contracting agent shall advertise for and receive, in the manner provided by law, either (a) separate bids for each of said branches of work, or (b) bids for all the work, goods and services required to complete the building to be included in a single overall contract, or (c) both. In the case of a single bid under (b) or (c), there shall be set forth in the bid the name or names of all subcontractors to whom the bidder will subcontract the furnishing of plumbing and gas fitting, and all kindred work, and of the steam and hot water heating and ventilating apparatus, steam power plants and kindred work, and electrical work, structural steel and ornamental iron work, each of which subcontractors shall be qualified in accordance with P.L.1971, c.198 (C.40A:11-1 et seq.). The contracting unit shall require evidence of performance security to be submitted simultaneously with the list of the subcontractors. Evidence of performance security may be supplied by the bidder on behalf of himself and any or all subcontractors, or by each respective subcontractor, or by any combination thereof which results in evidence of performance security equaling, but in no event exceeding, the total amount bid.

b. Whenever a bid sets forth more than one subcontractor for any of the specialty trade categories (1) through (4) specified in subsection a. of this section, the bidder shall submit to the contracting unit a certificate signed by the bidder listing each subcontractor named in the bid for that category. The certificate shall set forth the scope of work, goods and services for which the subcontractor has submitted a price quote and which the bidder has agreed to award to each subcontractor should the bidder be awarded the contract. The certificate shall be submitted to the contracting unit simultaneously with the list of the subcontractors. The certificate may take the form of a single certificate listing all subcontractors or, alternatively, a separate certificate may be submitted for each subcontractor. If a bidder does not submit a certificate or certificates to the contracting unit, the contracting unit shall award the contract to the next lowest responsible bidder.

c. Contracts shall be awarded to the lowest responsible bidder. In the event that a contract is advertised for both separate bids for each branch of work and for bids for all work, goods, and services, said contract shall be awarded in the following manner: If the sum total of the amounts bid by the lowest responsible bidder for each branch is less than the amount bid by the lowest responsible bidder for all the work, goods and services, the contracting unit shall award separate contracts for each of such branches to the lowest responsible bidder therefor, but if the sum total of the amounts bid by the lowest responsible bidder for each branch is not less than the amount bid by the lowest responsible bidder for all the work, goods and services, the contracting unit shall award a single overall contract to the lowest responsible bidder for all of such work, goods and services. In every case in which a contract is awarded for a single overall contract, all payments required to be made under such contract for work, goods and services supplied by a subcontractor shall, upon the certification of the contractor of the amount due to the subcontractor, be paid directly to the subcontractor.

d. Any bid specification prepared pursuant to this section that includes the use of 1,000 or more tons of hot mix asphalt, shall include a pay item for any asphalt price adjustment reflecting changes in the cost of asphalt cement. Any bid specification prepared pursuant to this section that includes the use of less than 1,000 tons of hot mix asphalt, shall include a pay item for an asphalt price adjustment for any quantity of hot mix asphalt exceeding 1,000 tons that maybe used in the work in the event that performance of the work, including change orders, requires more than 1,000 tons of hot mix asphalt.

The asphalt price adjustment shall be calculated in accordance with the formula and relevant instructions published in the most recent edition of the New Jersey Department of Transportation Standard Specifications for Road and Bridge Construction as revised by the "Standard Inputs" periodically issued by the department. All invoices for payment shall be

accompanied by the calculation of any asphalt price adjustment and a showing of the current month's Asphalt Price Index, the Basic Asphalt Price Index.

e. (1) Every bid specification prepared pursuant to this section may be eligible for a fuel price adjustment. Fuel that is eligible for a fuel price adjustment shall be the sum of the quantities of the eligible pay items in the contract times the fuel usage factors as determined by the Department of Transportation. The types of fuel furnished shall be at the option of the contractor.

(2) The fuel requirement for items not determined by the Department of Transportation to be eligible, and for pay items in the bid specifications calling for less than 500 gallons of fuel, shall not be eligible for a fuel price adjustment. If more than one pay item has the same nomenclature but with different thicknesses, depths, or types, each individual pay item must require 500 gallons or more of fuel to be eligible for a fuel price adjustment. If more than one pay item has the exact same nomenclature, similar pay items shall be combined and the this combination must require 500 gallons or more of fuel to be eligible for the fuel price adjustment.

(3) Fuel price adjustments shall not be made in those months for which the monthly fuel price index has changed by less than five percent from the basic fuel price.

f. As used in subsections d. and e. of this section:

"Asphalt Price Index" means the Asphalt Price Index as determined and published by the New Jersey Department of Transportation.

"Basic Asphalt Price Index" means the Basic Asphalt Price Index as published by the New Jersey Department of Transportation in its "Standard Specifications for Road and Bridge Construction," as revised by the "Standard Inputs" periodically issued by the New Jersey Department of Transportation.

"Fuel Price Index" means the Fuel Price Index as determined and published by the New Jersey Department of Transportation.

"Pay Item" means a specifically described item of work for which the bidder provides a per unit or lump sum price in a bid specification as determined and published by the New Jersey Department of Transportation.

#### 40A:11-16.1. \$100,000 contracts for improvements to real property; retainage, security

Whenever any contract, the total price of which exceeds \$100,000.00, entered into by a contracting unit, for the construction, reconstruction, alteration or repair of any building, structure, facility or other improvement to real property, requires the withholding of payment of a percentage of the amount of the contract, the contractor may agree to the withholding of payments in the manner prescribed in the contract, or may deposit with the contracting unit registered book bonds, entry municipal bonds, State bonds or other appropriate bonds of the State of New Jersey, or negotiable bearer bonds or notes of any political subdivision of the State, the value of which is equal to the amount necessary to satisfy the amount that otherwise would be withheld pursuant to the terms of the contract. The nature and amount of the bonds or notes to be deposited shall be subject to approval by the contracting unit. For purposes of this section, "value" shall mean par value or current market value, whichever is lower.

If the contractor agrees to the withholding of payments, the amount withheld shall be deposited, with a banking institution or savings and loan association insured by an agency of the Federal government, in an account bearing interest at the rate currently paid by such institutions or

associations on time or savings deposits. The amount withheld, or the bonds or notes deposited, and any interest accruing on such bonds or notes, shall be returned to the contractor upon fulfillment of the terms of the contract relating to such withholding. Any interest accruing on cash payments withheld shall be credited to the contracting unit.

b. Upon acceptance of the work performed pursuant to the contract for which the contractor has agreed to the withholding of payments pursuant to subsection a. of this section, all amounts being withheld by the contracting unit shall be released and paid in full to the contractor within 45 days of the final acceptance date agreed upon by the contractor and the contracting unit, without further withholding of any amounts for any purpose whatsoever, provided that the contract has been completed as indicated. If the contracting unit requires maintenance security after acceptance of the work performed pursuant to the contract, such security shall be obtained in the form of a maintenance bond. The maintenance bond shall be no longer than two years and shall be no more than 100% of the project costs.

a. the increase occurred as a result of compliance with an order issued by the Department of Environmental Protection, in conjunction with the Board of Public Utilities, directing the solid waste be disposed at a solid waste facility other than the facility previously utilized by the person to whom the contract has been awarded; or

#### 40A:11-16.6. Definitions relative to value engineering change orders; requirement for certain contracts

a. For the purpose of this act:

"Construction" means the construction, reconstruction, demolition, erection, alteration, or repair of a structure or other improvement to real property, other than the construction, reconstruction, demolition, or renovation of a public building.

"Value engineering construction change order" means a change order that results in cost reductions to a project or any portion of the work from the original bid specifications after a construction contract is awarded.

"Value engineering construction proposal" means a cost reduction proposal based on analysis by a contractor of the functions, systems, equipment, facilities, services, supplies, means and methods of construction, and any other item needed for the completion of the contract consistent with the required performance, quality, reliability, and safety.

b. All construction contracts issued by a contracting unit when the total price of the originally awarded contract equals or exceeds \$5,000,000, shall allow for value engineering construction change orders to be approved after the award of the contract.

c. Value engineering construction change orders shall be subject to the following provisions:

(1) Value engineering construction change orders shall not be used to impair any of the essential functions, or characteristics of the project, or any portion of the work involved.

(2) The contractor shall submit a value engineering construction proposal that completely describes the changes to the original specifications or proposal, impact on other project components, advantages and disadvantages of the proposed change, cost estimates and calculations on which they are based, any impact on the contract time schedule, and any other relevant information that the contracting unit may require in order to review the value engineering construction proposal. The contractor's cost for developing the value engineering construction proposal shall not be eligible for reimbursement by the contracting unit.

(3) The contractor shall be liable for all reasonable costs incurred by the contracting unit for the technical evaluation and engineering review of a value engineering construction proposal presented by the contractor.

(4) The contracting unit's engineer shall prepare a written report for the governing body that shall evaluate the value engineering construction proposal, make a recommendation on whether or not it should be accepted, rejected, or modified, and state to the contracting unit and contractor the amount of any projected cost savings.

(5) The proposal shall not be approved unless the engineer reports to the governing body that the proposal appears consistent with the required performance, quality, reliability, and safety of the project and does not impair any of the essential functions, or characteristics of the project, or any portion of the work involved.

(6) The contracting unit shall have the sole discretion to approve or disapprove a value engineering construction proposal.

#### Local Public Contracts Law

N.J.S.A. 40A:11-1 et seq.

(7) The contractor and the contracting unit shall equally share in the cost savings generated on the contract as a result of an approved value engineering construction change order. Once the project is completed, the contracting unit's engineer shall verify the cost savings to reflect the actual cost of the work, and such verified cost saving shall be the basis for the savings shared equally with the contractor.

(8) The contractor shall have no claim against the contracting unit as a result of the contracting unit's disapproval of a value engineering construction proposal.

(9) A contracting unit shall include in its bid specifications and contract documents procedures to regulate the value engineering construction change order process. Such procedures shall be based on procedures established by the New Jersey Department of Transportation, or any other appropriate State agency, or rules adopted by the director of the Division of Local Government Services.

d. This section shall not invalidate or impair rules regarding change orders adopted by the director of the Division of Local Government Services prior to the effective date of this act. Notwithstanding any provision of P.L.1968, c.410 (C.52:14B-1 et seq.) to the contrary, the director may adopt, immediately upon filing with the Office of Administrative Law, such rules and regulations as the director deems necessary to implement the provisions of P.L.2005, c.67 (C.40A:11-16.6) which shall be effective for a period not to exceed 12 months. The regulations shall thereafter be amended, adopted or readopted in accordance with the provisions of P.L.1968, c.410 (C.52:14B-1 et seq.).

#### 40A:11-17. Number of working days specified

All specifications for the doing of any public work for a contracting unit shall fix the date before which the work shall be completed, or the number of working days to be allowed for its completion; and every such contract shall contain a provision for a deduction, from the contract price, or any wages paid by the contracting unit to any inspector or inspectors necessarily employed by it on the work, for any number of days in excess of the number allowed in the specifications.

L.1971, c. 198, s. 17, eff. July 1, 1971.

#### 40A:11-18. American goods and products to be used where possible

Each local unit shall provide, in the specifications for all contracts for county or municipal work or for work for which it will pay any part of the cost, or work which by contract or ordinance it will ultimately own and maintain, that only manufactured and farm products of the United States, wherever available, be used in such work.

#### 40A:11-19. Liquidated damages; void provisions as to contractor's remedies

Any contract made pursuant to P.L.1971, c.198 (C.40A:11-1 et seq.) may include liquidated damages for the violation of any of the terms and conditions thereof or the failure to perform said contract in accordance with its terms and conditions, or the terms and conditions of P.L.1971, c.198 (C.40A:11-1 et seq.). Notwithstanding any other provision of law to the contrary, it shall be void, unenforceable and against public policy for a provision in a contract entered into under P.L.1971, c.198 (C.40A:11-1 et seq.) to limit a contractor's remedy for the contracting unit's negligence, bad faith, active interference, tortious conduct, or other reasons un contemplated by the parties that delay the contractor's performance, to giving the contractor an extension of time for performance under the contract. For the purposes of this section, "contractor" means a person, his assignees or legal representatives with whom a contract with a contracting unit is made.

40A:11-20. Certificate of bidder showing ability to perform contract

There may be required from any bidder submitting a bid on public work to any contracting unit, duly advertised for in accordance with law, a certificate showing that he owns, leases, or controls all the necessary equipment required by the plans, specifications and advertisements under which bids are asked for and if the bidder is not the actual owner or lessee of any such equipment, his certificate shall state the source from which the equipment will be obtained, and shall be accompanied by a certificate from the owner or person in control of the equipment definitely granting to the bidder the control of the equipment required during such time as may be necessary for the completion of that portion of the contract for which it is necessary.

40A:11-21. Guarantee to be furnished with bid

A person bidding on a contract for the erection, alteration or repair of a public building, structure, facility or other improvement to real property, the total price of which exceeds \$100,000, shall furnish a guarantee as provided for herein. A contracting unit may provide that a person bidding on any other contract, advertised in accordance with law, shall furnish a guarantee as provided for herein. The guarantee shall be payable to the contracting unit so that if the contract is awarded to the bidder, the bidder will enter into a contract therefor and will furnish any performance bond or other security required as a guarantee or indemnification. The guarantee shall be in the amount of 10% of the bid, but not in excess of \$20,000.00, except as otherwise provided herein, and may be given, at the option of the bidder, by certified check, cashier's check or bid bond. In the event that any law or regulation of the United States imposes any condition upon the awarding of a monetary grant to any contracting unit, which condition requires the depositing of a guarantee in an amount other than 10% of the bid or in excess of \$20,000.00 the provisions of this section shall not apply and the requirements of the law or regulation of the United States shall govern.

L.1971, c. 198, s. 21; amended 1974, c. 189; 1999, c. 39, s. 3; 1999, c. 440, s. 29.

40A:11-22. Surety company certificate

a. A person bidding on a contract for the erection, alteration or repair of a building, structure, facility or other improvement to real property, the total price of which exceeds \$100,000, shall furnish a certificate from a surety company, as provided for herein. A contracting unit may provide that a person bidding on any other contract shall furnish a certificate from a surety company, as provided for herein.

b. When a surety company bond is required in the advertisement or specifications for a contract, every contracting unit shall require from any bidder submitting a bid in accordance with plans, specifications and advertisements, as provided for by law, a certificate from a surety company stating that it will provide the contractor with a bond in such sum as is required in the advertisement or in the specifications.

This certificate shall be obtained from a bond—

- (1) For the faithful performance of all provisions of the specifications or for all matters which may be contained in the notice to bidders, relating to the performance of the contract, and
(2) If any be required, for a guarantee bond for the faithful performance of the contract provisions relating to the repair and maintenance of any work, project or facility and its appurtenances and keeping the same in good and serviceable condition during the term of the bond as provided for in the notice to bidders or in the specifications, or
(3) In such other form as may be provided in the notice to bidders or in the specifications.

If a bidder desires to offer the bond of an individual instead of that of a surety company, the bidder shall submit with the bid a certificate signed by such individual similar to that required of a surety company.

The contracting unit may reject any such bid if it is not satisfied with the sufficiency of the individual surety offered.

L.1971, c. 198, s. 22; amended 1999, c. 39, s. 4; 1999, c. 440, s. 30.

40A:11-23. Advertisements for bids; bids; general requirements

a. All advertisements for bids shall be published in an official newspaper of the contracting unit sufficiently in advance of the date fixed for receiving the bids to promote competitive bidding, but in no event less than 10 days prior to such date; except that all advertisements for bids on contracts for the collection and disposal of municipal solid waste shall be published in an official newspaper of the contracting unit circulating in the county or municipality, and in at least one newspaper of general circulation published in the State, sufficiently in advance of the date fixed for receiving the bids to promote competitive bidding, but not less than 60 days prior to that date. For all contracts, the date fixed for receiving the bids shall not fall on a Monday, or any day directly following a State or federal holiday.

b. The advertisement shall designate the manner of submitting and the method of receiving the bids and the time and place at which the bids will be received. If the published specifications provide for receipt of bids by mail, those bids which are mailed to the contracting unit shall be sealed and shall only be opened for examination at such time and place as all bids received are unsealed and announced. At such time and place the contracting agent of the contracting unit shall publicly receive the bids, and thereupon immediately proceed to unseal them and publicly announce the contents, which announcement shall be made in the presence of any parties bidding or their agents, who are then and there present, and shall also make proper record of the prices and terms, upon the minutes of the governing body, if the award is to be made by the governing body of the contracting unit, or in a book kept for that purpose, if the award is to be made by other than the governing body, and in such latter case it shall be reported to the governing body of the contracting unit for its action thereon, when such action thereon is required. No bids shall be received after the time designated in the advertisement.

c. Notice of revisions or addenda to advertisements or bid documents shall be provided as follows:

- 1) For all contracts except those for construction work and municipal solid waste collection and disposal service, notice shall be published no later than seven days, Saturdays, Sundays, and holidays excepted, prior to the date for acceptance of bids, in an official newspaper of the contracting unit and be provided to any person who has submitted a bid or who has received a bid package, in one of the following ways: i) in writing by certified mail or ii) by certified facsimile transmission, meaning that the sender's facsimile machine produces a receipt showing date and time of transmission and that the transmission was successful or iii) by a delivery service that provides certification of delivery to the sender.
2) For all contracts for construction work, notice shall be provided no later than seven days, Saturdays, Sundays, or holidays excepted, prior to the date for acceptance of bids, to any person who has submitted a bid or who has received a bid package in any of the following ways: i) in writing by certified mail or ii) by certified facsimile transmission, meaning that the sender's facsimile machine produces a receipt showing date and time of transmission and that the transmission was successful or iii) by a delivery service that provides certification of delivery to the sender.

3) For municipal solid waste collection and disposal contracts, notice shall be published in an official newspaper of the contracting unit and in at least one newspaper of general circulation published in the State no later than seven days, Saturdays, Sundays, and holidays excepted, prior to the date for acceptance of bids.

d. Failure of the contracting unit to advertise for the receipt of bids or to provide proper notification of revisions or addenda to advertisements or bid documents related to bids as prescribed by this section shall prevent the contracting unit from accepting the bids and require the readvertisement for bids pursuant to subsection a. of this section. Failure to obtain a receipt when good faith notice is sent or delivered to the address or telephone facsimile number on file with the contracting unit shall not be considered failure by the contracting unit to provide notice.

L.1971, c. 198, s. 23; amended 1975, c. 353, s. 13; 1983, c. 174; 1985, c. 429; 1991, c. 381, s. 50; 1997, c. 243; 1999, c. 440, s. 31; 2005, c. 191, s. 5; 2007, c. 4, s. 1.

40A:11-23.1. Plans, specifications, bid proposal documents; required contents

All plans, specifications and bid proposal documents for the erection, alteration, or repair of a building, structure, facility or other improvement to real property, the total price of which exceeds the amount set forth in, or the amount calculated by the Governor pursuant to, section 3 of P.L.1971, c.198 (C.40A:11-3), shall include:

- a. a document for the bidder to acknowledge the bidder's receipt of any notice or revisions or addenda to the advertisement or bid documents; and
b. a form listing those documentary and informational forms, certifications, and other documents that the contracting agent requires each bidder to submit with the bid. The form shall list each of the items to be submitted with the bid proposal and a place for the bidder to indicate, by initialing each entry, that the bidder has included those required items with the completed bid proposal. Each bidder shall complete this form and submit it with the bid proposal in addition to those documentary and informational forms, certifications, and other documents that are listed on the form; and
c. a statement indicating whether uniformed law enforcement officers will be required for the project. The statement shall include a line item allowance, which shall be a good faith effort on the part of the contracting unit, to reasonably estimate the total cost of traffic control personnel, vehicles, equipment, administrative, or any other costs associated with additional traffic control requirements required by the contracting unit, or any other public entity affected by the project, above and beyond the bidder's traffic control personnel, vehicles, equipment, and administrative costs. The individuals responsible for the assignment of uniformed law enforcement officers for any municipalities affected by a project shall be required to determine where traffic safety control is needed for a project, and calculate the number and placement of all necessary personnel, equipment, and the costs associated with these, including hourly rates, and submit this information to the contracting unit.

The contracting unit shall not be responsible for additional traffic control costs beyond the number of working days specified in the construction contract in accordance with section 17 of P.L.1971, c.198 (C.40A:11-17), when such a delay is caused by the contractor and liquidated damages have been assessed.

The statement prescribed under this subsection shall not be required if the contracting unit will provide for the direct payment of uniformed law enforcement officers and any additional costs directly associated with the provision of those officers; and

d. at the option of the contracting unit, specified alternate proposals in addition to a base specification. When the contracting unit specifies alternate proposals, the determination of which bidder's response to a request for bids offers the lowest price shall be made on the basis of the price of: (i) the base specification plus the price of any selected specified alternate proposals; or (ii) a choice of specified alternative proposals within the limit of funds that may be made available for a project. If a contracting unit provides for more than one specified alternate proposal, the contracting unit shall specify in the bid specification the criteria or ranked order by which specified alternate proposals shall be selected and included in the award of the contract by the governing body, provided that this requirement shall only apply to a project with a total estimated cost, including specified alternate proposals, of greater than \$500,000. The aggregate dollar value of accepted specified alternate proposals shall not exceed 50 percent of the base bid. If a contracting unit is found in a court of law to have chosen specific alternative proposals in a manner intended to award a contract to a specific vendor, the bids shall be voided, the contracting unit shall rebid the project, and a plaintiff who prevails in any proceeding shall be entitled to a reasonable attorney's fee.

For the purposes of this subsection:

- "Specified alternate proposal" means a requirement of the bid specification for bidders to submit prices for reduced, modified or supplemental work in addition to the base proposal which may include, but not be limited to, a change in project scope or the use of alternative materials or methods of construction;
"Base specification" means the plans and specifications for the erection, alteration or repair of the building, structure, facility or other improvement to real property that are required to be met by all bidders without exception.

L.1999, c. 39, s. 1; amended 2006, c. 9.

40A:11-23.2. Required mandatory items for bid plans, specification

When required by the bid plans and specifications, the following requirements shall be considered mandatory items to be submitted at the time specified by the contracting unit for the receipt of the bids; the failure to submit any one of the mandatory items shall be deemed a fatal defect that shall render the bid proposal unresponsive and that cannot be cured by the governing body:

- a. A guarantee to accompany the bid pursuant to section 21 of P.L.1971, c.198 (C.40A:11-21);

40A:11-24. Time for making awards; deposits returned

a. The contracting unit shall award the contract or reject all bids within such time as may be specified in the invitation to bid, but in no case more than 60 days, except that the bids of any bidders who consent thereto may, at the request of the contracting unit, be held for consideration

for such longer period as may be agreed. All bid security, except the security of the three apparent lowest responsible bidders, shall be returned, unless otherwise requested by the bidder, within 10 days after the opening of the bids, Sundays and holidays excepted, and the bids of such bidders shall be considered as withdrawn. Within three days, Sundays and holidays excepted, after the awarding and signing of the contract and the approval of the contractor's performance bond, the bid security of the remaining unsuccessful bidders shall be returned to them.

h. The contract shall be signed by all parties within the time limit set forth in the specifications, which shall not exceed 21 days, Sundays and holidays excepted, after the making of the award; provided, however, that all parties to the contract may agree to extend the limit set forth in the specifications beyond the 21 day limit required in this subsection. The contractor, upon written request to the contracting unit, is entitled to receive, within seven days of the request, an authorization to proceed pursuant to the terms of the contract on the date set forth in the contract for work to commence, or, if no date is set forth in the contract, upon receipt of authorization. If for any reason the contract is not awarded and the bidders have paid for or paid a deposit for the plans and specifications to the contracting unit, the payment or deposit shall immediately be returned to the bidders when the plans and specifications are returned in reasonable condition within 90 days of notice that the contract has not been awarded.

**40A:11-25. General power to provide qualification for bidders**

The governing body of any contracting unit may establish reasonable regulations appropriate for controlling the qualifications of prospective bidders upon contracts to be awarded on behalf of the contracting unit, by the class or category of goods or services to be provided or performed, which may fix the qualifications required according to the financial ability and experience of the bidders and the capital and equipment available to them pertinent to and reasonably related to the class or category of goods or services to be provided or performed in the performance of any such contract, and may require each bidder to furnish a statement thereof; and if such governing body is not satisfied with the qualifications of any bidder as founded upon such statement, it may refuse to furnish the bidder with any plans or specifications for any public contract or consider any bid made by the bidder for any contract.

Prior to the adoption of any such regulations, a contracting unit shall submit them to a public hearing. Notice of the hearing and a general description of the subject matter of the regulations to be adopted shall be published in not less than two newspapers circulating in the county or municipality in which the contracting unit is located. Publication shall precede by at least 20 days the date set in the notice for the hearing. The clerk or secretary of the governing body of the contracting unit shall keep a record of the proceedings and of the testimony of any citizen or prospective bidder. Within 10 days after the completion of the hearings, the proposed regulations and a true copy of the hearings shall be forwarded to the Director of the Division of Local Government Services for the director's approval. This approval shall be indicated by a letter from the director to the governing body of the contracting unit. If the director fails to approve or disapprove the regulations within 30 days of their receipt by the director, they shall take effect without the director's approval. The director may disapprove such proposed regulations only if the director finds that:

- (a) They are written in a manner which will unnecessarily discourage full, free and open competition; or
- (b) They unnecessarily restrict the participation of small businesses in the public bidding process; or
- (c) They create undue preferences; or

(d) They violate any other provision of this act, or any other law.

If the director disapproves such proposed regulations within the 30-day period prescribed, they shall be of no force and effect and may not be required as a condition to the acceptance of a bid on any public contract by the contracting unit. Any appeal from a decision of the director to the Local Finance Board shall be subject to the provisions of the "Local Government Supervision Act (1947)", P.L.1947, c.151. (C.52:27BB-1 et seq.).

No qualification rating of any bidder shall be influenced by the bidder's race, religion, sex, national origin, nationality or place of residence or business.

Nothing contained in this act shall limit the right of any court to review a refusal to furnish any such plans or specifications or to consider any bid on any contract advertised.

Any such governing body may adopt a standard form of statement or questionnaire for bidders on public works contracts, and in such case their action shall be governed as provided herein.

L.1971, c. 198, s. 25; amended 1999, c. 440, s. 32.

**40A:11-26. Standard questionnaire; effect of unsatisfactory answers**

The governing body of any contracting unit may adopt a standard form of statement or questionnaire for bidders and may require from any person proposing to bid upon any such contract a statement or answers showing the bidder's financial ability and experience in performing public sector work and describing the equipment available to such bidder in the performance of such contract, and if not satisfied with the sufficiency of this statement or answers may refuse to furnish plans and specifications to the bidder.

L.1971, c. 198, s. 26; amended 1999, c. 440, s. 33.

**40A:11-27. Standard statements and questionnaires; prospective bidders; responses**

Such statements and questionnaires shall be standardized for like classes of goods or services to be submitted to prospective bidders who may be required to respond to questions under oath. The statement or answer shall disclose fully the financial ability, adequacy of plant and equipment, organization and prior experience of the prospective bidder, and such other pertinent and material facts as may be required.

L.1971, c. 198, s. 27; amended 1999, c. 440, s. 34.

**40A:11-28. Classification of prospective bidders; notice**

Prospective bidders shall be classified as to the character and amount of goods or services contracts as to which they shall be qualified to submit bids, and bids shall be accepted only from persons so qualified. The classification shall be made and an immediate notice thereof shall be sent to the prospective bidders by certified or registered mail within eight days after the date of receipt of the responsive statement or answers.

L.1971, c. 198, s. 28; amended 1999, c. 440, s. 35.

**40A:11-29. Reclassification of prospective bidders; request for; time limit**

If any person, after being notified of a classification, shall be dissatisfied therewith or with the classification of other bidders, that person may request in writing a hearing before such governing body, and may present such further evidence with respect to the financial responsibility, organization, plant and equipment, or experience of that person or other prospective bidders as might tend to justify a different classification.

Where a request is made for the change of classification of another prospective bidder, the applicant therefor shall notify such other bidder by certified or registered mail of the time and place

of hearing, as fixed by the governing body, and at the hearing shall present satisfactory evidence that the notice was served as herein required, before any matters pertaining to a change of classification of such other bidder shall be taken up. After hearing such evidence the governing body may, in its discretion, by appropriate action, change or retain the classification of any bidder.

No change in classification to be effective for any contract where bidding therefor has been duly advertised, shall be made unless the written request therefor shall have been received at least 20 days before the final day for submission of bids.

All requests for change in classification and notice of any action sent by certified or registered mail to the parties directly affected thereby, shall be acted upon by the governing body concerned at least eight days prior to the date fixed for the next opening of bids on any contract or contracts for which such persons might be qualified to bid as a result of the reclassification.

L.1971, c. 198, s. 29; amended 1999, c. 440, s. 36.

**40A:11-30. Board of review upon classification; membership, et cetera**

There is hereby established a board of review upon classification and reclassification of prospective bidders. This board shall consist of one member of the governing body of the contracting unit concerned and two citizens of the county or municipality to be designated by such governing body. In all counties having a county supervisor, he shall be a member of the board of review instead of one of the citizens. The clerk of the contracting unit shall be the secretary of the board of review and shall keep a complete record of its proceedings and decisions. The members of the board shall serve without compensation.

L.1971, c. 198, s. 30, eff. July 1, 1971.

**40A:11-31. Reconsideration by board of review; request for; time limit**

Any prospective bidder who is dissatisfied with an original classification or reclassification may upon receipt of notice thereof, request in writing a hearing of the matter before the board of review. The request shall be filed with the contracting agent and the secretary of the board.

The board shall hold a hearing at which the prospective bidder shall be entitled to be heard and to submit additional information.

The board shall review the responsibility of all prospective bidders who have filed statements or answers, considering both the statement, answers and any additional information given at the hearing, and shall certify to the contracting unit concerned, its decision as to the original classifications or reclassifications, if any. The decisions shall be made by a majority vote.

In order for any change in classification by the board to be effective for a contract previously advertised, the request shall be filed not less than five days prior to the final day for submission of bids, and the board shall hold a hearing and act upon the request not less than two days prior to the date fixed for the next opening of bids on any public works contract for which such prospective bidders might be qualified to bid as a result of the reclassification.

L.1971, c. 198, s. 31; amended 1999, c. 440, s. 37.

**40A:11-32. Rejection of bids after qualification of bidder; hearing**

Nothing herein contained shall be construed as depriving any governing body of the right to reject a bid at any time prior to the actual award of a contract, where the circumstances of the prospective bidder have changed subsequent to the qualification and classification of the bidder, which in the opinion of the awarding contracting unit would adversely affect the responsibility of the bidder. Before taking final action on any such bid, the contracting agent concerned shall notify the bidder and afford the bidder an opportunity to present any additional information which might tend to sustain the existing classification.

No person shall be qualified to bid on any contract unless that person shall have submitted a statement or answers as herein required within a period of six months preceding the date of opening of bids for the contract, if the bidders thereon are required to be classified hereunder. In any case where the contracting unit shall require classification of the bidders in compliance with these sections, each bidder on any contract shall be required to submit a statement listing the changes in the statement or answers herein required as part of the bidder's bid submission.

L.1971, c. 198, s. 32; amended 1999, c. 440, s. 38.

**40A:11-33. Forfeiture of deposit in certain cases**

A deposit made by any person who makes or causes to be made a false, deceptive or fraudulent statement or answers in response to a questionnaire or in the course of a hearing hereunder may be caused to be forfeited, as liquidated damages by and to the contracting unit.

L.1971, c. 198, s. 33, eff. July 1, 1971.

**40A:11-34. Penalties for false statements**

Any person who makes or causes to be made, a false, deceptive or fraudulent statement in the statement or answers in response to the questionnaire, or in the course of any hearing hereunder, shall be guilty of a misdemeanor, and upon conviction shall be punishable by a fine of not less than \$100.00 nor more than \$1,000.00, and shall be permanently disqualified from bidding on all public work or contracts of the contracting unit which submitted the questionnaire; or, in the case of an individual or an officer or employee charged with the duty of responding to the questionnaire for a person, firm, copartnership, association or corporation, by such fine or by imprisonment, not exceeding 6 months, or both.

L.1971, c. 198, s. 34, eff. July 1, 1971.

**40A:11-35. Indemnity agreements; Federal projects for benefit of municipality**

Any contracting unit may enter into an agreement indemnifying the United States of America, or any board, body, officer or agency thereof, from loss or damage to the property of others resulting from the furtherance of any project, undertaken or to be undertaken by the Federal Government for the benefit of such contracting unit where the cost or any part thereof is to be paid out of Federal funds.

**40A:11-36. Sale or other disposition of personal property**

Any contracting unit by resolution of its governing body may authorize by sealed bid or public auction the sale of its personal property not needed for public use.

(1) If the estimated fair value of the property to be sold exceeds 15 percent of the bid threshold in any one sale and it is neither livestock nor perishable goods, it shall be sold at public sale to the highest bidder.

(2) The contracting unit need not advertise for bids when it makes any such sale to the United States, the State of New Jersey, another contracting unit, any body politic to which it contributes tax raised funds, any foreign nation which has diplomatic relations with the United States, or any governmental unit in the United States.

(3) Notice of the date, time and place of the public sale together with a description of the items to be sold and the conditions of sale shall be published in an official newspaper. Such sale shall be held not less than seven nor more than 14 days after the latest publication of the notice thereof.

(4) If no bids are received the property may then be sold at private sale without further publication or notice thereof, but in no event at less than the estimated fair value; or the contracting unit may if it so elects reoffer the property at public sale. As used herein, "estimated fair value" means the market value of the property between a willing seller and a willing buyer less the cost to the contracting unit to continue storage or maintenance of any personal property not needed for public use to be sold pursuant to this section.

(5) A contracting unit may reject all bids if it determines such rejection to be in the public interest. In any case in which the contracting unit has rejected all bids, it may readvertise such personal property for a subsequent public sale. If it elects to reject all bids at a second public sale, pursuant to this section, it may then sell such personal property without further publication or notice thereof at private sale, provided that in no event shall the negotiated price at private sale be less than the highest price of any bid rejected at the preceding two public sales and provided further that in no event shall the terms or conditions of sale be changed or amended.

(6) If the estimated fair value of the property to be sold does not exceed the applicable bid threshold in any one sale or is either livestock or perishable goods, it may be sold at private sale without advertising for bids.

(7) Notwithstanding the provisions of this section, by resolution of the governing body, a contracting agent may include the sale of personal property no longer needed for public use as part of specifications to offset the price of a new purchase.

Such designations shall be made prior to any advertisement for bids, if required. Once designated, the advertisement for bids, if necessary, shall indicate that the contract to be awarded is a qualified small business enterprise set-aside contract, a qualified minority business enterprise set-aside contract or a qualified women's business enterprise set-aside contract, as appropriate. All advertisements for bids shall be published in at least one newspaper which will best provide notice thereof to qualified small business enterprises, qualified minority business enterprises or to qualified women's business enterprises, as appropriate, sufficiently in advance of the date fixed for receiving the bids to promote competitive bidding, but shall not be published less than 10 days prior to that date.

Where the governing body of a county or municipality determines that a business has been classified as a qualified small business enterprise, qualified minority business enterprise or qualified women's business enterprise on the basis of false information knowingly supplied by the business and has been awarded a contract to which it would not otherwise have been entitled under this act, the governing body shall have the authority to:

- a. Assess against the business any difference between the contract and what the governing body's cost would have been if the contract had not been awarded in accordance with the provisions of this act;
b. In addition to the amount due under subsection a., assess against the business a penalty in an amount of not more than 10% of the amount of the contract involved; and
c. Order the business ineligible to transact any business with the governing body or contracting agency of the governing body for a period to be determined by the governing body.

All construction contract documents entered into in accordance with the provisions of P.L.1971, c.198 (C.40A:11-1 et seq.) after the effective date of P.L.1997, c.371 (C.40A:11-50) shall provide that disputes arising under the contract shall be submitted to a process of resolution pursuant to alternative dispute resolution practices, such as mediation, binding arbitration or non-binding arbitration pursuant to industry standards, prior to being submitted to a court for adjudication.

Notwithstanding industry rules or any provision of law to the contrary, whenever a dispute concerns more than one contract, such as when a dispute in a contract involving construction

relates to a contract involving design, architecture, engineering or management, upon the demand of a contracting party, other interested parties to the dispute shall be joined unless the arbitrator or person appointed to resolve the dispute determines that such joinder is inappropriate.

For the purposes of this section, the term "construction contract" means a contract involving construction, or a contract related thereto concerning architecture, engineering or construction management.

L.1997, c. 371.

40A:11-51. Limitations on awarding public contracts to entities that made political contributions; authority of local units, nonpreemption by State law

a. A county, municipality, independent authority, board of education, or fire district is hereby authorized to establish by ordinance, resolution or regulation, as may be appropriate, measures limiting the awarding of public contracts therefrom to business entities that have made a contribution pursuant to P.L.1973, c.83 (C.19:44A-1 et seq.) and limiting the contributions that the holders of a contract can make during the term of a contract, notwithstanding the provisions and parameters of sections 1 through 12 of P.L.2004, c.19 (C.19:44A-20.2 et al.) and section 22 of P.L.1973, c.83 (C.19:44A-22).

b. The provisions of P.L.2004, c.19 shall not be construed to supersede or preempt any ordinance, resolution or regulation of a unit of local government that limits political contributions by business entities performing or seeking to perform government contracts.

c. An ordinance, resolution or regulation adopted or promulgated as provided in this section shall be filed with the Secretary of State.

(No Changes; 1-29)

(30) "Purchasing agent" means the individual duly assigned the authority, responsibility, and accountability for the purchasing activity of the contracting unit, and who has such duties as are defined by an authority appropriate to the form and structure of the contracting unit, pursuant to P.L.1971, c.198 (C.40A:11-1 et seq.) and who possesses a qualified purchasing agent certificate.

(No Changes; 31-40)

(41) "Qualified purchasing agent certificate" means a certificate granted by the director pursuant to section 9 of P.L.1971, c.198 (C.40A:11-9).

40A:11-3. Bid threshold; period of contracts

c. The Governor, in consultation with the Department of the Treasury, shall, no later than March 1 of every fifth year beginning in the fifth year after the year in which P.L.1999, c.440 takes effect, adjust the threshold amount, in direct proportion to the rise or fall of the index rate as that term is defined in section 2 of P.L.1971, c.198 (C.40A:11-2), and shall round the adjustment to the nearest \$1,000.

40A:11-9. Purchasing agent, department or board; establishment; powers; criteria for authorization; "green product" defined

a. The governing body of any contracting unit may by ordinance, in the case of a municipality, by ordinance or resolution, as the case may be, in the case of a county, or by resolution in all other cases, designate an individual to serve as the contracting unit's purchasing agent.

b. The Director of the Division of Local Government Services, after consultation with the Commissioner of Education, shall establish criteria to qualify individuals who have completed appropriate training and possess such purchasing experience as deemed necessary to serve as a purchasing agent, and when determined to be necessary by the director, have passed an examination administered by the director pursuant to this section.

(7) has successfully passed a State examination for a qualified purchasing agent certificate. The director shall hold examinations semi-annually or at such times as the director may deem appropriate. An individual shall be eligible to take the State examination for a qualified purchasing agent without having taken the courses required pursuant to paragraph (5) of this subsection if the individual has been certified by the division as a certified municipal finance officer, a certified county finance officer, or a certified county purchasing officer.

f. Those persons who have been performing the duties of a purchasing agent for a contracting unit pursuant to P.L.1971, c.198 (C.40A:11-1 et seq.) or school board pursuant to P.L.1977, c.114 (C.18A:18A-1 et seq.) for at least three continuous years, prior to the first day of the sixth month following the promulgation of rules and regulations to effectuate the purposes of P.L.2009, c.166 (C.40A:11-1 et seq.) and did not possess a qualified purchasing agent certificate at that time, may take the State qualifying examination, if not otherwise exempt under subsection e. of this section, without the courses required in subsection b. of this section.

The director shall issue a qualified purchasing agent certificate to an individual who passes the examination upon payment to the director of a fee of \$25 which shall be payable to the State Treasurer.

g. Following the appointment of a purchasing agent for a contracting unit pursuant to subsection a. of this section, if the person appointed no longer performs such duties, the governing body or chief executive officer, as appropriate to the form of government, may appoint, for a period not to exceed one year commencing from the date of the vacancy, a person who does not possess a qualified purchasing agent certificate to serve as a temporary purchasing agent. Any person so appointed may, with the approval of the director, be reappointed as a temporary purchasing agent for a maximum of one additional year following the end of the first temporary appointment. No contracting unit shall employ a temporary purchasing agent for more than two consecutive years.

c. The criteria established by the director to authorize purchasing agents, pursuant to subsection b. of this section, shall include, but are not limited to, completion of a course in green product purchasing, as established by the director pursuant to regulation. Any person qualified pursuant to subsection b. of this section prior to the establishment of the course in green product purchasing, shall in order to continue to be qualified, take and successfully complete the course within four years from the date the course is established. For the purposes of this subsection and section 2 of P.L.2007, c.332 (C.40A:11-9.1), "green product" means any commodity or service that has a lesser or reduced negative effect on human health and the environment when compared with competing commodities or services. Items considered in this comparison may include, but are not limited to: raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, disposal, energy efficiency, recycled content resource use, transportation, and durability.

h. The director may revoke or suspend a qualified purchasing agent certificate for dishonest practices or willful or intentional failure, neglect or refusal to comply with the laws relating to procurement, or for other good cause. The governing body, together with the chief executive officer of any contracting unit, or a board of education, may request the director to review the behavior or practices of a person holding a qualified purchasing agent certificate. Prior to taking any adverse action against a person, the director or the director's designee shall convene a hearing, upon due notice, affording the person an opportunity to be heard. If the qualified purchasing agent certificate held by a person serving as a purchasing agent is revoked, the director shall order that person to no longer perform the duties of purchasing agent, and the person shall not be eligible to serve as a purchasing agent or to make application for recertification for a period of five years from the date of revocation.

d. (1) Renewal of the qualified purchasing agent certification shall be required every three years, subject to the applicant's fulfillment of continuing education requirements, the submission of an application for renewal, and the payment of a renewal fee, all as determined by the director.

i. The director may adopt and promulgate rules and regulations to effectuate the purposes of this act. Notwithstanding any provision of P.L.1968, c.410 (C.52:14B-1 et seq.) to the contrary, any such regulations shall be effective immediately upon filing with the Office of Administrative Law and shall be effective for a period not to exceed 365 days and may thereafter be amended, adopted or readopted by the director in accordance with the requirements of P.L.1968, c.410. In order to better manage the workload of implementing the provisions of this act, the director may establish a transition process for administering an examination for individuals serving as purchasing agents on the effective date of this act, issuing and renewing qualified purchasing agent certificates to eligible individuals, prescribing a schedule by which such certificates will be issued and renewed, and such other matters as the director determines to be necessary to the implementation of this act.

(2) In the event that an individual holding a qualified purchasing agent certificate allows the certificate to lapse by failing to renew the certificate, the individual shall be required to apply to take the qualifying examination required pursuant to subsection b. of this section and pay a fee as determined by the director, except that when an individual applies within six months of the expiration of the certificate, the application may be made in the same manner as renewal.

e. (1) An individual who obtained a qualified purchasing agent certificate prior to enactment of P.L.2009, c.166 (C.40A:11-1 et seq.) shall be exempt from taking the State qualifying examination, but shall adhere to all requirements for renewal pursuant to subsection d. of this section. If such a qualified purchasing agent certificate expires due to the failure of the holder to renew the certificate as prescribed in subsection d. of this section, that individual shall be required to pass the qualifying examination as provided pursuant to subsection b. of this section in order to be issued a new qualified purchasing agent certificate.

40A:11-9(a). Current purchasing agent, lower bid threshold

An individual who is the duly authorized purchasing agent of a contracting unit and does not possess a qualified purchasing agent certificate on the date of enactment of P.L.2009, c.166 may continue to be referred to as the purchasing agent, but the bid threshold for that contracting unit shall be set at \$17,500 until such time as that individual obtains a qualified purchasing agent certificate. A contracting unit exercising this authority shall file a letter to this effect with the director.

## Contracting for Renewable Energy Services P.L. 2008, c. 83

The recently enacted P.L. 2008, c. 83 amended provisions of the Local Public Contracts Law, the Public School Contracts Law, and the County College Contracts Law. The amendments grant those contracting units improved procedures to contract: 1) for energy improvements to public facilities (commonly known as "ESCO" contracts); and, 2) for installation of renewable energy programs owned by third parties (renewable); both changes permit contracts for up to 15 years.

The laws also require that whenever either of the projects are executed through a lease, the lease agreement must contain a clause making them subject to the availability and appropriation annually of sufficient funds as may be required to meet the extended obligation, or contain an annual cancellation clause.

Chapter 83 makes similar amendments to the three laws, and in the case of the Local Public and Public School Contracts Laws, permits the use of competitive contracting to enter into the contracts. The changes are as follows:

First, even with the adoption and immediate effective date of the law, **its provisions do not allow immediate action** by any of the covered contracting units. For both ESCO and renewable contracting, the law requires the Board of Public Utilities to promulgate guidelines to implement methodologies for computing the energy savings and generation costs.

Second, the revised the use of ESCO contracts for making energy improvements to public facilities that are paid for by energy savings. The law now permits the process to be used for "energy efficiency equipment or demand response equipment, including combined heat and power facilities."

From the time the proposal was passed by the Legislature and then enacted by the Governor, discussions with the Board of Public Utilities, the Governor's Office, and the Division of Local Government Services considered how the goals of the legislation would best be implemented and the benefits made available to contracting units.

At this time, the following actions are being taken:

1. The Board of Public Utilities is being asked to expedite the promulgation of guidelines that will implement the provisions of authorizing 15 year contracts for the installation of renewable energy production facilities. Commonly known as "power purchase agreements," it is expected that these guidelines will take 2-3 months to authorize. **Until that time contracting units cannot use the provisions of the new law.** It is also anticipated that by the time the Board promulgates guidelines additional information on contracting for these services will be provided by State agencies.
2. It is expected that the Legislature will soon consider legislation to reform ESCO related laws. The changes should provide an improved process for all contracting units to take advantage of the principle of implementing energy conservation measures and paying for them with the savings from reduced energy use permitted by the improvements. It is hoped that these changes will be made by early next year. If this effort is not successful, regulatory action will be taken to clarify the types of projects that are eligible under the law.

### **Contracting for Renewable Energy Services, Energy Audits and BPU Grants**

With the adoption of these laws and increasing interest in renewable energy, many contracting units are approaching, or may be approached by vendors offering their services to install solar panels or other improvements "at no cost" to the contracting unit. **Contracting officials should know that there is no circumstance under which these contracts can be entered into without a competitive process: competitive contracting or formal public bidding.** The Local Public and Public Schools Contracts Laws already allow competitive contracting for these services.

Officials should also be aware that when it comes to contracting for solar panels under power purchase agreements, there are a myriad of different circumstances, minimum standards, and pricing options that must be considered, as well the use of federal tax credits. Federal tax credits cannot be used by a government agency, but a private company granted a concession to install solar on a government facility, can use them to lower the cost of the installation below the cost that could be obtained if the government pays for the improvement by itself.

Other issues include the fact that the installation of solar panels by the government directly or through a vendor is considered a "public works activity" under state law, and thus requires prevailing wages and other public works related requirements to be followed for their installation. In many cases, the economics of installations may limit their use to facilities that can generate a minimum amount of energy.

Many local units want to implement energy savings practices. In most cases, the most prudent first step will be to conduct an energy audit to identify areas where and how energy can be saved. The BPU recently announced the Local Government Energy Audit Program a financial incentive program to encourage local units to conduct energy audits, including the use of a recently issued State contract for firms to conduct the audits.

Notwithstanding the BPU Local Government Energy Audit Program, local units should be aware that hiring energy audit firms requires competition. Energy audits do not fall under the professional services exception for bidding. Though they may be used, the performance of an energy audit does not require the use of a licensed engineer, architect or other professional that meets the definition of a professional service.

Energy auditing requires individuals with experience and knowledge of energy management, conservation, technology, and economics and, while an engineering license may be useful, the subject does not require the type of skills authorized as a professional service. Thus, while some of these individuals may be qualified by experience and training to conduct audits, energy audit contracts are not exempt from public bidding laws.

**Recognizing that experience and expertise counts in contracting for energy audits, the Division is authorizing Competitive Contracting as a way to contract for energy audits under the Local Public Contracts Law and the Public School Contracts Law.** Contracting agencies may want to review the State contract for energy audits as a starting point for audits conducted outside of the BPU program.

Consideration of energy conservation contracts must be thoughtful and deliberate. Entering into contracts under unwarranted pressure or an unnecessarily heightened sense of urgency may result in unanticipated long-term costs or unfavorable cost contracts. Over the next few months, local units will see additional initiatives from State government that will recognize and enhance the use of new contracting models and provide the necessary guidance to ensure contract integrity, reduced energy use, and cost savings that accrue from those actions.

Recipients of this Notice are asked to share it with appropriate local officials.

**P.L. 2008, c. 83****Changes to the Text of the Laws**

The Chapter Law made identical statutory changes to the Public School Contracts Law, the County College Contracts Law, and the Local Public Contracts Law. Existing sections relating to energy contracting were amended, and a new subsection for renewables was added. All three laws were also amended to add those sections to existing requirements for leasing at the end of each section.

The new sections read as follow:

N.J.S.A. 18A:18A-42(j); 18A:64A-25.28(i); and 40A:11-15(12):

The provision or performance of goods or services for the purpose of conserving energy through energy efficiency equipment or demand response equipment, including combined heat and power facilities, in, at, or adjacent to, buildings owned by any local board of education, the entire price of which shall be established as a percentage of the resultant savings in energy costs, for a term not to exceed 15 years; except that these contracts shall be entered into only subject to and in accordance with guidelines promulgated by the Board of Public Utilities establishing a methodology for computing energy cost savings. As used in this subsection, "combined heat and power facilities" means facilities designed to produce both heat and electricity from a single heat source;

The following sub-paragraph was added as 18A:18A-42(o); 18A:64A-25.28(q); and 40A:11-15(45)

The provision or performance of goods or services for the purpose of producing class I renewable energy {for LPCL only: "and class II renewable energy"}, as that term is defined in section 3 of P.L.1999, c.23 (C.48:3-51), at, or adjacent to, buildings owned by any local board of education, the entire price of which is to be established as a percentage of the resultant savings in energy costs, for a term not to exceed 15 years; provided, however, that these contracts shall be entered into only subject to and in accordance with guidelines promulgated by the Board of Public Utilities establishing a methodology for computing energy cost savings and energy generation costs.

ANALYSIS FOR THE 2009 -2012: GUIDELINES FOR )  
CALCULATING ENERGY SAVINGS )

ORDER

DOCKET NO. EO09020128

(SERVICE LIST ATTACHED)

BY THE BOARD:

*Background and Procedural History*

P.L. 2008, Chapter 83, enacted on September 10, 2008, amends N.J.S.A. 18A:18A-42; 18A:64A-25.28 and 40A:11-15. (the Legislation) to allow local boards of education, county colleges and local government entities to enter into contracts for a term not to exceed 15 years for the provision of energy conservation and renewable energy. The Legislation mandates that "these contracts shall be entered into only subject to and in accordance with guidelines promulgated by the Board of Public Utilities establishing a methodology for computing energy cost savings. In this Order the Board will consider proposed guidelines required by the Legislation.

*Proposed Guidelines*

Several standard cost benefits tests have been used historically in both New Jersey and by many other states across the country. The tests that have become standard practice across the country are set out in the *California Standard Practice Manual, Economic Analysis of Demand Side Programs and Projects*. These tests include the Participant Cost Test which assesses the costs and benefits of energy efficiency and renewable energy projects from the perspective of the customer.

By Order dated January 18, 2008, Docket No. EO07120961, the Board approved Protocols to Measure Energy Savings (the Protocols). The Protocols estimate energy savings in units of energy such as kilowatt hours or therms. The intent of the guidelines under discussion herein is

to monetize the estimated energy savings or renewable energy generation and to compare the savings in dollars to the costs.

The Participant Cost Test compares the net cost to a customer, including capital costs, financing costs and ongoing operation and maintenance (O&M) costs, less any rebates, tax credits or other incentives, to the savings realized from installation of the measures including the cost of avoided purchases of electricity and natural gas and O&M savings. A result greater than 1.0 demonstrates that the savings exceed the costs.

The Legislation allows school boards, county colleges and local government entities to enter into long-term contracts for the purchase of energy efficiency or renewable energy services. The Participant Cost Test will provide school boards with the information needed to make informed decisions regarding the benefits of proposed energy efficiency and renewable energy projects and will provide a basis for comparing competing proposals.

Subsequent to the enactment of the Legislation, the Office of Clean Energy (OCE) engaged Rutgers University Center for Energy, Economic and Environmental Policy (CEEPP) to develop draft guidelines for computing energy cost savings for energy efficiency and renewable energy systems. CEEPP proposed that the Participant Cost Test be used to determine the cost-effectiveness of energy efficiency projects. The Participant Cost Test estimates both the participant's costs and benefits to determine the overall cost-effectiveness of the project. The general form of the equation is:

**Participant Net Benefit = Total Participant Benefits – Participant Costs**

The proposed guidelines included algorithms for calculating energy savings incorporating the concepts set out above and recommend standard values for certain inputs.

The proposed guideline for renewable energy projects is based on algorithms that determine the energy cost savings from a negotiated power purchase agreement. Calculating the relative difference in rates and multiplying by the total renewable energy purchased will show the resulting savings. Input is based on fixed assumptions and data supplied from the renewable energy contract application form.

At the January 21, 2009 Energy Efficiency (EE) Committee meeting OCE alerted meeting participants that it would be circulating draft guidelines for comment. On January 23, 2009, the OCE circulated draft guidelines prepared by CEEPP to the Clean Energy Council<sup>1</sup> and the EE and Renewable Energy (RE) committees and requested comments on the proposal. CEEPP also requested comment on a number of cost benefit input values.

#### *Summary of Comments*

The only comments submitted were from Nautilus Solar Energy (Nautilus). Nautilus recommended adding language that would exempt PPA's from the statutory requirement that multiyear contracts include a clause making such contracts subject to the availability and appropriation annually of sufficient funds. Nautilus recommended that the term participant be clarified to mean the utility ratepayer; that the language be clarified to confirm that the Participant Cost Test includes tax incentives; and that for renewable energy contracts that the calculation should not include any discount rate with respect to savings.

---

<sup>1</sup> The Clean Energy Council is open to any member of the public and functions as a public stakeholder group.

Response: The Board has no authority to exempt PPA's from the statutory requirement that multiyear contracts include a clause making such contracts subject to the availability and appropriation annually of sufficient funds. The proposed guidelines have been modified to clarify that the participant is the utility ratepayer and that the Participant Cost Test includes tax incentives.

The OCE disagrees with the recommendation that for renewable energy contracts the calculation should not include any discount rate with respect to savings. Renewable energy contracts could include payment streams where prices exceed alternative costs in some years and are lower than alternative costs in other years. In these situations it is necessary to discount the savings to determine if the contract produces overall savings over its term.

Subsequent to the receipt of comments and further discussions with the OCE, CEEEP submitted revised proposed guidelines that incorporated the clarifications discussed above. OCE has reviewed the revised proposed guidelines for calculating energy cost savings and believes they represent a reasonable approach to meeting the requirements of the legislation and will allow for public school, county colleges and local government entities to develop energy efficiency and renewable energy projects as anticipated by the Legislation.

OCE has also reviewed the input values proposed by CEEEP. Some input values, such as the estimated annual increase in electric or natural gas prices, use established, well known forecasts prepared by the US Department of Energy, Energy Information Administration (EIA) which are published on the EIA website. Others, such as the appropriate discount rate, were recommended by CEEEP utilizing its best judgment. OCE notes that although comments were requested regarding specific input values, no comments were received regarding the input values. OCE has reviewed the proposed input values and believes they are reasonable. Based on the above, OCE recommends approval of the guidelines for calculating energy cost savings.

### *Discussion and Findings*

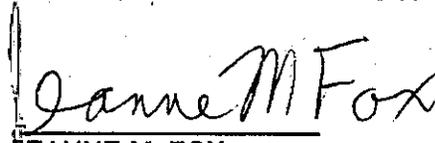

Public schools, county colleges and local government entities face significant obstacles to developing energy efficiency and renewable energy projects, primarily difficulty in obtaining the upfront capital needed to finance such projects. The Board supports the goal of this Legislation of increasing opportunities for public schools, county colleges and local government entities to participate in energy efficiency and renewable energy by allowing schools to enter into long term contracts for the purchase of energy efficiency and renewable energy, thereby foregoing the need to raise the upfront capital. The proposed guidelines are intended to allow public schools, county colleges and local government entities to proceed to enter into long term contracts for energy efficiency and renewable energy while ensuring that the contracts result in energy cost savings to the schools.

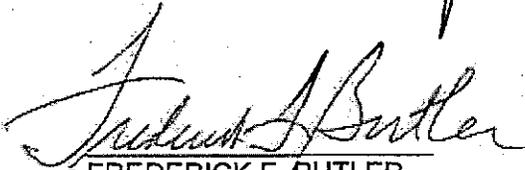

As noted above by the OCE, the Participant Cost Test proposed by CEEEP has been utilized in New Jersey and other states in the past and is included in the *California Standard Practice Manual, Economic Analysis of Demand Side Programs and Projects*. The test is a straightforward assessment of the costs and benefits of proposed energy efficiency and renewable energy projects that will provide school boards, county colleges and local government entities with the information needed to make informed decisions regarding the benefits of proposed energy efficiency and renewable energy projects and will provide a basis for comparing competing proposals. The Board has also reviewed the input values proposed by CEEEP and concurs with the OCE that they are reasonable as discussed above.

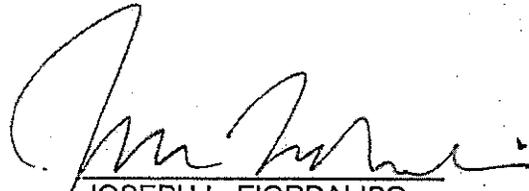

Therefore, the Board **HEREBY APPROVES** the proposed guidelines entitled *Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines* appended to this Order and directs the OCE to work with CEEEP to develop a workbook that will be posted on the Board's website and made available to school boards, county colleges and local government entities to assist them with complying with the requirements of the Legislation.

# Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines

February 20, 2009

## Protocols

The New Jersey State Legislature passed Assembly Bill No. 844 which allows certain local public entities to enter into contracts of up to 15 years for energy conservation or provisions of renewable energy production at buildings owned by such entities. As part of Bill No. 844 the Board of Public Utilities was tasked with establishing a methodology for computing energy cost savings and energy generation costs for these projects.<sup>1</sup>

## Energy Efficiency Contracts (If the Public Entity invests capital)

### Protocols

The Participant Cost Test will be used to determine the cost-effectiveness of energy efficiency projects where the entity invests their own capital on the project.<sup>2</sup> The Participant Cost Test includes both the participant's costs and benefits to determine the overall cost-effectiveness of the project. The general form of the equation is:

$$\text{Participant Net Benefit} = \text{Total Participant Benefits} - \text{Participant Costs}$$

To determine participant benefits, the net present value of the incentives paid to the participant, tax credits, the yearly electricity bill reductions, and the yearly natural gas bill reductions are summed.<sup>3</sup> The yearly electricity bill reductions and yearly natural gas bill reductions are dependent on the annual savings from each component and the retail price projection for each component. Annual savings are dependent on the energy efficiency measure being installed. These savings can be calculated using the equations in this document using the measure's specific equation. Retail price projections are variable and dependent on the specific customer and the utility that services them.

To determine participant costs, the net present value of the capital incremental costs and yearly incremental costs are summed. Capital and yearly incremental costs are dependent on the measure.

The Participant Cost Test is the measure of the quantifiable benefits and costs to the customer attributed to participation in a program.<sup>4</sup> The benefits to the participant are

<sup>1</sup> NJ State Legislature (2008). Assembly Bill No. 844.

<sup>2</sup> Note: The participant is from the perspective of the utility ratepayer.

<sup>3</sup> Net present value is defined as the total present value of a time series of cash flows. It is the standard method for using the time value of money to appraise long term projects.

<sup>4</sup> All cost test definitions are from *California Standard Practice Manual*, Economic Analysis of Demand-Side Programs and Projects, October 2001.

equal to the sum of any participant incentives paid, any reductions in bills, and any federal or state tax deductions or credits. Participant costs include any out-of-pocket costs associated with the program.

<sup>6</sup> Note: Depending on the negotiated contract, the Tax Credits and/or Incentives may be paid to the ESCo or the public entity. The Participant Cost Test takes the point of view of the public entity, so Tax Credits and Incentives may not be included in the calculation.

### Energy Efficiency Contracts (If the Public Entity does not invest capital)

#### Protocols

The measurement plan for energy efficiency contracts where the entity does not invest their own capital is based on the algorithms that determine the energy cost savings from a negotiated power purchase agreement energy efficiency contract. Savings are calculated by calculating the relative difference in rates and multiplying by the total amount of energy purchased through the power purchase agreement. Input is based on fixed assumptions and data supplied from the renewable energy contract application form.

#### Algorithms

$$\text{Energy Cost Savings (\$)} = (\text{Rate}_{\text{cu}} - \text{Rate}_{\text{ppa}}) * \text{Elec}_{\text{ppa}}$$

#### Definition of Terms

<sup>7</sup> Retail natural gas and electricity rates are either the utility tariff rate if the commodity is supplied by the utility or a negotiated contract rate if the customer is served by a third party supplier. Retail rates will be escalated at the commodity's escalation rate.

## Contracting for Renewable Energy Services: Update on Power Purchase Agreements

Since Local Finance Notice 2008-20 was issued in December of 2008, there have been several changes regarding the contracting for renewable energy through power purchase agreements (PPA). One of the important actions is the release of the Board of Public Utilities (BPU) Guidelines for Public Entity Energy Efficiency & Renewable Energy Cost Savings Guidelines.

This Notice covers the newly released BPU Power Purchase Guidelines, PPA procurement procedures, a review of issues that must be addressed in preparing renewable energy RFPs, and issues specifically related to boards of education and PPAs.

### Power Purchase Agreements Generally

P.L. 2008, c.83 made amendments to the length of contracts sections of the Local Public Contracts Law (LPCL), the Public School Contracts Law (PSCL), and the County College Contracts Law by providing the following length of contracts provisions:

The provision or performance of goods or services for the purpose of producing class I renewable energy, as that term is defined in section 3 of P.L.1999, c.23 (C.48:3-51), at, or adjacent to, buildings owned by any *<type of contracting unit>*, the entire price of which is to be established as a percentage of the resultant savings in energy costs, for a term not to exceed 15 years; provided, however, that these contracts shall be entered into only subject to and in accordance with guidelines promulgated by the Board of Public Utilities establishing a methodology for computing energy cost savings and energy generation costs.

This section authorizes contracts of up to 15 years with private vendors for "power purchase agreements." These are programs where the contracting unit procures a contract for, in most cases, a private vendor to install, maintain, and own solar panels, in exchange for the contracting unit purchasing the power generated by the solar panels at agreed upon formula driven rates. The same principle can be applied to other Class I renewable energy sources, such as windmills, geothermal systems, and similar renewable power sources.

This provision does not apply when a contracting unit authorizes debt or uses other capital resources to directly procure the renewable system that it will own outright. In those cases, the contracting unit's procurement law will dictate procurement and financing policies.

Government agencies fall under the incentive programs of the BPU's Clean Energy Commercial/Industrial Program, that may also provide other incentives that can result in lower costs or improved energy efficiency. All local initiatives to use renewable energy or improve energy efficiency should carefully review and evaluate options available under the program.

### **BPU Power Purchase Guidelines**

The law also requires that PPA contracts are subject to "guidelines promulgated by the Board of Public Utilities establishing a methodology for computing energy cost savings and energy generation costs." Adopted on February 27, 2009 (and subject to periodic modification), the Board Order and Guidelines for Public Entity Energy Efficiency & Renewable Energy Cost Savings Guidelines are posted online and included with the distribution of this Notice. The Guidelines include a document and an Excel worksheet to assist in the calculations. The technical nature of the material warrants review and implementation by individuals familiar with energy savings calculations.

To further assist local units, the Board and Division of Local Government Services are developing model documents that can be used as a Request for Proposals and a summary of elements to be considered in a RFP. Copies of presentations from recent seminars are also online on the Office of Clean Energy website.

### **Power Purchase Agreement Contracting Procedures**

For many years, the LPCL and PSCL provided that power purchase type agreements were entered into through competitive contracting, although authorized under what became obsolete language authorizing energy savings contracts.

The recent adoption of P.L. 2009, c.4, Energy Savings Improvement Programs (ESIP), in addition to reforming the way energy contracts that "pay for themselves" (See Local Finance Notice 2009-11), repealed the obsolete LPCL and PSCL language noted above. In doing so, the ESIP law unintentionally eliminated the basis for competitive contracting for power purchase agreements.

Pursuant to the competitive contracting laws under the LPCL [N.J.S.A. 40A:11-4.1(k)] and PSCL [N.J.S.A. 18A:18A-4.1(k)], the Director of the Division of Local Government Services is authorized to allow competitive contracting for "the operation, management or administration of other services." The contracting laws also allow concessions to be awarded through the competitive contracting process (subsection j of those sections). Power Purchase Agreements can be considered as service contracts or as a concession: a private contractor using the contracting unit's facilities – the roof – to place its panels, provides a benefit to the local unit (reduced electricity rates), and provides private gain to the contractor.

**Given the nature of power purchase agreements, the Director is authorizing contracts that meet the following definition to be procured and entered into pursuant to competitive contracting (subsections j or k as appropriate) pursuant to the LPCL and PSCL:**

The provision or performance of goods or services for the purpose of producing class I renewable energy, as that term is defined in section 3 of P.L.1999, c.23 (C.48:3-51), at, or adjacent to, buildings owned by any < type of contracting unit >, **the entire price of which is to**

**be established as a percentage of the resultant savings in energy costs;** provided, however, that these contracts shall be entered into only subject to and in accordance with guidelines promulgated by the Board of Public Utilities establishing a methodology for computing energy cost savings and energy generation costs. [emphasis added]

This language replicates the statutory authorization for 15 year renewable energy contracts.

Contracting units shall comply with the competitive contracting process. That process requires that contracts be based on firm proposals submitted by vendors, with an evaluation process guiding the contracting unit's determination of the proposal that is "most advantageous, price and other factors considered." The competitive contracting process does not permit contracts to be negotiated.

Contracting officials and industry vendors may not be familiar with competitive contracting and therefore contracting officials should carefully review the relevant statutes (N.J.S.A. 40A:11-4.1 through 4.5 and N.J.S.A. 18A:18A-4.1 through 4.5) and regulations (N.J.A.C. 5:34-4.1 et seq.) as appropriate to their organization. The nature of PPAs also warrants including an engineer or architect familiar with renewable energy systems in the planning process.

In considering the criteria to evaluate PPA vendor proposals, the following examples may be useful, given individual circumstances and RFP requirements:

- The structure and financial terms of the Power Purchase Agreement and responsiveness to RFP financial requirements or considerations
- History and financial strength of the design/installation firm
- History and financial strength of the financial/Power Purchase Agreement provider firm
- Experience of the design/installation firm in completing similar projects
- Experience of the financial/Power Purchase Agreement provider firm in completing similar projects
- Knowledge of New Jersey regulations for permitting and construction of renewable energy projects
- Knowledge of New Jersey renewable energy programs, requirements, regulations, and financial incentives
- Clarity and conciseness of the submittal
- Responsiveness and understanding of the scope of work, management of site conditions

Renewable energy industry vendors must recognize that renewable energy projects fall under State public works contracting laws, i.e., prevailing wages and Public Works Contractor Registration laws, among others. In addition, as these systems connect to building power systems or the electric grid, laws and regulations concerning electrical contractors also apply. Subcontractors may also fall under these requirements. RFP documents should make it clear that public works contracting laws and rules apply to the work and that contractors are responsible for complying with the appropriate construction trade practices and laws.

### **Renewable Energy Contract Variables**

Officials should also be aware that when it comes to contracting for renewable energy systems (i.e., solar panels, windmills) through power purchase agreements, there are different circumstances, building and environmental conditions, and pricing options that must be considered.

Depending on the specific project, pricing options may be affected by federal tax credits and five-year accelerated depreciation provisions that are available to private businesses. A private company granted a concession to install solar on a government facility can use them to lower the cost of the installation below the cost that could be obtained if the government paid for the improvement itself. In some cases, a PPA vendor may be a company that specializes in financing renewable installations who subcontracts the physical installation work to another company.

Further, BPU authorized Renewable Energy Credits (REC) and Solar Renewable Energy Credits (S-REC) are financial instruments that may be available and can be sold to offset energy or construction costs.

**Other considerations that may be part of a renewable energy power purchase agreement include:**

- Sale of the renewable energy generator (i.e., solar panels) at fair market value or removal of the equipment
- Calculation of the price for energy and its basis for escalation
- Maintenance of and any repair of the facility
- Termination and removal provisions (including potential abandonment or sale of property)
- Assignment of or change in vendor, including but not limited to considerations for system resale prior to start-up
- Security and personnel (especially for school projects)
- Insurance (who covers fires, or other unanticipated circumstances)

There are also a variety of technical issues to be considered on a site-by-site basis that can affect the cost (and ultimately the rates) of the work.

- Utility interface, metering, and power quality reliability
- Existing capability of the facility's power system and any upgrades that may be necessary, including meeting current electrical code compliance
- Roof conditions, warranties, and repairs and renovations

Of critical importance is the condition of a roof when a PPA involves the placement of solar panels on a contracting unit's roofs. Current and future roofing conditions must be taken into account when planning a solar project. Analysis of structural integrity, condition of roofing material, and impact of any existing roofing warranties must be investigated prior to issuing a PPA RFP and impact results reflected in, or provided as part of the RFP process. For example, a RFP may require the PPA contractor be held responsible for ensuring that any existing roof warranty is not violated by the construction. Some roofs may need to be replaced prior to installation of solar panels. Projects may also require an engineering certification on roof loadings and roof warranty.

In many cases, roof repairs or renovations are needed prior to the installation of solar panels. In some cases, a PPA may include roof improvements. For example, an RFP response may require the contractor perform roof repairs or maintenance to support the addition of solar panels. This requires that those costs must be built in to the cost of electricity paid to the contractor.

In this case, the PPA works only when the roofing related costs result in pricing to the local unit that does not exceed what the projected cost of energy otherwise available from the grid. If the cost of PPA

power, including any roof work exceeds the projected grid rate (i.e., no savings in electricity cost), the roof work must be performed separately from the PPA under normal public works contracting procedures. The competitive contracting process for PPAs **does not** provide a mechanism to avoid public works contracting requirements or to build long term roof renovation or replacement costs into the cost of electricity so that the cost of energy exceeds what would otherwise be available from the local utility company.

To summarize, a PPA may include roof improvements only when the projected cost of the energy otherwise available from the grid is not exceeded by the cost of the PPA power and any roof work. The BPU Guidelines for Public Entity Energy Efficiency & Renewable Energy Cost Savings Guidelines must be used to calculate energy savings.

To address these and other variables that can be part of a power purchase agreement, RFPs should be carefully researched by the local unit, and the RFP should encourage vendors to submit alternative proposals that can address the contracting unit's needs. Careful evaluation, including application of the BPU Guidelines, is critical to the success of the project.

### **Boards of Education and Power Purchase Agreements**

In addition to the foregoing issues, because of the oversight of school construction activities by the State Department of Education, the following additional conditions apply to schools entering into PPAs:

1. All plans for PPAs that affect a school building must be incorporated into the school's Long Range Facility Plan and the appropriate filing made with the Department of Education for approval.
2. PPA applications require an engineering certification on roof loadings and roof warranty filed with the application.
3. School debt service aid is not provided for a PPA. Solar panel projects are eligible for debt service aid if the school district purchases and installs the panel through an approved bond referendum.

Entering into a PPA for installation of solar panels on a roof does not trigger the requirement that a Board of Education obtain the approval of the Department of Education to "lease" or "rent" a school facility.

### **Conclusion and Additional Information**

Issues concerning contracting for energy related services are continuing to evolve and will pose challenges to contracting unit officials as the details of the new laws are finalized. The Division continues to partner with the Board of Public Utilities' Office of Clean Energy to work through the issues and provide guidance.

Questions concerning contracting issues can be e-mailed to [lpcl@dca.state.nj.us](mailto:lpcl@dca.state.nj.us). Information and answers to questions concerning BPU Commercial/Industrial programs are best answered through the Office of Clean Energy's contact website. In addition, the Board's Office of the Business Ombudsman may be of assistance.

**RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX  
GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND  
BONDS, SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY  
IMPROVEMENT AUTHORITY**

---

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

**WHEREAS**, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "*Act*"), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act,

constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the “*Shared Services Act*”), and all other applicable law, the terms of which agreement has been set forth in that certain “Service Agreement (Sussex County Renewable Energy Program)” dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the “*Service Agreement*”) between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority’s energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the “*Authority Consultants*”) and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the “*Sussex County Consultants*”, if any, and together with the Authority Consultants, the “*Consultants*”; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to Renewable Energy Projects involving solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the “*Local Unit Facilities*”);

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the “*Capital Improvement Projects*” and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the “*Projects*”), and to the extent no Capital Improvement

Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and
- (ii) Byram Township School District, Frankford Township's Consolidated Schools, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Board of Education, High Point Regional School District, Kittatinny Regional School District, Newton Board of Education (collectively, the "*Board of Education Series 2011 Local Units*"); and
- (iii) County, Sussex County Community College and Sussex County Technical School (the "*County Series 2011 Local Units*");

(each a "*Series 2011 Local Unit*", and, collectively, the "*Series 2011 Local Units*"), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)" dated their date of delivery (the "*Series 2011A Bonds*") the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the "*Series 2011A Bonds*"), and (ii) one series of notes in the aggregate principal amount of \$985,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)" (the "*Series 2011B Note*", and together with the Series 2011A Bonds, "*Series 2011 Bonds*"), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful

implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year's worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*");

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the "*Bonds*") shall be issued pursuant to the terms of that certain "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY" adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the "*Bond Resolution*"), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, pursuant to N.J.S.A. 40:37A-77 of the Act, N.J.S.A. 40A:65-4 of the Shared Services Act and other applicable law, upon or prior to the issuance of the Series 2011 Bonds, the Authority shall have entered into a "License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, each agreement shall constitute a "*Local Unit License Agreement*", and collectively, the "*Local Unit License Agreements*") with each Series 2011 Local Unit that would, among other things, provide the Authority and/or its assignees the right and obligation to (i) access the Local Unit Facilities of each such Series 2011 Local Unit, most particularly their roofs, parking area and/or grounds and electrical systems (the "*Local Unit License*"), (ii) finance, design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects on, in, affixed or adjacent to, or for the benefit of such Local Unit Facilities, (iii) receive the right to the renewable energy produced from the Renewable Energy Projects financed by the Series 2011 Bonds, and (iv) sell all or a portion of the renewable energy produced from such Renewable Energy Projects through the Authority to the respective Series 2011 Local Units, pursuant to an assignment (under each Local Unit License Agreement) from the Authority to the Series 2011 Local Units of the Power Purchase Agreement (as hereinafter defined), the terms of which Power Purchase Agreement could be entered into directly by the Series 2011 Local Units under N.J.S.A. 40A:11-15(45) of the Local Public Contracts Law (for the Municipal and County Series 2011 Local Units). under N.J.S.A. 18A:18A-42(o) of the Public Schools Contracts Law (for the Board of Education Series 2011 Local Units) and under N.J.S.A. 18A:64A-25.1 et seq. of the County College Contracts Law for the College Series 2011 Local Unit;

**WHEREAS**, the payment of the principal (including mandatory sinking fund installments, if any) of, and interest (at interest rates not to exceed the maximum rates set forth in the Local Finance Board Application) on the Series 2011 Bonds, but not any redemption premium, shall be fully, unconditionally and irrevocably guaranteed in accordance with (i) the terms of a guaranty ordinance of the County finally adopted by the Board of Freeholders on August 17, 2011, (ii) by a guaranty certificate to be executed by an authorized officer of the County within each Series 2011 Bond and (iii) that certain "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Guaranty Agreement*") by and between the County and the Authority, as acknowledged by the Company setting forth, among other things, the County's obligation to make any such guaranty payments in accordance with and within the parameters set forth in the guaranty ordinance and the Bond Resolution (collectively, the "*County Guaranty*"), all pursuant to Section 37 ("*Section 37*") of the Act (N.J.S.A. 40:37A-80);

**WHEREAS**, the holders of any Additional Bonds issued under the terms of the Bond Resolution, the Act and all other applicable law shall also be entitled to the pledge of the Trust Estate under the Bond Resolution on a pro-rata basis with the holders of any Outstanding Bonds as defined therein, including the Series 2011 Bonds, although the guaranty of the County shall only extend to any such Series of Additional Bonds to the extent (i) the aggregate principal amount of all such Series of Additional Bonds, when taken together with the aggregate principal amount of the Series 2011 Bonds, shall not exceed \$50,000,000, or (ii) the County adopts and executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County Security*") to be issued by a sufficiently rated banking or other financial institution, or if the County Security is provided by or on behalf of the Company, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for

the payment of the Series 2011 Bonds), the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the "*EPC Contractor*"), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated December 12, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*EPC Contract*") between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the "*In-Kind Equity Contribution*") until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y) the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic Lease Payment Date (the "*Cash Equity Contribution*") which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the In-Kind Equity Contribution, together with the Cash Equity Contribution shall be known as the "*Equity Contribution*"), (ii) a cash reserve in the amount of \$1,500,000 (the "*County Reserve*") to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution), which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

**WHEREAS**, should the County otherwise have insufficient sources of funds to make its Basic Lease Payments on time and in full, the Company shall have the ability to draw funds from the County Reserve in order to enable the Company to make its Basic Lease Payments;

**WHEREAS**, the Company as a potential "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12 ("*Rule 15c-12*") promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, shall be required to enter into that certain "Company Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*Company Continuing Disclosure Agreement*") with the Authority and the Trustee, as dissemination agent (the "*Dissemination Agent*") in order to satisfy the secondary market

**WHEREAS**, pursuant to the terms of the Bond Resolution and/or the Continuing Disclosure Agreements, the Authority shall (i) not be considered a “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12, and (ii) be required to provide certain material events notices in accordance with Rule 15c2-12, and accordingly, the Authority shall be required to provide such material events notices under the terms of the Company Continuing Disclosure Agreement and the County Continuing Disclosure Agreement, all in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application dated July 19, 2011 (the “*Local Finance Board Application*”) to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the “*Local Finance Board*”) in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall by negotiated sale publicly offer the Series 2011 Bonds, in which public offering case the Authority shall have authorized (i): the distribution of a preliminary official statement “deemed final” within the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the “*Preliminary Official Statement*”); and (ii) the execution and delivery of a bond purchase agreement (the “*Bond Purchase Agreement*”) with an underwriter to be selected by the Authority through a fair and open process (alternatively, the “*Underwriter*”) to purchase all of the Series 2011 Bonds, and (iii) delivery of a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the “*Official Statement*”, and together with the Preliminary Official Statement, and the Bond Purchase Agreement, and any of the same or other offering or sale documents that may be required by the County “*Sale Documents*”);

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 (“*Section 13*”) of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a

detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the "Sussex County Board of Freeholders") and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Documents, the County Documents, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the "*Program Documents*"), and which report and amended report shall be accepted by both the County and Morris County by resolution adopted by the Sussex County Board of Freeholders and the Morris County Board of Freeholders pursuant to Section 13.

(e) The remaining balance of the proceeds of the Series 2011 Bonds in the amount of \$25,500,000 (consisting of \$25,500,000 of the Series 2011A Bonds), shall be deposited in the Project Fund, (i) \$24,700,000 of which shall be deposited in the Project Account and applied to the payment of the Renewable Energy Projects for the balance of Renewable Energy Projects for the Series 2011 Local Units, (ii) none of which shall be applied to the payment of the Capital Improvement Projects for the Series 2011 Local Units and (iii) \$800,000 of which shall be applied to the payment of the Company Development Fees and Expenses, all in accordance with Section 5.02(2) hereof; provided that a Certificate of an Authorized Officer of the Company, as consented to by an Authorized Officer of the Authority, delivered to the Trustee may adjust the payment categories within the Project Fund set forth above.

(c) The fully executed and delivered Company Documents and County Documents, along with all of the Local Unit License Agreements.

#### **SECTION 2.04. Purposes, Authorization and Description of Additional Bonds.**

2. Any Series of Additional Bonds of the Authority shall be issued only after the authorization thereof by a Supplemental Resolution of the Authority duly adopted prior to the authentication and delivery of such Series of Additional Bonds. Such Supplemental Resolution shall state the purpose or purposes for which such Additional Bonds are being issued and shall direct the application of the proceeds that are to be derived from the sale of such Additional Bonds to such purpose or purposes and the execution and authentication thereof. Such Supplemental Resolution shall fix and determine the date, principal amounts, denominations, designation and numbers thereof, the rate or rates of interest or maximum rate of interest to be borne thereby, the place or places of payment therefor, the redemption privileges of the Authority, if any, with respect thereto, the amount and date of each Sinking Fund Installment, if any, for the retirement of any Bonds and any other provisions thereof, all in accordance with the

6. If Additional Bonds are issued that pay interest on dates different from the Interest Payment Dates of Bonds then Outstanding, there shall be no requirement that, on an Interest Payment Date of any Bond, the Trustee establish reserves for the benefit of the Holder of any other Bond on which interest is not then being paid unless provided herein or under the terms of any Supplemental Resolution.

## **SECTION 2.06. Book-Entry System.**

1. Except as provided in subparagraph (3) of this Section 2.06, the Registered Owner of all of the Series 2011 Bonds shall be, and the Series 2011 Bonds shall be registered in the name of, Cede & Co., as nominee for DTC. Payment of interest on any Series 2011 Bond shall be made by wire transfer to the account of Cede & Co. on the Interest Payment Dates for the Series 2011 Bonds at the address indicated for Cede & Co. in the registry books of the Authority kept by the Trustee.

2. The Series 2011 Bonds shall be issued initially in the form of a separate, single, fully-registered Bond in the amount of each stated maturity of the Series 2011 Bonds. Upon initial issuance, the ownership of each such Series 2011 Bond shall be registered in the registry books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC. With respect to Series 2011 Bonds registered in the registry books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC, the Authority and any Fiduciary shall have no responsibility or obligation to any participant or to any beneficial owner of such Series 2011 Bonds. Without limiting the immediately preceding sentence, the Authority and any Fiduciary shall have no responsibility or obligation with respect to (i) the accuracy of the records of DTC, Cede & Co. or any participant with respect to any beneficial ownership interest in the Series 2011 Bonds, (ii) the delivery to any participant, any beneficial owner or any other person, other than DTC, of any notice with respect to the Series 2011 Bonds, including any notice of redemption, or (iii) the payment to any participant, any beneficial owner or any other person, other than DTC, of any amount with respect to the principal or Redemption Price, if any, of or the interest on the Series 2011 Bonds. The Authority and any Fiduciary may treat DTC as, and deem DTC to be, the absolute Owner of each Series 2011 Bond for the purpose of payment of the principal or Redemption Price, if any, of and the interest on each such Series 2011 Bond, for the purpose of giving notices of redemption and other matters with respect to such Series 2011 Bonds, for the purpose of registering transfers with respect to such Series 2011 Bonds and for all other purposes whatsoever. The Paying Agent shall pay all principal or Redemption Price, if any, of and all interest on the Series 2011 Bonds only to or upon the order of DTC, and all such payments shall be valid and effective to satisfy and discharge fully the Authority's obligations with respect to the principal or Redemption Price, if any, of and the interest on the Series 2011 Bonds to the extent of the sum or sums so paid. No person other than DTC shall receive a Series 2011 Bond evidencing the obligation of the Authority to make payments of principal or Redemption Price, if any, of and interest on the Series 2011 Bonds pursuant to this Bond Resolution. Upon delivery by DTC to the Trustee of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede & Co., and subject to the transfer provisions hereof, the term "Cede & Co." in this Bond Resolution shall refer to such new nominee of DTC.

3. (a) DTC may determine to discontinue providing its services with respect to the Series 2011 Bonds at any time by giving written notice to the Authority and the Fiduciaries and discharging its responsibilities with respect thereto under applicable law.

(b) The Authority, in its sole discretion and without the consent of any other person, may terminate the services of DTC with respect to the Series 2011 Bonds if the Authority so determines, and shall terminate the services of DTC with respect to the Series 2011 Bonds upon receipt by the Authority and the Fiduciaries of written notice from DTC to the effect that DTC has received written notice from participants having interests, as shown in the records of DTC, in an aggregate principal amount of not less than fifty percent (50%) of the aggregate principal amount of the then Outstanding Series 2011 Bonds and further to the effect that: (i) DTC is unable to discharge its responsibilities with respect to the Series 2011 Bonds; or (ii) a continuation of the requirement that all of the Outstanding Series 2011 Bonds be registered in the registration books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC, is not in the best interests of the beneficial owners of the Series 2011 Bonds.

(c) Upon the termination of the services of DTC with respect to the Series 2011 Bonds pursuant to subsection 2.06(3)(b)(ii) hereof, or upon the discontinuance or termination of the services of DTC with respect to the Series 2011 Bonds pursuant to subsection 2.06(3)(a) or subsection 2.06(3)(b)(i) hereof, after which no substitute securities depository willing to undertake the functions of DTC hereunder can be found that, in the opinion of the Authority, is willing and able to undertake such functions upon reasonable and customary terms, the Series 2011 Bonds shall no longer be restricted to being registered in the registration books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC, but may be registered in whatever name or names Bondholders transferring or exchanging Series 2011 Bonds shall so designate, all in accordance with the provisions of Article II hereof.

4. Notwithstanding any other provision of this Bond Resolution to the contrary, so long as any Series 2011 Bond is registered in the name of Cede & Co., as nominee for DTC, all payments with respect to the principal or Redemption Price, if any, of and the interest on such Series 2011 Bond and all notices with respect thereto shall be made and given, respectively, to DTC as provided in the representation letter of the Authority addressed to DTC with respect to the Series 2011 Bonds.

5. In connection with any notice or other communication to be provided to Bondholders by the Authority or the Trustee pursuant to this Bond Resolution with respect to any consent or other action to be taken by Bondholders, the Authority or the Trustee, as the case may be, shall establish a record date for such consent or other action and shall give DTC notice of such record date not less than fifteen (15) calendar days in advance of such record date, to the extent possible.

### GENERAL TERMS AND PROVISIONS OF BONDS

#### SECTION 3.01. Medium of Payment; Form and Date; Letters and Numbers.

1. The Bonds shall be payable, with respect to principal, Redemption Price, if any, and interest, in any coin or currency of the United States of America that at the time of payment is legal tender for the payment of public and private debts.

2. The Bonds of each Series shall be issued only in the form of fully registered Bonds without coupons in denominations of \$5,000 or any integral multiple thereof. The Bonds of each Series shall be in substantially the form set forth in Section 14.01 hereof or substantially in the form set forth in a Supplemental Resolution authorizing such Series.

3. Each Bond shall be lettered and numbered as provided in this Bond Resolution or in a Supplemental Resolution providing for the issuance of the Series of which such Bond is a part and so as to be distinguished from every other Bond.

Bonds of each Series issued on the date of original issuance shall be dated and bear interest from the date set forth in this Bond Resolution or in a Supplemental Resolution authorizing such Series of Bonds. Bonds of each Series issued after the date of original issuance shall be dated as of the date of authentication thereof by the Trustee. Interest on each Bond shall be payable from the most recent Interest Payment Date next preceding the date of such Bond to which interest has been paid, unless the date of such Bond is an Interest Payment Date to which interest has been paid, in which case interest shall be payable from such date, or unless the date of such Bond is prior to the first Interest Payment Date on the Bonds, in which case interest shall be payable from the earliest date on which interest shall have accrued on such Series of Bonds, or unless the date of such Bond is between the Record Date and the next succeeding Interest Payment Date, in which case interest shall be payable from such Interest Payment Date.

4. The principal and Redemption Price, if any, of and the interest on each Series of Bonds shall be payable as provided in this Bond Resolution or in a Supplemental Resolution relating to such Series of Bonds.

#### SECTION 3.02. Legends.

The Bonds of each Series may contain or have endorsed thereon such provisions, specifications and descriptive words not inconsistent with the provisions of this Bond Resolution as may be necessary or desirable to comply with custom, the rules of any securities exchange or commission or brokerage board, the Act or otherwise, as may be determined by the Authority prior to the authentication and delivery thereof.

### **SECTION 3.03. Execution and Authentication.**

1. The Bonds shall be executed in the name of the Authority by the manual or facsimile signature of the Chairman or other Authorized Officer of the Authority, and its corporate seal (or a facsimile thereof) shall be impressed, imprinted, engraved or otherwise reproduced thereon and attested by the manual or facsimile signature of the Secretary, Assistant Secretary or other Authorized Officer of the Authority, or in such other manner as may be required or permitted by law. In case any one or more of the Authorized Officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been authenticated and delivered by the Trustee, such Bonds may, nevertheless, be authenticated and delivered as herein provided, and may be issued as if the persons who signed or sealed such Bonds had not ceased to hold such offices. Any Bond of a Series may be signed and sealed on behalf of the Authority by such persons who, at the time of the execution of such Bonds, shall be duly authorized or shall hold the proper office in the Authority, although at the date borne by the Bonds of such Series such persons may not have been so authorized or have held such office.

2. The Bonds of each Series shall bear thereon a certificate of authentication, in the form set forth in this Bond Resolution or in a Supplemental Resolution authorizing such Series of Bonds, executed manually by the Trustee. Only such Bonds as shall bear thereon such certificate of authentication shall be entitled to any right or benefit under this Bond Resolution, and no Bond shall be valid or obligatory for any purpose until such certificate of authentication shall have been duly executed by the Trustee. Such certificate of the Trustee upon any Bond executed on behalf of the Authority shall be conclusive evidence that the Bond so authenticated has been duly authenticated and delivered under this Bond Resolution and that the Holder thereof is entitled to the benefits of this Bond Resolution.

### **SECTION 3.04. Transfer and Registry.**

1. Each Bond shall be transferable only upon the books of the Authority, which shall be kept for that purpose at the Principal Office of the Trustee, by the Holder thereof in person or by his attorney duly authorized in writing upon surrender thereof together with a written instrument of transfer satisfactory to the Trustee duly executed by the Holder or his duly authorized attorney. Upon the transfer of any such Bond, the Authority shall issue in the name of the transferee a new Bond or Bonds of the same aggregate principal amount, Series and maturity as the surrendered Bond.

2. The Authority and each Fiduciary may deem and treat the person in whose name any Bond shall be registered upon the books of the Authority as the absolute Owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal and Redemption Price, if any, of and the interest on such Bond and for all other purposes, and all such payments so made to any such Holder or upon his order shall be

valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid, and neither the Authority nor any Fiduciary shall be affected by any notice to the contrary.

### **SECTION 3.05. Regulations With Respect to Exchanges and Transfers.**

In all cases in which the privilege of exchanging Bonds or transferring Bonds is exercised, the Authority shall execute, and the Trustee shall authenticate and deliver, Bonds in accordance with the provisions of this Bond Resolution. All Bonds surrendered in any such exchange or transfer shall forthwith be canceled by the Trustee. For every such exchange or transfer of Bonds, whether temporary or definitive, the Authority or the Trustee may make a charge sufficient to reimburse it for any administrative costs associated with any exchange or transfer and for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer. Neither the Authority nor the Trustee shall be required (a) to transfer or exchange Bonds for a period beginning on the Record Date next preceding an Interest Payment Date for the Bonds and ending on such Interest Payment Date, or for a period of fifteen (15) days (or such lesser period as may be specified in a Supplemental Resolution for a particular Series of Bonds) next preceding the date of any selection of Bonds to be redeemed or thereafter until after the mailing of any notice of redemption, or (b) to transfer or exchange any Bonds called or tendered for redemption.

### **SECTION 3.06. Bonds Mutilated, Destroyed, Stolen or Lost.**

In case any Bond shall become mutilated or be destroyed, stolen or lost, the Authority shall execute, and thereupon the Trustee shall authenticate and deliver, a new Bond of like Series, maturity and principal amount as the Bond so mutilated, destroyed, stolen or lost (i) in exchange and substitution for such mutilated Bond upon surrender and cancellation of such mutilated Bond or (ii) in lieu of and in substitution for the Bond so destroyed, stolen or lost upon filing with the Trustee evidence satisfactory to the Authority that such Bond has been destroyed, stolen or lost and proof of ownership thereof, and upon furnishing the Authority and the Trustee with indemnity satisfactory to them and complying with such other reasonable regulations as the Authority may prescribe and paying such expenses as the Authority and the Trustee may incur. All mutilated Bonds so surrendered to the Trustee shall be canceled by it. Any such new Bonds issued pursuant to this Section 3.06 in substitution for Bonds alleged to be destroyed, stolen or lost shall constitute original additional contractual obligations on the part of the Authority, whether or not the Bonds so alleged to be destroyed, stolen or lost be at any time enforceable by anyone, and such Bonds shall be equally secured by, and entitled to equal and proportionate benefits with all other Bonds issued under this Bond Resolution in, any moneys or securities held by the Authority or any Fiduciary for the benefit of the Bondholders.

### **SECTION 3.07. Temporary Bonds.**

1. Until the definitive Bonds of any Series are prepared in the form required by the Authority, the Authority may execute, in the same manner as is provided in Section 3.03 hereof,

and the Trustee shall authenticate and deliver, in lieu of definitive Bonds but subject to the same provisions, limitations and conditions as the definitive Bonds, one or more temporary Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, and with such omissions, insertions and variations as may be appropriate to temporary Bonds. The Authority, at its own expense, shall prepare and execute, and upon the surrender of such temporary Bonds for exchange and the cancellation of such surrendered temporary Bonds, the Trustee shall authenticate and, without charge to the Holder thereof (but at the expense of the Authority), deliver in exchange therefor, definitive Bonds of the same aggregate principal amount, Series and maturity as the temporary Bonds surrendered. Until so exchanged, the temporary Bonds shall in all respects be entitled to the same benefits and security as definitive Bonds authenticated and issued pursuant to this Bond Resolution.

2. All temporary Bonds surrendered in exchange either for another temporary Bond or Bonds or for a definitive Bond or Bonds shall be forthwith canceled by the Trustee.

### **SECTION 3.08. Cancellation and Destruction of Bonds.**

All Bonds paid or redeemed, either at or before maturity, shall be delivered to the Trustee when such payment or redemption is made, and such Bonds, together with all Bonds purchased by the Trustee, shall thereupon be promptly canceled. Bonds so canceled may at any time be destroyed by the Trustee, which shall execute a certificate of destruction in duplicate by the signature of one of its Authorized Officers describing the Bonds so destroyed, and one executed certificate shall be filed with the Authority and the other executed certificate shall be retained by the Trustee.

### **SECTION 3.09. Parties Interested Herein.**

Nothing in this Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to, any person or entity, other than the Authority, the Trustee, the Paying Agent and the Registered Owners of the Bonds, any right, remedy or claim under or by reason of this Bond Resolution or any covenant, condition or stipulation hereof, and all covenants, stipulations, promises and agreements in this Bond Resolution contained by and on behalf of the Authority shall be for the sole and exclusive benefit of the Authority, the Trustee, the Paying Agent and the Registered Owners of the Bonds. Accordingly, nothing in this Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to any other Renewable Energy Program Interested Party any right, remedy or claim under or by reason of this Bond Resolution or any covenant, condition or stipulation hereof.

2. In the case of any redemption of Bonds at the election of the Authority, the Authority shall give written notice to the Trustee of its election or direction to so redeem, of the redemption date and of the principal amounts of the Bonds of each maturity to be redeemed (which maturities and principal amounts thereof to be redeemed shall be determined by the Authority in its sole discretion, subject to any limitations with respect thereto contained in this Bond Resolution).

3. (a) In the case of any redemption of Bonds at the election of the Authority at the direction of the Company pursuant to the terms of the Company Lease Agreement (including without limitation the payment by the Company of the Purchase Option Price as an Additional Lease Payment thereunder), the Company shall give written notice to the Authority of its direction to so redeem, of the redemption date and of the principal amounts of the Bonds of each maturity to be redeemed (which maturities and principal amounts thereof to be redeemed shall be determined by the Company in its sole discretion, subject to any limitations with respect thereto contained in this Bond Resolution).

(b) In the case of any redemption of Series 2011B Note or any Additional Bonds at the election of the Authority at the direction of the County pursuant to the terms of the County Guaranty, the County shall give written notice to the Authority, with a copy to the Trustee, of the County's direction to so redeem, of the redemption date and of the principal amounts of such Bonds of each maturity to be redeemed (which maturities and principal amounts thereof to be redeemed shall be determined by the County in its sole discretion, subject to any limitations with respect thereto contained in this Bond Resolution and the County Guaranty Agreement).

In the event notice of redemption shall have been given as provided in Section 4.05 hereof, the Authority shall pay or require the Company to pay (in accordance with the terms of the Company Lease Agreement) to the Trustee on or prior to the redemption date an amount in cash that, in addition to other moneys, if any, available therefor held by the Trustee, will be sufficient to redeem on the redemption date at the Redemption Price thereof, plus interest accrued and unpaid to the redemption date, all of the Bonds to be redeemed.

#### **SECTION 4.03. Redemption by Trustee.**

Whenever, by the terms of this Bond Resolution, the Trustee is required to redeem Bonds otherwise than at the election or direction of the Authority or the Company or the County, the Trustee shall select the Bonds to be redeemed, give the notice of redemption as provided in Section 4.05 hereof and pay the Redemption Price thereof out of moneys available therefor, plus interest accrued and unpaid to the redemption date, to the Paying Agent in accordance with the terms of this Article IV and, to the extent applicable, Article V hereof.

#### **SECTION 4.04. Selection of Bonds to be Redeemed.**

1. If less than all of the Bonds of like maturity shall be called for redemption, the particular Bonds or portions of Bonds to be redeemed shall be selected at random by the Trustee in such manner as the Trustee in its discretion may deem fair and appropriate; provided, however, that the portion of any Bond of a denomination of more than \$5,000 to be redeemed shall be in the principal amount of \$5,000 or any integral multiple thereof, and that, in selecting Bonds for redemption, the Trustee shall treat each Bond as representing that number of Bonds that is obtained by dividing the principal amount of such Bond by the minimum denomination in which Bonds of such Series are authorized to be Outstanding after the redemption date.

2. 1. On the date designated for redemption, notice having been given in the manner and under the conditions hereinabove provided, the Bonds or the portions thereof called for redemption shall become and be due and payable at the Redemption Price provided for redemption of such Bonds or such portions thereof on such date. If moneys for the payment of the Redemption Price and the accrued interest to the redemption date are held in a separate account by the Trustee in trust for the Holders of such Bonds, interest on such Bonds or such portions thereof so called for redemption shall cease to accrue and be payable, such Bonds or such portions thereof shall cease to be entitled to any benefit or security under this Bond Resolution, and the Holders of such Bonds or such portions thereof shall have no rights in respect thereof, except to receive payment of the Redemption Price thereof and the accrued interest thereon and, to the extent provided in Section 4.07 hereof, to receive Bonds for any unredeemed portions of Bonds.

With respect to any Bonds to be redeemed that have not been presented for redemption within sixty (60) days after the redemption date, the Trustee, at the expense of the Company for any redemption occasioned by the payment of the Purchase Option Price by the Company in accordance with the terms of the Company Lease Agreement, and at the expense of the Authority, if otherwise, shall give a second notice of redemption by registered mail to the Registered Owners of any such Bonds not presented for redemption.

#### **SECTION 4.07. Redemption of Portions of Bonds.**

(b) To the extent the Company has caused an Event of Default under the Company Lease Agreement or any other Program Document and the County has made payments under its County Guaranty, the Authority may, and upon the direction of the County, the Authority shall, direct the Trustee, to the maximum extent practicable, to deposit all or a portion

of (i) the Leased Property (including without limitation any product therefrom, including the SRECs, but excluding the Renewable Energy Projects, but only to the extent the Series 2011 Local Units are making their Net Substitute Power Purchase Price payments) or the proceeds therefrom and/or (ii) the Net Substitute Power Purchase Price payments received from time to time, in the County Security Fund, until the County has been reimbursed in full for any such payments. Upon the reimbursement in full of the County for any of its payments under its County Guaranty in accordance with subsection 2 below, in accordance with any County Security Agreement delivered in accordance with subsection 6 below, or otherwise, amounts remaining on deposit in the County Security Fund, shall be distributed in accordance with the County Security Agreement, if any, as Reimbursement Collateral.

2. Upon the Trustee's issuance of a continuing deficiency notice with respect to either or both of the Interest Payment Account or the Principal Payment Account of the Debt Service Fund as of 9:00 a.m. EST on any Interest Payment Date or Principal Payment Date, as the case may be, pursuant to Sections 5.06(1)(b) or 5.06(2)(b), hereof, and upon the Trustee's drawing on the County Guaranty to satisfy any such deficiency in accordance with Sections 5.06(1)(c) or 5.06(2)(c) hereof, as the case may be, the Trustee shall immediately (a) pay over to the County, in immediately available funds, the lesser of (i) the amount of the draw on the County Guaranty or (ii) the entire amount on deposit in the County Security Fund, if any (including after any transfer of amounts pursuant to Section 5.06 hereof) and (b) promptly notify the Authority, and to the extent the Company Lease Agreement has not been terminated, the Company, of the occurrence and amount of such event.

3. (a) Whenever the amount on deposit in the County Security Fund equals or exceeds the principal amount, plus interest due and owing on the next occurring Interest Payment Date and Principal Payment Date, of all Outstanding Series 2011 Bonds plus any Series of Outstanding Additional Bonds so designated by a Supplemental Resolution, the Trustee shall (i) notify the County, the Authority, and the Company of such occurrence, amount, and supporting computations, and (ii) ten (10) Business Days' after such notification, to the extent such computations have been verified by the Authority, promptly transfer any such excess to the Aged Account of the Revenue Fund.

(b) When there are no Series 2011 Bonds Outstanding (and if so designated by a Supplemental Resolution, plus any Series of Outstanding Additional Bonds), whether at final stated maturity, upon redemption of all of such Bonds, or upon acceleration and payment of all of such Bonds, and to the extent the County has been fully reimbursed for all payments it has made under the County Guaranty, the Trustee shall promptly pay over to the Company the entire amount remaining on deposit in the County Security Fund, with notice of such occurrence and amount to be provided by the Trustee to the Authority and the County. To the extent there are funds on deposit in the County Reserve in excess of the County Security Fund Requirement from time to time, such excess shall be promptly released from the County Reserve and be remitted to the Company.

4. Except to the extent expressly permitted in Section 5.06 or this Section 5.07 or in accordance with Section 701 of the Company Lease Agreement, which direction the Trustee shall promptly follow upon receipt of the Company notice detailed therein, and notwithstanding anything to the contrary in this Bond Resolution, unless accompanied by a notice of direction issued to the Trustee, signed by an Authorized Officer of each of the County and the Authority, amounts in the County Security Fund shall not be applied (a) directly, or transferred by the Trustee to any Fund or Account herein, in either case whereby such funds shall be used to pay any portion of the principal of, redemption premium, or interest on the Series 2011 Bonds or any other Series of Additional Bonds or (b) except as expressly set forth in this Bond Resolution. To the extent the Trustee receives any such properly executed notice of direction, the Trustee shall promptly follow such instructions, and simultaneously or promptly thereafter, notify the County, the Authority, and the Company of any such occurrence. Notwithstanding anything to the contrary in this Bond Resolution, as the County Security Fund is excepted from the pledge of the Trust Estate, this Section 5.07 may be amended by the Authority subsequent to the issuance of the Series 2011 Bonds without the consent of the Trustee or the Holders of any Outstanding Bonds.

5. (a) The Trustee shall accept the pledge and assignment of all right, title and interest in and to the Pledged Collateral under the terms of, and as defined in, the Company Pledge Agreement, which shall not be part of the Trust Estate, and therefore shall not be available to Holders of any Series of Outstanding Bonds, including the Series 2011 Bonds. The Trustee shall not exercise any rights and remedies, or take any other action pursuant to the Company Pledge Agreement, without the express written consent of the Authority. Pursuant to Section 4.08 of the Company Pledge Agreement, the Trustee shall be under no obligation to exercise any such rights or take any such action. Any moneys realized by the Trustee from such pledge (or realized by the Authority shall be promptly paid over to the Trustee, and then) shall be promptly deposited by the Trustee in the County Security Fund. In the case of the occurrence of an Event of Default as defined in the Company Pledge Agreement, the Authority may direct the Trustee, through a duly authorized and executed Certificate of an Authorized Officer of the Authority delivered to the Trustee, to further assign all or a portion of the Trustee's right, title and interest in and to the Collateral under the Company Pledge Agreement to the person or entity specified in such Certificate, including without limitation such person or entity undertaking all or a portion of the Company's responsibilities with respect to the Projects as set forth in the Program Documents, and/or to take such further action as set forth in such Certificate.

(b) Should no such Event of Default under the Company Pledge Agreement occur prior to or as of the end of the recapture period relating to the investment tax credit (or the Section 1603 Grant, as defined in the Company Pledge Agreement, in lieu of such credit) available to the Company under Sections 38, 46 and 48 of the Code in connection with the Renewable Energy Projects, as certified to the Trustee by an Authorized Officer of the Company in a Certificate to such effect delivered by or on behalf of the Company to the Trustee and the Authority, the Trustee shall promptly take all actions to release and/or terminate the pledge under the Company Pledge Agreement, including without limitation returning any Certificated

Securities, received pursuant to and as defined under the Company Pledge Agreement, to the Company.

6. Notwithstanding any provision to the contrary herein or in any other Program Document, to the extent the Company has not caused an Event of Default under any Program Document (or any shall have been cured by such time), and the Company delivers to the County, County Security and a fully executed County Security Agreement providing such County Security in an amount greater than or equal to the County Security Fund Requirement applicable at such time, all in a form and substance acceptable, in the County's sole discretion, to the County, then upon the Company's delivery to the Trustee and the Authority of a Certificate of an Authorized Officer of the Company to such effect, such Certificate to be acknowledged in writing by the County, the Trustee shall promptly release all funds (principal, interest and/or any securities or other investments) on deposit in the County Security Fund to the Company.

7. Funds on deposit in the County Security Fund in excess of the County Security Fund Requirement shall remain therein, including any interest earned in accordance with Section 5.11(3) hereof, unless such monies are specifically required to be transferred pursuant to the provisions of Section 5.06 or this Section 5.07 or elsewhere in this Bond Resolution.

8. Upon the Trustee's receipt of a Certificate of an Authorized Officer of the County and the Authority directing the Trustee to transfer funds on deposit in the County Security Fund to any other Fund or Account under this Bond Resolution, including the Revenue Fund or the Debt Service Fund, the Trustee shall make such transfer at the times and in the amounts as set forth in such Certificate. To the extent there would otherwise be insufficient funds in the Interest Account in the Debt Service Fund as provided in Section 5.06(1)(b) hereof, the Trustee shall transfer funds from the County Security Fund in order to eliminate such shortfall. To the extent the Company is not in default under any Company Document, the Company must acknowledge any such Certificate in writing before the Trustee shall transfer any such funds.

9. The Restoration Security Fund shall be funded in accordance with the terms of the Restoration Security Fund Requirement. Funds may be withdrawn from the Restoration Security Fund by the Company upon their submission to the Trustee of a Certificate of an Authorized Officer of the Company to the effect that such funds shall be utilized for the purposes contemplated by Section 3.7 of the Power Purchase Agreement toward restoration of Local Unit Facilities. Pending such withdrawal, funds on deposit in the Restoration Security Fund shall be invested in accordance with the provisions of Section 5.11 of the Bond Resolution, and any investment earnings shall be credited to such Fund until disbursed pursuant to the Certificate noted above.

(a) Alternatively, the funds in the Restoration Security Fund may be transferred by the Trustee in accordance with a Certificate of an Authorized Officer of the Company, so long as such Certificate is acknowledged in writing by the Authority and the affected Series 2011 Local Units, and such transfer shall occur without Bondholder consent.

### **SECTION 5.08. General Fund.**

1. On the first day of each Bond Year beginning December 15, 2016, provided, however, that all transfers from the Revenue Fund required pursuant to subsections (2) and (3) of Section 5.05 hereof shall have been made, any remaining amounts in the General Account of the General Fund may be retained therein or applied by the Authority in its sole discretion for any corporate purpose allowable under the Act.

2. Any such funds, upon withdrawal from the General Account of the General Fund, are not subject to the pledge of the Trust Estate unless and until deposited in any Fund or Account under the Bond Resolution, which purposes may include, without limitation, the application to any Fund or Account under the Bond Resolution at the written direction of a Certificate of an Authorized Officer of the Authority filed with the Trustee, which Certificate for all Series of Tax-exempt Bonds, must also comply with the Tax Certificate or otherwise be subject to an opinion of Bond Counsel filed with the Trustee that such application won't adversely affect exclusion from gross income of the holders of any such Series of Tax-exempt Bonds for Federal income tax purposes.

3. Pending withdrawal, funds on deposit in the General Funds shall be invested in accordance with the provisions of Section 5.11 of the Bond Resolution, and any investment earnings shall be credited to such Fund until disbursed pursuant to the provisions noted above in this Section 5.08.

### **SECTION 5.09. Additional Bonds as a Series of Tax-exempt Bonds.**

The Supplemental Resolution for any Series of Additional Bonds constituting Tax-exempt Bonds shall contain such provisions regarding a rebate fund, rebatable arbitrage, notice, records and other matters as may be required by a Tax Certificate or otherwise required to allow Bond Counsel to issue an opinion that the interest on the gross income of any such Series of Tax-exempt Bonds shall be excludable from the gross income of the Holders thereof for Federal income tax purposes.

### **SECTION 5.10. Moneys to Be Held in Trust.**

All moneys required to be deposited with or paid to the Trustee or the Paying Agent for the account of any Fund or Account established under any provision of this Bond Resolution for the Bonds in accordance with this Bond Resolution, other than the Administrative Fund, shall be held by the Trustee or the Paying Agent, as the case may be, in trust for the Holders of the Bonds and shall constitute part of the Trust Estate while held by the Trustee or the Paying Agent; provided, however, that moneys deposited with or held by the Trustee or the Paying Agent for the redemption of Bonds on or after the redemption date of such Bonds, or for the payment of the principal of, Redemption Price, if any, or the interest on Bonds on or after the date on which such amounts shall have become due, shall be held and applied solely for the redemption or payment of such Bonds or the payment of such interest.

## **SECTION 5.11. Investments.**

1. All moneys in any of the Funds and Accounts created under this Bond Resolution shall be invested by the Trustee (a) with respect to the Project Fund and the Restoration Security Fund, as and if directed by the Company in accordance with Section 310(a) of the Company Lease Agreement, (b) with respect to the County Security Fund, as and if directed by the County, in any Investment Securities, or (c) if clause (a) or (b) are not applicable, either because such provisions do not apply to the other Funds or Accounts contemplated by this Bond Resolution, or the Company and/or the County does not exercise their rights to direct such investments, then as directed by the Authority in writing, subject to the further provisions of this Section 5.11. The Trustee may conclusively rely upon such written direction of the Authority as to any and all investments.

2. Moneys in all Funds and Accounts created under this Bond Resolution, other than the Debt Service Fund and the Accounts established therein, shall be invested in Investment Securities, the principal of and the interest on which are payable not later than the dates on which it is estimated, by the Authority, that such moneys will be required hereunder. Moneys in the Debt Service Fund shall only be invested in such securities as are described in clause (i) of the definition of "Investment Securities" in Section 1.01 hereof, the principal of and the interest on which are payable not later than the dates on which it is estimated, by the Authority, that such moneys will be required hereunder. Moneys on deposit in the Revenue Fund and the Debt Service Fund shall be invested in such Investment Securities as to mature or otherwise become available for payment no later than any Interest Payment Date or Principal Payment Date.

3. Investment Securities as an investment of moneys in any Fund or Account created under this Bond Resolution shall be credited to such Fund or Account, except that any interest earned on monies in the Revenue Account of the Revenue Fund shall be transferred by the Trustee, no less frequently than once a month, to the Aged Account of the Revenue Fund. For the purpose of determining the amount in any Fund or Account at any time in accordance with this Bond Resolution, all Investment Securities credited to such Fund or Account shall be valued annually on the first day of any Bond Year at the lesser of amortized cost (exclusive of accrued interest) or fair market value, and any deficiency resulting therefrom shall be payable by the Company as an Additional Lease Payment under the Company Lease Agreement ratably every month over a period not to exceed five (5) months from such valuation date; provided, however, that any deficiency with respect to the County Security Fund shall only be payable to the extent of available cash flow after payment of all Company expenses.

4. All interest, profits and other income earned and received by the Trustee and the Authority, as appropriate, net of any losses suffered (herein called the "net earnings"), from the investment of moneys in any Fund or Account shall be retained in and treated as part of such Fund or Account and applied in accordance with the applicable Sections of this Bond Resolution governing such Fund or Account, except that any interest earned on monies in the Revenue Account of the Revenue Fund shall be transferred by the Trustee, no less frequently than once a

month, to the Aged Account of the Revenue Fund, and applied in accordance with the applicable Sections of this Bond Resolution governing such Fund or Account

5. The Trustee may act as principal or agent in the acquisition or disposition of any Investment Securities. The Trustee shall exercise its best efforts to sell at market price obtainable, or present for redemption, any Investment Securities to the credit of any Fund or Account created under this Bond Resolution and the Accounts established therein whenever it shall be necessary in order to provide moneys to meet any required payment, transfer, withdrawal or disbursement from such Fund or Account, and the Trustee shall not be liable for any loss resulting from such necessary sale so made of such investments.

Except as otherwise provided in the Company Lease Agreement or in this Bond Resolution, the Trustee shall not release the duties, covenants, obligations or agreements of the Company under the Company Lease Agreement, and shall at all times, to the extent permitted by law, defend, enforce, preserve and protect the rights and privileges of the Authority and the Holders under or with respect to the Company Lease Agreement; provided, however, that this provision shall not be construed to prevent the Trustee (with the consent of the Authority) from settling a default under the Company Lease Agreement on such terms as the Trustee shall determine to be in the best interests of the Authority and the Holders. The Authority hereby appoints the Trustee as its agent and attorney-in-fact for the purpose of enforcing all rights, title and interests of the Authority on behalf of the Holders under the Company Lease Agreement, except for the Authority's Reserved Rights.

## ARTICLE VIII

### GENERAL COVENANTS

#### **SECTION 8.01. Payment of Bonds; Special and Limited Obligations of Authority.**

The Authority shall pay or cause to be paid the principal or Redemption Price, if any, of and the interest on every Bond of each Series on the date, at the place and in the manner provided herein, in the Applicable Supplemental Resolution and in such Bonds according to the true intent and meaning thereof; provided, however, that the Bonds of each Series are special and limited obligations of the Authority, the principal or Redemption Price, if any, of and the interest on which are payable solely from the Trust Estate.

The Bonds of each Series shall not be payable from the general funds of the Authority, and shall not constitute a legal or equitable pledge of, or lien or encumbrance upon, any of the assets or property of the Authority (other than the Trust Estate) or upon any of its income, receipts or revenues, except as provided in this Bond Resolution. The full faith and credit of the Authority are not pledged, either expressly or by implication, to the payment of the Bonds. The Authority shall not create or cause to be created and shall not suffer to exist any lien, encumbrance or charge upon the Trust Estate, except the pledge, lien and charge created for the

security of the Holders of the Bonds. To the extent Revenues are received, the Authority will pay or cause to be discharged, or will make adequate provision to satisfy and discharge, within sixty (60) days after the same shall accrue, all lawful claims and demands that if unpaid might by law become a lien upon the Trust Estate; provided, however, that nothing contained in this Section 8.03 shall require the Authority to pay or cause to be discharged, or to make provision for, any such lien, encumbrance or charge so long as the validity thereof shall be contested in good faith and by appropriate legal proceedings.

So long as Bonds of any Series shall be Outstanding, the Authority shall not issue any bonds, notes or other evidences of indebtedness, other than such Bonds, secured by any pledge of or other lien or charge on the Trust Estate. Annually, within thirty (30) days after the receipt by the Authority of the report of such audit, a signed copy of such report shall be furnished to the Trustee. Such report shall include at least: (i) a statement of all Funds and Accounts (including investments thereof) held by the Trustee pursuant to the provisions of this Bond Resolution; (ii) a statement of the Revenues collected in connection with this Bond Resolution; and (iii) a statement that, in making such audit, no knowledge of any payment default in the fulfillment of any of the terms, covenants or provisions of this Bond Resolution was obtained or, if knowledge of any such default was obtained, a statement thereof.

#### **SECTION 8.05. Further Assurances.**

The Authority will pass, make, do, execute, acknowledge and deliver any and all such further resolutions, indentures, actions, instruments and assurances as may be reasonably necessary or proper to carry out the intention, or to facilitate the performance, of this Bond Resolution and for the better assuring and confirming unto the Holders of Bonds the rights and benefits provided in this Bond Resolution.

The Authority may only consent to such partial prepayment pursuant to the Company Lease Agreement if it simultaneously delivers to the Trustee (i) a certificate of an Independent Public Accountant demonstrating that the aggregate Basic Lease Payments due pursuant to the Company Lease Agreement after such prepayment shall be sufficient to pay, when due, the principal of and the interest on all Bonds Outstanding after giving effect to the Authority's election required in the immediately preceding sentence, and (ii) irrevocable instructions to effectuate such election regarding the application of prepayment proceeds, including, without limitation, delivering any documents required under the Company Lease Agreement.

performed or observed under this Bond Resolution or under the Bonds of each Series, which default shall continue for thirty (30) days after written notice specifying such default and requiring the same to be remedied shall be given to the Authority by the Trustee or the Bondholders in accordance with Section 9.09 hereof.

**SECTION 9.02. Acceleration of Bonds; Remedies.**

If an Event of Default described in Section 9.01 hereof shall occur for any Series of Bonds, the Trustee shall give written notice thereof to Holders, and at the written request of the Holders of not less than 25% in aggregate principal amount of the Bonds then Outstanding shall, by telephonic notice to the Authority (promptly confirmed in writing), declare the principal of all Bonds then Outstanding to be due and payable; provided, however, that before making such declaration, the Trustee shall give thirty (30) days' notice to the Authority and the Company during which time the Authority shall be able to cure such default. Upon any such declaration, the Trustee shall forthwith give notice thereof to the Company, each Local Unit and the Paying Agent.

At any time after the principal of the Bonds shall have been so declared to be due and payable and before the entry of final judgment or decree in any suit, action or proceeding instituted on account of such Event of Default, or before the completion of the enforcement of any other remedy under this Bond Resolution, the Trustee, by written notice to the Authority, may annul such declaration and its consequences if: (i) moneys shall have accumulated in the Interest Account and the Principal Account in the Debt Service Fund sufficient to pay all arrears of interest, if any, upon all of the Outstanding Bonds (except the interest accrued on such Bonds since the last Interest Payment Date) and the principal then due on all Bonds (except the principal on any such Bonds due solely as a result of any such declaration of acceleration); (ii) moneys shall have accumulated and be available sufficient to pay the charges, compensation, expenses, disbursements, advances and liabilities of the Trustee; and (iii) every other default known to the Trustee in the observance or performance of any duty, covenant, obligation, condition or agreement contained in the Bonds or in this Bond Resolution shall have been remedied to the satisfaction of the Trustee; provided, however, that such declaration may be annulled only with the written consent of the Holders of not less than 25% in aggregate principal amount of the Bonds Outstanding and not then due by their terms. No such annulment shall extend to or affect any subsequent default or impair any right consequent thereon.

Upon the occurrence of an Event of Default, the Trustee shall also have the following rights and remedies:

(a) The Trustee may pursue any available remedy at law or in equity or by statute to enforce the payment of the principal of and the interest on the Bonds then Outstanding, including (without limitation) enforcement of any rights of the Authority or the Trustee under the Company Lease Agreement;

(b) The Trustee by action or suit in equity may require the Authority to account as if it were the trustee of an express trust for the Holders of Bonds, and may take such action with respect to the Company Lease Agreement as the Trustee deems necessary or appropriate and in the best interests of the Holders of Bonds, subject to the terms of the Company Lease Agreement; and

(c) Upon the filing of a suit or other commencement of judicial proceedings to enforce any rights of the Trustee and of the Holders of Bonds under this Bond Resolution, the Trustee will be entitled as a matter of right to the appointment of a receiver or receivers of the Trust Estate and the issues, earnings, income, products and profits thereof, pending such proceedings, with such powers as the court making such appointment shall confer.

If an Event of Default shall have occurred with respect to any Bonds, and if requested so to do by the Holders of a majority in aggregate principal amount of the Bonds then Outstanding, and upon being indemnified to its reasonable satisfaction therefor, the Trustee shall be obligated to exercise such one or more of the rights, remedies and powers conferred by this Section 9.02 as directed by such Holders of Bonds.

No right or remedy by the terms of this Bond Resolution conferred upon or reserved to the Trustee (or to the Holders of Bonds) is intended to be exclusive of any other right or remedy, but each and every such right or remedy shall be cumulative and shall be in addition to any other right or remedy given to the Trustee or to such Holders hereunder or now or hereafter existing at law or in equity or by statute other than pursuant to the Act. The assertion or employment of any right or remedy shall not prevent the concurrent or subsequent assertion or employment of any other right or remedy.

No delay or omission to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or shall be construed to be a waiver of any such Event of Default or acquiescence therein, and every such right or remedy may be exercised from time to time and as often as may be deemed expedient.

No waiver of any Event of Default hereunder, whether by the Trustee or by the Holders of any Bonds in default, shall extend to or shall affect any subsequent Event of Default or shall impair any rights or remedies consequent thereon.

### **SECTION 9.03. Right of Holders of Bonds to Direct Proceedings.**

Anything in this Bond Resolution to the contrary notwithstanding, the Holders of a majority in aggregate principal amount of Bonds in default then Outstanding shall have the right at any time during the continuance of an Event of Default of such Bonds, by an instrument or instruments in writing executed and delivered to the Trustee, to direct the time, method and place of conducting all proceedings to be taken in connection with the enforcement of the terms and conditions of this Bond Resolution or for the appointment of a receiver or any other proceedings

hereunder; provided, however, that such direction shall not be otherwise than in accordance with the provisions of law and of this Bond Resolution.

#### **SECTION 9.04. Application of Moneys.**

All moneys received by the Trustee pursuant to any right or remedy given or action taken under the provisions of this Article IX upon any acceleration of the due date for the payment of the principal of and the interest on the Bonds in default (including, without limitation, moneys received by virtue of action taken under provisions of the Company Lease Agreement, after payment of the costs and expenses of the proceedings resulting in the collection of such moneys and of the expenses, liabilities and advances incurred or made by the Trustee and any other moneys owed to the Trustee in connection with such Bonds hereunder) shall be applied, first, to the payment of the principal and the interest then due and unpaid upon the Bonds in default, without preference or priority of principal over interest or of interest over principal, or of any installment of interest over any other installment of interest, or of any Bond over any other Bond, ratably, according to the amounts due respectively for principal and interest, to the persons entitled thereto, without any discrimination or privilege.

Whenever moneys are to be applied pursuant to the provisions of this Section 9.04, such moneys shall be applied at such times, and from time to time, as the Trustee shall determine, having due regard for the amount of such moneys available for application in the future. Whenever the Trustee shall apply such funds, it shall fix the date (which shall be an Interest Payment Date, unless the Trustee shall deem another date more suitable) upon which such application is to be made, and upon such date interest on the amounts of principal to be paid on such date shall cease to accrue. The Trustee shall give such notice as it may deem appropriate of the deposit with it of any such moneys and of the fixing of any such date, and shall not be required to make payment to the Holder of any Bond in default until such obligation shall be presented to the Trustee for appropriate endorsement or for cancellation, as the case may be.

#### **SECTION 9.05. Remedies Vested in Trustee.**

All rights of action (including, without limitation, the right to file proofs of claims) under this Bond Resolution or under any of the Bonds in default may be enforced by the Trustee without possession of any of the Bonds or the production thereof in any trial or other proceeding related thereto, and any such suit or proceeding instituted by the Trustee shall be brought in its name as Trustee for the equal and ratable benefit of the Holders of all the Outstanding Bonds without the necessity of joining as plaintiffs or defendants any Holders of such Bonds.

#### **SECTION 9.06. Rights and Remedies of Holders of Bonds.**

aggregate principal amount of the Bonds then Outstanding shall have made written request to the Trustee and shall have offered it reasonable opportunity either to proceed to exercise the remedies hereinbefore granted or to institute such action, suit or proceeding in its own name, (c) the Holders shall have offered to the Trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request, and (d) the Trustee shall have refused, or for sixty (60) days after receipt of such request and offer of indemnification shall have failed, to exercise the remedies hereinbefore granted or to institute such action, suit or proceeding in its own name, and such request and offer of indemnity are hereby declared in every case, at the option of the Trustee, to be conditions precedent to the execution of the powers and trusts of this Bond Resolution and to any action or cause of action for the enforcement of this Bond Resolution or for the appointment of a receiver or for any other remedy hereunder. It is understood and intended that no one or more Holders of Bonds shall have any right in any manner whatsoever to affect, disturb or prejudice the lien of this Bond Resolution by his or their action or to enforce any right hereunder except in the manner herein provided, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner herein provided and for the equal and ratable benefit of the Holders of all Bonds then Outstanding; provided, however, that nothing contained in this Bond Resolution shall affect or impair the right of the Holder of any Bond to enforce the payment of the principal or Redemption Price of and the interest on such Bond at and after the maturity thereof, or the obligation of the Authority to pay the principal or Redemption Price of and the interest on each of the Bonds issued hereunder to the respective Holders thereof, at the time and place, from the source and in the manner expressed in the Bonds and in this Bond Resolution and the Applicable Supplemental Resolution.

#### **SECTION 9.07. Termination of Proceedings.**

In case the Trustee or a Holder of a Bond in default shall have proceeded to enforce any right under this Bond Resolution by the appointment of a receiver or otherwise, and such proceedings shall have been discontinued or abandoned for any reason or shall have been determined adversely to the Trustee or such Holder, then and in every such case the Authority, the Trustee and the Holders of Bonds shall be restored to their former positions and rights hereunder, respectively, and all rights, remedies and powers of the Trustee and the Holders shall continue as if no such proceedings had been taken.

#### **SECTION 9.08. Waivers of Events of Default.**

The Trustee may, and upon the written request of the Holders of 50% in aggregate principal amount of all Bonds in default then Outstanding shall, waive any Event of Default that shall have been remedied before the completion of the enforcement of any remedy under this Bond Resolution; but no such waiver shall extend to any subsequent or other Event of Default or impair any rights consequent thereon.

**SECTION 9.09. Notice of Certain Defaults; Opportunity of Authority to Cure Defaults.**

Anything herein to the contrary notwithstanding, no Default under Section 9.01(e) hereof shall constitute an Event of Default until actual notice of such Default shall be given to the Authority, by registered or certified mail, by the Trustee or the Holders of not less than 25% in aggregate principal amount of all Bonds then Outstanding, and the Authority shall not have corrected the Default or caused the Default to be corrected within thirty (30) days following the giving of such notice; provided, however, that if the Default be such that it is correctable but cannot be so corrected within the applicable period, it shall not constitute an Event of Default if corrective action is instituted by the Authority within the applicable period and diligently pursued until the Default is corrected.

The Authority hereby grants to the Trustee full authority for the account of the Authority (but the Trustee shall have no obligation) to observe or perform any duty, covenant, obligation or agreement in any alleged Default concerning which notice is given to the Authority under the provisions of this Section 9.09 in the name and stead of the Authority, with full power to do any and all things and acts to the same extent that the Authority could do and to perform any such things and acts and with full power of substitution.

2. Any Supplemental Resolution referred to in and permitted or authorized by Section 11.01 or 11.02 hereof may be adopted by the Authority without the consent of any Bondholder, but shall become effective only on the conditions, to the extent and at the times provided in Section 11.01 or 11.02, respectively. Every Supplemental Resolution filed with the Trustee shall be accompanied by an opinion of Counsel stating that such Supplemental Resolution has been duly and lawfully adopted by the Authority in accordance with the terms and provisions of this Bond Resolution, is authorized or permitted by this Bond Resolution, and is valid and binding upon the Authority in accordance with its terms.

3. The Trustee is hereby authorized to accept the delivery of a certified copy of any Supplemental Resolution referred to in and permitted or authorized by Section 11.01, 11.02 or 11.03 hereof and to make all further agreements and stipulations that may be therein contained, and the Trustee, in taking such action, shall be fully protected in relying upon an opinion of Counsel that such Supplemental Resolution is authorized or permitted by the terms and provisions of this Bond Resolution.

4. No Supplemental Resolution shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto.

#### **SECTION 11.05. Mailing.**

Any provision in this Article XI for the mailing of a notice or other paper to Holders of Bonds shall be fully complied with if it is mailed, postage prepaid only, to each Registered Owner of Bonds then Outstanding at his address, if any, appearing upon the registry books of the Authority.

#### **SECTION 11.06. Powers of Amendment by Supplemental Resolution.**

Unless otherwise permitted under Section 11.01 or 11.02 hereof, any modification or amendment of this Bond Resolution and of the rights and obligations of the Authority and the Holders of Bonds hereunder, in any particular, may be made only by a Supplemental Resolution with the written consent (i) of the Holders of not less than two-thirds (2/3) in aggregate principal amount of the Bonds Outstanding at the time such consent is given, (ii) in case less than all of the several Series of Bonds then Outstanding are affected by the modification or amendment, of the Holders of not less than two-thirds (2/3) in aggregate principal amount of the Bonds of each Series so affected and Outstanding at the time such consent is given, and (iii) in case the modification or amendment changes the terms of any Sinking Fund Installment, of the Holders of not less than two-thirds (2/3) in aggregate principal amount of the Bonds of the particular Series and maturity entitled to such Sinking Fund Installment and Outstanding at the time such consent is given; provided, however, that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any specified like Series and maturity remain Outstanding, the consent of the Holders of such Bonds shall not be required, and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under this Section 11.06. No such modification or amendment shall (i) permit a change in the terms of redemption or maturity of the principal of any Outstanding Bond or of any installment of interest thereon or a reduction in the principal amount or the Redemption Price thereof or in the rate of interest thereon without the consent of the Holder of such obligation, (ii) reduce the percentages or otherwise affect the classes of Bonds the consent of the Holders of which is required to effect any such modification or amendment, or (iii) change or modify any of the rights or obligations of any Trustee without its written assent thereto. For the purposes of this Section 11.06, a Series shall be deemed to be affected by a modification or amendment of this Bond Resolution if the same adversely affects or diminishes the rights of the Holders of Bonds of such Series. The Trustee may, in its discretion, determine whether or not, in accordance with the foregoing powers of amendment, Bonds of any particular Series or maturity would be affected by any modification or amendment of this Bond Resolution, and any such determination shall be binding and conclusive upon the Authority and all Holders of Bonds. For purposes of this Section 11.06, the Holders of any Bonds may include the initial Holders thereof, regardless of whether or not such Bonds are being held for resale.

#### **SECTION 11.07. Consent of Bondholders.**

The Authority may at any time adopt a Supplemental Resolution making a modification or amendment permitted by the provisions of Section 11.06 hereof to take effect when and as

provided in this Section 11.07. A copy of such Supplemental Resolution (or brief summary thereof or reference thereto in form approved by the Trustee), together with a request to Holders of Bonds for their consent thereto in form satisfactory to the Trustee, shall be mailed by the Authority to Holders of Bonds (but failure to mail such copy and request shall not affect the validity of the Supplemental Resolution when consented to as in this Section 11.07 provided). Such Supplemental Resolution shall not be effective unless and until there shall have been filed with the Trustee (a) the written consent of the Holders of the percentages of Outstanding Bonds specified in Section 11.06 hereof and (b) an opinion of Counsel stating that such Supplemental Resolution has been duly and lawfully adopted and filed by the Authority in accordance with the terms and provisions of this Bond Resolution, is authorized or permitted by this Bond Resolution, and is valid and binding upon the Authority in accordance with its terms. It shall not be necessary that the consents of the Holders of Bonds approve the particular form of wording of the proposed modification or amendment or of the proposed Supplemental Resolution effecting such modification or amendment, but it shall be sufficient if such consents approve the substance of the proposed amendment or modification. Each such consent shall be effective only if accompanied by proof of the holding, at the date of such consent, of the Bonds with respect to which such consent is given, which proof shall be such as is permitted by Section 12.02 hereof. A certificate or certificates executed by the Trustee and filed with the Authority stating that the Trustee has examined such proof and that such proof is sufficient in accordance with Section 12.02 hereof shall be conclusive evidence that the consents have been given by the Holders of the Bonds described in such certificate or certificates. Any such consent shall be binding upon the Holder of the Bonds giving such consent and, anything in Section 12.02 hereof to the contrary notwithstanding, upon any subsequent Holder of such Bonds and of any Bonds issued in exchange therefor (whether or not such subsequent Holder has notice thereof), unless such consent is revoked in writing by the Holder of such Bonds giving such consent or by a subsequent Holder thereof by filing with the Trustee, prior to the time when the written statement of the Trustee is filed (as hereinafter provided for in this Section 11.07), such revocation and proof that such Bonds are held by the signer of such revocation in the manner permitted by Section 12.02 hereof. The fact that a consent has not been revoked may likewise be proved by a certificate of the Trustee filed with the Authority to the effect that no revocation thereof is on file with the Trustee.

At any time after the Holders of the required percentages of Bonds shall have filed their consents to the Supplemental Resolution as hereinabove provided, the Trustee shall make and file with the Authority a written statement that the Holders of such required percentages of such Bonds have filed such consents. Such written statements shall be conclusive that such consents have been so filed. At any time thereafter, notice stating in substance that the Supplemental Resolution (which may be referred to as a Supplemental Resolution adopted by the Authority on a stated date, a copy of which is on file with the Trustee) has been consented to by the Holders of the required percentages of Bonds and will become effective as provided in this Section 11.07 may be given to Bondholders by the Authority by mailing such notice to Bondholders (but failure to mail such notice shall not prevent such Supplemental Resolution from becoming effective and binding as in this Section 11.07 provided). The Authority shall file with the Trustee proof of the mailing thereof. A record, consisting of the certificates or statements required or permitted by

this Section 11.07 to be made by the Trustee, shall be proof of the matters therein stated. Such Supplemental Resolution making such amendment or modification shall be deemed conclusively binding upon the Authority, the Fiduciaries and the Holders of all Bonds at the expiration of forty (40) days after the filing with the Trustee of proof of the mailings of such last-mentioned notice, except in the event of a final decree of a court of competent jurisdiction setting aside such Supplemental Resolution in a legal action or equitable proceeding for such purpose commenced within such forty (40) day period; provided, however, that the Authority and any Fiduciary during such forty (40) day period and any such further period during which any such action or proceeding may be pending shall be entitled in its absolute discretion to take such action, or to refrain from taking such action, with respect to such Supplemental Resolution as it may deem expedient.

#### **SECTION 11.08. Modifications or Amendments by Unanimous Consent.**

The terms and provisions of this Bond Resolution and the rights and obligations of the Authority and of the Holders of Bonds hereunder may be modified or amended in any respect upon the adoption and filing by the Authority of a Supplemental Resolution and the consent of the Holders of all Bonds then Outstanding, such consent to be given as provided in Section 11.07 hereof, except that no notice to Holders of Bonds either by mail or publication shall be required; provided, however, that no such modification or amendment shall change or modify any of the rights or obligations of any Fiduciary without the filing with the Trustee of the written assent thereto of such Fiduciary in addition to the consent of the Holders of Bonds.

#### **SECTION 11.09. Exclusion of Bonds.**

Bonds owned or held by or for the account of the Authority shall not be deemed Outstanding for the purpose of consent or other action or for any calculation of Outstanding Bonds provided for in this Article XI, and the Authority shall not be entitled with respect to such Bonds to give any consent or to take any other action provided for in this Article XI. At the time of any consent or other action taken under this Article XI, the Authority shall furnish the Trustee a Certificate of an Authorized Officer of the Authority, upon which the Trustee may conclusively rely, describing all Bonds to be so excluded.

#### **SECTION 11.10. Notation on Bonds.**

Bonds authenticated and delivered after the effective date of any Supplemental Resolution adopted pursuant to this Article XI may, and, if the Authority so determines, shall, bear a notation by endorsement or otherwise in form approved by the Authority as to any modification or amendment provided for in such Supplemental Resolution, and, in that case, upon demand of the Holder of any Bond then Outstanding and upon presentation of any Bond for such purpose at the Principal Office of the Trustee, a suitable notation shall be made on such Bond. If the Authority shall so determine, new Bonds so modified as to conform, in the opinion of the Authority, to any modification or amendment contained in such Supplemental Resolution shall be prepared, authenticated and delivered and, upon demand of the Holder of any Bond then

Outstanding, shall be exchanged upon surrender of such Bonds, without cost to such Holder, for Bonds of the same Series, principal amount, maturity and interest rate then Outstanding. Any action taken as provided in Article X hereof or in this Article XI shall be effective and binding upon all Holders of Bonds notwithstanding that the notation is not endorsed on all Bonds.

**SECTION 11.11. Effect of Supplemental Resolutions.**

Upon the effective date of any Supplemental Resolution, this Bond Resolution shall be deemed to be modified and amended in accordance therewith, and the respective rights, duties, covenants, obligations and agreements under this Bond Resolution of the Authority, the Trustee and all Holders of Bonds then Outstanding shall thereafter be determined, exercised and enforced hereunder subject in all respects to such modification and amendment, and all of the terms and conditions of any such Supplemental Resolution shall be deemed to be part of the terms and conditions of this Bond Resolution for any and all purposes.

**SECTION 11.12. Notice of Amendments.**

Promptly after the adoption by the Authority of any Supplemental Resolution, the Trustee shall mail a notice, setting forth in general terms the substance of such amendment or modification, to the Holders of any Series of Bonds so affected thereby, and to the other Renewable Energy Program Interested Parties. However, any failure to give such notice, or any defect therein, shall not in any way impair or affect the validity of any such Supplemental Resolution.

## ARTICLE XII

### DEFEASANCE

#### SECTION 12.01. Defeasance of Bonds.

1. If the Authority shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of all Bonds of any Series the principal or Redemption Price, if applicable, thereof and the interest due or to become due thereon at the times and in the manner stipulated therein and in this Bond Resolution, then the pledge of the Trust Estate and all duties, covenants, agreements and other obligations of the Authority to the Holders of such Bonds shall thereupon cease, terminate and become void and be discharged and satisfied. In such event, the Trustee shall cause an accounting for such period or periods as shall be requested by the Authority to be prepared and filed with the Authority, and, upon the request of the Authority, shall execute and deliver to the Authority all such instruments as may be desirable to evidence such discharge and satisfaction, and the Trustee shall pay over or deliver to the Authority, or, to the extent provided for in Section 5.07 the County Security Fund to the Company, all moneys or securities held by it pursuant to this Bond Resolution that are not required for the payment of the principal or Redemption Price, if applicable, of and the interest due or to become due on the Bonds of any Series not theretofore surrendered for such payment or redemption. If the Authority shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of any Outstanding Bonds of any Series the principal or Redemption Price, if applicable, thereof and the interest due or to become due thereon at the times and in the manner stipulated therein and in this Bond Resolution, such Bonds shall cease to be entitled to any lien, benefit or security under this Bond Resolution, and all duties, covenants, agreements and other obligations of the Authority to the Holders of such Bonds shall thereupon cease, terminate and become void and be discharged and satisfied. Notwithstanding any other provision in this Article XII, all duties, covenants, agreements and other obligations of the Authority to the Holders of Bonds relating to the exclusion of interest from gross income of the Holders thereof for federal income tax purposes shall survive the defeasance of the Bonds.

2. Bonds or interest installments for the payment or redemption of which moneys shall have been set aside and held in trust by the Paying Agent (through deposit by the Authority of funds for such payment or redemption or otherwise) at the maturity or redemption date thereof shall be deemed to have been paid within the meaning and with the effect expressed in subsection (1) of this Section 12.01. Subject to the provisions of subsections (3), (4) and (5) of this Section 12.01, Outstanding Bonds of any Series or Outstanding Bonds of any maturity within any Series shall, prior to the maturity or redemption date thereof, be deemed to have been paid within the meaning and with the effect expressed in subsection (1) of this Section 12.01 if (a) in case any of said Bonds are to be redeemed on any date prior to their maturity, the Authority shall have given to the Trustee instructions in writing accepted by the Trustee to mail notice of redemption of such Bonds (other than Bonds of a Series that have been purchased by the Trustee at the written direction of the Authority or purchased or otherwise acquired by the Authority and delivered to the Trustee as hereinafter provided prior to the mailing of such notice of redemption)

on said date, (b) there shall have been deposited with the Trustee either moneys in an amount that shall be sufficient or Investment Securities (including any Investment Securities issued or held in book-entry form on the books of the Department of the Treasury of the United States of America) the principal of and the interest on which, when due, will provide moneys that, together with the moneys, if any, deposited with the Trustee at the same time, shall be sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest due and to become due on such Series of Bonds on or prior to the redemption date or maturity date thereof, as the case may be, and (c) in the event such Series of Bonds are not by their terms subject to redemption within the next succeeding sixty (60) days, the Authority shall have given the Trustee, in form satisfactory to it, instructions to mail, as soon as practicable, a notice to the Holders of such Bonds at their last addresses appearing upon the registry books at the close of business on the last Business Day of the month preceding the month for which notice is mailed that the deposit required by clause (b) above has been made with the Trustee and that such Series of Bonds are deemed to have been paid in accordance with this Section 12.01 and stating such maturity or redemption date upon which moneys are expected, subject to the provisions of subsection (5) of this Section 12.01, to be available for the payment of the principal or Redemption Price, if applicable, of and the interest due and to become due on such Series of Bonds (other than Bonds that have been purchased by the Trustee at the written direction of the Authority or purchased or otherwise acquired by the Authority and delivered to the Trustee as hereinafter provided prior to the mailing of the notice of redemption referred to in clause (a) hereof). Any notice of redemption mailed pursuant to the preceding sentence with respect to any Series of Bonds, which notice relates to a redemption contemplating less than all of the Outstanding Bonds of any maturity within a Series being redeemed, shall specify the letter and number or other distinguishing mark of each such Bond to be so redeemed. The Trustee shall, as and to the extent necessary, apply moneys held by it pursuant to this Section 12.01 to the retirement of said Bonds in amounts equal to the unsatisfied balances of any Sinking Fund Installments with respect to such Bonds, all in the manner provided in this Bond Resolution.

The Trustee shall, if so directed in writing by the Authority (i) prior to the maturity date of Bonds deemed to have been paid in accordance with this Section 12.01 that are not to be redeemed prior to their maturity or (ii) prior to the mailing of the notice of redemption referred to in clause (a) above with respect to any Bonds deemed to have been paid in accordance with this Section 12.01 that are to be redeemed on any date prior to their maturity, apply moneys deposited with the Trustee with respect to such Bonds and redeem or sell Investment Securities so deposited with the Trustee and apply the proceeds thereof to the purchase of such Bonds, and the Trustee shall immediately thereafter cancel all such Bonds so purchased; provided, however, that the moneys and Investment Securities remaining on deposit with the Trustee after the purchase and cancellation of such Bonds shall be sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest due or to become due on all Bonds with respect to which such moneys and Investment Securities are being held by the Trustee on or prior to the redemption date or maturity date thereof, as the case may be. If, at any time (i) prior to the maturity date of Bonds deemed to have been paid in accordance with this Section 12.01 that are not to be redeemed prior to their maturity or (ii) prior to the mailing of the notice of redemption referred to in clause (a) above with respect to any Bonds deemed to have been paid in accordance

with this Section 12.01 that are to be redeemed on any date prior to their maturity, the Authority shall purchase or otherwise acquire any such Bonds and deliver such Bonds to the Trustee prior to their maturity date or redemption date, as the case may be, the Trustee shall immediately cancel all such Bonds so delivered; such delivery of Bonds to the Trustee shall be accompanied by directions from the Authority to the Trustee as to the manner in which such Bonds are to be applied against the obligation of the Trustee to pay or redeem Bonds deemed paid in accordance with this Section 12.01. The directions given by the Authority to the Trustee referred to in the preceding sentence shall also specify (i) the portion, if any, of such Bonds so purchased or delivered and canceled to be applied against the obligation of the Trustee to pay Bonds deemed paid in accordance with this Section 12.01 upon their maturity date or dates and (ii) the portion, if any, of such Bonds so purchased or delivered and canceled to be applied against the obligation of the Trustee to redeem Bonds deemed paid in accordance with this Section 12.01 on any date or dates prior to their maturity. In the event that on any date, as a result of any purchases, acquisitions and cancellations of Bonds as provided in this Section 12.01, the total amount of moneys and Investment Securities remaining on deposit with the Trustee under this Section 12.01 is in excess of the total amount that would have been required to be deposited with the Trustee on such date with respect to the remaining Bonds of such Series in order to satisfy clause (b) of this subsection (2) of Section 12.01, the Trustee shall, if requested by the Authority, pay the amount of such excess to the Authority free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under this Bond Resolution. Except as otherwise provided in this subsection (2) and in subsections (3), (4) and (5) of this Section 12.01, neither moneys nor Investment Securities deposited with the Trustee pursuant to this Section 12.01 nor principal or interest payments on any such Investment Securities shall be withdrawn or used for any purpose other than, and shall be held in trust for, the payment of the principal or Redemption Price, if applicable, of and the interest on said Bonds; provided, however, that any cash received from such principal or interest payments on such Investment Securities deposited with the Trustee, (A) to the extent such cash will not be required at any time for such purpose, shall be paid over to the Authority, as received by the Trustee, free and clear of any trust, lien or pledge securing said Bonds or otherwise existing under this Bond Resolution, and (B) to the extent such cash will be required for such purpose at a later date, shall, to the extent practicable, be reinvested in Investment Securities maturing at times and in amounts sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest to become due on said Bonds on or prior to the redemption date or maturity date thereof, as the case may be, and any interest earned from such reinvestments shall be paid over to the Authority, as received by the Trustee, free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under this Bond Resolution.

For the purposes of this Section 12.01, Investment Securities shall mean and include only (y) such securities as are described in clause (i) of the definition of "Investment Securities" in Section 1.01 hereof and that are not subject to redemption prior to their maturity other than at the option of the issuer thereof, or (z) upon compliance with the provisions of subsection (3) of this Section 12.01, such securities as are described in clause (i) of the definition of "Investment Securities" and that are subject to redemption prior to their maturity at the option of the issuer

thereof on a specified date or dates. In the event of an advance refunding, the Authority shall cause to be delivered a verification report of an Independent Public Accountant.

3. Investment Securities described in clause (z) of subsection (2) of this Section 12.01 may be included in the Investment Securities deposited with the Trustee in order to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01 if and only if, in making the determination as to whether the moneys and Investment Securities to be deposited with the Trustee would be sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest due and to become due on the Bonds that will be deemed to have been paid as provided in subsection (2) of this Section 12.01, such determination is made both (i) on the assumption that the Investment Securities described in said clause (z) were not redeemed at the option of the issuer thereof prior to their maturity date and (ii) on the assumption that such Investment Securities were redeemed by the issuer thereof at its option on each date on which such option could be exercised, that as of such date or dates interest ceased to accrue on such Investment Securities, and that the proceeds of such redemption were not reinvested by the Trustee.

4. In the event that, after compliance with the provisions of subsection (3) of this Section 12.01, the Investment Securities described in clause (z) of subsection (2) of this Section 12.01 are included in the Investment Securities deposited with the Trustee in order to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01 and any such Investment Securities are actually redeemed by the issuer thereof prior to their maturity date, then the Trustee, at the written direction of the Authority, shall reinvest the proceeds of such redemption in Investment Securities; provided, however, that the aggregate of the moneys and Investment Securities to be held by the Trustee, taking into account any changes in redemption dates or instructions to give notice of redemption given to the Trustee by the Authority in accordance with subsection (5) of this Section 12.01, shall at all times be sufficient to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01.

5. In the event that, after compliance with the provisions of subsection (3) of this Section 12.01, the Investment Securities described in clause (z) of subsection (2) of this Section 12.01 are included in the Investment Securities deposited with the Trustee in order to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01, then any notice of redemption to be mailed by the Trustee and any set of instructions relating to a notice of redemption given to the Trustee may provide, at the option of the Authority, that (i) any redemption date or dates with respect to all or any portion of the Bonds to be redeemed on such date or dates may, at the option of the Authority, be changed to any other permissible redemption date or dates, and (ii) redemption dates may be established for any Bonds deemed to have been paid in accordance with this Section 12.01 upon their maturity date or dates at any time prior to the actual mailing of any applicable notice of redemption in the event that all or any portion of any Investment Securities described in clause (z) of subsection (2) of this Section 12.01 have been called for redemption pursuant to an irrevocable notice of redemption or have been redeemed by the issuer thereof prior to their maturity date. No such change of redemption dates or establishment of redemption dates may be made unless, taking into account such changed redemption dates or newly established

redemption dates, the moneys and Investment Securities on deposit with the Trustee (including any Investment Securities deposited with the Trustee in connection with any reinvestment of redemption proceeds in accordance with subsection (4) of this Section 12.01) pursuant to clause (b) of subsection (2) of this Section 12.01 would be sufficient to pay, when due, the principal and Redemption Price, if applicable, of and the interest on all Bonds deemed to have been paid in accordance with subsection (2) of this Section 12.01.

6. Anything in this Bond Resolution to the contrary notwithstanding, any moneys held by a Fiduciary in trust for the payment and discharge of any Bonds that remain unclaimed after the date when such Bonds have become due and payable, either at their stated maturity dates or by call for earlier redemption, if such moneys were held by the fiduciaries at such date, or after the date of deposit of such moneys if deposited with the fiduciaries after the said date when such Bonds became due and payable, shall, be applied, when and as provided in the Uniform Unclaimed Property Act, *N.J.S.A. 46:30B-1 et seq.*, and the fiduciary shall thereupon be released and discharged with respect thereto and the Bondholders shall have such rights as are provided in said Uniform Unclaimed Property Act.

#### **SECTION 12.02. Evidence of Signatures and Ownership of Bonds.**

1. Any request, consent, revocation of consent or other instrument that this Bond Resolution or any Supplemental Resolution may require or permit to be signed and executed by the Holders of Bonds of any Series may be in one or more instruments of similar tenor, and shall be signed or executed by such Holders of Bonds in person or by their attorneys duly appointed in writing. Proof of the execution of any such instrument, or of any instrument appointing any such attorney, shall be sufficient for any purpose of this Bond Resolution or any Supplemental Resolution (except as otherwise expressly provided therein) if made in the following manner, or in any other manner satisfactory to the Trustee, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable. The fact and date of the execution of such instruments by any Holder of any Bond or his attorney may be proved by a guarantee of the signature thereon by a bank or trust company or at the discretion of the Trustee, by a certificate of any notary public or other officer authorized to take acknowledgments of deeds that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or by a member of a partnership on behalf of such corporation, association or partnership, such signature guarantee, certificate or affidavit shall also constitute sufficient proof of his authority.

2. The ownership of Bonds and the amount, numbers, other identification and date of holding the same shall be proved by the registry books maintained by the Authority and kept by the Trustee.

3. Any request or consent by the Holder of any Bond shall be binding on all future Owners of such Bond with respect to anything done or suffered to be done by the Authority or any Trustee in accordance therewith.

**SECTION 12.03. Moneys Held for Particular Bonds.**

The amounts held by any Fiduciary for the payment of the interest, principal or Redemption Price due on any date with respect to particular Bonds shall, on and after such date and pending such payment, be set aside on its books and held in trust by it for the Holders of the Bonds entitled thereto.

## ARTICLE XIII

### MISCELLANEOUS

#### **SECTION 13.01. Liability of Authority Limited to Trust Estate.**

Notwithstanding anything to the contrary contained in this Bond Resolution or in the Bonds, the Authority shall not be required to advance any moneys derived from any source other than the Trust Estate for any of the purposes in this Bond Resolution, whether for the payment of the principal or Redemption Price, if any, of or the interest on the Bonds or for any other purpose hereof. Nevertheless, the Authority may, but shall not be required to, advance for any of the purposes hereof any funds of the Authority that may be made available to it for such purposes.

#### **SECTION 13.02. Successor Is Deemed Included in All References to Predecessor.**

Whenever in this Bond Resolution either the Authority or the Trustee is named or referred to, such reference shall be deemed to include the successors or assigns thereof, and all of the duties, covenants, obligations and agreements contained in this Bond Resolution by or on behalf of the Authority or the Trustee shall bind and inure to the benefit of the respective successors and assigns thereof, whether so expressed or not.

#### **SECTION 13.03. Limitation of Rights to Parties.**

Nothing expressed or implied in this Bond Resolution or in the Bonds is intended or shall be construed to give to any person, other than the Authority, the Trustee, the Paying Agent and the Holders of Bonds, any legal or equitable right, remedy or claim under or with respect to this Bond Resolution or any duty, covenant, obligation, agreement, condition or provision herein or therein contained; and all of such duties, covenants, obligations, agreements, conditions and provisions are and shall be for the sole and exclusive benefit of the Authority, the Trustee, the Paying Agent and the Holders of Bonds.

#### **SECTION 13.04. Waiver of Notice.**

Whenever in this Bond Resolution the giving of notice by mail or otherwise is required, the giving of such notice may be waived in writing by the person entitled to receive such notice, and in any such case the giving or receipt of such notice shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

#### **SECTION 13.05. Destruction of Bonds.**

Whenever in this Bond Resolution provision is made for the cancellation of any Bonds by the Trustee and the delivery thereof to the Authority, unless otherwise requested in writing by the Authority, in lieu of such cancellation and delivery, the Trustee shall destroy such Bonds (in the

presence of an officer of the Authority, if the Authority shall so require) and deliver a certificate of such destruction to the Authority.

**SECTION 13.06. Severability of Invalid Provisions.**

If any one or more of the provisions contained in this Bond Resolution shall for any reason be held to be invalid, illegal or unenforceable in any respect, then such provision or provisions shall be deemed severable from the remaining provisions contained herein, such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Bond Resolution shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein. The Authority hereby declares that it would have entered into this Bond Resolution and each and every section, paragraph, sentence, clause or phrase hereof, and authorized the issuance of the Bonds pursuant hereto, irrespective of the fact that any one or more of the sections, paragraphs, sentences, clauses or phrases of this Bond Resolution may be held illegal, invalid or unenforceable.

Ladies and Gentlemen:

The undersigned, a duly authorized representative of RBC Capital Markets, LLC (the "Representative"), on behalf of itself (the "Underwriter"), hereby offers to enter into this Bond Purchase Agreement (the "Purchase Agreement") with The Morris County Improvement Authority (the "Authority") and SunLight General Sussex Solar, LLC (the "Company") for the purchase by the Underwriter and sale by the Authority of the Series 2011A Bonds and the Series 2011B Note specified below. Upon your acceptance of this offer and upon execution hereof by you and the Company this Purchase Agreement will be binding upon the Authority, the Company and the Underwriter. This offer is made subject to acceptance by the Authority and the Company prior to 8:00 p.m., New York City time, on the date hereof, and upon such acceptance this Purchase Agreement shall be in full force and effect in accordance with its terms and shall be binding upon the Authority, the Company and the Underwriter. Each capitalized term used in this Purchase Agreement and not otherwise defined herein shall have the meaning given to such term in the hereinafter defined Authority Bond Resolution.

Inasmuch as this purchase and sale represents a negotiated transaction, the Authority acknowledges and agrees that: (i) the transaction contemplated by this Purchase Agreement is an arm's length, commercial transaction between the Authority and the Underwriter in which the Underwriter is acting solely as a principal and is not acting as a municipal advisor, financial advisor or fiduciary to the Authority; (ii) the Underwriter has not assumed any advisory or fiduciary responsibility to the Authority with respect to the transaction contemplated hereby and the discussions, undertakings and procedures leading thereto (irrespective of whether the Underwriter has provided other services or is currently providing other services to the Authority on other matters); (iii) the Underwriter is acting solely in its capacity as underwriter for its own

accounts, (iv) the only obligations the Underwriter has to the Authority with respect to the transaction contemplated hereby expressly are set forth in this Purchase Agreement; and (v) the Authority has consulted its own legal, accounting, tax, financial and other advisors, as applicable, to the extent it has deemed appropriate.

1. **Purchase and Sale.** Upon the terms and conditions and upon the basis of the representations, warranties and covenants herein set forth, the Underwriter hereby agrees to purchase from the Authority, and the Authority hereby agrees to sell and deliver to the Underwriter, all of the Authority's (i) \$26,715,000 aggregate principal amount of County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable) (the "Series 2011A Bonds") and (ii) \$985,000 aggregate principal amount of County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable) (the "Series 2011B Note" and together with the Series 2011A Bonds, the "Series 2011 Bonds").

The purchase price of the Series 2011A Bonds is \$26,593,392.74 (representing the principal amount of the Series 2011A Bonds, less an Underwriter's discount in the amount of \$121,607.26). The purchase price of the Series 2011B Note is \$980,516.26 (representing the principal amount of the Series 2011B Note, less an Underwriter's discount in the amount of \$4,483.74).

The proceeds of the Series 2011 Bonds will be applied by U.S. Bank National Association, Morristown, New Jersey, as trustee for the holders from time to time of the Series 2011 Bonds (the "Trustee"). The Series 2011 Bonds are to be issued pursuant to: (i) the County Improvement Authorities Law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State of New Jersey, as amended and supplemented (the "Act"); and (ii) a bond resolution of the Authority entitled "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS, SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY" adopted on September 28, 2011, as amended and supplemented by certificates of an Authorized Officer of the Authority to be executed in connection with the issuance of the Series 2011 Bonds (collectively, the "Authority Bond Resolution"). The Series 2011A Bonds shall be dated and will bear interest from their date of delivery, payable semi-annually on June 15 and December 15 in each year, commencing June 15, 2012, until final maturity or earlier redemption at the rates as set forth in Exhibit A hereto. The Series 2011A Bonds are subject to redemption prior to their stated maturities as set forth in Exhibit A hereto. The Series 2011B Note shall be dated and will bear interest from its date of delivery and will be payable as to principal and interest on its maturity date, January 15, 2013, at the rate as set forth in Exhibit A hereto. The Series 2011B Note shall not be subject to optional redemption prior to its stated maturity as set forth in Exhibit A hereto.

The proceeds of the Series 2011A Bonds will be used to (i) finance a portion of the cost of the Renewable Energy Projects for each of the Series 2011 Local Units, (ii) reimburse certain Renewable Energy Program development costs paid by the County of Sussex, New Jersey (the "County") and the Authority, (iii) pay certain fees and costs incurred by or for the Company in connection with the Renewable Energy Program, and (iv) pay the various costs of issuing the Series 2011 Bonds, all in accordance with and pursuant to the Authority Bond Resolution and a

Lease Purchase Agreement (Sussex County Renewable Energy Program, Series 2011) dated as of December 1, 2011 (the "Lease Agreement") between the Authority and the Company. The proceeds of the Series 2011B Note will be used to pay capitalized interest on the Series 2011A Bonds on June 15, 2012 and December 15, 2012. A portion of the costs of the Renewable Energy Projects will be provided from certain deferred equity contributed by the Company.

The Series 2011B Note shall have equal rank with the Series 2011A Bonds and any other series of Additional Bonds with regard to the receipt of the pledge of Revenues and other amounts under the Authority Bond Resolution and the security and benefit of such pledge and other provisions of the Authority Bond Resolution. The County Guaranty shall be for the benefit of both series of Series 2011 Bonds.

Pursuant to the terms of the Lease Agreement, the Company will be obligated to make lease payments ("Basic Lease Payments") to the Authority sufficient to pay the principal of and interest on the Series 2011 Bonds and, as applicable, Additional Lease Payments (as defined in the Lease Agreement) as and when the same become due and payable upon demand. The payment of the principal of (including Sinking Fund Installments, if any) and interest on the Series 2011 Bonds (but not any redemption premium) shall be guaranteed by the County pursuant to the County Guaranty, as hereinafter defined. The County has the right, power and obligation to cause the levy of *ad valorem* taxes upon all the taxable property within the County, without limitation as to rate or amount, if necessary, in order to meet its payment obligations under the County Guaranty.

On the date of the Closing (as hereinafter defined): (i) the County will have (a) finally adopted a guaranty ordinance relating to the Series 2011 Bonds in accordance with *N.J.S.A. 40:37A-80* of the Act in order to fully and unconditionally guarantee the payment, when due, of the principal of (including sinking fund installments, if any) and interest on the Series 2011 Bonds (the "Guaranty Ordinance"), (b) executed a certificate evidencing such guaranty within each of the Series 2011 Bonds, and (c) executed a "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "County Guaranty Agreement" and collectively with clauses (a) and (b) herein, the "County Guaranty") by and between the County and the Authority; (ii) the County, the Trustee and the Authority shall have executed a Continuing Disclosure Agreement dated as of December 1, 2011 (the "County Disclosure Agreement") with the Trustee, as dissemination agent; and (iv) the County shall have adopted the resolution of the County consenting to the issuance by the Authority of the Series 2011 Bonds (the "Consent Resolution"). The Consent Resolution, the County Guaranty, the County Disclosure Agreement of the County and the County Letter of Representation (as hereinafter defined) are collectively referred to herein as the "County Documents".

## 2. Delivery of Official Statement and Other Documents.

(a) The Authority has previously delivered to the Underwriter the Preliminary Official Statement with respect to the Series 2011 Bonds dated December 1, 2011, which, based in part on certain representations made by the Authority in this Purchase Agreement, the County

in the County Letter of Representation as set forth in Exhibit B hereto (the "County Letter of Representation"), and the Company in the Company Letter of Representation as set forth in Exhibit E hereto (the "Company Letter of Representation" and with the County Letter of Representation, the "Letters of Representation"), the Authority, the Company and the County have "deemed final" as of its date for purposes of Rule 15c2-12 ("Rule 15c2-12") promulgated by the Securities and Exchange Commission of the United States (the "SEC") under the Securities Exchange Act of 1934, as amended (the "Exchange Act") except for the omission of such information as is specified in Rule 15c2-12(b)(1) and except for changes permitted by other applicable law (such Preliminary Official Statement, including all the appendices thereto, shall be referred to as the "Preliminary Official Statement"). Such Preliminary Official Statement, with only such material changes therein as shall have been approved by the Underwriter and the Authority, and including the cover page and all appendices attached thereto, together with such amendments or supplements thereto as are required to be made in accordance herewith subsequent to the date hereof, and which is delivered to the Underwriter, and is complete as of the date of such delivery, is herein called for purposes of this paragraph the "Official Statement." The Authority shall deliver, or cause to be delivered, to the Underwriter within seven (7) business days after the Authority's acceptance of this Purchase Agreement or within such shorter period as may be required by the Underwriter in order to comply with Rule 15c2-12 and other applicable securities laws, rules or regulations and in sufficient time to accompany confirmation that requests payment from any customer, copies of the Official Statement, executed on behalf of the Authority by the Chairperson, in sufficient quantity to comply with the rules of the Securities and Exchange Commission. The Authority shall prepare the Official Statement, including any amendments thereto, in word-searchable PDF format as described in the MSRB's Rule G-32 and shall provide the electronic copy of the word-searchable PDF format of the Official Statement to the Underwriter no later than one (1) business day prior to the December 14, 2011 to enable the Underwriter to comply with MSRB Rule G-32. The Official Statement shall be a "final official statement" for purposes of the Securities and Exchange Commission Rule 15c2-12(e)(3).

(b) The Underwriter agrees that it shall deliver the Official Statement to the Municipal Securities Rulemaking Board (the "MSRB") or its designee and file the Official Statement with EMMA as soon as practicable but in no event later than five (5) business days following receipt thereof.

(c) From the date hereof and for a period of twenty-five (25) days following the end of the underwriting period for the Series 2011 Bonds, if any event shall occur that might cause the Official Statement, as then supplemented or amended, to contain any untrue statement of a material fact or to omit to state a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, and if in joint opinion of the Underwriter and the Authority, such event requires the preparation and publication of a supplement or amendment to the Official Statement, the Authority will cause the Official Statement to be amended or supplemented in a form approved by the Underwriter at the sole cost and expense of the Authority and will furnish to the Underwriter a reasonable number of copies of such supplement or amendment.

(d) Prior to or simultaneously with the execution of this Purchase Agreement:  
(i) Nisivoccia & Company, LLP, Mt. Arlington, New Jersey will have delivered to the County and Authority, respectively, and made available to the Underwriter a letter in form and substance

3. **Public Offering.** The Underwriter agrees to make a *bona fide* public offering of the Series 2011 Bonds at a price or prices not in excess and yields no lower than the initial public offering price or prices or yields set forth on the inside front cover of the Official Statement. The Underwriter reserves the right to change such initial public offering price or prices (or yields), whenever the Underwriter deems it necessary in connection with the marketing of the Series 2011 Bonds, and to offer and sell the Series 2011 Bonds to certain dealers (including dealers depositing the Series 2011 Bonds into investment trusts) and certain dealer banks and banks acting as agents at prices lower than such initial public offering price or prices. The Authority hereby authorizes the Underwriter to use the Official Statement and the information contained therein, and ratifies and confirms its authorization of the use by the Underwriter prior to and after the date hereof of the Preliminary Official Statement in connection with such public offering and sale. The Underwriter, at or prior to the Closing, shall deliver to the Authority a certificate or certificates stating the "issue price" and "yield" of the Series 2011 Bonds.

4. **Authority's Representations, Warranties and Covenants.** By its acceptance hereof, the Authority represents and warrants to and covenants with the Underwriter (and it shall be a condition of the obligation of the Underwriter to purchase and to accept delivery of the Series 2011 Bonds that the Authority shall so represent, warrant and covenant as of the date of the Closing) that, as of the date hereof:

(a) The Authority is a public body politic and corporate created by the County and governed by the Constitution and the laws of the State of New Jersey (the "State"), including without limitation, the County Improvement Authorities Law (*N.J.S.A. 40:37A44 et seq.*), as amended and supplemented, and the Authority was duly organized under and is presently existing under the Act, with the powers, among others, and authority set forth therein.

(d) By official action of the Authority taken prior to or concurrent with the acceptance hereof, the Authority has duly authorized, approved, and consented to all necessary action to be taken by the Authority for: (i) the execution, delivery and performance of each of the Authority Financing Documents and the transactions contemplated hereby and by the Authority Financing Documents and the Official Statement, and the adoption of the Authority Bond Resolution and the transactions contemplated thereby; (ii) the issuance of the Series 2011 Bonds upon the terms set forth herein, in the Authority Bond Resolution and in the Official Statement; (iii) the approval of the Official Statement and the execution of the Official Statement and any amendment thereof or supplement thereto; (iv) the execution, the delivery and the due performance of any and all other agreements and instruments that may be required to be executed, delivered and received by the Authority to which it is a party in order to carry out, to give effect to and to consummate the transactions contemplated by any of the Authority Financing Documents, the Authority Bond Resolution and the Official Statement; and (v) the designation of the Preliminary Official Statement as "deemed final" for purposes of Rule 15c2-12(b)(2) of the SEC and the Official Statement as a "final official statement" for purposes of Rule 15c2-12(e)(3).

(e) Each of the Authority Financing Documents, when executed by the Authority, and upon the valid execution and delivery by the other parties thereto, will be, and the Authority Bond Resolution, is duly authorized and delivered and constitutes the legal, valid and binding obligations of the Authority enforceable in accordance with its terms, except as the enforcement thereof may be affected by bankruptcy, moratorium, insolvency, or other laws or the application by a court of legal or equitable principles affecting creditors' rights ("Creditors' Rights Limitations"), and the Authority has duly authorized and approved the consummation by it of all other transactions contemplated by the Official Statement, any of the Authority Financing Documents and the Authority Bond Resolution to be performed or consummated by it at or prior to the date of the Closing.

(f) The execution and delivery by the Authority of the Official Statement and any of the Authority's Financing Documents and compliance with the obligations on the Authority's part contained herein and therein and the adoption of the Authority Bond Resolution and compliance with the obligations on the Authority's part contained therein, will not conflict with or constitute a breach of or default under any constitutional provision, law, administrative regulation, judgment, decree, loan agreement, indenture, bond, note, resolution, agreement or other instrument to which the Authority is a party or to which the Authority or any of its properties or other assets is otherwise subject or to the establishment or existence of the Authority or its affairs, nor will any such execution, delivery or compliance result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any of the properties or other assets of the Authority under the terms of any

such law, regulation or instrument, except as provided or permitted by the aforementioned documents.

(g) All approvals, consents and orders of any governmental authority, legislative body, board, agency, or commission having jurisdiction in any matter which constitutes a condition precedent to or the absence of which would materially adversely affect the due performance by the Authority of its obligations under any of the Authority Financing Documents, the Authority Bond Resolution and the Series 2011 Bonds and the transactions contemplated hereby and thereby have been, or prior to the Closing will have been, duly obtained, including, but not limited to the findings of the Local Finance Board of the Department of Community Affairs in the Division of Local Government Services of the State (the "Local Finance Board").

(h) The Series 2011 Bonds, when issued and delivered in accordance with the Authority Bond Resolution and sold to the Underwriter as provided herein, will be valid and legally enforceable obligations of the Authority in accordance with their terms and the terms of the Authority Bond Resolution, and the Authority Bond Resolution will provide, for the benefit of the holders from time to time of the Series 2011 Bonds, a valid and legally binding pledge of the Trust Estate (as defined in the Authority Bond Resolution), applicable to such Authority Bond Resolution, to the Trustee, in accordance with and subject to the terms of such Authority Bond Resolution, and further subject to Creditors' Rights Limitations.

(i) The description and information contained in the Preliminary Official Statement and the Official Statement relating to the Authority, its operations, and the transactions contemplated hereby and otherwise by any of the Authority Financing Documents, the Authority Bond Resolution and the Official Statement and other information therein pertaining to the Authority is true and correct in all material respects and does not contain any untrue or incorrect statement or misleading statement of a material fact and does not and will not omit to state a material fact which is necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(j) Except as otherwise disclosed in the Official Statement, there is no action, suit, proceeding, inquiry or investigation, at law or in equity before or by any court, governmental agency or public board or body, pending or, to the knowledge of the Authority, threatened against the Authority or affecting the Authority (or, to the Authority's knowledge, any basis therefore), (i) wherein an unfavorable decision would materially adversely affect the existence of the Authority or the entitlement of its officers or members to their respective offices or (ii) wherein an unfavorable decision would materially adversely affect the transactions contemplated by any of the Authority's Financing Documents, the Authority Bond Resolution or the Official Statement or (iii) wherein an unfavorable decision would materially adversely affect the financial stability of the Authority or (iv) which in any way contests or materially adversely affects the validity, enforceability, execution or delivery of any of the Authority Financing Documents or the Series 2011 Bonds or the validity, enforceability and adoption of the Authority Bond Resolution or (v) which contests the completeness or accuracy of the Official Statement or (vi) which contests the powers of the Authority or any authority or proceedings for the execution, approval and delivery of any of the Authority Financing Documents or the Series 2011 Bonds or the adoption of the Authority Bond Resolution.

(k) The Authority will furnish such information, execute such instruments and take such other action not inconsistent with law in cooperation with the Underwriter as the Underwriter may reasonably request in order: (i) to qualify the Series 2011 Bonds for offer and sale under the Blue Sky or other securities laws and regulations of such states and other jurisdictions of the United States as the Underwriter may designate; and (ii) to determine the eligibility of the Series 2011 Bonds for investment under the laws of such states and other jurisdictions and will use its best efforts to continue such qualification in effect so long as required for the distribution of the Series 2011 Bonds provided, however, that the Authority will not be required to qualify as a foreign corporation or to file any general or special consents to service of process under the laws of any state. The Authority consents to the use of the Preliminary Official Statement by the Underwriter in obtaining such qualifications. If consent to service of process or written consent to suit by the Authority is required in order to successfully qualify the Series 2011 Bonds and, in the judgment of the Underwriter, lack of qualification would adversely affect the ability of the Underwriter to successfully market the Series 2011 Bonds, the Underwriter may, at its option, be relieved of its obligation to purchase the Series 2011 Bonds under this Purchase Agreement unless the Authority agrees to file written consent to suit or service of process.

(l) At the time of the Authority's approval of this Purchase Agreement, there has not been any material adverse change in the financial condition or the operations of the Authority since the date of the Preliminary Official Statement that has not been brought to the attention of the Underwriter in writing prior to the date of this Purchase Agreement.

(m) The Authority is not in violation of or in default (or with the lapse of time and/or the receipt of appropriate notice would be in default) under any existing applicable law, court or administrative regulation, judgment, decree, order, agreement, indenture, mortgage, lease or sublease to which the Authority, any of its officers or members of the Authority or any of its properties is a party or is otherwise bound, that would have a material and adverse effect upon the operations or the financial condition of the Authority.

(n) If, between the date of this Purchase Agreement and the Closing, the Authority issues or otherwise participates in the offering of any bonds, notes or other debt obligations of the Authority, the Authority will promptly notify the Underwriter thereof.

(o) Neither the Authority nor anyone acting on its behalf has, directly or indirectly, authorized any person or entity, other than the Underwriter, to offer the Series 2011 Bonds for resale to the general public, or to solicit any offer to buy the Series 2011 Bonds from the general public.

(p) The Authority will not knowingly take or omit to take any action that will in any way cause the proceeds derived from the sale of the Series 2011 Bonds to be applied in a manner contrary to that which is provided in any of the Authority Financing Documents, or the Authority Bond Resolution or the transactions contemplated thereby.

(q) Any certificate signed by any member of the Authority or authorized officer of the Authority and delivered to the Underwriter shall be deemed a representation and warranty of the Authority to the Underwriter as to the truth of the statements made therein.

(r) The Authority has never been and is not now in default in the payment of principal of or interest on, or otherwise is or has been in default with respect to, any of its bonds, notes, or other debt obligations or lease purchase agreements which it has issued or entered into and the Authority has not entered into any contract or arrangement of any kind which might give rise to any lien or encumbrance on the assets, funds and interests pledged pursuant to, or subject to the lien of, the Authority Bond Resolution.

(s) The Authority has not been notified of any listing or proposed listing by the Internal Revenue Service to the effect that the Authority is a bond issuer whose arbitrage certifications may not be relied upon.

5. **Representations and Warranties of the Underwriter.** By execution and delivery of this Purchase Agreement by the Underwriter, the Underwriter represents and warrants that as of the date hereof:

(a) The Underwriter has full power and authority to execute and deliver this Purchase Agreement and to comply with the provisions hereof;

(b) Assuming the due authorization of the Purchase Agreement by the Authority and approval by the Company, this Purchase Agreement will constitute a legal, valid and binding obligation of the Underwriter, in accordance with the terms hereof except to the extent that enforcement hereof may be limited by Creditors' Rights Limitations;

(c) The Underwriter has and expects in the future to comply with the requirements of Rule 15c2-12 and the requirements and rules of the MSRB and all other regulatory agencies; and

(d) The Underwriter has not entered into any undisclosed financial or business relationship, arrangement or practice required to be disclosed in the Preliminary Official Statement or Official Statement in connection with the initial primary offering of the Series 2011A Bonds, pursuant to Federal Securities and Exchange Commission Release No. 33-7049; 34-33741; FR 42; File No. S74-94 (March 9, 1994) or required to be disclosed in the Preliminary Official Statement or Official Statement pursuant to MSRB rules.

6. **The Closing.** At 10:00 a.m., New York City time, on December 14, 2011, or at such later time or on such later date as may be mutually agreed upon by the Authority, the Company and the Underwriter, the Authority will, subject to the terms and conditions hereof, deliver: (i) the Series 2011 Bonds to the Trustee, as agent of The Depository Trust Company ("DTC") for the account of the Underwriter, pursuant to the DTC FAST procedures, duly executed and authenticated; and (ii) at the offices of Inglesino, Pearlman, Wyciskala & Taylor, LLC ("Bond Counsel"), in Parsippany, New Jersey, the other documents hereinafter mentioned. Subject to the terms and conditions hereof and satisfaction of conditions precedent hereinbefore and hereinafter mentioned, the Underwriter will accept such delivery and pay the purchase price of the Series 2011 Bonds (as set forth in Paragraph 1 hereof) in immediately available funds by check or wire transfer to or upon the order of the Authority or the order of such person as the Authority shall direct. Such delivery of and payment for the Series 2011 Bonds is herein called the "Closing."

The Series 2011 Bonds shall be prepared in fully registered form acceptable to DTC and delivered in denominations of one (1) Series 2011A Bond per maturity thereof and one (1) Series 2011B Note as set forth in Exhibit A hereto, and shall be made available for inspection at such place as the Authority, and the Underwriter may mutually agree upon twenty four (24) hours prior to the Closing.

It is anticipated that Committee on Uniform Security Identification Procedures ("CUSIP") identification numbers will be printed on the Series 2011 Bonds, but neither the failure to print such number on any Series 2011 Bond nor any error with respect to such number shall constitute cause for a failure or refusal by the Underwriter to accept delivery of and pay for the Series 2011 Bonds in accordance with the terms of this Purchase Agreement. All expenses related to the printing of CUSIP numbers on the Series 2011 Bonds and the CUSIP Service Bureau charge for the assignment of said numbers shall be paid for by the Underwriter.

7. **Closing Conditions.** The Underwriter is entering into this Purchase Agreement in reliance upon the representations, warranties, covenants and agreements of the Authority and Company contained herein, in reliance upon the representations, warranties, covenants and agreements to be contained in the documents and instruments to be delivered at the Closing and upon the performance by the Authority and Company of its covenants and agreements hereunder, both as of the date hereof and as of the date of the Closing. Accordingly, the Underwriter's obligation under this Purchase Agreement to purchase, to accept delivery of and to pay for the Series 2011 Bonds shall be conditioned upon the performance by the Authority and Company of its covenants and agreements to be performed hereunder and under such documents and instruments at or prior to the Closing, and shall also be subject to the following additional conditions:

(a) At the time of the Closing, the Authority Financing Documents shall be in force and effect; the Authority Bond Resolution shall be in full force and effect and shall not have been amended, modified, supplemented or rescinded since the date hereof, (except for pricing and sale information or information permitted and contemplated by Section 2.02 (1) (e) of the Authority Bond Resolution), and the Official Statement as delivered to the Underwriter in accordance with the terms of Paragraph 2 hereof shall not have been supplemented or amended without the consent of the Underwriter and no event or circumstance shall have occurred which, in the reasonable opinion of the Underwriter, would require such amendment or supplement.

(b) All official actions of the Authority relating to: (i) the approval, execution and delivery of each of the Authority Financing Documents, the Official Statement and the Series 2011 Bonds; (ii) the approval and adoption of the Authority Bond Resolution; and (iii) the approval of the distribution of the Preliminary Official Statement and the Official Statement shall be in full force and effect.

(c) (i) All official actions of the County relating to the approval, execution and delivery of the County Disclosure Agreement and the final adoption and execution of the County Guaranty shall be in full force and effect, (ii) all official actions of the County relating to the approval and adoption of the County Guaranty and any documents related thereto, to the extent applicable, shall be in full force and effect.

**REDEMPTION PROVISIONS**

**Optional Redemption**

The Series 2011A Bonds maturing on or before June 15, 2021 shall not be subject to redemption prior to their respective maturity dates. The Series 2011A Bonds maturing on and after June 15, 2022 shall be subject to optional redemption by the Authority prior to their respective maturity dates, on or after June 15, 2021, upon notice as herein described, either in whole or in part at any time in any order of maturity as the Authority shall determine and within a single maturity by lot, at a Redemption Price equal to one hundred percent (100%) of the principal amount to be redeemed, plus interest accrued to the date of redemption.

Pursuant to the terms of the County Guaranty Agreement, under certain circumstances, the County may direct the Authority to utilize this otherwise discretionary optional redemption feature set forth above. To the extent the Company causes an Event of Default, as defined under the Company Lease Agreement, to occur and such Event of Default requires the County to make

a payment of the principal of and interest on the Series 2011A Bonds under the County Guaranty, so long as the County is not in default under the County Guaranty Agreement, the County has the right to cause the Authority to refund all or a portion of the Series 2011A Bonds. To the extent the County were to exercise this right prior to the first optional call date of June 15, 2021, the County would be required to cause the Authority to defease the Series 2011A Bonds in accordance with Article XII of the Bond Resolution, in which case the Series 2011A Bonds would not be called for redemption until such first optional call date of June 15, 2021. See "TAX MATTERS - Defeasance of the Series 2011A Bonds" herein for a discussion of the tax implications in the event of a defeasance of the Series 2011A Bonds.

The Series 2011B Note shall not be subject to optional redemption prior to its maturity date.

**Mandatory Sinking Fund Redemption**

The Series 2011A Bonds maturing on June 15, 2027 are subject to mandatory redemption prior to their stated maturities, through selection by the Trustee and upon the giving of notice as provided by the Bond Resolution, by payment of the following "Sinking Fund Installments" on June 15 of each year set forth in the table below, at a Redemption Price equal to one hundred percent (100%) of the principal amount to be redeemed, plus interest accrued to the date of redemption.

**No Extraordinary Optional Redemption**

The Series 2011 Bonds shall not be subject to extraordinary optional redemption in whole or in part, prior to their respective maturity dates.

**Notice of Redemption**

When the Series 2011A Bonds have been selected for redemption pursuant to any provision of the Bond Resolution, the Trustee shall give written notice of the redemption of such Series 2011A Bonds in the name of the Authority, which notice shall set forth: (i) the date fixed for redemption, (ii) the Redemption Price to be paid, (iii) the designated office of the Paying Agent at which redemption will occur, (iv) the CUSIP numbers on the Series 2011A Bonds to be redeemed, (v) if less than all of such Series 2011A Bonds shall be called for redemption, the

distinctive numbers and letters, if any, of such Series 2011A Bonds to be redeemed, (vi) in the case of Series 2011A Bonds to be redeemed in part only, the portion of the principal amount thereof to be redeemed, and (vii) except with respect to a mandatory sinking fund redemption, that such redemption is conditioned upon there being on deposit with the Trustee on the date designated for redemption moneys sufficient for the payment of the Redemption Price and the accrued interest to the redemption date. Such notice shall further state that on the redemption date there shall become due and payable the Redemption Price of all Series 2011A Bonds to be redeemed, together with interest accrued thereon to the redemption date, and that, from and after such date, interest thereon shall cease to accrue. If any Series 2011A Bond is to be redeemed in part only, the notice of redemption that relates to such Series 2011A Bond shall state also that on or after the redemption date, upon surrender of such Series 2011A Bond, the Holder thereof shall be entitled to a new Series 2011A Bond or Series 2011A Bonds, bearing interest at the same rate and in aggregate principal amount equal to the unredeemed portion of such Series 2011A Bond.

The notice required to be given by the Trustee shall be sent by first class mail to the registered Holders of the Series 2011A Bonds to be redeemed, at their addresses as they appear on the Bond registration books of the Authority, not less than thirty (30) nor more than forty-five (45) days prior to the redemption date. The failure to give notice of the redemption of any Series 2011A Bond or portion thereof to the registered Holder of such Series 2011A Bonds shall not affect the validity of the proceedings for the redemption of any Series 2011A Bonds for which notice of redemption has been given in accordance with the provisions of the Bond Resolution.

(f) All approvals, consents and orders of any governmental authority, legislative body, board, agency, or commission having jurisdiction in any manner which constitutes a condition precedent to or the absence of which would materially adversely affect the due performance by the County of its obligations under the County Documents and the transactions contemplated thereby have been duly obtained or will be obtained by the Closing.

(i) If between the date hereof and the later of (i) the date of the Closing or (ii) the period necessary to enable the Underwriter to comply with the requirements of Rule 15c2-12, any event shall occur to the knowledge of the County which would or might cause the material relating to the County contained in the sections of the Official Statement captioned "INTRODUCTION", "THE RENEWABLE ENERGY PROGRAM", "SECURITY FOR THE SERIES 2011 BONDS - County Guaranty" "LITIGATION - The County", "APPENDIX A - Certain Information Concerning the County", and "APPENDIX B - Audited Financial Statements of the County" of the Official Statement, as then supplemented or amended, to contain any untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, the County shall notify the Authority and the Underwriter thereof, and if in the opinion of the Authority or the Underwriter such event requires the preparation and publication of a supplement or an amendment to the Official Statement, the County will fully cooperate with the Underwriter in supplementing or amending the Official Statement, in form and in content which is reasonably satisfactory to the Underwriter and the Authority.

(k) The County is not in violation of or in default (or with the lapse of time and/or the receipt of appropriate notice would be in default) under any existing applicable law,

court or administrative regulation, judgment, decree, order, agreement, indenture, mortgage, lease or sublease to which the County, any of its officers or members of the County or any of its properties is a party or is otherwise bound, that would have a material and adverse effect upon the operations or the financial condition of the County.

\$985,000 The Morris County Improvement Authority  
County of Sussex Guaranteed Renewable Energy Program Lease Revenue  
Note, Series 2011B (Federally Taxable)**

Ladies and Gentlemen:

In connection with the issuance of (i) \$26,715,000 aggregate principal amount of County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable) (the "Series 2011A Bonds") and (ii) \$985,000 aggregate principal amount of County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable) (the "Series 2011B Note" and together with the Series 2011A Bonds, the "Bonds") of The Morris County Improvement Authority (the "Authority") issued pursuant to a resolution entitled "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS, SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY", adopted by the Authority (the "Bond Resolution"), we advise you that in our opinion:

1. The Bond Purchase Agreement dated December 7, 2011, between the Authority, the Company and the Underwriter set forth therein (the "Purchase Agreement") has been duly authorized, executed and delivered, and the Bond Resolution has been duly adopted by the Authority and constitutes a valid, binding and enforceable agreement of the Authority in accordance with its respective terms, except to the extent that the enforceability thereof may be limited by Creditors' Rights Limitations. In rendering the foregoing opinion with respect to the

enforceability of the Purchase Agreement against the Authority and the Company, we have assumed the due authorization, execution and delivery of such documents by the other respective parties thereto. Terms not defined herein shall have the meaning ascribed to such terms in the Purchase Agreement.

2. The Authority has duly authorized the distribution of the Preliminary Official Statement, dated December 1, 2011, (the "Preliminary Official Statement") and duly authorized the distribution of the Official Statement dated December 7, 2011 (the "Official Statement").

3. The description and information in the Preliminary Official Statement and Official Statement set forth under the headings "INTRODUCTION" (except as to the extent as such description and information relates to the County and the Company), "THE RENEWABLE ENERGY PROGRAM", "DESCRIPTION OF THE SERIES 2011 BONDS (except as to "Book-Entry Only System")", "SECURITY FOR THE SERIES 2011 BONDS", "PLEDGE OF THE STATE NOT TO LIMIT POWER OF AUTHORITY OR RIGHTS OF BONDHOLDERS", "LEGALITY FOR INVESTMENT", "BANKRUPTCY - Municipal Bankruptcy", "APPROVAL OF LEGALITY", "TAX MATTERS" and "SECONDARY MARKET DISCLOSURE", and in "APPENDIX D - Form of Bond Resolution, Power Purchase Agreement, License and Access Agreement, Company Lease Agreement and County Guaranty Agreement", "APPENDIX E - Proposed Form of Approving Legal Opinion", and "APPENDIX F - Forms of Continuing Disclosure Agreements" is true and correct in all material respects.

4. Based solely upon our participation as Bond Counsel in the preparation of the Official Statement and without having undertaken to determine independently the accuracy, completeness or adequacy of the statements contained in the Official Statement (other than as to the information under the heading set forth in Paragraph 3 above), we have no reason to believe that, as of the date hereof, the information contained in the Official Statement (except for the financing and statistical data included therein, and the statements contained in the Official Statement under the captions "THE COMPANY", "DESCRIPTION OF THE SERIES 2011 BONDS-Book-Entry Only System", "SOURCES AND USES OF SERIES 2011A BONDS AND SERIES 2011B NOTE PROCEEDS", "BANKRUPTCY-Company Bankruptcy", "LITIGATION", "APPENDIX A - Certain Information Concerning the County", "APPENDIX B - Audited Financial Statements of the County" and "APPENDIX C - Certain Information Concerning the Company", as to which we express no view) contains any untrue statement of a material fact or omits to state a material fact required or necessary to be stated therein in order to make the statements made therein, in the light of the circumstances under which they were made, not misleading in any material respect.

5. The Bonds are exempt securities within the meaning of Section 3(a)(2) of the Securities Act of 1933, as amended, and Section 304(a)(4) of the Trust Indenture Act of 1939, as amended, and it is not necessary in connection with the sale of the Bonds to the public to register the Bonds under the Securities Act of 1933, as amended, or to qualify the Bond Resolution under the Trust Indenture Act of 1939, as amended.

6. All consents, approvals, permits or other actions by or filings with any governmental authority required for the execution by the Authority of the Purchase Agreement,

and the delivery by the Authority of the Purchase Agreement, the Bond Resolution, the Bonds, the Disclosure Agreements, the Lease Agreement and for the performance by the Authority of the transactions contemplated thereby, have been duly obtained or made and are in full force and effect.

The above opinions are limited to and based upon the laws and judicial decisions of the State of New Jersey and the federal laws and judicial decisions of the United States of America as of the date hereof, and are subject to any amendment, repeal or other modification of the applicable laws or judicial decisions that served as the basis for our opinions or to any laws or judicial decisions hereafter enacted or rendered. We assume no obligation to update our opinions after the date hereof to reflect any future action, fact or circumstance, or change in law or interpretation, or otherwise. We express no opinion on the effect of any action taken after the date hereof or not taken in reliance upon an opinion of other counsel on the exclusion from gross income for federal income tax purposes of interest on the Bonds. No opinion is expressed regarding other federal tax consequences or other federal taxes arising with respect to the Bonds.

We note, in connection with the opinions expressed herein, that the enforceability of rights or remedies with respect to the Authority Bond Resolution, the Bonds, the Authority Financing Documents and the County Guaranty may be limited, however, by bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights or remedies heretofore or hereafter enacted and that their enforcement may also be subject to the exercise of judicial discretion in appropriate cases. We express no opinion as to the availability of any particular remedy.

This opinion is being delivered to you at your request. Our engagement by you with respect to the opinions expressed herein does not require, and shall not be construed to constitute, a continuing obligation on our part to notify or otherwise inform you or the reliance parties hereof of the amendment, repeal or other modification of the applicable laws or judicial decisions that served as the basis for this opinion letter or of laws or judicial decisions hereafter enacted or rendered which impact on this opinion letter.

We have examined one of the Bonds as executed by the Authority and as authenticated by the Trustee, and, in our opinion, the form, execution and authentication of said Bonds are regular and proper.

Very truly yours,

Dear Ladies and Gentlemen:

In my capacity as County Counsel to the County of Sussex, New Jersey (the "County"), I have reviewed certain documents and instruments relative to the issuance of (i) \$26,715,000 aggregate principal amount of County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable) (the "Series 2011A Bonds") and (ii) \$985,000 aggregate principal amount of County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable) (the "Series 2011B Note" and together with the Series 2011A Bonds, the "Bonds") by The Morris County Improvement Authority (the "Authority"). Capitalized terms used herein but not otherwise defined shall have the same meanings ascribed to them in the Bond Purchase Agreement dated December 7, 2011 ("Purchase Agreement") between the Underwriter set forth therein and the Authority and Company, and the letter of representation of the County dated December 7, 2011 (the "Letter of Representation").

Based on my examination of an ordinance entitled, "GUARANTY ORDINANCE OF THE COUNTY OF SUSSEX, NEW JERSEY SECURING THE MORRIS COUNTY IMPROVEMENT AUTHORITY'S COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 (FEDERALLY TAXABLE) IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED \$50,000,000" (the "Guaranty Ordinance"), evidenced by (i) the execution by the Director of the Board of Chosen Freeholders of the County of a certificate on the Bonds (the "Guaranty Certificate") and (ii) the executed "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "County Guaranty Agreement" and collectively with the Guaranty Certificate, the "County Guaranty"), the Preliminary Official Statement, the Official Statement of the Morris County Improvement

Authority; and other records of the County as I have deemed necessary, I hereby render the opinion hereinafter set forth.

1. The County is a body corporate and politic of the State duly organized and existing under the laws of the State. The County has full legal right and power and is authorized to adopt, execute, enter into and perform its obligations under the Guaranty Ordinance, the County Guaranty, the County Disclosure Agreement and the Letter of Representation (collectively, the "County Documents") and all such documents have in all respects been duly and lawfully authorized, approved, executed, delivered and published, as applicable by the County as required by law. The County has the legal right to authorize the use of information related to the County in the Preliminary Official Statement and the Official Statement. The County has duly authorized all necessary action to be taken by it for the approval of the use of information related to the County in the Preliminary Official Statement and the Official Statement.

2. The final adoption, execution and performance of the County Documents does not and will not contravene any provision of existing law or regulation and, to the best of my knowledge after due inquiry, will not conflict with, or result in the breach of the terms, conditions or provisions of any agreement of the County, or constitute a default under or result in or permit the creation or imposition of any lien, change or encumbrance upon any of the properties of the County pursuant to any indenture, mortgage or other agreement or instrument to which the County is a party or by which its assets are bound.

3. Each of the County Documents is in full force and effect and constitutes a legal, valid and binding obligation of the County enforceable against the County in accordance with its terms, except as such enforceability may be limited by any applicable bankruptcy, moratorium or similar laws affecting creditors' rights generally ("Creditors' Rights Limitations"), and the obligation of the County to make payments under the County Guaranty is irrevocable, unconditional and a direct and general obligation of the County payable, unless paid by some other source, from the levy of ad valorem taxes upon all the taxable property within jurisdiction of the County without limitation as to the rate or amount.

4. The County Proceedings have not been modified, amended, superseded or rescinded and will remain in full force and effect so long as the Bonds remain outstanding.

5. All consents, approvals or authorizations of any governmental authority required on the part of the County in connection with the final adoption and execution of the County Proceedings and the execution and delivery of the County Documents have been duly obtained, and the County has complied with all applicable provisions of law requiring any designation, declaration, filing, registration and/or qualification with any governmental authority in connection with such adoption, execution and delivery.

6. The County is in compliance with all provisions of all constitutions, statutes, rules, regulations and orders and all governmental and nongovernmental bodies, all governmental approvals and all orders, judgments and decrees of all courts and arbitrators with

respect to the performance of its obligations under, and the execution and delivery of the County Documents.

7. To the best of my knowledge after due inquiry, the County is not in violation of any provision of, or in default under any agreement or instrument which would materially and adversely affect the financial condition of the County.

8. Except as otherwise disclosed in the Official Statement, there is no action, suit, proceeding, inquiry or investigation at law or in equity or by or before any governmental instrumentality or other agency, pending or, to my knowledge, after due inquiry, now threatened against or affecting the County (or, to my knowledge any basis therefor), or to which the County is or may be a party or to which the property of the County is or may be subject; questioning or challenging the validity of any proceeding taken or to be taken by the County in connection with the final adoption of the County Proceedings or authorization, execution and delivery of the County Documents or seeking to prohibit, restrain or enjoin the authorization and final adoption of the County Proceedings, or the execution and delivery of the County Documents, or wherein an unfavorable decision, ruling or finding would adversely affect, financially or otherwise, (a) the existence or organization of the County or the title to office of any member of the Board of Chosen Freeholders of the County or any power of the County, (b) the validity or enforceability of the proceedings taken by the County for the authorization and final adoption of the County Proceedings, the execution and delivery of the County Documents or for the approval of the Official statement, or (c) the ability of the County to perform its obligations under the County Documents.

9. The County has duly authorized all necessary action to be taken by it for the use of the information related to the County in the Preliminary Official Statement and the Official Statement.

10. The information and descriptions in the Official Statement and Preliminary Official Statement set forth under headings "LITIGATION - The County" and APPENDIX A (except for financial and statistical data included therein as to which no opinion is expressed) is accurate and fairly presents the information intended to be shown with respect thereto and does not contain any untrue statement of a material fact or omit to state any material fact required or necessary to be stated therein in order to make the statements made therein, in light of the circumstances under which they were made, not misleading, and without having undertaken to determine independently the accuracy, completeness or fairness of the statements contained in the Official Statement, except as set forth above, I have no reason to believe that information and descriptions set forth in the Preliminary Official Statement and Official Statement under the headings "SECURITY FOR THE SERIES 2011 BONDS - County Guaranty", and "SECONDARY MARKET DISCLOSURE" contained or contains any untrue statement of a material fact or omitted or omits to state a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

11. All actions taken by the County in connection with the authorization of the County Disclosure Agreement and authorization and final adoption of the Guaranty Ordinance

have been in compliance in all respects with the provisions of the State Constitution and applicable laws, including, inter alia, Chapter 231 of the Laws of the State of 1975, as amended, the New Jersey Open Public Meetings Act.

12. The resolution entitled "RESOLUTION PROVIDING SUSSEX COUNTY'S CONSENT TO THE ISSUANCE BY THE MORRIS COUNTY IMPROVEMENT AUTHORITY OF THE AUTHORITY'S COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE BONDS, SERIES 2011 (FEDERALLY TAXABLE) IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED \$50,000,000 AND RELATED DOCUMENTS" and the Guaranty Ordinance have each been duly and lawfully adopted by the County and are in full force and effect, and the covenants of the County therein are valid and binding obligations of the County enforceable in accordance with their terms.

This opinion only may be relied upon by the parties to whom it is addressed. Reliance hereon by any other person requires my written consent.

Very truly yours,

Dennis R. McConnell, Esq.  
County Counsel

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application (the "*Local Finance Board Application*") to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the "*Local Finance Board*") in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall determine to either (i) privately place the Series 2011 Bonds with any of the County,

the State or State affiliate, or other third party, either directly, or through a private placement agent ("*Private Placement Agent*"), or (ii) alternatively, by negotiated or competitive sale, publicly offer the Series 2011 Bonds, in which public offering case the Authority shall need to:

- (a) Authorize the distribution of a preliminary official statement "deemed final" within the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the "*Preliminary Official Statement*");
- (b) If the Series 2011 Bonds shall be sold by:
  - (I) Competitive sale, authorize the distribution of a notice of sale ("*Notice of Sale*"), pursuant to which the Authority shall select an underwriter to purchase all of the Series 2011 Bonds (the "*Underwriter*"), or
  - (II) Negotiated sale, enter into a bond purchase agreement (the "*Bond Purchase Agreement*") with an underwriter to be selected by the Authority through a fair and open process (alternatively, the "*Underwriter*") to purchase all of the Series 2011 Bonds; and
- (c) Execute and deliver a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the "*Official Statement*"), and together with the Preliminary Official Statement, the Notice of Sale or the Bond Purchase Agreement, as applicable, and any of the same or other offering or sale documents that may be required by any Private Placement Agent or direct purchaser under the private sale methodology in clause (i) above, the "*Sale Documents*");

WHEREAS, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 ("*Section 13*") of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the "*Sussex County Board of Freeholders*") and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Lease Agreement, the County Guaranty (including the County Guaranty Agreement), the Power Purchase Agreement, the Company Pledge Agreement, the Continuing Disclosure Agreements, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the "*Program Documents*"), and which report and amended

report shall be accepted by both the County and Morris County by resolution adopted by the Sussex County Board of Freeholders and the Morris County Board of Freeholders pursuant to Section 13; and

**WHEREAS**, the Authority believes: (i) it is in the public interest to accomplish such purposes as set forth in the preambles hereof; (ii) said purpose is for the health, wealth, convenience or betterment of the inhabitants of the Series 2011 Local Units; (iii) the amounts to be expended for said purpose are not unreasonable or exorbitant; and (iv) the proposal is an efficient and feasible means of providing services for the needs of the inhabitants of the Series 2011 Local Units and will not create an undue financial burden to be placed upon the Authority or the Series 2011 Local Units.

**NOW THEREFORE BE IT RESOLVED** by the Board of Commissioners of the Authority as follows:

## EXECUTIVE SUMMARY

### DETAILED DESCRIPTION OF APPLICATION

This application (the "**Application**") has been submitted to the Local Finance Board ("**Board**") for the Board's review and findings related to the issuance by The Morris County Improvement Authority (the "**Authority**") of its not to exceed \$50,000,000 aggregate principal amount of "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds (County of Sussex Program), Series 2011A" [federally taxable] (the "**Series 2011A Bonds**") and one or more series of "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bond or Notes, Series 2011B" [federally taxable] (collectively, the "**Series 2011B Notes**" and together with the Series 2011A Bonds, the "**Series 2011 Bonds**"). Specifically, the Authority is seeking favorable findings from the Board with respect to the following documents defined later in this Executive Summary:

1. Review and findings with respect to the Authority's Bond Resolution ("**RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY**") scheduled for adoption by the Authority at its September, 2011 board meeting, the "**Bond Resolution**") in an aggregate principal amount not to exceed \$50,000,000, as a "Bond resolution" for purposes of the Local Authorities Fiscal Control Law.

2. Review and findings with respect to the Sussex County Guaranty and County Guaranty Agreement in an aggregate principal amount not to exceed \$50,000,000, and the License Agreements, each as a "Service contract" under the Local Authorities Fiscal Control Law.

The Series 2011 Bonds are the third series of bonds being issued by the Authority pursuant to the Renewable Energy Program (the "**Program**") developed by the County of Morris, New Jersey (the "**County**") and the Authority. On February 18, 2010 the Authority closed its first tranche of the Program ("**Tranche I**"). Due to the overwhelming success of Tranche I and the further success of a similar program in other Counties, Sussex County contacted the Authority after being contacted by several local units all anxious to participate in the Program. The Authority is currently in the RFP process for a Solar Developer for its second tranche. This tranche of the Program is solely for local units in and including the County of Sussex.

Under the Program, the Authority shall finance solar projects ("**Renewable Energy Projects**"), and related capital improvements (e.g. roofing improvements and electrical upgrades, "**Capital Improvement Projects**" – none in this tranche, and together with Renewable Energy Projects, "**Projects**") for participating municipalities, boards of education and local authorities within and including the County of Sussex ("**Local Units**"), through the issuance of taxable, County guaranteed bonds of the Authority, 100% of the debt service on which is to be repaid by the one or more (depending on tranche size) competitively selected solar developer(s) (collectively, "**Company**") through one or more request(s) for proposals (collectively, "**RFP**") process in accordance with the competitive contracting provisions of the Local Public Contracts Law. There is no recourse to the Local Unit participants in the Program, as such Local Units shall have no obligation to pay debt service on such Authority bonds.

The Authority intends to issue the Series 2011 Bonds to fund this third tranche of solar projects for 15 Local Units, including the County of Sussex, as set forth on **Exhibit A** to this Executive Summary (the "**Series 2011 Local Units**"). There are 21 solar projects to be developed on 21 Local Unit Facilities for these 15 Series 2011 Local Units (some Local Units have multiple projects, roof and ground/parking,

at a single site). The Authority reserves the right to add to, subtract from, or modify this Local Unit and Local Unit facility list set forth as **Exhibit A**, so long as the Program structure does not change, and the aggregate principal amount of Series 2011 Bonds does not exceed \$50M. The Company RFP provides an accommodation to the Company to self finance all or a portion of the Local Unit Projects if less expensive than financing through the MCIA Bonds. Therefore the Projects can be financed through all public funds, all private funds or a combination of both.

The Series 2011 Local Units were selected through a lengthy process. The Authority and its advisors initially sent out surveys requesting interest in our program and based upon the responses to the surveys site visits were undertaken to determine viability. Through the course of a 2 month period we have had several discussions and meetings with each of the local units and determined the best set of facilities and projects for the Program. We are still in contact with each of the Series 2011 Local Units in order to fine tune the project descriptions and obtain the necessary approvals. Although this list is somewhat final, a Series 2011 Local Unit or an individual project may still be added or eliminated. If any local unit or project is eliminated, we would decrease the size of our bond issue accordingly.

The Authority intends to issue the Series 2011 Bonds in 2 series in the aggregate not to exceed amount of \$50,000,000. Series 2011A Bonds, in approximately \$47,600,000 is scheduled to be issued in November, 2011. Series 2011B Notes, in the amount of approximately 1 year's worth of capitalized interest on the Series 2011A Bonds, is scheduled to be issued no earlier than January, 2012, and repaid in the next year when the first Company Basic Lease Payments are due from the solar developer in late 2013. The Authority respectfully reserves the right to issue either one or two series of Series 2011B/C Notes after consultation with its advisors as to the best economic impact on the Program. Notwithstanding these approximate series breakdown amounts, which were sized to allow the short term Series 2011B Notes to fund the 1 year of Series 2011A capitalized interest, and which Series 2011B Notes will either be sold to an Underwriter (to be held or re-offered) or be bought directly by Sussex County, the Authority reserves the right to issue additional Series 2011B Notes beyond these allocations up to any amount such that the aggregate principal amount of the Series 2011 Bonds (all series) does not exceed \$50M.

The Authority has not yet determined whether Series 2011A Bonds shall be issued to the public through a public offering document at public competitive sale with interest rates to be established by a competitive public bid or through a public offering document with a negotiated sale to an underwriter, selected through a request for proposal process. Given the complexity of the Program, the Authority, together with its financial advisor and bond counsel need to undertake the proper diligence to determine which method of sale will yield the lowest interest rate on the Series 2011A Bonds. The Series 2011B Notes shall be sold to an Underwriter (to be held or re-offered) or privately placed with Sussex County. If Sussex County is the purchaser, Sussex County will sign a "big boy" letter in connection with the private placement of the Series 2011B Notes. If Sussex County is the purchaser of the Series 2011B Notes (only) the Authority will be allowed to call the Notes at any time, without penalty, for \$1, thereby effectively extinguishing the Series 2011B Notes. This would be done should the County Guaranty ever be called upon to pay the Series 2011B Notes, to avoid Sussex County paying itself. This call feature will not exist if the Series 2011B Notes are sold to the Underwriter and, likewise, this call feature would automatically go away (by the terms of the bond documents) should Sussex County ever sell the Series 2011B Notes in the open market to a third-party buyer. None of this should affect the County Security Fund (i.e., the delta, the deficiency), that would be funded by the Solar Developer and in such case would be tapped by Sussex County to reimburse itself from the fact that it invested/bought all or a portion of the Series 2011B Notes, and received \$1 in payment.

Sussex County is placing its full faith and credit guaranty on the entire Series 2011 Bonds in an aggregate principal amount not to exceed \$50,000,000. This lower cost of capital should result in a lower PPA price for the participating local units. Tranche I of the Authority's Program produced a 35% plus

savings for municipal and other local government participants over the life of the 15 year (max permissible under Local Public Contracts Law) Power Purchase Agreement (“PPA”), while the Somerset County Improvement Authority program (for which IPW&T was bond counsel) produced a 60% savings.

Although the County of Sussex is guarantying the entirety of the Series 2011 Bonds in order to achieve the lower cost of capital, resulting in lower PPA pricing, which in turn funds renewable energy projects to the Series 2011 Local Units and will provide a direct budgetary savings on their electricity costs, the County of Sussex anticipates that it will be reimbursed for draws on the County Guaranty, if any, through either (i) the establishment under the Bond Resolution of a County Security Fund that is funded by the Company at closing, or (ii) an initial amortization of Series 2011A Bonds of such size that any remaining debt service payments, after such first year (post capitalized interest period) amortization, are sized such that debt service coverage in years 2 through final maturity exceeds 100% of the Series 2011 Bond debt service after accounting for the remaining Local Unit PPA payments and SRECs that would still be available to pay Series 2011 Bond debt service, should the Company default and walk away from the transaction prior to the 15<sup>th</sup> year maturity, or (iii) an equity contribution from the Company would eliminate or minimize any County of Sussex potential deficiency. The 2<sup>nd</sup> structure was the result of the successful proposal in the SCIA Tranche I, where the initial bond amortization payment was of such large size and linked to a sole condition precedent to payment (i.e., the construction of the Projects, which was virtually assured due to the Authority’s securing of a payment and performance bond in the full amount of the Projects at closing from a third party provided by the Company, beyond the Company’s obligation to develop the Projects), that the County of Sussex perceives only nominal risk that its County Guaranty, if ever called upon, would fail to be reimbursed. The latter structure was the successful proposal in SCIA Tranche II, where an equity contribution of over 25% eliminated any potential county deficiency, taking into account minimum SREC values and fixed PPA payments.

Cheaper PPA pricing through the model is achieved, in part, by having the Renewable Energy Projects (i.e., the solar projects) owned by the Authority under State law, which finances these projects through the low cost Series 2011 Bonds, but which ownership is transferred for federal tax purposes to the Company under a financing lease structure recognized by the IRS (by transferring tax ownership, the Authority is precluded from issuing tax-exempt bonds, although the Authority reserves the right to issue tax exempt bonds, which of course would enhance savings, should circumstances allow for tax exempt financing, not available at the time of submission of this Application). In particular, the Authority leases the Renewable Energy Projects to the Company through a Lease Purchase Agreement, that is intended to transfer all benefits and burdens of ownership to the Company, thereby allowing the Company to be the owner for Federal tax law purposes. This transfer entitles the private Company to a 30% investment tax credit (and prior to December 31, 2012, a Section 1603 Grant from the Treasury in lieu of the credit), accelerated depreciation on a 20 plus year asset (i.e., the solar panels), both of which Federal tax benefits are not available to governments should they issue bonds directly for their own purposes and take true (as opposed to nominal) ownership of these projects. These tax benefits, combined with State law and BPU imposed subsidies through the Solar Renewable Energy Certificate (“SREC”) market (SRECs are available to any person or entity that produces renewable energy in New Jersey, and can be sold or otherwise monetized to provide real economic value), provide the subsidy that makes New Jersey an attractive market for solar developers.

Since the Company shall own the Renewable Energy Projects for tax purposes under the Lease Purchase Agreement with the Authority (the Company is a lessee under State law for the 15 year term of this transaction), the Company is entitled to sell the renewable energy produced from the solar panels to the Authority under the PPA at a fixed 15 year price, plus a fixed escalation, at rates competitively secured through the RFP procurement of the Company. The Authority, a conduit, passes on the obligation and benefit to pay for the cheaper electricity to the Series 2011 Local Units through a License and Access Agreement (“License Agreement”), which also allows the Company to construct the solar

projects on the roofs, grounds and parking facilities of the Series 2011 Local Units. In this third tranche of the Program, a total of approximately 9.37 MW of renewable energy at 21 facilities for 15 Series 2011 Local Units is expected to be produced, unless Exhibit A is adjusted. Although the Company is selling the energy from the solar panels, the electricity physically never leaves the buildings, grounds and parking lots of the Series 2011 Local Units, and therefore these systems are known as on-site generation facilities, generally exempt from utility laws, property taxes and sales taxes.

The lease payments made by the Company under the Lease Purchase Agreement are sized to pay debt service on the Series 2011 Bonds. The Company can afford these payments due to the aforementioned tax benefits, SRECs, and the fact that they receive the benefit of the PPA payments from the Series 2011 Local Units (i.e., as a credit to lease payments owed by the Company), the four primary revenue streams of the Program.

Should the Company walk away from the transaction however, resulting in an insufficiency of lease payments, which would absent some other action, at some point, result in a Series 2011 Bond default, the County Guaranty kicks in to avoid such a default and the Series 2011 Bondholders would be paid. That would leave the County of Sussex out of pocket for the amount of its County Guaranty payment were it not for the fact that the Program is structured to continue to operate, even in a Company default situation. Since the Authority retains ownership in the solar projects, with a lease default, the Company forfeits all rights to the solar projects, the PPA payments, and the SRECs, all of which are now available to reimburse the County of Sussex.

Since the sum of these amounts is less than the County Guaranty, the resulting deficiency, or delta, is known under the Request for solar developer proposals ("RFP") that selects the Company as the County Deficiency Amount, and must be funded by the successful respondent Company to the RFP, through cash, a letter of credit, a parental guarantee, or some form of security acceptable to the County of Sussex. The Authority will look closely at the funding of this County Deficiency Amount to secure this gap in selecting the winning Company under the RFP process. Alternatively, the Authority will also accept proposals that essentially eliminate the County Deficiency Amount through an equally/more favorably secured alternate structure, such as the accelerated amortization/payment and performance bond structure achieved described above.

Further, the Authority will take a pledge of the membership interests (the functional equivalent of a pledge of the stock of a corporation) of any special purpose limited liability company created by the successful Company to develop this transaction in case of any such Company default under a Pledge and Security Agreement, in which case the LLC will be held in trust by the Series 2011 Bond trustee until the Authority can select a replacement solar developer. In total, the County of Sussex has taken several actions to minimize, if not practically eliminate the risk of its County Guaranty.

At the end of the 15 year Company Lease Agreement (term coincident with the Series 2011 Bonds and the PPA), the Company is entitled to purchase the solar panels for nominal consideration. Thereupon, the panels are removed by the Company, at the Company's cost, unless the PPA and Local Unit License Agreement are extended, if permissible under applicable law, or unless the Series 2011 Local Units determine to purchase the panels at fair market value (a requirement of the tax law). The exercise of these various options will depend, in large part, upon the then existing technology upon the 15 year final maturity.

Although the Authority is the conduit bond issuer, notwithstanding anything to the contrary in this LFB Application, Morris County is not securing the Series 2011 Bonds, but Sussex County will be providing that County Guaranty.

The Program has been structured in compliance with (i) N.J.S.A. 40A:11-4.1(k) of the Local Public Contracts Law, (ii) Local Finance Board Notice 2008-20, December 3, 2008, *Contracting for Renewable Energy Services*, (iii) the Board of Public Utilities ("BPU") protocol for measuring energy savings in PPA agreements dated February 20, 2009 (*Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines*), (iv) Local Finance Board Notice 2009-10 dated June 12, 2009, *Contracting for Renewable Energy Services: Update on Power Purchase Agreements*, and (v) all other applicable law, including the county improvement authority enabling act.

Drafts of the Bond Resolution, the master Local Unit License Agreement, the Company Lease Agreement, the County Guaranty Agreement, the RFP, the PPA, the Pledge and Security Agreement, the Company and County Continuing Disclosure Agreements have all been provided in Part V of this Application. These documents shall have been approved by the County of Morris and the County of Sussex pursuant to Section 13 ("Section 13") of the Act (N.J.S.A. 40:37A-56), a form of which resolution to be adopted by each County on July 13, 2011 and July 27, 2011, respectively, shall also be included in Part V of this Application. The first reading of the County Guaranty ordinance (also included in Part V of this Application) and the Section 13 (-56) resolution are scheduled for adoption by Sussex County on July 27, 2011, copies of which shall be promptly forwarded to the Board upon such action (final reading of the County Guaranty ordinance is scheduled to be finally adopted July 27). The Section 13 (-56) resolution is scheduled for adoption by Morris County on July 13, 2011, a copy of which shall be promptly forwarded to the Board upon such action

We have requested that each of the Series 2011 Local Units adopt their LFB authorizing resolution prior to August 3, 2011. However, we have been advised that, due to summer schedules, some of the Series 2011 Local Units may not be able to make that deadline. As we have been working with Series 2011 Local Units closely regarding their projects (as mentioned above) they are well aware of our submission of this application and our deadlines for final approval prior to the issuance of any bonds. Each of the Series 2011 Local Unit LFB Resolutions shall be forwarded upon receipt even if after they are adopted after the date of the hearing. Please note that the Series 2011 Local Units are not responsible for the payment of debt service on the Series 2011 Bonds. As noted, the Authority reserves the right to add or subtract Series 2011 Local Units in order to retain the integrity of this pooled financing.

In consideration of the foregoing, the Authority respectfully requests a hearing scheduled for August 10, 2011, and the favorable findings and approval outlined above.

AUTHORIZING THE PREPARATION AND SUBMISSION OF AN  
APPLICATION TO THE LOCAL FINANCE BOARD PURSUANT TO LOCAL

BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 (FEDERALLY  
TAXABLE) IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED  
\$50,000,000**

WHEREAS, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

WHEREAS, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof

and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “Act”), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, “Section 11”), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the “Shared Services Act”), and all other applicable law, the terms of which agreement has been set forth in that certain “Service Agreement (Sussex County Renewable Energy Program)” dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the “Service Agreement”) between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority’s energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the “Authority Consultants”) and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the “Sussex County Consultants”, if any, and together with the Authority Consultants, the “Consultants”; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the

County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "*Projects*"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, Green Township and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority may sell one or more series of Series 2011 Bonds, (i) one series by either a competitive process or by negotiated sale after a competitive process an underwriter (the "Underwriter") the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the "Series 2011A Bonds"), and (ii) one or more series of notes (collectively, the "*Series 2011B Notes*", and together with the Series 2011A Bonds, the previously defined "*Series 2011 Bonds*"), either by the same sale method as the Series 2011A Bonds or by direct sale to the County; provided, however that the aggregate principal amount of the Series 2011A Bonds and the Series 2011B Bonds together with any other bonds issued under the Bond Resolution shall not exceed \$50,000,000;

**WHEREAS**, the payment of the principal (including mandatory sinking fund installments, if any) in an aggregate principal amount not to exceed \$50,000,000 of, and interest (at interest rates not to exceed the maximum rates set forth in the Local Finance Board Application) on the Series 2011 Bonds, but not any redemption premium, shall be fully, unconditionally and irrevocably guaranteed in accordance with (i) the terms of a guaranty ordinance of the County to be finally adopted by the Board of Freeholders, (ii) by a guaranty certificate to be executed by an authorized officer of the County within each Series 2011 Bond and (iii) a "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" to be dated as of the first day of the month of issuance of the Series 2011 Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Guaranty Agreement*") by and between the County and the Authority, as acknowledged by the Company and the Credit Facility Provider, if any (as hereinafter defined) setting forth, among other things, the County's obligation to make any such guaranty payments in accordance with and within the parameters set forth in the guaranty ordinance and the Bond Resolution (collectively, the "*County Guaranty*"), all pursuant to Section 37 ("*Section 37*") of the Act (N.J.S.A. 40:37A-80);

**WHEREAS**, the holders of any Additional Bonds issued under the terms of the Bond Resolution, the Act and all other applicable law shall also be entitled to the pledge of the Trust Estate under the Bond Resolution on a pro-rata basis with the holders of any Outstanding Bonds as defined therein, including the Series 2011 Bonds, although the guaranty of the County shall only extend to any such Series of Additional Bonds to the extent (i) the aggregate principal amount of all such Series of Additional Bonds, when taken together with the aggregate principal amount of the Series 2011 Bonds, shall not exceed \$50,000,000, or (ii) the County adopts and executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the County Guaranty Agreement, the Company RFP, and as applicable, the Company Proposal, the Authority shall be obligated to obtain a letter of credit, cash, a covenant to provide same, or other form of security acceptable to and issued for the benefit of the County (the "*County Security*") to be issued by a sufficiently rated banking or other financial institution, or if the County Security is provided in the form of immediately available funds or the right to same, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund under the Bond Resolution, which Fund shall not be a part of the Trust

Estate pledged for the payment of the Series 2011 Bonds), the terms of which County Security shall be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among the Company, the County Security Provider, and the Authority, and acknowledged by the County, the provisions of which County Security Agreement, to the extent the County Security is in the form of immediately available funds or the right to same deposited in the County Security Fund created under the Bond Resolution, shall (i) not be set forth in an independent County Security Agreement, and accordingly (ii) be set forth in the Bond Resolution, the County Guaranty Agreement and the Company Lease Agreement;

**WHEREAS**, should the Company fail to make its Basic Lease Payments on time and in full, thereby causing the County to make payments to the Series 2011 Bondholders under the County Guaranty, which in turn causes the County Security to be drawn upon to reimburse the County for all or a portion of any such County Guaranty repayments, (i) the County Security Agreement, if any, shall provide that the Authority assign and pledge the Reimbursement Collateral (as defined in the Bond Resolution) to the County Security Provider, as reimbursement security for any such draw on the County Security, or (ii) to the extent the County Security is in the form of immediately available funds or the right to same deposited in the County Security Fund created under the Bond Resolution, in which case no County Security Agreement shall exist, then the Company, as County Security Provider in such instance, shall only be entitled to such excess County Security, as Reimbursement Collateral, if any shall remain available, after and to the extent the County has been fully paid under its County Guaranty;

**WHEREAS**, the Authority, with the consent of the County, may, depending on the Company Proposal, determine to (i) waive County Security due to the strength of the Company Proposal or otherwise, in which case the terms County Security, County Security Fund, County Security Fund Requirement, County Security Provider and Reimbursement Collateral shall have no effect, or (ii) initially accept as County Security, in lieu of a County Security Agreement, immediately available funds in such amount (defined under the Bond Resolution as the County Security Fund Requirement) as set forth in the Company Proposal, to be funded by the Company in accordance with the terms of the Company Lease Agreement, all as contemplated by the Company Proposal, and all to secure, in part, the County's payment obligations under its County Guaranty should such County Guaranty ever be drawn upon, and which County Security Fund Requirement monies would then be deposited by the Trustee in the County Security Fund created and defined in the Bond Resolution, and which County Security Fund would be specifically excepted from the pledge of the Trust Estate and would not be available to secure the payment of debt service on the Series 2011 Bonds;

**WHEREAS**, in the event the Company provides the County Security Fund Requirement through such a covenant to provide immediately available funds, if applicable, but in any event to secure other Company obligations under the Company Documents, the Authority shall require the Company to further secure such obligations

by pledging certain property interests of the Company and its managing member's interest in and to the Company to the Trustee, all as shall be set forth in the Company Lease Agreement and that certain "Pledge and Security Agreement (Sussex County Renewable Energy Program, Series 2011)" to be dated as of the first day of the month of issuance of the Series 2011 Bonds (as the same may be amended or supplemented from time to time in accordance with its terms, the "*Company Pledge Agreement*"), and issued by the managing member of the Company, in favor of the Trustee, and acknowledged and accepted by the Company;

**RESOLUTION OF THE SERIES 2011 LOCAL UNIT PARTICIPATING IN THE MORRIS COUNTY IMPROVEMENT AUTHORITY'S SERIES 2011 RENEWABLE ENERGY PROGRAM, AND AUTHORIZING SUCH AUTHORITY TO APPLY TO THE LOCAL FINANCE BOARD FOR THE NECESSARY CONSENTS AND APPROVALS ON BEHALF OF SUCH PARTICIPANT, ALL IN CONNECTION WITH THE AUTHORITY'S COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE BONDS, SERIES 2011 (COUNTY OF SUSSEX PROJECT) (FEDERALLY TAXABLE) IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED \$50,000,000 AND THE PARTICIPANT PROJECT FINANCED THEREBY**

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

**WHEREAS**, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "*Act*"), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities,

including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "*Projects*"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, Green Township and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and
- (ii) Byram Township School District, Frankford Board of Education, Franklin Borough Board of Education, Hardyston Township Board of Education, High Point Regional Board of Education, Kittatinny Regional School District, Lafayette Township Board of Education, Lenape Valley Board of Education, Newton Board of Education (collectively, the "*Board of Education Series 2011 Local Units*"); and
- (iii) County, Sussex County Municipal Utilities Authority and Sussex County Technical School (the "*County Series 2011 Local Units*");

(each a "*Series 2011 Local Unit*", and together with any additional local governmental units within the County that might be added by the Authority to the Renewable Energy Program, pursuant to the hereinafter defined Local Finance Board Application or otherwise, collectively, the "*Series 2011 Local Units*"), through the issuance by the Authority of one or more series of bonds and notes entitled "County of Sussex Guaranteed Renewable Energy Program Lease Revenue [Notes] Bonds (County of Sussex Program), Series 2011 (Federally Taxable)" dated their date of delivery, Outstanding (as defined in the Bond Resolution upon issuance) in the aggregate principal amount (including Sinking Fund Installments, if any, as such term is defined in the Bond Resolution) not to exceed \$50,000,000 (the "*Series 2011 Bonds*");

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40:37A:54(I) of the Act and N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application (the "*Local*

*Finance Board Application*") to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the "*Local Finance Board*") in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, the governing body of the Series 2011 Local Unit adopting this resolution (the "*Participant*") desires to authorize the Authority and its consultants to submit the Local Finance Board Application on their behalf to finance the proposed Renewable Energy Project(s) for the Participant (the "*Participant Project*") set forth in Schedule A to **Exhibit A** attached hereto (it being understood that the Participant is taking no action in connection with the other Renewable Energy Projects of the other Series 2011 Local Units as set forth on **Schedule A** to **Exhibit A** hereto and further that a final detailed Participant Project list will be sent to each Series 2011 Local Unit prior to their signing the certificate attached hereto as Exhibit A);

**WHEREAS**, upon or prior to the issuance of the Series 2011 Bonds, and in accordance with (i) N.J.S.A. 40A:11-4.1(k) of the Local Public Contracts Law, (ii) Local Finance Board Notice 2008-20, December 3, 2008, *Contracting for Renewable Energy Services*, (iii) the State Board of Public Utilities ("*BPU*") protocol for measuring energy savings in PPA agreements dated February 20, 2009 (*Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines*), (iv) Local Finance Board Notice 2009-10 dated June 12, 2009, *Contracting for Renewable Energy Services: Update on Power Purchase Agreements*, and (v) all other applicable law, and pursuant to a competitive contracting process governed thereby, which shall include a request for solar developer proposals to be issued by the Authority (the "*Company RFP*") and the receipt of proposals from prospective solar developers, including that (the "*Company Proposal*") of the successful respondent (the "*Company*"), the Authority shall select the Company to (y) design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects and (z) design, permit, acquire, construct, renovate, and install the Capital Improvement Projects, if any, in both cases for the designated Local Unit Facilities of such Series 2011 Local Units, with such Program terms to be set forth in the following Company Documents to be entered into between the Company and, at a minimum, the Authority, or acknowledged by the Company, as applicable:

**WHEREAS**, the pricing terms for the purchase of renewable energy generated electricity produced from the Participant Project and sold through the Authority to the Participant, and bought by the Participant at an agreed upon price lower than that presently being paid by the Participant for electricity from its local utility, which pricing terms shall be competitively procured through the Company RFP process and the Company Proposal, shall be established under the Authority's Series 2011 Local Unit Renewable Energy Program for an initial term no greater than 15 years, simultaneously with, or prior to the issuance of the Series 2011 Bonds;

**WHEREAS**, the Participant understands and acknowledges that by taking this official action, the Participant intends to participate in the Authority's Series 2011 Local Unit Renewable Energy Program to fund the Participant Project, and that the Authority is taking several actions in reliance upon such action, including without limitation seeking

the required approvals from the Local Finance Board to issue the Series 2011 Bonds, as set forth in the Local Finance Board Application, and proceeding with the issuance of the Company RFP, the selection of the Company, the establishment of the renewable energy pricing under the Company Proposal, and the marketing, sale and issuance of the Series 2011 Bonds; and

**WHEREAS**, the Participant believes: (i) it is in the public interest to accomplish such purposes as set forth in the preambles hereof, including the financing of the Participant Project; (ii) said purpose is for the health, wealth, convenience or betterment of the inhabitants of the Participant; (iii) the amounts to be expended for said purpose are not unreasonable or exorbitant; and (iv) the proposal is an efficient and feasible means of providing services for the needs of the inhabitants of the Participant and will not create an undue financial burden to be placed upon the Participant.

**NOW THEREFORE BE IT RESOLVED** by the governing body of the Participant as follows:

**Section 1.** The Participant believes: (a) it is in the public interest to accomplish such purposes as set forth in the preambles hereof, including the financing of the Participant Project; (b) said purpose is for the health, wealth, convenience or betterment of the inhabitants of the Participant; (c) the amounts to be expended for said purpose are not unreasonable or exorbitant; and (d) the proposal is an efficient and feasible means of providing services for the needs of the inhabitants of the Participant and will not create an undue financial burden to be placed upon the Participant.

1. The Local Unit understands that it has been preliminarily selected by the Morris County Improvement Authority (the "Authority") as one of the local government participants in the Authority's 2011 Renewable Energy Program (Sussex County Program) (the "Program"). The Local Unit further understands that although there is no legal agreement between the Authority and the Local Unit until such parties execute that certain "License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)" (a form of which "License Agreement" shall be supplied to the Local Unit by the Authority when the Program is closer to implementation), the information being provided to the Authority in this Certificate enables the Authority to draft the License Agreement, seek the necessary approvals, and otherwise implement the Program.

2. The License Agreement shall refer to the building(s) or ground(s) (each "Local Unit Facility"), location, size and scope (and if applicable, style) of the solar project (the "Renewable Energy Project") to be implemented on behalf of the Local Unit by the Authority and its various contract parties, including a competitively selected solar developer (the "Company"). Various consultants to the Authority, based on site visits and past information supplied by the Local Unit to the Authority, have identified the Local Unit Facility(ies) and Renewable Energy Project(s) (which include solar overlays prepared by Authority consultants) set forth on Schedule A to this certificate for inclusion in the License Agreement, for selection of the Company, and for financing and implementation under the Authority's Renewable Energy Program.

a. The Local Unit Facility and Renewable Energy Project set forth on Schedule A to this certificate has been reviewed on behalf of the Local Unit, at a minimum, by the Local Unit official responsible for managing the day to day affairs of the Local Unit (which may include the undersigned), and at least by an in-house facilities director or consulting engineer and/or architect. Based on such review, and the review of such other in-house officers or employees or outside consultants of the Local Unit's choosing (including council, board, legal or technical review), if deemed necessary by the Local Unit, the description of the Local Unit Facility and Renewable Energy Project set forth on Schedule A to this certificate is materially accurate, and can be used by the Authority in drafting the various Program documents, selecting the Company, and seeking the various Program approvals.

b. The Local Unit understands that any changes desired by the Local Unit to the Local Unit Facility and Renewable Energy Project from that set forth on Schedule A to this certificate (i) are the responsibility of the Local Unit to inform the Authority and its consultants, and (ii) may or may not be accepted by the Authority, depending on the timing of any such proposed change. The Local Unit may contact County Administrator and Authority Chairman, John Bonanni, (973) 285-6047, [jbonanni@co.morris.nj.us](mailto:jbonanni@co.morris.nj.us), the Sussex County Administrator, John Eskilson, (973) 579 - 0250, [jeskilson@sussex.nj.us](mailto:jeskilson@sussex.nj.us), or the Authority's engineering consultant for the Program, Daniel Swayze of Birdsall Services Group, Inc. at (908) 497-8900, [dswayze@birdsall.com](mailto:dswayze@birdsall.com), with any subsequent changes. To the extent the Company proposes other changes acceptable to the Authority, the Authority shall seek the consent of the Local Unit.

\* The Series 2011 Bonds of the Authority are secured, in part, by the Company from payments under the Company Lease Agreement. In addition, the Authority's Series 2011 Bonds are secured under N.J.S.A. 40:37A-80, in full, by the general obligation guaranty of the County of Sussex. Repayments under the Company Lease Agreement will be established five months prior to the Series 2011 Bond payment dates), thereby allowing sufficient time under the County Guaranty, if ever needed, to timely pay the Authority Series 2011 Bonds. Typically, the rating agencies will not require a debt service reserve fund with such timing structure.

2) Purpose of Proposed Financing

- Temporarily finance the construction, improvement or acquisition of facilities, infrastructure, equipment, etc.
- Permanently finance the construction, improvement or acquisition of facilities, infrastructure, equipment, etc.
- Renew outstanding temporary obligations
- Advance refund outstanding permanent obligations
- Current Refunding Issue

3) Amount of Proposed Financing

\$ \$50,000,000\*\* Proposed to be issued  
 \$ \$50,000,000 Maximum to be authorized

\*\*As described in the Executive Summary, the Authority cannot lower the amount of the maximum authorization until the RFP responses from the solar vendors are received and reviewed. Accordingly, the Authority respectfully requests the authorization up to the maximum amount authorized. To the extent responses to the RFP exceed such maximum authorization amount, the Authority will either drop one or more Local Unit Facility from this initial Program or seek supplemental authorization from the local Finance Board. The Series 2011A Bonds and the one or more series of Series 2011B Notes will be issued in the aggregate not to exceed amount of \$50,000,000. The Authority reserves the right to change the par amounts between the 2 series so long as the overall amount does not exceed \$50,000,000. The Authority further reserves the right to issue the Series 2011B Notes in one or more series.

Reservations aside, the Authority anticipates that \$6 per watt (the basis for the project cost estimate) should be sufficient to allow the Authority to issue the Series 2011 Bonds under the \$50M maximum cap of this LFB Application. The amounts funded in this LFB Application will allow for proposals to come in as high as approximately \$6.50 per watt. Although the Authority anticipates the market will be substantially less than \$6 per watt, so many factors go into that number, beyond the control of the

Authority, the Authority did not want to leave too little room for higher solar development costs. All that said, should the solar development costs come in so high that electricity savings will not be generated, the Authority will not proceed with the financing, both as a policy matter and under applicable law in that the Authority under Local Public Contracts Law for 15 year PPA contracts does not exist unless savings are generated.

If yes, Describe:

\* As described in the Executive Summary, the Series 2011 Bonds cannot presently be issued on a tax exempt basis and still allow the private solar vendor (Company) to obtain the federal tax benefits available under the Program, which in turn inure to the benefit of the Series 2011 Local Units with a lower PPA price, unless the Federal income tax code is changed. The Authority reserves the right to issue tax exempt financing should circumstances and law allow.

The Authority will not undertake this financing if the net interest cost exceeds 8% as at such rates, the Authority does not anticipate energy savings for the participating Series 2011 Local Units. Beyond that restriction, the Authority reserves the right to receive the best interest rates, either through a competitive or negotiated sale, for the purchase of all of the Series 2011A Bonds. The Series 2011B Notes will either be sold to an Underwriter or be privately placed directly with the County of Sussex. The maximum interest rate on the one or more series of Series 2011B Notes will not exceed 3.5% for the first series of notes anticipated to be issued in early, 2012. Note that these rates are not to exceed rates as it is extremely difficult to anticipate the market 1-1/2 years from now.

\* See Exhibit II-A to Part II for estimated debt service schedule and interest rates. The Authority along with its financial advisor and bond counsel will determine, based upon market reception, whether to

issue on a negotiated or competitive basis. The Series 2011B interest rate will be determined by the Underwriter RFP. The Authority reserves the right to alter serial and include term maturities in order to achieve the lowest possible cost to the Local Units. The Authority reserves the right to issue premium or discount bonds if it results in lower interest costs.

\*\* As discussed in the Executive Summary, the Authority is proposing level principal, however, the solar developer RFP provides for the option to amortize or prepay the bonds earlier than the scheduled level principal amortization that is set forth in the RFP. Again, the final determination will be made through the competitive contracting solar developer RFP process with the market, all in the effort to achieve the greatest energy savings for the participating Series 2011 Local Units, while minimizing any risk to the County of Sussex under its County Guaranty. Under a similar transaction, roughly half of the principal amount was repaid in the first post capitalized interest period amortization due to the proposal of the successful respondent Company. Should the Authority receive a similar proposal from a solar developer the Authority reserves the right to alter the debt service schedule.

\* Sussex County is rated "Aa2"; no need for credit enhancement, which is essentially provided by the County of Sussex for free through the County Guaranty. In the event of a default (e.g., the solar developer fails to make its general obligation Basic Lease Payments under the lease), the Series 2011 Bonds are secured primarily by the County Guaranty, and therefore Series 2011 Bondholders do not require additional security.

In the event that the County of Sussex initially owns all of the Series 2011B Notes, the County of Sussex has the option, instead of paying itself under the County Guaranty, of causing all of the Series 2011B Notes to be called for redemption and defeasance for \$1. The economic result to the County of Sussex is

the same, in that it will be out the par amount of the Series 2011B Notes, plus accrued interest (see below for how the County of Sussex shall be repaid), but this option allows the County of Sussex to forego the cost and expense of raising funds to pay itself under the County Guaranty (but this provision applies solely to the Series 2011B Notes, and only if and so long as the County of Sussex remains 100% bondholder of the Series 2011B Notes).

If the County of Sussex makes a payment under their County Guaranty (and/or defeases the Series 2011B Notes for \$1), the County of Sussex shall be reimbursed from a combination of the following: (i) PPA payments (the solar projects shall be owned by the Authority for State law purposes, but leased to the solar developer under the lease purchase agreement to convey federal tax ownership to the solar developer – in the event of a solar developer default, the lease goes away, and the Authority's ownership rights are no longer subject to the lien of the lease with the solar developer. In this instance, the panels will not be removed from the Series 2011 Local Unit roofs, and the Series 2011 Local Units shall continue to make PPA payments under their respective license agreements. Since the Solar developer has defaulted, the bond holders will have been paid by the County guaranty, at that point, the Bond Resolution and related documents provide that the PPA payments by the Series 2011 Local Units made under their still in existence License Agreement go to reimburse the County of Sussex for draws under the County Guaranty, (ii) SRECs (similar analysis to (i) above), and (iii) a County Deficiency Amount posted by the Solar Developer, if any. The County Deficiency Amount is established by the winning solar developer under the competitive contracting RFP process as the difference between the amount of the County Guaranty, and the sum of the future PPA payments ((i) above) and SRECs ((ii) above). The County of Sussex recognizes there is this gap, a delta, so the solar developers are required to close that gap defined under the RFP, the Bond Resolution and related documents as the County Deficiency Amount, through the provision of cash, a letter of credit, a parent guaranty, and/or some other security acceptable to the County of Sussex. In addition to PPA price, this provision of security back to the County of Sussex is one of the most important evaluation criteria (Section 6.2 of the RFP) to be reviewed by the Authority and the County of Sussex in selecting the solar developer under the RFP, in addition to experience and ability to perform. The County of Sussex considered full solar developer security for the entire amount of the County Guaranty, (a) but the County of Sussex appreciates that the cost of same will dramatically reduce effective PPA pricing and (b), since the PPA payments and SRECs are expected to continue, the County of Sussex has determined its true risk that needs to be managed is the County Deficiency Amount, and therefore the County of Sussex is focused on maximizing the security for that amount. As noted herein, depending on the proposals received, it is possible, as was the case in other transactions, that the County Deficiency Amount can be structurally eliminated, in which case the Authority reserves the right to incorporate such a structure to the extent it provides greater security to the Authority, Sussex County and/or Series 2011 Local Units.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2009**  
(continued)

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)**

**J. Use of Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**K. Scope of Audit**

The audit covered the financial transactions of the Authority, the activities of the Commissioners, and the records of the General Fund.

**L. Net Assets**

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**2. CONDUIT DEBT OBLIGATIONS**
