#### SECTION 401. Lease of Leased Property.

(a) The Lessor hereby agrees to (i) finance its share of the Renewable Energy Projects and the Capital Improvement Projects, if any, for the Series 2011 Local Units, through the issuance of the Series 2011 Bonds, the balance of which shall be financed by or on behalf of the Lessee through the Equity Contribution, and (ii) enter into the Local Unit License Agreements with the Series 2011 Local Units, thereby giving the Lessor nominal ownership of the Renewable Energy Projects, and providing the Company with a license and access to the Local Unit Facilities for the Series 2011 Local Units.

(c) Upon the acquisition of title to the Leased Property from the Contractor (the timing of which does not adversely affect the Lessee's obligations hereunder, including the obligations to make Lease Payments), the Lessor hereby agrees to lease to the Lessee, except for the Reserved Rights, all of its right, title and interest in and to the Leased Property for the duration of the Lease Term hereof, and to grant to the Lessee an option to purchase the Leased Property as set forth in Article VII hereof. The Lessee hereby agrees to take and lease from the Lessor, other than the Reserved Rights, all of the Lessor's right, title and interest in and to the Leased Property on the terms and conditions set forth in this Company Lease Agreement, including, without limitation, all of the Lessee's duties and obligations under the Program Documents. The lease of the Leased Property from the Lessor to the Lessee is also intended to convey to the Lessee any product of the Leased Property, including any right, title and interest of the Lessor in and to the SRECs and the right to electricity generated from the Renewable Energy Projects for the Series 2011 Local Units at their respective Local Unit Facilities, subject to the terms and conditions of the Program Documents. The Lessor hereby acknowledges the Lessee's intent to exercise such option to purchase the Leased Property during or upon the termination of the Lease Term.

(d) It is an express purpose of this Company Lease Agreement that the benefits and burdens of owning the Leased Property being conveyed by the Lessor to the Lessee pursuant to this Company Lease Agreement be such that the Lessee shall be deemed to be the owner of the Leased Property for purposes of the Code. Accordingly, Lessor and Lessee agree and acknowledge that, for federal income tax purposes: (i) Lessee will treat the use of Series 2011 Bond proceeds to purchase, construct and install the Renewable Energy Projects as construction loan advances of Series 2011 Bond proceeds to Lessee by Authority; (ii) Lessee will treat all payments (or credits against such payments) made under this Company Lease

#### SECTION 403. Net Lease.

(a) The Lessee intends for the Lease Payments to be net to the Lessor. The obligation of the Lessee to pay Lease Payments shall be absolute and unconditional and shall in no way be released, discharged or otherwise affected for any reason, including, without limitation, (i) any defect in the condition, quality or fitness for use of, or title to, any Project or (ii) any damage to or abandonment, destruction, requisition or taking of any portion of any Project.

(c) The Lessee shall pay, from a portion of the proceeds of the Bonds or otherwise, all reasonable expenses incurred by the Lessor in connection with all filings or recordings of any documents relating to this Company Lease Agreement, the other Company Documents, or the Lessor's rights hereunder and thereunder. The Lessor shall have the right to make any of the payments required of the Lessee, but shall not be obligated to pay the same, and to charge such payment with interest at the Overdue Rate from the due date thereof through the date of payment as an Additional Lease Payment to be paid by the Lessee with the next Basic Lease Payment due under this Company Lease Agreement.

Notwithstanding the foregoing, for State law purposes, Lessor and Lessee agree that under the Program Document structure, any benefit to the Company shall be deemed incidental, the primary purpose of the Renewable Energy Program being to provide the Series 2011 Local Units with electricity at multi-year locked in rates to the greatest extent practicable below tariff, which goal has been effectively realized through the financing structure contemplated by the Program Documents.

(b) In the event that the Lessee is unable to comply with its requirements under this Company Lease Agreement prior to the execution of any Acceptance Certificate or if for any reason the design, permitting, acquisition, construction, renovation and installation of any Project is delayed, there shall be no resulting liability on the part of the Lessor and there shall be no diminution in or postponement of the amounts that are due and payable by the Lessee to the Lessor under the terms of this Company Lease Agreement.

**SECTION 505. Additional Rights of Lessee.**

The Lessor agrees that the Lessee shall, at its own expense, have the right to make immaterial changes to any Project or to make such additions, modifications and improvements thereto as in the Lessee's judgment are necessary to enable it to perform its obligations under this Company Lease Agreement without materially impairing the Project or materially changing the design of the Project from the Plans and Specifications; provided, however, that none of the foregoing shall in any way damage the Project or cause the Project to be used for purposes other than those authorized under the provisions of all applicable law. With respect to any such additions (only) to the Project in accordance with the provisions of this Section 505, such additions shall for all purposes of this Company Lease Agreement be deemed to be and remain the property of the Lessee and shall not become part of the Project, and any such item may be removed, altered or changed by the Lessee upon or before the termination of this Company Lease Agreement; provided, however, that such removal, alteration or change shall not damage the Project or, if any such damage shall occur, the Lessee shall repair the same at its sole cost and expense.

**SECTION 506. Maintenance and Use of Project; Lessor Access; Repairs Not to Create Liens.**

(a) With respect to the Renewable Energy Projects or a portion thereof financed under this Company Lease Agreement, the Lessee shall, at its own and sole expense, maintain, preserve and keep such Projects or any portion thereof, as the case may be, in good repair, working order and condition, and shall from time to time make all repairs, replacements and improvements necessary to keep such Projects or any portion thereof in such condition. The requirements to repair and keep the Capital Improvement Projects in good working order shall remain with the owners thereof, the Applicable Series 2011 Local Units.

(b) The Lessee agrees that the Lessor and the Applicable Series 2011 Local Unit shall have the right (but not the obligation) to enter upon the premises at reasonable times and upon reasonable notice in a reasonable manner where the Renewable Energy Projects or a portion thereof, as the case may be, is located in order to inspect the same for the purpose of assuring that such Renewable Energy Projects are being properly maintained, preserved and kept in good repair and condition. The Lessee further agrees that the Lessor or the Applicable Series 2011 Local Unit shall have such rights of access to such Renewable Energy Projects as may be reasonably necessary to cause the proper maintenance, preservation and keeping in good repair of such Renewable Energy Projects in the event of a failure by the Lessee to perform its

warranties or representations or accepts any liabilities or responsibilities with respect to or for the adequacy, sufficiency or suitability of, or defects in or with respect to, the design, permitting, acquisition, construction, renovation or installation of the Project.

**SECTION 503. Construction Performance Bond and Other Guaranty.**

Any Development Contracts authorized to be entered into by the Lessor under the terms of this Company Lease Agreement in connection with the design, permitting, acquisition, construction, and installation of the Renewable Energy Projects and the design, permitting, acquisition, construction, renovation and installation of the Capital Improvement Projects shall be let in accordance with the requirements set forth in Article VII, Sections 7.3, 7.5 and 7.6 of the Company RFP attached as part of Exhibit A-1 hereto. The Lessor shall cause each Contractor to provide a Construction Performance Bond covering, with respect to the portion of the Projects to which the Development Contract applies, the (a) performance of the Development Contract, including coverage for correction of defects developing within one year after completion of construction and commencement of commercial operation of each Project, and (b) payment for labor and materials, in each case issued by a responsible surety company qualified to do business in the State. Such bond or bonds shall name the Lessor, the Lessee as co-obligees, or shall otherwise entitle the Lessor to draw upon such Construction Performance Bond, and shall be in amounts equal to the fixed contract price plus the Equity Contribution, if not so included in the fixed contract price; provided, however, that the one-year post completion and acceptance portion may be limited to ten percent of the Development Contract price allocated to such Project in the Development Contract.

**SECTION 504. Default in Contractors' Performance.**

(a) In the event of default of the Contractor, including any subcontractor, under any Development Contract made in connection with any Project, the Lessee shall promptly proceed, either separately or in conjunction with others, to exhaust the remedies of the Lessee against the Contractor or any subcontractor so in default and against each surety for the performance of such Contractor or subcontractor. All such actions shall be construed to be Costs of the Project for purposes of this Company Lease Agreement, inasmuch as the same shall be necessary to enable any such Project to be designed, permitted, constructed, acquired, renovated or installed in accordance with the terms hereof and of the Development Contracts. The Lessee agrees to advise the Lessor, in writing, of the steps it intends to take in connection with any such default. If the Lessee shall so notify the Lessor, the Lessor may, in good faith, in its own name or in the name of the Lessee, with notice to the Lessee, prosecute or defend any action or proceeding or take such other action involving the Contractor, including any subcontractor, or surety that the Lessor deems reasonably necessary, and in such event the Lessor hereby agrees to cooperate fully with the Lessee, but at the sole cost and expense of the Lessor. Any amounts recovered by way of damages, refunds, adjustments or otherwise in connection with the foregoing shall be paid into the Project Fund or the Revenue Fund, as shall be determined by the Lessee.

(c) The Lessee shall not permit any mechanic's or materialmen's or other lien to be established or remain against any portion of the Projects for labor or materials furnished in connection with any remodeling, additions, modifications, improvements, repairs, renewals or replacements made by the Lessee pursuant to Section 505 hereof and this Section 506, other than Permitted Encumbrances; provided, however, that if any such lien is established and the Lessee notifies the Lessor of its intention so to do, the Lessee may, in good faith, contest any lien filed or established against the Projects and, in such event, permit the items so contested to remain undischarged and unsatisfied during the period of such contest and any appeal therefrom, unless the Lessor shall notify the Lessee that, in the opinion of independent counsel, by nonpayment of any such item, the interest of the Lessor or the Applicable Series 2011 Local Unit in such Project shall be materially endangered or such Project or any part thereof shall be subject to loss or forfeiture, in which event the Lessee shall promptly pay and cause to be satisfied and discharged all such unpaid items or provide the Lessor and the Applicable Series 2011 Local Unit with full security against any such loss or forfeiture. The Lessor shall cooperate, and shall cause the Applicable Series 2011 Local Unit to cooperate fully with the Lessee in any such contest upon such request at the sole cost and expense of the Lessee.

**SECTION 507. Possession and Enjoyment of Projects during Lease Term.**

(a) From and after the execution and delivery of the REP Acceptance Certificate with respect to the applicable Renewable Energy Projects, the Lessor hereby agrees that during the Lease Term the Lessee, so long as the Lessee is not in default hereunder, shall have the quiet use and enjoyment of such Renewable Energy Projects, and the Lessee shall during such Lease Term peaceably and quietly have, hold and enjoy such Renewable Energy Projects, without suit, trouble or hindrance from the Lessor, any 2011 Local Unit, or any party claiming under or through the Lessor or such Local Unit, except as expressly set forth in the Program Documents. The Lessor and the Applicable Series 2011 Local Unit shall, at the request of the Lessee and at the Lessee's sole cost and expense, join in any legal action in which the Lessee asserts its right to such possession and enjoyment against any third-party to the extent the Lessor and the Applicable Series 2011 Local Unit lawfully may so do; in addition, the Lessee, while not in default hereunder, may in its discretion and at its sole cost and expense bring any such action in the name of the Lessor.

(b) From and after the execution and delivery of the CIP Acceptance Certificate with respect to the applicable Capital Improvement Projects, if any, the Lessor and the Lessee hereby agrees that during the Lease Term, the Applicable Series 2011 Local Unit, as fee owner thereof, shall have the quiet use and enjoyment of such Capital Improvement Projects, and the Applicable Series 2011 Local Unit shall during such Lease Term peaceably and quietly have, hold and enjoy such Capital Improvement Projects, without suit, trouble or hindrance from the Lessor or the Lessee, or any party claiming under or through the Lessor or the Lessee, except as may be expressly set forth in the Program Documents.

**SECTION 508. Lessee's Negligence.**

Subject to Section 608 hereof, the Lessee assumes all risks and liabilities, whether or not covered by insurance, for loss or damage to the Projects, or any portion thereof, and for injury to or death of any person or damage to any property, whether such injury or death be with respect to agents or employees of the Lessee or of Contractors or other third parties, and whether such property damage be to the Lessee's property or to the property of others, which injury, death or damage is proximately caused by the negligent conduct of the Lessee or its officers, employees and agents. Including any Contractors. The Lessee hereby assumes responsibility for and agrees to reimburse the Lessor and the Applicable Series 2011 Local Unit for all liabilities, obligations, losses, damages, penalties, claims, actions, costs and expenses (including reasonable attorneys' fees), of whatsoever kind and nature, imposed on, incurred by or asserted against the Lessor or the Applicable Series 2011 Local Unit that in any way relate to or arise out of a claim, suit or proceeding based in whole or in part upon the negligent conduct of the Lessee or its officers, employees and agents, to the maximum extent permitted by law.

**SECTION 509. Project Costs; Payment.**

(a) The Project Costs to be incurred by the Lessee, or on behalf of the Lessee by any Contractor, relating to the acquisition, construction, and installation of the Renewable Energy Projects and the acquisition, construction, renovation and installation of the Capital Improvement Projects for all Series 2011 Local Units have been estimated by the Lessee under the Company RFP to be an aggregate amount not to exceed the sum of the Maximum Gross Bond Funded Project Cost Amount plus the Equity Contribution. Accordingly, the Lessor shall cause the Series 2011 Bonds to be issued, and further, shall cause the Maximum Net Bond Funded Project Cost Amount to be deposited in the Project Fund upon issuance of the Series 2011 Bonds pursuant to Section 2.03(7)(e)(i) and (ii) of the Bond Resolution. The Lessee represents that such initial deposit of the Maximum Net Bond Funded Project Cost Amount, together with interest to be earned thereon prior to disbursement in accordance with the terms hereof and of the Bond Resolution giving rise to the Maximum Gross Bond Funded Project Cost Amount, together with the Equity Contribution, shall be sufficient to pay all of the Costs to design, permit, acquire, construct, and install all of the Renewable Energy Projects and to design, permit, acquire, construct, renovate, and install all of the Capital Improvement Project Costs, in either case for all of the Series 2011 Local Units on, in or about their Local Unit Facilities and in accordance with the Plans and Specifications.

(b) It is expressly acknowledged by the Lessee and the Lessor that the Lessor shall be under no obligation to issue any Bonds in an amount in excess of the Maximum Net Bond Funded Project Cost Amount to fund any Project Cost, including the Costs of any Completion Project related to either the Renewable Energy Projects or the Capital Improvement Projects of the Series 2011 Local Units on, in or about their Local Unit Facilities, unless the Authority agrees to issue a Series of Additional Bonds pursuant to the provisions of Section 2.02(h) hereof.

(b) On or before 10:00 a.m. EST on each date on which the Lessee intends to submit Draw Papers requisitioning funds held by the Trustee in the Project Fund for Costs of the Renewable Energy Projects or Capital Improvement Projects for an Applicable Series 2011 Local Unit (each a "Draw Date"), the Lessee shall advise the Trustee in writing of the aggregate amount of funds needed for disbursement to pay such Project Costs. An amount equal to the lesser of (i) such aggregate amount of funds needed and (ii) the amount of funds available in the Project Fund (and not otherwise earmarked to pay the Costs of the Projects for the other Series 2011 Local Units) shall be applied to the payment of such Project Costs upon submission of the Draw Papers in accordance with subsection (c) below.

(c) Except as otherwise provided in Section 511 hereof, the Lessee shall cause the Trustee to make payments from the Project Fund to the Contractors under the Development Contracts or other third-party vendors, in either case for Costs of the Projects, but only after the Lessee shall have supplied the Trustee with a duly authorized, completed and executed requisition from the Lessee substantially in the form of Exhibit C hereto (together with any attachments thereto, the "Draw Papers"), each executed by the Lessee, acknowledged by the Applicable Series 2011 Local Unit (in accordance with Section 4.1(d) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), and acknowledged as to form only by the Lessor (in accordance with Section 4.1(e) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), stating with respect to each such payment to be made: (i) the requisition number, (ii) the name and address of the Contractor, other person, other corporation or other entity to which payment is due or, if for reimbursement to the Lessee, to which Contractor, other person, other corporation or other entity and when payment has previously been made by the Lessee, and as applicable in either case, the Development Contract under which such payment is or was due, (iii) the amount to be paid, which amount shall be net of an overall (for all Series 2011 Local Unit Renewable Energy Projects) \$1,000,000 retainage amount, (iv) the Renewable Energy Project or Capital Improvement Project to which such payment is to be applied, including the Applicable Series 2011 Local Unit and their Local Unit Facility, (v) that such payment obligation has been properly incurred in accordance with the Plans and Specifications, is an item of the Cost of such Project, is a proper charge against the Project Fund, and has not been the basis of any previous withdrawal, (vi) that attached thereto is a bill, invoice, receipt or other evidence that payment on such Project Cost is due and owing or has been paid by or on behalf of the Lessee. Lessee also agrees to file a monthly Initial Project Workforce Form AA201, and (vii) the amount being requisitioned shall not exceed seventy percent (70%) of any Renewable Energy Project Cost for which payment is being sought, it being expressly understood by the Lessee that for each requisition being submitted, the Lessee shall pay or cause to be paid at least thirty percent (30%) from the Equity Contribution (the ratio of not exceeding seventy percent (70%) payment from requisition and at least thirty percent (30%) payment from Equity Contribution for each Project Cost for which a requisition is submitted shall be defined herein as the "Draw Paper Ratio"), substantially in the form of, and consistent with the instructions included in, Exhibit C-1

- 57 -

(c) Any Project Costs in excess of such estimated Project Cost amount as set forth in subsection (a) above shall be solely borne by and solely paid from any funds available to the Lessee (which shall not include monies under the Bond Resolution, absent the Lessor's written consent). The Lessee hereby covenants to complete all of the Projects in accordance with the Plans and Specifications regardless of the actual Costs of such Projects and regardless of the amounts remaining on deposit in the Project Fund to pay such Project Costs. To the extent the Lessee shall complete all of the Projects in accordance with the Plans and Specifications in an aggregate amount less than any such deposit, plus estimated investment earnings, in the amount of such estimated Project Costs, any excess amounts remaining on deposit in the Project Fund, after the final Acceptance Certificate shall have been filed by the Lessee in accordance with the terms hereof, shall be applied as a credit to the next due Basic Lease Payments otherwise due and owing by the Lessee in accordance with Section 510(e)(1)(B) hereof and Section 5.02(3)(b) of the Bond Resolution.

(d) The Lessee shall cause moneys on hand from time to time in the Project Fund, held by the Trustee, to be made available for payment of all Project Costs, in the manner provided herein for submission of Draw Papers, including Sections 510 and 511 hereof, and in the Bond Resolution, including Sections 5.02(1) and 5.02(2)(a) thereof. The Lessee may cause moneys on hand from time to time in the Project Fund held by the Trustee to be made available for payment of all Company Development Fees and Expenses up to an aggregate amount of \$700,000 unless the Lessee receives the written acknowledgment of a higher ceiling from the Lessor, through the submission of a Certificate of an Authorized Officer of the Lessee substantially in the form of Exhibit D hereto, and otherwise following the terms set forth in Section 5.02(2)(b) of the Bond Resolution; provided, however, that notwithstanding the foregoing, the Lessee may not withdraw moneys from the Project Fund for payment of Company Development Fees and Expenses in excess of \$250,000, excluding those third-party and other Company Development Fees and Expenses approved by the Authority and paid upon issuance of the Series 2011A Bonds or thereafter, until the Company has satisfied, or caused the satisfaction of, all of the Completion Conditions. The Lessee, at its sole discretion, may apply less of the aggregate amount on deposit in the Project Fund and earmarked for payment of Company Development Fees and Expenses to such purpose, and instead apply all or a portion of such amount (including any interest earned thereon) toward Costs of the Renewable Energy Projects or Capital Improvement Projects in the manner contemplated by Sections 510 and 511 hereof, and Section 5.02(2)(a) of the Bond Resolution. Any moneys remaining on deposit in the Project Fund, including interest earnings, upon the payment of all Project Costs (for which the Company shall submit Draw Papers) and all Company Development Fees and Expenses (for which the Company shall submit such Exhibit D form Certificate), shall be applied in the manner set forth in Section 510(e) hereof.

**SECTION 510. Submission of Draws; Procedures; Acceptance Certificates.**

(ii) The Lessee shall file with the Trustee (A) the CIP Acceptance Certificates in the form of Exhibit B-2 hereto, one for each Series 2011 Local Unit that is financing Capital Improvement Projects with a portion of the proceeds of the Bonds, signed by an Authorized Officer of the Lessee with respect to such Capital Improvement Projects or, where applicable, any

Each such REP Acceptance Certificate shall not be filed by the Lessee with the Trustee until so acknowledged by the Applicable Series 2011 Local Unit, and until each such Certificate shall be further acknowledged by an Authorized Officer of the Lessor as to form only. Each such CIP Acceptance Certificate shall not be filed by the Lessee with the Trustee until so acknowledged by the Applicable Series 2011 Local Unit (in accordance with Section 4.3(e) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), and until each such Certificate shall be further acknowledged by an Authorized Officer of the Lessor as to form only (in accordance with Section 4.3(d) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager); and

(iii) The Lessor is holding \$1,000,000 aggregate retainage for all REP Acceptance Certificates and CIP Acceptance Certificates, if any, to ensure all such Projects are completed in accordance with the terms of the Plans and Specifications and as otherwise required by this Company Lease Agreement. Accordingly, as the REP Acceptance Certificates and CIP Acceptance Certificates, if any, for each Series 2011 Local Unit are completed and filed with the Trustee, the Lessee shall not be entitled to the release of any retainage, until the submission of the final Acceptance Certificate in accordance with Section 5.10(e) of the Company Lease Agreement.

(c) If, upon the completion of the design, permitting, acquisition, construction, renovation and installation of all of the Projects for the Series 2011 Local Units on or prior to December 15, 2012 (as such date may be extended due to a Force Majeure event or events or a Local Unit Event of Default under the Applicable Local Unit License Agreement), as evidenced by the filing of all Acceptance Certificates by the Company, as duly acknowledged by the Series 2011 Local Units and the Lessor, on or prior to December 15, 2012 (as such date may be extended due to a Force Majeure event or events or a Local Unit Event of Default under the Applicable Local Unit License Agreement), all in accordance with the terms hereof, of the Bond

The Lessee may, at its own expense and in its or the Lessor's name, contest in good faith any such taxes, assessments or utility or other charges (and the Lessor shall cooperate fully in any such contest) and, in the event of any such contest, permit such taxes, assessments or other charges so contested to remain unpaid during the period of such contest and any appeal therefrom, unless the Lessor shall notify the Lessee that, in the opinion of independent counsel, by nonpayment of any such items, the interest of the Lessor in the Renewable Energy Projects shall be materially endangered, or the Renewable Energy Projects or any part thereof shall be subject to loss or forfeiture, in which event the Lessee shall promptly pay such taxes, assessments or charges or provide the Lessor with full security against any loss or forfeiture that may result from nonpayment.

To the extent the final Acceptance Certificate for all of the Series 2011 Local Units shall not have been filed by the Lessee, as duly acknowledged by the Series 2011 Local Units and the Lessor, all in accordance with the terms hereof, of the Bond Resolution, and of the Local Unit License Agreements for the Series 2011 Local Units, on or prior to December 15, 2012, as extended if applicable (thereby causing an Event of Default hereunder, but not under the Bond Resolution), the Trustee shall transfer any funds remaining on deposit in the Project Fund as set forth in a Certificate of an Authorized Officer of the Authority, as required pursuant to the provisions of Section 5.02(3)(b) of the Bond Resolution.

The Lessee shall deposit with the Lessor original policies evidencing any such insurance procured by it or a certificate or certificates of the respective insurers stating that such insurance is in full force and effect. Before the expiration of any such policy, the party obligated under the terms of this Company Lease Agreement to maintain such insurance shall furnish to the other party evidence that the policy has been renewed or replaced by another policy conforming to the provisions of Article V hereof and this Article VI, unless such insurance is no longer obtainable in which event such party shall notify the other party of this fact and the Lessee shall thereafter self-insure pursuant to the terms of this Article VI. Said policy or policies shall provide coverage in an amount not less than \$5,000,000.00, shall be maintained. Such coverage will include all owned, non-owned, leased and/or hired motor vehicles, which may be used by Lessee in connection with the services, required under the Power Purchase Agreement, such auto liability insurance may be maintained as part of or in conjunction with any other liability insurance coverage carried or required to be carried by the Lessee, and may be maintained in whole or in part in the form of self-insurance by the Lessee; provided, however, that such self-insurance complies with the provisions of Section 614 hereof. To the extent the Lessee is procuring or maintaining such insurance, such coverage may, at the option of the Lessee, be provided through a self-insurance program that is established and operating in conformity with all applicable State law. To the extent that any other entity is procuring or maintaining such insurance, such insurance shall be provided under a policy written by an insurance company approved by the State in a minimum amount of \$5,000,000 for damage

SECTION 609. Title to Projects Upon Termination of Company Lease Agreement.

(a) Upon the financing of the Renewable Energy Projects with a portion of the proceeds of the Bonds and the filing of the REP Acceptance Certificates, the Lessor shall be the holder of title to such Renewable Energy Projects for all State law purposes, subject to the lease of the Lessor contemplated hereby. Upon the filing of the CIP Acceptance Certificates, if any, the parties hereto acknowledge that the respective Series 2011 Local Units shall be the fee owners of the respective Capital Improvement Projects described in any such Certificates. The parties further acknowledge that the Lessor may assign the Reimbursement Collateral pursuant to the terms of the County Security Agreement, if any, and/or the County Guaranty Agreement. So long as no Event of Default shall have occurred and be continuing hereunder, the Lessor shall not sell, assign or alienate all or any part of the Renewable Energy Projects (but such provision shall not apply to the Capital Improvement Projects, the Lessor having no interest therein) or any interest therein to any other Renewable Energy Program Interested Party or other third-party (other than to the Lessee pursuant to Article VII hereof), it being the purpose and intent hereof that the Lessee shall have the option to purchase all of the Lessor's right, title and interest in and to the Renewable Energy Projects during or upon the termination of this Company Lease Agreement, with credit toward the Basic Lease Payments for any such purchase price paid, all in accordance with Article VII hereof.

interest shall be deemed extinguished under State Law and such title thereto shall be deemed automatically and without further action conveyed by Lessor to Lessee, (ii) except for the rights of the Series 2011 Local Units to effect a fair market value purchase of their respective Renewable Energy Projects in accordance with subsection (d) below, to the extent all Lease Payments have been made by the Lessee in full, all other covenants, agreements and obligations of the parties hereto under this Company Lease Agreement shall cease, terminate, and be deemed discharged and satisfied, and (iii) the Lessor and its officers shall take all actions necessary to authorize, execute and deliver to the Lessee any and all documents necessary to vest in the Lessee all of the Lessor's right, title and interest in and to the Renewable Energy Projects, free and clear of all liens, leasehold interests and encumbrances, including, if necessary, a release of any and all liens or interests created under the provisions of this Company Lease Agreement. In such event, the Trustee shall cause a statement of debits and credits for such period or periods as shall be requested by the Lessor or the Lessee to be prepared and filed with the Lessor and the Lessee, and, upon the request of the Lessor or the Lessee, shall execute and deliver to the Lessor and the Lessee all such instruments as may be desirable to evidence such discharge and satisfaction.

(c) Upon the termination of this Company Lease Agreement due to an optional or mandatory pre-purchase of the Renewable Energy Projects in accordance with Section 402(a)(j) and Sections 701 or 702, as applicable, hereof, (i) the rights of the Lessor and the Lessee in the title to the Renewable Energy Projects (but not the Capital Improvement Projects, which title shall remain with the respective Series 2011 Local Units) shall be as set forth in Section 703 hereof, (ii) except for the rights of the Series 2011 Local Units to effect a fair market value purchase of their respective Renewable Energy Projects in accordance with subsection (d) below, to the extent all Lease Payments have been made by the Lessee in full, all other covenants, agreements and obligations of the parties hereto under this Company Lease Agreement shall cease, terminate, and be deemed discharged and satisfied, and (iii) the Lessor and its officers shall take all actions necessary to authorize, execute and deliver to the Lessee any and all documents necessary to vest in the Lessee all of the Lessor's right, title and interest in and to the Renewable Energy Projects, free and clear of all liens, leasehold interests and encumbrances, including, if necessary, a release of any and all liens or interests created under the provisions of this Company Lease Agreement. In such event, the Trustee shall cause a statement of debits and credits for such period or periods as shall be requested by the Lessor or the Lessee to be prepared and filed with the Lessor and the Lessee, and, upon the request of the Lessor or the Lessee, shall execute and deliver to the Lessor and the Lessee all such instruments as may be desirable to evidence such discharge and satisfaction.

(d) Upon the termination of the Power Purchase Agreement, the parties acknowledge that (i) the Company and each Series 2011 Local Unit shall have thirty (30) days from any such termination to negotiate a fair market value purchase price for the Renewable Energy Project developed for any such Applicable Series 2011 Local Unit and (ii) to the extent the Company and any such Applicable Series 2011 Local Unit can agree to any such fair market value purchase price for such Renewable Energy Project, the parties acknowledge that the right, title and interest in and to such Renewable Energy Project may be sold by the Lessee to any such

#### SECTION 610. No Further Encumbrances; Exceptions.

(a) The Lessee shall not, directly or indirectly, create, incur, assume or suffer to exist any mortgage, pledge, lien, charge, encumbrance or claim on or with respect to the Projects, other than the respective rights of the Lessor and the Lessee as herein provided and the Permitted Encumbrances or in any other Program Document. Except as expressly provided in this Article VI, the Lessee shall promptly, at its own expense, take such action as may be necessary to discharge or remove any such mortgage, pledge, lien, charge, encumbrance or claim if the same shall arise at any time. The Lessee shall reimburse the Lessor and/or the Applicable Series 2011 Local Units, as applicable, for any expense incurred by it in order to discharge or remove any such mortgage, pledge, lien, charge, encumbrance or claim.

(b) The Lessee may, at its own expense and in its name, contest in good faith any taxes, assessments or utility and other charges and, in the event of any such contest, permit the taxes, assessments or other charges so contested to remain unpaid during the period of such contest and any appeal therefrom, unless the Lessor shall notify the Lessee that, in the opinion of independent counsel, by nonpayment of any such items the interest of the Lessor in the Projects shall be materially affected or the Projects or any part thereof shall be subject to loss or forfeiture, in which event the Lessee shall promptly pay such taxes, assessments or charges or provide the Lessor with full security against any loss that may result from nonpayment, in form satisfactory to the Lessor.

#### SECTION 611. Trustee Indemnification.

The Lessee shall (a) indemnify and save harmless the Trustee and its agents, employees, officers and directors from and against any and all liabilities, including, without limitation, all claims, demands, damages, losses, costs, penalties, charges and expenses (including, but not limited to, reasonable attorneys' fees) in any way relating to or arising from (i) the development, ownership, possession, operation, condition, sale, rental, sub-rental or return of the Projects, (ii) the Program Documents, and (iii) any resignation by the Trustee in accordance with Section 10.07(2) of the Bond Resolution; and (b) reimburse the Trustee for all losses, costs, charges and expenses (including, but not limited to, reasonable attorneys' fees) that the Trustee may incur or be subject to as a consequence, directly or indirectly, of involvement in any legal proceeding or action relating to the foregoing; provided, however, that no indemnification or reimbursement shall be due to the extent that the Trustee has acted with negligence or willful misconduct in connection with the liabilities for which the Trustee is seeking indemnification or reimbursement. All amounts that become due from the Lessee under this Section 611 shall be credited with any amounts received by the Trustee from insurance provided by the Lessee, shall be payable by the Lessee within thirty (30) days following demand therefor by the Trustee, and shall survive the termination or expiration of this Company Lease Agreement.

(e) Upon the termination of this Company Lease Agreement due to a Lessee Event of Default in accordance with Section 402(a)(i) hereof, (i) Lessor shall possess full right, title and interest in and to the Renewable Energy Projects for all of the Series 2011 Local Units (but not the Capital Improvement Projects, if any, which title shall remain with the respective Series 2011 Local Units), (ii) Lessee shall have no further leasehold or other right, title and interest in and to such Renewable Energy Projects (nor any such Capital Improvement Projects), (iii) except for the rights of the Series 2011 Local Units to effect a nominal value purchase of their respective Renewable Energy Projects in accordance with subsection (f) below, to the extent all Lease Payments have been made by the Lessee in full, all other covenants, agreements and obligations of the parties hereto under this Company Lease Agreement shall cease, terminate, and be deemed discharged and satisfied, and (ii) the Lessee and its officers shall take all actions necessary to authorize, execute and deliver to the Lessor any and all documents necessary to vest in the Lessor all of the Lessee's right, title and interest in and to the Renewable Energy Projects, free and clear of all liens, leasehold interests and encumbrances, including, if necessary, a release of any and all liens or interests created under the provisions of this Company Lease Agreement. In such event, the Trustee shall cause a statement of debits and credits for such period or periods as shall be requested by the Lessee or the Lessor to be prepared and filed with the Lessee and the Lessor, and, upon the request of the Lessee or the Lessor, shall execute and deliver to the Lessee and the Lessor all such instruments as may be desirable to evidence such discharge and satisfaction.

(f) Upon the termination of this Company Lease Agreement as contemplated in Section 609(e) above, the parties acknowledge that the right, title and interest in and to the Renewable Energy Project developed for any one or more Series 2011 Local Units may be sold by the Lessor to any such Applicable Series 2011 Local Unit for nominal consideration in accordance with the provisions of Section 5.2(a)(iv) of the Local Unit License Agreement for such Applicable Series 2011 Local Unit.

(g) Notwithstanding any other provision of this Section 609, in no event shall there be any transfer of any Renewable Energy Project or any interest therein to any person (such as a governmental entity) if such transfer would result in a Tax Benefit Recapture Event. The expression "Tax Benefit Recapture Event" means an event which would entitle the United States Department of the Treasury or the Internal Revenue Service to require that the Lessee return all or part of the Section 1603 Grant in lieu of tax credit received in connection with the Renewable Energy Projects, or to disallow the Lessee's tax deductions or recapture all or a portion of the investment tax credits previously claimed with respect to investments in energy property for depreciation.

#### SECTION 613. Net Proceeds of Insurance; Form of Policies.

(a) Each policy of insurance obtained pursuant to or required by this Article VI shall provide that all Net Proceeds thereunder shall be payable (i) with respect to the Renewable Energy Projects, to the Lessor for deposit with the Trustee in the Project Fund, the Revenue Fund or such other Fund or Account under the Bond Resolution, in any event as directed by the Lessee, but only so long as the Lessee has not caused an Event of Default hereunder, in which latter case such Net Proceeds shall be payable to the Lessor, (ii) with respect to the Capital Improvement Projects, to the Applicable Series 2011 Local Unit, or at their direction, to the Trustee for deposit in the Project Fund, or other Fund or Account under the Bond Resolution, or (iii) if not discernible as to Project or otherwise, payable to the Lessor or at the Lessor's direction, to the Trustee for deposit in the Project Fund, the Revenue Fund, or other Fund or Account under the Bond Resolution.

(b) The Lessee shall pay or cause to be paid when due the premiums for all insurance policies required by this Company Lease Agreement, and shall promptly furnish or cause to be furnished to the Lessor and the Series 2011 Local Units evidence of such payments. All such policies shall provide that the Applicable Series 2011 Local Units and the Lessor shall be given not less than thirty (30) days' notice of each expiration, any intended cancellation and any intended reduction of the coverage provided thereby.

(c) Neither the Applicable Series 2011 Local Units nor the Authority shall be responsible for the sufficiency of any insurance herein required, and shall be fully protected in accepting payment on account of such insurance or any adjustment, compromise or settlement of any loss agreed to by the Applicable Series 2011 Local Units or the Authority, as the case may be.

(d) The Lessee shall cause to be delivered to the Applicable Series 2011 Local Units and the Lessor on each anniversary of the date of issuance of the Series 2011 Bonds a Certificate of an Authorized Officer of the Lessee, satisfactory to the Applicable Series 2011 Local Units and the Lessor, that the insurance policies required by this Company Lease Agreement are in full force and effect.

#### SECTION 614. Self-Insurance.

Self-insurance, in lieu of policy coverage, maintained by the Lessee pursuant to this Article VI shall only be deemed to comply with this Article VI to the extent all of the following are satisfied:

(b) The self-insurance program shall be approved by an Independent Insurance Consultant;

(c) The self-insurance program shall include an actuarially sound claims reserve fund out of which each self-insured claim shall be paid; the adequacy of each such fund shall be evaluated on an annual basis by an Independent Insurance Consultant; and any deficiencies in any self-insurance claims reserve fund shall be remedied in accordance with the recommendation of an Independent Insurance Consultant;

(d) The self-insurance claims fund shall be held in a separate trust fund by an independent trustee, which independent trustee may also be the Trustee serving as such under the Bond Resolution;

(e) The self-insurance program shall comply in every particular with all applicable law; and

(f) In the event the self-insurance program shall be discontinued, the actuarial soundness of its claims reserve fund, as determined by an Independent Insurance Consultant, shall be maintained.

- 71 -

of the Lessor's right, title and interest in and to the Renewable Energy Projects (but not the Capital Improvement Projects, if any) in whole, at the times set forth in Section 701(c) hereof, by paying to the Trustee the "Purchase Option Price", which for any date of calculation shall be the sum of (i) the aggregate amount of unpaid principal of the Bonds to their maturity date under the terms of the Bond Resolution and as set forth in the Lessee's notice to the Trustee of such prepayment, (ii) any interest accrued on the Bonds from the last Interest Payment Date thereof on which interest thereon was paid to the final maturity date set forth in clause (j) above, (iii) the redemption premium, if any, applicable to the payment of the Bonds on the maturity date set forth in clause (j) above, and (iv) any costs of redemption or defeasance or other Administrative Expenses incurred by any party to a Program Document in implementing such prepayment.

The Lessee may direct the Trustee in writing, with a copy to the Lessor, that all or a portion of the Purchase Option Price (where all of the Outstanding Bonds shall be paid) shall be funded from the County Security Fund, if any, and the Lessor shall cause the Trustee, pursuant to the terms set forth in the Bond Resolution, to promptly comply with any such direction.

(c) The prepayment options set forth in subsections (a) and (b) above may be exercised by the Lessee at any time by (i) giving written notice to the Trustee and the Lessor of the exercise of such option at least fifty-two (52) days prior to the final maturity date set forth in such notice, and (ii) if the prepayment shall occur before January 15, 2021, complying with any other requirements of Article XII of the Bond Resolution that may be required by the Trustee or the Lessor to defease the Bonds in accordance with the terms of the Bond Resolution, including, without limitation, a verification report from a nationally recognized accounting firm approved by the Trustee and the Lessor to the effect that the amount so prepaid shall equal the Purchase Option Price (for a full prepayment) and shall therefore be sufficient to defease the Bonds (in whole or in part, as the case may be) by paying all of the principal thereof and redemption premium, if any, thereon through and including the final maturity thereof, plus all interest accruing thereon to such final maturity date. Such option shall be exercised by depositing with said notice cash and/or Investment Securities in such amount as shall be sufficient, together with interest to accrue thereon, to pay the Bonds to be defeased on said redemption date.

(d) Notwithstanding any provision herein or in any Program Document to the contrary, the Lessee may not advance refund, currently refund or otherwise refund any Series of Bonds with bonds, notes or other obligations of the Lessee, or such other moneys available to the Lessee, and use such moneys to make any prepayments hereunder unless (i) provision has been made by the Lessee for the payment of all (A) principal of, redemption premium if any, and interest on the Series of Bonds being refunded to any redemption date and (B) Administrative Expenses of the Lessor relating thereto, and (ii) if applicable, prior written notification of any such refunding has been given to the Lessor. Notwithstanding the foregoing, the Lessor may, in its sole discretion at the times and under the circumstances and for the purposes set forth in the Bond Resolution, advance refund, currently refund, or otherwise refund any Series of Bonds, the allocation of the benefit from which shall be determined between the Lessor and the Lessee at the time of any such defeasance and/or refunding.

## ARTICLE VII

### OPTION TO PURCHASE; PREPAYMENT OF LEASE PAYMENTS

#### SECTION 701. Lessee's Prepayment and Purchase Option; Purchase Option Price.

(a) The Lessee is hereby granted the option to prepay its Basic Lease Payments in part, in accordance with Section 8.07 of the Bond Resolution. Any partial prepayment shall not affect the Lessor's right, title and interest in and to the Renewable Energy Projects, nor the Series 2011 Local Units' right, title and interest in and to the Capital Improvement Projects. At the Lessee's option, as directed in a Certificate of an Authorized Officer of the Company delivered by the Company to the Trustee, the Lessor, and the County accompanying any such partial prepayment, any such partial prepayment shall be either (i) credited to the next due interest portion of Basic Lease Payments due from the Lessee, and if not fully applied, to the next due Principal Portion of Basic Lease Payments due from the Lessee, and then to the next due future interest portion, and then Principal Portion, of Basic Lease Payments until fully applied or (ii) applied to defease Outstanding Bonds in the manner contemplated by Article XII of the Bond Resolution, and in the amounts and on the dates as set forth in any such partial prepayment Certificate of the Company, which in the case of such defeasance option selected by the Company, such Certificate of the Company shall be acknowledged by an Authorized Officer of the Authority to the effect that such dates and amounts conform to the requirements of the Bond Resolution. Upon any such partial prepayment, new schedules reflecting the revised Basic Lease Payments due from the Lessee, taking into account any such partial prepayment, shall be attached by the Lessor hereto.

The Lessee may not utilize funds in the County Security Fund or Restoration Security Fund, if any, toward any such partial prepayment; provided, however, that such limitation does not extend to monies previously released from the County Security Fund and transferred to the Aged Account in the Revenue Fund in accordance with Section 5.07(3)(a) of the Bond Resolution at the time of any such partial prepayment; provided, further however, that such limitation does not extend to such amounts that would be eligible for release pursuant to the calculations referred to in Section 5.07(3)(a) of the Bond Resolution immediately after any such partial prepayment (to the extent the Series 2011 Bonds will not be redeemed simultaneously with the prepayment, the Series 2011 Bonds that will be defeased upon the prepayment shall not be considered Outstanding for purposes of such calculations, and therefore can be released and applied to any such prepayment if the calculations so warrant release), to the extent the Lessor has verified such calculations in writing to the Lessee and the Trustee. In any such instance where this limitation does not so extend, the Lessee may direct the Trustee in writing, with a copy to the Lessor, to apply any such amounts in the County Security Fund, if any, to any such partial prepayment, and the Lessor shall cause the Trustee, pursuant to the terms set forth in the Bond Resolution, to promptly comply with any such direction.

(b) The Lessee is further hereby granted the option to prepay and purchase all

- 72 -

#### SECTION 702. Mandatory Prepayment and Purchase of Project; Mandatory Purchase Price.

(a) Upon the acceleration of the Bonds, the Lessee shall forthwith prepay and purchase all of the Renewable Energy Projects (but not the Capital Improvement Projects, if any) by paying to the Trustee, immediately upon receipt of notice of such acceleration, the "Mandatory Purchase Price", which for any date of calculation shall be the sum of (i) the aggregate amount of the unpaid principal of the Bonds, (ii) any interest accrued on the Bonds from the last Interest Payment Date thereof on which interest thereon was paid to the date that the amount in clause (i) above has been paid in full, and (iii) any costs of acceleration or other Administrative Expenses incurred by any party to a Program Document in implementing such prepayment.

(b) In the event the Mandatory Purchase Price remains unpaid when due, the Lessee shall make an Additional Lease Payment immediately due and payable equal to, for any date of such deficiency, the amount of such deficiency times the per diem Overdue Rate.

#### SECTION 703. Effect of Prepayment.

(a) In the event of a deposit sufficient to purchase the Renewable Energy Projects (but not the Capital Improvement Projects, if any) pursuant to Section 701 or 702 hereof and to pay any and all amounts due hereunder, (i) all of the Lessor's right, title and interest in and to such Renewable Energy Projects (but not the Capital Improvement Projects, as to which the Lessor has no right, title or interest) shall be deemed sold to the Lessee for the consideration set forth in such Sections, (ii) except for the rights of the Series 2011 Local Units to effect a Fair Market Value purchase of their respective Renewable Energy Projects in accordance with Section 609(d) hereof, to the extent all Lease Payments have been made by the Lessee in full, all other covenants, agreements and obligations of the parties hereto under this Company Lease Agreement shall cease, terminate, and be deemed discharged and satisfied, and (iii) the Lessor and its officers shall take all actions necessary to authorize, execute and deliver to the Lessee any and all documents necessary to vest in the Lessee all of the Lessor's right, title and interest in and to the Renewable Energy Projects (but not the Capital Improvement Projects, as to which the Lessor has no right, title or interest), free and clear of all liens, leasehold interests and encumbrances, including, if necessary, a release of any and all liens or interests created under the provisions of this Company Lease Agreement. In such event, the Trustee shall cause a statement of debits and credits for such period or periods as shall be requested by the Lessor or the Lessee to be prepared and filed with the Lessor and the Lessee, and, upon the request of the Lessor or the Lessee, shall execute and deliver to the Lessor and the Lessee all such instruments as may be desirable to evidence such discharge and satisfaction.

(b) Notwithstanding anything to the contrary herein or in any Program Document, including without limitation subsection (a) above, to the extent the Lessee has satisfied all of the conditions of subsection (a) above in order to terminate this Company Lease Agreement,

- 74 -

The Lessee may continue this arrangement with the Authority and more than one (1) Series 2011 Local Unit, to the extent all such conditions are satisfied with respect to any other Series 2011 Local Unit and their respective Renewable Energy Projects, until the termination of this Company Lease Agreement, without interruption, in accordance with the terms of Section 402(a)(iii) hereof, in which case title to the Applicable Renewable Energy Project(s) shall transfer in accordance with the provisions of Section 609(b) hereof.

#### SECTION 704. Substitution of Project.

The Lessee is hereby granted the full power of substitution with respect to any Project so long as the Lessor and the Trustee receive the prior written consent of the Applicable Series 2011 Local Unit and the Authority, along with revised Exhibits to the Applicable Program Documents.

Fund in accordance with the terms hereof, in which event the Lessee shall continue to be obligated to pay the Lease Payments due hereunder, without adjustment; or (z) the Lessee shall exercise its option to have no further obligation with respect to the affected Project(s). Subsections (y) and (z) above are mutually exclusive.

(c) In the event of any damage, destruction, condemnation, taking or other event that constitutes a revocation or deemed revocation under Section 3.7 of any Local Unit License Agreement with respect to a Project requiring payment of the amounts set forth in Section 3.7(a)(iv) of such Local Unit License Agreement, upon receipt of such amount, this Company Lease Agreement and the obligations of Lessee thereunder with respect of and solely with respect to such Project, shall terminate and title thereto shall vest in Lessee. Such event shall have no effect on the Lessee's obligations to continue to make all Lease Payments on time and in full.

#### SECTION 802. Insufficiency of Net Proceeds.

If the Net Proceeds are insufficient to pay in full the cost of any repair, restoration, modification or improvement relating to the Projects as so damaged or taken, the Lessee shall either:

(a) direct the application of the Net Proceeds in the manner as set forth in Sections 801(a)(y) or 801(b)(y) above, thereby requiring the Lessee to complete the work relating to the Projects as so set forth, except that the Lessee shall itself pay any Project Costs in excess of the amount of the Net Proceeds, and, if by reason of any such insufficiency of the Net Proceeds the Lessee shall make any payments pursuant to the provisions of this Section 802(a), the Lessee shall not be entitled to any reimbursement therefor from the Lessor, nor shall the Lessee be entitled to any diminution of the Lease Payments due hereunder with respect to the Projects;

(b) direct the application of the Net Proceeds in the manner as set forth in Section 801(a)(z) above, thereby requiring the Lessee to make an equity contribution to the extent the Net Proceeds are insufficient to cover the Purchase Option Price and thereupon exercise Lessee's option to purchase the Project in whole, in accordance with Article VII hereof, in which event the Net Proceeds shall be used toward this purpose; or

(c) direct the application of the Net Proceeds consistent with the determination contemplated in Section 801(b)(y) above, thereby causing the Net Proceeds to be applied to the payment of the Interest Portion and, to the extent available, the Principal Portion of the Basic Lease Payments due on the immediately succeeding Basic Lease Payment Dates until all of the Net Proceeds have been so applied, in which event the Lessee shall not be entitled to any reimbursement therefor from the Lessor nor shall the Lessee be entitled to any diminution of the Lease Payments due hereunder with respect to the Project. Subsections (a), (b) and (c) above are mutually exclusive.

### DAMAGE, DESTRUCTION AND CONDEMNATION; USE OF NET PROCEEDS

#### SECTION 801. Damage, Destruction and Condemnation.

(a) If either (i) the Projects or any portion thereof are destroyed or damaged by fire or other casualty or (ii) title to or the temporary use of the Projects or any part thereof, or the interest of the Lessor, the Applicable Series 2011 Local Unit or the Lessee in the Projects or any part thereof, shall be taken under a valid exercise of the power of eminent domain by any governmental body, other than Sussex County, a division of Sussex County Government, any Series 2011 Local Unit, or by any person, firm or corporation acting under governmental authority, and provided the Lessee shall not have caused an Event of Default hereunder, in which event the Net Proceeds shall be applied as directed by the Lessor, the Lessee shall have the following mutually exclusive rights to cause the application of Net Proceeds sufficient to perform either of the following, which the Lessee may exercise in its sole discretion: (y) the Lessee shall cause the application of any Net Proceeds to the prompt repair, restoration, modification, improvement, construction or installation of the Project by causing the Lessor to transfer, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so transfer, such Net Proceeds to the Trustee for deposit in the Project Fund, thereby allowing the Lessee to file with the Trustee the appropriate Draw Papers to requisition such Net Proceeds from the Project Fund in accordance with the terms hereof, in which event the Lessee shall continue to be obligated to pay the Lease Payments due hereunder, without adjustment; or (z) the Lessee shall exercise its option to purchase the Project in whole by paying the then applicable Purchase Option Price in accordance with Section 701 hereof and causing the Lessor to deposit, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so deposit, such Net Proceeds with the Trustee in the Revenue Fund, the Debt Service Fund, or such other Fund or Account that would allow the application of the Net Proceeds toward the Purchase Option Price. Subsections (y) and (z) above are mutually exclusive.

(b) If title to or the temporary use of the Projects or any part thereof, or the interest of the Lessor, the Applicable Series 2011 Local Unit or the Lessee in the Projects or any part thereof, shall be taken under a valid exercise of the power of eminent domain by Sussex County, a division of Sussex County Government, or any Series 2011 Local Unit, and provided the Lessee shall not have caused an Event of Default hereunder, in which event the Net Proceeds shall be applied as directed by the Lessor, the Lessee shall have the following mutually exclusive rights to cause the application of Net Proceeds sufficient to perform either of the following, which the Lessee may exercise in its sole discretion: (y) the Lessee shall cause the application of any Net Proceeds to the prompt repair, restoration, modification, improvement, construction or installation of the Project by causing the Lessor to transfer, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so transfer, such Net Proceeds to the Trustee for deposit in the Project Fund, thereby allowing the Lessee to file with the Trustee the appropriate Draw Papers to requisition such Net Proceeds from the Project

- 76 -

#### SECTION 803. Cooperation of Lessor.

The Lessor and the Applicable Series 2011 Local Unit shall cooperate fully with the Lessee, at the sole cost and expense of the Lessee, in filing any proof of loss with respect to any insurance policy covering the casualties described in Section 801 hereof and in the prosecution or defense of any prospective or pending condemnation proceeding with respect to the Projects or any part thereof. In no event shall the Lessor or the Applicable Series 2011 Local Unit voluntarily settle, or consent to the settlement of, any proceeding arising out of any insurance claim or any prospective or pending condemnation proceeding with respect to the Projects or any part thereof, without the prior written consent of the Lessee.

#### SECTION 804. Condemnation of Other Property Owned by Lessee.

The Lessee shall be entitled to the Net Proceeds of any condemnation award or portion thereof made for the destruction of, damage to or taking of its property not included in the Project.

## ARTICLE IX

### ASSIGNMENT, SUBLEASING, MORTGAGING AND SELLING

#### SECTION 901. Assignment by Lessor.

Except for this Company Lease Agreement and as otherwise provided below and in any other Program Document, including without limitation with respect to its payment obligations under the Power Purchase Agreement to the Series 2011 Local Units under the Local Unit License Agreements, or with respect to the assignment of the Reimbursement Collateral to the County and the County Security Provider, if any, under the County Guaranty Agreement and the County Security Agreement, if any and as applicable, the Lessor shall not assign its obligations under this Company Lease Agreement and no such purported assignment thereof shall be effective. All of the Lessor's right, title and interest in and to this Company Lease Agreement, the Lease Payments and the other amounts due to it hereunder and under the Project shall be assigned by the Lessor to the Trustee pursuant to the pledge of the Trust Estate under the Bond Resolution no later than the execution and delivery hereof.

#### SECTION 902. Lease Payments to Trustee.

The Lessor and the Lessee hereby agree that from and after the adoption of the Bond Resolution and the execution of this Company Lease Agreement, so long as the same shall remain in effect, payment by the Lessee to the Trustee or, if applicable, to the successor thereto of any moneys or sums due hereunder from the Lessee to the Lessor shall satisfy the obligation of the Lessee to pay such money or sums.

#### SECTION 903. Assignment and Subleasing by Lessee.

This Company Lease Agreement may not be assigned or subleased by the Lessee without the prior written consent of the Lessor and the Applicable Series 2011 Local Units, in their sole discretion, as the Lessee entered into this Company Lease Agreement as the successful respondent pursuant to the Company RFP and all applicable law, and the Lessor and the Series 2011 Local Units have selected the Lessee, and not any assignee, to receive the rights, and perform the duties and obligations hereunder. Any such purported assignment or sublease shall be deemed null and void without such prior written consent.

#### SECTION 904. Restriction on Mortgage or Sale of Project by Lessee.

The Lessee shall not mortgage, sell, assign, transfer or convey the Projects or any portion thereof during the Term of this Company Lease Agreement without the prior written consent of the Lessor and the Applicable Series 2011 Local Units, in their sole discretion, as the Program Documents contemplate such Projects being available, directly in the case of the Capital Improvement Projects, or indirectly in the case of the Renewable Energy Projects as a source of power, for the benefit of the Series 2011 Local Units.

- 79 -

#### SECTION 905. Reorganization.

It is understood and agreed by the parties hereto that reorganization of the Lessee with the consent of the Lessor shall not constitute an assignment under this Article IX.

## ARTICLE X

### EVENTS OF DEFAULT; REMEDIES

#### SECTION 1001. Events of Default.

(a) An Event of Default hereunder means the occurrence of any one or more of the following events:

(i) The Lessee fails to (A) make any Basic Lease Payment as it becomes due or (B) make any Additional Lease Payment as it becomes due or maintain any insurance requirement set forth hereunder, and in the case of (B) only, such failure is not cured within thirty (30) days after written notice thereof has been given to the Lessee by the Lessor or the Trustee; provided, however, if the Basic Lease Payment is paid with funds from the County Reserve, such payment will not constitute an Event of Default.

(ii) The Lessee fails to perform or observe any other covenant, condition or agreement to be performed or observed by it hereunder or under any Company Document, and such failure is not cured within ninety (90) days after written notice thereof has been given to the Lessee by the Lessor or the Trustee; provided, however, that if such failure cannot be cured within said ninety (90) day period, the Lessee shall not be in default if it has commenced to cure within such ninety (90) day period, it continuously proceeds with the cure, and if such action to cure the default is acceptable to the Lessor and the Lessor indicates the same in writing.

(iii) The discovery by the Lessor or the Trustee that any material statement, representation or warranty made by the Lessee in this Company Lease Agreement, or in any writing delivered by the Lessee pursuant hereto or in connection herewith, is false, misleading or erroneous in any material respect.

(iv) The Lessee becomes insolvent or admits in writing its inability to pay its debts as they mature or applies for, consents to or acquiesces in the appointment of a trustee, receiver or custodian for the Lessee or a substantial part of its property; or in the absence of such application, consent or acquiescence, a trustee, receiver or custodian is appointed for the Lessee or a substantial part of its property and is not discharged within sixty (60) days; or any bankruptcy, reorganization, debt arrangement, moratorium or other proceeding under bankruptcy or insolvency law, or any dissolution or liquidation proceeding, is instituted by or, if permitted by law, against the Lessee and, if instituted against the Lessee, is consented to or acquiesced in by the Lessee or is not dismissed within sixty (60) days.

- 81 -

(v) The entering of an order or decree appointing a receiver for the Leased Property or for any part thereof or for the revenues thereof with or without the consent or acquiescence of the Lessee, and such order or decree shall not be vacated, discharged or stayed within ninety (90) days after the date of such entry.

(b) Upon the occurrence of an Event of Default under this Section 1001, the Trustee shall transmit a written notice, including electronic mail, of such Event of Default to the Lessor, the Lessee and the Series 2011 Local Units within thirty (30) days of the Trustee's knowledge thereof.

(c) Upon the occurrence of an Event of Default under this Section 1001, all obligations of the Lessee under this Company Lease Agreement shall remain in full force and effect.

#### SECTION 1002. Remedies.

(a) Upon the occurrence and continuation of any Event of Default as described in Section 1001 hereof, at the option of the Lessor, the Mandatory Purchase Price with respect to the Project shall become immediately due and payable by the Lessee upon the Lessor's declaration. So long as the Lessor is not in default hereunder, the Lessor shall have the right to direct all remedial proceedings under this Company Lease Agreement, including the consent to remedies taken upon an Event of Default. Subject to the preceding sentence, the Lessor shall have the right, without any further demand or notice, to take one or any combination of the remedial steps below:

(i) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and exclude the Lessee from using it; provided, however, that if this Company Lease Agreement has not been terminated, the Lessor shall return possession of same to the Lessee when the Event of Default has been cured; and provided, further, that the Lessee shall continue to be responsible for the Lease Payments due hereunder during the remainder of the Lease Term.

(ii) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and sell, lease or sublease its interest therein or any part thereof.

(iii) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and apply any portion of same, or of the

- 82 -

proceeds of same (in accordance with clause (ii) above) in accordance with the provisions of Section 5.07(1)(b) of the Bond Resolution

(iv) With or without terminating this Company Lease Agreement, declare all Lease Payments due or to become due hereunder to be immediately due and payable by the Lessee, whereupon such Lease Payments shall be immediately due and payable.

(v) Take whatever action at law or in equity may appear necessary or desirable to collect the Lease Payments then due and thereafter to become due hereunder with respect to the Project or to enforce performance and observance of any obligation, agreement or covenant of the Lessee under this Company Lease Agreement.

(b) Notwithstanding any other provisions of this Section 1002, in no event shall there be any transfer of any Renewable Energy Project or any interest therein to any person (such as a governmental entity) if such transfer would result in a Tax Benefit Recapture Event as described in Section 609.

#### SECTION 1003. Reinstatement.

Notwithstanding any termination of this Company Lease Agreement that shall be made in accordance with the provisions of Section 1002 hereof, unless the Lessor shall have entered into a firm bilateral agreement providing for the reletting of the Project for a period of at least one year, if, after the maturity of the Outstanding Bonds shall have been accelerated by the Trustee (upon the occurrence of an Event of Default) under the terms of the Bond Resolution, (a) all arrears of interest on such Outstanding Bonds and interest on overdue installments of principal, redemption premium, if any, and (to the extent permitted by law) interest on such Bonds at a rate per annum equal to the highest rate per annum borne by any of the Bonds shall have been paid, (b) the principal and redemption premium, if any, on all Outstanding Bonds that have become due and payable (other than by an acceleration) shall have been paid, (c) all other sums payable under the terms of the Bond Resolution, except the principal of and the interest on such Bonds that by such acceleration shall have become due and payable, and under the terms of the other Program Documents shall have been paid, (d) all other things shall have been performed in respect of which there was an Event of Default, (e) the reasonable fees and expenses of the Lessor, the Trustee, the Series 2011 Local Units, the County, the County Security Provider, and the Bondholders, including Administrative Expenses thereof (including reasonable attorneys' fees paid or incurred) shall have been paid, and (f) such acceleration under the terms of the Bond Resolution is rescinded, then the Lessee's Event of Default hereunder shall be waived without further action by the Trustee or the Lessor or any other Renewable Energy Program Interested Party. Upon such payment and waiver, this Company Lease Agreement shall be fully reinstated as if it had never been terminated, and the Lessee shall be restored to the use, occupancy and possession of the Renewable Energy Projects and the other Leased Property.

- 83 -

#### SECTION 1004. Election of Remedies; No Waiver of Elected Remedies.

No failure on the part of either party to exercise, and no delay in exercising any right or remedy so provided for herein, shall operate as a waiver thereof, nor shall any single or partial exercise by either party of any right or remedy so provided hereunder preclude any other or further exercise of any other right or remedy provided hereunder.

#### SECTION 1005. No Additional Waiver Implied by One Waiver.

In the event any agreement contained in this Company Lease Agreement should be breached by either party and thereafter waived by the other party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder, and shall not be construed to be an implied term hereof or a course of dealing between the parties hereto.

#### SECTION 1006. Agreement to Pay Attorneys' Fees and Expenses.

In the event either party to this Company Lease Agreement should default under any of the provisions hereof and the non-defaulting party should employ attorneys or incur other expenses for the collection of moneys or the enforcement, performance or observance of any obligation or agreement on the part of the defaulting party herein contained, the defaulting party agrees that it shall, on demand therefor, pay to the non-defaulting party the reasonable fees of such attorneys and such other expenses so incurred by the non-defaulting party.

#### SECTION 1007. Late Charges.

Whenever any payment of Lease Payments is not made when due, the Lessee promises to pay to the Lessor, in addition to the amount due, interest thereon at the Overdue Rate; provided, however, that this Section 1007 shall not be applicable if or to the extent the application thereof would affect the validity of this Company Lease Agreement.

#### SECTION 1008. Delay; Notice.

No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof. Any such right or power may be exercised from time to time and as often as may be deemed expedient, and any one exercise thereof shall not be deemed an exclusive exercise. To entitle any party to exercise any remedy reserved to it in this Company Lease Agreement, it shall not be necessary to give any notice other than as may be specifically required in this Company Lease Agreement.

(b) Other than as provided in subsection (a) above, this Company Lease Agreement may be amended, supplemented, or otherwise modified with respect to its Term or any of its other provisions by written amendment authorized and executed by the Lessor, the Lessee, and to the extent any of the rights, duties or obligations of any Series 2011 Local Units or other Renewable Energy Program Interested Parties under a Program Document are affected, with the written acknowledgment and consent of any one or more such Series 2011 Local Units and/or Renewable Energy Program Interested Parties, as applicable.

2.03(5)(a) and (b) of the Bond Resolution, and which defeasance is contemplated by Article XII of the Bond Resolution. In any such instance, the County may establish the defeasance date, as applicable, at any time, and the redemption date at any time on or after \_\_\_\_\_, 2021, all with written notice to the Authority and the Trustee and otherwise in accordance with the terms of the Bond Resolution. Nothing in this Section 5(a)(i) is intended to diminish the County's rights to reimbursement, including those rights set forth in Section 7 hereof.

(ii) with respect to the Series 2011B Note only, [B Note subject to redemption?].

Section 6. Subject to Section 5(a) hereof, when notice has been provided, as described above, the County shall take all necessary actions to make payment of the Deficiency to the Trustee as provided above. Such actions shall include the adoption of an emergency appropriation or an emergency temporary appropriation and the funding of such appropriation in accordance with the requirements of the Local Budget Law (N.J.S.A. 40A:4A-1 *et seq.*), the levy of *ad valorem* taxes on all taxable property in the County, without limitation as to rate or amount, or any other actions that are legally permitted to be taken to meet the requirements of such County Guaranty (including the adoption of a bond ordinance pursuant to the provisions of the Local Bond Law).

Section 7. (a) The Authority hereby covenants to the County that in the event the County Guaranty is called upon, the Authority shall be obligated and shall take all actions within its power (in accordance with the terms of the Act), including causing the Trustee to pay over to the County all funds on deposit in the County Security Fund, if any, held by the Trustee under the Bond Resolution as monies therein shall not be part of the Trust Estate pledged to the payment of debt service on the Series 2011 Bonds, so as to enable the County to be reimbursed, to the maximum extent practicable, up to the amount that shall have been paid by the County pursuant to the terms of this County Guaranty Agreement (i.e., the Deficiency), at the earliest practicable date. The Authority shall not be obligated to pay the Deficiency from funds within its general control that are not contemplated by the Program Documents; the Authority, shall, however, pay or cause the Deficiency to be paid from amounts the Authority controls on deposit in the County Security Fund, or from any past due Basic Lease Payments it receives from the Company. The County and the Authority acknowledge and agree that as of the date of this Guaranty Agreement, it has been determined that the amount of the County Security Fund Requirement will be \$1,500,000, and there is no County Security Agreement, County Security Provider or other form of County Security, and any provisions herein with respect to such terms are hereby of no further force or effect.

(b) Nothing herein provided shall in any way diminish the County's rights to receive payment from the County Security Fund for reimbursement of any County payment of the Deficiency. The Authority shall take all actions necessary, desirable or convenient to assist the County in any such reimbursement action, and simultaneously with the authorization, execution and delivery hereof, the Authority shall (i) deliver or cause to be delivered for the benefit of the County the County Reserve to be deposited with the Trustee in the County Security Fund created under the Bond Resolution, in which case no County Security Agreement shall exist, and further, the Authority

(c) As further security and further assurance for the Company's obligations to (i) make Basic Lease Payments, (ii) make those Additional Lease Payments constituting part of the Trust Estate, and (iii) pay interest at the Overdue Rate on such amounts in clauses (i) and (ii), all at the times, in the amounts, and otherwise in accordance with the terms and provisions of the Company Lease Agreement, the failure to make timely and full payment of which could cause any such Deficiency, the Authority hereby further assigns and pledges all of its right, title and interest in and to the Reimbursement Collateral to the County, to be held as collateral to secure such Deficiency payment; provided, however, that to the extent the County is never required to make payment under its County Guaranty or the County is reimbursed in full for its Deficiency payment(s) by or on behalf of the County Security Provider from the County Security, the County expressly acknowledges it shall have no further rights to the Reimbursement Collateral, and further, that the County Security Provider (upon issuance of the Series 2011 Bonds, with no County Security Agreement, being the Company) shall, in such instance, be exclusively entitled to any balance of the Reimbursement Collateral. This County Guaranty Agreement shall be deemed to be a security agreement for purposes of the Uniform Commercial Code and all other applicable law.

**Section 8.** The obligations of the County under this County Guaranty Agreement shall be full, absolute, irrevocable, and unconditional, and shall remain in full force and effect until the entire principal of (including Sinking Fund Installments, if any) and interest on the Series 2011 Bonds shall have been paid or duly provided for in accordance with the provisions of the Bond Resolution. The obligations of the County hereunder shall not be affected, modified or impaired upon the occurrence from time to time of any event, including without limitation any of the following, whether or not with notice to, or the consent of, the County:

- (c) The transfer, assignment or mortgaging or the purported transfer, assignment or mortgaging of all or any part of the interest or security interest of the Authority in the Projects;
- (d) The extension of the time for payment of the principal of or interest on the Series 2011 Bonds or of the time for performance of any obligations, covenants or agreements under or arising out of the Program Documents;
- (e) The modification or amendment (whether material or otherwise) of any obligation, covenant or agreement set forth in the Program Documents;

or exhausting any other remedies which it may have and without resorting to any other security held by the Authority or the Trustee. In any such event, the County shall be subrogated to the rights of such party with respect to such security. All moneys recovered pursuant to this County Guaranty Agreement shall be applied in accordance with the provisions of the Bond Resolution.

**Section 12.** The County hereby acknowledges that it is an "obligated person" as such term is defined in Rule 15c2-12, and the preparation, negotiation, execution and delivery of the County Continuing Disclosure Agreement in accordance with Rule 15c2-12 is hereby approved in the form attached as Exhibit B hereto, and the Freeholder Director of the County is hereby authorized to execute the County Continuing Disclosure Agreement and to deliver the same to the Trustee and the Authority. **Section 14.** This County Guaranty Agreement may be executed in any number of counterparts, each of which shall be executed by the Authority and by the County and all of which shall be regarded for all purposes as one original and shall constitute and be but one and the same. This County Guaranty Agreement shall be governed by the laws of the State.

**Section 15.** The County hereby acknowledges and consents to the irrevocable assignment of the right of the Authority to receive payments from the County under the provisions of the County Guaranty by the Authority to the Trustee for the benefit of the holders of the Series 2011 Bonds, as and to the extent provided in the Bond Resolution.

**Section 16.** Notwithstanding anything contained herein to the contrary, in the event that the form of government is changed so that there is no longer a Chief Financial Officer of the County, any notices contemplated hereunder shall be provided to and any actions contemplated to be taken hereunder shall be taken by the chief executive officer of the County.

**Revenue Note, Series 2011B (Federally Taxable)**

Dear Authority Commissioners:

We have acted as bond counsel to The Morris County Improvement Authority (the "*Authority*"), a public body corporate and politic of the State of New Jersey (the "*State*"), organized and existing under the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State and the acts amendatory thereof and supplemental thereto (the "*Act*"), in connection with the authorization, sale and issuance this day of its \$ \_\_\_\_\_ aggregate principal amount of "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)" (the "*Series 2011A Bonds*") and \$ \_\_\_\_\_ aggregate principal amount of "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)" (the "*Series 2011B Note*" and together with the Series 2011A Bonds, the "*Series 2011 Bonds*").

The Series 2011 Bonds are issued pursuant to a bond resolution of the Authority adopted on September 28, 2011 and entitled "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS, SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY", as amended and supplemented by a Certificate of the Chairman of the Authority dated the date hereof executed and delivered in accordance with Section 2.02(1)(e) thereof, and as may be further amended or supplemented from time to time in accordance with the terms thereof (the "*Bond Resolution*"), the Act and all other applicable law. All capitalized terms which are used herein and are not defined herein shall have the meanings ascribed to such terms in the Bond Resolution.

The Series 2011A Bonds are being issued for the purpose of (i) funding the Projects for the Series 2011 Local Units as part of the Authority's Renewable Energy Program, (ii) reimbursing or paying, as applicable, the Authority and the County for certain development costs of the Renewable Energy Program, (iii) paying certain fees and costs incurred by or for the Company (as hereinafter defined) in connection with the Renewable Energy Program, (iv) paying the various costs of issuing the Series 2011 Bonds, and (v) providing a reserve to secure the County Guaranty. The Series 2011B Note is being issued for the purpose of paying capitalized interest on the Series 2011A Bonds on June 15, 2012 and December 15, 2012.

The Series 2011 Bonds are special and limited obligations of the Authority, payable as to principal, redemption premium, if any, and interest solely from and secured by the Authority's pledge of the Trust Estate to the hereinafter defined Trustee in accordance with the terms of the Bond Resolution. The Trust Estate includes, without limitation, (i) the Revenues, (ii) payments made by the County of Sussex, New Jersey (the "*County*") under the County Guaranty (as hereinafter defined), and (iii) the Funds and Accounts (except the Administrative Expense Account and the Costs of Issuance Account of the Administrative Fund and the County Security Fund) established under the Bond Resolution and held by the Trustee.

The Revenues include, without limitation, the Basic Lease Payments to be made by SunLight General Sussex Solar, LLC (the "*Company*" or the "*Lessee*"), a limited liability company created and in good standing under the laws of the State, and registered and authorized to transact business in the State, under that certain "Lease Purchase Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (the "*Company Lease Agreement*"), by and between the Authority, as lessor, and the Company, as lessee. In conjunction with the Company Lease Agreement, the Authority has entered into that certain "Power Purchase Agreement (Sussex County Renewable Energy Program, Series 2011)" with the Company, dated as of December 1, 2011, (the "*Power Purchase Agreement*") for the right and obligation to purchase from the Company electricity generated by the Renewable Energy Projects. The Authority has assigned certain of these rights and obligations to each of the Series 2011 Local Units pursuant to the terms of the respective "License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)", each dated as of December 1, 2011 (the "*Local Unit License Agreements*"), by and between each of the respective Series 2011 Local Units, as licensor, and the Authority, as licensee.

Simultaneously with the execution and delivery of the Company Lease Agreement, the Power Purchase Agreement, and the Local Unit License Agreements, (i) the Authority, the Trustee, and the Company have entered into that certain "Company Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (the "*Company Continuing Disclosure Agreement*") and (ii) the Authority, the County and the Trustee have entered into that certain "County Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (the "*County Continuing Disclosure Agreement*" and together with the Company Continuing Disclosure Agreement, the "*Continuing Disclosure Agreements*").

The Company Lease Agreement, the Power Purchase Agreement, the Local Unit License Agreements, the County Guaranty Agreement (as defined herein) and the Continuing Disclosure Agreements shall be collectively referred to herein as the "*Authority Financing Documents*".

The Series 2011A Bonds are dated the date hereof, mature in the principal amounts and bear interest at the rates of interest as stated therein and in the Bond Resolution, and are issued in fully registered form in denominations of \$5,000 or any integral multiple thereof. The Series 2011B Note is dated the date hereof and matures on January 15, 2013.

Interest on the Series 2011A Bonds is payable semiannually on June 15 and December 15 in each year until final maturity thereof (each an "*Interest Payment Date*"), commencing June 15, 2012. The Series 2011A Bonds are subject to optional [and mandatory sinking fund] redemption prior to their stated maturities in the manner and upon the terms and conditions set forth therein and in the Bond Resolution. Principal and redemption premium, if any, of the Series 2011 Bonds are payable by presentation and surrender thereof at the principal corporate trust office of U.S. Bank, National Association, Morristown, New Jersey (the "*Trustee*", "*Registrar*" and "*Paying Agent*"). Except as set forth below regarding payments made to Cede & Co., interest on the Series 2011 Bonds is payable by check of the Paying Agent mailed to each registered owner of the Series 2011 Bonds at the address of such registered owner shown on the registration books maintained by the Trustee, in its capacity as registrar, as of the first day of the month next preceding the Interest Payment Date.

The Series 2011 Bonds are issued in fully registered form without coupons, initially registered in the name of and held by Cede & Co., as nominee for The Depository Trust Company, New York, New York ("*DTC*"), an automated depository for securities and clearinghouse for securities transactions. Purchases of the Series 2011 Bonds will be made in book-entry-only form (without certificates) in denominations of \$5,000 or any integral multiple thereof. So long as DTC or its nominee is the registered owner of the Series 2011 Bonds, payment of the principal and redemption premium, if any, of and interest on the Series 2011 Bonds will be made by the Trustee or the Paying Agent, as the case may be, directly to Cede & Co., as nominee for DTC, in immediately available funds when due. Disbursal of such payments to the DTC participants is the responsibility of DTC, and disbursal of such payments to the beneficial owners of the Series 2011 Bonds is the responsibility of the DTC participants and not the responsibility of the Authority, the Trustee or the Paying Agent.

Payment of the principal of (including mandatory sinking fund installments, if any) and interest on the Series 2011 Bonds, but not any redemption premium, shall be fully, unconditionally and irrevocably guaranteed in accordance with the terms of (i) a guaranty ordinance of the County finally adopted by the Board of Chosen Freeholders of the County on August 17, 2011, (ii) a guaranty certificate to be executed by an authorized officer of the County within each Series 2011 Bond, and (iii) a "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Guaranty Agreement*") between the County and the Authority, as acknowledged by the Company, all pursuant to Section 37 of the Act (N.J.S.A. 40:37A-80) (collectively, the "*County*

*Guaranty*”).

In our capacity as bond counsel, we have examined (i) the Constitution and statutes of the State, including the Act, (ii) the Bond Resolution, (iii) the Authority Financing Documents, (iv) the County Guaranty, (v) a specimen of the Series 2011A Bonds and (vi) a specimen of the Series 2011 B Note, and such other documents, records of the Authority and instruments as we have deemed necessary to enable us to express the opinions hereinafter set forth. As to matters of fact, we have relied upon the representations of the Authority and, where we have deemed appropriate, representations or other certifications of public officials and, to the extent that we have deemed such reliance proper, on certain representations, certifications of facts, and statements of reasonable expectations made by the Authority in connection with the Series 2011 Bonds.

Further, in expressing such opinions, we have relied upon the genuineness, truthfulness and completeness of the resolutions, documents, records and instruments referred to above.

Based upon and subject to the foregoing, we are of the opinion that:

(1) The Authority has been duly created and is validly existing as a public body corporate and politic under the provisions of the Constitution and statutes of the State, including the Act, with the right and power to adopt the Bond Resolution, to enter into the Authority Financing Documents and to issue the Series 2011 Bonds.

(2) The Bond Resolution has been duly adopted by the Authority, is in full force and effect, is valid and binding upon the Authority, is enforceable in accordance with its terms and no other authorization for the Bond Resolution is required. The Bond Resolution creates the valid pledge which it purports to create of the Trust Estate.

(3) The Series 2011 Bonds have been duly authorized and issued by the Authority in accordance with law, including the Act, and in accordance with the Bond Resolution and are valid and binding special obligations of the Authority, enforceable in accordance with their terms and the terms of the Bond Resolution, and are entitled to the benefits of the Bond Resolution and the Act. Neither the State, nor the County (except to the extent of the County Guaranty, which does not guaranty the payment of redemption premium, if any), nor any municipality therein nor any other political subdivision thereof, other than the Authority (but solely to the extent of the Trust Estate in accordance with the terms of the Bond Resolution), is obligated to pay the principal of, redemption premium, if any, or interest on the Series 2011 Bonds, and neither the faith and credit nor the taxing power of the State, the County (except to the extent of the County Guaranty, which does not guaranty the payment of redemption premium, if any), any municipality therein or any other political subdivision thereof, is pledged to the payment of the principal of, redemption premium, if any, or interest on the Series 2011 Bonds.

(4) The Authority Financing Documents have each been duly authorized, executed and delivered by the Authority, and assuming their due authorization, execution and delivery by the other parties thereto, constitute valid and binding agreements of the Authority and such other parties, and are enforceable in accordance with their respective terms.

(5) The County has the full legal right and power to adopt and execute, as the case may be, the County Guaranty and the County Guaranty creates the valid and binding obligation of the County, enforceable in accordance with its terms. Under the County Guaranty, the County is obligated to make any required payments under the terms of the County Guaranty to the Authority or the Trustee out of the first funds becoming legally available to the County for this purpose and to provide the funds for such payments, if not otherwise available, from the levy of *ad valorem* taxes upon all the taxable property in the County without limitation as to rate or amount. The obligations of the County under the County Guaranty to make full payment of the principal of and interest on the Series 2011 Bonds (which does not include redemption premium, if any) shall be full, unconditional and irrevocable.

(6) Under current law, interest on the Series 2011 Bonds and any gain on the sale thereof are not includable as gross income under the New Jersey Gross Income Tax Act.

The above opinions are limited to and based upon the laws and judicial decisions of the State and the federal laws and judicial decisions of the United States of America as of the date hereof, and are subject to any amendment, repeal or other modification of the applicable laws or judicial decisions that served as the basis for their opinions or to any laws or judicial decisions hereafter enacted or rendered. No opinion is expressed regarding federal tax consequences arising with respect to the Series 2011 Bonds.

We note, in connection with the opinions expressed herein, that the enforceability of rights or remedies with respect to the Bond Resolution, the Series 2011 Bonds, the Authority Financing Documents and the County Guaranty may be limited, however, by bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights or remedies heretofore or hereafter enacted and that their enforcement may also be subject to the exercise of judicial discretion in appropriate cases. We express no opinion as to the availability of any particular remedy.

In rendering the opinions contained in paragraphs 4 and 5 above, we have relied upon the respective opinions, dated the date hereof, of independent counsel to the Company and the County, as the case may be, (i) with respect to the due authorization, execution and delivery of the Authority Financing Documents by the other parties thereto, (ii) with respect to the due authorization, adoption, execution and delivery of the County Guaranty by the County, including, without limitation, proper compliance with all publication, hearing and other procedural requirements of Section 37 of the Act (N.J.S.A. 40:37A-80) and of the Local Bond Law, constituting Chapter 169 of the Pamphlet Laws of 1960 of the State, (iii) to the effect that the County Guaranty has not been amended, modified or repealed since the date of final adoption and that the County Guaranty is still in full force and effect, and (iv) to the effect that the County Guaranty is a valid and binding obligation of the County, enforceable against the County in

accordance with its terms.

This opinion is being delivered to you at your request. Our engagement by you with respect to the opinions expressed herein does not require, and shall not be construed to constitute, a continuing obligation on our part to notify or otherwise inform you or the reliance parties hereof of the amendment, repeal or other modification of the applicable laws, judicial decisions, actions, facts, or circumstances that served as the basis for this opinion letter or of laws or judicial decisions hereafter enacted or rendered which impact on this opinion letter.

We have examined one of the Series 2011A Bonds as executed by the Authority and as authenticated by the Trustee, and, in our opinion, the form, execution and authentication of said Series 2011A Bonds are regular and proper. We have examined the Series 2011B Note as executed by the Authority and as authenticated by the Trustee, and, in our opinion, the form, execution and authentication of said Series 2011B Note is regular and proper.

Very truly yours,

Inglesino, Pearlman, Wyciskala & Taylor, LLC

**COUNTY CONTINUING DISCLOSURE AGREEMENT  
(SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011)**

THIS COUNTY CONTINUING DISCLOSURE AGREEMENT (SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011) (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "*County Continuing Disclosure Agreement*") is made and entered into as of December 1, 2011 by and among the COUNTY OF SUSSEX, NEW JERSEY, a political subdivision of the hereinafter defined State (the "*County*"), U.S. BANK NATIONAL ASSOCIATION (the "*Bank*"), a national banking association authorized and acting under the laws of the United States of America and further authorized to conduct business in the State of New Jersey (the "*State*"), where the Bank acts as trustee under and pursuant to the hereinafter defined Bond Resolution (including any successors and assigns, the "*Trustee*"), and the MORRIS COUNTY IMPROVEMENT AUTHORITY, a public body corporate and politic duly created and validly existing under the laws of the State (including any successors and assigns, the "*Authority*").

---

WHEREAS, the Authority has been duly created by resolution duly adopted by the Board of Freeholders of the County in the State as a public body corporate and politic of the State pursuant to and in accordance with the Act and other applicable law;

WHEREAS, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

WHEREAS, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a

public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the “Act”), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, “*Section 11*”), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the “*Shared Services Act*”), and all other applicable law, the terms of which agreement has been set forth in that certain “Service Agreement (Sussex County Renewable Energy Program)” dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the “*Service Agreement*”) between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority’s energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the “*Authority Consultants*”) and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the “*Sussex County Consultants*”, if any, and together with the Authority Consultants, the “*Consultants*”; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the

Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "*Projects*"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and
- (ii) Byram Township School District, Frankford Board of Education, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Township Board of Education, High Point Regional Board of Education, Kittatinny Regional School District, Lafayette Township Board of Education, Lenape Valley Board of Education, Newton Board of Education (collectively, the "*Board of Education Series 2011 Local Units*"); and
- (iii) County and Sussex County Technical School (the "*County Series 2011 Local Units*");

(each a "*Series 2011 Local Unit*", and, collectively, the "*Series 2011 Local Units*"), through the

issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$\_\_\_\_\_ and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)" dated their date of delivery (the "*Series 2011A Bonds*") the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the "*Series 2011A Bonds*"), and (ii) one series of notes in the aggregate principal amount of \$\_\_\_\_\_ and entitle, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)" (the "*Series 2011B Note*", and together with the Series 2011A Bonds, "*Series 2011 Bonds*"), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year's worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*");

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the "*Bonds*") shall be issued pursuant to the terms of that certain "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY" to be adopted by the governing body of the Authority, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the "*Bond Resolution*"), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, pursuant to N.J.S.A. 40:37A-77 of the Act, N.J.S.A. 40A:65-4 of the Shared Services Act and other applicable law, upon or prior to the issuance of the Series 2011 Bonds, the Authority shall have entered into a "License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 15, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, each agreement shall constitute a "*Local Unit License Agreement*", and collectively, the "*Local Unit License*");

## ARTICLE 4

### MISCELLANEOUS

Section 4.1. Purposes of this County Continuing Disclosure Agreement. This County Continuing Disclosure Agreement is being executed and delivered by the County, the Trustee and the Authority for the benefit of the Bondholders and in order to assist the Participating Underwriter in complying with clause (b)(5) of Rule 15c2-12.

Section 4.2. The Authority and the Bondholders.

(a) The Authority may enforce any such right, remedy or claim conferred, given or granted hereunder in favor of the Trustee or the Holders of the Series 2011 Bonds.

(b) Each Bondholder is hereby recognized as being a third-party beneficiary hereunder and each may enforce, for the equal benefit and protection of all Bondholders similarly situated, any such right, remedy or claim conferred, given or granted hereunder in favor of the Trustee, to the extent permitted in Section 3.1(a) hereof.

Section 4.3. Obligations of the Authority Hereunder; Indemnified Parties. Neither the Authority nor any member, official, employee, counsel, consultant or agent of the Authority or any person executing the Series 2011 Bonds shall bear any obligation for the performance of any duty, agreement or covenant of the County or the Trustee under this County Continuing Disclosure Agreement. The obligations of the Authority under this County Continuing Disclosure Agreement are expressly limited to the duties set forth in Sections 2.6, 4.9(c) and 4.12 herein.

The County agrees to indemnify and hold harmless the Authority, any member, officer, official, employee, counsel (including, without limitation, Bond Counsel to the Authority), consultant and agent of the Authority, including the Trustee and the Dissemination Agent and any of their members, officers or employees or agents or any purchaser of the Series 2011 Bonds (collectively, the "Indemnified Parties"), against any and all losses, claims, damages, liabilities or expenses whatsoever caused by the County's failure to perform or observe any of the County's obligations, agreements or covenants under the terms of this County Continuing Disclosure Agreement, but only if and insofar as such losses, claims, damages, liabilities or expenses are caused directly or indirectly by any such failure of the County to perform. In case any action shall be brought against the Indemnified Parties based upon this County Continuing Disclosure Agreement and in respect of which indemnity may be sought against the County, the Indemnified Parties shall promptly notify the County in writing. Upon receipt of such notification, the County shall promptly assume the defense of such action, including the retention of counsel, the payment of all expenses in connection with such action and the right to negotiate and settle any such action on behalf of such party to the extent allowed by law. Any Indemnified Party shall have the right to employ separate counsel in any such action and to participate in the defense thereof, but the fees and expenses of such counsel shall be at the expense of such

Indemnified Party unless the employment of such counsel has been specifically authorized by the County, or unless by reason of conflict of interest determined by the written opinion of counsel to any such party, it is advisable for such party to be represented by separate counsel, to be retained by the County, in which case the fees and expenses of such separate counsel shall be borne by the County. The County shall not be liable for any settlement of any such action effected without its written consent, but if settled with the written consent of the County or if there be a final judgment for the plaintiff in any such action with or without written consent, the County agrees to indemnify and hold harmless the Indemnified Parties from and against any loss or liability by reason of such settlement or judgment. Nothing in this paragraph shall require or obligate the County to indemnify or hold harmless the Indemnified Parties from or against any loss, claim, damage, liability or expense caused by any negligence, recklessness or intentional misconduct of the Indemnified Parties in connection with the County's performance of its obligations, agreements and covenants under this County Continuing Disclosure Agreement. The provisions of this section shall survive the termination of this County Continuing Disclosure Agreement and the removal or resignation of the Trustee.

Section 4.4. Additional Information. Nothing in this County Continuing Disclosure Agreement shall be deemed to prevent the County or the Authority (a) from disseminating any other information, using the means of dissemination set forth in this County Continuing Disclosure Agreement or any other means of communication, or (b) including, in addition to that which is required by this County Continuing Disclosure Agreement, in the case of the County, any other information in any Annual Report and in the case of the Authority, any other information in any Bond Disclosure Event Notice. If the County chooses to include any information in any Annual Report or if the Authority chooses to include any information in any Bond Disclosure Event Notice, in addition to that which is specifically required by this County Continuing Disclosure Agreement, neither the County nor the Authority shall have any obligation under this County Continuing Disclosure Agreement to update such information or include it in any future Annual Report or Bond Disclosure Event Notice, as the case may be.

Section 4.5. Notices. In addition, all notices sent to the County shall also be sent to the County's auditor and bond counsel.

Section 4.6. Assignments. This County Continuing Disclosure Agreement may not be assigned by any party without the consent of the others and, as a condition to any such

assignment, only upon the assumption in writing of all of the obligations imposed upon such party by this County Continuing Disclosure Agreement.

Section 4.7. Severability. If any provision of this County Continuing Disclosure Agreement shall be held or deemed to be or shall, in fact, be illegal, inoperative or unenforceable, the same shall not affect any other provision or provisions herein contained or render the same invalid, inoperative or unenforceable to any extent whatever.

Section 4.8. Execution of Counterparts. This County Continuing Disclosure Agreement may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument. Each party hereto may sign the same counterpart or each party hereto may sign a separate counterpart.

Section 4.9. Amendments, Changes and Modifications.

(a) Except as otherwise provided in this County Continuing Disclosure Agreement, subsequent to the initial issuance of the Series 2011 Bonds and prior to their payment in full (or provision for payment thereof having been made in accordance with the provisions of the Bond Resolution), this County Continuing Disclosure Agreement may not be effectively amended, changed, modified, altered or terminated without the written consent of the parties hereto.

(b) Without the consent of any Bondholders, the County, the Trustee and the Authority at any time and from time to time may enter into any amendments or modifications to this County Continuing Disclosure Agreement for any of the following purposes:

(i) to add to covenants and agreements of the County or the Authority hereunder for the benefit of the Bondholders, or to surrender any right or power conferred upon the County or the Authority by this County Continuing Disclosure Agreement;

(ii) to modify the contents, presentation and format of the Annual Report from time to time to conform to changes in accounting or disclosure principles or practices and legal requirements followed by or applicable to the County or to reflect changes in the identity, nature or status of the County or in the business, structure or operations of the County or any mergers, consolidations, acquisitions or dispositions made by or affecting the County; provided that any such modification shall not be in contravention of Rule 15c2-12 as then in effect at the time of such modification; or

(iii) to cure any ambiguity, to correct or supplement any provision hereof which may be inconsistent with any other provision hereof, or to include any other provisions with respect to matters or questions arising under this County Continuing Disclosure Agreement which, in each case, would have complied with the requirements of Rule 15c2-12 at the time of the primary offering, after taking into account any amendments or interpretations of Rule 15c2-12, as well as any changes in circumstances;

provided, that prior to approving any such amendment or modification an opinion of Bond Counsel to the Authority is delivered to the Trustee to the effect that such amendment or modification does not adversely affect the interests of the Holders of the Series 2011 Bonds in any material respect.

(c) Upon entering into any amendment or modification required or permitted by this County Continuing Disclosure Agreement which materially affects the interests of the Holders of the Series 2011 Bonds, the Authority shall deliver to the MSRB written notice of any such amendment or modification.

(d) The County, the Trustee and the Authority shall be entitled to rely conclusively upon a written opinion of Bond Counsel to the Authority to the effect that such amendments or modifications comply with the conditions and provisions of this Section 4.9.

Section 4.10. Amendments Required by Rule 15c2-12. The County, the Trustee and the Authority each recognize that the provisions of this County Continuing Disclosure Agreement are intended to enable the compliance with Rule 15c2-12. If, as a result of a change in Rule 15c2-12 or in the interpretation thereof or the promulgation of a successor rule, statute or regulation thereto, a change in this County Continuing Disclosure Agreement shall be permitted or necessary to assure continued compliance with Rule 15c2-12 and upon delivery of an opinion of Bond Counsel to the Authority to the effect that such amendments shall be permitted or necessary to assure continued compliance with Rule 15c2-12 as so amended or interpreted, then the County, the Trustee and the Authority shall amend this County Continuing Disclosure Agreement to comply with and be bound by any such amendment to this County Continuing Disclosure Agreement to the extent necessary or desirable to assure compliance with the provisions of Rule 15c2-12 and provide the written notice of such amendment as required by subsection 4.9(c) hereof.

Section 4.11. Governing Law. This County Continuing Disclosure Agreement shall be governed exclusively by and construed in accordance with the laws of the State and the laws of the United States, as applicable.

Section 4.12. Commencement and Termination of Continuing Disclosure Obligations. Except as otherwise provided herein, the obligations of the Authority, the County and the Trustee hereunder shall be in full force and effect from the date of issuance of the Series 2011 Bonds and shall continue in effect until the earlier of (i) the date the Series 2011 Bonds are no longer outstanding in accordance with the terms of the Bond Resolution or (ii) the County's obligations under the County Refunding Bond are no longer outstanding, and only after the Authority delivers written notice to such effect to the MSRB.

Section 4.13. Prior Undertakings. The County has not failed to comply in any material respect with any prior continuing disclosure undertaking made by the County, if any, in accordance with Rule 15c2-12.

**COMPANY CONTINUING DISCLOSURE AGREEMENT  
(SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011)**

THIS COMPANY CONTINUING DISCLOSURE AGREEMENT (SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011) (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "*Company Continuing Disclosure Agreement*") is made and entered into as of December 1, 2011 by and among SUNLIGHT GENERAL SUSSEX SOLAR, LLC, a limited liability company organized and existing under the laws of the State of New Jersey (the "*State*") (including any successors and assigns, the "*Company*"), U.S. BANK NATIONAL ASSOCIATION (the "*Bank*"), a national banking association authorized and acting under the laws of the United States of America and further authorized to conduct business in the State, where the Bank acts as trustee under and pursuant to the hereinafter defined Bond Resolution (including any successors and assigns, the "*Trustee*"), and the MORRIS COUNTY IMPROVEMENT AUTHORITY, a public body corporate and politic duly created and validly existing under the laws of the State (including any successors and assigns, the "*Authority*").

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

**WHEREAS**, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "*Act*"), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act; and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or

for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "*Projects*"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and
- (ii) Byram Township School District, Frankford Board of Education, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Township Board of Education, High Point Regional Board of Education, Kittatinny Regional School District, Lafayette Township Board of Education, Lenape Valley Board of Education, Newton Board of Education (collectively, the "*Board of Education Series 2011 Local Units*"); and
- (iii) County and Sussex County Technical School (the "*County Series 2011 Local Units*");

(each a "*Series 2011 Local Unit*", and, collectively, the "*Series 2011 Local Units*"), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$ \_\_\_\_\_ and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease

Revenue Bonds, Series 2011A (Federally Taxable)” dated their date of delivery (the “*Series 2011A Bonds*”) the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the “*Series 2011A Bonds*”), and (ii) one series of notes in the aggregate principal amount of \$ \_\_\_\_\_ and entitle, “County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)” (the “*Series 2011B Note*”, and together with the Series 2011A Bonds, “*Series 2011 Bonds*”), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year’s worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*”);

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the “*Bonds*”) shall be issued pursuant to the terms of that certain “RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY” to be adopted by the governing body of the Authority, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the “*Bond Resolution*”), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, pursuant to N.J.S.A. 40:37A-77 of the Act, N.J.S.A. 40A:65-4 of the Shared Services Act and other applicable law, upon or prior to the issuance of the Series 2011 Bonds, the Authority shall have entered into a “License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 15, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, each agreement shall constitute a “*Local Unit License Agreement*”, and collectively, the “*Local Unit License Agreements*”) with each Series 2011 Local Unit that would, among other things, provide the Authority and/or its assignees the right and obligation to (i) access the Local Unit Facilities of each such Series 2011 Local Unit, most particularly their roofs, parking area and/or grounds and electrical systems (the “*Local Unit License*”), (ii) finance, design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects on, in, affixed or adjacent to, or for the benefit of such Local Unit Facilities, (iii) receive the right to the renewable energy produced from the Renewable Energy Projects financed by the Series 2011 Bonds, and (iv) sell all or a

portion of the renewable energy produced from such Renewable Energy Projects through the Authority to the respective Series 2011 Local Units, pursuant to an assignment (under each Local Unit License Agreement) from the Authority to the Series 2011 Local Units of the Power Purchase Agreement (as hereinafter defined), the terms of which Power Purchase Agreement could be entered into directly by the Series 2011 Local Units under N.J.S.A. 40A:11-15(45) of the Local Public Contracts Law (for the Municipal and County Series 2011 Local Units) and under N.J.S.A. 18A:18A-42(o) of the Public Schools Contracts Law (for the Board of Education Series 2011 Local Units);

**WHEREAS**, upon or prior to the issuance of the Series 2011 Bonds, and in accordance with (i) N.J.S.A. 40A:11-4.1(k) of the Local Public Contracts Law and N.J.S.A. 18A:18A-4.1(k) of the Public Schools Contracts Law, (ii) Local Finance Board Notice 2008-20, December 3, 2008, *Contracting for Renewable Energy Services*, (iii) the State Board of Public Utilities (“BPU”) protocol for measuring energy savings in PPA agreements dated February 20, 2009 (*Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines*), (iv) Local Finance Board Notice 2009-10 dated June 12, 2009, *Contracting for Renewable Energy Services: Update on Power Purchase Agreements*, and (v) all other applicable law, and pursuant to a competitive contracting process governed thereby, which included a request for solar developer proposals issued by the Authority dated September 8, 2011, as amended (the “*Company RFP*”) and the receipt of proposals from prospective solar developers, including that proposal dated October 13, 2011 (the “*Company Proposal*”) of Sunlight General Sussex Solar, LLC (the “*Company*”), the Authority selected the Company to design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects for the designated Local Unit Facilities of such Series 2011 Local Units, with such Program terms as are set forth in the following Company Documents to be entered into between the Company and, at a minimum, the Authority, or acknowledged by the Company, as applicable:

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall by negotiated sale publicly offer the Series 2011 Bonds, in which public offering case the Authority shall have authorized (i): the distribution of a preliminary official statement "deemed final" within the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the "*Preliminary Official Statement*"); and (ii) the execution and delivery of a bond purchase agreement (the "*Bond Purchase Agreement*") with an underwriter to be selected by the Authority through a fair and open process (alternatively, the "*Underwriter*") to purchase all of the Series 2011 Bonds, and (iii) delivery of a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the "*Official Statement*", and together with the Preliminary Official Statement, and the Bond Purchase Agreement, and any of the same or other offering or sale documents that may be required by the County "*Sale Documents*");

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 ("*Section 13*") of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the "Sussex County Board of Freeholders") and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Documents, the County Documents, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the "*Program*

# **Morris County Improvement Authority Sussex County Renewable Energy Program (County of Sussex) Series 2011**

## **1. Executive Summary**

This Report is being provided pursuant to the requirements of the competitive contracting provisions of the Local Public Contracts Law (N.J.S.A. 40A:11-4.1(k)), Public School Contracts Law, specifically, (N.J.S.A. 18A:18A-4.1(k)); Local Finance Board Notice 2008-20, December 3, 2008, *Contracting for Renewable Energy Services* (LFB Notice 2008-20); the Board of Public Utilities (BPU) protocol for measuring energy savings in PPA agreements (*Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines, Dated February 20, 2009*), and Local Finance Board Notice 2009-10, dated June 12, 2009, *Contracting for Renewable Energy Services: Update on Power Purchase Agreements* (LFB Notice 2009-10).

Attached is a Service Agreement ("Agreement"), regarding the Sussex County Renewable Energy Program, between the County of Sussex, New Jersey ("Sussex") and the Morris County Improvement Authority ("Authority"). The Agreement has been entered into pursuant to the interlocal services act and county improvement authority law. Pursuant to the Agreement, Sussex, which has not created its own county improvement authority, has determined to use the services of the Authority, which has developed and implemented a renewable energy program for Morris County, to develop and implement a renewable energy program for Sussex County. The Authority will act as the conduit for issuing bonds to finance the Sussex Renewable Energy Program and Sussex will provide the guaranty regarding the repayment of those bonds.

On September 8, 2011, the Authority issued a Request for Proposals (RFP), as amended, for a Power Purchase Agreement (PPA) for the design, acquisition, installation, tax ownership, commissioning, operation, and maintenance of solar systems (Solar Systems) to be located at certain county and local government facilities (Local Unit Facilities) across Sussex. Below is a complete list of all participating Local Units included in the RFP:

1. Byram Township School District
2. County of Sussex
3. Frankford Township Board of Education
4. Franklin Borough Board of Education
5. Fredon Township
6. Green Township Board of Education
7. Hardyston Board of Education
8. High Point Regional Board of Education

9. Kittatinny Regional School District
10. Lenape Valley Regional Board of Education
11. Newton Board of Education
12. Sussex County Technical School
13. Town of Newton

The goal of Sussex is to implement solar renewable energy projects that are environmentally responsible and economically beneficial to the County, its Local Units, and its citizens.

The Authority, on behalf of Sussex, intends to enter into a long-term (fifteen (15) year) PPA with the Successful Solar Respondent (Successful Respondent) to purchase solar electric power produced from installed renewable energy projects located at certain Local Unit Facilities for the Local Units identified above. Under a PPA, a developer designs and installs solar projects and the site energy user purchases the electricity produced at a fixed rate per kilowatt hour (kWh). A county or local government can only enter into a PPA if the PPA price is lower than the delivered cost of power from the local electric utility company. In a typical PPA, a Local Unit will, for a portion of its energy needs, save on its energy bills, and will be, to the greatest extent possible, insulated from energy market fluctuation, construction risks, operational risks, and financial risks.

Pursuant to the Agreement, Sussex has determined to use the professional services of the Consultants that administered the Morris County renewable energy program to provide those same services to Sussex in the development and implementation of its Renewable Energy program. The Sussex Evaluation Team (Evaluation Team) is comprised of: John Eskilson, Dennis McConnell and Bernard Re of Sussex; Steve Pearlman, Esq. and Deborah Verderame, Esq. of Inglesino, Pearlman, Wyciskala & Taylor, LLC; Tom Brys and Gerry Genna, of Birdsall Services Group; Douglas Bacher and Heather Litzebauer of NW Financial Group, LLC; and Steven Gabel, Richard Preiss and Cadence Bowden of Gabel Associates. The Evaluation Team assisted in developing and implementing the RFP, and administered the procurement process as well as a comprehensive evaluation of qualified proposals on the basis of price and non-price criteria.

This process was undertaken in accordance with competitive contracting provisions of the Local Public Contracts Law (N.J.S.A. 40A:11-4.1(k)) and on behalf of the board of education Local Units, the Public Schools Contracts Law (N.J.S.A. 18A:18A-4.1(k)) of the State of New Jersey (the "State"), all pursuant to (i) Local Finance Board Notice 2008-20, December 3, 2008, Contracting for Renewable Energy Services, (ii) the Board of Public Utilities protocol for measuring energy savings in PPA agreements (Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines, Dated February 20, 2009), (iii) Local Finance Board Notice 2009-10 dated June 12, 2009, Contracting for Renewable Energy Services: Update on Power Purchase Agreements and applicable law.

Sussex received a proposal from one (1) Solar Respondent (Respondent): SunLight General Capital and Power Partners MasTec (SunLight/MasTec). In addition, shortly after the time for submission of proposals (i.e. 1:00 PM, Eastern time, October 13, 2011), a second Respondent arrived to submit a proposal. When informed that the submission period had closed and Sussex could not accept the second proposal, the second Respondent inquired as to the publicly announced PPA price submitted by SunLight/MasTec. When informed of the subject PPA price, the second Respondent indicated that their proposal was not competitive with the proposal of SunLight/MasTec, declined to leave their proposal and left.

The one (1) Respondent submitted the required RFP documents and, based on Phase I requirements (compliance with the minimum terms of the RFP), was deemed compliant. The SunLight/MasTec proposal, therefore, qualified to be further evaluated under Phase II (technical and economic evaluation) requirements. The Evaluation Team has undertaken an economic and technical review of the proposals to evaluate them in accordance with established criteria under Phase II evaluation. The Evaluation Team considered and weighed the following:

- Financial benefits;
- Technical design;
- Project experience;
- Vendor qualifications; and,
- Financial strength.

The SunLight/MasTec team possesses high quality management, installation capabilities, and sound solar development experience. In addition, the SunLight/MasTec proposal provides Sussex benefits in the following key areas:

1. It provides substantial direct energy cost savings;
2. It provides the Local Units the potential for additional savings through the sharing of revenues from the sale of Solar Renewable Energy Certificates (SRECs) and other environmental benefits;
3. Due to SunLight/MasTec's proposed capital investment, which reduces the required size of the Authority bonds, it provides a strong level of protection for Sussex from financial risk;
4. It provided additional financial protection for Sussex in the form of a Debt Service Reserve Fund; and,
5. It includes a restoration security providing for additional Local Unit protection at the end of contract.

Over the fifteen (15) years of the PPA, the SunLight/MasTec proposal yields nominal benefits of \$5.6 million or net present value (NPV) benefits of \$4.0 million. These

benefits have been calculated under the conservative assumption that bond interest rates will be at 5.0%. The RFP also required Respondents to submit an adjustment factor to the PPA Price to account for a change in the bond rate from the assumed level of 5.0% to the actual bond issuance rate. Based upon SunLight's adjustment factor and the current expectation for the bond issuance rate (4.6%), the SunLight/MasTec proposal would yields nominal benefits of \$5.9 million or net present value (NPV) benefits of \$4.3 million.

The Respondent provided a financial structure limiting the financial risk to Sussex (as the guarantor of the bonds) and the mitigated risk to the Authority as the conduit bond issuer. By offering to self-finance a substantial portion of the overall cost of the renewable energy projects in the amount of \$7.6 million, the SunLight/MasTec proposal allows the Authority, on behalf of Sussex, to significantly reduce its bond size. The Authority's \$26 million in bonds will be combined with SunLight/MasTec's \$7.6 million self-financing to finance the total project cost (\$33.6 million). The SunLight/MasTec proposal also protects Sussex from the potential risk of reductions in the price of SRECs. Moreover, by self-financing a portion of the total cost of the project this protection has a very high degree of certainty. In addition, SunLight/MasTec proposed to post a \$1.5 million reserve, funded with an equity contribution from the company, to provide additional financial protection to Sussex.

The Evaluation Team recognizes the value of the financial provisions of the SunLight/MasTec proposal in terms of the protection of Sussex, its guaranty and its bond rating. The preservation of this bond rating provides future economic benefits to Sussex and its citizens and businesses by allowing Sussex, through the Authority, to borrow money at low interest rates due to its Aa2 rating. Accordingly, a high premium is placed on its protection. The financial protections of the SunLight/MasTec proposal, including a significant reduction in the size of the Authority bond amounts, on behalf of Sussex, provides a strong and distinguishing level of protection which, in combination with other factors considered, lead to the recommended selection.

The RFP reserves the right for Sussex to conduct interviews with qualified Respondents. After reviewing all aspects of the submitted proposals, in particular the savings in energy costs preferred by Sussex and as required under applicable law (see the details in Section 8(a) and as reflected in the Evaluation Matrix through Phase II), the Evaluation Team decided to conduct an interview with SunLight/MasTec to better understand their proposal. Based on the results of the Phase II and Phase III evaluation, the Evaluation Team recommends that the proposal of SunLight/MasTec be accepted (see **Attachment 2** for the Evaluation Matrix). The SunLight/MasTec proposal results in significant savings on energy costs for the participating Local Units, and strong financial protections for the Authority and Sussex.

Members of the Sussex Evaluation Team have significant experience in evaluating proposals from solar developers submitted in response to similarly structured solar renewable energy programs. That experience has been drawn upon in the evaluation of the SunLight/MasTec proposal. The scoring in the Evaluation Matrix (see

**Attachment 2)** identifies SunLight/MasTec as a well qualified Respondent providing great overall value to Sussex. SunLight/MasTec's proposal scored 94 out of 100 points.

Given that there was only one (1) proposal officially received (as mentioned above a second proposal (which was withdrawn) arrived after the closing time for submission of proposals and could not be accepted), the Evaluation Team considered the possibility of rejecting the SunLight proposal and rebidding the RFP. For the following reasons, the Evaluation Team recommended not to rebid the RFP:

1. A major element supporting the financing and pricing of solar projects is the ability of the solar developer to capture the Federal benefit of the 1603 Grant. Since the 1603 Grant expires at the end of calendar year 2011, the timing of the RFP process was such to allow the solar developer the opportunity to capture this benefit. The Evaluation Team judged that there was not sufficient time to rebid the RFP and provide this opportunity. Without the benefit of the 1603 Grant, the Evaluation Team believes there would be a negative impact on the proposal pricing.
2. The SREC market has experienced a significant downturn in pricing and an increase in volatility. Given the current SREC market, the Evaluation Team judged the pricing of the SunLight proposal to be consistent with that market.
3. SunLight/MasTec is known to be a quality solar team with a successful security structure as part of their proposals. They have been the successful solar team on several county renewable energy programs. As such, SunLight/MasTec is familiar with the documentation required to close and execute the transaction, which is critical to realizing the 1603 Grant.
4. The SunLight/MasTec proposal provides a significant level of energy cost savings for the Local Units, while providing Sussex with important financial protections through its equity contribution which reduces the amount of the bonds required to be issued and its debt service reserve fund, which taken together virtually eliminate the potential for a Sussex deficiency should SunLight/MasTec default.

**Accordingly, the Evaluation Team recommends that the Authority select SunLight/MasTec as the Successful Respondent, subject to clarification of the SREC sharing issue discussed in Section 12, page 28.**

The evaluation of "price and non-price" factors allowed by law permits and supports this recommendation.

SunLight/MasTec has proposed to install and operate solar systems at seventeen Local Unit Facilities. The basic terms and benefits of the SunLight/MasTec proposal are as follows:

1. A fifteen (15) year PPA, with a first year rate of \$0.099 per kWh and annual escalation of 3% which results in a final price of \$0.150 in Year 15.
2. A 6.678 MW solar system. This is expected to generate approximately 8.0 million kWh per year. The solar energy will serve approximately 46% of the combined load for all Local Unit Facilities (see **Attachment 4**) based, conservatively, on the guaranteed level of solar generation.
3. Based upon the PPA Price in the SunLight/MasTec proposal, participating Local Unit Facilities will realize, in aggregate, an annual energy cost savings of approximately \$280,000 in the first year and these savings are expected to grow to approximately \$488,000 in the last year of the PPA (see **Attachment 3**). When based upon a less conservative, current bond issuance rate, with an adjusted PPA Price, the participating Local Unit Facilities would realize, in aggregate, an annual energy cost savings of approximately \$301,000 in the first year and these savings are expected to grow to approximately \$516,000 in the last year of the PPA.
4. Based upon the PPA Price in the SunLight/MasTec proposal, over the fifteen year term of the PPA, the Local Units, in aggregate, will realize \$5.6 million in energy cost savings on a nominal basis (\$4.0 million on a NPV basis) (see **Attachment 5**). When based upon a less conservative, current bond issuance rate, with an adjusted PPA Price, over the fifteen year term of the PPA, the Local Units, in aggregate, would realize \$5.9 million in energy cost savings on a nominal basis (\$4.3 million on a NPV basis).
5. Participating Local Unit Facilities will realize an average rate reduction, for the portion of their electricity purchased through this program, of 28% relative to utility delivered power in the first year.
6. A significant reduction in the amount of Authority bonds required to fund the renewable energy projects, on behalf of Sussex, to an amount of approximately \$26.0 million; which creates significant financial security to Sussex and the Authority.
7. A \$1.5 million reserve fund, funded with an equity contribution from the company, provides additional financial protection to Sussex and the Authority.
8. A stable and known cost of electricity for fifteen years allows for budgetary certainty for the participating Local Units.
9. Potential use of the locally manufactured solar panels of MX Solar, a New Jersey based solar panel company.

10. Restoration Security of \$375,000 to provide additional protection to the Local Units that will be set aside to cover the cost of system removal at the end of the term if such option is selected.

11. Sharing of SREC revenue benefits.

12. An educational component including an educational program, with the ability to access operational data for the solar systems via a web enabled system.

The above benefits may be recalculated after the sale of the Authority bonds if materially different from the estimate in this report.

## 2. Overview of the Sussex County Renewable Energy Program

The following is a brief synopsis describing the Morris County Improvement Authority, Sussex County Renewable Energy Program, Series 2011 (Solar Initiative) as outlined in the RFP.

On September 8, 2011, the Authority issued a Request for Proposals (RFP), as amended, for a Power Purchase Agreement (PPA) for the design, acquisition, installation, tax ownership, commissioning, operation, and maintenance of solar systems (Solar Systems) to be located at certain county and local government facilities (Local Unit Facilities) across Sussex County (Sussex). See Section 4 for a list of the final participating Local Units and Local Unit Facilities.

The goal of Sussex is to implement Renewable Energy Projects including Solar Systems that are both environmentally responsible and economically beneficial.

The RFP's total size (kW dc) of the Solar Systems at Sussex's thirteen (13) local units and seventeen (17) Local Unit Facilities was estimated to be 6.7 MW, thus reducing the carbon footprints of the Local Unit Facilities for the term of the agreement and, potentially, beyond.

Sussex intends to enter into a long-term (fifteen (15) year) PPA with the Successful Respondent to purchase solar electric power produced from installations located on some, or all, of the Local Unit Facilities identified above. Sussex does not intend to enter into a PPA unless the cost of the PPA is lower than the delivered cost of power from the local electric utility company.

In evaluating proposals, the Evaluation Team used a Proposal Evaluation Matrix (Matrix) to rank Respondents (see **Attachment 2**). The Matrix includes a three step process:

1. Phase I is a checklist to determine if the Respondent has included all required documentation and information in their proposal. Once all requirements have been met, a Respondent is deemed compliant and qualifies to move to the Phase II of the evaluation. As the RFP makes clear, if a Respondent does not meet the Phase I requirements, it does not receive further consideration.
2. Phase II is a weighted rating of the value provided by the proposal across several categories (financial benefits, technical design, experience, qualifications and financial strength) and evaluation factors within those categories.
3. Phase III is an interview of the Respondents and final evaluation.

The Respondent with the top ranking in Phase II and III, after being determined to be in compliance with the requirements of Phase I, will be recommended for award as the

Successful Respondent. The purpose of this Evaluation Report is to provide the Authority and Sussex with a full evaluation of qualified proposals, and to recommend which proposal provides the greatest value to the Authority, Sussex County and the Local Units.

### **3. Financial Structure for the Sussex County Renewable Energy Program**

The following is a brief synopsis of the financial structure as provided in the RFP.

The Authority will issue taxable bonds, on behalf of and guaranteed by Sussex County, to finance the solar systems to be designed and installed by a private solar developer for the benefit of the Local Units. This structure offers the opportunity for the Successful Respondent to maintain the tax ownership of the investment and will allow them to access the low cost of capital available in the public markets, through Sussex County's "Aa2" credit rating.

The benefits of the federal tax benefits (which Sussex cannot take as a public entity) and low cost county debt have been combined in Sussex's Solar Initiative.

This structure provides the Successful Respondent with the opportunity to take advantage of federal tax benefits (such as the 1603 Treasury Grant or the 30% renewable energy investment tax credit and five year accelerated depreciation). The Successful Respondent will also own and monetize SRECs realized through New Jersey's Renewable Portfolio Standard (RPS) Program. The value realized from the sale of SRECs in the competitive market is a major component supporting the financing of a solar project. The Successful Respondent will take on the responsibility and risk of managing SREC sales.

The Authority will enter into a series of license agreements with the local governments that desire renewable energy, to gain access to their roof and/or ground space and parking lots for the installation of solar panels. After the Authority issues the Sussex County guaranteed bonds, on behalf of Sussex, to finance the solar projects, the Authority will lease the solar panels to the competitively procured Successful Respondent, structuring that lease in such a way as to provide the Successful Respondent with an opportunity to become the tax owner of the solar projects.

The Successful Respondent, in turn, makes lease payments to the Authority to fully pay the debt service on the Authority bonds. Through a PPA, the Successful Respondent sells the electricity generated by the solar projects through the Authority back to the local government entities at a rate below the local utility tariff. The Successful Respondent must either provide some form of security to Sussex, or eliminate the need for it. As part of the RFP process, the Respondents had to include either a County Security Amount (CSA), or an alternate structure that would minimize or eliminate the CSA, to provide security that the lease payments will be made and that the Authority and Sussex have adequate financial protection.<sup>1</sup> The CSA calculates the difference between the lease payments and the revenue the Successful Respondent earns through SREC sales and PPA payments. This is to ensure that if the Successful Respondent

---

<sup>1</sup> See page 9 of the RFP Section 1.3.

defaults in any year during the fifteen year contract, Sussex will have sufficient reserve in the form of the CSA, together with remaining SREC and PPA revenues, to pay the remaining debt service (assuming the continuation of PPA payments and conservatively estimated SREC revenue streams).

The RFP also permitted Respondents to propose alternate structures using their own sources of financing.

This financing structure, in effect, allows the Successful Respondent to design, construct, own and operate the solar systems, assume the burdens of the project (pay the debt service and provide security), and embed its costs and revenue streams into a fixed, indexed sales price for the solar energy generated.

The program allows Local Units to demonstrate environmental responsibility while realizing economic benefits. The PPA offers a reduction in current energy costs for a portion of the Local Units energy needs and long term stability of energy prices.

#### 4. RFP Preliminary Solar System Size

The original RFP, as released on September 8, 2011, contained the results of a preliminary feasibility assessment, as performed by Sussex's Energy Consultants. This assessment estimated the technical potential for Solar Systems at fourteen (14) Local Units and eighteen (18) Local Unit Facilities. Released on September 20, 2011 Addendum 1, provided changes to the original Local Unit Facility list and system sizes.

The tranche list as included in the original RFP was as follows:

LU #	Local Unit	Facility	Local Unit Facility Solar KW Size			TOTAL
			Roof Mounted	Parking Canopy	Ground Mounted	
1	Byram Township School District	Byram Lakes Elem./ Int. School	38	455	0	493

<b>TOTAL</b>			<b>1,580</b>	<b>2,249</b>	<b>3,051</b>	<b>6,880</b>

The total system size across the above fourteen (14) local units was 6.880 MW. However, Addendum 1 released on September 20, 2011 decreased the system size from 6.880 MW to 6.681 MW. The following Local Unit Facilities were removed or amended as part of Addendum 1:

- Lafayette Township School (49 kW roof mounted system and 206 kW ground mounted system)
- Frankford Township School (309 kW ground mounted system)

The following represents the tranche list as updated through Addendum 1 to the RFP:

LU #	Local Unit	Facility	Local Unit Facility Solar KW Size			TOTAL

<b>Percentage</b>			<b>22.9%</b>	<b>33.7%</b>	<b>43.4%</b>	<b>100.0%</b>

Therefore, after the Addendum 1 changes, the total system size of the Sussex County program includes thirteen (13) Local Units and seventeen (17) Local Unit Facilities, with a solar system size of 6.681 MW.

## **5. PPA Pricing Design**

Sussex requested one PPA Price and index from the Respondents for the entire project. Respondents are required to insure that every Local Unit Facility is included in the response. Respondents were provided the option of submitting a proposal based upon public (County) financing, private financing or a combination in accordance with the RFP. Respondents were also required to provide two price adjustment factors to be used to adjust PPA rates upward or downward based on the final project development costs and the final interest rate on the debt service determined at the closing of project financing.

## **6. Respondent Response to RFP**

The Authority received a proposal in response to the RFP from the following one (1) Respondent:

1. SunLight General Capital and Power Partners MasTec (SunLight/MasTec)

The proposal was determined by counsel to Sussex to have met the Phase I requirements of the RFP and was further evaluated under the Phase II evaluation.

Key information from the conforming proposal submitted by SunLight/MasTec is summarized below.

Note: Shortly after the time for submission of proposals (i.e. 1:00 PM, Eastern time, October 13, 2011), a second Respondent arrived to submit a proposal. When informed that the submission period had closed and Sussex could not accept the second proposal, the second Respondent inquired as to the publicly announced PPA price submitted by SunLight/MasTec. When informed of the subject PPA price, the second Respondent indicated that their proposal was not competitive with the proposal of SunLight/MasTec, declined to leave their proposal and left.

SunLight/MasTec proposed a fifteen (15) year PPA term to install solar at all seventeen (17) Local Unit Facilities. The total size of the solar systems to be installed is 6.7 MW dc. The total project cost is \$33.6 million although SunLight/MasTec offered to reduce the bond size to \$26.0 million through a \$7.6 million capital investment in the project. The capital investment would be provided in conjunction with the issuance of the Authority bonds.

SunLight/MasTec's first year PPA price is \$0.099 per kWh. The annual escalation rate is 3%. SunLight/MasTec offered SREC sharing at 50% of the upside on SRECs above \$300 after Year 5 to maturity, a debt service reserve fund of \$1.5 million, and restoration security of \$375,000.

## 7. Proposal Evaluation Matrix

Once proposals are deemed compliant based on Phase I requirements, the proposals are subject to Phase II and III evaluation in accordance with the process defined in the RFP. The evaluation was conducted in accordance with an evaluation matrix, which is based on a total potential score of 100. The Matrix is broken into the following criteria and weighting factors:

Financial Benefits (50)	NPV of Benefits Option - Sharing of Benefits Non-Material Changes to Program Documents
Technical Design/Approach (10)	Output Guarantee (kWh) Design Strategy Project Team Approach O&M Plan and Approach
Respondent Experience (10)	Project Management Contractor Expertise Project Experience New Jersey Experience
Financial Strength (20)	Financial Capability/Strength of Provider Financial Risk
Oral Interview Evaluation (10)	Presentation Explanation Key Factors Understanding Financial Factors/SREC Market

## **8. Financial Benefits Evaluation**

The Sussex County Renewable Energy Program has been developed and implemented with no capital cost to the Local Units. In addition to this benefit, below is a summary of the financial benefits section of the Phase II evaluation. Proposals were evaluated and awarded points in the Matrix based on their responses to the following criteria: NPV of benefits; sharing of benefits; and, non-material changes to documents. Since there was only one compliant bid, Gabel Associates completed the Phase II evaluation based upon their experience with other County solar programs.

### **a. NPV of Benefits**

Local Units realize economic benefits from the installation of renewable energy projects through the savings in energy costs by purchasing electricity from the solar project rather than from the local electric utility.

In calculating energy cost savings, the Evaluation Team compares a forecast of the cost of the local utility tariff rate electricity delivered to the Local Unit Facility that is avoided by purchasing the solar generation from the renewable energy projects at the PPA rate proposed by the Respondent and multiplies the difference by the expected solar output. This yields the projected savings in energy costs realized through the installation of the renewable energy projects.

It is important to note that the energy cost savings are calculated at the guaranteed level of solar generation (90% of the expected level). Thus, the level of energy cost savings are stated on a conservative basis. Actual energy cost savings to the Local Unit Facilities are likely to exceed the levels indicated in this Evaluation Report.

The forecast of the avoided cost of the local utility tariff rate is the result of a detailed analysis of each utility tariff by each of its components over the fifteen year term of the PPA. This detailed analysis takes into account many factors, including the following:

1. Those components of the utility tariff rate that are not avoided as a result of the solar installation. For example, the customer charge and a portion of demand charges are not avoided through the purchase of solar energy generated by the solar systems. In addition, if the local unit facility is purchasing the commodity component of electric supply in the competitive market, it is assumed that the local utility will continue this practice in the development of their non-solar electricity costs.
2. The most recent energy market fundamentals (ex. New York Mercantile Exchange futures, Energy Information Administration long term escalation rates and environmental and RPS programs such as the SREC program) are incorporated to provide the best indication of future energy market costs.

3. The impact on future energy costs of national, state and regional environmental initiatives currently being considered (ex. carbon credits). The forecast includes the low Environmental Protection Agency estimate for carbon legislation originally slated to start in 2012 but pushed out to 2015.
4. The impact that general energy market escalation will have upon long-term energy prices.

To calculate the NPV benefits provided by each proposal, guaranteed production values were used. In addition, a 5.00% discount rate was assumed to calculate NPV of benefits; which was the assumed interest cost of the Authority bonds in the RFP. This also assumes an average retail electric escalation of 3.6%.

**Attachment 1** summarizes the PPA pricing (first year PPA price and annual escalation) proposed by the conforming Respondents.

Sussex's energy cost savings are also shown in **Attachment 1**. The savings calculations in **Attachment 1** are shown in both NPV and nominal dollars, however, the most appropriate way to compare the value of projects is on a NPV basis to recognize the time value of money and the opportunity cost of capital.

Over the fifteen (15) years of the PPA, the SunLight/MasTec proposal yields nominal benefits of \$5.6 million or net present value (NPV) benefits of \$4.0 million. These benefits have been calculated under the conservative assumption that bond interest rates will be at 5.0%. The RFP also required Respondents to submit an adjustment factor to the PPA Price to account for a change in the bond rate from the assumed level of 5.0% to the actual bond issuance rate. Based upon SunLight's adjustment factor and the current expectation for the bond issuance rate (4.6%), the SunLight/MasTec proposal would yields nominal benefits of \$5.9 million or net present value (NPV) benefits of \$4.3 million.

The Respondent with the highest NPV of benefits (SunLight/MasTec) earned the maximum number of points (40) in the Matrix for this criterion.

A sensitivity analysis of the NPV benefits was also conducted by evaluating changes in the average electric rate escalation and is provided in **Attachment 5**. The results show that the SunLight/MasTec proposal will provide significant levels of energy cost savings, even assuming no escalation in the average electric rate.

#### **a. Option – Sharing of Benefits**

The RFP asked the Respondents whether they would be willing to share additional benefits with Sussex. As an example of such benefits, the RFP listed (a) sharing of SREC market revenues, (b) sharing in any Federal or State tax benefits, (c) sharing in other financial / environmental market value, (d) end on contract provisions beyond

those identified in the RFP and (e) any other additional services that would provide value to Sussex.

As it relates to the sharing in SREC market revenues, the level of this potential benefit and the probability of it occurring are very difficult to determine since it depends on future SREC prices. SREC prices will depend on the level of SREC supply and the cost and efficiency of new solar projects at that time. Scoring was based on whether or not SREC sharing was proposed and how beneficial the sharing would be to Sussex.

### **SunLight/MasTec**

SunLight/MasTec offered the following additional benefits:

1. SREC sharing in the amount of 50% of the upside of SRECs above \$300 after Year 5.
2. Should other environmental attributes arise in the future from these projects, SunLight/MasTec proposed to share in the proceeds from the sale of such attributes.
3. Should a change in law result in significantly more favorable tax treatment, SunLight/MasTec would use best efforts to share with Sussex.
4. Finally, they would deliver an educational program about the science and benefits of solar systems, including solar energy science kits, teacher training about renewable energy, the ability to access operational data and personnel to promote the educational program.

SunLight/MasTec was awarded the maximum value of five (5) points for this sharing proposal.

### **b. Non-Material Changes to Program Documents**

SunLight/MasTec proposed no changes to the program documents and received the maximum number of points in this section of the Matrix.

## 9. Technical Design/Approach

The evaluation of the technical design/approach has several elements including output guarantees, construction schedules, project team approach, and operation and maintenance plans. Below is a technical review of the proposal. The Proposal was evaluated and awarded points in the Matrix based on the responses to the following criteria: output guarantee, design strategy, project team approach, and operations and maintenance (O&M) plan and strategy.

### a. Output Guarantee (MWH)

The Respondent provided the output guarantees required in the RFP and were therefore awarded maximum points for this requirement. Below is a description of the Respondent's design strategy including their total system size and output.

#### SunLight/MasTec

Total System Size	Total System Output
6.678 MW	7.998 MWh

SunLight/MasTec's proposed capacity was compared with the conceptual site plans provided in the RFP. SunLight/MasTec based their proposal 100% on the Birdsall conceptual layouts without exception. The total system size is within 3kw of the conceptual site plans due to round-off differences. The SunLight/MasTec proposal will provide a 4.5% increase in kWh, over Birdsall's calculated production numbers. All system sizes and productions are within 90% of consumption at the facilities with the exception of Lenape Valley that will generate 90.5%. This is acceptable.

### b. Design Strategy

Below is a description of the proposal design strategy. The Respondent was evaluated based on the major system components and design of the systems. The Respondent received the maximum points for this requirement.

#### SunLight/MasTec

SunLight/MasTec's PV design followed the Birdsall concept layout exactly. This includes roof mounted PV panels, ground mounted PV panels, and parking canopies. Below is a description of the Major system components proposed by Sunlight/MasTec. All information was not included in the proposal but was provided in the oral interview. They are using quality products in all areas. The evaluation team accepts SunLight/MasTec's design and system components.

System Component	Manufacturer
PV Modules	Trina/Canadian/ MX Solar
Inverters	SMA/PV Powered
Mounting Systems	Allied Building, Panel Claw, Grizzly Bear
Canopy System	Baja/Protek/ Solar Ventures
DAS	Noveda or Deck

### c. Project Team Approach

Below is a description of the proposer's project team approach. Based on their responses, they were awarded the maximum points for this requirement.

Sunlight/MasTec's project team approach seemed well organized and complete. They have an experienced team which has completed similar large solar projects. In addition, they have also been the successful proposer at Somerset County Improvement Authority Tranche 2, Mercer County Improvement Authority for Mercer County Community College and Morris County Improvement Authority Tranche 2. All of the design and engineering will be completed by MasTec. They are a national energy contractor with experience, and technical depth to complete this project successfully. They have a plan to schedule installations with minimal disruptions, will be staffing locally, and plan on bringing in experienced solar contractors. They plan on meeting with local units for communications sessions, to assess the best time to schedule installations, and will be open on canopy designs to meet the needs of local units.

### d. Operations and Maintenance Plan and Approach

Below is a description of the proposal's O&M plan and approach. Based on their response, the respondent was awarded the maximum points for this requirement.

The operations and maintenance will be monitored on a daily basis by an inverter level monitoring package. This will provide the latest data for system performance and availability. It will also provide any error messages from the inverters, regarding the system operation, mal-function, and inverter status or system fault. The data acquisition system (DAS) will be designed for remote web based operation and the data will be transferred to a third party server via the internet.

SunLight MasTec also provided a comprehensive Operation and Maintenance procedures document at the oral interview. They have an acceptable approach for O&M.

## **10. Respondent Experience**

The evaluation of respondent experience has several elements including: project management, contractor experience, project experience, and New Jersey experience. Below is a summary of the SunLight/MasTec proposal.

### **a. Project Management**

SunLight/MasTec demonstrated their ability to successfully manage the project through the involvement of well qualified/experienced management, supervisory, and key staff. The respondent was awarded the maximum points for this requirement.

### **b. Contractor Experience**

SunLight/MasTec has teamed with very experienced and technically qualified EPC's. The maximum number of points for this section in the evaluation matrix is awarded.

### **c. Project Experience**

SunLight/MasTec has demonstrated extensive project experience with respect to similar types of projects in New Jersey and other States. Maximum number of points awarded for this section.

### **d. New Jersey Experience**

The SunLight/MasTec team has won other County Renewable Energy Program awards to implement solar systems. They and their contractors are well experienced in New Jersey. SunLight/MasTec has established an office in NJ to implement solar systems and will establish a second office in Sussex County, to maintain and enhance their NJ experience. The maximum number of points have been awarded for evaluation in this section.

## **11. Financial Strength**

The evaluation of the financial strength of the proposals has two (2) elements including financial capability/strength of provider and financial risk to Sussex. Below is a summary of the Respondent's proposal.

### **a. Financial Capability/Strength of Respondent**

Below is a description of the financial capability and the financial strength of the Respondent. The Respondents received the maximum amount of points for this section.

#### **SunLight/MasTec**

SunLight has financed 3.7 MW of projects since 2009 and has an additional 12.1 MW scheduled over the next year. SunLight's current equity is over \$10 million and they recently launched the SunLight General Solar Fund Two in the amount of \$30 million. Power Partners MasTec, LLC is a wholly-owned subsidiary of MasTec, Inc. a minority business enterprise with over 9,000 employees and annual revenues of \$2.3 billion (2010). MasTec has over \$500 million in bonding capacity. MasTec will provide the construction bond for the project installation. SunLight/MasTec has provided sufficient financial information and an adequate finance package.

### **b. County Security/Deficiency Amount**

Financial risk to Sussex specifically concerns proposals where the Authority is committing funds to the solar project and Sussex is committing its guaranty on those funds. A second, but much less significant, financial risk involves whether the solar developer is willing to offer a restoration security.

SunLight/MasTec has proposed to use the public financing approach which imposes a financial risk upon Sussex, however, their proposal to self-finance a substantial portion of the overall cost of the renewable energy projects has significantly reduced that risk by effectively eliminating the need to fund a County Security Amount (CSA). The SunLight/MasTec proposal has been structured such that, using the conservative SREC assumptions provided by the Authority, a CSA of approximately \$1.0 million exists only during the first year. For the majority of the program (years 2 through 15) there is no CSA and, in fact, a cushion is provided in each of the subject years.

In addition, SunLight/MasTec has proposed a \$1.5 million reserve fund to provide additional financial protection to Sussex. This reserve fund exceeds the annual bond service requirements. Finally, the SunLight/MasTec proposal offered a performance security of \$375,000 which would be built up through setting aside \$75,000 a year for five years beginning in Year 11 (a positive for Sussex). The SunLight/MasTec proposal allows the bond size to be significantly reduced and limit its associated risk to Sussex with a very high degree of certainty. Since there is still some financing risk to the

Sussex, the SunLight/MasTec proposal has been awarded less than the maximum number of points in this rating category.

The SunLight/MasTec Proposal reduced the bond size from \$33.6 million to approximately \$26.0 million by proposing to self finance \$7.6 million. This approach reduces financial risk to Sussex by reducing the amount of the Authority bonds required to be issued to approximately \$26.0 million. The smaller size of the Authority bond reduces the Sussex exposure and provides strong SREC price risk protection as the balance of transaction revenues (i.e. SRECs and PPA payments) should this Respondent default, are estimated to be fully sufficient to make all debt service payments on the bonds in all but the first year. In addition, the SunLight/MasTec proposal includes a \$1.5 million reserve fund to provide additional financial protection to Sussex.

## 12. Phase III Evaluation

The RFP reserves the right for Sussex to conduct interviews with qualified Respondents. After reviewing all aspects of the submitted proposals, in particular the savings in energy costs preferred by Sussex and as required under applicable law (see the details in Section 8(a) and as reflected in the Evaluation Matrix through Phase II), the Evaluation Team decided to conduct an interview with SunLight/MasTec to explore all aspects of their proposal.

Prior to the interview, the Evaluation Team provided a list of issues (see **Attachment 6**) that they wanted SunLight/MasTec to address at the interview. SunLight/MasTec did an excellent job during their presentation and was able to explain all key issues as well as demonstrating an understanding of financial matters. Additionally, during the interview, the potential for the monetized sharing of SREC value in the early years (year 1 through 5) was discussed. The possible tax implications of such sharing will be reviewed. Pending the result of that review, SunLight/MasTec indicated that they would be open to the monetized sharing of SREC value in the early years. SunLight/MasTec received the maximum number of points for this criterion of the Evaluation Matrix.

### **13. Recommendation – Successful Respondent**

In recommending a Successful Respondent, the Evaluation Team uses the Proposal Evaluation Matrix to rank the Respondents.

The SunLight/MasTec team possesses high quality management, installation capabilities, and sound solar development experience. In addition, the SunLight/MasTec proposal provides Sussex benefits in the following key areas:

1. It provides substantial direct energy cost savings;
2. It provides the Local Units the potential for additional savings through the sharing of revenues from the sale of Solar Renewable Energy Certificates (SRECs) and other environmental benefits;
3. Due to SunLight/MasTec's proposed capital and in kind equity investment, which reduces the required size of the Authority bond issuance, it provides a strong level of protection for Sussex from financial risk;
4. It provided additional financial protection for Sussex in the form of a Debt Service Reserve Fund; and,
5. It includes a restoration security providing for additional Local Unit protection at the end of contract.

Over the fifteen (15) years of the PPA, the SunLight/MasTec proposal yields nominal benefits of \$5.6 million or net present value (NPV) benefits of \$4.0 million. These benefits have been calculated under the conservative assumption that bond interest rates will be at 5.0%. The RFP also required Respondents to submit an adjustment factor to the PPA Price to account for a change in the bond rate from the assumed level of 5.0% to the actual bond issuance rate. Based upon SunLight's adjustment factor and the current expectation for the bond issuance rate (4.6%), the SunLight/MasTec proposal would yields nominal benefits of \$5.9 million or net present value (NPV) benefits of \$4.3 million.

The Respondent provided a financial structure limiting the financial risk to Sussex. By offering to self-finance a substantial portion of the overall cost of the renewable energy projects in the amount of \$7.6 million, the SunLight/MasTec proposal allows the Authority, on behalf of Sussex, to significantly reduce its bond size. The Authority's \$26.0 million in bonds will be combined with SunLight/MasTec's \$7.6 million self-financing to finance the total project cost (\$33.6 million). The SunLight/MasTec proposal also protects Sussex (which will be providing its guaranty on the Authority bonds) from the potential risk of reductions in the price of SRECs. Moreover, by self-financing a portion of the total cost of the project, this protection has a very high degree of certainty. In addition, SunLight/MasTec proposed to post a \$1.5 million

reserve, funded with an equity contribution from the company, to provide additional financial protection to Sussex.

The Evaluation Team recognizes the value of the financial provisions of the SunLight/MasTec proposal in terms of the protection of Sussex, its guaranty and its bond rating. The preservation of this bond rating provides future economic benefits to Sussex and its citizens and businesses by allowing the Authority to borrow money at low interest rates due to its "Aa2" rating. Accordingly, a high premium is placed on its protection. The financial protections of the SunLight/MasTec proposal, including a significant reduction in the size of the Authority bond amounts, on behalf of Sussex, provides a strong and distinguishing level of protection which, in combination with other factors considered, lead to the recommended selection.

The overall Matrix scoring identified SunLight/MasTec as the Respondent providing the greatest value. Based on the above discussions, the evaluation indicates that SunLight/MasTec's proposal scored 94 out of a total of 100 points. The proposal scoring is shown in **Attachment 4**.

**Accordingly, the Evaluation Team recommends that the Authority select SunLight/MasTec as the Successful Respondent, subject to clarification of the SREC sharing issue discussed in Section 12, page 28.** This will result in estimated aggregate annual benefits of approximately \$280,000 in the first year, total savings of \$4.0 million (NPV) over the life of the PPA, and average rate reductions for electricity purchased through this program of 35% relative to utility delivered power. These benefits will be recalculated after the sale of bonds and may likely increase due to the conservative assumptions used in this analysis.

The evaluation of "price and non-price" factors allowed by law permits and supports this recommendation.

## **Interview Questions**

### **Sussex County Solar Program Interview Questions**

#### **SunLight General Capital / Power Partners MasTec October 19, 2011**

Sussex County would like to have a general discussion on the following items to better understand the basis for the Response to Request for Proposals:

1. Financial strength of Proposer.
2. Proposed solar project financing approach. Specific discussion regarding:
  - a. Equity contribution of \$7.6 million.
  - b. Debt Service Reserve Fund account of \$1.5 million.
  - c. CDA calculation:
    - i. O&M value.
3. Discuss plans to realize 1603 grant.
4. Proposer view of current and future SREC market.
5. Expected solar production - basis for expected output.
6. Guaranteed solar production.
  - a. How and when measured.
  - b. Financial implications of production shortfall.
7. Additional economic benefits:
  - a. SREC sharing:
    - i. 50% sharing above \$300 per SREC after year 5.
    - ii. How and when measured.
    - iii. Financial sharing mechanism
  - b. Refund bonds for savings
    - i. 50% sharing resulting from refunding
    - ii. Financial sharing mechanism
  - c. Other currently unidentified environmental benefits - Discuss potential
8. Fair market value purchase option tax implications and potential formula approach.
9. Proposer experience and qualifications.

10. "Technical Drawings and Specifications" section of the proposal, section 1.3.1 (Clarifications and Assumptions): Discuss items - 3 (module pricing timing), 7 (work schedule requirement) and 12 (Construction impediments and impact on PPA price).

The following are technical questions to be discussed that will help Sussex County better understand the basis for the Response to Request for Proposals:

1. I reviewed all of the proposed system productions estimates and compared them to the facilities consumption data. All system sizes and productions are within 90.5% of total consumption. Lenape Valley was the highest at 90.5%, all other were less than 90%.
2. Under Section 4 of the Sunlight Proposal (Technical Drawings and Specification) Power Partners MasTec Section 1.3.1 Item 13. Power Partners assumes the rooftop sites do not require any upgrades and are structurally sufficient to accept ballasted racking system.

Our Technical specification: Appendix C, Part 3 Section H. Roof installations: states contractor shall maintain roof integrity with installation.

3. Power Partners MasTec's List of contracts underway states "see attached". Is the attached the meant to be SunLight's list of projects underway or is there another list?
4. The proposal includes Business registrations forms for Pfister Energy Inc., Helios Solar Energy, LLC, and Lighton Elec, Inc. Please describe how these firms will be involved in this project?
5. Describe your installation strategy to minimize disruptions at schools and other facilities? What is the construction schedule you plan of follow for the project timeline?
6. **What specific manufacturer are you using for?**

System Component	Manufacturer
PV Modules	
Inverters	
Mounting Systems	
Canopy System	
DAS	

7. How will the operations be monitored after installation is completed? What is the response time for error messages? Problems with the system? Who do you plan on using? What is the maintenance plan you have for all site?

The Series 2011 Bonds are special and limited obligations of the Authority, payable as to principal, redemption premium, if any, and interest solely from and secured by the Authority's pledge of the Trust Estate to the Trustee (as such terms are hereinafter defined) under the Bond Resolution. Pursuant to the terms of the Company Lease Agreement, the Company receives certain credits against its obligation to pay the Basic Lease Payments. In particular, the Company receives a credit for, and therefore the Revenues also include, the Power Purchase Price Payments (as hereinafter defined) made by the Series 2011 Local Units to the Trustee for the purchase of electricity under the respective "License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)", each to be dated as of December 1, 2011, (the "*Local Unit License Agreements*"), by and between each of the respective Series 2011 Local Units, as licensor, and the Authority, as licensee. ### **THE RENEWABLE ENERGY PROGRAM**

At the direction and with the support of the County, the Authority structured, developed and is in the process of implementing the Renewable Energy Program. The Renewable Energy Program provides for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications or other work required or convenient for the installation of such systems (collectively, the "*Renewable Energy Projects*") for and on behalf of the County and local governmental units within the County, including without limitation, municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*"). The Renewable Energy Projects procured under the Renewable Energy Program are to be installed on, in, affixed or adjacent to and/or for any Local Unit-controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*").

In connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, it may be necessary, desirable or convenient to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems (collectively, the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project, the "*Projects*"). The Authority anticipates no Capital Improvement Projects in connection with projects financed by the Series 2011 Bonds on behalf of the Series 2011 Local Units.

The primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits (including their contribution toward the State 2011 Energy Master Plan goal of achieving thirty percent (30%) renewable energy sources by 2020), and to reduce the energy-related operating costs of the Local Units for their Local Unit Facilities, all without obligating the Local Units to pay for the debt service on the Authority bonds (in this pool, the Series 2011 Bonds) issued to finance the costs of such Projects.

In order to implement the Renewable Energy Program, the Authority will apply a portion of the proceeds of the Series 2011A Bonds (together with all of the proceeds of the Series 2011B Note to pay capitalized interest on the Series 2011A Bonds) to finance the respective Renewable Energy Projects on the respective Local Unit Facilities, all as set forth in Exhibit B (i.e., photovoltaic panel and electrical system upgrades), and Exhibit A (the roofs, ground and parking lots for twenty-seven (27) Renewable Energy Projects located at twenty (20) public facilities) to the License and Access Agreement (a form of which is attached hereto in Appendix D) for each of the following thirteen (13) participating Local Units, or other qualifying Local Units if necessary (the "Series 2011 Local Units"):

- (i) Fredon Township and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and
- (ii) Byram Township School District, Frankford Board of Education, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Board of Education, High Point Regional School District, Kittatinny Regional School District and Newton Board of Education (collectively, the "*Board of Education Series 2011 Local Units*"); and
- (iii) County, Sussex County Community College and Sussex County Technical School (the "*County Series 2011 Local Units*");

Pursuant to the Local Unit License Agreement with each Series 2011 Local Unit, the Authority and/or its assignees have the right and obligation to (i) access the Local Unit Facilities of each such Series 2011 Local Unit, most particularly their roofs, parking area and/or grounds and electrical systems (the "*Local Unit License*"), (ii) finance, design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects on, in, affixed or adjacent to, or for the benefit of such Local Unit Facilities, (iii) receive the right to the renewable energy produced from the Renewable Energy Projects financed by the Series 2011 Bonds, and (iv) sell all or a portion of the renewable energy produced from such Renewable Energy Projects through the Authority to the respective Series 2011 Local Units, pursuant to an assignment (under each Local Unit License Agreement) from the Authority to the Series 2011 Local Units of the Power Purchase Agreement.

Under the competitive contracting provisions of the Local Public Contracts Law constituting, Chapter 198 of the Pamphlet Laws of 1971 of the State, as amended and supplemented (the "*Local Public Contracts Law*"), the Authority has procured the services of the Company to design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects for the Local Unit Facilities of (i) the Municipal Series 2011 Local Units and (ii) the County Series 2011 Local Units. The Company has secured rights to access these Local Unit Facilities from the rights and obligations set forth in the Local Unit License Agreements of such respective Series 2011 Local Units, all of which rights and obligations have been assigned from the Authority to the Company pursuant to the terms of the Company Lease Agreement. The funding for such Renewable Energy Projects shall be provided (i) to the Company in the amount of 70% of each requisition on a requisition basis from a portion of the proceeds of the Series 2011 Bonds and (ii) by the Company in the amount of 30% of each requisition through its in-kind equity contribution discussed herein.

Under the competitive contracting provisions of the Public Schools Contracts Law constituting Chapter 114 of the Pamphlet Laws of 1977 of the State, as amended and supplemented (the "*Public Schools Contracts Law*" and together with the Local Public Contracts Law, the "Contract Law"), the Authority has procured the services of the Company to design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects for the Local Unit Facilities of the Board of Education Series 2011 Local Units. The Company has secured rights to access these Local Unit Facilities from the rights and obligations set forth in the Local Unit License Agreements of such respective Series 2011 Local Units, all of which rights and obligations have been assigned from the Authority to the Company pursuant to the terms of the Company Lease Agreement. The funding for such Renewable Energy Projects shall be provided to the Company (i) to the Company in the amount of 70% of each requisition on a requisition basis from a portion of the proceeds of the Series 2011 Bonds and (ii) by the Company in the amount of 30% of each requisition through its in-kind equity contribution discussed herein.

In accordance with the terms of the Power Purchase Agreement, the Company shall sell to the Authority, for a term of fifteen (15) years, unless extended in accordance with then applicable law, the renewable energy generated from the Renewable Energy Projects for the Series 2011 Local Units for a fixed price of 0.0935 cents per kilowatt hour, as escalated annually by 3% in accordance with the terms thereof (the "*Power Purchase Price*"), which Authority right and obligation to purchase and pay (the "*Power Purchase Price Payments*") for such renewable energy shall be assigned severally, not jointly, to the Series 2011 Local Units as part of the Local Unit License Agreements. The Power Purchase Price fixed under the Power Purchase Agreement shall be based, in part, upon the Authority's assignment in the Company Lease Agreement, as nominal owner of the Renewable Energy Projects for State law purposes, to assign to the Company all of the Authority's rights to the Solar Renewable Energy Certificates (the "*SRECs*") generated by the Renewable Energy Projects for the Series 2011 Local Units.

The structure of the Renewable Energy Program, summarized above, is intended to provide the Series 2011 Local Units with a Power Purchase Price below their existing and anticipated cost of electricity for the term of their Local Unit License Agreements. According to the report prepared by the County's consulting team dated October 24, 2011, on file with the Authority and attached hereto as Appendix G, in particular Attachment 3 thereto, the average annual nominal savings on solar energy purchased by the Series 2011 Local Units participating in the Renewable Energy Program equals or exceeds 28%.

## **DESCRIPTION OF THE SERIES 2011 BONDS**

### **General**

The Series 2011A Bonds shall be dated and bear interest from their date of delivery, payable on June 15 and December 15 of each year until final maturity (stated or otherwise) commencing on June 15, 2012, at the interest rates per annum set forth on the inside front cover page of this Official Statement. The Series 2011A Bonds are scheduled to mature on June 15 in the years also set forth on the inside front cover page of this Official Statement.

The Series 2011B Note shall be dated and bear interest from its date of delivery and will be payable as to principal and interest on their maturity date, January 15, 2013, at the interest rate per annum set forth on the inside front cover page of this Official Statement.

("Cede"), as nominee for The Depository Trust Company, New York, New York ("DTC"), which will act as securities depository for the Series 2011 Bonds under its book-entry only system (the "DTC Book-Entry Only System"). An individual purchaser may purchase a Series 2011 Bond in book-entry form (without certificates) in denominations of \$5,000, or any integral multiple thereof. Provided DTC, or its nominee Cede, is the registered owner of the Series 2011 Bonds, the principal, redemption premium, if any, of, and interest on, the Series 2011 Bonds will be paid to DTC or Cede, as its nominee. See "DESCRIPTION OF THE SERIES 2011 BONDS – Book-Entry Only System" herein. In the event the Series 2011 Bonds are no longer subject to the DTC Book-Entry Only System, the

principal of and redemption premium, if any, on the Series 2011 Bonds will be payable upon surrender of the respective Series 2011 Bonds at a designated corporate trust office of the Paying Agent. Interest on the Series 2011A Bonds will then be paid by check or bank draft mailed by the Paying Agent to the registered owner thereof as of the June 1 and December 1 preceding any interest payment date at their addresses on file with the Bond Registrar. Pursuant to the terms of the County Guaranty Agreement, under certain circumstances, the County may direct the Authority to utilize this otherwise discretionary optional redemption feature set forth above. To the extent the Company causes an Event of Default, as defined under the Company Lease Agreement, to occur and such Event of Default requires the County to make a payment of the principal of and interest on the Series 2011A Bonds under the County Guaranty, so long as the County is not in default under the County Guaranty Agreement, the County has the right to cause the Authority to refund all or a portion of the Series 2011A Bonds. To the extent the County were to exercise this right prior to the first optional call date of June 15, 2021, the County would be required to cause the Authority to defease the Series 2011A Bonds in accordance with Article XII of the Bond Resolution, in which case the Series 2011A Bonds would not be called for redemption until such first optional call date of June 15, 2021. See "TAX MATTERS - Defeasance of the Series 2011A Bonds" herein for a discussion of the tax implications in the event of a defeasance of the Series 2011A Bonds.

### **No Extraordinary Optional Redemption**

The Series 2011 Bonds shall not be subject to extraordinary optional redemption in whole or in part, prior to their respective maturity dates.

### **Notice of Redemption**

When the Series 2011A Bonds have been selected for redemption pursuant to any provision of the Bond Resolution, the Trustee shall give written notice of the redemption of such Series 2011A Bonds in the name of the Authority, which notice shall set forth: (i) the date fixed for redemption, (ii) the Redemption Price to be paid, (iii) the designated office of the Paying Agent at which redemption will occur, (iv) the CUSIP numbers on the Series 2011A Bonds to be redeemed, (v) if less than all of such Series 2011A Bonds shall be called for redemption, the distinctive numbers and letters, if any, of such Series 2011A Bonds to be redeemed, (vi) in the case of Series 2011A Bonds to be redeemed in part only, the portion of the principal amount thereof to be redeemed, and (vii) except with respect to a mandatory sinking fund redemption, that such redemption is conditioned upon there being on deposit with the Trustee on the date designated for redemption moneys sufficient for the payment of the Redemption Price and the accrued interest to the redemption date. Such notice shall further state that on the redemption date there shall become due and payable the Redemption Price of all Series 2011A Bonds to be redeemed, together with interest accrued thereon to the redemption date, and that, from and after such date, interest thereon shall cease to accrue. If any Series 2011A Bond is to be redeemed in part only, the notice of redemption that relates to such Series 2011A Bond shall state also that on or after the redemption date, upon surrender of such Series 2011A Bond, the Holder thereof shall be entitled to a new Series 2011A Bond or Series 2011A Bonds, bearing interest at the same rate and in aggregate principal amount equal to the unredeemed portion of such Series 2011A Bond.

The notice required to be given by the Trustee shall be sent by first class mail to the registered Holders of the Series 2011A Bonds to be redeemed, at their addresses as they appear on the Bond registration books of the Authority, not less than thirty (30) nor more than forty-five (45) days prior to the redemption date. The failure to give notice of the redemption of any Series 2011A Bond or portion thereof to the registered Holder of such Series 2011A Bonds shall not affect the validity of the proceedings for the redemption of any Series 2011A Bonds for which notice of redemption has been given in accordance with the provisions of the Bond Resolution.

## **Additional Bonds**

The Authority does not presently anticipate issuing any Series of Additional Bonds under the Bond Resolution, as the Company is anticipated to fund any cost overruns of the Renewable Energy Projects for the Series 2011 Local Units under the Company Lease Agreement. The initial financing pool for the Renewal Energy Program has been, and any additional tranches of bonds for further Authority Renewable Energy Programs shall be, issued under separate Authority bond resolutions.

Thereafter, upon the Authority's adoption of a Supplemental Resolution and the amendment of the Company Lease Agreement to adjust and conform the Basic Lease Payment amounts to the principal of and interest on any Series of Additional Bonds, and further, upon compliance with the laws and procedures applicable for issuance of any series of Authority bonds, then one or more Series of Additional Bonds of the Authority may be authorized to be issued pursuant to and in accordance with the terms of the Act either to (i) refund any Bonds (including Additional Bonds) of the Authority, or (ii) raise funds for any Completion Project. After the issuance of the Series 2011 Bonds, and after the authentication and delivery by the Trustee upon original issuance of any Series of Additional Bonds (collectively, the "*Bonds*"), all Additional Bonds shall for all purposes of the Bond Resolution be deemed to constitute Bonds, shall be entitled to the pledge of the Trust Estate provided by the Bond Resolution, and shall have equal rank with the Outstanding Series 2011 Bonds and any Series of Outstanding Additional Bonds previously authenticated and delivered, if any, and such Additional Bonds shall be entitled to the security and benefit of such pledge and of the provisions of the Bond Resolution.

## **Book-Entry Only System**

The following description of DTC, and the procedures and record keeping with respect to beneficial ownership interests in the Series 2011 Bonds, payment of principal, interest and other payments on the Series 2011 Bonds to Direct Participants, Indirect Participants or Beneficial Owners, confirmation and transfer of beneficial ownership interests in such Series 2011 Bonds and other related transactions by and between DTC, the Direct Participants, the Indirect Participants and the Beneficial Owners is based solely on information provided by DTC, and the Authority, the Company and the Underwriters assume no responsibility therefor. Accordingly, no representations can be made concerning these matters and neither the Direct Participants, the Indirect Participants nor the Beneficial Owners should rely on the following information with respect to such matters but should instead confirm the same with DTC or the Direct Participants or the Indirect Participants, as the case may be. Information concerning DTC and the Book-Entry Only System has been obtained from DTC and is not guaranteed as to accuracy or completeness by, and is not to be construed as a representation of, the Authority, the Company and the Underwriters.

DTC will act as the initial securities depository for the Series 2011 Bonds. The Series 2011 Bonds will be issued as fully-registered securities registered in the name of Cede (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered bond certificate will be issued for each maturity of the Series 2011 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC's participants ("*Direct Participants*") deposit with DTC. DTC also facilitates the post-trade settlement among computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("*DTCC*"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("*Indirect Participants*"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission.

Purchases of Series 2011 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2011 Bonds on DTC's records. The ownership interest of each actual purchaser of each Series 2011 Bond ("*Beneficial Owner*") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2011 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Series 2011 Bonds, except in the event that use of the book-entry system for the Series 2011 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2011 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede, or such other name as may be requested by an authorized representative of DTC. The deposit of the Series 2011 Bonds with DTC and their registration in the name of Cede or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2011 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2011 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to

Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the Series 2011 Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede (nor any other DTC nominee) will consent or vote with respect to any matter related to the Series 2011 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Authority as soon as possible after the record date. The Omnibus Proxy assigns Cede's consenting or voting rights to those Direct Participants to whose accounts the Series 2011 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, redemption premium, if any, and interest payments on the Series 2011 Bonds will be made to Cede, or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from the Authority or the Paying Agent on payable dates in accordance with their respective holdings shown on DTC's records. Payments by Direct Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Authority or its Paying Agent, if any, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, redemption premium, if any, and interest to Cede (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Authority or its Paying Agent, if any, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of the Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Series 2011 Bonds at any time by giving reasonable notice to the Authority or its Paying Agent, if any. Under such circumstances, in the event that a successor securities depository is not obtained, physical Series 2011 Bonds are required to be printed and delivered. The Authority may decide to discontinue use of the system of book-entry only transfers through DTC (or a successor securities depository). In such event, physical Series 2011 Bonds will be printed and delivered to the Beneficial Owners.

The information in this section concerning DTC and DTC's book-entry system has been obtained from DTC, but the Authority, the Company and the Underwriters take no responsibility for the accuracy thereof.

THE AUTHORITY OR THE TRUSTEE WILL HAVE NO RESPONSIBILITY OR OBLIGATION, EITHER SINGULARLY OR JOINTLY, TO DIRECT PARTICIPANTS, TO INDIRECT PARTICIPANTS, OR TO ANY BENEFICIAL OWNER WITH RESPECT TO (I) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC, CEDE, ANY DIRECT PARTICIPANT, OR ANY INDIRECT PARTICIPANT; (II) ANY NOTICE THAT IS

PERMITTED OR REQUIRED TO BE GIVEN TO THE OWNERS OF THE SERIES 2011 BONDS UNDER THE BOND RESOLUTION; (III) THE SELECTION BY DTC OR ANY DIRECT PARTICIPANT OF ANY PERSON TO RECEIVE PAYMENT IN THE EVENT OF A PARTIAL REDEMPTION OF THE SERIES 2011 BONDS; (IV) THE PAYMENT BY DTC OR ANY DIRECT PARTICIPANT OR INDIRECT PARTICIPANT OF ANY AMOUNT WITH RESPECT TO THE PRINCIPAL OR REDEMPTION PREMIUM, IF ANY, OR INTEREST DUE WITH RESPECT TO THE SERIES 2011 BONDS; (V) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS THE OWNER OF SERIES 2011 BONDS; OR (VI) ANY OTHER MATTER.

### **Discontinuance of Book-Entry Only System**

In the event that the Book-Entry Only System is discontinued, the following provisions would apply. The Trustee shall keep the registration books for the Series 2011 Bonds at its principal corporate trust office. Subject to the further conditions contained in the Bond Resolution, the Series 2011 Bonds may be transferred or exchanged for one or more Series 2011 Bonds in different authorized denominations upon surrender thereof at the principal corporate trust office of the Trustee by the registered owners or their duly authorized attorneys. Upon surrender of any Series 2011 Bonds to be transferred or exchanged, the Trustee shall record the transfer or exchange in its registration books, and shall authenticate and deliver new Series 2011 Bonds appropriately registered and in appropriate authorized denominations. During the fifteen (15) days immediately preceding the date of mailing of any notice of redemption or any time following the mailing of any notice of redemption, the Trustee shall not be required to effect or register any transfer or exchange of any Series 2011 Bond which has been selected for such redemption. The Authority and the Trustee shall be entitled to treat the registered owners of the Series 2011 Bonds, as their names appear in the registration books as of the appropriate dates, as the owners of such Series 2011 Bonds for all purposes under the Bond Resolution. No transfer or exchange made other than as described above and in the Bond Resolution shall be valid or effective for any purposes under the Bond Resolution.

## **SECURITY FOR THE SERIES 2011 BONDS**

### **General**

The Series 2011 Bonds are special and limited obligations of the Authority. As the sole security for the payment of the principal and redemption premium, if any, of and the interest on the Bonds, including the Series 2011 Bonds, and as security for the observance and performance of any other duty, covenant, obligation or agreement of the Authority under the Bond Resolution, the Authority has pledged the Trust Estate to the Trustee pursuant to the Bond Resolution. Such pledge was valid and binding from the time when the pledge was made, and the Trust Estate was immediately subject to the lien of such pledge without any physical delivery thereof or further act and regardless of whether held by the Trustee, and the lien of such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether such parties have notice thereof.

The provisions of the Bonds and the Bond Resolution are deemed to be and do constitute contracts by and among the Authority, the Trustee and the registered owners, from time to time,

of the Bonds, and the security interest which is granted and the pledge which is made in the Bond Resolution and the duties, covenants and agreements which are set forth in the Bond Resolution to be performed on behalf of the Authority and the Trustee shall be for the equal and ratable benefit, protection and security of the registered owners of any and all Bonds, including the Series 2011 Bonds and the Series 2011B Note, all of which, regardless of the time or times of their issuance or maturity, shall be of equal rank without preference, priority or distinction as to lien or otherwise of any of the Bonds over any other thereof, except as expressly provided in or pursuant to the terms of the Bond Resolution. For a description of the Authority's authority to issue Additional Bonds, see "DESCRIPTION OF THE SERIES 2011 BONDS – Additional Bonds" herein. For a form of the Bond Resolution, see "APPENDIX D – Form of Bond Resolution, Power Purchase Agreement, License and Access Agreement, Company Lease Agreement and County Guaranty Agreement" herein.

The Trust Estate includes all right, title and interest of the Authority in, to and under (i) the Revenues, (ii) all moneys payable by the County under the County Guaranty, (iii) all moneys and securities held in any Funds and Accounts established under the Bond Resolution (except for moneys or securities held in (A) the Administrative Expense Account and the Costs of Issuance Account of the Administrative Fund and (B) the County Security Fund), (iv) the Company Lease Agreement, but only to the extent necessary to enforce the payment of Revenues owed by the Company thereunder, which excludes all of the Authority's obligations thereunder, the Reserved Rights, and the Authority's rights to the Projects for the Series 2011 Local Units and (v) any other amounts received from any other source by or on behalf of the Authority and pledged by the Authority as security for the payment of the Bonds, including the Series 2011 Bonds, all of which as shall have been pledged by the Authority to the Trustee pursuant to Section 1.04 of the Bond Resolution as security for the payment of the principal, redemption premium, if any, and interest on the Bonds, including the Series 2011 Bonds.

The Revenues include (i) all Basic Lease Payments made by the Company under the Company Lease Agreement, together with all Power Purchase Price Payments made by the Series 2011 Local Units to the Trustee, (ii) those Additional Lease Payments related to the Purchase Option Price or the Mandatory Purchase Price made by the Company under the Company Lease Agreement, (iii) any investment income which is derived from the investment of any funds which are held by the Trustee pursuant to the terms of the Bond Resolution and which are deposited in the Funds and Accounts established under the Bond Resolution; provided, however, that Revenues shall not include the investment income on moneys or securities held in (A) the Administrative Expense Account and the Costs of Issuance Account of the Administrative Fund and (B) the County Security Fund, and (iv) any other amounts received from any other source by or on behalf of the Authority, the Company, the County, the Series 2011 Local Units, the Trustee or the Paying Agent, whereby such amounts are directed or permitted to be applied to the payment of the principal of, redemption premium, if any, and interest on the Bonds, including the Series 2011 Bonds.

**THE SERIES 2011 BONDS ARE SPECIAL AND LIMITED OBLIGATIONS OF THE AUTHORITY. NEITHER THE STATE, NOR ANY POLITICAL SUBDIVISION THEREOF (OTHER THAN THE AUTHORITY BUT SOLELY TO THE EXTENT OF THE TRUST ESTATE, AND OTHER THAN THE COUNTY TO THE EXTENT OF THE COUNTY GUARANTY), IS OBLIGATED TO PAY THE PRINCIPAL OF, OR**

**INTEREST ON, THE SERIES 2011 BONDS. NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE NOR ANY POLITICAL SUBDIVISION THEREOF (OTHER THAN THE COUNTY TO THE EXTENT OF THE COUNTY GUARANTY) IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF, OR INTEREST ON, THE SERIES 2011 BONDS. THE AUTHORITY HAS NO TAXING POWER.**

### **Company Lease Agreement**

The following is a summary of certain provisions of the Company Lease Agreement. The summary does not purport to be complete and comprehensive and reference is made to a form of the Company Lease Agreement which is included in Appendix D hereto. All capitalized terms used in this subsection and not otherwise defined shall have the meaning ascribed to such terms in the Company Lease Agreement.

Under the Company Lease Agreement, the Company is obligated to commence construction of the first Project by no later than June 15, 2012, to proceed diligently and to complete the Projects on or before December 15, 2012, unless such date is extended due to Force Majeure or an Event of Default under a Local Unit License by a Series 2011 Local Unit. Prior to the issuance of the Series 2011 Bonds, the Company shall enter into an engineering, procurement and construction contract with Power Partners MasTec, LLC for the design, engineering and construction of the Projects financed by the Series 2011 Bonds.

Under the terms of the Company Lease Agreement, the Company is required to make Basic Lease Payments to the Trustee. A substantial portion of the revenue to the Company used to make the Basic Lease Payments consists of the sale of SRECs generated by the Renewable Energy Projects for the Series 2011 Local Units. The Principal Portion of Basic Lease Payments shall be due on each Basic Lease Payment Date in the amount of principal due and payable on the Bonds, including the Series 2011A Bonds, on the immediately succeeding Principal Payment Date, with respect to regularly scheduled Principal Payment Dates, all as set forth on Exhibit A-3 Regular to the Company Lease Agreement, (except for the January 15, 2013 payment, where the Basic Lease Payment Date and the Principal Payment Date for the Series 2011B Note shall be the same date). The Interest Portion of Basic Lease Payments shall be due on each Basic Lease Payment Date in the amount of interest due and payable on the Bonds, including the Series 2011A Bonds, on the immediately succeeding Interest Payment Date, with respect to regularly scheduled Interest Payment Dates (except for the January 15, 2013 payment, where the Basic Lease Payment Date and the Interest Payment Date for the Series 2011B Note shall be the same date), all as set forth on Exhibit A-3 Regular to the Company Lease Agreement.

The Basic Lease Payment Dates have been established as any date set forth in Exhibit A-3 Regular to the Company Lease Agreement and designated as a Basic Lease Payment Date, which for the Interest Portion and Principal Portion of any Basic Lease Payment, shall be a day five (5) months prior (i.e., each January 15 and July 15, commencing January 15, 2013) to any regularly scheduled Interest Payment Date for the Series 2011A Bonds (i.e., each June 15 and December 15, commencing June 15, 2012); provided that the interest payable on the Series 2011A Bonds on June 15, 2012 and December 15, 2012 shall be paid from the proceeds of the Series 2011B Note deposited in the Capitalized Interest Account of the Debt Service Fund, and

any regularly scheduled Principal Payment Date for the Series 2011A Bonds (i.e., each June 15), respectively, or if either of such days is not a Business Day, the first Business Day prior to such date.

Except for the credits to be received by the Company, including the Power Purchase Price Payments made by the Series 2011 Local Units to the Trustee under their respective Local Unit License Agreements, the obligation of the Company, as Lessee, to make Lease Payments (including Basic Lease Payments) in full and when due under the Company Lease Agreement shall be absolute and unconditional in all events, including without limitation any circumstance regarding the Projects, regardless of whether any such event shall be foreseen or otherwise, and regardless of whether any such event shall occur by accident or otherwise. See "SECURITY FOR THE SERIES 2011 BONDS – Flow of Payments" herein. The Company, as Lessee, has further acknowledged and irrevocably covenanted under the Company Lease Agreement that the terms of the Company Lease Agreement create a valid and binding obligation of the Company, as Lessee, to make Lease Payments (including Basic Lease Payments) from any available source under all circumstances.

As the initial County Security Fund Requirement is \$1,500,000, the Company is obligated to deposit certain security with the Trustee no later than the earlier of (i) ninety (90) days after completion of the Series 2011 Local Unit projects or (ii) March 15, 2013, for the sole benefit of the County to secure the Company's performance and payment under the Company Lease Agreement. After the first year of operations of the Company (assuming receipt of Section 1603 Grant proceeds by the Company and elimination of the County Deficiency Amount (as defined in the Company RFP)), the funds in the County Security Fund shall be moved to the Debt Service Fund (utilized as a credit to debt service on the Series 2011 Bonds) and be invested in Investment Securities held by the Trustee or another financial institution deemed acceptable by the County. In the event that the Series 2011 Bonds are not issued by December 22, 2011 (the date stated by the Company as the time required for the Company to obtain the Section 1603 Grant), the \$1,500,000 held in the County Security Fund will be released to the Company immediately after the first year of Company operations provided that the County Deficiency Amount has been eliminated. All moneys are required to be on deposit with the Trustee, in the County Security Fund, and such security is held solely for the benefit of the County and is neither included in the Trust Estate nor otherwise pledged to the Holders.

To the extent Additional Bonds are authorized under the Bond Resolution, one of the conditions precedent to issuance of any such Series of Additional Bonds is an amendment and supplement to the Company Lease Agreement, including, as applicable, the Basic Lease Payment schedule, to reflect any increased principal of and interest due on any Series of Additional Bonds issued to fund all or a portion of a Completion Project (which the Authority is under no obligation to issue, as the Company is obligated to fund any Renewable Energy Project cost overruns).

Basic Lease Payments made by the Company and received by the Trustee shall be deposited in the Revenue Account of the Revenue Fund. After any such funds have been on deposit for one hundred twenty-three (123) consecutive days in the Revenue Account within the Revenue Fund, and have not been withdrawn or recaptured by or on behalf of the Company or its

other creditors, the Trustee shall transfer such funds to the Aged Account within the Revenue Fund.

On or prior to each Interest Payment Date, the Trustee shall transfer from moneys on deposit in the Aged Account within the Revenue Fund to the Interest Account in the Debt Service Fund the amount that, together with the amounts, if any, already on deposit in the Interest Account and the amounts, if any, on deposit in the Capitalized Interest Account and designated for use on such Interest Payment Date pursuant to the Bond Resolution or a Supplemental Resolution, is equal in the aggregate to the interest due and payable on the Outstanding Bonds, including the Outstanding Series 2011 Bonds, on such Interest Payment Date.

On or prior to each Principal Payment Date, the Trustee shall transfer from moneys on deposit in the Aged Account within the Revenue Fund to the Principal Account in the Debt Service Fund the amount that, together with the amounts, if any, already on deposit in the Principal Account, is equal in the aggregate to the principal, Sinking Fund Installment or Redemption Price due and payable on the Outstanding Bonds, including the Outstanding Series 2011 Bonds, on such Principal Payment Date.

The Underwriters and Authority make no representation of the Company's ability to make payments under the *Company Lease Agreement*. For further information about the Company see "THE COMPANY" and "APPENDIX C - Certain Information Concerning the Company".

#### **Local Unit License Agreements**

The following is a summary of certain provisions of the Local Unit License Agreements. The summary does not purport to be complete and comprehensive and reference is made to a form of the Local Unit License Agreements which is included in Appendix D hereto. All capitalized terms used in this subsection and not otherwise defined shall have the meaning ascribed to such terms in the Local Unit License Agreements.

Under the Renewable Energy Program, and specifically, the respective Local Unit License Agreements, the Series 2011 Local Units are required to pay the Power Purchase Price, through Power Purchase Price Payments made by or on behalf of such Series 2011 Local Units, directly to the Trustee. The Power Purchase Price has been established by the Company and the Authority pursuant to the Power Purchase Agreement for a minimum term of fifteen (15) years, subject to the terms of the Power Purchase Agreement.

The Authority's right and obligation to purchase the renewable energy produced from the Renewable Energy Project located on the Local Unit Facility of each such respective Series 2011 Local Unit (i) commences severally but not jointly once the installation of the Projects, for such Series 2011 Local Unit, on their Local Unit Facility, has been completed by or on behalf of the Company in accordance with mutually agreed upon Plans and Specifications therefor, and (ii) has been assigned to each respective Series 2011 Local Unit under their Local Unit License Agreements. Pursuant to the *Company Lease Agreement*, the Company has until December 15, 2012 (as such date may be extended for Force Majeure or a Series 2011 Local Unit Event of

Default) to complete the installation of all Projects for the Series 2011 Local Units. Accordingly there are different Power Purchase Price Payment commencement dates (the “*Commencement Dates*”) for the various Series 2011 Local Units, but all shall be obligated to commence such payments no later than January 15 2013, assuming the Company completes its Project installation obligations on a timely basis (as such date may be extended for Force Majeure or a Series 2011 Local Unit Event of Default).

Under the Local Unit License Agreements, the Series 2011 Local Units are obligated to pay the Power Purchase Price, through Power Purchase Price Payments made to the Trustee, in full and on time, without regard to set-off or any other rights they might assert against the Authority or the Trustee for any reason, which rights against the Company, the Authority or the Trustee are waived by the Series 2011 Local Units. Upon receipt, the Trustee shall deposit the Power Purchase Price Payments in the Revenue Account of the Revenue Fund, and the Company shall receive a credit to its Basic Lease Payments owed under the Company Lease Agreement. After any such funds deposited in the Revenue Account within the Revenue Fund have been on deposit for one hundred twenty-three (123) consecutive days in the Revenue Account within the Revenue Fund, and have not been withdrawn or recaptured by or on behalf of the Company or its other creditors, the Trustee shall transfer such funds to the Aged Account within the Revenue Fund, where such funds are available to pay the principal of, redemption premium, if any, and interest on the Outstanding Bonds, including the Series 2011 Bonds. See “SECURITY FOR THE SERIES 2011 BONDS – Company Lease Agreement” above.

The following chart sets forth the expected percentage of revenue from the following sources for the Company’s payment of the Basic Lease Payments to the Trustee, which shall be applied by the Trustee to the payment of debt service on the Series 2011 Bonds: (1) the annual revenue from Power Purchase Price Payments scheduled to be made by the respective Series 2011 Local Units under the Power Purchase Agreement and their Local Unit License Agreements, assuming (i) no interruptions in service, (ii) the Company is able to produce and sell the full guaranteed amount of renewable energy as set forth in the Power Purchase Agreement, and (iii) the Series 2011 Local Units make Power Purchase Price Payments for, all of such amount of electricity; (2) Company revenue from the tax benefits related to the Projects for the Series 2011 Local Units; and (3) Company revenue from the sale of SRECs and other revenue available to the Company.

The Company has the right under the Renewable Energy Program Documents to change the sizing of the Renewable Energy Projects, within the parameters of the Company Proposal (as such term is defined in the Bond Resolution), for and with the consent of each affected Series 2011 Local Unit (and the Authority's consent) as the Company proceeds with the development of each Renewable Energy Project. Any such changes may alter the allocation of the relative Power Purchase Price Payment set forth in the above chart.

To the extent the Company causes an Event of Default to occur as defined under the Company Lease Agreement prior to the expiration of its original fifteen (15) year term, or any subsequent period of extension, and the nature of such Event of Default (including, without limitation, the failure of the Company to make all Basic Lease Payments thereunder on time and in full) causes the termination of the Company Lease Agreement and the Power Purchase Agreement, the Local Unit License Agreements shall continue in full force and effect, with the following changes, which shall not require amendment or supplement thereof or thereto, but which changes shall be in place automatically upon the termination of the Company Lease Agreement and the Power Purchase Agreement. In such event, instead of paying the Power Purchase Price to the Trustee for the credit and benefit of the Company under the Company Lease Agreement (such amount being defined as the "Gross Substitute Power Purchase Price", payable for the benefit of the Authority as the owner of the Renewable Energy Projects), the Series 2011 Local Units shall pay the Trustee a lower adjusted Power Purchase Price (defined as the "Net Substitute Power Purchase Price" thereunder), reflecting the payment of certain administrative fees and the costs of operating and maintaining their Renewable Energy Projects for the balance of the original fifteen (15) year or extended term. No assurance can be given that

either the Gross Substitute Power Purchase Price or the aggregate Net Substitute Power Purchase Price will be sufficient to make scheduled payments of debt service on the Series 2011 Bonds.

### County Guaranty

The following is a summary of certain provisions of the County Guaranty. The summary does not purport to be complete and comprehensive and reference is made to a form of the County Guaranty which is included in Appendix D hereto. All capitalized terms used in this subsection and not otherwise defined shall have the meaning ascribed to such terms in the County Guaranty.

The payment of the principal of (including Sinking Fund Installments, if any) and interest on the Series 2011 Bonds (but not any redemption premium), and the interest thereon, shall be fully, unconditionally, and irrevocably guaranteed by the County pursuant to the County Guaranty. The County has the right, power and obligation to cause the levy of *ad valorem* taxes upon all the taxable property within the County, without limitation as to rate or amount, if necessary, in order to meet its payment obligations under the County Guaranty.

On August 17, 2011, the County finally adopted that certain guaranty ordinance (the "*County Guaranty Ordinance*") entitled "GUARANTY ORDINANCE OF THE COUNTY OF SUSSEX, NEW JERSEY, SECURING THE MORRIS COUNTY IMPROVEMENT AUTHORITY'S COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 (FEDERALLY TAXABLE) IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED \$50,000,000.00". Pursuant to the terms of that County Guaranty Ordinance and Section 37 of the Act (N.J.S.A. 40:37A-80), the County and the Authority are scheduled to enter into that certain "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011) to be dated as of December 1, 2011, (the "*County Guaranty Agreement*"). In accordance with the terms of the County Guaranty Ordinance, the County Guaranty Agreement, and the Bond Resolution, an authorized officer of the County shall execute a guaranty certificate (the "*County Guaranty Certificate*", and together with the County Guaranty Ordinance and the County Guaranty Agreement, the "*County Guaranty*") within each Series 2011 Bond for each maturity thereof. The County Guaranty Certificate shall state that the County is fully, irrevocably and unconditionally liable for the payment, when due (whether at stated maturity or earlier on any Sinking Fund Installment due date or date of redemption or acceleration), of the principal of (including mandatory Sinking Fund Installments, if any) and the interest on the Series 2011 Bond, and, if necessary, the County shall levy *ad valorem* taxes upon all the taxable property within the County, without limitation as to rate or amount, in order to make such payments. The County Guaranty shall be for the benefit of both Series of Series 2011 Bonds.

If, thirty (30) days prior to any Interest Payment Date or Principal Payment Date, the amounts that are on deposit in the Aged Account of the Revenue Fund established under the Bond Resolution are insufficient to provide for the payment of the principal of (including Sinking Fund Installments, if any, but not redemption premiums) and/or interest on the Series 2011 Bonds that are due and payable on such payment dates, the Trustee shall notify the County's Chief Financial Officer on such day of the amounts that are necessary to provide for the payment of the principal of and/or interest on the Series 2011 Bonds (the "*Deficiency*").

Pursuant to the Act, payments of redemption premium are not permitted to be made by the County under the County Guaranty. The County shall be obligated to make payment of the Deficiency to the Trustee no later than one (1) business day prior to the Interest Payment Date or the Principal Payment Date, as applicable, of the Series 2011 Bonds. Notwithstanding any other provision of the County Guaranty Agreement, failure by the Trustee to give the County notice as provided herein shall not relieve the County of its obligations to make payment under the terms of the County Guaranty.

When notice has been provided, as described above, the County shall take all necessary actions to make payment of the Deficiency to the Trustee as provided above. Such actions shall include the adoption of an emergency appropriation or an emergency temporary appropriation and the funding of such appropriation in accordance with the requirements of the Local Budget Law (N.J.S.A. 40A:4A-1 *et seq.*), the levy of *ad valorem* taxes on all taxable property in the County, without limitation as to rate or amount, or any other actions that are legally permitted to be taken to meet the requirements of such County Guaranty (including the adoption of a bond ordinance pursuant to the provisions of the Local Bond Law).

The County is required to make payments under the County Guaranty, if, for any reason, the Trustee should have insufficient funds on hand in the Debt Service Fund one (1) business day prior to any Interest Payment Date or Principal Payment Date to make the full and timely payment of the principal (including Sinking Fund Installments, if any, but not including redemption premiums) and interest on the Series 2011 Bonds due on such dates, regardless of whether any of the following events occur: (i) any default under the Company Lease Agreement due to the Company's failure to pay all of its Basic Lease Payments on the respective Basic Lease Payment Dates, or otherwise, and/or (ii) any default or termination of the Local Unit License Agreements due to the Series 2011 Local Unit's failure to make all Power Purchase Price Payments (including, as applicable, the payment of the Net Substitute Power Purchase Price), or otherwise.

To the extent the Company causes an Event of Default, as defined under the Company Lease Agreement, to occur and such Event of Default requires the County to make a payment under the County Guaranty, the County has the option under the County Guaranty Agreement to provide sufficient funding with the Trustee and cause the Authority to redeem or defease all or a portion of the Series 2011 Bonds in accordance with the terms of the Bond Resolution. See, "DESCRIPTION OF THE SERIES 2011 BONDS – Optional Redemption" herein.

For more information on the County, see "APPENDIX A – Certain Information Concerning the County" and "APPENDIX B – Audited Financial Statements of the County" herein. For a description of County Guaranty, see "APPENDIX D – Form of Bond Resolution, Power Purchase Agreement, License and Access Agreement, Company Lease Agreement and County Guaranty Agreement" herein.

### **Flow of Payments**

Assuming the Company has successfully installed all the Renewable Energy Projects for the Series 2011 Local Units at their respective Local Unit Facilities, the following is a brief description of the flow of payments from the various Renewable Energy Program participants

that are available to pay the principal of, redemption premium, if any, and interest on the Series 2011 Bonds. County Guaranty payments, if any are made, are not permitted under the Act to be applied to redemption premiums. For a description of the Bond Resolution and the County Guaranty, see "APPENDIX D – Form of Bond Resolution, Power Purchase Agreement, License and Access Agreement, Company Lease Agreement and County Guaranty Agreement" herein.

Every six (6) months, on Basic Lease Payment Dates (i.e., each January 15 and July 15) commencing January 15, 2013, that have been established to occur five (5) months prior to the Interest Payment Dates (i.e., each June 15 and December 15) and the Principal Payment Dates (i.e., each June 15) of the Series 2011A Bonds, the Company is required to make its Interest Portion and Principal Portion Basic Lease Payments to the Trustee. See Sections 305 and 306 of the Company Lease Agreement. The Basic Lease Payment schedule set forth in Exhibit A-3 Regular to the Company Lease Agreement is identical to the scheduled debt service amounts due on the Series 2011A Bonds, except that the Basic Lease Payments come due five (5) months prior to the scheduled debt service payment dates on the Series 2011A Bonds and the interest payments due on June 15, 2012 and December 15, 2012 will be made from proceeds of the Series 2011B Note deposited in the Capitalized Interest Account. Although the Basic Lease Payment schedule sets forth the gross amount of Basic Lease Payments owed by the Company, Sections 305 and 306 of the Company Lease Agreement also provide that the actual Basic Lease Payments made by the Company on each Basic Lease Payment Date shall be net of the various credits described below, if and when the funds giving rise to such credits have been received by the Trustee.

The Trustee, upon receipt of such Basic Lease Payments from the Company and as directed by Sections 5.05(1)(a) and 5.11 of the Bond Resolution, shall deposit the funds in the Revenue Account of the Revenue Fund and invest the funds in Investment Obligations, pending disbursement. After such monies have been on deposit for one hundred twenty-three (123) consecutive days in the Revenue Account within the Revenue Fund, and have not been withdrawn or recaptured by or on behalf of the Company or its other creditors, the Trustee shall pursuant to Section 5.05(1)(c) of the Bond Resolution transfer such funds to the Aged Account within the Revenue Fund.

On or prior to each Interest Payment Date, the Trustee shall, pursuant to Section 5.05(2) of the Bond Resolution, transfer, from moneys on deposit in the Aged Account within the Revenue Fund to the Interest Account in the Debt Service Fund, the amount that, together with the amounts, if any, already on deposit in the Interest Account and the amounts, if any, on deposit in the Capitalized Interest Account and designated for use on such Interest Payment Date pursuant to the Bond Resolution or Supplemental Resolution, is equal in the aggregate to the interest due and payable on the Outstanding Bonds on such Interest Payment Date. Subsection (3) requires a similar transfer, but from the Principal Account in the Debt Service Fund, on each Principal Payment Date, in order to pay the aggregate amount of principal (or Sinking Fund Installment or Redemption Price, if applicable) due and payable on the Outstanding Bonds on such Principal Payment Date.

The Trustee shall withdraw both the interest due on the Outstanding Bonds on each such Interest Payment Date from the funds in the Interest Account and the Capitalized Interest Account, if so designated, of the Debt Service Fund (Section 5.06(1)(a) of the Bond Resolution),

and the principal (including Sinking Fund Installments, if any) also due on the Outstanding Bonds on each such Principal Payment Date from the funds in the Principal Account of the Debt Service Fund (Section 5.06(2)(a) of the Bond Resolution), and pay such amounts over to the Paying Agent. The same bank is acting as both Trustee and Paying Agent for the Series 2011 Bonds. The Bond Resolution also authorizes the completion of the payment process, where the Paying Agent pays the principal of and interest on the Bonds on such respective Principal Payment Dates and Interest Payment Dates from the funds so received.

Sections 5.06(1)(b) and 2(b) of the Bond Resolution require that the County receive certain advance notification of any Deficiency and the possible need for a draw on the County Guaranty as follows. If, by 9:00 a.m. Eastern Standard Time or Eastern Daylight Time, as applicable, thirty (30) days prior to any Interest or Principal Payment Date, the Trustee has determined that there are insufficient funds in the Interest or Principal Accounts in the Debt Service Fund (after taking into account any moneys earmarked for transfer therein from the Revenue Fund and all other amounts available under the Bond Resolution for transfer into the Interest or Principal Accounts in the Debt Service Fund) to pay the full amount of interest and/or principal (including Sinking Fund Installments) due and owing on such Bonds on such Interest or Principal Payment Date, the Trustee shall immediately notify the Authority, the Company, the County and the Paying Agent of such Deficiency. The Trustee shall continue to notify such entities of any continuing Deficiency on a weekly basis, with the final notification being 9:00 a.m. Eastern Standard Time or Eastern Daylight Time, as applicable, on the Interest or Principal Payment Date.

The County shall satisfy any such Deficiency remaining as of 10:00 a.m. Eastern Standard Time or Eastern Daylight Time, as applicable, on any such Interest or Principal Payment Date, by immediately making a payment under the County Guaranty (in accordance with the terms of the County Guaranty Agreement, if not already made) in the amount of any Deficiency, in immediately available funds to the Trustee for deposit in the Interest or Principal Accounts in the Debt Service Fund. Such moneys shall be transferred from the Trustee to the Paying Agent and applied by the Paying Agent to the payment to Holders as of the Record Date of such interest and principal (including any Sinking Fund Installment) or Redemption Price, as applicable, due on such Bonds on such Interest or Principal Payment Date in accordance with the terms of the Bond Resolution. The Authority and the Trustee shall enforce the provisions of the County Guaranty to the extent the County fails, for whatever reason, to perform its obligations thereunder.

Although the Company is obligated, as set forth above, to pay the full amount of Basic Lease Payments on each Basic Lease Payment Date, the Company is entitled to several credits, some recurring, and others that may occur infrequently or only once. The following briefly describes the recurring credits, such as those for Power Purchase Payments made by the Series 2011 Local Units, for interest earned on amounts on deposit in the Revenue Account of the Revenue Fund, and for a sweep of funds remaining in the Aged Account of the Revenue Fund after debt service has been paid. For a description of the credit provisions relating to the Base Lease Payments under the Company Lease Agreement, see "APPENDIX D – Form of Bond Resolution, Power Purchase Agreement, License and Access Agreement, Company Lease Agreement and County Guaranty Agreement" herein.

Pursuant to Section 6.4 of the Power Purchase Agreement, the Company shall, based on on-site meters the Company installs as part of the Projects, provide the Series 2011 Local Units with monthly billing information for the electricity (i) provided to their Local Unit Facilities from the Renewable Energy Projects installed on the roofs or parking facilities of such Local Unit Facilities, and (ii) sold to the Series 2011 Local Units at the pre-established Power Purchase Price rate, plus escalation. A copy of such billing information shall be supplied to the Trustee.

Under Section 5.1(c)(i) of the applicable Local Unit License Agreements, the Series 2011 Local Units are obligated to make their monthly Power Purchase Price Payments to the Trustee, on behalf of the Company, in a timely manner and without set-off or other reduction. The Company acknowledges, under the Power Purchase Agreement, that the obligation of the Series 2011 Local Units to make such Power Purchase Price Payments for their respective Local Unit Facilities is several, and not joint.

The Company receives a credit against the Basic Lease Payment owed on each Basic Lease Payment Date for all Power Purchase Price Payments made by the Series 2011 Local Units from the preceding Basic Lease Payment Date (or the Commencement Date at the outset) through and including ten (10) Business Days prior to any such Basic Lease Payment Date, all as provided in Section 302(a) of the Company Lease Agreement. In accordance with Section 5.05(1)(a) of the Bond Resolution, the Trustee is required to notify the Company of the aggregate amount of these Series 2011 Local Unit Power Purchase Price Payments available as a credit both thirty (30) days prior to each Basic Lease Payment Date, and one (1) Business Day after the ten (10) day cut off period described above. Power Purchase Price Payments received after the ten (10) day cut off period are deemed to have been received one (1) Business Day after any such Basic Lease Payment Date, and are therefore available as a credit to Basic Lease Payments due from the Company on the following Basic Lease Payment Date.

In addition, Section 5.11(3) of the Bond Resolution requires the Trustee to transfer the interest earned on monies in the Revenue Account of the Revenue Fund, no less frequently than once a month, to the Aged Account of the Revenue Fund. Section 310(b) of the Company Lease Agreement provides the Company with a credit in the amount of such earnings, plus interest earned thereon as of any such Basic Lease Payment Date, against the next due Interest Portion of Basic Lease Payments due and owing from the Company, and if not fully applied, against the next due Principal Portion of Basic Lease Payments due and owing from the Company, and if still not fully applied or if additional interest earnings are on deposit in the Aged Account, against the next due future Interest Portion, and then Principal Portion, of Basic Lease Payments until fully applied. The Trustee, pursuant to Section 5.05(1)(a) of the Bond Resolution, shall notify the Company in writing (with a copy to the Authority), within ten (10) Business Days after each Basic Lease Payment Date, of the amount of such interest earnings credit available to the Company as of the next Basic Lease Payment Date.

On the Business Day following an Interest Payment Date and a Principal Payment Date for all Outstanding Bonds, including the Series 2011 Bonds, Section 5.05(4) of the Bond Resolution directs the Trustee to transfer any monies remaining on deposit in the Aged Account of the Revenue Fund, FIRST, to the County, as reimbursement for the County to the extent of any draw on their County Guaranty, if applicable, and SECOND, into the Interest Account of the Debt Service Fund to pay the next due interest on such Bonds, and then the Principal Account of

the Debt Service Fund to pay the next due principal of (including Sinking Fund Installments, if any) such Bonds. The Trustee is further required to promptly notify the Company that such transferred amounts shall be a credit against their Interest Portion, and then Principal Portion, of Basic Lease Payments next due.

With regard to the recurring credits against Basic Lease Payments owed by the Company under the Company Lease Agreement, as set forth above, the Company will be apprised of (i) the Revenue Account investment earnings credit almost a full six (6) months prior to the Company's next Basic Lease Payment Date, (ii) the Aged Account sweep transfer and credit almost one (1) month prior to their Basic Lease Payment Date, and (iii) the aggregate of all Power Purchase Price Payments as of ten (10) Business Days prior to any scheduled Basic Lease Payment Date (with an initial notice of five (5) months' worth of Power Purchase Price Payments to be made by the Trustee a full thirty (30) days prior to the Company's Basic Lease Payment Date).

The non-recurring, or infrequent, credits against Basic Lease Payments, set forth in the definition thereof in the Company Lease Agreement and the Bond Resolution, owed by the Company under the Company Lease Agreement, are for the following:

(i) Excess amounts remaining in the Project Fund, once all Projects have been installed and certifications have been executed by the Series 2011 Local Units (either directly or through a construction manager), on a form acknowledged by the Authority, to the effect that such Project installation is in conformity with the Plans and Specifications mutually agreed upon among the Company, the Authority and the Local Unit prior to the onset of acquisition, construction and installation of the Projects;

(ii) Partial Release of the County Security Fund, if any, held by the Trustee as a non-pledged Fund to fund any shortfall in otherwise available funds to make Basic Lease Payments or to reimburse the County in the event of a draw on the County Guaranty, when the amount in the County Security Fund exceeds the debt service owed on all Outstanding Series 2011 Bonds (plus a Series of Additional Bonds, if so designated by Supplemental Resolution);

(iii) Optional, partial pre-payments of Basic Lease Payments by the Company (the Basic Lease Payment obligation is eliminated in the event of a full pre-payment);

(iv) Payments to the Trustee in an amount sufficient to pay the principal of, redemption premium, if any, and interest on all of the Outstanding Bonds allocable to the Renewable Energy Projects or other payments required pursuant to Section 3.7(a)(iv)(A) of the Local Unit License Agreements for each Series 2011 Local Unit upon the revocation of their Local Unit Licenses; and

(v) The net proceeds of any condemnation or insurance award.

## **Acceleration**

The Series 2011 Bonds are subject to acceleration prior to their stated maturities upon the occurrence of certain Events of Default under and as defined in the Bond Resolution, at the times and in the manner set forth in the Bond Resolution. For a description of the Events of Default and acceleration provisions under the Renewable Energy Program Documents, see "APPENDIX D – Form of Bond Resolution, Power Purchase Agreement, License and Access Agreement, Company Lease Agreement and County Guaranty Agreement" herein.

## **SUMMARY OF CERTAIN PROVISIONS FOR THE PROTECTION OF GENERAL OBLIGATION DEBT OF NEW JERSEY MUNICIPALITIES AND COUNTIES**

The following is a summary of certain provisions of New Jersey law relating to the protection of general obligation debt of New Jersey municipalities and counties. This summary does not purport to be a full and complete statement of all of the provisions referred to herein, and the cited statutes should be read in full for a complete understanding of all of said provisions.

### **Local Bond Law**

*The Local Bond Law (N.J.S.A. 40A:2-1 et. seq.).*

The Local Bond Law generally governs the issuance of bonds and notes by local units to finance certain capital improvements and appropriations. The Local Bond Law requires that bonds must mature within the statutory period of usefulness of the projects bonded and that bonds be retired in serial installments. A 5% cash down payment is generally required toward the financing of capital expenditures.

### **Debt Limits**

*Debt Limits.*

The net authorized debt of all local units which are municipalities in the State of New Jersey is generally limited by statute to an amount equal to 3.5% of its equalized valuation basis. The equalized valuation basis of the local unit is set by statute as the average for the last three years of the sum of the equalized value of all taxable real property and improvements and certain Class II railroad property within its boundaries, as annually determined by the State Department of the Treasury, Division of Taxation. Certain categories of debt are permitted by statute to be deducted for purposes of computing the statutory debt limit.

*Exemption To Debt Limits.*

Extensions of Credit. The debt limit of a local unit may be exceeded with the approval of the Local Finance Board, and as permitted by other statutory exceptions. If all or any part of a proposed debt authorization would exceed its debt limit, the Local Unit must apply to the Local Finance Board for an extension of credit. If the Local Finance Board determines that a proposed debt authorization would not materially impair the ability of a Local Unit to meet its obligations or to provide essential services, and the Local Finance Board makes other statutory determinations, approval is granted.

School Debt. In the State of New Jersey, in a Type II school district without a Board of School Estimate, school debt authorized by the board of education must be approved by the registered voters of the school district. When the amount authorized exceeds the school district's limit, the district may use the municipality's share of available borrowing capacity upon approval of the proposed debt by the State Commissioner of Education and the Local Finance Board, and subsequently by the registered voters of the district. School debt of a Type I school district is authorized by a Board of School Estimate and the governing body of a local unit.

*The Local Budget Law (N.J.S.A. 40A:4-1, et seq.)*

The foundation of the New Jersey local finance system is the annual budget. Every local unit must adopt an operating budget in the form required by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"). Items of revenue and appropriation are regulated by law and must be certified by the Director of the Division (the "Director") prior to final adoption of the budget. The Local Budget Law requires each local unit to appropriate sufficient funds for payment of current debt service, and the Director is required to review the adequacy of such appropriations.

The Director has no authority over individual operating appropriations, unless a specific amount is required by law, but the review focusing on anticipated revenues serves to protect the solvency of all local units. The budgets of local units must be in balance; i.e., total anticipated revenues must equal total appropriations.

If in any year a Local Unit's expenditures exceed (or are less than) its realized revenues for that year, then such deficit (excess) must be raised (accounted for) in the succeeding year's budget.

*Real Estate Taxes.*

The same general principal that revenue cannot be anticipated in a budget in excess of that realized in the preceding year applies to property taxes. The Local Budget Law (N.J.S.A. 40A:4-29) provides that the maximum which may be anticipated is the sum produced by the multiplication of the amount of delinquent taxes unpaid and owing to the Local Unit on the first day of the current fiscal year by the percentage of collection of delinquent taxes for the year immediately preceding the current fiscal year.

The Local Budget Law (N.J.S.A. 40A:4-41) also provides with regard to current taxes that receipts from the collection of taxes levied or to be levied in the municipality, or in the case of a county for general county purposes and payable in the fiscal year, shall be anticipated in an amount which is not in excess of the percentage of taxes levied and payable during the next preceding fiscal year which was received in cash by the last day of such preceding fiscal year.

This provision requires that an additional amount (the "Reserve for Uncollected Taxes") be added to the tax levy required to balance the budget so that when the percentage collected of the prior year's tax levy is applied to the combined total, the product will at least be equal to the tax levy required to balance the budget. The Reserve for Uncollected Taxes is calculated to be the levy required to balance a local unit's budget multiplied by the prior year's percentage of uncollected taxes (or a lesser percentage).

### *Miscellaneous Revenues.*

The Local Budget Law (N.J.S.A. 40A:4-26) provides that no miscellaneous revenue from any source shall be included as an anticipated revenue in the budget in an amount in excess of the amount actually realized in cash from the same source during the next preceding fiscal year, unless the Director shall determine upon application by the governing body that the facts clearly warrant the expectation that such excess amount will actually be realized in cash during the fiscal year and shall certify such determination in writing to the local unit.

No budget or amendment thereof shall be adopted unless the Director shall have previously certified his approval thereof with the exception of the inclusion of categorical grants-in-aid contracts for their face amount with an offsetting appropriation.

### *CAP Limitations.*

A Statute passed in 1976, as amended (N.J.S.A. 40A:4-45.1 *et seq.*) commonly known as the "Cap Law", imposed limitations on increases in municipal appropriations subject to various exceptions. On August 20, 1990, the Governor signed into law P.L. 1990, c.89, which revised and made permanent the "Cap Law". While the revised "Cap Law" is more restrictive on the ability of a municipality to increase its overall appropriations, the payment of debt service is an exception from this limitation. The Cap formula is somewhat complex, but basically, it permits a municipality to increase its overall appropriations by 2.5% or the "Index Rate", whichever is less. The "Index Rate" is the rate of annual percentage increase in the Implicit Price Deflator for State and Local Government purchases of goods and services computed by the U.S. Department of Commerce. Exceptions to the limitations imposed by the Cap Law also exist for other things including capital expenditures; extraordinary expenses approved by the Local Finance Board for implementation of an interlocal services agreement; expenditures mandated as a result of certain emergencies; and certain expenditures for services mandated by law.

Additionally, legislation constituting P.L. 2007, c.62, effective April 3, 2007, imposes a 4% cap on the tax levy of a municipality, county, fire district or solid waste collection district, with certain exceptions and subject to a number of adjustments. The exclusions from the limit include increases required to be raised for debt service and certain lease payments to county improvement authorities, increases to replace certain lost state aid, increases in certain pension contributions, increases in the reserve for uncollected taxes required for municipalities, and certain increases in health care costs over 4%. The Local Finance Board may approve waivers for certain extraordinary costs identified by the statute, and voters may approve increases above 4% not otherwise permitted by a vote of 60% of the voters voting on a public question.

This legislation has now been amended by P.L. 2010, c. 44, approved July 13, 2010 and applicable to the next local budget year following enactment to limit tax levy increases for those local units to 2% with exceptions only for capital expenditures including debt service, increases in pension contributions and accrued liability for pension contributions in excess of 2%, certain healthcare increases, extraordinary costs directly related to a declared emergency and amounts approved by a simple majority of voters voting at a special election. Chapter 44 eliminates the process for obtaining waivers for additional spending under the tax levy limitation.

Neither the tax levy limitation nor the "Cap Law" limits the obligation of a municipality to levy *ad valorem* taxes upon all taxable real property within that municipality to pay debt service on its bonds or notes.

For municipalities, the levy cap is in addition to the existing appropriation cap; both cap laws must be met.

#### *Deferral of Current Expenses.*

A local unit may make emergency appropriations after the adoption of a budget and the determination of the tax rate, but only to meet unforeseen pressing needs to protect or promote public health, safety, morals or welfare, or to provide temporary housing or public assistance. With limited exceptions set forth below, such appropriations must be included in full in the following year's budget. If such emergency appropriations exceed 3% of the adopted operating budget, consent of the Director is required (N.J.S.A. 40A:4-46, -47, -49). The exceptions are certain enumerated quasi-capital projects such as ice, snow, and flood damage to streets, roads and bridges, which may be amortized over three years, and tax map preparation, revision of ordinances, and master plan preparations, which may be amortized over five years (N.J.S.A. 40A:4-55, -55.3).

Under the CAP Law, emergency resolutions aggregating less than 3% of the previous year's final current operating appropriations may be raised in that portion of the budget outside its limitations if approved by at least two-thirds of the members of the governing body and the Director. Emergency resolutions that aggregate more than 3% of the previous year's final current operating appropriations must be raised within its limitations. Emergency resolutions for debt service, capital improvements, the County's share of Federal or State grants and other statutorily permitted items are outside its limitation.

#### *Budget Transfers.*

Budget transfers provide a degree of flexibility and afford a control mechanism. Transfers between major appropriation accounts are prohibited until the last two months of the year. Subaccounts (line items) within an appropriation are not subject to the same year-end transfer restriction; however, they are subject to internal review and approval.

#### *Capital Budget.*

In accordance with the Local Budget Law, each local unit must adopt and annually revise a capital program budget. The capital budget, when adopted, does not constitute the approval or appropriation of funds, but sets forth a plan of the possible capital expenditures which the Local Unit may contemplate over a period of up to six years. Expenditures for capital purposes may be made either by ordinances adopted by the governing body of a local unit setting forth the items and the method of financing or from the annual operating budget if the items were detailed.

#### *Operation of Utilities.*

Municipal public utilities are supported, in addition to the general taxing power upon real property, by the revenues generated by the respective operations of the utilities.

For each utility, there is established a separate budget. The anticipated revenues and appropriations for each utility are set forth in the separate budget. The budget is required to be balanced and to fully provide for debt service. The regulations regarding anticipation of revenue and deferral of charges apply equally to the budgets of the utilities.

Deficits or anticipated deficits in utility operations which cannot be provided for from utility surplus, if any, are required to be raised in the current or operating budget.

*Local Fiscal Affairs Law (N.J.S.A. 40A:5-1, et seq.).*

This law regulates the non-budgetary financial activities of local governments. The chief financial officer of a local unit must file annually with the Director a verified statement of the financial condition of the local unit. The statements of the County are on file with the Clerk.

An independent examination of a local unit's financial statements must be performed annually by a licensed registered municipal accountant. The audit, conforming to the Division's "Requirements of Audit," includes recommendations for improvement of a local unit's financial procedures and must be filed with the Clerk within six months after the close of its fiscal year and, within five days thereafter, a certified duplicate copy must be filed in the office of the Director (N.J.S.A. 40A:5-6). The filing date of an audit may be extended by the Director upon a showing of good cause. A synopsis of the audit report, together with all recommendations made, must be published in a local newspaper within 30 days of its completion (N.J.S.A. 40A:5-7).

### PLEDGE OF THE STATE NOT TO LIMIT POWER OF AUTHORITY OR RIGHTS OF BONDHOLDERS

The Act sets forth the pledge and agreement of the State that it will not limit or alter the rights vested by the Act in the Authority to fulfill the terms of any agreements made with holders of obligations of the Authority or in any way impair the rights and remedies of such holders, until such obligations, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of such holders, are fully met and discharged.

## LEGALITY FOR INVESTMENT

The Act provides that (i) the State and all public officers, municipalities, counties, political subdivisions and public bodies, and agencies thereof; (ii) all banks, trust companies, savings banks and institutions, building and loan associations, savings and loan associations, investment companies, and other persons carrying on a banking business, all insurance companies, insurance associations and other persons carrying on an insurance business, which banks, trust companies, and other such institutions are organized and existing under the laws of the State; and (iii) all executors, administrators, guardians, trustees and other fiduciaries acting under the laws of the State, may legally invest any sinking funds, monies or other funds belonging to them or within their control in obligations of authorities created pursuant to the Act and such obligations will be authorized security for any and all public deposits.

## BANKRUPTCY

### Municipal Bankruptcy

The undertakings of the Authority and the County should be considered with reference to Chapter 9 of the United States Bankruptcy Code of 1978, as amended (the "*Bankruptcy Code*"), 11 U.S.C. Section 901 to 946. Under Chapter 9 of the Bankruptcy Code, a municipality, a political subdivision or a public agency or instrumentality of the State that is insolvent or unable to pay its debts as they become due may file a petition in a United States Bankruptcy Court (the "*Bankruptcy Court*") to adjust its debts. Chapter 9 of the Bankruptcy Code does not permit such entity to liquidate its assets and distribute the proceeds of its assets to its creditors. Chapter 9 of the Bankruptcy Code permits a financially distressed public entity to seek protection from its creditors by staying the commencement or continuation of certain actions against such public entity while it formulates and negotiates a plan of adjustment of its debts which can be binding on a dissenting minority of creditors if it is acceptable to the majority of creditors. Should the Authority or the County file a petition in the Bankruptcy Court under Chapter 9 of the Bankruptcy Code prior to the payment in full of the principal of and interest on the Series 2011 Bonds, the holders of the Series 2011 Bonds would be considered creditors and would be bound by the Authority's or County's plan of adjustment of its debt.

Reference should also be made to N.J.S.A. 52:27-40 *et seq.* which provides that any "political subdivision" of the State as defined therein has the power to file a petition with the Bankruptcy Court under the Bankruptcy Code provided the "political subdivision" has obtained approval of the Local Finance Board. Section 903 of the Bankruptcy Code, 11 U.S.C. Section 903, specifically provides that Chapter 9 of the Bankruptcy Code does not limit or impair the power of a state to control, by legislation or otherwise, a municipality of or in such state in the exercise of the political or governmental powers of such municipality; provided, however, that a state law prescribing a method of composition of indebtedness of the municipality may not bind any creditor that does not consent to such composition and that a judgment entered under such state law may not bind a creditor that does not consent to such composition.

THE ABOVE REFERENCES TO THE BANKRUPTCY CODE ARE NOT TO BE CONSTRUED AS AN INDICATION THAT THE AUTHORITY OR THE COUNTY EXPECTS TO RESORT TO THE PROVISIONS OF SUCH BANKRUPTCY CODE OR

THAT, IF IT DID, SUCH ACTION WOULD BE APPROVED BY THE LOCAL FINANCE BOARD, OR THAT ANY PROPOSED PLAN WOULD INCLUDE A DILUTION OF THE SOURCES OF PAYMENT OF AND SECURITY FOR THE SERIES 2011 BONDS.

### **Company Bankruptcy**

The Interest Portion and the Principal Portion of the Basic Lease Payments payable by the Company under the Company Lease Agreement and constituting Revenues that are part of the Trust Estate pledged by the Authority to the Trustee as security for the Series 2011 Bonds under the Bond Resolution, are scheduled for payment five (5) months prior to the interest coming due, and the principal (or Sinking Fund Installment, if any) maturing on the Series 2011 Bonds in accordance with Exhibit A-3 to the Company Lease Agreement. Should the Company file (or be the subject of an involuntary filing of) a petition for bankruptcy under the Bankruptcy Code, this prior payment structure minimizes the risk that the Basic Lease Payments, previously applied by the Trustee to pay debt service on the Series 2011 Bonds to the Bondholders, will be recaptured from such Bondholders by the Company, as a debtor in possession, or a bankruptcy trustee, in either case as an avoidable property transfer under Section 547(b) of the Bankruptcy Code.

The filing of any such bankruptcy petition by or against the Company results in the imposition of an automatic stay in accordance with Section 362(a) of the Bankruptcy Code, thereby precluding, for a time, the Authority or the Trustee from enforcing any remedies against the Company should it fail to make full and timely Basic Lease Payments under the Company Lease Agreement. Filing a petition may allow the Company under Section 365 of the Bankruptcy Code to reject the Company Lease Agreement. A Chapter 11 petition could also be converted to a Chapter 7 liquidation, or the Company could file for the same relief directly, in which case the Company's assets would be liquidated by a bankruptcy trustee, the bankruptcy trustee may have the right to reject the Company Lease Agreement causing the Company to cease making Basic Lease Payments under the Company Lease Agreement, and the creditors' recovery against the Company would be limited to their *pro rata* share of monies realized from liquidation.

Any of these options available to, or to be imposed upon, the Company, could adversely affect the Company's ability to make Basic Lease Payments on time and in full in accordance with the terms of the Company Lease Agreement. In such instance, the Trustee is obligated to pursue the other Revenues constituting a portion of the Trust Estate for payment of the principal of (including Sinking Fund Installments) and interest on the Series 2011 Bonds, including the County Guaranty. Pursuant to the Act, payments for redemption premium, if any, cannot be made from payments under the County Guaranty. See "SECURITY FOR THE SERIES 2011 BONDS – County Guaranty" herein.

### **NEGOTIABILITY OF THE SERIES 2011 BONDS**

Section 24 of the Act (N.J.S.A. 40:37A-67) provides that any bond or obligation issued pursuant to the Act shall be fully negotiable within the meaning and for all purposes of the negotiable instruments law of the State of New Jersey and each holder or owner of such bond or other obligation, or of any coupon appurtenant thereto, by accepting such bond or coupon shall

be conclusively deemed to have agreed that such bond, obligation or coupon is and shall be fully negotiable within the meaning and for all purposes of said negotiable instruments law.

### **SERIES 2011 BONDS NOT A DEBT OF THE STATE OF NEW JERSEY**

The Series 2011 Bonds shall not in any way be a debt, liability or obligation of the State or any political subdivision thereof, except the Authority, but solely to the extent of the Trust Estate and its application in accordance with the terms of the Bond Resolution, and except the County, to the extent of the County Guaranty.

### **LITIGATION**

#### **The Authority**

There is no litigation pending or threatened involving the Authority that would materially impair the financial status of the Authority, or affect the issuance, sale or delivery of the Series 2011 Bonds or the valid execution, delivery or performance by the Authority of or under the Renewable Energy Program Documents to which the Authority is a party.

#### **The Company**

There is no litigation pending or threatened involving the Company that would materially impair the financial status of the Company, or affect the valid execution, delivery or performance by the Company of or under the Renewable Energy Program Documents to which the Company is a party.

#### **The Series 2011 Local Units**

The Authority is not aware of any litigation pending or threatened involving the Series 2011 *Local Units* that would materially impair the valid execution, delivery or performance by the Series 2011 Local Units of or under the Renewable Energy Program Documents to which each such respective Series 2011 Local Unit is a party, including their Local Unit License Agreement.

#### **The County**

There is no controversy or litigation of any nature now pending or threatened against the County, restraining or enjoining the adoption, execution or delivery of the County Guaranty or in any way contesting or affecting the validity of the County Guaranty, or any proceedings of the County taken with respect to the adoption, execution or delivery thereof or existence or powers of the County related to the adoption, execution and delivery of the County Guaranty, or wherein an adverse decision would have a material adverse impact on the financial position of the County or its ability to pay or to provide for payment under the County Guaranty.

## **TAX MATTERS**

### **Notice Pursuant to IRS Circular 230**

The discussion below is not intended or written by the Authority or Bond Counsel to be used, and cannot be used by any person, for the purpose of avoiding tax penalties that might be imposed under federal tax laws. This discussion is provided to support an offering of the Series 2011 Bonds and accordingly, is written in support of the promotion or marketing of the Series 2011 Bonds. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor concerning the potential tax consequences of an investment in the Series 2011 Bonds.

### **General**

Interest on the Series 2011 Bonds is included in gross income for federal income tax purposes under current law.

The Internal Revenue Code of 1986, as amended (the "Code") contains a number of provisions relating to the taxation of securities such as the Series 2011 Bonds (including but not limited to the tax treatment of and accounting for interest, premium, original issue discount and market discount thereon, gain from the sale, exchange or other disposition thereof and withholding and backup withholding tax on income therefrom) that may affect the taxation of certain owners, depending on their particular tax situations. Owners of the Series 2011 Bonds should consult their own tax advisors as to the particular federal income tax consequences of their ownership of the Series 2011 Bonds.

In the opinion of Inglesino, Pearlman, Wyciskala & Taylor, LLC, Bond Counsel to the Authority, under current law, interest on the Series 2011 Bonds and any gain on the sale thereof are not includable as gross income under the New Jersey Gross Income Tax Act.

The discussion of tax matters in this Official Statement applies only in the case of purchasers of the Series 2011 Bonds at original issuance and at the respective prices indicated on the inside cover page hereof. It does not address any other tax consequences such as, among others, the consequences of the existence of any market discount to subsequent purchasers of the Series 2011 Bonds.

### **Certain United States Federal Income Tax Consequences**

The following is a summary of the principal United States federal income tax consequences of ownership of the Series 2011 Bonds. It deals only with Series 2011 Bonds held as capital assets by initial purchasers, and not with special classes of holders, such as dealers in securities or currencies, banks, tax-exempt organizations, life insurance companies, persons that hold Series 2011 Bonds that are a hedge or that are hedged against currency risks or that are part of a straddle or conversion transaction, or persons whose functional currency is not the U.S. dollar. The summary is based on the Code, its legislative history, existing and proposed regulations thereunder, published rulings and court decisions, all as currently in effect and all subject to change at any time, perhaps with retroactive effect.

The following summary does not address the tax treatment of Series 2011 Bonds acquired by partnerships (or other entities that are treated as partnerships for United States federal income tax purposes). Federal income tax and withholding tax treatment of income and gain recognized by a partnership generally depends, in substantial part, on the characteristics and tax circumstances of the partners in the partnership. Prospective purchasers of the Series 2011 Bonds that are partnerships should consult their own tax advisors regarding these matters.

## **United States Holders**

### *Payments of Interest.*

Interest on the Series 2011 Bonds will be taxable to a United States Holder (as defined below) as ordinary income at the time it is received or accrued, depending on the holder's method of accounting for tax purposes in accordance with generally applicable principles.

A United States Holder for purposes of this discussion is a beneficial owner of a Series 2011 Bond for U.S. federal income tax law purposes and (i) a citizen or resident of the United States, (ii) a corporation which is created or organized in or under the laws of the United States or of any political subdivision thereof, (iii) an estate the income of which is subject to United States federal income taxation regardless of its source, or (iv) a trust if (A) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust or (B) the trust was in existence on August 10, 1996 and properly elected to continue to be treated as a U.S. person. The term "Non-U.S. Holder" refers to any beneficial owner of a Series 2011 Bond who or which is not a United States Holder or a partnership or other entity that is treated as a partnership for United States federal income tax purposes.

## **Sale and Retirement of the Series 2011 Bonds**

United States Holders of the Series 2011 Bonds will recognize gain or loss on the sale, redemption, retirement or other disposition of such Series 2011 Bonds. The gain or loss is measured by the difference between the amount realized on the disposition of a Series 2011 Bond and the United States Holder's adjusted tax basis in the Series 2011 Bond. Such gain or loss will be capital gain or loss and will be long-term capital gain or loss if at the time of disposition such Series 2011 Bond has been held for more than one year.

## **Defeasance of the Series 2011 Bonds**

If the Authority defeases any of the Series 2011 Bonds, such Series 2011 Bonds may be deemed to be retired and "reissued" for federal income tax purposes as a result of the defeasance. In such event, a Holder of a Series 2011 Bond would recognize gain or loss on the Series 2011 Bond at the time of defeasance.

## **Backup Withholding and Information Reporting**

Information reporting will apply to payments of interest made by the Authority to United States Holders, and to the proceeds of the sale or other disposition of the Series 2011 Bonds with respect to certain non-corporate United States Holders, and backup withholding may apply

unless the recipient of such payment supplies a taxpayer identification number, certified under penalties of perjury, as well as certain other information or otherwise establishes an exemption from backup withholding. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against that owner's U.S. federal income tax liability provided the required information is furnished to the Internal Revenue Service.

Prospective purchasers of the Series 2011 Bonds should consult their own tax advisors concerning the consequences described above, as well as other consequences, in their particular circumstances, of ownership of the Series 2011 Bonds, under the Code and the laws of any other taxing jurisdiction.

ALL POTENTIAL PURCHASERS OF THE SERIES 2011 BONDS SHOULD CONSULT WITH THEIR TAX ADVISORS IN ORDER TO UNDERSTAND THE IMPLICATIONS OF THE CODE.

#### **APPROVAL OF LEGALITY**

All legal matters incident to the authorization, issuance, sale and delivery of the Series 2011 Bonds are subject to the approval of Inglesino, Pearlman, Wyciskala & Taylor, LLC, Parsippany, New Jersey, Bond Counsel to the Authority, whose approving legal opinion will be delivered with the Series 2011 Bonds, substantially in the form annexed hereto as Appendix E.

#### **CREDIT RATING**

Moody's Investors Service, Inc. ("Moody's") has assigned the Series 2011A Bonds the rating of "Aa2" (negative outlook). Such rating reflects only the view of such organization, and an explanation of the significance of such rating may be obtained only from Moody's. There is no assurance that such rating will be retained for any given period of time or that such rating will not be revised downward entirely by the Moody's if in their judgment circumstances so warrant. Any such downward revision or withdrawal of such rating may have an adverse effect on the market price of the Series 2011 Bonds. Moody's is in the process of completing its negative outlook review, and none of the County, the Authority, the Underwriters nor the Company can predict the outcome of that review, and any subsequent effect on the market pricing of the Series 2011 Bonds.

#### **FINANCIAL ADVISOR**

NW Financial Group, LLC, Jersey City, New Jersey, has served as financial advisor to the Authority with respect to this transaction (the "*Financial Advisor*"). The Financial Advisor is not obligated to undertake, and has not undertaken, either to make an independent verification of or to assume responsibility for the accuracy, completeness, or fairness of the information contained in this Official Statement or in the appendices hereto. The Financial Advisor is an independent firm and is not engaged in the business of underwriting, trading, or distributing municipal securities or other public securities.

## UNDERWRITING

The Series 2011 Bonds are being purchased from the Authority by RBC Capital Markets, LLC, as senior managing underwriter on behalf of itself and its co-managing underwriters (the "Underwriter") as set forth in that certain Bond Purchase Agreement dated December 7, 2011 (the "Bond Purchase Agreement") between the Underwriter and the Authority, and acknowledged and accepted by the Company. The Bond Purchase Agreement provides that the purchase price of the Series 2011A Bonds is \$26,593,392.74 (representing the principal amount of the Series 2011A Bonds, less an Underwriter's discount in the amount of \$121,607.26). The Bond Purchase Agreement provides that the purchase price of the Series 2011B Note is \$980,516.26 (representing the principal amount of the Series 2011B Note, less an Underwriter's discount in the amount of \$4,483.74).

The obligation of the Underwriter to make such purchase is subject to certain additional terms and conditions set forth in the Bond Purchase Agreement, to the approval of certain legal matters by counsel, and to certain other conditions. The Underwriter intends to offer the Series 2011 Bonds at the rates and prices shown on the inside front cover hereof, which rates and prices may be changed from time to time by the Underwriter.

The Underwriter may offer and sell the Series 2011 Bonds to certain dealers (including dealers depositing bonds into investment trusts) and certain dealer banks acting as agents at prices lower or yields higher than the public offering prices or yields stated on the inside front cover hereof.

## SECONDARY MARKET DISCLOSURE

Pursuant to the requirements of Rule 15c2-12 (the "Rule") adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, the County and the Company will each deliver concurrently with the delivery of the Series 2011 Bonds a Continuing Disclosure Agreement with the Authority and the Trustee in substantially the forms annexed hereto as Appendix F (each, a "Continuing Disclosure Agreement" and together, the "Continuing Disclosure Agreements"). The County and the Company have each covenanted for the benefit of Bondholders, in accordance with the provisions of the respective Continuing Disclosure Agreement, to provide or cause to be provided, in accordance with the requirements of the Rule, certain financial information and operating data to the Municipal Securities Rulemaking Board (as defined in each Continuing Disclosure Agreement). The County, the Authority and the Company have each also covenanted in their respective Continuing Disclosure Agreements to provide notices of the occurrence of certain enumerated events.

A failure by the County, the Authority or the Company to comply with the provisions of the respective Continuing Disclosure Agreements will not constitute a default under the Series 2011 Bonds, and holders and beneficial owners are limited to the remedies set forth in the Continuing Disclosure Agreements. However, failure by any of the County, the Authority or the Company to comply with its Continuing Disclosure Agreement must be reported in accordance with the Rule and must be considered by any broker or dealer before recommending the purchase or sale of Series 2011 Bonds in the secondary market. Consequently, such failure may adversely affect the transferability and liquidity of the Series 2011 Bonds and their market price.

The County has never failed to fully satisfy the requirements of an undertaking previously executed by the County pursuant to the Rule in connection with a prior issue of bonds of the County. The Authority has never failed to fully satisfy the requirements of an undertaking previously executed by the Authority pursuant to the Rule in connection with a prior issue of bonds of the Authority. This is the first undertaking signed by the Company pursuant to the Rule.

The County is easily accessible from metropolitan areas via Interstate Route 80 and major state roadways.

### Governmental Structure

The County operates under the Freeholder form of County government, in which a five-member Board of Chosen Freeholders are elected for staggered three-year terms. The Board expanded from three members to five members effective January 1, 1990, pursuant to voter approval. The Board of Chosen Freeholders enacted the Sussex County Administrative Code on November 17, 1989, so as to maintain the separation of legislative and administrative powers and organize the administration of County government as provided in the Code. The legislative, policy making and investigative powers of County government are vested in the Board. In addition to said powers, the Freeholders operate through an undefined liaison system and are required to perform legislative responsibilities for: (i) adopting whatever ordinances and resolutions it deems necessary and proper for the good governance of the County, (ii) approving the operating and capital budget and appropriating the funds of the County to maintain all County services. A County Administrator is appointed by the Board to be the chief administrative officer responsible for the proper and efficient administration of the County. The County Administrator: (i) supervises, directs and controls all County administrative departments, (ii) organizes the work of the County administrative departments subject to the Code, (iii) reviews the administration and operation of the administrative department and makes recommendations to the Board.

The County has 699 employees of whom approximately 600 are represented by five collective bargaining units. The largest unit is the Communications Workers of America, A.F.L.-C.I.O. Two C.W.A. contracts expire on December 31, 2013. One P.B.A. contract with Prosecutor's Office expires on December 31, 2011; two P.B.A. contracts with Corrections Officers and Sheriff's Officers expire on December 31, 2013.

All full-time County employees are enrolled in one of two State of New Jersey retirement systems. Both the employer and employees make contributions to the systems. In 2009, the County appropriated \$2,108,435 to pay its share of costs associated with the Public Employees' Retirement System and \$1,616,028 for the Police and Firemen's Retirement System. In 2010, the County appropriated \$2,353,125 or 100% of full contribution for the PERS invoice and \$1,764,606 or 100% contribution for the PFRS invoice.

County employees are also enrolled in the Social Security System and are covered by Workers' Compensation, Temporary Disability and Unemployment Insurance, New Jersey Dental Plan and a recently adopted self-insured Medical Program administered by Cigna and Prescription Drug Plan administered by Medco.

### Responsibilities of Government

The County is responsible for providing diverse government services including the construction and maintenance of the County road and bridge system, the provision of human and health care services, library system, fire training, law enforcement, education and a variety of other programs.

Pursuant to the requirements of Section 326 of the State of New Jersey's Solid Waste Management Act, the Board of Chosen Freeholders has adopted a Solid Waste Management Plan and Update. This Plan includes recycling to meet State goals and solid waste flow control for Sussex County generated solid waste.

### COUNTY TAXES

County taxes are collected by the municipalities and paid to the County Treasurer. The municipal levy includes all County, library, health, school, and municipal taxes. Each municipality is required to pay to the County Treasurer its share of the County Purpose Tax on the fifteenth day of February, May, August and November of each year. The County receives its share of the taxes collected from the first taxes collected by each municipality. The State Division of Local Government Services requires that each municipality establish a reserve for uncollected taxes that is equal to the product of total taxes assessed by the County multiplied by the percentage of uncollected taxes in the prior year. This reserve is included in the municipal budget when the municipality establishes its own tax rate and assures the County that it will receive 100% of the taxes due. The County reports that it received virtually 100% of its tax levy during the levy year for each of the last three years.

## LAND AREA

The land area of Sussex County is approximately 525 square miles or approximately 337,000 acres. Of that amount, the federal or state government for recreational use holds 64,200 acres. Approximately 12,000 acres of the County are still virgin woodland of the approximately 100,000 acres of total woodland. Agricultural uses account for 84,000 acres. In order to preserve this agricultural base, the County operates a farmland preservation program, which is partially State funded and with a dedicated property tax that began in 2001. There are 100 lakes and streams in the County.

## ECONOMY

The County has shifted from a principally agricultural, mining, and recreational based economy to one, which is more diversified. The growth of population in the County has led to the development of substantial construction activity, increased retail and office development, as well as other service sector jobs that are supported by the increasing population. The County encourages economic growth that is consistent with its zoning and subdivision laws. Approximately 51,000 County residents are employed outside the County. These commuters are employed in Morris, Bergen, and Essex Counties in New Jersey as well as in New York City. The development of commercial complexes in Morris County has supported the residential growth in Sussex County.

Adjacent to Sussex County are Picatinny Arsenal, a U.S. military installation, and the New Jersey Foreign Trade Zone, an authorized Foreign trade Zone developed by the Rockefeller Group. The International Trade Center is home to foreign-owned manufacturing, assembly and distribution operations that employ approximately 815 people, of which an estimated 80-100 are County residents. The Center has developed 2 million square feet of office and light industrial space with plans to develop up to 3 million additional square feet.

Agriculture's contribution to county business exceeds \$20 million a year spread across a varied mix of animal, forage and grain, and direct consumer product sales. Sussex County growers consistently rank near the top in the State in hay production and sales, milk production and sales, cattle, calves, sheep and lamb production and sales, equine production and value, and sweet corn production. Growth continues in pick-your-own fruit and vegetable farms and in nursery and greenhouse/floriculture industry that is accommodating the increasing urban population and tourism interests in northern New Jersey.

## TRANSPORTATION

The transportation network in Sussex County links federal Interstate 80 in the south eastern part of the County and Interstate 84 in the northwestern portion of the County to a variety of U.S. and state routes; U.S. Route 206 connects Interstate 80 with Newton, the County seat, and continues into Pennsylvania. State Routes 15, 23, 94, and 284 provide access to all parts of the County. In addition, the County route system is comprised of 47 separate routes totaling 320 two-lane miles. The towns within the County also maintain a system of local roads and streets. Of the 480 bridges that are located within the County, 440 bridges are part of the County system, 37 are State owned, and 3 are privately owned.

Two commuter bus lines offer transportation to the Port Authority Terminal in New York City and the Sussex County Transit system offers daily trips throughout the County. The Sussex County Transit system also provides Dial-A-Ride services to senior and handicapped citizens. NJ Transit offers rail service in neighboring counties with close proximity to Sussex County

In addition, there are four regional schools that provide 7-12 and 9-12 educational programs for district students. There are also nine nonpublic schools as well as private preschool programs offered in most communities. Also, there is one Charter School for Technology and one educational services commission. The secondary school districts cooperate in offering a vocational-technical school serving the County. Students are enrolled in trade, vocational and technical programs including electronics, computer science, automotive technology, engineering and health care fields.

There is one college in the County. The Sussex County Community College opened in 1982 and was fully accredited by the Middle States Association in 1993.

## HEALTH CARE FACILITIES

There are two hospitals that serve the County, Newton Medical Center and Northwest Covenant Medical Center. Approximately 96 beds are for medical surgical patients, a pediatric unit, a physical rehabilitation unit and an OB/GYN unit. In addition, it houses health education programs, the American Heart Association, the Cancer Society, a hospice for the terminally ill, and a Center for Mental Health. The hospital provides an American College of Surgeons Commission approved oncology program providing radiotherapy and chemotherapy. Newton Medical Center is part of the Atlantic Health Care System and often refers patients to Morristown Hospital or Saint Joseph's Hospital in Philadelphia.

The Northwest Covenant Medical Center was the result of a merger between the St. Clare's Riverside Medical Center in Denville Township and the Wallkill Valley General Hospital. The Northwest Covenant Medical Center provides an Acute Care Center and geriatric services in the Sussex Borough facility.

An interconnecting network of volunteer and private ambulance and rescue squads also serves the County.

In addition, the County is home to the 15,734 acre Stokes State Forest and to six additional state parks totaling 41,382 acres, and nine wildlife management areas. Some of the state parks recreational facilities include swimming, fishing, hiking, mountain biking, horseback riding, hunting, boating, picnicking, camping, snow shoeing, cross country skiing, and snowmobiling. Also, there are over 15,000 acres of farmland preserved in perpetuity in the county.

The Authority has been granted additional powers to implement the County solid waste plan.

The Authority has broad power under the MUA Act including, among others, the following: to sue and to be sued; to enter into leases and contracts; to acquire property by any lawful means, including the exercise of the power of eminent domain; to hold, operate and administer its property; to issue its negotiable bonds and to secure their payment and rights of holders thereof under a bond resolution; to enter into contracts with municipalities, other authorities and corporations for the treatment and disposal of sewage and solid waste; to charge and collect service charges for the use of its facilities and to revise such service charges which the MUA Act requires to such that the revenue of the Authority will at all times be adequate to pay operating and maintenance expenses including reserves, insurance, extensions and replacements; to pay punctually the principal of and interest on any bonds and to maintain reserves and sinking funds therefor as may be required by the terms of any contracts with bondholders; and to make and enforce rules and regulations for the management of its business affairs.

The County of Sussex and the Sussex County Municipal Utilities Authority ("SCMUA") have entered into Deficiency Advance Contracts in order to provide security to the holders of obligations of SCMUA relative to the existing permanent debt issued and outstanding as listed in the following schedule. Pursuant to the terms of the Deficiency Advance Contracts, SCMUA can impose and collect from the County of Sussex annual charges, as defined in the contract, in any fiscal year that SCMUA estimates that the amount of revenue received from all sources will be insufficient to satisfy all of its costs, expenses, or other obligations.

As of December 31, 2010, the SCMUA has outstanding approximately \$38,059,874 of Upper Wallkill Wastewater Facilities Revenue Bonds that are supported by the Deficiency Advance Contract. The SCMUA's wastewater revenues have been sufficient to meet all costs of operation and maintenance and all debt service costs of the Authority with respect to its wastewater system.

As of December 31, 2010, the SCMUA has outstanding approximately \$28,439,744 of Solid Waste Revenue Bonds that are supported by a Deficiency Advance Contract. The Authority's Solid Waste Facilities, as a result of the Supreme Court decision regarding solid waste flow direction control, has realized a significant drop in revenue from tipping fees. SCMUA projected the anticipated budget deficit for 2011 would be \$3.0 million. SCMUA will be covering the 2011 shortfall by realizing higher than expected solid waste revenues and by utilizing \$2.1 million from their landfill closure reserve. The Sussex County Municipal Utilities Authority expects to replenish the landfill closure reserve in future years when debt services costs are expected to decrease. Additionally, SCMUA has proposed a 2012 rate increase to meet its full operating costs, including debt service with respect to its solid waste system.

### Independent Auditors' Report

The Honorable Director and Members  
of the Board of Chosen Freeholders  
County of Sussex  
Newton, NJ 07860

We have audited the accompanying financial statements of the various funds of the County of Sussex (the "County") as of and for the years then ended December 31, 2010, 2009 and 2008, as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

Except as discussed in the fourth paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described in Note 1, these financial statements have been prepared in conformity with accounting principles prescribed by the Division that demonstrate compliance with the modified accrual basis, with certain exceptions, and the budget laws of New Jersey, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the statutory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

The financial statements referred to in the first paragraph do not include the general fixed assets account group, which should be included to conform with the Technical Accounting Directives of the Division. The amount that should be recorded as total fixed assets and the corresponding reserve for fixed assets in the general fixed assets account group is not known.

In our opinion, because the County prepares its financial statements on the basis of accounting discussed in the third paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the County as of December 31, 2010, 2009 and 2008 and the results of its operations for the years then ended.

The Honorable Director and Members of  
the Board of Chosen Freeholders  
County of Sussex  
Page 2

However, in our opinion, except for the effects on the financial statements of the omission described in the fourth paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the various funds of the County of Sussex at December 31, 2010, 2009 and 2008, and the results of operations and changes in fund balance, where applicable, of such funds, thereof for the years then ended, in conformity with accounting principles prescribed by the Division, as described in Note 1.

ARE AN INTEGRAL PART OF THIS STATEMENT

COUNTY OF SUSSEX  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010

Note 1: Summary of Significant Accounting Policies

A. Reporting Entity

Except as noted below, the financial statements of the County of Sussex include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the County of Sussex, as required by N.J.S. 40A:5-5. Accordingly, the financial statements of the County of Sussex do not include the operations of the County Community College, County Municipal Utilities Authority or the County Vocational School, inasmuch as their activities are administered by separate boards. The operations of the County Welfare Agency have also been excluded inasmuch as they serve as an agent of the State of New Jersey and their records are maintained separately.

Governmental Accounting Standards Board ("GASB") Codification Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and commissions by the primary government. The exercise of oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e., benefit of economic resources, access/entitlement to resources, and significance) should be included in the financial reporting entities. As the financial reporting entity was established in accordance with New Jersey statutes, the requirements of GASB Codification Section 2100 were not followed and, accordingly, the reporting entity could be different from accounting principles generally accepted in the United States of America.

*Financial Statements for each of the component units may be obtained from the entity's administrative offices.*

B. Description of Funds

The accounting policies of the County of Sussex conform to the accounting principles applicable to municipalities and counties which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"). Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the County of Sussex accounts for its financial transactions through the following separate funds:

COUNTY OF SUSSEX  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010  
(Continued)

Note 1: Summary of Significant Accounting Policies (Cont'd)

B. Description of Funds (Cont'd)

Current Fund - Resources and expenditures for governmental operations of a general nature, including federal and state grant funds.

Trust Funds - Receipts, custodianship and disbursement of funds in accordance with the purpose for which each reserve was created.

General Capital Fund - Receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the Current Fund.

Special Revenue - County Health Fund - Resources and expenditures for the operations of the County Health Division.

Special Revenue - County Library Fund - Resources and expenditures for the operations of the County Library system.

C. Basis of Accounting

Basis of accounting refers to when revenue and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounting policies of the County of Sussex conform to the accounting principles applicable to municipalities and counties which have been prescribed by the Division which differ in certain respects from accounting principles generally accepted in the United States of America applicable to local governmental units. The more significant policies in New Jersey follow.

Revenue is recorded when received in cash except for the prepayment of future years' revenue and State and Federal Grant Funds which are recorded as revenue in the year they are anticipated in the budget. The amounts recorded as County taxes receivable have not been included in revenue. Amounts that are due to the County which are susceptible of accrual are recorded as receivables with offsetting reserves in the Current, Health and Library Funds. Expenditures are charged to operations generally based on budgeted amounts.

Exceptions to this general rule include:

1. Accumulated unpaid vacation, sick pay and other employee amounts are not accrued.
2. Prepaid expenses, such as insurance premiums applicable to subsequent periods, are charged to current budget appropriations in total.
3. Principal and interest on long-term debt are recognized when due.

COUNTY OF SUSSEX  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010  
(Continued)

Note 1: Summary of Significant Accounting Policies (Cont'd)

C. Basis of Accounting (Cont'd)

Expenditures, if any, in excess of appropriations, appropriation reserves or ordinances, become deferred charges which must be raised by future taxes. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements and constitute part of the statutory appropriation reserve balance. Appropriation reserves covering unexpended appropriation balances are automatically created at December 31 of each year and recorded as liabilities, except for amounts which may be cancelled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet additional encumbrances which have not been recorded as of December 31, for specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income.

The cash basis of accounting is followed in the Trust and General Capital Funds.

D. Deferred Charges to Future Taxation – The General Capital Fund balance sheet includes both funded and unfunded deferred charges. Funded means that bonds have been issued and are being paid off on a serial basis. Unfunded means the debt has been authorized but not permanently financed. A county can eliminate an unfunded deferred charge by raising it in the budget or collecting a grant. The unfunded deferred charge may also be funded by selling bonds, by issuing loans or through capital lease purchase agreements.

E. Other significant accounting policies include:

Management Estimates – The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents – Amounts include petty cash, change funds, amounts on deposit, and short-term investments with original maturities of three months or less.

Investments – Investments are stated at cost or amortized cost, which approximates market.

Allowance for Uncollectible Accounts – A reserve for uncollectible grant receivables has been recorded in the Current Fund. This allowance has been established based on management's evaluation of its collection experience over the last several years.

Compensated Absences – Expenditures relating to unused vested accumulated vacation and sick pay are not recorded until paid.

Interfunds – Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - The cost of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories is not included on the various balance sheets.

COUNTY OF SUSSEX  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010

(Continued)

Note 1: Summary of Significant Accounting Policies (Cont'd)

E. Other significant accounting policies include: (Cont'd)

Fixed Assets - Property and equipment purchased by the Current and General Capital Funds are recorded as expenditures at the time of purchase and are not capitalized.

Grants Receivable - Grants receivable represent the total grant awards less amounts collected to date. Because the amount of grant funds to be collected is dependent on the total costs eligible for reimbursement, the actual amount collected may be less than the total amount awarded.

Had the County's financial statements been prepared under accounting principles generally accepted in the United States of America, encumbrances would not be considered as expenditures; appropriation reserves would not be recorded; revenue susceptible to accrual would have been reflected without offsetting reserves; Federal and State grants and assistance would be recognized when earned, not when awarded; and inventories would not be reflected as expenditures at the time of purchase.

- F. Budget/Budgetary Control - Annual appropriated budgets are usually prepared in the 1<sup>st</sup> quarter for the current operating and open space trust funds. The budget is submitted to the governing body and the State Division of Local Government Services. Additionally, budgets are prepared for the County Health and Library Funds which are approved by the governing body but do not require approval by the State Division of Local Government Services. The budgets are prepared using the cash basis of accounting. The legal level of budgetary control is established at the line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the flexible chart of accounts referenced in NJSA 40A. All budget amendments/transfers must be approved by the County during the year.

Note 2: Long-Term Debt

Summary of County Debt

The Local Bond Law governs the issuance of bonds to finance general County capital expenditures. All bonds are retired in serial installments within the statutory period of usefulness. All bonds issued by the County are general obligation bonds. The County's full faith and credit and taxing power has been pledged to the payment of general obligation debt principal and interest.

Fund balances at December 31, 2010 which are appropriated and included in the adopted budgets as anticipated revenue in their own respective funds for the year ending December 31, 2011 are as follows:

Current Fund	\$5,857,000
County Health Fund	467,562
County Library Fund	588,377

Note 4: Pension Plans

County employees are enrolled in one of two cost sharing multiple-employer public employee retirement systems: the Public Employees' Retirement System (PERS), the Police and Firemen's Retirement System (PFRS) of New Jersey or the Defined Contribution Retirement Program (DCRP). The State of New Jersey sponsors and administers these plans which cover substantially all County employees. As a general rule, all full-time employees are eligible to join the PERS or the PFRS. However, if an employee is ineligible to enroll in the PERS or PFRS, the employee may be eligible to enroll in the DCRP.

COUNTY OF SUSSEX  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010

(Continued)

Note 4: Pension Plans (Cont'd)

Employees who are members of PERS and retire at specified age according to the relevant tier category for that employee are entitled to a retirement benefit based upon a formula which takes "final average salary" during years of creditable service. Vesting occurs after 8 to 10 years of service. Enrolled PFRS members may retire at age 55 with a minimum of 10 years of service required for vesting. The DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting is immediate upon enrollment for members of the DCRP.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems, funds and trust. The financial reports may be obtained by writing to the State of New Jersey, Department of Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625-0295.

The contribution policy is set by New Jersey State Statutes and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Employee contributions are based on percentages of 5.5% for PERS and DCRP and 8.5% for PFRS of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in the PERS and PFRS. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits. The DCRP was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 and expanded under the provisions of Chapter 89, P.L. 2008. Employee contributions for DCRP are matched by a 3% employer contribution.

County contributions to PFRS amounted to \$1,764,606, \$1,616,028, and \$1,491,003 for 2010, 2009, and 2008, respectively. County contributions to PERS amounted to \$2,353,125, \$2,313,771, and \$1,602,527 for 2010, 2009, and 2008, respectively. The annual pension cost ("APC") for PERS differed from the net pension obligation ("NPO") due to the enactment of Chapter 114, P.L. 1997 for 2008 as the APC was \$2,003,159 and the NPO was \$1,602,527.

The employee and employer contribution for the DCRP for the year ended December 31, 2010 were \$6,088 and \$3,589, respectively.

Chapter 42, P.L. 2002 permitted local government units to issue refunding bonds to retire unfunded accrued liability resulting from early retirement benefits under PERS and PFRS effective July 12, 2002. The County issued \$ 3,900,000 of refunding pension bonds in 2003.

Note 5: Accrued Sick and Vacation Benefits

The County has permitted employees to accrue unused vacation and sick pay, which may be taken as time off or paid at a later date at an agreed-upon rate. The current cost of such unpaid compensation has been estimated at approximately \$2,156,389 at December 31, 2010 and is not reported either as an expenditure or liability. However, it is expected that the cost of such unpaid compensation would be included in the County's budget operating expenditures in the year in which it is used and/or charged.

County Tax Calendar

County taxes are billed approximately two months prior to the respective due dates to the municipalities in the County. The first three quarterly billings are based on an estimate of the current year's levy based on the prior year's taxes. These three quarterly billings are due February 15<sup>th</sup>, May 15<sup>th</sup> and August 15<sup>th</sup>. The fourth quarter's billing reflects an adjustment to the current year's actual levy and is due November 15<sup>th</sup>.

Comparison of Tax Levies and Collection Currently

A study of this tabulation could indicate a possible trend in future tax levies. A decrease in the percentage of current collection could be an indication of a possible increase in future tax levies.

Note 7: Sussex County Municipal Utilities Authority Receivable

The Current Fund balance sheet reflects a receivable from the Sussex County Municipal Utilities Authority ("SCMUA") in the amount of \$418,658.42 at December 31, 2010.

The \$418,658.42 represents funds advanced to the SCMUA for the study of several projects. The SCMUA is to repay the funds when the projects have been completed and permanently financed from proceeds of bonds, temporary bonds or from proceeds of grants received for the projects. However, due to the lack of federal funds available, the construction of the projects under study is questionable; therefore, the collection of the receivable is uncertain. The management of the County feels that if the receivable is not collected, it would not adversely affect the County's financial position because the receivable is offset with a reserve.

Note 8: Commitment

The County of Sussex and the Sussex County Municipal Utilities Authority (the "SCMUA") have entered into a Deficiency Advance Contract in order to provide security to the holders of obligations of the SCMUA relative to the existing \$71,995,618 Solid Waste Revenue Bonds, Upper Wallkill Wastewater Facilities Revenue Bonds and Project Notes. Pursuant to the terms of the Deficiency Advance Contract, the SCMUA can impose and collect from the County of Sussex annual charges, as defined in the contract, in any fiscal year that the SCMUA estimates that the amount of revenue received from all sources will be insufficient to satisfy all of its costs, expenses, or other obligations.

As of December 1, 2010, the SCMUA has outstanding approximately \$38,059,874 of Upper Wallkill Wastewater Facilities Revenue Bonds that are supported by a Deficiency Advance Contract. The SCMUA's wastewater revenues have been sufficient to meet all costs of operation and maintenance and all debt service costs of the Authority with respect to its wastewater system.

As of December 1, 2010, the SCMUA has outstanding approximately \$28,439,744 of Solid Waste Revenue Bonds that are supported by a Deficiency Advance Contract. The SCMUA's solid waste revenues and surplus had been sufficient to meet all costs of operation and maintenance and all debt service costs of the Authority with respect to its solid waste system. However, New Jersey's system of waste flow control had previously been ruled unconstitutional in federal court. The United States Supreme Court ruled in *United Haulers v. Oneida Herkner Solid Waste Management Authority* that solid waste flow control is constitutional. In 2010 flow control was reestablished in Sussex County through a Solid Waste Management Plan amendment.

COUNTY OF SUSSEX  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010  
(Continued)

Note 8: Commitment (Cont'd)

The prior Supreme Court ruling has caused the SCMUA to reduce its tipping fees to be competitive with other solid waste disposal facilities, resulting in decreased revenues, adversely affecting the SCMUA's ability to meet its debt service obligations. The County is required to advance funds to the SCMUA to cover any deficiencies in revenues over the SCMUA's costs, expenses and debt service obligations. The SCMUA has estimated that the anticipated deficit for 2011 will be \$3,000,000. SCMUA will be covering the 2011 shortfall by realizing higher than expected solid waste revenues and by utilizing \$2.1 million from their landfill closure reserve. The Sussex County Municipal Utilities Authority expects to replenish the landfill closure reserve in future years when debt services costs are expected to decrease. Additionally, SCMUA has proposed a 2012 rate increase to meet its full operating costs, including debt service with respect to its solid waste system.

The County is obligated to advance funds to the SCMUA under the Deficiency Advance Contract to the extent that other revenue is not obtained to finance the SCMUA's operations.

In 2009, the SCMUA issued \$5,496,000 of Project Notes for the Paulinskill Water Reclamation Facilities to serve Branchville Borough and portions of Frankford Township for wastewater treatment.

Note 9: Cash and Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

Investments are stated at cost or amortized cost, which approximates market. The County classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40, *Governmental Accounting Standards Board Deposit and Investment Risk Disclosures*, requires disclosure of the level of custodial credit risk assumed by the County in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk - In accordance with its cash management plan, the County ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk - The County limits its investments to those authorized in its cash management plan which are those permitted under state statute as detailed on the following page.

Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC), or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

Note 9: Cash and Cash Equivalents and Investments (Cont'd)

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal 5% of the average daily balance of public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments:

New Jersey statutes permit the County to purchase the following types of securities:

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations of the local unit or bonds or other obligations of school districts of which the local unit is a part or within which the school district is located;
- (5) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units.
- (6) Local government investment pools;
- (7) Deposits with the State of New Jersey Cash Management Fund; or
- (8) Agreements for the repurchase of fully collateralized securities if:
  - (a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) above;
  - (b) the custody of collateral is transferred to a third party;
  - (c) the maturity of the agreement is not more than 30 days;
  - (d) the underlying securities are purchased through a public depository as defined in statute; and
  - (e) a master repurchase agreement providing for the custody and security of collateral is executed.

Property, Liability and Workers' Compensation

The County of Sussex is a member of the Public Alliance Insurance Coverage Fund. The Public Alliance Insurance Coverage Fund provides its members with Liability and Property Insurance. The Fund is a risk-sharing public entity risk pool that is both an insured and self administered group of governmental entities established for the purpose of providing low-cost insurance coverage for their respective members in order to keep local property taxes at a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Fund are elected.

The County is also a member of the Statewide Insurance Fund (the "Fund"). The Fund provides its members with Workers' Compensation. The Fund is a risk-sharing public entity risk pool that is both an insured and self-administered group of governmental entities established for the purpose of providing low-cost insurance coverage for its members in order to keep local property taxes at a minimum. As a member of these Funds, the County could be subject to supplemental assessments in the event of deficiencies. If the assets of the Funds were to be exhausted, members would become responsible for their respective shares of the Funds' liabilities.

The Funds can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided amongst the members in the same ratio as their individual assessment relates to the total assessment of the membership body. The members may either receive payment or offset their subsequent year assessments with their respective share of the distribution.

New Jersey Unemployment Compensation Insurance

The County has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the County is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The County is billed quarterly for amounts due to the State.

The following is a summary of the interest earnings, County and employees' contributions and reimbursements to the State for benefits paid, and the ending balance of the County's expendable trust fund for the current and previous two years:

<u>Year</u>	<u>Interest Earnings</u>	<u>County Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2010	\$ 272.24	\$320,990.75	\$299,027.39	\$ 60,074.52
2009	535.62	307,585.01	308,870.63	37,838.92
2008	646.10	93,271.08	145,488.42	38,588.92

Prescription Benefit Coverage

The County maintains a self-insured prescription drug program. The County's third party claims administrator for this program is Medco Health Solutions. Amounts paid to Medco Health Solutions for paid claims and administrative costs for the year ended December 31, 2010 were \$4,009,366.38. The County has a reserve entitled Self Insurance Fund – Prescription in the amount of \$260,853.21 on the Other Trust Funds balance sheet which would be utilized to pay Incurred but not Reported Claims. The amount of the Incurred but not Reported Claims as of December 31, 2010 is not known but would most likely exceed the \$260,853.21. However, additional funding would be available from the 2010 Appropriation Reserves if needed.

Medical Benefit Coverage

The County maintains a self-insured medical program. The County's third party claims administrator for this program is CIGNA Healthcare, Inc. Amounts paid to CIGNA Healthcare, Inc. for paid claims and administrative costs for the year ended December 31, 2010 were \$13,846,082.76. The County has a reserve entitled Self Insurance Fund – Medical in the amount of \$1,477,691.39 on the Other Trust Funds balance sheet as well as unexpended 2010 Appropriation Reserve balances and could transfer in additional funds. These funds would be sufficient to cover the estimated Incurred but not Reported Claims as of December 31, 2010.

Note 12: Interfund Receivables and Payables

The following interfund balances remained on the balance sheet at December 31, 2010:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
Current	\$ 2,342,000.00	\$ 2,845,467.18
Other Trust	2,331,068.98	77.03
General Capital	7,671.37	2,342,000.00
Health	624,829.51	68,025.65
Library		50,000.00
	<u>\$ 5,305,569.86</u>	<u>\$ 5,305,569.86</u>

The interfund receivable in the Current Fund is the result of the \$2.5 million Refunding Ordinance funded in the General Capital Fund to refund the Emergency Authorization in 2009. The interfund receivable in the Other Trust Funds is due in part to the prior year interfund receivable from the Current Fund which include funds for the Reserve for Accrued Sick and Vacation due from the Current, Library and Health Funds. Additionally, there are funds due from the Current Fund for the Reserves for Weights and Measures, State Unemployment Insurance and Self Insurance Fund – Damage to County Vehicles. The interfund receivable in the Health Fund from the Current Fund is due primarily to the Health Fund not maintaining a separate bank account until this year.

Note 13: Deferred Compensation

The County of Sussex offers its employees deferred compensation plans (the "Plans") created in accordance with Section 457 of the Internal Revenue Code. The Plans, which are administered by Nationwide Retirement Solutions, Equitable and ICMA Retirement Solutions, are available to all County employees and permits participants to defer a portion of their salary. The deferred compensation is not available to employees until termination, retirement, unforeseeable emergency or upon death to their beneficiaries.

Note 14: Open Space Trust Fund

On January 17, 2001, the County created an Open Space Trust Fund to provide for farmland preservation and open space acquisition. Collection of funds for the Trust Fund commenced during 2001 with a tax equal to \$.02 per \$100 of total county equalized real property valuation. The levy for 2010 was set at 1 cent. As of December 31, 2010, the balance in the Open Space Trust Fund was \$7,385,681.28.

Note 15: Economic Dependency

The County receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the County's programs and activities.

Note 16: Contingent Liabilities

The County is periodically involved in various lawsuits arising in the normal course of business, including claims for property damage, personal injury, and various contract disputes. The County vigorously contests these lawsuits and believes the ultimate resolution will not have a material adverse effect on their financial position.

Amounts received or receivable from grantors, principally the federal and state governments are subject to regulatory requirements and adjustments by the agencies. Any disallowed claims, including amounts previously recognized by the County as revenue would constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantors cannot be determined at this time, although County officials expect such amounts, if any, to be immaterial.

Note 17: Related Party Transactions

During the years ended December 31, 2010 and 2009, the County of Sussex provided financial support for current operations to the following component units:

	-- December 31, --	
	2010	2009
Sussex County Technical School	\$ 7,693,686	\$ 7,561,362
Sussex County Community College	4,672,000	4,617,687
Sussex County Division of Social Services	1,473,310	1,342,309
	\$ 13,838,996	\$ 13,521,358

Additionally, the County realized revenue and recorded expenditures in the amount of \$-0- and \$2,098,439 for the years ended December 31, 2010 and 2009 respectively with respect to the Sussex County Municipal Utilities Authority. The Current Fund revenue entitled "State Aid - Solid Waste Bonds - SCMUA" and Current Fund expenditure entitled "Aid to SCMUA - Solid Waste Bonds" relates to a shortfall in revenue at the SCMUA due to a State ruling that caused the SCMUA to reduce its solid waste disposal tipping fees. See Note 8 for additional information on the County's commitment with the SCMUA.

Note 18: Post-Retirement Benefits

The County provides post-retirement benefits to County employees who meet the following criteria. The benefits are as follows:

If retiring with 25 years or more of pension contributions and the last 15 years of service with the County, the County will pay health benefits premiums (but not the employee's share of health maintenance organization) for the rest of the employee's life. Should the retiree die, the widow(er) will be offered coverage through the County Health Insurance provider.

If retiring with 25 years or more of pension contributions on or after January 1, 1988 and the last 15 years of service with the County, the County will pay for prescription program and dental program premiums for the rest of the employee's life for the employee and the immediate family members for certain employees (the continuation of the prescription program and dental program after 25 years at the County's expense applies to most employees but not all). The County does not pay for coverage for the survivors.

The County provides certain post-retirement benefits to qualifying retired employees and their eligible dependents or survivors pursuant to collective bargaining agreements and Board resolutions. The contributions for retirees and beneficiaries have been funded on a pay-as-you-go basis, in accordance with New Jersey law and regulation. New Jersey budget and financial reporting laws do not require local units to budget amounts that exceed their current cash cost or to reflect the long-term liability on their balance sheet. Governmental units have to calculate and disclose their liability if the liability is material to understanding the financial condition of the local unit.

Funding Policy

The County is not required to nor does it contribute the annual required contribution (ARC) per N.J.S.A. 40A:4-1 et. seq. There is currently no provision under State statute for the County to accrue funds, create a trust or issue debt to finance their other post employment benefit ("OPEB") liability.

Currently, there are no contribution requirements of plan members.

The County's portion of post-retirement benefits is funded on a pay-as-you go basis from the Current Fund operating budget. During 2010 and 2009, the County had approximately 246 and 276 employees who met eligibility requirements and recognized expenses of approximately \$4,518,221 and \$3,222,379, respectively.

Annual OPEB Cost per Actuarial Valuation

For 2008, 2009 and 2010, the County's annual OPEB cost (expense) and the ARC was \$15,178,690, \$16,127,035 and \$17,153,693 respectively. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2008, 2009 and 2010 were as follows:

Year	Actuarial Estimated OPEB Payments	Annual OPEB Cost	Percentage of Annual OPEB Costs Contributed	Net OPEB Obligations
2010	\$ 4,671,990	\$ 17,153,693	27.24%	\$ 36,920,748
2009	3,314,897	16,127,035	20.55%	24,439,045
2008	3,551,783	15,178,690	23.40%	11,626,907

Funding Status and Funding Progress

The funded status of the plan as of January 1, 2008 – 2010 was as follows:

	2008	2009	2010
Actuarial Accrued Liability (AAL)	\$170,351,956	\$182,779,560	\$192,864,638

UAAL as a Percentage of Covered Payroll	505.27%	520.74%	538.17%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include economic assumptions; medical assumptions and demographic assumptions. Economic assumptions include the discount rate and health care cost trend rates. Medical assumptions are utilized to project the healthcare costs for employees who remain under the County plan with coverage after retirement. Based on claim information provided to the actuary, per capita costs for the retired group under 65 and the retired group age 65 and older were calculated. Retirees generally become eligible for Medicare at age 65. Finally, demographic assumptions include probabilities concerning the rate of mortality, the rate of withdrawal, the rate of retirement and the rate of disability. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present in future years multi-year trend information that shows whether the

Actuarial Methods and Assumptions

actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and included the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the 2008, 2009 and 2010 actuarial valuations, the projected unit credit cost method was used. Under this method, the present value of benefits is allocated uniformly over an employee's expected working lifetime. The actuarial assumptions included a 4.25% investment rate of return. An initial annual medical cost trend of 10% was utilized as the initial rate which decreases by one-half percent per year until the rate reaches 5% in 2018 and thereafter. For prescription drug benefits, an initial rate increase of 12% was utilized which decreases by one-half percent per year until the rate reaches 5% in 2022 and thereafter. For dental care benefits a constant 5% increase is utilized for all years. For Medicare Part B reimbursements, the initial rate increase is 0% in 2008, 6.5% in 2009 and 5% thereafter.

Note 19: Prior Year Adjustment

The prior year balance for the Patients Accounts Receivable on the Homestead Comparative Balance Sheet in the Supplementary Data Schedule section was not correct and was restated to adjust the receivable to the actual balance at December 31, 2009. RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS, SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY

WHEREAS, the County of Sussex, New Jersey, a political subdivision of the State (the "County") desires to undertake the development and implementation of a renewable energy program (the "Renewable Energy Program") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and biomass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "Renewable Energy Projects") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "Local Units");

WHEREAS, the Morris County Improvement Authority (the "Authority") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "Morris County Board of Freeholders") of the County of Morris (the "Morris County") in the State of New Jersey (the "State") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 et seq., the "Act"), and other applicable law;

WHEREAS, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "Section 11"), which purposes include the development and implementation of the Renewable Energy Program;

WHEREAS, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act,

WHEREAS, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "Sussex County Consultants"), if any, and together with the Authority Consultants, the "Consultants"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

#### SECTION 2.06. Book-Entry System.

1. Except as provided in subparagraph (3) of this Section 2.06, the Registered Owner of all of the Series 2011 Bonds shall be, and the Series 2011 Bonds shall be registered in the name of, Cede & Co., as nominee for DTC. Payment of interest on any Series 2011 Bond shall be made by wire transfer to the account of Cede & Co. on the Interest Payment Dates for the Series 2011 Bonds at the address indicated for Cede & Co. in the registry books of the Authority kept by the Trustee.

2. The Series 2011 Bonds shall be issued initially in the form of a separate, single, fully-registered Bond in the amount of each stated maturity of the Series 2011 Bonds. Upon initial issuance, the ownership of each such Series 2011 Bond shall be registered in the registry books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC. With respect to Series 2011 Bonds registered in the registry books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC, the Authority and any Fiduciary shall have no responsibility or obligation to any participant or to any beneficial owner of such Series 2011 Bonds. Without limiting the immediately preceding sentence, the Authority and any Fiduciary shall have no responsibility or obligation with respect to (i) the accuracy of the records of DTC, Cede & Co. or any participant with respect to any beneficial ownership interest in the Series 2011 Bonds, (ii) the delivery to any participant, any beneficial owner or any other person, other than DTC, of any notice with respect to the Series 2011 Bonds, including any notice of redemption, or (iii) the payment to any participant, any beneficial owner or any other person, other than DTC, of any amount with respect to the principal or Redemption Price, if any, of or the interest on the Series 2011 Bonds. The Authority and any Fiduciary may treat DTC as, and deem DTC to be, the absolute Owner of each Series 2011 Bond for the purpose of payment of the principal or Redemption Price, if any, of and the interest on each such Series 2011 Bond, for the purpose of giving notices of redemption and other matters with respect to such Series 2011 Bonds, for the purpose of registering transfers with respect to such Series 2011 Bonds and for all other purposes whatsoever. The Paying Agent shall pay all principal or Redemption Price, if any, of and all interest on the Series 2011 Bonds only to or upon the order of DTC, and all such payments shall be valid and effective to satisfy and discharge fully the Authority's obligations with respect to the principal or Redemption Price, if any, of and the interest on the Series 2011 Bonds to the extent of the sum or sums so paid. No person other than DTC shall receive a Series 2011 Bond evidencing the obligation of the Authority to make payments of principal or Redemption Price, if any, of and interest on the Series 2011 Bonds pursuant to this Bond Resolution. Upon delivery by DTC to the Trustee of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede & Co., and subject to the transfer provisions hereof, the term "Cede & Co." in this Bond Resolution shall refer to such new nominee of DTC.

-51-

-52-

3. (a) DTC may determine to discontinue providing its services with respect to the Series 2011 Bonds at any time by giving written notice to the Authority and the Fiduciaries and discharging its responsibilities with respect thereto under applicable law.

(b) The Authority, in its sole discretion and without the consent of any other person, may terminate the services of DTC with respect to the Series 2011 Bonds if the Authority so determines, and shall terminate the services of DTC with respect to the Series 2011 Bonds upon receipt by the Authority and the Fiduciaries of written notice from DTC to the effect that DTC has received written notice from participants having interests, as shown in the records of DTC, in an aggregate principal amount of not less than fifty percent (50%) of the aggregate principal amount of the then Outstanding Series 2011 Bonds and further to the effect that: (i) DTC is unable to discharge its responsibilities with respect to the Series 2011 Bonds; or (ii) a continuation of the requirement that all of the Outstanding Series 2011 Bonds be registered in the registration books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC, is not in the best interests of the beneficial owners of the Series 2011 Bonds.

(c) Upon the termination of the services of DTC with respect to the Series 2011 Bonds pursuant to subsection 2.06(3)(b)(ii) hereof, or upon the discontinuance or termination of the services of DTC with respect to the Series 2011 Bonds pursuant to subsection 2.06(3)(a) or subsection 2.06(3)(b)(i) hereof, after which no substitute securities depository willing to undertake the functions of DTC hereunder can be found that, in the opinion of the Authority, is willing and able to undertake such functions upon reasonable and customary terms, the Series 2011 Bonds shall no longer be restricted to being registered in the registration books of the Authority kept by the Trustee in the name of Cede & Co., as nominee for DTC, but may be registered in whatever name or names Bondholders transferring or exchanging Series 2011 Bonds shall so designate, all in accordance with the provisions of Article II hereof.

4. Notwithstanding any other provision of this Bond Resolution to the contrary, so long as any Series 2011 Bond is registered in the name of Cede & Co., as nominee for DTC, all payments with respect to the principal or Redemption Price, if any, of and the interest on such Series 2011 Bond and all notices with respect thereto shall be made and given, respectively, to DTC as provided in the representation letter of the Authority addressed to DTC with respect to the Series 2011 Bonds.

5. In connection with any notice or other communication to be provided to Bondholders by the Authority or the Trustee pursuant to this Bond Resolution with respect to any consent or other action to be taken by Bondholders, the Authority or the Trustee, as the case may be, shall establish a record date for such consent or other action and shall give DTC notice of such record date not less than fifteen (15) calendar days in advance of such record date, to the extent possible.

### ARTICLE III

#### GENERAL TERMS AND PROVISIONS OF BONDS

##### SECTION 3.01. Medium of Payment; Form and Date; Letters and Numbers.

1. The Bonds shall be payable, with respect to principal, Redemption Price, if any, and interest, in any coin or currency of the United States of America that at the time of payment is legal tender for the payment of public and private debts.

2. The Bonds of each Series shall be issued only in the form of fully registered Bonds without coupons in denominations of \$5,000 or any integral multiple thereof. The Bonds of each Series shall be in substantially the form set forth in Section 14.01 hereof or substantially in the form set forth in a Supplemental Resolution authorizing such Series.

3. Each Bond shall be lettered and numbered as provided in this Bond Resolution or in a Supplemental Resolution providing for the issuance of the Series of which such Bond is a part and so as to be distinguished from every other Bond.

Bonds of each Series issued on the date of original issuance shall be dated and bear interest from the date set forth in this Bond Resolution or in a Supplemental Resolution authorizing such Series of Bonds. Bonds of each Series issued after the date of original issuance shall be dated as of the date of authentication thereof by the Trustee. Interest on each Bond shall be payable from the most recent Interest Payment Date next preceding the date of such Bond to which interest has been paid, unless the date of such Bond is an Interest Payment Date to which interest has been paid, in which case interest shall be payable from such date, or unless the date of such Bond is prior to the first Interest Payment Date on the Bonds, in which case interest shall be payable from the earliest date on which interest shall have accrued on such Series of Bonds, or unless the date of such Bond is between the Record Date and the next succeeding Interest Payment Date, in which case interest shall be payable from such Interest Payment Date.

4. The principal and Redemption Price, if any, of and the interest on each Series of Bonds shall be payable as provided in this Bond Resolution or in a Supplemental Resolution relating to such Series of Bonds.

##### SECTION 3.02. Legends.

The Bonds of each Series may contain or have endorsed thereon such provisions, specifications and descriptive words not inconsistent with the provisions of this Bond Resolution as may be necessary or desirable to comply with custom, the rules of any securities exchange or commission or brokerage board, the Act or otherwise, as may be determined by the Authority prior to the authentication and delivery thereof.

-54-

### SECTION 3.03. Execution and Authentication.

1. The Bonds shall be executed in the name of the Authority by the manual or facsimile signature of the Chairman or other Authorized Officer of the Authority, and its corporate seal (or a facsimile thereof) shall be impressed, imprinted, engraved or otherwise reproduced thereon and attested by the manual or facsimile signature of the Secretary, Assistant Secretary or other Authorized Officer of the Authority, or in such other manner as may be required or permitted by law. In case any one or more of the Authorized Officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been authenticated and delivered by the Trustee, such Bonds may, nevertheless, be authenticated and delivered as herein provided, and may be issued as if the persons who signed or sealed such Bonds had not ceased to hold such offices. Any Bond of a Series may be signed and sealed on behalf of the Authority by such persons who, at the time of the execution of such Bonds, shall be duly authorized or shall hold the proper office in the Authority, although at the date borne by the Bonds of such Series such persons may not have been so authorized or have held such office.

2. The Bonds of each Series shall bear thereon a certificate of authentication, in the form set forth in this Bond Resolution or in a Supplemental Resolution authorizing such Series of Bonds, executed manually by the Trustee. Only such Bonds as shall bear thereon such certificate of authentication shall be entitled to any right or benefit under this Bond Resolution, and no Bond shall be valid or obligatory for any purpose until such certificate of authentication shall have been duly executed by the Trustee. Such certificate of the Trustee upon any Bond executed on behalf of the Authority shall be conclusive evidence that the Bond so authenticated has been duly authenticated and delivered under this Bond Resolution and that the Holder thereof is entitled to the benefits of this Bond Resolution.

### SECTION 3.04. Transfer and Registry.

1. Each Bond shall be transferable only upon the books of the Authority, which shall be kept for that purpose at the Principal Office of the Trustee, by the Holder thereof in person or by his attorney duly authorized in writing upon surrender thereof together with a written instrument of transfer satisfactory to the Trustee duly executed by the Holder or his duly authorized attorney. Upon the transfer of any such Bond, the Authority shall issue in the name of the transferee a new Bond or Bonds of the same aggregate principal amount, Series and maturity as the surrendered Bond.

2. The Authority and each Fiduciary may deem and treat the person in whose name any Bond shall be registered upon the books of the Authority as the absolute Owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal and Redemption Price, if any, of and the interest on such Bond and for all other purposes, and all such payments so made to any such Holder or upon his order shall be

-55-

valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid, and neither the Authority nor any Fiduciary shall be affected by any notice to the contrary.

### SECTION 3.05. Regulations With Respect to Exchanges and Transfers.

In all cases in which the privilege of exchanging Bonds or transferring Bonds is exercised, the Authority shall execute, and the Trustee shall authenticate and deliver, Bonds in accordance with the provisions of this Bond Resolution. All Bonds surrendered in any such exchange or transfer shall forthwith be canceled by the Trustee. For every such exchange or transfer of Bonds, whether temporary or definitive, the Authority or the Trustee may make a charge sufficient to reimburse it for any administrative costs associated with any exchange or transfer and for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer. Neither the Authority nor the Trustee shall be required (a) to transfer or exchange Bonds for a period beginning on the Record Date next preceding an Interest Payment Date for the Bonds and ending on such Interest Payment Date, or for a period of fifteen (15) days (or such lesser period as may be specified in a Supplemental Resolution for a particular Series of Bonds) next preceding the date of any selection of Bonds to be redeemed or thereafter until after the mailing of any notice of redemption, or (b) to transfer or exchange any Bonds called or tendered for redemption.

### SECTION 3.06. Bonds Mutilated, Destroyed, Stolen or Lost.

In case any Bond shall become mutilated or be destroyed, stolen or lost, the Authority shall execute, and thereupon the Trustee shall authenticate and deliver, a new Bond of like Series, maturity and principal amount as the Bond so mutilated, destroyed, stolen or lost (i) in exchange and substitution for such mutilated Bond upon surrender and cancellation of such mutilated Bond or (ii) in lieu of and in substitution for the Bond so destroyed, stolen or lost upon filing with the Trustee evidence satisfactory to the Authority that such Bond has been destroyed, stolen or lost and proof of ownership thereof, and upon furnishing the Authority and the Trustee with indemnity satisfactory to them and complying with such other reasonable regulations as the Authority may prescribe and paying such expenses as the Authority and the Trustee may incur. All mutilated Bonds so surrendered to the Trustee shall be canceled by it. Any such new Bonds issued pursuant to this Section 3.06 in substitution for Bonds alleged to be destroyed, stolen or lost shall constitute original additional contractual obligations on the part of the Authority, whether or not the Bonds so alleged to be destroyed, stolen or lost be at any time enforceable by anyone, and such Bonds shall be equally secured by, and entitled to equal and proportionate benefits with all other Bonds issued under this Bond Resolution in, any moneys or securities held by the Authority or any Fiduciary for the benefit of the Bondholders.

### SECTION 3.07. Temporary Bonds.

1. Until the definitive Bonds of any Series are prepared in the form required by the Authority, the Authority may execute, in the same manner as is provided in Section 3.03 hereof,

-56-

and the Trustee shall authenticate and deliver, in lieu of definitive Bonds but subject to the same provisions, limitations and conditions as the definitive Bonds, one or more temporary Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, and with such omissions, inscriptions and variations as may be appropriate to temporary Bonds. The Authority, at its own expense, shall prepare and execute, and upon the surrender of such temporary Bonds for exchange and the cancellation of such surrendered temporary Bonds, the Trustee shall authenticate and, without charge to the Holder thereof (but at the expense of the Authority), deliver in exchange therefor, definitive Bonds of the same aggregate principal amount, Series and maturity as the temporary Bonds surrendered. Until so exchanged, the temporary Bonds shall in all respects be entitled to the same benefits and security as definitive Bonds authenticated and issued pursuant to this Bond Resolution.

2. All temporary Bonds surrendered in exchange either for another temporary Bond or Bonds or for a definitive Bond or Bonds shall be forthwith canceled by the Trustee.

### SECTION 3.08. Cancellation and Destruction of Bonds.

All Bonds paid or redeemed, either at or before maturity, shall be delivered to the Trustee when such payment or redemption is made, and such Bonds, together with all Bonds purchased by the Trustee, shall thereupon be promptly canceled. Bonds so canceled may at any time be destroyed by the Trustee, which shall execute a certificate of destruction in duplicate by the signature of one of its Authorized Officers describing the Bonds so destroyed, and one executed certificate shall be filed with the Authority and the other executed certificate shall be retained by the Trustee.

### SECTION 3.09. Parties Interested Herein.

Nothing in this Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to, any person or entity, other than the Authority, the Trustee, the Paying Agent and the Registered Owners of the Bonds, any right, remedy or claim under or by reason of this Bond Resolution or any covenant, condition or stipulation hereof, and all covenants, stipulations, promises and agreements in this Bond Resolution contained by and on behalf of the Authority shall be for the sole and exclusive benefit of the Authority, the Trustee, the Paying Agent and the Registered Owners of the Bonds. Accordingly, nothing in this Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to any other Renewable Energy Program Interested Party any right, remedy or claim under or by reason of this Bond Resolution or any covenant, condition or stipulation hereof.

#### SECTION 4.01. Privilege of Redemption and Redemption Price.

Bonds subject to redemption prior to maturity pursuant to this Bond Resolution shall be redeemable, upon notice as provided in this Article IV, at such times, at such Redemption Prices and upon such terms in addition to the terms contained in this Article IV as may be specified in this Bond Resolution, the Certificate of an Authorized Officer of the Authority referred to in Section 2.02(1)(c) hereof or any Supplemental Resolution authorizing such Series of Bonds.

#### SECTION 4.02. Optional Redemption.

1. The Series 2011 Bonds shall be subject to optional redemption in accordance with the provisions of this Bond Resolution, including, without limitation, Section 2.03(5) hereof, and any other Series of Bonds may be subject to optional redemption in accordance with the terms of a Supplemental Resolution and this Article IV.

2. In the case of any redemption of Bonds at the election of the Authority, the Authority shall give written notice to the Trustee of its election or direction to so redeem, of the redemption date and of the principal amounts of the Bonds of each maturity to be redeemed (which maturities and principal amounts thereof to be redeemed shall be determined by the Authority in its sole discretion, subject to any limitations with respect thereto contained in this Bond Resolution).

3. (a) In the case of any redemption of Bonds at the election of the Authority at the direction of the Company pursuant to the terms of the Company Lease Agreement (including without limitation the payment by the Company of the Purchase Option Price as an Additional Lease Payment thereunder), the Company shall give written notice to the Authority of its direction to so redeem, of the redemption date and of the principal amounts of the Bonds of each maturity to be redeemed (which maturities and principal amounts thereof to be redeemed shall be determined by the Company in its sole discretion, subject to any limitations with respect thereto contained in this Bond Resolution).

(b) In the case of any redemption of Series 2011B Note or any Additional Bonds at the election of the Authority at the direction of the County pursuant to the terms of the County Guaranty, the County shall give written notice to the Authority, with a copy to the Trustee, of the County's direction to so redeem, of the redemption date and of the principal amounts of such Bonds of each maturity to be redeemed (which maturities and principal amounts thereof to be redeemed shall be determined by the County in its sole discretion, subject to any limitations with respect thereto contained in this Bond Resolution and the County Guaranty Agreement).

-58-

4. Such notice required under subsection (2) or (3)(a) of this Section 4.02 shall be given at least forty-five (45) days prior to the redemption date or such shorter period as shall be agreed to in writing by the Trustee or the Authority, as the case may be. In the event notice of redemption shall have been given as provided in Section 4.05 hereof, the Authority shall pay or require the Company to pay (in accordance with the terms of the Company Lease Agreement) to the Trustee on or prior to the redemption date an amount in cash that, in addition to other moneys, if any, available therefor held by the Trustee, will be sufficient to redeem on the redemption date at the Redemption Price thereof, plus interest accrued and unpaid to the redemption date, all of the Bonds to be redeemed.

#### SECTION 4.03. Redemption by Trustee.

Whenever, by the terms of this Bond Resolution, the Trustee is required to redeem Bonds otherwise than at the election or direction of the Authority or the Company or the County, the Trustee shall select the Bonds to be redeemed, give the notice of redemption as provided in Section 4.05 hereof and pay the Redemption Price thereof out of moneys available therefor, plus interest accrued and unpaid to the redemption date, to the Paying Agent in accordance with the terms of this Article IV and, to the extent applicable, Article V hereof.

#### SECTION 4.04. Selection of Bonds to be Redeemed.

1. If less than all of the Bonds of like maturity shall be called for redemption, the particular Bonds or portions of Bonds to be redeemed shall be selected at random by the Trustee in such manner as the Trustee in its discretion may deem fair and appropriate; provided, however, that the portion of any Bond of a denomination of more than \$5,000 to be redeemed shall be in the principal amount of \$5,000 or any integral multiple thereof, and that, in selecting Bonds for redemption, the Trustee shall treat each Bond as representing that number of Bonds that is obtained by dividing the principal amount of such Bond by the minimum denomination in which Bonds of such Series are authorized to be Outstanding after the redemption date.

2. If less than all of the Outstanding Bonds that are stated to mature on different dates are called for redemption at one time on any given redemption date occasioned by the payment of the Purchase Option Price by the Company in accordance with the terms of the Company Lease Agreement, an Authorized Officer of the Company shall designate, by maturity, those Bonds that are to be redeemed on any such redemption date by delivering to the Trustee not earlier than sixty (60) days and not later than forty-five (45) days prior to any such redemption date a Certificate detailing such maturities and the amounts to be redeemed within each such maturity. If the Trustee has not received the Company's Certificate by such forty-fifth (45th) day, or if the redemption is occurring other than by payment of the Purchase Option Price by the Company in accordance with the terms of the Company Lease Agreement, the Trustee shall select the Bonds to be redeemed in the same manner as those Bonds selected in accordance with Section 4.04(1) hereof.

2. With respect to any Bonds to be redeemed that have not been presented for redemption within sixty (60) days after the redemption date, the Trustee, at the expense of the Company for any redemption occasioned by the payment of the Purchase Option Price by the Company in accordance with the terms of the Company Lease Agreement, and at the expense of the Authority, if otherwise, shall give a second notice of redemption by registered mail to the Registered Owners of any such Bonds not presented for redemption.

#### SECTION 4.07. Redemption of Portions of Bonds.

In case part but not all of an Outstanding Bond shall be selected for redemption, upon presentation and surrender of such Bond to the Paying Agent on or after the redemption date for payment of the principal amount thereof so called for redemption and accrued interest thereon, the Authority shall execute and the Trustee shall authenticate and deliver to or upon the order of the Registered Owner thereof or his attorney or legal representative, without charge therefor, a new Bond or Bonds of the same Series, bearing interest at the same rate and in any denomination or denominations authorized by this Bond Resolution in the aggregate principal amount equal to the unredeemed portion of such Bond.

#### SECTION 4.05. Notice of Redemption.

When Bonds of a Series (other than the redemption of the Series 2011B Note pursuant to the provisions of Section 4.02(3)(b) hereof, the redemption terms and notice for which shall be as set forth in the County Guaranty Agreement) have been selected for redemption pursuant to any provision of this Bond Resolution, the Trustee shall give written notice of the redemption of such Bonds in the name of the Authority at the times specified in the second paragraph of this Section 4.05, which notice shall set forth: (i) the Series of Bonds to be redeemed, (ii) the date fixed for redemption, (iii) the Redemption Price to be paid, (iv) that such Bonds will be redeemed at the Principal Office of the Paying Agent, (v) if less than all of such Bonds shall be called for redemption, the distinctive numbers and letters, if any, of such Bonds to be redeemed, and (vi) in the case of Bonds to be redeemed in part only, the portion of the principal amount thereof to be redeemed. Such notice shall further state that on the redemption date there shall become due and payable the Redemption Price of all Bonds to be redeemed, together with interest accrued to the redemption date, and that, from and after such date, interest thereon shall cease to accrue and be payable. In case any Bond is to be redeemed in part only, the notice of redemption that relates to such Bond shall also state that on or after the redemption date, upon surrender of such Bond, the Holder thereof shall be entitled to a new Bond or Bonds of the same Series bearing interest at the same rate and in the aggregate principal amount equal to the unredeemed portion of such Bond.

The notice required to be given by the Trustee pursuant to this Section 4.05 shall be sent by first-class mail to the Registered Owners of the Bonds to be redeemed, at their addresses as they appear on the registration books of the Authority, not less than thirty (30) days nor more than forty-five (45) days prior to the redemption date. The failure to give notice of the redemption of any Bond or portion thereof to the Registered Owner of such Bond as herein provided or as provided in Section 4.06(2) hereof shall not affect the validity of the proceedings for the redemption of any Bonds for which notice of redemption has been given in accordance with the provisions of this Section 4.05.

#### SECTION 4.06. Payment of Redeemed Bonds.

1. On the date designated for redemption, notice having been given in the manner and under the conditions hereinabove provided, the Bonds or the portions thereof called for redemption shall become and be due and payable at the Redemption Price provided for redemption of such Bonds or such portions thereof on such date. hereunder; provided, however, that such direction shall not be otherwise than in accordance with the provisions of law and of this Bond Resolution.

#### SECTION 9.04. Application of Moneys.

All moneys received by the Trustee pursuant to any right or remedy given or action taken under the provisions of this Article IX upon any acceleration of the due date for the payment of the principal of and the interest on the Bonds in default (including, without limitation, moneys received by virtue of action taken under provisions of the Company Lease Agreement, after payment of the costs and expenses of the proceedings resulting in the collection of such moneys and of the expenses, liabilities and advances incurred or made by the Trustee and any other moneys owed to the Trustee in connection with such Bonds hereunder) shall be applied, first, to the payment of the principal and the interest then due and unpaid upon the Bonds in default, without preference or priority of principal over interest or of interest over principal, or of any installment of interest over any other installment of interest, or of any Bond over any other Bond, ratably, according to the amounts due respectively for principal and interest, to the persons entitled thereto, without any discrimination or privilege.

Whenever moneys are to be applied pursuant to the provisions of this Section 9.04, such moneys shall be applied at such times, and from time to time, as the Trustee shall determine, having due regard for the amount of such moneys available for application in the future. Whenever the Trustee shall apply such funds, it shall fix the date (which shall be an Interest Payment Date, unless the Trustee shall deem another date more suitable) upon which such application is to be made, and upon such date interest on the amounts of principal to be paid on such date shall cease to accrue. The Trustee shall give such notice as it may deem appropriate of the deposit with it of any such moneys and of the fixing of any such date, and shall not be required to make payment to the Holder of any Bond in default until such obligation shall be presented to the Trustee for appropriate endorsement or for cancellation, as the case may be.

#### SECTION 9.05. Remedies Vested in Trustee.

All rights of action (including, without limitation, the right to file proofs of claims) under this Bond Resolution or under any of the Bonds in default may be enforced by the Trustee without possession of any of the Bonds or the production thereof in any trial or other proceeding related thereto, and any such suit or proceeding instituted by the Trustee shall be brought in its name as Trustee for the equal and ratable benefit of the Holders of all the Outstanding Bonds without the necessity of joining as plaintiffs or defendants any Holders of such Bonds.

#### SECTION 9.06. Rights and Remedies of Holders of Bonds.

No Holder of Bonds then Outstanding in default shall have any right to institute any suit, action or proceeding at law or in equity for the enforcement of this Bond Resolution or for the execution of any trust hereof or for the appointment of a receiver or any other remedy hereunder, unless (a) an Event of Default shall have occurred, (b) the Holders of not less than 25% in

(b) The Trustee by action or suit in equity may require the Authority to account as if it were the trustee of an express trust for the Holders of Bonds, and may take such action with respect to the Company Lease Agreement as the Trustee deems necessary or appropriate and in the best interests of the Holders of Bonds, subject to the terms of the Company Lease Agreement; and

(c) Upon the filing of a suit or other commencement of judicial proceedings to enforce any rights of the Trustee and of the Holders of Bonds under this Bond Resolution, the Trustee will be entitled as a matter of right to the appointment of a receiver or receivers of the Trust Estate and the issues, earnings, income, products and profits thereof, pending such proceedings, with such powers as the court making such appointment shall confer.

If an Event of Default shall have occurred with respect to any Bonds, and if requested so to do by the Holders of a majority in aggregate principal amount of the Bonds then Outstanding, and upon being indemnified to its reasonable satisfaction therefor, the Trustee shall be obligated to exercise such one or more of the rights, remedies and powers conferred by this Section 9.02 as directed by such Holders of Bonds.

No right or remedy by the terms of this Bond Resolution conferred upon or reserved to the Trustee (or to the Holders of Bonds) is intended to be exclusive of any other right or remedy, but each and every such right or remedy shall be cumulative and shall be in addition to any other right or remedy given to the Trustee or to such Holders hereunder or now or hereafter existing at law or in equity or by statute other than pursuant to the Act. The assertion or employment of any right or remedy shall not prevent the concurrent or subsequent assertion or employment of any other right or remedy.

No delay or omission to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or shall be construed to be a waiver of any such Event of Default or acquiescence therein, and every such right or remedy may be exercised from time to time and as often as may be deemed expedient.

No waiver of any Event of Default hereunder, whether by the Trustee or by the Holders of any Bonds in default, shall extend to or shall affect any subsequent Event of Default or shall impair any rights or remedies consequent thereon.

#### SECTION 9.03. Right of Holders of Bonds to Direct Proceedings.

Anything in this Bond Resolution to the contrary notwithstanding, the Holders of a majority in aggregate principal amount of Bonds in default then Outstanding shall have the right at any time during the continuance of an Event of Default of such Bonds, by an instrument or instruments in writing executed and delivered to the Trustee, to direct the time, method and place of conducting all proceedings to be taken in connection with the enforcement of the terms and conditions of this Bond Resolution or for the appointment of a receiver or any other proceedings

It is understood and intended that no one or more Holders of Bonds shall have any right in any manner whatsoever to affect, disturb or prejudice the lien of this Bond Resolution by his or their action or to enforce any right hereunder except in the manner herein provided, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner herein provided and for the equal and ratable benefit of the Holders of all Bonds then Outstanding; provided, however, that nothing contained in this Bond Resolution shall affect or impair the right of the Holder of any Bond to enforce the payment of the principal or Redemption Price of and the interest on such Bond at and after the maturity thereof, or the obligation of the Authority to pay the principal or Redemption Price of and the interest on each of the Bonds issued hereunder to the respective Holders thereof, at the time and place, from the source and in the manner expressed in the Bonds and in this Bond Resolution and the Applicable Supplemental Resolution.

#### SECTION 9.07. Termination of Proceedings.

In case the Trustee or a Holder of a Bond in default shall have proceeded to enforce any right under this Bond Resolution by the appointment of a receiver or otherwise, and such proceedings shall have been discontinued or abandoned for any reason or shall have been determined adversely to the Trustee or such Holder, then and in every such case the Authority, the Trustee and the Holders of Bonds shall be restored to their former positions and rights hereunder, respectively, and all rights, remedies and powers of the Trustee and the Holders shall continue as if no such proceedings had been taken.

#### SECTION 9.08. Waivers of Events of Default.

The Trustee may, and upon the written request of the Holders of 50% in aggregate principal amount of all Bonds in default then Outstanding shall, waive any Event of Default that shall have been remedied before the completion of the enforcement of any remedy under this Bond Resolution; but no such waiver shall extend to any subsequent or other Event of Default or impair any rights consequent thereon.

THE FIDUCIARIES

**SECTION 9.09. Notice of Certain Defaults; Opportunity of Authority to Cure Defaults.**

Anything herein to the contrary notwithstanding, no Default under Section 9.01(c) hereof shall constitute an Event of Default until actual notice of such Default shall be given to the Authority, by registered or certified mail, by the Trustee or the Holders of not less than 25% in aggregate principal amount of all Bonds then Outstanding, and the Authority shall not have corrected the Default or caused the Default to be corrected within thirty (30) days following the giving of such notice; provided, however, that if the Default be such that it is correctable but cannot be so corrected within the applicable period, it shall not constitute an Event of Default if corrective action is instituted by the Authority within the applicable period and diligently pursued until the Default is corrected.

The Authority hereby grants to the Trustee full authority for the account of the Authority (but the Trustee shall have no obligation) to observe or perform any duty, covenant, obligation or agreement in any alleged Default concerning which notice is given to the Authority under the provisions of this Section 9.09 in the name and stead of the Authority, with full power to do any and all things and acts to the same extent that the Authority could do and to perform any such things and acts and with full power of substitution.

-91-

Fiduciary shall incur any liability in respect thereof. The Trustee shall, however, be responsible for its representation contained in its certificate on the Bonds. No Fiduciary shall be under any responsibility or duty with respect to the application of any moneys paid to the Authority or to any other Fiduciary. No Fiduciary shall be under any obligation or duty to perform any act that would involve it in expense or liability or to institute or defend any suit in respect thereof or to advance any of its own moneys, unless properly indemnified by the Authority or the Local Unit. Subject to the provisions of subsection (2) of this Section 10.03, no Fiduciary shall be liable in connection with the observance and performance of its duties and obligations hereunder except for its own negligence or willful misconduct.

2. The Trustee, prior to the occurrence of an Event of Default and after the curing of all Events of Default that may have occurred, undertakes to perform such duties and obligations and only such duties and obligations as are specifically set forth in this Bond Resolution. In case an Event of Default has occurred (which has not been cured), the Trustee shall exercise such of the rights and powers invested in it by this Bond Resolution, and use the same degree of care and skill in its exercise, as a prudent man would exercise or use under the circumstances in the conduct of his own affairs. Any provision of this Bond Resolution relating to action taken or to be taken by the Trustee or to evidence upon which the Trustee may conclusively rely shall be subject to the provisions of this Section 10.03.

**SECTION 10.04. Evidence Upon Which Fiduciaries May Act.**

1. Each Fiduciary, upon receipt of any written notice, Supplemental Resolution, written request, consent, order, certificate, report, opinion, bond or other paper or document furnished to it pursuant to any provision of this Bond Resolution, shall examine such instrument to determine whether it conforms to the requirements of this Bond Resolution and shall be protected in acting upon any such instrument believed by it to be genuine and to have been signed or presented by the proper party or parties. Each Fiduciary may consult with Counsel, who may or may not be counsel to the Authority, and the opinion of such Counsel shall be full and complete authorization and protection in respect of any action taken or suffered by any Fiduciary under this Bond Resolution in good faith and in accordance therewith.

2. Whenever any Fiduciary shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action under this Bond Resolution, such matter (unless other evidence in respect thereof be therein specifically prescribed) may be deemed to be conclusively proved and established by a Certificate of an Authorized Officer of the Authority, and such Certificate shall be full warrant for any action taken or suffered in good faith under the provisions of this Bond Resolution upon the faith thereof.

3. Except as otherwise expressly provided in this Bond Resolution, any request, order, notice or other direction required or permitted to be furnished pursuant to any provision hereof by the Authority to any Fiduciary shall be sufficiently executed in the name of the Authority by an Authorized Officer of the Authority.

The Trustee shall signify its acceptance of the duties and obligations imposed upon it by this Bond Resolution, the Company Lease Agreement, the County Guaranty Agreement, and all other Program Documents by executing and delivering to the Authority a written acceptance thereof, and, by executing such acceptance, the Trustee shall be deemed to have accepted such duties and obligations with respect to all the Bonds hereafter to be validly issued, but only, however, upon the terms and conditions set forth in this Bond Resolution and in such other Program Documents.

**SECTION 10.02. Paying Agents; Appointments.**

2. Each Paying Agent shall signify its acceptance of the duties and obligations imposed upon it by this Bond Resolution by executing and delivering to the Authority and to the Trustee a written acceptance thereof.

Subject to the provisions of Section 10.03 hereof, each of the Authority and the Company further agrees to indemnify and save each Fiduciary harmless against any losses, liabilities or expenses (including legal fees) that it may incur in the exercise and performance of its powers, duties and obligations hereunder that are not due to its negligence or willful misconduct, and such indemnity shall survive the payment of the Bonds and the discharge of this Bond Resolution and the resignation or removal of the Trustee.

**SECTION 10.06. Certain Permitted Acts.**

Any Fiduciary may become the Holder of any Bonds with the same rights that it would have if it were not a Fiduciary. To the extent permitted by law, any Fiduciary may act as depository for and permit any of its officers or directors to act as a member of, or in any other capacity with respect to, any committee formed to protect the rights of Bondholders or to effect or aid in any reorganization growing out of the enforcement of the Bonds or this Bond Resolution, whether or not any such committee shall represent the Holders of a majority in aggregate principal amount of the Bonds then Outstanding.

**SECTION 10.07. Resignation of Trustee.**

The Trustee may at any time resign and be discharged of the duties and obligations created by this Bond Resolution by giving not less than sixty (60) days' written notice to the Authority, and mailing notice thereof to the Holders of the Bonds then Outstanding, specifying the date when such resignation shall take effect, and such resignation shall take effect upon the day specified in such notice unless previously a successor shall have been appointed by the Authority or the Bondholders as provided in Section 10.09 hereof. 2. If in a proper case no appointment of a successor Trustee shall be made pursuant to the foregoing provisions of this Section 10.09 within forty-five (45) days after the Trustee shall have given to the Authority written notice as provided in Section 10.07 hereof or after a vacancy in the office of the Trustee shall have occurred by reason of its inability to act, the Trustee or the Holder of any Bond may apply to any court of competent jurisdiction to appoint a successor Trustee. Said court may thereupon, after such notice, if any, as such court may deem proper, appoint a successor Trustee.

3. #### SECTION 10.10. Transfer of Rights and Property to Successor Trustee.

Any successor Trustee appointed under this Bond Resolution shall execute, acknowledge and deliver to its predecessor Trustee and to the Authority an instrument accepting such appointment, and thereupon such successor Trustee, without any further act, deed or conveyance, shall become fully vested with all of the moneys, estates, properties, rights, powers, duties and obligations of such predecessor Trustee, with like effect as if originally named as Trustee hereunder, but the Trustee ceasing to act shall nevertheless, on the written request of the Authority or the successor Trustee, execute, acknowledge and deliver such instrument of conveyance and further assurance and do such other things as may reasonably be required for more fully and certainly vesting in and confirming to such successor Trustee all of the right, title and interest of the predecessor Trustee in and to any property held by it under this Bond Resolution, and such predecessor Trustee shall pay over, assign and deliver to the successor Trustee any money or other property subject to the trusts and conditions herein set forth. Should any deed, conveyance or instrument in writing from the Authority be required by such successor Trustee for more fully and certainly vesting in and confirming to such successor Trustee any such estates, rights, powers and duties, any and all such deeds, conveyances and instruments in writing shall, on request and so far as may be authorized by law, be executed, acknowledged and delivered by the Authority. Any such successor Trustee shall promptly notify the Paying Agent of its appointment as Trustee.

#### SECTION 10.11. Merger or Consolidation.

Any company into which any Fiduciary may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which any Fiduciary may sell or transfer all or substantially all of its corporate trust business, provided such company (i) shall be a bank or trust company organized under the laws of any state of the United States of America or a national banking association and (ii) shall be authorized by law to perform all of the duties imposed upon it by this Bond Resolution, shall be the successor to such Fiduciary without the execution or filing of any paper or the performance of any further act.

#### SECTION 10.12. Adoption of Authentication.

In case any of the Bonds contemplated to be issued under this Bond Resolution shall have been authenticated but not delivered, any successor Trustee may adopt the certificate of authentication of any predecessor Trustee so authenticating such Bonds and deliver such Bonds so authenticated; and in case any of the said Bonds shall not have been authenticated, any successor Trustee may authenticate such Bonds in the name of the predecessor Trustee or in the name of the successor Trustee, and in all such cases such certificate of authentication shall have the same force and effect that it is anywhere in said Bonds or in this Bond Resolution.

#### SECTION 10.13. Resignation or Removal of Paying Agent; Appointment of Successor.

1. Any Paying Agent may at any time resign and be discharged of the duties and obligations created by this Bond Resolution by giving at least sixty (60) days' written notice to the Authority, the Trustee and the other Paying Agents. In the event that for any reason there shall be a vacancy in the office of any Paying Agent, the Trustee shall act as such Paying Agent.

#### SECTION 11.04. General Provisions.

1. This Bond Resolution shall not be modified or amended in any respect except by a Supplemental Resolution as provided in, in accordance with and subject to the provisions of this Article XI. Nothing contained in this Article XI shall affect or limit the right or obligation of the Authority to adopt, make, do, execute, acknowledge or deliver any resolution, act or other instrument pursuant to the provisions of this Bond Resolution or the right or obligation of the Authority to execute and deliver to any Trustee any instrument that it is elsewhere provided in this Bond Resolution shall be delivered to said Trustee.

2. Any Supplemental Resolution referred to in and permitted or authorized by Section 11.01 or 11.02 hereof may be adopted by the Authority without the consent of any Bondholder, but shall become effective only on the conditions, to the extent and at the times provided in Section 11.01 or 11.02, respectively. Every Supplemental Resolution filed with the Trustee shall be accompanied by an opinion of Counsel stating that such Supplemental Resolution has been duly and lawfully adopted by the Authority in accordance with the terms and provisions of this Bond Resolution, is authorized or permitted by this Bond Resolution, and is valid and binding upon the Authority in accordance with its terms.

4. No Supplemental Resolution shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto.

-100-

#### SECTION 11.05. Mailing.

Unless otherwise permitted under Section 11.01 or 11.02 hereof, any modification or amendment of this Bond Resolution and of the rights and obligations of the Authority and the Holders of Bonds hereunder, in any particular, may be made only by a Supplemental Resolution with the written consent (i) of the Holders of not less than two-thirds (2/3) in aggregate principal amount of the Bonds Outstanding at the time such consent is given, (ii) in case less than all of the several Series of Bonds then Outstanding are affected by the modification or amendment, of the Holders of not less than two-thirds (2/3) in aggregate principal amount of the Bonds of each Series so affected and Outstanding at the time such consent is given, and (iii) in case the modification or amendment changes the terms of any Sinking Fund Installment, of the Holders of not less than two-thirds (2/3) in aggregate principal amount of the Bonds of the particular Series and maturity entitled to such Sinking Fund Installment and Outstanding at the time such consent is given; provided, however, that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any specified like Series and maturity remain Outstanding, the consent of the Holders of such Bonds shall not be required, and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under this Section 11.06. For the purposes of this Section 11.06, a Series shall be deemed to be affected by a modification or amendment of this Bond Resolution if the same adversely affects or diminishes the rights of the Holders of Bonds of such Series. The Trustee may, in its discretion, determine whether or not, in accordance with the foregoing powers of amendment, Bonds of any particular Series or maturity would be affected by any modification or amendment of this Bond Resolution, and any such determination shall be binding and conclusive upon the Authority and all Holders of Bonds. A copy of such Supplemental Resolution (or brief summary thereof or reference thereto in form approved by the Trustee), together with a request to Holders of Bonds for their consent thereto in form satisfactory to the Trustee, shall be mailed by the Authority to Holders of Bonds (but failure to mail such copy and request shall not affect the validity of the Supplemental Resolution when consented to as in this Section 11.07 provided). Such Supplemental Resolution shall not be effective unless and until there shall have been filed with the Trustee (a) the written consent of the Holders of the percentages of Outstanding Bonds specified in Section 11.06 hereof and (b) an opinion of Counsel stating that such Supplemental Resolution has been duly and lawfully adopted and filed by the Authority in accordance with the terms and provisions of this Bond Resolution, is authorized or permitted by this Bond Resolution, and is valid and binding upon the Authority in accordance with its terms. It shall not be necessary that the consents of the Holders of Bonds approve the particular form of wording of the proposed modification or amendment or of the proposed Supplemental Resolution effecting such modification or amendment, but it shall be sufficient if such consents approve the substance of the proposed amendment or modification. Each such consent shall be effective only if accompanied by proof of the holding, at the date of such consent, of the Bonds with respect to which such consent is given, which proof shall be such as is permitted by Section 12.02 hereof. A certificate or certificates executed by the Trustee and filed with the Authority stating that the Trustee has examined such proof and that such proof is sufficient in accordance with Section 12.02 hereof shall be conclusive evidence that the consents have been given by the Holders of the Bonds described in such certificate or certificates. Any such consent shall be binding upon the Holder of the Bonds giving such consent and, anything in Section 12.02 hereof to the contrary notwithstanding, upon any subsequent Holder of such Bonds and of any Bonds issued in exchange therefor (whether or not such subsequent Holder has notice thereof), unless such consent is revoked in writing by the Holder of such Bonds giving such consent or by a subsequent Holder thereof by filing with the Trustee, prior to the time when the written statement of the Trustee is filed (as hereinafter provided for in this Section 11.07), such revocation and proof that such Bonds are held by the signer of such revocation in the manner permitted by Section 12.02 hereof. The fact that a consent has not been revoked may likewise be proved by a certificate of the Trustee filed with the Authority to the effect that no revocation thereof is on file with the Trustee.

At any time after the Holders of the required percentages of Bonds shall have filed their consents to the Supplemental Resolution as hereinabove provided, the Trustee shall make and file with the Authority a written statement that the Holders of such required percentages of such Bonds have filed such consents. Such written statements shall be conclusive that such consents have been so filed. At any time thereafter, notice stating in substance that the Supplemental Resolution (which may be referred to as a Supplemental Resolution adopted by the Authority on a stated date, a copy of which is on file with the Trustee) has been consented to by the Holders of the required percentages of Bonds and will become effective as provided in this Section 11.07 may be given to Bondholders by the Authority by mailing such notice to Bondholders (but failure to mail such notice shall not prevent such Supplemental Resolution from becoming effective and binding as in this Section 11.07 provided). The Authority shall file with the Trustee proof of the mailing thereof. A record, consisting of the certificates or statements

-102-

required or permitted by this Section 11.07 to be made by the Trustee, shall be proof of the matters therein stated. Such Supplemental Resolution making such amendment or modification shall be deemed conclusively binding upon the Authority, the Fiduciaries and the Holders of all Bonds at the expiration of forty (40) days after the filing with the Trustee of proof of the mailings of such last-mentioned notice, except in the event of a final decree of a court of competent jurisdiction setting aside such Supplemental Resolution in a legal action or equitable proceeding for such purpose commenced within such forty (40) day period; provided, however, that the Authority and any Fiduciary during such forty (40) day period and any such further period during which any such action or proceeding may be pending shall be entitled in its absolute discretion to take such action, or to refrain from taking such action, with respect to such Supplemental Resolution as it may deem expedient.

#### SECTION 11.08. Modifications or Amendments by Unanimous Consent.

The terms and provisions of this Bond Resolution and the rights and obligations of the Authority and of the Holders of Bonds hereunder may be modified or amended in any respect upon the adoption and filing by the Authority of a Supplemental Resolution and the consent of the Holders of all Bonds then Outstanding, such consent to be given as provided in Section 11.07 hereof, except that no notice to Holders of Bonds either by mail or publication shall be required; provided, however, that no such modification or amendment shall change or modify any of the rights or obligations of any Fiduciary without the filing with the Trustee of the written assent thereto of such Fiduciary in addition to the consent of the Holders of Bonds.

#### SECTION 11.09. Exclusion of Bonds.

Bonds owned or held by or for the account of the Authority shall not be deemed Outstanding for the purpose of consent or other action or for any calculation of Outstanding Bonds provided for in this Article XI, and the Authority shall not be entitled with respect to such Bonds to give any consent or to take any other action provided for in this Article XI. At the time of any consent or other action taken under this Article XI, the Authority shall furnish the Trustee a Certificate of an Authorized Officer of the Authority, upon which the Trustee may conclusively rely, describing all Bonds to be so excluded.

#### SECTION 11.10. Notation on Bonds.

Bonds authenticated and delivered after the effective date of any Supplemental Resolution adopted pursuant to this Article XI may, and, if the Authority so determines, shall, bear a notation by endorsement or otherwise in form approved by the Authority as to any modification or amendment provided for in such Supplemental Resolution, and, in that case, upon demand of the Holder of any Bond then Outstanding and upon presentation of any Bond for such purpose at the Principal Office of the Trustee, a suitable notation shall be made on such Bond. If the Authority shall so determine, new Bonds so modified as to conform, in the opinion of the Authority, to any modification or amendment contained in such Supplemental Resolution shall be prepared, authenticated and delivered and, upon demand of the Holder of any Bond then

Outstanding, shall be exchanged upon surrender of such Bonds, without cost to such Holder, for Bonds of the same Series, principal amount, maturity and interest rate then Outstanding. Any action taken as provided in Article X hereof or in this Article XI shall be effective and binding upon all Holders of Bonds notwithstanding that the notation is not endorsed on all Bonds.

#### SECTION 11.11. Effect of Supplemental Resolutions.

Upon the effective date of any Supplemental Resolution, this Bond Resolution shall be deemed to be modified and amended in accordance therewith, and the respective rights, duties, covenants, obligations and agreements under this Bond Resolution of the Authority, the Trustee and all Holders of Bonds then Outstanding shall thereafter be determined, exercised and enforced hereunder subject in all respects to such modification and amendment, and all of the terms and conditions of any such Supplemental Resolution shall be deemed to be part of the terms and conditions of this Bond Resolution for any and all purposes.

#### SECTION 11.12. Notice of Amendments.

Promptly after the adoption by the Authority of any Supplemental Resolution, the Trustee shall mail a notice, setting forth in general terms the substance of such amendment or modification, to the Holders of any Series of Bonds so affected thereby, and to the other Renewable Energy Program Interested Parties. However, any failure to give such notice, or any defect therein, shall not in any way impair or affect the validity of any such Supplemental Resolution.

## ARTICLE XII

### DEFEASANCE

#### SECTION 12.01. Defeasance of Bonds.

1. If the Authority shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of all Bonds of any Series the principal or Redemption Price, if applicable, thereof and the interest due or to become due thereon at the times and in the manner stipulated therein and in this Bond Resolution, then the pledge of the Trust Estate and all duties, covenants, agreements and other obligations of the Authority to the Holders of such Bonds shall thereupon cease, terminate and become void and be discharged and satisfied. In such event, the Trustee shall cause an accounting for such period or periods as shall be requested by the Authority to be prepared and filed with the Authority, and, upon the request of the Authority, shall execute and deliver to the Authority all such instruments as may be desirable to evidence such discharge and satisfaction, and the Trustee shall pay over or deliver to the Authority, or, to the extent provided for in Section 5.07 the County Security Fund to the Company, all moneys or securities held by it pursuant to this Bond Resolution that are not required for the payment of the principal or Redemption Price, if applicable, of and the interest due or to become due on the Bonds of any Series not theretofore surrendered for such payment or redemption. If the Authority shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of any Outstanding Bonds of any Series the principal or Redemption Price, if applicable, thereof and the interest due or to become due thereon at the times and in the manner stipulated therein and in this Bond Resolution, such Bonds shall cease to be entitled to any lien, benefit or security under this Bond Resolution, and all duties, covenants, agreements and other obligations of the Authority to the Holders of such Bonds shall thereupon cease, terminate and become void and be discharged and satisfied. Notwithstanding any other provision in this Article XII, all duties, covenants, agreements and other obligations of the Authority to the Holders of Bonds relating to the exclusion of interest from gross income of the Holders thereof for federal income tax purposes shall survive the defeasance of the Bonds.

2. Bonds or interest installments for the payment or redemption of which moneys shall have been set aside and held in trust by the Paying Agent (through deposit by the Authority of funds for such payment or redemption or otherwise) at the maturity or redemption date thereof shall be deemed to have been paid within the meaning and with the effect expressed in subsection (1) of this Section 12.01. Subject to the provisions of subsections (3), (4) and (5) of this Section 12.01, Outstanding Bonds of any Series or Outstanding Bonds of any maturity within any Series shall, prior to the maturity or redemption date thereof, be deemed to have been paid within the meaning and with the effect expressed in subsection (1) of this Section 12.01 if (a) in case any of said Bonds are to be redeemed on any date prior to their maturity, the Authority shall have given to the Trustee instructions in writing accepted by the Trustee to mail notice of redemption of such Bonds (other than Bonds of a Series that have been purchased by the Trustee at the written direction of the Authority or purchased or otherwise acquired by the Authority and delivered to the Trustee as hereinafter provided prior to the mailing of such notice

of redemption) on said date, (b) there shall have been deposited with the Trustee either moneys in an amount that shall be sufficient or Investment Securities (including any Investment Securities issued or held in book-entry form on the books of the Department of the Treasury of the United States of America) the principal of and the interest on which, when due, will provide moneys that, together with the moneys, if any, deposited with the Trustee at the same time, shall be sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest due and to become due on such Series of Bonds on or prior to the redemption date or maturity date thereof, as the case may be, and (c) in the event such Series of Bonds are not by their terms subject to redemption within the next succeeding sixty (60) days, the Authority shall have given the Trustee, in form satisfactory to it, instructions to mail, as soon as practicable, a notice to the Holders of such Bonds at their last addresses appearing upon the registry books at the close of business on the last Business Day of the month preceding the month for which notice is mailed that the deposit required by clause (b) above has been made with the Trustee and that such Series of Bonds are deemed to have been paid in accordance with this Section 12.01 and stating such maturity or redemption date upon which moneys are expected, subject to the provisions of subsection (5) of this Section 12.01, to be available for the payment of the principal or Redemption Price, if applicable, of and the interest due and to become due on such Series of Bonds (other than Bonds that have been purchased by the Trustee at the written direction of the Authority or purchased or otherwise acquired by the Authority and delivered to the Trustee as hereinafter provided prior to the mailing of the notice of redemption referred to in clause (a) hereof). Any notice of redemption mailed pursuant to the preceding sentence with respect to any Series of Bonds, which notice relates to a redemption contemplating less than all of the Outstanding Bonds of any maturity within a Series being redeemed, shall specify the letter and number or other distinguishing mark of each such Bond to be so redeemed. The Trustee shall, as and to the extent necessary, apply moneys held by it pursuant to this Section 12.01 to the retirement of said Bonds in amounts equal to the unsatisfied balances of any Sinking Fund Installments with respect to such Bonds, all in the manner provided in this Bond Resolution.

The Trustee shall, if so directed in writing by the Authority (i) prior to the maturity date of Bonds deemed to have been paid in accordance with this Section 12.01 that are not to be redeemed prior to their maturity or (ii) prior to the mailing of the notice of redemption referred to in clause (a) above with respect to any Bonds deemed to have been paid in accordance with this Section 12.01 that are to be redeemed on any date prior to their maturity, apply moneys deposited with the Trustee with respect to such Bonds and redeem or sell Investment Securities so deposited with the Trustee and apply the proceeds thereof to the purchase of such Bonds, and the Trustee shall immediately thereafter cancel all such Bonds so purchased; provided, however, that the moneys and Investment Securities remaining on deposit with the Trustee after the purchase and cancellation of such Bonds shall be sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest due or to become due on all Bonds with respect to which such moneys and Investment Securities are being held by the Trustee on or prior to the redemption date or maturity date thereof, as the case may be. If, at any time (i) prior to the maturity date of Bonds deemed to have been paid in accordance with this Section 12.01 that are not to be redeemed prior to their maturity or (ii) prior to the mailing of the notice of redemption referred to in clause (a) above with respect to any Bonds deemed to have been paid

-105-

-106-

in accordance with this Section 12.01 that are to be redeemed on any date prior to their maturity, the Authority shall purchase or otherwise acquire any such Bonds and deliver such Bonds to the Trustee prior to their maturity date or redemption date, as the case may be, the Trustee shall immediately cancel all such Bonds so delivered; such delivery of Bonds to the Trustee shall be accompanied by directions from the Authority to the Trustee as to the manner in which such Bonds are to be applied against the obligation of the Trustee to pay or redeem Bonds deemed paid in accordance with this Section 12.01. The directions given by the Authority to the Trustee referred to in the preceding sentence shall also specify (i) the portion, if any, of such Bonds so purchased or delivered and canceled to be applied against the obligation of the Trustee to pay Bonds deemed paid in accordance with this Section 12.01 upon their maturity date or dates and (ii) the portion, if any, of such Bonds so purchased or delivered and canceled to be applied against the obligation of the Trustee to redeem Bonds deemed paid in accordance with this Section 12.01 on any date or dates prior to their maturity. In the event that on any date, as a result of any purchases, acquisitions and cancellations of Bonds as provided in this Section 12.01, the total amount of moneys and Investment Securities remaining on deposit with the Trustee under this Section 12.01 is in excess of the total amount that would have been required to be deposited with the Trustee on such date with respect to the remaining Bonds of such Series in order to satisfy clause (b) of this subsection (2) of Section 12.01, the Trustee shall, if requested by the Authority, pay the amount of such excess to the Authority free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under this Bond Resolution. Except as otherwise provided in this subsection (2) and in subsections (3), (4) and (5) of this Section 12.01, neither moneys nor Investment Securities deposited with the Trustee pursuant to this Section 12.01 nor principal or interest payments on any such Investment Securities shall be withdrawn or used for any purpose other than, and shall be held in trust for, the payment of the principal or Redemption Price, if applicable, of and the interest on said Bonds; provided, however, that any cash received from such principal or interest payments on such Investment Securities deposited with the Trustee, (A) to the extent such cash will not be required at any time for such purpose, shall be paid over to the Authority, as received by the Trustee, free and clear of any trust, lien or pledge securing said Bonds or otherwise existing under this Bond Resolution, and (B) to the extent such cash will be required for such purpose at a later date, shall, to the extent practicable, be reinvested in Investment Securities maturing at times and in amounts sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest to become due on said Bonds on or prior to the redemption date or maturity date thereof, as the case may be, and any interest earned from such reinvestments shall be paid over to the Authority, as received by the Trustee, free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under this Bond Resolution.

For the purposes of this Section 12.01, Investment Securities shall mean and include only (y) such securities as are described in clause (i) of the definition of "Investment Securities" in Section 1.01 hereof and that are not subject to redemption prior to their maturity other than at the option of the issuer thereof, or (z) upon compliance with the provisions of subsection (3) of this Section 12.01, such securities as are described in clause (j) of the definition of "Investment Securities" and that are subject to redemption prior to their maturity at the option of the issuer

-107-

newly established redemption dates, the moneys and Investment Securities on deposit with the Trustee (including any Investment Securities deposited with the Trustee in connection with any reinvestment of redemption proceeds in accordance with subsection (4) of this Section 12.01) pursuant to clause (b) of subsection (2) of this Section 12.01 would be sufficient to pay, when due, the principal and Redemption Price, if applicable, of and the interest on all Bonds deemed to have been paid in accordance with subsection (2) of this Section 12.01.

6. Anything in this Bond Resolution to the contrary notwithstanding, any moneys held by a Fiduciary in trust for the payment and discharge of any Bonds that remain unclaimed after the date when such Bonds have become due and payable, either at their stated maturity dates or by call for earlier redemption, if such moneys were held by the fiduciaries at such date, or after the date of deposit of such moneys if deposited with the fiduciaries after the said date when such Bonds became due and payable, shall, be applied, when and as provided in the Uniform Unclaimed Property Act, *N.J.S.A. 46:30B-1 et seq.*, and the fiduciary shall thereupon be released and discharged with respect thereto and the Bondholders shall have such rights as are provided in said Uniform Unclaimed Property Act.

#### SECTION 12.02. Evidence of Signatures and Ownership of Bonds.

1. Any request, consent, revocation of consent or other instrument that this Bond Resolution or any Supplemental Resolution may require or permit to be signed and executed by the Holders of Bonds of any Series may be in one or more instruments of similar tenor, and shall be signed or executed by such Holders of Bonds in person or by their attorneys duly appointed in writing. Proof of the execution of any such instrument, or of any instrument appointing any such attorney, shall be sufficient for any purpose of this Bond Resolution or any Supplemental Resolution (except as otherwise expressly provided therein) if made in the following manner, or in any other manner satisfactory to the Trustee, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable. The fact and date of the execution of such instruments by any Holder of any Bond or his attorney may be proved by a guarantee of the signature thereon by a bank or trust company or at the discretion of the Trustee, by a certificate of any notary public or other officer authorized to take acknowledgments of deeds that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or by a member of a partnership on behalf of such corporation, association or partnership, such signature guarantee, certificate or affidavit shall also constitute sufficient proof of his authority.

2. The ownership of Bonds and the amount, numbers, other identification and date of holding the same shall be proved by the registry books maintained by the Authority and kept by the Trustee.

-109-

thereof on a specified date or dates. In the event of an advance refunding, the Authority shall cause to be delivered a verification report of an Independent Public Accountant.

3. Investment Securities described in clause (z) of subsection (2) of this Section 12.01 may be included in the Investment Securities deposited with the Trustee in order to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01 if and only if, in making the determination as to whether the moneys and Investment Securities to be deposited with the Trustee would be sufficient to pay, when due, the principal or Redemption Price, if applicable, of and the interest due and to become due on the Bonds that will be deemed to have been paid as provided in subsection (2) of this Section 12.01, such determination is made both (i) on the assumption that the Investment Securities described in said clause (z) were not redeemed at the option of the issuer thereof prior to their maturity date and (ii) on the assumption that such Investment Securities were redeemed by the issuer thereof at its option on each date on which such option could be exercised, that as of such date or dates interest ceased to accrue on such Investment Securities, and that the proceeds of such redemption were not reinvested by the Trustee.

4. In the event that, after compliance with the provisions of subsection (3) of this Section 12.01, the Investment Securities described in clause (z) of subsection (2) of this Section 12.01 are included in the Investment Securities deposited with the Trustee in order to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01 and any such Investment Securities are actually redeemed by the issuer thereof prior to their maturity date, then the Trustee, at the written direction of the Authority, shall reinvest the proceeds of such redemption in Investment Securities; provided, however, that the aggregate of the moneys and Investment Securities to be held by the Trustee, taking into account any changes in redemption dates or instructions to give notice of redemption given to the Trustee by the Authority in accordance with subsection (5) of this Section 12.01, shall at all times be sufficient to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01.

5. In the event that, after compliance with the provisions of subsection (3) of this Section 12.01, the Investment Securities described in clause (z) of subsection (2) of this Section 12.01 are included in the Investment Securities deposited with the Trustee in order to satisfy the requirements of clause (b) of subsection (2) of this Section 12.01, then any notice of redemption to be mailed by the Trustee and any set of instructions relating to a notice of redemption given to the Trustee may provide, at the option of the Authority, that (i) any redemption date or dates with respect to all or any portion of the Bonds to be redeemed on such date or dates may, at the option of the Authority, be changed to any other permissible redemption date or dates, and (ii) redemption dates may be established for any Bonds deemed to have been paid in accordance with this Section 12.01 upon their maturity date or dates at any time prior to the actual mailing of any applicable notice of redemption in the event that all or any portion of any Investment Securities described in clause (z) of subsection (2) of this Section 12.01 have been called for redemption pursuant to an irrevocable notice of redemption or have been redeemed by the issuer thereof prior to their maturity date. No such change of redemption dates or establishment of redemption dates may be made unless, taking into account such changed redemption dates or

3. Any request or consent by the Holder of any Bond shall be binding on all future Owners of such Bond with respect to anything done or suffered to be done by the Authority or any Trustee in accordance therewith.

**SECTION 12.03. Moneys Held for Particular Bonds.**

The amounts held by any Fiduciary for the payment of the interest, principal or Redemption Price due on any date with respect to particular Bonds shall, on and after such date and pending such payment, be set aside on its books and held in trust by it for the Holders of the Bonds entitled thereto.

**ARTICLE XIII**

**MISCELLANEOUS**

**SECTION 13.01. Liability of Authority Limited to Trust Estate.**

Notwithstanding anything to the contrary contained in this Bond Resolution or in the Bonds, the Authority shall not be required to advance any moneys derived from any source other than the Trust Estate for any of the purposes in this Bond Resolution, whether for the payment of the principal or Redemption Price, if any, of or the interest on the Bonds or for any other purpose hereof. Nevertheless, the Authority may, but shall not be required to, advance for any of the purposes hereof any funds of the Authority that may be made available to it for such purposes.

**SECTION 13.02. Successor Is Deemed Included in All References to Predecessor.**

Whenever in this Bond Resolution either the Authority or the Trustee is named or referred to, such reference shall be deemed to include the successors or assigns thereof, and all of the duties, covenants, obligations and agreements contained in this Bond Resolution by or on behalf of the Authority or the Trustee shall bind and inure to the benefit of the respective successors and assigns thereof, whether so expressed or not.

**SECTION 13.03. Limitation of Rights to Parties.**

Nothing expressed or implied in this Bond Resolution or in the Bonds is intended or shall be construed to give to any person, other than the Authority, the Trustee, the Paying Agent and the Holders of Bonds, any legal or equitable right, remedy or claim under or with respect to this Bond Resolution or any duty, covenant, obligation, agreement, condition or provision herein or therein contained; and all of such duties, covenants, obligations, agreements, conditions and provisions are and shall be for the sole and exclusive benefit of the Authority, the Trustee, the Paying Agent and the Holders of Bonds.

**SECTION 13.04. Waiver of Notice.**

Whenever in this Bond Resolution the giving of notice by mail or otherwise is required, the giving of such notice may be waived in writing by the person entitled to receive such notice, and in any such case the giving or receipt of such notice shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

**SECTION 13.05. Destruction of Bonds.**

Whenever in this Bond Resolution provision is made for the cancellation of any Bonds by the Trustee and the delivery thereof to the Authority, unless otherwise requested in writing by the Authority, in lieu of such cancellation and delivery, the Trustee shall destroy such Bonds (in

the presence of an officer of the Authority, if the Authority shall so require) and deliver a certificate of such destruction to the Authority.

**SECTION 13.06. Severability of Invalid Provisions.**

If any one or more of the provisions contained in this Bond Resolution shall for any reason be held to be invalid, illegal or unenforceable in any respect, then such provision or provisions shall be deemed severable from the remaining provisions contained herein, such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Bond Resolution shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein. The Authority hereby declares that it would have entered into this Bond Resolution and each and every section, paragraph, sentence, clause or phrase hereof, and authorized the issuance of the Bonds pursuant hereto, irrespective of the fact that any one or more of the sections, paragraphs, sentences, clauses or phrases of this Bond Resolution may be held illegal, invalid or unenforceable.

**SECTION 13.08. Disqualified Bonds.**

In determining whether the Holders of the requisite aggregate principal amount of Bonds have concurred in any demand, request, direction, consent or waiver under this Bond Resolution, Bonds that are owned or held by or for the account of the Authority, the Company, or any other primary or secondary obligor on the Company Lease Agreement, or by any person directly or indirectly controlling or controlled by, or under direct or indirect common control with, the Authority, the Company or any other primary or secondary obligor on the Company Lease Agreement, shall be disregarded and deemed not to be Outstanding for the purpose of any such determination. Bonds so owned that have been pledged in good faith may be regarded as Outstanding for the purpose of this Section 13.08 if the pledgee shall establish to the satisfaction of the Trustee the pledgee's right to vote such Bonds and that the pledgee is not a person directly or indirectly controlling or controlled by, or under direct or indirect common control with, the Authority, the Company or any other primary or secondary obligor on the Company Lease Agreement. In case of a dispute as to such right, any decision by the Trustee taken upon the advice of Counsel shall be full protection to the Trustee.

**SECTION 13.09. Funds and Accounts.**

Any Fund, Account or subaccount required by this Bond Resolution to be established and maintained by the Trustee may be established and maintained in the accounting records of the Trustee either as a fund, an account or a subaccount, and, for the purposes of such records, any audits thereof and any reports or statements with respect thereto may be treated either as a fund, an account or a subaccount; but all such records with respect to all such Funds, Accounts or subaccounts shall at all times be maintained in accordance with generally accepted accounting principles to the extent practicable.

**SECTION 13.10. Waiver of Personal Liability.**

No member, officer, agent or employee of the Authority shall be individually or personally liable for the payment of the principal or Redemption Price, if any, of or the interest on the Bonds or be subject to any personal liability or accountability by reason of the issuance thereof, all such liability, if any, being expressly waived and released by each Holder of Bonds by the acceptance of such Bonds, but nothing herein contained shall relieve any such member, officer, agent or employee from the performance of any official duty provided by this Bond Resolution or by law.

**SECTION 13.11. Authority Protected in Acting in Good Faith.**

In the exercise of the powers of the Authority and its members, officers, agents and employees under this Bond Resolution, the Company Lease Agreement or any other document executed in connection with the Bonds, the Authority shall not be accountable to the Company, the Trustee, the Paying Agent, any Bondholder or any other Renewable Energy Program

Interested Party for any action taken or omitted in good faith by it or its members, officers, agents and employees and believed by it or them to be authorized or within the discretion or rights or powers conferred thereon.

**SECTION 13.12. Business Days.**

Except as otherwise specifically provided in this Bond Resolution, if any date specified herein for the payment of any Bond or the performance of any act shall not be a Business Day at the place of payment or performance, such payment or performance shall be made on the next succeeding Business Day with the same effect as if made on such date, and in case any payment of the principal or Redemption Price, if any, of or the interest on any Bond shall be due on a date that is not a Business Day, interest on such principal amount shall cease to accrue on the date on which such payment was due if such payment is made on the immediately succeeding Business Day.

Projects, if any, in accordance with the Plans and Specifications and the attached technical specifications of the Company RFP such that the CIP Acceptance Certificates required under the Company Lease Agreement can be obtained prior to the Required Completion Date.

### Section 2.4 Non-Satisfaction of Conditions.

(a) Notwithstanding the Service Provider's commercially reasonable efforts to satisfy the conditions precedent in Section 2.3, in the event that the conditions precedent in Section 2.3 are not satisfied by December 14, 2012 (or earlier or later with the written consent of the Parties, which waiver in time shall be granted if Service Provider can demonstrate continued progress in satisfying any such conditions), the Parties agree to act in good faith to secure a replacement Project in accordance with the relevant provisions of Section 4.6 hereof.

(b) In the event that the conditions precedent set forth in this Article II are not satisfied, after the provisions of Section 4.6 hereof have been pursued and both Parties agree in writing that such provisions do not provide a solution to the issues preventing the satisfaction of such conditions, unless Service Provider, or the Authority, on behalf of the Customers, shall elect to waive such conditions precedent, then Service Provider or the Authority may terminate this Power Purchase Agreement with respect to such Projects without further liability effective upon five (5) days advance written notice to the other Party, in which event neither Party shall have any further rights or obligations hereunder.

ARTICLE III

COMMENCEMENT DATES, REQUIRED COMPLETION DATE, AND INITIAL TERM

Section 3.1 Commencement and Length of Initial Term.

(a) This Power Purchase Agreement shall become effective and legally binding upon the Parties (including their permitted successors and assigns) and be enforceable in accordance with its terms, upon the execution and delivery hereof by the Authority, the Company and each Customer (the "Effective Date"), and shall remain in full force and effect, (i) with respect to the Authority and the Service Provider, until the end of the fifteenth (15<sup>th</sup>) annual anniversary of the final Commencement Date of all Customers, as set forth in subsection (b) below, and (ii) with respect to each respective Customer, until the end of the applicable period for such Customer set forth in subsection (b) below (as applicable, the "Initial Term").

(b) Unless otherwise terminated as provided herein, this Power Purchase Agreement shall remain in full force and effect, for each Customer, for a period of time (i) beginning on the respective Commencement Dates for each such Customer as established in accordance with Section 3.5 below and (ii) ending on the fifteenth (15<sup>th</sup>) annual anniversary of each such Commencement Date.

Section 3.2 The Construction and Interconnection Phase.

The period commencing on the Effective Date and continuing until the earlier occurrence of either (a) the respective Commencement Dates for each Customer or (b) a termination of this Power Purchase Agreement as to the Project(s) relative to each such Customer in accordance with Section 2.4 herein shall be hereinafter referred to as the "Construction and Interconnection Phase" for each such Customer. During this phase, the Service Provider shall use commercially reasonable efforts to complete (but in any event shall complete by December 14, 2012, unless extended, per Project, by Force Majeure or Series 2011 Local Unit Event of Default as defined in and contemplated by the applicable Local Unit License Agreement), for each such Customer, the construction, start-up and testing of their respective Renewable Energy Projects and the interconnection of their Renewable Energy Projects to their applicable Local Unit Facility, all to permit the transfer of Electricity on or before the applicable Required Completion Date. Note that pursuant to the Company Lease Agreement, the applicable Interconnection Agreement must be in place prior to the issuance of the Acceptance Certificates, which are a prerequisite to the Commencement Dates for each Customer. The Service Provider further agrees to commence construction of the first Renewable Energy Projects by June 15, 2012 and all of the Renewable Energy Projects for each Customer no later than December 14, 2012, unless extended, per Project, by Force Majeure or Series 2011 Local Unit Event of Default as defined in and contemplated by the applicable Local Unit License Agreement or cure period which absent a cure would lead to a Series 2011 Local Unit Event of Default. Service Provider agrees to the maximum extent practicable that it shall not interfere with the Customer's use of the Local Unit Facility during the Construction and Interconnection Phase.

employees, agents, and workers of the contractors and subcontractors who will be present at the site for purposes of checking all identities against the Megans law registry.

Section 3.5. Commencement Dates and PPA Price.

(a) Each Customer shall have its own Commencement Date (which may or may not be the same date as that for one or more other Customers) determined as set forth in subsection (b) below. As there are \_\_\_\_\_ ( ) Municipal Series 2011 Local Units, \_\_\_\_\_ ( ) Board of Education Series 2011 Local Units, and \_\_\_\_\_ ( ) County Series 2011 Local Units, except as set forth in subsection (c) below, there shall be \_\_\_\_\_ ( ) Commencement Dates for purposes of this Power Purchase Agreement and the Local Unit License Agreements.

(b) Except as the Authority, in its sole discretion, may determine in accordance with subsection (c) below, the "Commencement Date" for each Customer shall be the date on which the Company shall have filed with the Trustee both the REP Acceptance Certificate and the CIP Acceptance Certificate, if any, with respect to all of the Local Unit Facilities for such Customer (see Exhibit A hereto for a list of Customers and their Local Unit Facilities), certifying that all of the Renewable Energy Projects and Capital Improvement Projects, if any, for such Customer have been completed and accepted.

(c) Notwithstanding subsection (b) above, the Authority may, in its sole discretion, determine to establish an earlier Commencement Date for one or more Customers, by written notification of same to the Company, the Trustee, and the affected Customer, but only with respect to the completed Renewable Energy Projects and Capital Improvement Projects for the Local Unit Facilities of such Customer (otherwise eligible for the issuance of Acceptance Certificates, were it not for the following), and only in the event the Authority determines that the Acceptance Certificates (which require completion of all such Projects for a Customer under subsection (b) above) are being unduly delayed for some reason not within the control of the Company.

(i) Nothing in this subsection (c) shall waive the requirement to ultimately receive such Acceptance Certificates for other purposes of the Renewable Energy Program.

(ii) Should the Authority act to establish an earlier Commencement Date for one or more Renewable Energy Projects for a Customer (as opposed to when all Renewable Energy Projects for such Customer shall have received Acceptance Certificates under subsection (b) above) in accordance with this subsection (c), there shall be more than one Commencement Date for such Customer, and the terms and provisions in this Power Purchase Agreement relating to Commencement Dates shall be applied separately, as applicable, for such one or more Renewable Energy Projects of such Customer.

(d) Upon the earlier to occur of (i) the completion of the construction and start-up of each Renewable Energy Project for any Customer and the interconnection thereof to the

Section 3.3 Designated Representatives.

(a) To insure a smooth and orderly coordination of activities during the Construction and Interconnection Phase, the Authority, the Service Provider and each Customer shall appoint a designated representative of such Party (each a "Designated Representative") who or which shall be authorized and directed by its principal to meet with the Designated Representative of the other Parties and shall have full power and authority, to the greatest extent practicable in light of Applicable Law governing the actions of the Authority and Customer, to bind its principal with respect to all construction matters relating to the Projects, and all operational matters relating to the Renewable Energy Projects.

(b) As soon as practicable following the Effective Date, the Designated Representatives shall hold, at a mutually acceptable time and location, an initial Project meeting, at which time the Designated Representatives shall prepare jointly, based on the best information available to Customer and Service Provider (and if applicable, the Authority) at such time, a preliminary schedule for completing the construction of the Projects, and the interconnection, testing and start-up of the Renewable Energy Projects. After the initial Project meeting, the Designated Representatives shall meet periodically, but no less frequently than once every two (2) weeks, at such times and locations as they may mutually agree or as may be requested by one of the Parties for the purposes of coordinating all relevant construction matters with respect to the Projects, and all relevant operational matters with respect to the Renewable Energy Projects, and achieving a timely completion of all Project work and all testing of the Renewable Energy Projects.

(c) The Authority hereby appoints the Construction Manager designated by it under the Company Lease Agreement as its Designated Representative. The Service Provider shall submit its proposed Designated Representative to each Customer. Each Customer shall have five (5) Business Days to either approve or reject Service Provider's proposed Designated Representative; provided however, that its approval shall not be unreasonably withheld, and any failure to respond within the five (5) Business Days specified shall be deemed to be a conclusive approval of Service Provider's proposed Designated Representative.

Section 3.4 Cooperation.

The Authority and each Customer agree to reasonably cooperate and assist Service Provider to the fullest extent practicable, at Service Provider's cost, to perform any and all actions within their respective control that Service Provider may reasonably request in connection with (a) the design, permitting, acquisition, construction, installation, interconnection, start-up, and testing of the Renewable Energy Projects, and (b) the design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects, if any, including, without limitation, the granting of any required rights of access to Service Provider and its contractors in accordance with the terms of the Local Unit License Agreements, the timely execution and return of any required consent of the Authority and/or such Customers, the execution and delivery of any Interconnection Agreement, and the participation as and when required of the Authority's and/or Customers' employees and representatives, including the Construction Manager, in the performance of any test in respect of the Renewable Energy Projects. The Service Provider must provide the names of all

applicable Local Unit Facility for such Customer, or (ii) the applicable Commencement Date for such Customer, then:

- (A) The full Electricity production capability of such completed Renewable Energy Project for such Customer shall be exclusively dedicated to such Customer for the applicable Initial Term and any extensions thereto;
- (B) Service Provider shall operate and maintain the Renewable Energy Projects for such Customer through the Initial Term and any extensions thereof;
- (C) Service Provider shall commence the delivery of all Electricity produced from such Renewable Energy Projects to such Customer; and
- (D) Upon receipt of such Electricity, such Customer shall pay the PPA Price in the amount and manner as set forth in subsection (e) below, in Section 6.4 hereof, and Exhibit B attached hereto.

(e) (i) When Service Provider commences deliveries of Electricity to such Customer in accordance with subsection (d) above, either prior to or on the applicable Commencement Date for such Customer, such Customer shall pay for such deliveries, at the initial PPA Price specified in Exhibit B, Section 1 attached hereto, without escalation. Therefore, the escalation to the first year PPA Price specified in Exhibit B, Section 1 attached hereto shall not be made until the first annual anniversary of the Commencement Date for such Customer. The escalation (as specified in Exhibit B, Section 2 attached hereto) for amounts payable in any following year shall be made on each succeeding anniversary after such Commencement Date, for such succeeding year. Escalation adjustments (as specified in Exhibit B, Section 2 attached hereto) shall be made on each such anniversary date through the end of the Initial Term and any extension thereto for such Customer. As so adjusted for each subsequent year beyond the first annual anniversary of the Commencement Date, each such escalated amount (as specified in Exhibit B attached hereto) shall be the PPA Price payable for such year.

(ii) Notwithstanding anything to the contrary herein or in any other Program Document, the PPA Price set forth in Exhibit B, Section 1 attached hereto, shall be promptly adjusted (without any further authorization or other action required by any Renewable Energy Program Interested Party, but with notice of such change to be promptly provided by the Authority to the Company (and any other County Security Provider, if any), the County, the Series 2011 Local Units, and the Trustee) to reflect any change in the County Security Fund Requirement in accordance with the terms of the definition thereof as set forth in the Bond Resolution.

(f) The obligations of Customers under this Power Purchase Agreement, including those to take and pay for Electricity with respect to their applicable Local Unit Facilities, shall be several, and not joint. The Authority shall have no obligation with respect to such take and pay obligations other than to obligate the Series 2011 Local Units, as Customers, to take and pay for such Electricity in accordance with the terms hereof, including this Section 3.5, and other than to enforce such obligations, all as set forth in the Local Unit License Agreements, including Section 5.11 thereof.

**Section 3.6. Required Completion Date; Liquidated Completion Damages.**

(a) Unless excused by reason of Force Majeure, fault of Customer due to its default under the Local Unit License Agreement, or otherwise as may be expressly provided herein, Service Provider hereby covenants to satisfy the following conditions (the "Completion Conditions") no later than December 15, 2012 (the "Required Completion Date"):

(i) Service Provider shall, in such order and timeframe as Service Provider shall determine, as shall be communicated by Service Provider to the Authority and Customer in accordance with Section 3.3 hereof, complete, in accordance with the Plans and Specifications for Projects prepared by or on behalf of Service Provider and approved by the applicable Customer (all in accordance with Section 501 of the Company Lease Agreement), which Customer approval shall be promptly provided to Service Provider and not withheld unreasonably, which Plans and Specifications shall incorporate, as necessary, desirable or convenient, the technical specifications of the Company RFP, and any further applicable requirements of (A) Exhibits C and D to this Power Purchase Agreement, (B) Exhibit A-2 to the Company Lease Agreement and (C) Exhibit C to the Local Unit License Agreements:

(Y) The design, permitting, acquisition, construction, installation, interconnection, start-up, and testing of all of the Renewable Energy Projects for all Customers on their Local Unit Facilities (see Exhibit A attached hereto); and

(Z) The design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects, if any, for all applicable Customers on their Local Unit Facilities (see Exhibit A attached hereto);

(ii) Service Provider shall obtain all of the Acceptance Certificates relating to all Customers on all of the Local Unit Facilities; and

(iii) Service Provider shall commence the production, delivery and sale of Electricity to all Customers through the operation and maintenance of the Renewable Energy Projects, to continue through the Initial Term of this Power Purchase Agreement, and any extensions hereof.

- 22 -

(b) Unless excused by reason of Force Majeure, fault of Customer due to its default under the Local Unit License Agreement, or otherwise as may be expressly provided herein, if Service Provider fails to satisfy the conditions set forth in subsection (a) prior to the Required Completion Date, then Service Provider shall pay liquidated damages to each such Customer equal to the difference between the variable line item per kWh costs for delivered electricity payable by each such Customer to the local electric utility distribution provider, minus the initial PPA Price (as specified in Exhibit B, Section 1 attached hereto per kWh), multiplied by the guaranteed kWh production of Electricity referenced in Section 6.1(b) of this Power Purchase Agreement for each day after the Required Completion Date, until the Renewable Energy Projects for such respective Customers are able to produce, and Service Provider shall deliver, Electricity for and to such Customers as contemplated by this Power Purchase Agreement.

(c) At the Authority's option, whereby the Authority may look to be directed by the respective Customers, or determine on its own, as the Authority shall in its sole discretion decide, the Authority may recover any amounts due and owing by the Service Provider in accordance with subsection (b) above either through realization of such liquidated damage amount under the Construction Performance Bond provided by Service Provider, or alternatively, accrue and offset such liquidated damage amount against next due PPA Price payments made by Customers, or some combination thereof, in any event as such determination shall be communicated in writing by the Authority to Service Provider and Customer.

(d) In the event Service Provider has an allowable excuse as outlined in subsection (a) above, which shall be the sole cause for failing to meet the timeframes and conditions set forth in subsection (a) above, and after Service Provider has used all commercially reasonable efforts to meet such timeframes and conditions (e.g., overtime), then Service Provider shall not be liable to Customer for such liquidated damages contemplated by subsection (b) above. In the event of any such performance excusing event, Service Provider shall promptly give written notice to Customer and the Authority (but in no event later than twenty-four (24) hours following such occurrence), specifying the Force Majeure event or Customer's alleged failure to act, cooperate or assist Service Provider or other performance excusing event, as applicable. Should the Service Provider performance excusing event be caused by Customer's action or inaction, Customer shall promptly respond (but in no event later than forty-eight (48) hours) to Service Provider and the Authority regarding such notice by outlining all such remedial actions to be undertaken by or on behalf of Customer, and further, Customer shall promptly implement such action outlined in such response as shall be necessary, desirable or convenient in order to remedy such event, and allow Service Provider to meet such conditions as set forth in subsection (a), as soon as practicable, after the Required Completion Date.

**Section 3.7 Extension of Initial Term and other options; Obligations at Termination.**

(a) At least one-hundred and twenty (120) days prior to the expiration of the Initial Term, to the extent then permitted by Applicable Law, the Authority, on behalf of one or more Customers, may submit a written request to Service Provider expressing a desire by such Customer to pursue a possible extension of this Power Purchase Agreement. Upon receipt of the

- 23 -

Authority's request, Service Provider, the Authority and Customer agree to promptly meet with the intent of negotiating an amendment on mutually agreeable terms and conditions, reflecting, among other things, the cost of any necessary equipment replacements or upgrades, the costs of contract maintenance and operating services, and Service Provider's profit and overhead. Neither Service Provider nor Customer shall be legally obligated to enter into or perform any extension or replacement of this Power Purchase Agreement until and unless reduced to a writing duly executed and delivered by both parties, and the provisions of Sections 5.1 and 7.1 of the applicable Local Unit License Agreement are either complied with or waived by the Authority and/or the applicable Customer.

(b) If the parties shall fail to enter into an agreement extending the Initial Term, then Customer shall elect, at its sole option, to either require that the Service Provider promptly remove the Renewable Energy Projects and return and restore the Local Unit Facilities to the state and condition existing prior to construction and installation of the Renewable Energy Projects (i.e., after the construction, renovation and installation of the Capital Improvement Projects on the applicable Local Unit Facility, if applicable), reasonable wear and tear excluded, at Service Provider's sole cost, although Service Provider is permitted to use any and all funds on deposit in the Restoration Security Fund for such purpose, or purchase the physical Renewable Energy Projects at Fair Market Value, in any event in compliance with Sections 5.1 and 7.1 of the applicable Local Unit License Agreement. Such Fair Market Value shall be established by an appraisal firm agreed to by the Parties. The cost of the appraisal shall be shared equally by Service Provider and the applicable Customer. In the event the Parties cannot agree to a single appraisal firm, then the Company, the Authority and the Customer shall each contract with a qualified appraisal firm for an appraisal at its own cost, and Fair Market Value shall be the average of the three (3) appraisals.

(i) In the event the end of term option selected by the Local Unit is removal of the Renewable Energy Projects, Service Provider shall remove all of its tangible property comprising such Renewable Energy Projects from the Local Unit Facility by a mutually convenient date but in no case later than one hundred eighty (180) days after the end of the Initial Term. Service Provider shall provide Customer, the applicable roof warrantors for the applicable Local Unit Facility, and the Authority, with a removal plan, at Service Provider's sole cost and expense, with respect to such removal, although Service Provider is permitted to use any and all funds on deposit in the Restoration Security Fund for such purpose. Such removal plan is subject to the review and approval by Customer, such warrantors, and the Authority, which approval (with respect to Customer and the Authority) shall not be unreasonably withheld or delayed.

(ii) In implementing such removal plan, Service Provider (A) shall cause the portion of the Local Unit Facility on which the Renewable Energy Projects were installed to be returned to the state and condition set forth in subsection (b) above, including removal of above grade electrical wires and conduits, inverters, photovoltaic panels, steel superstructure, combiner boxes, and Renewable Energy Projects disconnect switches, and (B) shall not adversely affect the remaining warranties then in existence with respect to such roofs on such Local Unit Facilities. Not included in the removal schedule are below-grade electric/wiring components

- 24 -

(unless otherwise specified in the approved removal plan), material that cannot be removed due to safety concerns, and ordinary wear and tear. Service Provider shall leave the portion of the Local Unit Facilities on which the Renewable Energy Projects were installed in neat and clean order, having sealed any penetrations into such portion of the roofs of such Local Unit Facilities, all subject to the applicable Customer's inspection and approval, not to be unreasonably withheld or delayed.

## ARTICLE IV

### DEVELOPMENT OF PROJECTS AND RELATED AGREEMENTS AND UNDERTAKINGS

#### Section 4.1 Development of Projects.

(a) Service Provider has covenanted to undertake the obligations set forth in Section 3.6(a) hereof with respect to the development of the Projects prior to the Required Completion Date. Thereupon, Service Provider shall deliver Electricity to each Customer, each Customer shall pay for such Electricity, and Service Provider shall operate and maintain the Renewable Energy Projects, all through the Initial Term and any extensions thereof, and all as set forth in Section 3.5(d) hereof.

(b) Service Provider shall be solely responsible for taking, and shall take or cause to be taken, with the cooperation of the Authority and Customer, including as applicable and as required pursuant to Section 3.4 hereof, all action deemed necessary, desirable or convenient by Service Provider in order to discharge its obligations set forth in subsection (a) above. Toward that end, Service Provider shall coordinate all Project construction activities with the Authority and the applicable Customer, and shall provide the Authority and such Customer with all Plans and Specifications and other information that the Authority or such Customer may reasonably request from time to time. The Authority and such Customer shall be provided with submittals during design and construction of such Projects. Such Customer shall provide comments, if any, within five (5) Business Days of receipt of such submittals. Review and comments by Customer, if any, shall not relieve Service Provider of its obligations under this Power Purchase Agreement. The Authority shall have no obligation, but may on its own volition undertake, to review and comment on such submittals. Service Provider reserves the right to substitute products provided such substitutions are equal or better in quality and performance than the products submitted in the Company Proposal, based on which the Authority selected Service Provider, as the successful respondent to the Company RFP, as such substitution shall be agreed to and approved in writing (consent not to be unreasonably withheld) by such Customer and the Authority. Service Provider shall timely apply for all required permits and approvals from all applicable authorities having jurisdiction relating to the construction of the Projects, and the operation and maintenance of the Renewable Energy Projects, and any other activities contemplated by this Power Purchase Agreement. If despite commercially reasonable efforts, Service Provider is unable to obtain a required permit; such occurrence shall be deemed an event of Force Majeure hereunder.

(c) For its undertaking of the obligations set forth in subsection (a), Service Provider shall be entitled to receive the PPA Price from Customer in accordance with Section 6.2 hereof, as full and complete consideration for such services and the undertaking and discharging such obligations by Service Provider.

- 26 -

property loss, or circumstances under which Service Provider's failure to remove its system from service would, in Service Provider's reasonable judgment, constitute an illegality or violation of any statute, regulation or order of any Governmental Authority in the exercise of its regulatory jurisdiction, or any similar events or circumstances.

#### Section 4.5 Removal and Re-Installation of Panels; Roof Maintenance & Repairs.

(a) If at any time during the term of this Power Purchase Agreement, Customer is required to remove or interrupt, or cause the removal or interruption, as applicable, of the operation of one or more of Service Provider's solar panels that comprise a portion of the Renewable Energy Projects, to repair or replace the roof of such Customer's Local Unit Facility, or perform required maintenance on any other of the Local Unit's equipment located on such roof, or for any other governmental reason for which no other commercially reasonable solution exists other than to interrupt some portion of service provided by the Renewable Energy Projects, Customer shall promptly notify Service Provider and the Authority of the specific panels and/or other portion of the affected Renewable Energy Project that must be removed or shut down, and when removal or shut-down is required, taking into account to the greatest extent practicable any efforts within Customer's control to minimize the loss of Electricity generated by such removed or shut down (in whole or in part) of the Renewable Energy Project. In such instance, Service Provider agrees to remove and re-install or shut down and re-initiate the operation of such minimum number of panels for the minimum amount of time necessary in order to allow Customer access to its Local Unit Facility to undertake the required task causing the need for such removal.

(b) To the extent Customer is required to take the action set forth in subsection (a) above in whole or in part due to some action or inaction of Service Provider or any of its designees, consultants, subcontractors or agents, or another licensee (other than the Authority or the Authority's designees, consultants, subcontractors or agents) under Customer's Local Unit License Agreement, then Service Provider shall (i) bear and pay for the cost of such removal, and (ii) reimburse Customer for the difference between (A) Customer's actual cost for electricity, as evidenced by that amount delivered and billed by the local electric utility distribution provider to Customer in lieu of the Electricity to have been provided by Service Provider during such applicable period for which Customer is not receiving Electricity from Service Provider, in whole or in part, and (B) the PPA Price that would have been applicable to such amount of electricity so delivered to Customer under clause (i) above, had Service Provider delivered such deficient amount of Electricity during such period.

(c) Conversely, to the extent Service Provider is required, with the Authority's consent, to remove and re-install or shut down and re-initiate the operation of a portion, or all of a Renewable Energy Project due to some action or inaction by Customer or any of its designees, consultants, subcontractors, or agents, Service Provider shall be reimbursed by Customer at Service Provider's actual out-of-pocket cost, plus ten percent (10%) overhead. Further, Customer shall reimburse the Service Provider for the cost of lost production during the period of removal or shut-down in excess of ten (10) days in any twelve (12) month period, starting on the Commencement Date (for such Customer or as applicable, such Local Unit Facility) and each anniversary thereafter. The cost of lost production shall include an allowance for both lost Electricity at the applicable PPA Price, and lost SRECs, at the market value of such SREC's as determined in comparable

- 28 -

#### Section 4.2 Operation and Maintenance of the Renewable Energy Projects.

Throughout the Initial Term and any extensions thereof, Service Provider shall operate and maintain the Renewable Energy Projects in a manner that meets or exceeds good industry practice, and in good working order and repair, and shall coordinate all planned maintenance activities with Customer in order to minimize any adverse impact on Customer and/or its Local Unit Facility. The Renewable Energy Projects shall remain in Service Provider's sole custody and control during the term of this Power Purchase Agreement and Customer shall not attempt to use, repair or otherwise interfere with Service Provider's custody, except in accordance with Service Provider's express consent. Service Provider shall have the right, but not the obligation, to replace or exchange, in its discretion, any component of the Renewable Energy Projects during the Initial Term or any extensions thereof provided that the Renewable Energy Projects continue to operate in accordance with the Plans and Specifications. Service Provider shall be responsible, at its sole cost and expense, for performing all required Renewable Energy Projects operation and maintenance to insure that the Renewable Energy Projects shall operate in an efficient manner in accordance with the Plans and Specifications. It is understood and agreed that Service Provider may delegate its operation and maintenance responsibilities to a technically qualified and financially responsible third party, upon notification to the Authority and the applicable Customer, and upon their review and approval of any such contract, which Authority and Customer approval shall be promptly provided to Service Provider and not withheld unreasonably. Any delegation by Service Provider to such third party shall not relieve Service Provider from its obligations under this Power Purchase Agreement.

#### Section 4.3 Reserved

#### Section 4.4 Outages.

Service Provider, the Authority and Customer understand and agree that from time to time it shall be necessary for Service Provider to remove all or part of the production, distribution, and interconnection portions of the Renewable Energy Projects from service to make any necessary repairs or replacements. Accordingly, Service Provider shall have the right to interrupt, reduce or discontinue the delivery of Electricity for the purposes of inspection, maintenance, repair, replacement, construction, installation, removal or alteration of the equipment used for the production or delivery of the same; provided however, that unless the exigencies of the situation require otherwise, Service Provider shall use commercially reasonable efforts to only interrupt or restrict delivery of Electricity at such times as Service Provider and Customer shall mutually agree. Customer and Service Provider agree to act in good faith to accommodate the reasonable requests of the other in fulfilling their respective obligations under this Power Purchase Agreement. If the circumstances require Service Provider to remove the Renewable Energy Projects from service for more than several hours, Service Provider shall take such actions as are reasonable under the circumstances to minimize the effect on Customer's Local Unit Facility and its operations. Unless the exigencies of the situation require otherwise, Service Provider shall provide Customer with at least ten (10) days prior notice of any proposed service outage, which notice shall explain in detail the reason for the proposed interruption, the proposed maintenance or other corrective action to be undertaken, and the expected length of the interruption. For the purposes of this Section 4.4, exigent circumstances shall include, but shall not be limited to, conditions which, in Service Provider's reasonable judgment, pose an imminent and unreasonable risk of personal injury or

- 27 -

transactions. Customer may at its option, elect to pay Service Provider any amounts in this subsection (c) in either a lump sum payment, or in uniform monthly payments, including interest on the unpaid balance, at the rate set out in Section 6.4 (relating to payment terms) over not greater than a twelve (12) month period. For purposes of this subsection, an action of inaction of a Customer's designees, consultants, subcontractors or agents shall not include students unless such students are under the direct control of the Customer at the time such action or inaction occurred.

#### Section 4.6 Certain Local Unit Facility Issues.

(a) Prior to commencement of construction of each of the Renewable Energy Projects, preferably prior to the Effective Date, and no later than the completion of the design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects, if applicable, for each Local Unit Facility, Service Provider shall investigate and secure an opinion from a structural engineer licensed in the State that the Local Unit Facility roof is structurally sound and requires no structural reinforcement to support the Renewable Energy Projects to be provided in accordance with the terms hereof. To the extent required by the applicable local building code for a Local Unit Facility, a wind analysis shall also be conducted by or on behalf of Service Provider to insure the proposed mounting structures for the Renewable Energy Projects shall be sufficient to meet wind conditions at each Local Unit Facility. A copy of such opinion and analysis, if so required, for each Local Unit Facility shall be delivered to the Authority and applicable Customer.

(b) If the Service Provider delivers to the Authority a Certificate of an Authorized Officer of the Service Provider to the effect that such opinion and/or analysis and/or other credible evidence demonstrates any of the following: (i) that structural reinforcement of a Local Unit Facility would be required in order to support the contemplated Renewable Energy Projects, (ii) that any roof of a Local Unit Facility is structurally unsound or that the Local Unit Facility is not otherwise available for the contemplated Project, including issues of title, damage, or condemnation affecting the Local Unit Facility, (iii) that there are other latent subsurface or structural conditions present at any Local Unit Facility that is not a roof, which latent subsurface or structural conditions were not contemplated in its Company Proposal and would have a material adverse financial impact on the Service Provider or (iv) that the existing warranties can only be maintained through an unreasonable scope of work, or at an unreasonable cost, in either case as determined solely by the Authority, and if in any such case (clauses (i) - (iv) inclusive) the Authority, in exercising its reasonable discretion (with input from the Customer), agrees with such determination as evidenced by their acknowledgment of such Service Provider Certificate by an Authorized Officer of the Authority, then neither the Authority nor Customer shall have any responsibility to provide any additional funding for such Renewable Energy Projects, and Service Provider is not entitled to any additional compensation for such Renewable Energy Projects, it being understood by the Parties that any such circumstance has been preliminarily reviewed and subject to a diligence review by Service Provider, as any contemplated cost relating thereto shall have been included in the Company Proposal as part of the submitted cost of the Projects.

(c) To the extent the Authority executes and delivers to the Service Provider the acknowledgment contemplated by subsection (b) above, notwithstanding the other provisions of subsection (b) above the Parties shall work together in good faith to select an alternative location

- 29 -

(hereinafter, such alternative location shall be known as the revised Local Unit Facility for such Series 2011 Local Unit for all purposes hereof and of the other Program Documents) within the jurisdiction of the following, and in the following order: (i) first of the affected Series 2011 Local Unit for which the Renewable Energy Project shall no longer be developed, in which case the revised Local Unit Facility shall act as the location for the replacement renewable energy project (hereinafter: a Renewable Energy Project for all purposes hereof and of the other Program Documents), and as necessary, required or desirable, the revised capital improvement project (hereinafter a Capital Improvement Project for all purposes hereof and of the other Program Documents), (ii) second, within the jurisdiction of any other Series 2011 Local Unit, in which case the revised Local Unit Facility and Project shall be located in such agreed upon jurisdiction, and (iii) if a suitable replacement location within such jurisdiction is still not available on a mutually agreeable basis, then from any location within (and including) the County upon which the Parties can agree, in which case the revised Local Unit Facility and Project shall be located in such agreed upon jurisdiction. Any alternative Projects shall, to the maximum extent practicable, be of a similar (or more advantageous to the Parties) size, scope and economic impact as the Projects being replaced

(d) Should an alternative Local Unit Facility be selected by the Parties in accordance with subsection (c) above, (i) a new Commencement Date and a new Completion Date shall be developed for the replacement Renewable Energy Project, and as applicable, Capital Improvement Project, (ii) such revised Commencement Date and Completion Date for such replacement Renewable Energy Project shall be incorporated into this Power Purchase Agreement via a written amendment executed by the Parties, which amendment shall also incorporate a revised Exhibit A hereto and any other changes the Parties deem necessary, desirable, or convenient to implement the change in Project and Local Unit Facility, and (iii) the other Program Documents shall be amended to reflect any required changes caused by such amendment hereof, including without limitation the revised Project, the replaced Local Unit Facility, and if necessary, a new Series 2011 Local Unit (in which case instead of an amended Local Unit License Agreement with such new Series 2011 Local Unit, there shall be a new Local Unit License Agreement with such new Series 2011 Local Unit), provided that the economic rights and responsibilities of the Parties shall not be amended (including without limitation, the PPA Price), unless agreed to at the complete discretion of the Parties.

(e) If after good faith negotiations the Parties are unable to secure a replacement Local Unit Facility and Project within six (6) months of the date of the Authority's acknowledgment of the Certificate of an Authorized Officer of the Service Provider contemplated in subsection (b) above, then the Service Provider shall have the option, exercisable at any time within nine (9) months of the date of such Authority Certificate, to abandon the Project associated with the Local Unit Facility that was to be replaced. Such option shall be exercised by the Service Provider delivering a Certificate of an Authorized Officer of the Service Provider to the Trustee, the County, the Authority, and the affected Series 2011 Local Unit, (i) setting forth the authorization for, and the reasons why the Project and Local Unit Facility are being abandoned, and (ii) further, that attached thereto is a partial prepayment of Basic Lease Payments (or evidence thereof, in the case of a wire transfer or other similar conveyance) in immediately available funds that shall be applied in the manner set forth in Section 701(a) of the Company Lease Agreement. Upon the abandonment of any Project, the Service Provider, the Authority and the Customer will enter into such amendments of the

### LOCAL UNIT LICENSE AGREEMENT - LOCAL UNIT FACILITY ACCESS

#### Section 5.1. Local Unit License Agreement.

(a) For consideration of the transactions contemplated by this Power Purchase Agreement and the Local Unit License Agreement, Service Provider, the Authority and Customer hereby agree that Service Provider and their subcontractors, including the EPC Contractor pursuant to their Development Contract with Service Provider, and other agents and designees shall each be deemed a permitted licensee under Customer's Local Unit License Agreement, and accordingly, Service Provider and their subcontractors and other agents and designees shall have access to the Local Unit Facility of Customer to (i) design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects, (ii) design, permit, acquire, construct, renovate, and install the Capital Improvement Projects, if any, and (iii) perform the other related Project activities set forth in Section 3.1, including subsection (c) thereof, of the Local Unit License Agreement for Customer.

(b) The license provided to Service Provider in accordance with subsection (a) and Customer's Local Unit License Agreement, subject to Section 3.7 of such Customer's Local Unit License Agreement, shall be irrevocable for the Initial Term of this Power Purchase Agreement and any extension, for so long as Service Provider is not in default of its delivery obligations hereunder, thereby causing an Event of Default hereunder, and except as otherwise expressly provided in this Power Purchase Agreement.

(c) Service Provider shall insure that any equipment used or installed by the Service Provider shall not adversely affect the structural integrity or existing roofing warranties of the Local Unit Facility roof and shall be completed in strict accordance with manufacturer's requirements by a certified manufacturer roofing contractor.

(d) In the event a Customer exercises revocation rights pursuant to Section 3.7 of such Customer's Local Unit License Agreement, upon the satisfaction of all requirements under such Section 3.7, this Power Purchase Agreement shall be terminated in respect of, and solely with respect to, such applicable Project.

Program Documents as shall be necessary to evidence the partial termination of the Program Documents solely with respect to such Project.

#### Section 4.7 Incorporation of Certain Company RFP Terms and Conditions.

To the extent not otherwise inconsistent with the provisions of this Power Purchase Agreement and the other Program Documents, the terms and conditions of Article VII and Appendix C to the Company RFP, as attached to the Company Lease Agreement as part of Exhibit A-1 thereto, are hereby incorporated by reference into this Power Purchase Agreement.

#### Section 4.8 Service Provider's Ability to Choose Subcontractors.

Service Provider shall enter into the applicable contract(s) for construction, renovation and installation of the Projects, subject to the terms of any Renewable Energy Program agreement executed by any Party. Prior to implementing any such contract(s), Service Provider and Customer shall have agreed upon a list of acceptable subcontractors, with all other subcontractors subject to notification to the Authority and Customer's consent, such consent not to be unreasonably withheld or delayed; provided, however, that Customer's agreement as to the list of acceptable subcontractors shall not make the Authority or Customer in any way responsible for, or a guarantor of, such subcontractors, nor relieve Service Provider of any of its duties and obligations with respect to subcontractors or otherwise hereunder. Service Provider shall insure all subcontractors are qualified, reputable and adhere to all applicable regulations and laws of the State. The Service Provider must provide the names of all employees, agents, and workers of the contractors and subcontractors who will be present at the site for purposes of checking all identities against the Megans law registry. The Service Provider identified and the Authority and Customer have approved the initial list of subcontractors, as set forth in Exhibit H, by the time of execution and delivery hereof (such list is not intended to be exclusive, should Service Provider subsequently determine to proffer one or more other subcontractors).

### ENERGY SERVICES PROVIDED BY SERVICE PROVIDER PRIOR TO OR UPON COMMENCEMENT DATE

#### Section 6.1 Sale and Purchase of Electricity Converted from Solar Energy.

(a) On the date set forth in Section 3.5(d) of this Power Purchase Agreement, which date shall be on or prior to the Commencement Date, Customer shall purchase and take, and Service Provider shall sell and deliver, all Electricity produced from the Renewable Energy Projects.

(b) The Plans and Specifications for the Renewable Energy Projects shall provide for the output guaranteed by Service Provider in Section 6(b) of its Form A-1 of the Company Proposal attached hereto as Exhibit C (which, in accordance with Form A-1 of the Company Proposal, needs to be adjusted to reflect the actual solar insolation measured at the site for the time period under review), unless Customer agrees in writing to a different output to be set forth in such Plans and Specifications. For the avoidance of doubt, the Parties hereto expressly agree that the proposed output for the Renewable Energy Projects for the Series 2011 Local Units so set forth in Form A-1 of the Company Proposal and as detailed in Company Proposal Table 6(b) that is made a part of Exhibit C hereto shall be the standard against which the output guaranty contemplated by this Power Purchase Agreement shall be measured, notwithstanding the fact that the anticipated output for such Renewable Energy Projects shall be as set forth in Company Proposal Table 6(a) and also incorporated in Exhibit C hereto. The Parties hereto agree that Exhibit C hereto shall be amended upon the completion and sizing of the Projects.

(c) Service Provider shall guarantee the output of the Renewable Energy Projects cumulatively through the 5<sup>th</sup>, 10<sup>th</sup>, and 15<sup>th</sup> years of the Initial Term to be within ten percent (10%) of the output (calculated using the PV Watts version 1.0 with initial system sizes rated at STC methodology employed by the Company in the Company Proposal, using a de-rate assumption of .80 and a default location of Newark, based on tilt and azimuth assumptions provided in the Company Proposal) as set forth in the final Plans and Specifications for the Renewable Energy Projects; provided, that to the extent that such output shall fall below such limit, the remedy therefor shall be solely as set forth in subsection (d) below.

(d) To the extent that the Renewable Energy Projects' output shall fall below the limits set out in the preceding subsection (c) and such shortfall is not due to an action of the Customer, Service Provider shall reimburse Customer for the difference between Customer's variable line item cost for electricity, per kWh, as evidenced by that amount delivered and billed by the local electric utility distribution provider to Customer in lieu of the Electricity to have been provided by Service Provider, and the PPA Price, per kWh, set forth in this Power Purchase Agreement, such difference in price per kWh to be applied to the amount of such Renewable Energy Projects' output deficiency. Such reimbursement shall occur no later than sixty (60) days after the next occurring anniversary of the Commencement Date that arises after the date in which the shortfall occurred. In the event such reimbursement payment is not made by Service Provider, Customer shall be entitled to deduct such amount in three (3) equal amounts from its PPA Price

- 33 -

invoice payments in the following three (3) months after such sixty (60) days, or if invoice amounts are not large enough to allow for the entirety of such credit during such time, the balance shall be credited as quickly as possible thereafter.

(e) To the extent that the Renewable Energy Projects' output shall fall below the limits set out in the preceding subsection (c) at the end of one of the 5-year periods of the Initial Term, and Service Provider reimburses Customer as set out in the preceding subsection (d), the amount of the shortfall in kWh upon which the reimbursement payment is based shall be deducted from the cumulative guaranteed output amounts at the end of subsequent 5-year periods.

(f) To the extent that a reduction in the amount of Electricity produced by the Renewable Energy Projects is caused due to action of the Customer, such as that contemplated in Section 4.5(c) or due to the circumstances described in Sections 3.6(d), 4.6(b) or 6.6 hereof, 100% of the amount of Electricity that would otherwise have been produced will be deducted from both (i) the cumulative guaranteed output at the end of the 5-year period in which the reduction due to Customer action occurs, and (ii) the cumulative guaranteed output amounts at the end of all subsequent 5-year periods.

#### Section 6.2 Rates and Charges.

Customer shall pay to Service Provider the monthly fees and charges for Electricity as set forth in Exhibit B and Sections 3.5(c) and 6.4 hereof (the "PPA Price").

#### Section 6.3 Service Provider Reservation of Rights; Benefits Shared.

(a) Service Provider retains all ownership and rights to use, sell, or transfer (i) except as set forth in subsection (c) below, SRECs and (ii) rights with respect to Federal tax benefits (Investment Tax Credit and MACRS Depreciation) associated with the Renewable Energy Projects. Nothing in this Section 6.3 shall relieve Service Provider from its obligation to sell Electricity generated by the Renewable Energy Projects to the Customers.

(b) The Authority shall have the option, in accordance with Section 6.3(e), to direct an Authorized Officer of the Authority directing the Service Provider to sell to the Authority, from the period on and after the date of the election, sixty percent (60%) of any financial / environmental benefits, with the exception of SRECs or as described in Section 6.3(d) hereof (allocated in accordance with subsections (a) and (c)), determined in the future (but unknown at this time) to be attributable to the Renewable Energy Projects for the Series 2011 Local Units. If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and sell or otherwise monetize such financial / environmental benefits on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee. The balance of any such financial / environmental benefits are the property of the Service Provider. If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and sell such SRECs on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee.

- 34 -

#### Section 6.5 Taxes; Other Governmental Charges.

To the extent that Service Provider, Customer, and/or the Authority shall become responsible for the payment of any tax as a result of the placement, operation or maintenance of the Renewable Energy Projects on the Local Unit Facility (other than taxes imposed by Customer after the date of this Power Purchase Agreement), Service Provider shall be responsible for the payment of all such taxes and or assessments. Such obligation shall be limited to the Renewable Energy Project improvements constructed by the Service Provider on the Local Unit Facility. The Service Provider shall have the right to challenge the lawfulness of any tax or assessment associated with the construction, operation, or maintenance of the Renewable Energy Projects on the Local Unit Facility that shall be imposed on Service Provider, or that shall be attributable to Customer and/or the Authority for which Service Provider shall be required to pay. The Authority and Customer shall be notified of any such challenge by Service Provider, and further, shall be periodically kept informed of all developments, including copies of any pleadings or other documents comprising the docket of any such challenge.

#### Section 6.6 Alterations to Customer's Facilities.

The Authority and Customer agree not to undertake any structural alterations or repairs to the Local Unit Facilities that may adversely impact the operation and maintenance of the Renewable Energy Projects by Service Provider, without giving prior written notice to Service Provider, and without obtaining the input from Service Provider regarding the best manner in which such alterations or repairs might be conducted without affecting, or minimizing the effect on, as applicable, the operations and maintenance of the Renewable Energy Projects. If the Authority or Customer shall perform any alterations or repairs that permanently reduce the production of the Renewable Energy Projects resulting from such alteration or repairs, then the Parties shall negotiate a per kWh PPA Price adjustment to make the Service Provider whole for any loss in production capability. The per kWh PPA Price adjustment shall be established by negotiation by the Parties or, failing agreement within a reasonable time, by arbitration pursuant to the provisions of Section 14.5.

#### Section 6.7 Point of Delivery.

Service Provider agrees that it shall provide Electricity services to Customer at the Point of Delivery as specified in the Plans and Specifications.

#### Section 6.8 Energy Metering.

The output of the Renewable Energy Projects will be measured by revenue grade production meters in addition to load metering, inverter monitoring, and sub-combiner monitoring meters installed by the Service Provider in accordance with industry standards. Service Provider shall conduct tests of the Meters at such times as it deems appropriate in accordance with industry standards, but not less than once in any two year period. Service Provider shall promptly repair all Meter failures or defects. Should a Meter ever be deemed to reflect inaccuracies in measurement, the Service Provider shall make corresponding adjustments to the records of the amount of Electricity being provided by the Renewable Energy Project delivered based on the period in

- 36 -

(c) The Authority shall have the option, exercisable by the Authority in its sole discretion at any time from July 15, 2017 until and including December 15, 2017, through the execution by the Authority and delivery to the Service Provider of a Certificate of an Authorized Officer of the Authority directing the Service Provider to sell to the Authority fifty percent (50%) of the remaining SRECs to be realized from the expected generation of electricity from all of the Renewable Energy Projects from December 15, 2017 through and including December 15, 2027. The purchase price for any such sale of SRECs, to the extent the Authority exercises this option, shall be four hundred dollars (\$300). If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and sell such SRECs on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee.

(d) The Authority shall have the option, in accordance with Section 6.3(e) to direct the Service Provider to sell to the Authority, from the period on and after the date of election, sixty percent (60%) of any additional benefits resulting from the Service Provider's participation in the Authority's Renewable Energy Program, including without limitation any savings resulting from one or more refundings of the Series 2011 Bonds, with such specific terms of allocation to be set forth in a Certificate of an Authorized Officer of the Authority, as acknowledged in writing by Service Provider. The purchase price for any such sale, to the extent the Authority exercises this option, shall be set forth in any such Certificate. If the Authority exercises this option, to the extent any such Authority Certificate so directs, Service Provider further agrees to act as agent for the Authority, and monetize such benefit on behalf of the Authority, paying the proceeds realized from any such sale to the Authority as an additional Administrative Fee.

(e) The option provided in Sections 6.3(b) and (d) shall be exercisable simultaneously by the Authority in its sole discretion during the period July 15, 2017 through December 15, 2017 by a Certificate of an Authorized Officer of the Authority to the Service Provider and accompanied by (x) the payment of \$250,000, and (y) such other amount as the parties may agree constitutes fair market value therefor, and accompanied by a professional opinion that such alternative amount is consistent with the fair market value of the rights described in Sections 6.3(b) and (d).

#### Section 6.4 Payment Terms.

Service Provider shall measure and read all Meters on or about the first Business Day of each calendar month during the term of this Power Purchase Agreement, commencing the first month immediately following the date set forth in Section 3.5(d) of this Power Purchase Agreement, which date shall be on or prior to the Commencement Date. Promptly thereafter, Service Provider shall provide in writing to Customer, with a copy to the Trustee, an invoice setting forth the Electricity charges as set forth in Exhibit B and quantity of Electricity delivered during the previous period. Should an error in invoicing be determined, then Service Provider agrees to promptly provide for an adjustment of the next-due invoice to remedy said error. Customer shall have thirty (30) Business Days after the date of the invoice in which to pay the invoice in full. Any sums owing and remaining unpaid after the expiration of said period of time shall bear interest at a rate equal to the lesser of one and one-half percent (1 and 1/2%) per month until paid in full, or highest rate allowed by law.

- 35 -

between the date of the discovery of the inaccuracy and the last testing date of the Meter. Should the Meter ever become non-operational, but Electricity is still being provided by Service Provider to Customer hereunder, then the Parties hereto shall endeavor in good faith to address the Meter failure based upon, among other things, historical and cyclical consumption. To the extent that the Parties hereto are unable to adjust the inaccuracy, then they shall appoint their respective engineers or an independent meter consultant who, along with a third party independent engineer chosen by the Parties' engineers, shall review, examine, mediate and arbitrate the Meter adjustment. The decision of the engineers shall be final, and shall be reduced to the form of an invoice adjustment to be delivered by Service Provider to Customer. Notwithstanding the existence of any inaccuracy, or the allegation or belief of the existence of an erroneous Meter reading, Customer shall at all times pay all invoices in accordance with those time periods set forth herein, with the understanding that adjustments shall be reflected on subsequent invoices. Customer shall have no right to withhold invoice payment due to the actual or alleged existence of Meter inaccuracy except in the case when the current invoice varies by thirty percent (30%) or greater compared with historic like month data.

#### Section 6.9 Information Technology Support.

Customer shall provide Service Provider with access to the Customer's data management network for the Service Provider to monitor system performance and metering from remote locations, as required by Section 3.1(c)(iv) of the Local Unit License Agreement.

All such coverages shall be endorsed to indicate that such coverages shall not be materially changed or canceled without at least thirty (30) days prior notice to the Authority and Customer, such prior notice being mandatory and not the best efforts of the carrier to notify. Prior to the expiration of the required coverages, Service Provider shall provide the Authority and Customer with evidence of the renewal of all such coverages required on at least the same terms and conditions as originally required for this Power Purchase Agreement. All agents, contractors and other licensees under the Local Unit License Agreement (other than the Authority) working for the Service Provider shall also be required to maintain all insurance coverages set forth in this Section 8.2; however, that any such party covered by the EPC Contractor or the Service Provider's insurance coverage is not required to have duplicate insurance coverage, except (i) property damage coverage will be provided exclusively by the EPC Contractor (in case of builder's risk coverage) and by the Service Provider (in the case of the property insurance covering the Local Unit Facility after it enters into commercial operation), and (ii) to the extent any subcontractor is unable to provide the excess liability coverage in the amount required under Section 8.02(a)(v), the excess liability coverage requirement can be satisfied if such subcontractor is included under the excess liability policy of the EPC Contractor.

(d) Reserved.

#### Section 8.3 Customer's Insurance.

On or before Service Provider shall commence any construction activities at the Local Unit Facilities and at all times thereafter for as long as this Power Purchase Agreement remains in effect,

- 41 -

Customer shall maintain at its sole expense Comprehensive General Liability (including contractual) and coverage for loss or damage, in an amount not less than \$1,000,000, with respect to any liability, losses, damages, expenses, claims, actions, judgments and settlements for any personal injury, death or property or economic loss occurring in Local Unit Facilities or surrounding premises and arising out of or incident to the operation, maintenance, repair, construction, replacement or modification of the Local Unit Facilities, excluding the Renewable Energy Projects.

**Section 8.4 Additional Insured.**

Service Provider and Customer shall each name the other, for all eligible types of insurance, the Authority, and the local government, if different from Customer that owns the Local Unit Facility as an additional insured on each eligible policy of insurance procured by it in satisfaction of this Article VIII.

**Section 8.5 Evidence of Insurance.**

Prior to accessing a Local Unit Facility, Service Provider and Customer shall each furnish to the other one or more certificates of insurance evidencing the existence of the coverage set forth in Sections 8.2 and 8.3, respectively. Each certificate shall state that the insurance carrier will give Service Provider and Customer at least thirty (30) days written notice of any cancellation or material change in the terms and conditions of such policy during the periods of coverage. Notwithstanding anything else contained herein or in the License Agreement, to the extent the insurance is in accordance with Accord 25 (2010/05) should any of the above policies described herein be cancelled before the expiration date thereof, notice will be delivered in accordance with the policy provisions.

**Section 8.6 Use of Insurance Proceeds.**

Unless the Authority, the Customer, and the Service Provider agree otherwise, in the event of any loss or liability related to the Projects, Service Provider agrees to promptly restore the Projects to the condition prior to such loss, and Service Provider will use the proceeds received by or on behalf of the Authority (the Authority agreeing to make such proceeds available) or the Service Provider, in either case from any policy of insurance providing coverage for such loss to make all necessary repairs or replacements to the Projects and to promptly restore deliveries of Electricity to Customer.

**Section 8.7 Casualty and Condemnation with Respect to Underlying Local Unit Facilities.**

(a) **Casualty.** In the instance where a Local Unit Facility has suffered a casualty which renders the applicable Project inoperable and such Customer fails to rebuild such Local Unit Facility within a commercially reasonable time, then Customer shall comply with the terms of Section 3.7(i)-(iv), inclusive, of such Customer's Local Unit License Agreement with respect to such Local Unit Facility as if such failure to rebuild is deemed a revocation pursuant to Section 3.7 of the applicable Local Unit License Agreement.

- 42 -

**ARTICLE IX  
EVENT OF DEFAULT**

**Section 9.1 Service Provider Event of Default.**

Any of the following events shall constitute a Service Provider Event of Default:

(a) Service Provider shall fail or cease to deliver Electricity to a Customer for a continuous period of thirty (30) days unless (i) Service Provider's performance is excused by a Force Majeure event, or by action or inaction of such Customer, or otherwise as provided in this Power Purchase Agreement, and Service Provider is diligently pursuing a cure, or (ii) Service Provider is willing to pay Customer during the term of such non-performance liquidated damages equal to the positive difference, if any, of the cost of replacement power less the per kWh PPA Price provided in this Power Purchase Agreement;

(b) Service Provider fails to make timely lease payments or otherwise causes an Event of Default as defined under the Company Lease Agreement or as defined in any other Company Document, notwithstanding a Force Majeure event; or,

(c) Service Provider shall fail to comply with any other provision of this Power Purchase Agreement, other than as described in subsection (a) and (b) above, and such failure continues for ninety (90) days of a written demand to cure; provided, however, that if such failure cannot be cured within said ninety (90) day period, Service Provider shall not be in default if it has commenced to cure within such ninety (90) day period if such action to cure the default is acceptable to the Authority and the Authority indicates the same in writing; and provided, further, that Service Provider diligently seeks to cure such failure.

**Section 9.2 Customer Event of Default.**

The following events shall constitute a Customer Event of Default:

(a) Customer shall fail or refuse to pay any bill for service rendered under this Power Purchase Agreement for Electricity on which payment is due in accordance with the terms of this Power Purchase Agreement, within forty-five (45) days of Service Provider's written demand therefor.

(b) Customer shall fail to comply with any other provision of the Agreement or their Local Unit License Agreement (including any failure to comply that constitutes a Licensor Event of Default as defined in the Local Unit License Agreement) and such failure shall continue for a period of sixty (60) days after receipt of written notice of such failure provided, that if such failure cannot be cured within sixty (60) days, then within a reasonable time so long as Customer diligently seeks to cure such failure.

- 44 -

(b) **Condemnation.** In the instance where a Local Unit Facility has suffered a taking which renders the construction or operation of the applicable Project unfeasible and such Customer fails to remediate such taking, then Customer shall comply with the terms of Section 3.7(i)-(iv), inclusive, of such Customer's Local Unit License Agreement with respect to such Local Unit Facility as if such taking is deemed a revocation pursuant to Section 3.7 of the applicable Local Unit License Agreement.

The following events shall constitute an Authority Event of Default:

(a) Authority shall fail to comply with any other provision of this Power Purchase Agreement or the Local Unit License Agreements and such failure shall continue for a period of thirty (30) days after receipt of written notice of such failure provided, that if such failure cannot be cured within thirty (30) days, then within a reasonable time so long as the Authority diligently seeks to cure such failure.

## ARTICLE X

### REMEDIES

#### Section 10.1 Remedies upon a Service Provider Event of Default.

(a) Upon a Service Provider Event of Default as described in Section 9.1(a) hereof, the affected Customer may terminate the Power Purchase Agreement as to such Customer by written notice to Service Provider, which notice shall be effective upon delivery, which may give rights to certain Parties or other interested parties involved in the Renewable Energy Program to the County Security and/or the Construction Performance Bond. Such rights shall be in addition to any and all other rights and remedies that Customer may have at law or in equity including, without limitation, the right to recover monetary damages and thereafter pursue such damages or other relief to which Customer may be entitled with respect to any monetary damages owed by Service Provider which do not result in a termination of this Power Purchase Agreement.

(b) Upon a Service Provider Event of Default as described in Section 9.1(b), the Authority may exercise its rights under any other Company Document.

(c) Upon a Service Provider Event of Default as described in Section 9.1(c), the sole remedy of any other Party shall be specific performance or if applicable monetary damages.

#### Section 10.2 Remedies upon a Customer Event of Default.

(a) Upon a Customer Event of Default as described in Section 9.2(a) hereof (i.e., following expiration of the 45-day period following Service Provider's written demand for payment), (i) Service Provider may suspend performance hereunder until such time as Customer cures the Event of Default, and (ii) if such Event of Default continues for another 30 days, Service Provider may terminate the Power Purchase Agreement with respect to such Customer by written notice to the Authority and such Customer, which notice shall be effective upon delivery, it being expressly understood however that any such termination shall not relieve Service Provider from its obligations under the Company Lease Agreement with respect to the lease payments due thereunder, or under any other Company Lease Agreement, with respect to any other Customer. Such rights shall be in addition to any and all other rights and remedies that Service Provider may have at law or in equity including, without limitation, the right to recover monetary damages and thereafter pursue such damages or other relief to which Service Provider may be entitled.

(b) Upon a Customer Event of Default as described in Section 9.2(b), the sole remedy available to any other Party shall be specific performance or, if applicable, monetary damages.

(c) To the extent a Customer Event of Default would constitute a Licensor Event of Default under the applicable Customer's Local Unit License Agreement, the remedies set forth in Section 6.2 of such Customer's Local Unit License Agreement shall apply to the same extent as set forth herein.

## ARTICLE XIII

### TERMINATION

#### Section 13.1 Termination.

No Party may terminate the Agreement, except upon the other's Event of Default as provided herein, or as otherwise expressly provided in this Power Purchase Agreement.

## ARTICLE XIV

### MISCELLANEOUS

#### Section 14.1 Assignment.

None of Service Provider, the Authority or any Customer shall assign this Power Purchase Agreement without first having obtained the written consent of the other Parties, provided, however, Service Provider may assign its rights and delegate its duties and obligations under this Power Purchase Agreement to any special purpose entity which it may organize for the purpose of owning and operating the Renewable Energy Projects (a "Permitted Provider Assignee"), so long as contemporaneously herewith such Service Provider, or its Permitted Provider Assignee, delivers the County Security and the Construction Performance Bond; and provided, further, that with the consent of Service Provider and Customer, certain payments hereunder may be assigned to the Trustee for the Series 2011 Bonds as further security therefor.

#### Section 14.2 Governing Law, Waiver of Right to Jury Trial, and Jurisdiction.

(a) This Power Purchase Agreement and the rights and obligations of the Parties shall be governed by, construed, and enforced in accordance with, the laws of the State. In order to expedite resolution of any actions, suits, or proceedings that arise under this Power Purchase Agreement, and in light of the complexity of the transactions contemplated hereby, each of the Parties (i) irrevocably waives the right to trial by jury in any such actions, suit, or proceeding of any kind or nature in any court to which it may be a Party and (ii) other than with respect to arbitration in accordance with the provisions of Section 14.5 hereof, agrees that venue shall be laid in the Superior Courts of Morris County, New Jersey.

(b) With respect to any such action, suit, or proceedings relating to this Power Purchase Agreement or arising in connection with the transactions contemplated hereby, the Parties irrevocably (i) submit to the exclusive jurisdiction of the federal and State courts of the State; (ii) waive any objection which it or they may have at any time to the laying of venue of any action, suit or proceeding in any such court; (iii) waive any claim that any such action, suit, or proceeding has

#### Section 10.3 Remedies upon an Authority Event of Default.

(a) Upon an Authority Event of Default as described in Section 9.3, the sole remedy available to any other Party shall be specific performance, or if applicable, monetary damages.

## ARTICLE XI

### FORCE MAJEURE

#### Section 11.1 Suspension of Performance.

No Party shall be in default in respect of any obligation under this Power Purchase Agreement with respect to one or more Projects if the Party is unable to perform such obligation by reason of a Force Majeure event affecting any such Project; provided that the suspension of performance with respect to such Project shall be commensurate with the nature and duration of the Force Majeure event and the nonperforming Party is using its commercially reasonable efforts to restore its ability to perform.

#### Section 11.2 Termination by Reason of Force Majeure.

If a Party's performance with respect to any Project is excused by reason of Force Majeure for more than twelve (12) consecutive months, any of the Parties (otherwise not in breach of this Power Purchase Agreement) may terminate this Power Purchase Agreement in so far as it relates to such Project upon thirty (30) days written notice to the other Parties, notwithstanding the existence of Force Majeure.

## ARTICLE XII

### LIMITATION ON LIABILITY

#### Section 12.1 Limitation on Liability.

Notwithstanding anything in this Power Purchase Agreement to the contrary, none of the Authority, Customer or Service Provider shall be responsible to any other in contract or in tort for any special, incidental or consequential loss or damage, including opportunity costs, arising out of this Power Purchase Agreement. The Parties hereto agree that Customer is fully responsible for the upkeep and maintenance of all of the Customer's equipment and property after the Point of Delivery to Customer's operating site that is utilized in connection with the operation of the Renewable Energy Projects including, without limitation, electric panels, sub-panels and sub-metering. Except as provided in Section 3.6 hereof, which shall be Customer's sole and exclusive remedy, Service Provider shall not be responsible for any damages that Customer may incur as a result of delays associated with the construction of the Projects.

- 47 -

been brought in an inconvenient forum and (iv) waive the right to object that such court does not have jurisdiction over the Parties.

#### Section 14.3. Successors and Assigns.

This Power Purchase Agreement shall inure to the benefit of, and be binding upon the Parties hereto and to their successors and assigns.

#### Section 14.4 Waiver.

No provision of this Power Purchase Agreement may be waived absent the express written consent of the Authority, the Service Provider and each affected Customer, if any. The failure of any Party hereto to assert any of its rights under this Power Purchase Agreement shall not be construed to constitute a waiver of such provision, nor in any way be deemed to affect the validity of this Power Purchase Agreement or any part hereof or the right of any Party hereto to thereafter subsequently enforce its rights and remedies as otherwise provided herein. No express and written waiver of any breach of this Power Purchase Agreement shall be held to constitute a waiver of any other provision hereof or any subsequent breach hereof.

#### Section 14.5 Arbitration.

Should any dispute, controversy or claim arise hereunder, then the Parties covenant and agree, to the extent permitted by law, that all such disputes, controversies or claims shall be submitted to non-binding arbitration, and in all other cases legal actions concerning such disputes, controversies and claims shall be brought in the Superior Court of Morris County, New Jersey. Arbitration shall be conducted before an arbitrator chosen by the American Arbitration Association, should the Parties hereto not be able to otherwise agree upon an arbitrator to adjudicate said matter. The arbitration shall be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association. The cost of arbitration, along with the prevailing Party's legal fees and costs of arbitration, shall be borne by that Party which the arbitrator deems to be the non-prevailing Party to the arbitration. It is the intent of the Parties that there shall be liberal discovery permitted including depositions and document production.

#### Section 14.6 Entire Agreement, Amendment.

This Power Purchase Agreement, together with the other Program Documents, constitutes the entire agreement by and between the Parties hereto and supersedes and replaces all previous understandings and agreements, whether written or oral, which may have existed between the Parties hereto. This Power Purchase Agreement may only be modified by a subsequent written instrument which shall be executed by the Authority and the Service Provider, and to the extent any such amendment involves any terms that could adversely affect any Customer, by such Customer.

#### Section 14.7 Partial Invalidity.

If any non-material part of this Power Purchase Agreement is held to be unenforceable, the

- 49 -

rest of this Power Purchase Agreement will continue in effect. If a material provision is determined to be unenforceable and the Party which would have been benefited by the provision does not waive its unenforceability, then the Parties shall negotiate in good faith and if they are unable to reach agreement on an appropriate amendment within a reasonable time, their disagreement shall constitute a dispute and be resolved pursuant to the provisions of Section 14.5 (relating to arbitration). The arbitrator may grant any remedy or relief, including reformation of this Power Purchase Agreement, that the arbitrator deems just and equitable.

**Section 14.8 Non-Substitution.**

Customer covenants and agrees that throughout the Initial Term of this Power Purchase Agreement, and all extensions hereof, that with respect to the Local Unit Facility (a) it shall not purchase, lease or rent property to perform the same function or provide the same services as, or functions or services taking the place of, those functions and services being provided by Service Provider under this Power Purchase Agreement, (b) it shall not permit such functions of services to be performed or supplied by Customer's own employees or by Customer or any agency, affiliate or third party of Customer, (c) it shall not otherwise enter into any agreement with any third party or otherwise affiliated party to perform such functions or services, and/or (d) otherwise take steps to circumvent or defeat the intentions of this paragraph or this Power Purchase Agreement. During the Initial Term of this Power Purchase Agreement and throughout all extensions hereof, Customer covenants and agrees to look to and consider Service Provider as the Local Unit's sole and exclusive supplier of Electricity up to the total amount generated by the Renewable Energy Projects.

**Section 14.9 Further Assurances.**

The Parties hereto agree to execute all documents and take all further actions which might be reasonably requested by any other Party in order to better fulfill or evidence the intentions of the Parties hereto.

**Section 14.10 Counterpart Execution; Facsimile Signatures.**

This Power Purchase Agreement may be executed and acknowledged in counterparts, and when signed by all of the Parties hereto shall constitute one binding agreement. Facsimile Signatures shall be deemed the same as originals.

**Section 14.11 Waiver of Sovereign Immunity.**

For the purposes of this Power Purchase Agreement, the Authority and each Customer acknowledge and agree that (a) its execution and delivery of this Power Purchase Agreement and (b) its performance of the actions contemplated by this Power Purchase Agreement, constitute private and commercial acts rather than public or governmental acts. To the extent that, in any jurisdiction, the Authority or such Customer in respect of itself or its assets, properties or revenues, shall be entitled to any contract immunity from suit, from the jurisdiction of any court, from attachment prior to judgment, from attachment in aid of execution of judgment, from execution, or enforcement of a judgment, or from any other legal or judicial process or remedy, such party hereby, except with respect to tort claims related to this Power Purchase Agreement, (i) expressly and irrevocably agrees

- 50 -

**Section 14.13. Approvals.**

In order to ensure that construction of the Renewable Energy Projects is not unduly delayed, in the event that any party to this Power Purchase Agreement, including without limitation any Series 2011 Local Unit, seeks the approval or consent of another Party to this Power Purchase Agreement, the Party considering such request shall not unreasonably condition, withhold or delay such consent or approval.

not to claim or assert, and expressly and irrevocably waives, any such immunity to the fullest extent permitted by the laws of such jurisdiction solely as to the Company and (ii) consents generally to the giving of any relief or the issue of any process in connection with any proceeding. This waiver does not apply to any Series 2011 Local Units tort immunity as established by law.

**Section 14.12 Notice.**

Unless otherwise provided in writing, any notices to be given or to be served upon any Party hereto, or any other documents to be delivered to Party, all in connection with this Power Purchase Agreement, must be in writing and may be delivered personally, by telecopy, by e-mail, or by overnight, certified or registered mail. If such notice or document is delivered by certified or registered mail, it shall be deemed to have been given and received forty-eight (48) hours after a registered or certified letter containing such notice, postage prepaid, is deposited in the United States mail. If such notice or document is delivered by telecopy or e-mail, a hard copy of such notice or document shall be sent by certified or registered mail, although such notice or document shall be deemed to have been delivered upon receipt of the telecopy or e-mail by such Party. If such notice is given or document is delivered otherwise, it shall be deemed to have been given or delivered, as applicable, when delivered to and received by the Party to whom it is addressed. Such notice or document shall be given to the Party at their following respective addresses or at such other address as any Party may hereafter designate to the other Parties hereto in writing:

## Exhibit B

### PPA Price - Electricity Rates and Escalation Adjustments

For any year of this Power Purchase Agreement and with respect to each respective Customer, the PPA Price payable by any one such Customer is the sum of Sections a and b below (after the escalation percentage factor in Section 2 below is converted into a dollar amount for the applicable year of computation).

(a) Cost of Electricity, per kWh, pursuant to the Power Purchase Agreement, for the period (a) from the date of the first delivery by the Service Provider to such Customer of Electricity from the Renewable Energy Project on the Local Unit Facility of such Customer (b) to, but excluding, the first anniversary of the applicable Commencement Date for such Customer: \$0.0935/ kWh.

(b) Annual escalation (expressed as a fixed percentage increase from the prior year's PPA Price) applicable as of each anniversary date of the Commencement Date for such Customer in effect for the following year to, but not including, the immediately succeeding anniversary of such Commencement Date for such Customer: three percent (3.00%).

(i) This escalation factor commences on the first anniversary of the Commencement Date for such Customer, and ends at the end of the Initial Term, unless further adjusted in accordance with the terms of any extension of the Initial Term pursuant to the terms of the Power Purchase Agreement.

(c) The Parties further agree to the following:

(i) Although the percentage of escalation is fixed in Section 2, since it is based on the prior year's PPA Price, which is itself increasing on an annual basis, the actual dollar amount of each year's escalation increases.

(ii) With the possibility that each Customer shall have different Commencement Dates, and although each Customer shall be subject to the same base cost of Electricity governed by Section 1 above and the same escalation factor governed by Section 2 above, the actual PPA Price payable by one or more Customers may vary on the same date of computation for different Customers.

(iii) In light of the provisions of Section 6.5 of the Power Purchase Agreement, the PPA Price for any Applicable Customer shall be further escalated for any increase in taxes assessed or levied against the Renewable Energy Projects, which taxes shall be imposed by or on behalf of any such Customer, if any; provided, however, that any such increase shall be solely available to the entity that must pay any such tax, the intent being that there shall be no after tax effect on the PPA Price, should any such tax ever be imposed.

**LICENSE AND ACCESS AGREEMENT**  
(Sussex County Renewable Energy Program, Series 2011)

THIS "LICENSE AND ACCESS AGREEMENT (Sussex County Renewable Energy Program, Series 2011)" (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "[A] Local Unit License Agreement"), dated as of December 1, 2011, is made by and among [insert name of Local Unit] (the "Licensor"), a public body corporate and politic organized and existing under the laws of the State of New Jersey, in the County of Sussex (the "County"), State of New Jersey ("State") and the MORRIS COUNTY IMPROVEMENT AUTHORITY (including any successors and assigns, the "Authority" or the "Licensee"), duly created by resolution of the Board of Chosen Freeholders ("Board of Freeholders") of Morris County as a public body corporate and politic of the State pursuant to and in accordance with the provisions of the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 et seq., the "Act") and other applicable law.

WHEREAS, the County of Sussex, New Jersey, a political subdivision of the State (the "County") desires to undertake the development and implementation of a renewable energy program (the "Renewable Energy Program") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and biomass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "Renewable Energy Projects") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "Local Units");

WHEREAS, the Morris County Improvement Authority (the "Authority") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "Morris County Board of Freeholders") of the County of Morris (the "Morris County") in the State of New Jersey (the "State") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 et seq., the "Act"), and other applicable law;

WHEREAS, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the

Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "Section 11"), which purposes include the development and implementation of the Renewable Energy Program;

WHEREAS, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 et seq., the "Shared Services Act"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "Service Agreement") between the County and the Authority, and consented to by Morris County;

WHEREAS, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "Authority Consultants") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

WHEREAS, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "Sussex County Consultants"), if any, and together with the Authority Consultants, the "Consultants"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority (and Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

WHEREAS, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "Local Unit Facilities");

WHEREAS, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance

of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "Capital Improvement Projects") and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "Projects"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

WHEREAS, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

WHEREAS, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the "Municipal Series 2011 Local Units"); and
- (ii) Byram Township School District, Frankford Board of Education, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Township Board of Education, High Point Regional Board of Education, Kittatiny Regional School District, Lafayette Township Board of Education, Lenape Valley Board of Education, Newton Board of Education (collectively, the "Board of Education Series 2011 Local Units"); and
- (iii) County and Sussex County Technical School (the "County Series 2011 Local Units");

(each a "Series 2011 Local Unit", and, collectively, the "Series 2011 Local Units"), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

WHEREAS, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)" dated their date of delivery (the "Series 2011A Bonds") the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the "Series 2011A Bonds"), and (ii) one series of notes in the aggregate principal amount of \$985,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally

(c) The Authority hereby assigns to the Licensor and the Licensor hereby assumes (and to the extent any such Power Purchase Agreement shall be entered into subsequent to the date of authorization, execution and delivery of this [A] Local Unit License Agreement, such assignment shall take effect immediately upon the authorization, execution and delivery of the Power Purchase Agreement) all of its rights, duties and obligations under the Power Purchase Agreement, insofar as it relates to the Licensor or the applicable Series 2011 Local Unit, subject to the provisos below, including without limitation the rights and obligations to purchase power

The purchase price for any such Fair Market Value purchase is not contemplated in the sizing of the Bonds, and the Licensor shall be solely obligated to finance and pay (or pay out of available funds) such purchase price to or on behalf of the Company; *provided, however*, that to the extent practicable, the Authority shall determine whether it can assist the Licensor with the funding of any such Fair Market Value purchase through the issuance of bonds, notes or other obligations of the Authority, if so requested by the Licensor at such time, and if practicable, the Authority shall provide such Fair Market Value purchase funds to the Licensor at terms that are consistent with then existing current market conditions.

(e) The Authority shall cause the Power Purchase Agreement to include Force Majeure provisions, and shall further cause the Company Documents to include provisions to the effect that, upon the expiration of the Power Purchase Agreement (without or after one or more extensions to the extent permissible under applicable law), and to the extent the Licensor foregoes its right to exercise its Fair Market Value option set forth in subsection (d) above or, as applicable, its purchase option set forth in Section 5.2 below, the Company, or any other [A] Licensees, as applicable, shall be obligated to (i) remove, within a reasonable period of time (as determined by the Authority), the [A] Renewable Energy Projects from the [A] Local Unit Facilities at the sole cost and expense and effort of the Company or any such other [A] Licensees, and (ii) restore, within a reasonable period of time, the [A] Local Unit Facilities, as improved by the [A] Capital Improvement Projects, to the condition prior to the installation of the [A] Renewable Energy Projects, reasonable wear and tear excepted, it being expressly understood by the Parties that the Local Unit shall expend no cost in any such removal or restoration, but shall, to the extent practical, provide such assistance as shall be necessary, desirable or convenient to effect such removal and restoration, and the [A] Local Unit License shall not expire until such removal and restoration shall have been completed, and the Licensor issues a written certificate of an Authorized Officer of the Licensor to such effect to the Authority.

(i) As Section 5.1(c)(i) hereof controls the purchase and payment by the Licensor for electricity generated from its [A] Renewable Energy

from the Company thereunder from the [A] Local Unit Facilities, all in accordance with the terms and conditions set forth in the Power Purchase Agreement; provided however that such assignment shall and hereby does specifically exclude (I) any rights specifically reserved under the Power Purchase Agreement to the Authority, if any, and (II) the Local Unit License and the other rights being assigned by the Authority to the other Series 2011 Local Units with respect to their Local Unit Facilities under their respective Local Unit License Agreements.

(i) Specifically, without limitation, upon the Licensor's acknowledgment of the Power Purchase Agreement, as assignee of such Authority interests contemplated by this subsection (e), the Licensor shall and hereby does agree, during the Term for so long as the Power Purchase Agreement shall be in effect, to purchase the electricity generated by the [A] Renewable Energy Projects located on, or as applicable, in the [A] Local Unit Facilities from the Company for the price established under the Power Purchase Agreement (including any escalators set forth therein), and the Licensor shall pay the Trustee directly, on behalf of the Company (unless the Licensor receives a written notice from the Authority to the effect that the Company has prepaid all of the Series 2011 Bonds and that the Lessee has delivered the required Certificate of an Authorized Officer of the Lessee pursuant to Sections 402(a)(iii) and 703(b)(iii) of the Company Lease Agreement, in which case the Licensor shall pay either (i) the Company, or (ii) a third-party at the direction of the Company), for any such electricity, upon the terms set forth in the Power Purchase Agreement. Such terms include, without limitation, the payment by the Licensor of the PPA Price on or before the Commencement Date, (as such terms are defined in the Power Purchase Agreement), all as set forth in Section 3.5 (including any adjustments referenced therein) and Exhibit B of the Power Purchase Agreement. Subject to Force Majeure (as defined in the Power Purchase Agreement), the Licensor shall make such payments in full and on time, without regard to set-off or any other rights it might assert against the Authority, the Company or the Trustee for any reason, which rights against the Authority, the Company and the Trustee are hereby waived by the Licensor.

(d) Subject to Section 5.2 hereof, the Authority shall cause the Company Documents to include provisions providing for the following, upon the expiration of the Power Purchase Agreement (without or after one or more extensions to the extent permissible under applicable law): (i) providing the Licensor or the Authority, at the direction of the Licensor, as applicable, an option to purchase the [A] Renewable Energy Projects installed on or, as applicable, in the [A] Local Unit Facilities, which option shall remain outstanding for a period of no fewer than thirty (30) days, (ii) providing for a purchase price equal to the then existing Fair Market Value (as defined in the Power Purchase Agreement) of the [A] Renewable Energy Projects, such Fair Market Value to be determined in accordance with Section 3.7(b) of the Power Purchase Agreement which determination of Fair Market Value shall take into account all the facts and circumstances of the marketplace for such [A] Renewable Energy Projects at such time, including without limitation, its continued operation and maintenance costs, its technological feasibility, as compared to then existing alternatives, and its continued utility to the Licensor, and (iii) to the effect that upon the exercise of any such Fair Market Value option by

Projects so long as the Power Purchase Agreement is in effect, upon the early termination of the Power Purchase Agreement for the reasons set forth above in subsection (a), the Licensor shall and hereby does agree, during the remainder of the Term, to purchase the electricity generated by the [A] Renewable Energy Projects located on, or as applicable, in the [A] Local Unit Facilities from the Authority, as owner of the [A] Renewable Energy Projects, for the same price previously established under the prior Power Purchase Agreement (including any escalators set forth therein, the "Gross Substitute Power Purchase Price"), and the Licensor shall pay the Authority directly for any such electricity, or alternatively, the Authority may direct the Licensor to pay all or a portion of such Gross Substitute Power Purchase Price, less the amounts set forth in clauses (ii) and (iii) below (after taking into account such payments in clauses (ii) and (iii) below, the "Net Substitute Power Purchase Price") (A) to or on behalf of the County Security Provider, as part of the Reimbursement Collateral to the extent a County Security Agreement is then in place and the County Security has fully reimbursed the County for payments under its County Guaranty, or (B) if such conditions are not fulfilled, to the Trustee, on behalf of the County for deposit in the County Security Fund, as the case may be, or (C) as otherwise set forth in a Certificate of an Authorized Officer of the Authority. The Licensor shall make all such payments in full and on time, without regard to set-off or any other rights it might assert against the Authority, the County, the Trustee or any other person or entity for any reason, which rights against such persons or entities, if any, are hereby waived by the Licensor;

(ii) The Licensor acknowledges that a portion of the Gross Substitute Power Purchase Price may be retained by the Authority as payment of its annual Administrative Fee previously payable by the Company as an Additional Lease Payment under the Company Lease Agreement;

(iii) The Licensor acknowledges that upon the termination of the Company Lease Agreement, pursuant to this Section 5.2, the Authority may determine, under the Act, in accordance with all other applicable law, and in its sole discretion, to select an entity to operate and maintain the [A] Renewable Energy Projects for the balance of the Term to the same extent as previously required in the Company Lease Agreement, or any performance bond required under the Company RFP and/or the Power Purchase Agreement, as the case may be, and the Licensor further acknowledges, that upon the written direction of the Authority and at the Authority's sole discretion, a portion of the Gross Substitute Power Purchase Price shall be paid over or directed to the payment of such firm(s) rendering such services, if so required by the terms of any agreement between the Authority and such entity so rendering such services, the terms of which such agreement shall be automatically acceptable to the Licensor, without any further act, if the terms of any such agreement are in fact so within the parameters of the applicable Company Lease Agreement, the Company Service Agreement, or any performance bond required under the Company RFP and/or the Power Purchase Agreement; and

-34-

-33-

(iv) Notwithstanding Section 5.1(d) hereof, due to the termination of the Company Lease Agreement, pursuant to this Section 5.2, and the Company's extinguishment of any interest in and to the [A] Renewable Energy Projects, unless a replacement person or entity and agreements are in place immediately prior to the expiration of the Term hereof, at such time the Licensor shall be entitled to acquire all of the Authority's right, title and interest in and to the [A] Renewable Energy Projects for the purchase price of \$1, which shall be full and complete consideration for the acquisition thereof.

(a) Upon the cure of an Event of Default by or on behalf of the defaulting party, and the acceptance thereof in writing by the non-defaulting party delivered to the defaulting party, this [A] Local Unit License Agreement shall continue for the duration of the Term hereof, as if such Event of Default shall never have occurred.

WHEREAS, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offset at no net cost to the Local Units;

WHEREAS, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

(f) Except for Permitted Encumbrances or as otherwise provided under the terms of the Program Documents, the Lessor shall not transfer, lease, assign, mortgage or encumber the Projects or the Trust Estate.

(g) Upon the exercise by the Lessee of its option to purchase the entire Renewable Energy Projects pursuant to Article VII hereof, the Lessor (i) shall deliver to the Lessee all of the documents that are or may be necessary to vest all of the Lessor's right, title and interest in and to the Renewable Energy Projects in the Lessee, and (ii) shall release all liens and encumbrances created under this Company Lease Agreement, or the other Program Documents with respect to the Renewable Energy Projects, all as provided in Article VII hereof.

(iv) For deposit in the County Security Fund, \$1,500,000, the initial amount of the County Security Fund Requirement for the County Reserve, to be funded by the Lessee no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and thereafter, any deficiency in the County Security Fund Requirement shall be funded by the Company to the extent of any available funds after payment of all reasonable Company expenses and prior to any member distributions; and

(b) The Lessee shall be entitled to a credit against Basic Lease Payments for unused moneys held in the Project Fund in accordance with Section 510(e)(1)(B) hereof, and for earnings on other funds held by the Trustee and certain other Revenue Fund transfers in accordance with Section 310(b) hereof, all at the times and in the amounts and determined in accordance with the provisions of the Bond Resolution and this Company Lease Agreement; provided, however, that such credits, if applicable, shall be applied first to the Interest Portion and then the Principal Portion of Basic Lease Payments and second to Additional Lease Payments due, if any.

(c) Notwithstanding anything to the contrary herein, the Lessee may make any and all Lease Payments in immediately available funds through wire transfer or otherwise, to the extent the Trustee or other payee consents in writing to such method of delivery.

SECTION 302. Lease Payments to be Unconditional, Except for Power Purchase Price Payments; No Abatement or Set-Off.

(a) Except as set forth in clauses (i) and (ii) below, the obligation of the Lessee to make Lease Payments in full and when due shall be absolute and unconditional in all events, including without limitation any circumstance regarding the Projects, regardless of whether any such event shall be foreseen or otherwise, and regardless of whether any such event shall occur by accident or otherwise. The Lessee hereby acknowledges and irrevocably covenants that the terms of this Company Lease Agreement create a valid and binding obligation of the Lessee to make Lease Payments from any available source under all circumstances.

(i) Lessee shall receive a credit against the Interest Portion of any Basic Lease Payment due and owing on any Basic Lease Payment Date to the extent of all Power Purchase Price Payments made by the Series 2011 Local Units and received by the Trustee since the immediately prior Basic Lease Payment

(ii) Lessee shall receive a credit against the Principal Portion of any Basic Lease Payment due and owing on any Basic Lease Payment Date to the extent of any remaining Power Purchase Price Payments made by the Series 2011 Local Units and received by the Trustee since the immediately prior Basic Lease Payment Date, after accounting for the application of the credit set forth in clause (i) above.

(iii) For purposes of applying this credit, Power Purchase Price Payments made by the Series 2011 Local Units and received by the Trustee within ten (10) Business Days of any Basic Lease Payment Date shall be deemed to have been received by the Trustee the Business Day after such Basic Lease Payment Date (and therefore the Lessee shall not be entitled to a credit for such amounts paid by the Series 2011 Local Units until the following Basic Lease Payment Date). The Lessor shall cause the Trustee, pursuant to the terms of the Bond Resolution, to notify the Company in writing (with a copy to the Lessor) of the aggregate amount of all Power Purchase Price Payments made by the Series 2011 Local Units since the prior Basic Lease Payment Date that are available for such credit, (A) as of the date that is thirty (30) days' prior to each Basic Lease Payment Date, and (B) on the Business Day immediately following the ten (10) Business Day credit cutoff date noted above.

(b) Notwithstanding any dispute between the Lessor and the Lessee, or between or among any party hereto and any one or more of any Renewable Energy Program Interested Party or any other person, in any case concerning any provision of any Program Document, the Lessee shall make all Lease Payments in full and when due, and the Lessee shall not withhold any Lease Payment pending final resolution of such dispute, nor shall the Lessee assert against the Lessor, the Trustee, any Renewable Energy Program Interested Party or any other person any right of set-off, recoupment or counterclaim against its obligation to make such Lease Payments, regardless of whether or not the Projects are completed, available for use, or used by the Lessee or any other Renewable Energy Program Interested Party, as applicable.

(c) However, nothing herein shall be construed to release the Lessor from the performance of its obligations hereunder; and if the Lessor should fail to perform any such obligation, the Lessee may institute such legal action against the Lessor as the Lessee may deem necessary to compel the performance of such obligation, but if and only if the Lessee is not in default under the terms of this Company Lease Agreement and if the Lessee shall have paid all amounts that are required to be paid pursuant to the terms of this Company Lease Agreement; and if the Lessee shall have performed all of its obligations under the terms of this Company Lease Agreement and continues to pay and perform as provided herein, the Lessee shall not be precluded from bringing any action it may otherwise have against the Lessor.

(A) use and enjoyment of the Renewable Energy Projects,

(B) sale of the renewable energy produced therefrom under the Power Purchase Agreement to the respective Series 2011 Local Units under the respective Local Unit License Agreements, or

(C) SRECs.

(e) As security and further assurance for the Lessee's obligations under the Company Documents, including the making of Lease Payments at the times, in the amounts, and otherwise in accordance with the terms and provisions of this Company Lease Agreement, the Lessee hereby covenants to deliver the Company Pledge Agreement from the Pledgor defined in the Company Pledge Agreement contemporaneously herewith, and in any event, no later than the issuance of the Series 2011 Bonds, the terms of which Company Pledge Agreement are hereby acknowledged and accepted by the Lessee.

The Lessor shall cause the Trustee, pursuant to the terms of the Bond Resolution, to notify the Company in writing (with a copy to the Lessor), promptly after any such transfer, of the amount of such transfer credit available to the Company as of the next Basic Lease Payment Date.

#### LEASE OF LEASED PROPERTY; TERM OF COMPANY LEASE AGREEMENT

##### SECTION 401. Lease of Leased Property.

(a) The Lessor hereby agrees to (i) finance its share of the Renewable Energy Projects and the Capital Improvement Projects, if any, for the Series 2011 Local Units, through the issuance of the Series 2011 Bonds, the balance of which shall be financed by or on behalf of the Lessee through the Equity Contribution, and (ii) enter into the Local Unit License Agreements with the Series 2011 Local Units, thereby giving the Lessor nominal ownership of the Renewable Energy Projects, and providing the Company with a license and access to the Local Unit Facilities for the Series 2011 Local Units.

(b) The Lessee hereby agrees to (i) design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects as described on Exhibit A-1 hereof and (ii) design, permit, acquire, construct, renovate, and install the Capital Improvement Projects, if any, as described on Exhibit A-2 hereof, all for the Series 2011 Local Units.

(c) Upon the acquisition of title to the Leased Property from the Contractor (the timing of which does not adversely affect the Lessee's obligations hereunder, including the obligations to make Lease Payments), the Lessor hereby agrees to lease to the Lessee, except for the Reserved Rights, all of its right, title and interest in and to the Leased Property for the duration of the Lease Term hereof, and to grant to the Lessee an option to purchase the Leased Property as set forth in Article VII hereof. The Lessee hereby agrees to take and lease from the Lessor, other than the Reserved Rights, all of the Lessor's right, title and interest in and to the Leased Property on the terms and conditions set forth in this Company Lease Agreement, including, without limitation, all of the Lessee's duties and obligations under the Program Documents. The lease of the Leased Property from the Lessor to the Lessee is also intended to convey to the Lessee any product of the Leased Property, including any right, title and interest of the Lessor in and to the SRECs and the right to electricity generated from the Renewable Energy Projects for the Series 2011 Local Units at their respective Local Unit Facilities, subject to the terms and conditions of the Program Documents. The Lessor hereby acknowledges the Lessee's intent to exercise such option to purchase the Leased Property during or upon the termination of the Lease Term.

(d) It is an express purpose of this Company Lease Agreement that the benefits and burdens of owning the Leased Property being conveyed by the Lessor to the Lessee pursuant to this Company Lease Agreement be such that the Lessee shall be deemed to be the owner of the Leased Property for purposes of the Code. Accordingly, Lessor and Lessee agree and acknowledge that, for federal income tax purposes: (i) Lessee will treat the use of Series 2011 Bond proceeds to purchase, construct and install the Renewable Energy Projects as construction loan advances of Series 2011 Bond proceeds to Lessee by Authority; (ii) Lessee will treat all payments (or credits against such payments) made under this Company Lease

- 47 -

Agreement as payments of interest and principal to the Authority with respect to such construction loan, with an allocation of principal and interest based upon the Authority's related principal and interest payments on the Series 2011 Bonds; and (iii) Lessee will report all payments made by the Series 2011 Local Units under the Power Purchase Agreements as revenues earned by Lessee. Notwithstanding the foregoing, for State law purposes, Lessor and Lessee agree that under the Program Document structure, any benefit to the Company shall be deemed incidental, the primary purpose of the Renewable Energy Program being to provide the Series 2011 Local Units with electricity at multi-year locked in rates to the greatest extent practicable below tariff, which goal has been effectively realized through the financing structure contemplated by the Program Documents.

##### SECTION 402. Lease Term.

(a) This Company Lease Agreement shall be and remain in effect with respect to the Leased Property (the "Lease Term") commencing on the date of authorization, execution, authentication and delivery of the Series 2011 Bonds that shall finance, among other things, the Renewable Energy Project component of the Leased Property, and continuing until terminated as provided for in this Section 402. The Term of this Company Lease Agreement shall terminate upon the occurrence of the first of the following of events:

(i) The exercise by the Lessee of its option or its requirement to purchase the Lessor's entire interest in the Leased Property pursuant to Article VII hereof;

(ii) The occurrence and continuation of an Event of Default hereunder by the Lessee and the Lessor's election to exercise remedies under this Company Lease Agreement pursuant to Section 1002 hereof;

(iii) Subject to an extension of this Company Lease Agreement in accordance with clause (iv) below, which provisions shall control even if the other requirements of this clause (iii) have been satisfied, the occurrence of all of the following: (A) the payment by the Lessee of all Lease Payments, which requirement as to Basic Lease Payments (unless sooner terminated or extended in accordance with the provisions hereof) shall be fully satisfied on December 15, 2025 (unless extended by an amendment hereto resulting from the issuance of Additional Bonds), (B) the Bonds, including the Series 2011 Bonds, shall no longer be Outstanding under the Bond Resolution, and if the provisions of Section 703(b) are applicable, and (C) on the date specified in the Certificate of Authorized Officer of the Lessee required by Section 703(b)(iii); or

(iv) The expiration date of any extension to the initial term of this Company Lease Agreement, which initial term would be determined by clauses (i), (ii), and (iii) above, as such extension date shall be set forth in any amendment of this Company Lease Agreement (in accordance with the

- 48 -

amendment provisions of Section 1103 hereof, to the extent permitted under then applicable law.

(b) Notwithstanding the foregoing, this Company Lease Agreement shall be in effect until all the obligations created hereunder have been fulfilled.

(c) Notwithstanding the foregoing, any termination by reason of clause (a)(ii) above shall not alter or terminate the Lessee's unconditional payment obligations hereunder, including Sections 302 and 309 hereof.

#### SECTION 403. Net Lease.

(a) The Lessee intends for the Lease Payments to be net to the Lessor. The obligation of the Lessee to pay Lease Payments shall be absolute and unconditional and shall in no way be released, discharged or otherwise affected for any reason, including, without limitation, (i) any defect in the condition, quality or fitness for use of, or title to, any Project or (ii) any damage to or abandonment, destruction, requisition or taking of any portion of any Project.

(b) The Lessee shall comply with and pay all (i) local, state and federal taxes incurred with respect to the design, permitting, acquisition, construction, renovation, installation, operation, maintenance, ownership, possession or use of any Renewable Energy Project or the design, permitting, acquisition, construction, renovation or installation of any Capital Improvement Projects, including, without limitation, income, franchise, gross receipts, sales, use, documentary stamp, excise and real and personal property taxes, (ii) payments in lieu of taxes, assessments, licenses, registration fees, freight and transportation charges and any other charges imposed or liabilities incurred with respect to the design, permitting, acquisition, construction, renovation, installation, operation, maintenance, ownership, possession or use of any Renewable Energy Project or the design, permitting, acquisition, construction, renovation or installation of any Capital Improvement Projects, (iii) Lease Payments, and (iv) penalties, fines or interest imposed on any of the foregoing during the Lease Term.

(c) The Lessee shall pay, from a portion of the proceeds of the Bonds or otherwise, all reasonable expenses incurred by the Lessor in connection with all filings or recordings of any documents relating to this Company Lease Agreement, the other Company Documents, or the Lessor's rights hereunder and thereunder. The Lessor shall have the right to make any of the payments required of the Lessee, but shall not be obligated to pay the same, and to charge such payment with interest at the Overdue Rate from the due date thereof through the date of payment as an Additional Lease Payment to be paid by the Lessee with the next Basic Lease Payment due under this Company Lease Agreement.

- 49 -

#### SECTION 502. Construction of Project.

(a) The Lessee shall be responsible for entering into the Development Agreement with the Developer and for the letting of Development Contracts with Contractors for (a) the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for all of the Series 2011 Local Units, (b) the design, permitting, acquisition, construction, renovation, and installation of the Capital Improvement Projects for all of the Series 2011 Local Units, (c) the completion and acceptance of the Renewable Energy Projects in accordance with the Plans and Specifications therefor and the other terms hereof, including the filing of the REP Acceptance Certificates in accordance with Section 510(d)(f) hereof, (d) the completion of the Capital Improvement Projects in accordance with the Plans and Specifications therefor and the other terms hereof, including the filing of the CIP Acceptance Certificates in accordance with Section 510(d)(ii) hereof, and (e) all other matters that are incidental to the performance of the duties and powers that are expressly granted to the Lessee herein in connection with any of the foregoing. The Lessee may carry out its functions hereunder without obtaining any further approval of the Lessor; provided, however, that the Lessee shall issue monthly reports to the Lessor and the Applicable Series 2011 Local Unit detailing the progress of the foregoing and the anticipated completion dates thereof.

(b) After complying with the notification provisions of this subsection (b), the Lessee shall enter into one or more Development Contracts with the Contractor(s) providing for (i) the design, permitting, acquisition, construction, installation, operation and/or maintenance of the Renewable Energy Projects in accordance with the Plans and Specifications and/or (ii) the design, permitting, acquisition, construction, renovation, and/or installation of the Capital Improvement Projects in accordance with the Plans and Specifications. At least five (5) Business Days prior to the Lessee's entering into of each such Development Contract, the Lessee shall notify and provide each of the Lessor, the Applicable Series 2011 Local Unit and the Construction Manager with substantially final drafts thereof. Within a reasonable period of time thereafter, the Lessor, the Applicable Series 2011 Local Units and/or the Construction Manager shall notify the Lessee of any deviation therein from the Plans and Specifications for the Projects or from applicable law, if any. The Lessee shall, in its discretion, determine to incorporate or disregard any such advice into the final form of such Development Contracts; provided, however, that any such action or inaction shall not relieve the Lessee from completing the Projects in accordance with the agreed upon Plans and Specifications and in accordance with all applicable law. After such five (5) Business Day notice period, the Lessee may enter into such Development Contracts, providing only that final executed copies thereof be delivered to each of the Lessor, the Applicable Series 2011 Local Unit and the Construction Manager. After such execution, the Lessee shall cause each Contractor to perform its obligations under the Development Contracts, and shall deliver the completed Project available for occupancy and use by the Company with respect to the Renewable Energy Projects and the Applicable Series 2011 Local Unit with respect to the Capital Improvement Projects, on or before December 15, 2012, as such date may be extended in accordance with the Program Documents.

(c) None of the Lessor, the Series 2011 Local Unit or the Trustee makes any

#### CONSTRUCTION OF PROJECT; CARE AND USE; DRAW PROCEDURES

##### SECTION 501. Design of Project.

(a) Within ninety (90) days of the execution and delivery of this Company Lease Agreement, the Lessee shall cause preliminary Plans and Specifications to be prepared by one or more Architects or other Contractors with respect to all of the Projects for all of the Series 2011 Local Units and within the parameters set forth in the Company RFP. In preparing or causing the preparation of such preliminary Plans and Specifications, the Lessee expressly acknowledges that the Lessor shall only be providing financing, through the issuance of the Series 2011 Bonds, for the Maximum Net Bond Funded Project Cost Amount, and that any costs and expenses beyond such amount, except for any Completion Projects agreed in writing to be financed by the Lessor, are to be borne solely and wholly by the Lessee from any available funds.

(b) Copies of the Plans and Specifications, when in form satisfactory to the Lessee, shall be promptly delivered to the Lessor and the Applicable Series 2011 Local Units for the review, comment and approval of the Applicable Series 2011 Local Units. Within five (5) Business Days of receipt, each Applicable Series 2011 Local Unit shall have reviewed, and either commented on or approved the Plans and Specifications prepared by the Lessee for each respective Renewable Energy Project and each Capital Improvement Project, if any, for the respective Series 2011 Local Units. To the extent approval from any Series 2011 Local Unit shall not be received, the Lessee shall promptly modify the Plans and Specifications to address the Series 2011 Local Unit's reasonable concerns, whereupon the Lessee shall resubmit the Plans and Specifications to the Lessor and the Applicable Series 2011 Local Unit for further review, comment and approval. Such process shall continue until the Lessor and Lessee have received the approval of all of the Series 2011 Local Units; provided however, that both parties and the Applicable Series 2011 Local Units shall endeavor to complete the review, comment and approval process within one (1) month of the original submission to the Lessor and the Series 2011 Local Units. Notwithstanding any other provision of this Agreement or any other Company Document, to the extent an Applicable Series 2011 Local Unit does not adhere to the timetable set forth in this Section 501(b), then the required completion date for the respective Renewable Energy Project shall be extended by a time period equal to the delay by the Applicable Series 2011 Local Unit.

(c) Promptly after having received the respective Series 2011 Local Unit approvals of the Plans and Specifications related to their respective Projects, the Lessee shall submit or cause the submission of such Plans and Specifications to all other federal, state or local governmental or quasi-governmental agencies having jurisdiction over the Projects or any part thereof, and shall receive any required Project permits or approvals.

warranties or representations or accepts any liabilities or responsibilities with respect to or for the adequacy, sufficiency or suitability of, or defects in or with respect to, the design, permitting, acquisition, construction, renovation or installation of the Project.

##### SECTION 503. Construction Performance Bond and Other Guaranty.

Any Development Contracts authorized to be entered into by the Lessor under the terms of this Company Lease Agreement in connection with the design, permitting, acquisition, construction, and installation of the Renewable Energy Projects and the design, permitting, acquisition, construction, renovation and installation of the Capital Improvement Projects shall be let in accordance with the requirements set forth in Article VII, Sections 7.3, 7.5 and 7.6 of the Company RFP attached as part of Exhibit A-1 hereto. The Lessor shall cause each Contractor to provide a Construction Performance Bond covering, with respect to the portion of the Projects to which the Development Contract applies, the (a) performance of the Development Contract, including coverage for correction of defects developing within one year after completion of construction and commencement of commercial operation of each Project, and (b) payment for labor and materials, in each case issued by a responsible surety company qualified to do business in the State. Such bond or bonds shall name the Lessor, the Lessee as co-obligees, or shall otherwise entitle the Lessor to draw upon such Construction Performance Bond, and shall be in amounts equal to the fixed contract price plus the Equity Contribution, if not so included in the fixed contract price; provided, however, that the one-year post completion and acceptance portion may be limited to ten percent of the Development Contract price allocated to such Project in the Development Contract.

##### SECTION 504. Default in Contractors' Performance.

(a) In the event of default of the Contractor, including any subcontractor, under any Development Contract made in connection with any Project, the Lessee shall promptly proceed, either separately or in conjunction with others, to exhaust the remedies of the Lessee against the Contractor or any subcontractor so in default and against each surety for the performance of such Contractor or subcontractor. All such actions shall be construed to be Costs of the Project for purposes of this Company Lease Agreement, inasmuch as the same shall be necessary to enable any such Project to be designed, permitted, constructed, acquired, renovated or installed in accordance with the terms hereof and of the Development Contracts. The Lessee agrees to advise the Lessor, in writing, of the steps it intends to take in connection with any such default. If the Lessee shall so notify the Lessor, the Lessor may, in good faith, in its own name or in the name of the Lessee, with notice to the Lessee, prosecute or defend any action or proceeding or take such other action involving the Contractor, including any subcontractor, or surety that the Lessor deems reasonably necessary, and in such event the Lessor hereby agrees to cooperate fully with the Lessee, but at the sole cost and expense of the Lessor. Any amounts recovered by way of damages, refunds, adjustments or otherwise in connection with the foregoing shall be paid into the Project Fund or the Revenue Fund, as shall be determined by the Lessee.

- 52 -

(b) In the event that the Lessee is unable to comply with its requirements under this Company Lease Agreement prior to the execution of any Acceptance Certificate or if for any reason the design, permitting, acquisition, construction, renovation and installation of any Project is delayed, there shall be no resulting liability on the part of the Lessor and there shall be no diminution in or postponement of the amounts that are due and payable by the Lessee to the Lessor under the terms of this Company Lease Agreement.

#### SECTION 505. Additional Rights of Lessee.

The Lessor agrees that the Lessee shall, at its own expense, have the right to make immaterial changes to any Project or to make such additions, modifications and improvements thereto as in the Lessee's judgment are necessary to enable it to perform its obligations under this Company Lease Agreement without materially impairing the Project or materially changing the design of the Project from the Plans and Specifications; provided, however, that none of the foregoing shall in any way damage the Project or cause the Project to be used for purposes other than those authorized under the provisions of all applicable law. With respect to any such additions (only) to the Project in accordance with the provisions of this Section 505, such additions shall for all purposes of this Company Lease Agreement be deemed to be and remain the property of the Lessee and shall not become part of the Project, and any such item may be removed, altered or changed by the Lessee upon or before the termination of this Company Lease Agreement; provided, however, that such removal, alteration or change shall not damage the Project or, if any such damage shall occur, the Lessee shall repair the same at its sole cost and expense.

#### SECTION 506. Maintenance and Use of Project; Lessor Access; Repairs Not to Create Liens.

(a) With respect to the Renewable Energy Projects or a portion thereof financed under this Company Lease Agreement, the Lessee shall, at its own and sole expense, maintain, preserve and keep such Projects or any portion thereof, as the case may be, in good repair, working order and condition, and shall from time to time make all repairs, replacements and improvements necessary to keep such Projects or any portion thereof in such condition. The requirements to repair and keep the Capital Improvement Projects in good working order shall remain with the owners thereof, the Applicable Series 2011 Local Units.

(b) The Lessee agrees that the Lessor and the Applicable Series 2011 Local Unit shall have the right (but not the obligation) to enter upon the premises at reasonable times and upon reasonable notice in a reasonable manner where the Renewable Energy Projects or a portion thereof, as the case may be, is located in order to inspect the same for the purpose of assuring that such Renewable Energy Projects are being properly maintained, preserved and kept in good repair and condition. The Lessee further agrees that the Lessor or the Applicable Series 2011 Local Unit shall have such rights of access to such Renewable Energy Projects as may be reasonably necessary to cause the proper maintenance, preservation and keeping in good repair of such Renewable Energy Projects in the event of a failure by the Lessee to perform its

- 53 -

#### SECTION 508. Lessee's Negligence.

Subject to Section 608 hereof, the Lessee assumes all risks and liabilities, whether or not covered by insurance, for loss or damage to the Projects, or any portion thereof, and for injury to or death of any person or damage to any property, whether such injury or death be with respect to agents or employees of the Lessee or of Contractors or other third parties, and whether such property damage be to the Lessee's property or to the property of others, which injury, death or damage is proximately caused by the negligent conduct of the Lessee or its officers, employees and agents, including any Contractors. The Lessee hereby assumes responsibility for and agrees to reimburse the Lessor and the Applicable Series 2011 Local Unit for all liabilities, obligations, losses, damages, penalties, claims, actions, costs and expenses (including reasonable attorneys' fees), of whatsoever kind and nature, imposed on, incurred by or asserted against the Lessor or the Applicable Series 2011 Local Unit that in any way relate to or arise out of a claim, suit or proceeding based in whole or in part upon the negligent conduct of the Lessee or its officers, employees and agents, to the maximum extent permitted by law.

#### SECTION 509. Project Costs; Payment.

(a) The Project Costs to be incurred by the Lessee, or on behalf of the Lessee by any Contractor, relating to the acquisition, construction, and installation of the Renewable Energy Projects and the acquisition, construction, renovation and installation of the Capital Improvement Projects for all Series 2011 Local Units have been estimated by the Lessee under the Company RFP to be an aggregate amount not to exceed the sum of the Maximum Gross Bond Funded Project Cost Amount plus the Equity Contribution. Accordingly, the Lessor shall cause the Series 2011 Bonds to be issued, and further, shall cause the Maximum Net Bond Funded Project Cost Amount to be deposited in the Project Fund upon issuance of the Series 2011 Bonds pursuant to Section 2.03(7)(e)(i) and (ii) of the Bond Resolution. The Lessee represents that such initial deposit of the Maximum Net Bond Funded Project Cost Amount, together with interest to be earned thereon prior to disbursement in accordance with the terms hereof and of the Bond Resolution giving rise to the Maximum Gross Bond Funded Project Cost Amount, together with the Equity Contribution, shall be sufficient to pay all of the Costs to design, permit, acquire, construct, and install all of the Renewable Energy Projects and to design, permit, acquire, construct, renovate, and install all of the Capital Improvement Project Costs, in either case for all of the Series 2011 Local Units on, in or about their Local Unit Facilities and in accordance with the Plans and Specifications.

(b) It is expressly acknowledged by the Lessee and the Lessor that the Lessor shall be under no obligation to issue any Bonds in an amount in excess of the Maximum Net Bond Funded Project Cost Amount to fund any Project Cost, including the Costs of any Completion Project related to either the Renewable Energy Projects or the Capital Improvement Projects of the Series 2011 Local Units on, in or about their Local Unit Facilities, unless the Authority agrees to issue a Series of Additional Bonds pursuant to the provisions of Section 202(b) hereof.

- 55 -

obligations hereunder, which rights of access shall in no way imply any obligation on the part of the Lessor or the Applicable Series 2011 Local Unit.

(c) The Lessee shall not permit any mechanic's or materialmen's or other lien to be established or remain against any portion of the Projects for labor or materials furnished in connection with any remodeling, additions, modifications, improvements, repairs, renewals or replacements made by the Lessee pursuant to Section 505 hereof and this Section 506, other than Permitted Encumbrances; provided, however, that if any such lien is established and the Lessee notifies the Lessor of its intention so to do, the Lessee may, in good faith, contest any lien filed or established against the Projects and, in such event, permit the items so contested to remain undischarged and unsatisfied during the period of such contest and any appeal therefrom, unless the Lessor shall notify the Lessee that, in the opinion of independent counsel, by nonpayment of any such item, the interest of the Lessor or the Applicable Series 2011 Local Unit in such Project shall be materially endangered or such Project or any part thereof shall be subject to loss or forfeiture, in which event the Lessee shall promptly pay and cause to be satisfied and discharged all such unpaid items or provide the Lessor and the Applicable Series 2011 Local Unit with full security against any such loss or forfeiture. The Lessor shall cooperate, and shall cause the Applicable Series 2011 Local Unit to cooperate fully with the Lessee in any such contest upon such request at the sole cost and expense of the Lessee.

#### SECTION 507. Possession and Enjoyment of Projects during Lease Term.

(a) From and after the execution and delivery of the REP Acceptance Certificate with respect to the applicable Renewable Energy Projects, the Lessor hereby agrees that during the Lease Term the Lessee, so long as the Lessee is not in default hereunder, shall have the quiet use and enjoyment of such Renewable Energy Projects, and the Lessee shall during such Lease Term peaceably and quietly have, hold and enjoy such Renewable Energy Projects, without suit, trouble or hindrance from the Lessor, any 2011 Local Unit, or any party claiming under or through the Lessor or such Local Unit, except as expressly set forth in the Program Documents. The Lessor and the Applicable Series 2011 Local Unit shall, at the request of the Lessee and at the Lessee's sole cost and expense, join in any legal action in which the Lessee asserts its right to such possession and enjoyment against any third-party to the extent the Lessor and the Applicable Series 2011 Local Unit lawfully may so do; in addition, the Lessee, while not in default hereunder, may in its discretion and at its sole cost and expense bring any such action in the name of the Lessor.

(b) From and after the execution and delivery of the CIP Acceptance Certificate with respect to the applicable Capital Improvement Projects, if any, the Lessor and the Lessee hereby agrees that during the Lease Term, the Applicable Series 2011 Local Unit, as fee owner thereof, shall have the quiet use and enjoyment of such Capital Improvement Projects, and the Applicable Series 2011 Local Unit shall during such Lease Term peaceably and quietly have, hold and enjoy such Capital Improvement Projects, without suit, trouble or hindrance from the Lessor or the Lessee, or any party claiming under or through the Lessor or the Lessee, except as may be expressly set forth in the Program Documents.

- 54 -

(c) Any Project Costs in excess of such estimated Project Cost amount as set forth in subsection (a) above shall be solely borne by and solely paid from any funds available to the Lessee (which shall not include monies under the Bond Resolution, absent the Lessor's written consent). The Lessee hereby covenants to complete all of the Projects in accordance with the Plans and Specifications regardless of the actual Costs of such Projects and regardless of the amounts remaining on deposit in the Project Fund to pay such Project Costs. To the extent the Lessee shall complete all of the Projects in accordance with the Plans and Specifications in an aggregate amount less than any such deposit, plus estimated investment earnings, in the amount of such estimated Project Costs, any excess amounts remaining on deposit in the Project Fund, after the final Acceptance Certificate shall have been filed by the Lessee in accordance with the terms hereof, shall be applied as a credit to the next due Basic Lease Payments otherwise due and owing by the Lessee in accordance with Section 510(e)(1)(B) hereof and Section 5.02(3)(b) of the Bond Resolution.

(d) The Lessee shall cause moneys on hand from time to time in the Project Fund, held by the Trustee, to be made available for payment of all Project Costs, in the manner provided herein for submission of Draw Papers, including Sections 510 and 511 hereof; and in the Bond Resolution, including Sections 5.02(1) and 5.02(2)(a) thereof. The Lessee may cause moneys on hand from time to time in the Project Fund held by the Trustee to be made available for payment of all Company Development Fees and Expenses up to an aggregate amount of \$700,000 unless the Lessee receives the written acknowledgment of a higher ceiling from the Lessor, through the submission of a Certificate of an Authorized Officer of the Lessee substantially in the form of Exhibit D hereto, and otherwise following the terms set forth in Section 5.02(2)(b) of the Bond Resolution; provided, however, that notwithstanding the foregoing, the Lessee may not withdraw moneys from the Project Fund for payment of Company Development Fees and Expenses in excess of \$250,000, excluding those third-party and other Company Development Fees and Expenses approved by the Authority and paid upon issuance of the Series 2011A Bonds or thereafter, until the Company has satisfied, or caused the satisfaction of, all of the Completion Conditions. The Lessee, at its sole discretion, may apply less of the aggregate amount on deposit in the Project Fund and earmarked for payment of Company Development Fees and Expenses to such purpose, and instead apply all or a portion of such earmark (including any interest earned thereon) toward Costs of the Renewable Energy Projects or Capital Improvement Projects in the manner contemplated by Sections 510 and 511 hereof, and Section 5.02(2)(a) of the Bond Resolution. Any moneys remaining on deposit in the Project Fund, including interest earnings, upon the payment of all Project Costs (for which the Company shall submit Draw Papers) and all Company Development Fees and Expenses (for which the Company shall submit such Exhibit D form Certificate), shall be applied in the manner set forth in Section 510(e) hereof.

#### SECTION 510. Submission of Draws; Procedures; Acceptance Certificates.

(a) As payments are required for the Project under this Company Lease Agreement, the Lessee shall prepare and assemble the Draw Papers (as defined below) and

- 56 -

submit them to the Trustee.

(b) On or before 10:00 a.m. EST on each date on which the Lessee intends to submit Draw Papers requisitioning funds held by the Trustee in the Project Fund for Costs of the Renewable Energy Projects or Capital Improvement Projects for an Applicable Series 2011 Local Unit (each a "Draw Date"), the Lessee shall advise the Trustee in writing of the aggregate amount of funds needed for disbursement to pay such Project Costs. An amount equal to the lesser of (i) such aggregate amount of funds needed and (ii) the amount of funds available in the Project Fund (and not otherwise earmarked to pay the Costs of the Projects for the other Series 2011 Local Units) shall be applied to the payment of such Project Costs upon submission of the Draw Papers in accordance with subsection (c) below.

(c) Except as otherwise provided in Section 511 hereof, the Lessee shall cause the Trustee to make payments from the Project Fund to the Contractors under the Development Contracts or other third-party vendors, in either case for Costs of the Projects, but only after the Lessee shall have supplied the Trustee with a duly authorized, completed and executed requisition from the Lessee substantially in the form of Exhibit C hereto (together with any attachments thereto, the "Draw Papers"), each executed by the Lessee, acknowledged by the Applicable Series 2011 Local Unit (in accordance with Section 4.1(d) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), and acknowledged as to form only by the Lessor (in accordance with Section 4.1(c) of the Local Unit License Agreements, including the authority therein to delegate such right and obligation to the Construction Manager), stating with respect to each such payment to be made: (i) the requisition number, (ii) the name and address of the Contractor, other person, other corporation or other entity to which payment is due or, if for reimbursement to the Lessee, to which Contractor, other person, other corporation or other entity and when payment has previously been made by the Lessee, and as applicable in either case, the Development Contract under which such payment is or was due, (iii) the amount to be paid, (iv) the Renewable Energy Project or Capital Improvement Project to which such payment is to be applied, including the Applicable Series 2011 Local Unit and their Local Unit Facility, (v) that such payment obligation has been properly incurred in accordance with the Plans and Specifications, is an item of the Cost of such Project, is a proper charge against the Project Fund, and has not been the basis of any previous withdrawal, (vi) that attached thereto is a bill, invoice, receipt or other evidence that payment on such Project Cost is due and owing or has been paid by or on behalf of the Lessee. Except as expressly provided in this Article VI, the Lessee shall promptly, at its own expense, take such action as may be necessary to discharge or remove any such mortgage, pledge, lien, charge, encumbrance or claim if the same shall arise at any time. The Lessee shall reimburse the Lessor and/or the Applicable Series 2011 Local Units, as applicable, for any expense incurred by it in order to discharge or remove any such mortgage, pledge, lien, charge, encumbrance or claim.

(b) The Lessee may, at its own expense and in its name, contest in good faith any taxes, assessments or utility and other charges and, in the event of any such contest, permit the taxes, assessments or other charges so contested to remain unpaid during the period of such contest and any appeal therefrom, unless the Lessor shall notify the Lessee that, in the opinion of independent counsel, by nonpayment of any such items the interest of the Lessor in the Projects shall be materially affected or the Projects or any part thereof shall be subject to loss or forfeiture, in which event the Lessee shall promptly pay such taxes, assessments or charges or provide the Lessor with full security against any loss that may result from nonpayment, in form satisfactory to the Lessor.

**SECTION 611. Trustee Indemnification.**

The Lessee shall (a) indemnify and save harmless the Trustee and its agents, employees, officers and directors from and against any and all liabilities, including, without limitation, all claims, demands, damages, losses, costs, penalties, charges and expenses (including, but not limited to, reasonable attorneys' fees) in any way relating to or arising from (i) the development, ownership, possession, operation, condition, sale, rental, sub-rental or return of the Projects, (ii) the Program Documents, and (iii) any resignation by the Trustee in accordance with Section 10.07(2) of the Bond Resolution; and (b) reimburse the Trustee for all losses, costs, charges and expenses (including, but not limited to, reasonable attorneys' fees) that the Trustee may incur or be subject to as a consequence, directly or indirectly, of involvement in any legal proceeding or action relating to the foregoing; provided, however, that no indemnification or reimbursement shall be due to the extent that the Trustee has acted with negligence or willful misconduct in connection with the liabilities for which the Trustee is seeking indemnification or reimbursement. All amounts that become due from the Lessee under this Section 611 shall be credited with any amounts received by the Trustee from insurance provided by the Lessee, shall be payable by the Lessee within thirty (30) days following demand therefore by the Trustee, and shall survive the termination or expiration of this Company Lease Agreement.

**SECTION 612. Advances.**

#### SECTION 613. Net Proceeds of Insurance; Form of Policies.

(a) Each policy of insurance obtained pursuant to or required by this Article VI shall provide that all Net Proceeds thereunder shall be payable (i) with respect to the Renewable Energy Projects, to the Lessor for deposit with the Trustee in the Project Fund, the Revenue Fund or such other Fund or Account under the Bond Resolution, in any event as directed by the Lessee, but only so long as the Lessee has not caused an Event of Default hereunder, in which latter case such Net Proceeds shall be payable to the Lessor, (ii) with respect to the Capital Improvement Projects, to the Applicable Series 2011 Local Unit, or at their direction, to the Trustee for deposit in the Project Fund, or other Fund or Account under the Bond Resolution, or (iii) if not discernable as to Project or otherwise, payable to the Lessor or at the Lessor's direction, to the Trustee for deposit in the Project Fund, the Revenue Fund, or other Fund or Account under the Bond Resolution.

(b) The Lessee shall pay or cause to be paid when due the premiums for all insurance policies required by this Company Lease Agreement, and shall promptly furnish or cause to be furnished to the Lessor and the Series 2011 Local Units evidence of such payments. All such policies shall provide that the Applicable Series 2011 Local Units and the Lessor shall be given not less than thirty (30) days' notice of each expiration, any intended cancellation and any intended reduction of the coverage provided thereby.

(c) Neither the Applicable Series 2011 Local Units nor the Authority shall be responsible for the sufficiency of any insurance herein required, and shall be fully protected in accepting payment on account of such insurance or any adjustment, compromise or settlement of any loss agreed to by the Applicable Series 2011 Local Units or the Authority, as the case may be.

(d) The Lessee shall cause to be delivered to the Applicable Series 2011 Local Units and the Lessor on each anniversary of the date of issuance of the Series 2011 Bonds a Certificate of an Authorized Officer of the Lessee, satisfactory to the Applicable Series 2011 Local Units and the Lessor, that the insurance policies required by this Company Lease Agreement are in full force and effect.

### ARTICLE VII

#### OPTION TO PURCHASE; PREPAYMENT OF LEASE PAYMENTS

##### SECTION 701. Lessee's Prepayment and Purchase Option; Purchase Option Price.

(a) The Lessee is hereby granted the option to prepay its Basic Lease Payments in part, in accordance with Section 8.07 of the Bond Resolution. Any partial prepayment shall not affect the Lessor's right, title and interest in and to the Renewable Energy Projects, nor the Series 2011 Local Units' right, title and interest in and to the Capital Improvement Projects. At the Lessee's option, as directed in a Certificate of an Authorized Officer of the Company delivered by the Company to the Trustee, the Lessor, and the County accompanying any such partial prepayment, any such partial prepayment shall be either (i) credited to the next due Interest Portion of Basic Lease Payments due from the Lessee, and if not fully applied, to the next due Principal Portion of Basic Lease Payments due from the Lessee, and then to the next due future Interest Portion, and then Principal Portion, of Basic Lease Payments until fully applied or (ii) applied to defease Outstanding Bonds in the manner contemplated by Article XII of the Bond Resolution, and in the amounts and on the dates as set forth in any such partial prepayment Certificate of the Company, which in the case of such defeasance option selected by the Company, such Certificate of the Company shall be acknowledged by an Authorized Officer of the Authority to the effect that such dates and amounts conform to the requirements of the Bond Resolution. Upon any such partial prepayment, new schedules reflecting the revised Basic Lease Payments due from the Lessee, taking into account any such partial prepayment, shall be attached by the Lessor hereto.

The Lessee may not utilize funds in the County Security Fund or Restoration Security Fund, if any, toward any such partial prepayment; provided, however, that such limitation does not extend to monies previously released from the County Security Fund and transferred to the Aged Account in the Revenue Fund in accordance with Section 5.07(3)(a) of the Bond Resolution at the time of any such partial prepayment; provided, further however, that such limitation does not extend to such amounts that would be eligible for release pursuant to the calculations referred to in Section 5.07(3)(a) of the Bond Resolution immediately after any such partial prepayment (to the extent the Series 2011 Bonds will not be redeemed simultaneously with the prepayment, the Series 2011 Bonds that will be defeased upon the prepayment shall not be considered Outstanding for purposes of such calculations, and therefore can be released and applied to any such prepayment if the calculations so warrant release), to the extent the Lessor has verified such calculations in writing to the Lessee and the Trustee. In any such instance where this limitation does not so extend, the Lessee may direct the Trustee in writing, with a copy to the Lessor, to apply any such amounts in the County Security Fund, if any, to any such partial prepayment, and the Lessor shall cause the Trustee, pursuant to the terms set forth in the Bond Resolution, to promptly comply with any such direction.

(b) The Lessee is further hereby granted the option to prepay and purchase all

- 71 -

(a) The self-insurance program shall be acceptable to the Lessor, the Applicable Series 2011 Local Units and the Lessee, as evidenced by Certificates of Authorized Officers to such effect;

(b) The self-insurance program shall be approved by an Independent Insurance Consultant;

(c) The self-insurance program shall include an actuarially sound claims reserve fund out of which each self-insured claim shall be paid; the adequacy of each such fund shall be evaluated on an annual basis by an Independent Insurance Consultant; and any deficiencies in any self-insurance claims reserve fund shall be remedied in accordance with the recommendation of an Independent Insurance Consultant;

(d) The self-insurance claims fund shall be held in a separate trust fund by an independent trustee, which independent trustee may also be the Trustee serving as such under the Bond Resolution;

(e) The self-insurance program shall comply in every particular with all applicable law; and

(f) In the event the self-insurance program shall be discontinued, the actuarial soundness of its claims reserve fund, as determined by an Independent Insurance Consultant, shall be maintained.

of the Lessor's right, title and interest in and to the Renewable Energy Projects (but not the Capital Improvement Projects, if any) in whole, at the times set forth in Section 701(c) hereof, by paying to the Trustee the "Purchase Option Price", which for any date of calculation shall be the sum of (i) the aggregate amount of unpaid principal of the Bonds to their maturity date under the terms of the Bond Resolution and as set forth in the Lessee's notice to the Trustee of such prepayment, (ii) any interest accrued on the Bonds from the last Interest Payment Date thereof on which interest thereon was paid to the final maturity date set forth in clause (i) above, (iii) the redemption premium, if any, applicable to the payment of the Bonds on the maturity date set forth in clause (i) above, and (iv) any costs of redemption or defeasance or other Administrative Expenses incurred by any party to a Program Document in implementing such prepayment.

The Lessee may direct the Trustee in writing, with a copy to the Lessor, that all or a portion of the Purchase Option Price (where all of the Outstanding Bonds shall be paid) shall be funded from the County Security Fund, if any, and the Lessor shall cause the Trustee, pursuant to the terms set forth in the Bond Resolution, to promptly comply with any such direction.

(c) The prepayment options set forth in subsections (a) and (b) above may be exercised by the Lessee at any time by (i) giving written notice to the Trustee and the Lessor of the exercise of such option at least fifty-two (52) days prior to the final maturity date set forth in such notice, and (ii) if the prepayment shall occur before January 15, 2021, complying with any other requirements of Article XII of the Bond Resolution that may be required by the Trustee or the Lessor to defease the Bonds in accordance with the terms of the Bond Resolution, including, without limitation, a verification report from a nationally recognized accounting firm approved by the Trustee and the Lessor to the effect that the amount so prepaid shall equal the Purchase Option Price (for a full prepayment) and shall therefore be sufficient to defease the Bonds (in whole or in part, as the case may be) by paying all of the principal thereof and redemption premium, if any, thereon through and including the final maturity thereof, plus all interest accruing thereon to such final maturity date. Such option shall be exercised by depositing with said notice cash and/or Investment Securities in such amount as shall be sufficient, together with interest to accrue thereon, to pay the Bonds to be defeased on said redemption date.

(d) Notwithstanding any provision herein or in any Program Document to the contrary, the Lessee may not advance refund, currently refund or otherwise refund any Series of Bonds with bonds, notes or other obligations of the Lessee, or such other moneys available to the Lessee, and use such moneys to make any prepayments hereunder unless (i) provision has been made by the Lessee for the payment of all (A) principal of, redemption premium if any, and interest on the Series of Bonds being refunded to any redemption date and (B) Administrative Expenses of the Lessor relating thereto, and (ii) if applicable, prior written notification of any such refunding has been given to the Lessor. Notwithstanding the foregoing, the Lessor may, in its sole discretion at the times and under the circumstances and for the purposes set forth in the Bond Resolution, advance refund, currently refund, or otherwise refund any Series of Bonds, the allocation of the benefit from which shall be determined between the Lessor and the Lessee at the time of any such defeasance and/or refunding.

- 72 -

**SECTION 702. Mandatory Prepayment and Purchase of Project; Mandatory Purchase Price.**

(a) Upon the acceleration of the Bonds, the Lessee shall forthwith prepay and purchase all of the Renewable Energy Projects (but not the Capital Improvement Projects, if any) by paying to the Trustee, immediately upon receipt of notice of such acceleration, the "Mandatory Purchase Price", which for any date of calculation shall be the sum of (i) the aggregate amount of the unpaid principal of the Bonds, (ii) any interest accrued on the Bonds from the last Interest Payment Date thereof on which interest thereon was paid to the date that the amount in clause (i) above has been paid in full, and (iii) any costs of acceleration or other Administrative Expenses incurred by any party to a Program Document in implementing such prepayment.

(b) In the event the Mandatory Purchase Price remains unpaid when due, the Lessee shall make an Additional Lease Payment immediately due and payable equal to, for any date of such deficiency, the amount of such deficiency times the per diem Overdue Rate.

**SECTION 703. Effect of Prepayment.**

(a) In the event of a deposit sufficient to purchase the Renewable Energy Projects (but not the Capital Improvement Projects, if any) pursuant to Section 701 or 702 hereof and to pay any and all amounts due hereunder, (i) all of the Lessor's right, title and interest in and to such Renewable Energy Projects (but not the Capital Improvement Projects, as to which the Lessor has no right, title or interest) shall be deemed sold to the Lessee for the consideration set forth in such Sections, (ii) except for the rights of the Series 2011 Local Units to effect a Fair Market Value purchase of their respective Renewable Energy Projects in accordance with Section 609(d) hereof, to the extent all Lease Payments have been made by the Lessee in full, all other covenants, agreements and obligations of the parties hereto under this Company Lease Agreement shall cease, terminate, and be deemed discharged and satisfied, and (iii) the Lessor and its officers shall take all actions necessary to authorize, execute and deliver to the Lessee any and all documents necessary to vest in the Lessee all of the Lessor's right, title and interest in and to the Renewable Energy Projects (but not the Capital Improvement Projects, as to which the Lessor has no right, title or interest), free and clear of all liens, leasehold interests and encumbrances, including, if necessary, a release of any and all liens or interests created under the provisions of this Company Lease Agreement. In such event, the Trustee shall cause a statement of debits and credits for such period or periods as shall be requested by the Lessor or the Lessee to be prepared and filed with the Lessor and the Lessee, and, upon the request of the Lessor or the Lessee, shall execute and deliver to the Lessor and the Lessee all such instruments as may be desirable to evidence such discharge and satisfaction.

(b) Notwithstanding anything to the contrary herein or in any Program Document, including without limitation subsection (a) above, to the extent the Lessee has satisfied all of the conditions of subsection (a) above in order to terminate this Company Lease Agreement,

**DAMAGE, DESTRUCTION AND CONDEMNATION; USE OF NET PROCEEDS**

**SECTION 801. Damage, Destruction and Condemnation.**

(a) If either (i) the Projects or any portion thereof are destroyed or damaged by fire or other casualty or (ii) title to or the temporary use of the Projects or any part thereof, or the interest of the Lessor, the Applicable Series 2011 Local Unit or the Lessee in the Projects or any part thereof, shall be taken under a valid exercise of the power of eminent domain by any governmental body, other than Sussex County, a division of Sussex County Government, any Series 2011 Local Unit, or by any person, firm or corporation acting under governmental authority, and provided the Lessee shall not have caused an Event of Default hereunder, in which event the Net Proceeds shall be applied as directed by the Lessor, the Lessee shall have the following mutually exclusive rights to cause the application of Net Proceeds sufficient to perform either of the following, which the Lessee may exercise in its sole discretion: (y) the Lessee shall cause the application of any Net Proceeds to the prompt repair, restoration, modification, improvement, construction or installation of the Project by causing the Lessor to transfer, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so transfer, such Net Proceeds to the Trustee for deposit in the Project Fund, thereby allowing the Lessee to file with the Trustee the appropriate Draw Papers to requisition such Net Proceeds from the Project Fund in accordance with the terms hereof, in which event the Lessee shall continue to be obligated to pay the Lease Payments due hereunder, without adjustment; or (z) the Lessee shall exercise its option to purchase the Project in whole by paying the then applicable Purchase Option Price in accordance with Section 701 hereof and causing the Lessor to deposit, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so deposit, such Net Proceeds with the Trustee in the Revenue Fund, the Debt Service Fund, or such other Fund or Account that would allow the application of the Net Proceeds toward the Purchase Option Price. Subsections (y) and (z) above are mutually exclusive.

(b) If title to or the temporary use of the Projects or any part thereof, or the interest of the Lessor, the Applicable Series 2011 Local Unit or the Lessee in the Projects or any part thereof, shall be taken under a valid exercise of the power of eminent domain by Sussex County, a division of Sussex County Government, or any Series 2011 Local Unit, and provided the Lessee shall not have caused an Event of Default hereunder, in which event the Net Proceeds shall be applied as directed by the Lessor, the Lessee shall have the following mutually exclusive rights to cause the application of Net Proceeds sufficient to perform either of the following, which the Lessee may exercise in its sole discretion: (y) the Lessee shall cause the application of any Net Proceeds to the prompt repair, restoration, modification, improvement, construction or installation of the Project by causing the Lessor to transfer, and upon the Lessor's receipt of a Certificate of an Authorized Officer of the Lessee to such effect the Lessor shall so transfer, such Net Proceeds to the Trustee for deposit in the Project Fund, thereby allowing the Lessee to file with the Trustee the appropriate Draw Papers to requisition such Net Proceeds from the Project

**SECTION 704. Substitution of Project.**

Such event shall have no effect on the Lessee's obligations to continue to make all Lease Payments on time and in full.

**SECTION 802. Insufficiency of Net Proceeds.**

If the Net Proceeds are insufficient to pay in full the cost of any repair, restoration, modification or improvement relating to the Projects as so damaged or taken, the Lessee shall either:

(a) direct the application of the Net Proceeds in the manner as set forth in Sections 801(a)(y) or 801(b)(y) above, thereby requiring the Lessee to complete the work relating to the Projects as so set forth, except that the Lessee shall itself pay any Project Costs in excess of the amount of the Net Proceeds, and, if by reason of any such insufficiency of the Net Proceeds the Lessee shall make any payments pursuant to the provisions of this Section 802(a), the Lessee shall not be entitled to any reimbursement therefor from the Lessor, nor shall the Lessee be entitled to any diminution of the Lease Payments due hereunder with respect to the Projects;

(b) direct the application of the Net Proceeds in the manner as set forth in Section 801(a)(z) above, thereby requiring the Lessee to make an equity contribution to the extent the Net Proceeds are insufficient to cover the Purchase Option Price and thereupon exercise Lessee's option to purchase the Project in whole, in accordance with Article VII hereof, in which event the Net Proceeds shall be used toward this purpose; or

(c) direct the application of the Net Proceeds consistent with the determination contemplated in Section 801(b)(y) above, thereby causing the Net Proceeds to be applied to the payment of the Interest Portion and, to the extent available, the Principal Portion of the Basic Lease Payments due on the immediately succeeding Basic Lease Payment Dates until all of the Net Proceeds have been so applied, in which event the Lessee shall not be entitled to any reimbursement therefor from the Lessor nor shall the Lessee be entitled to any diminution of the Lease Payments due hereunder with respect to the Project. Subsections (a), (b) and (c) above are mutually exclusive.

**SECTION 803. Cooperation of Lessor.**

The Lessor and the Applicable Series 2011 Local Unit shall cooperate fully with the Lessee, at the sole cost and expense of the Lessee, in filing any proof of loss with respect to any insurance policy covering the casualties described in Section 801 hereof and in the prosecution or defense of any prospective or pending condemnation proceeding with respect to the Projects or any part thereof. In no event shall the Lessor or the Applicable Series 2011 Local Unit voluntarily settle, or consent to the settlement of, any proceeding arising out of any insurance claim or any prospective or pending condemnation proceeding with respect to the Projects or any part thereof, without the prior written consent of the Lessee.

**SECTION 804. Condemnation of Other Property Owned by Lessee.**

The Lessee shall be entitled to the Net Proceeds of any condemnation award or portion thereof made for the destruction of, damage to or taking of its property not included in the Project.

**ARTICLE IX**

**ASSIGNMENT, SUBLEASING, MORTGAGING AND SELLING**

**SECTION 901. Assignment by Lessor.**

Except for this Company Lease Agreement and as otherwise provided below and in any other Program Document, including without limitation with respect to its payment obligations under the Power Purchase Agreement to the Series 2011 Local Units under the Local Unit License Agreements, or with respect to the assignment of the Reimbursement Collateral to the County and the County Security Provider, if any, under the County Guaranty Agreement and the County Security Agreement, if any and as applicable, the Lessor shall not assign its obligations under this Company Lease Agreement and no such purported assignment thereof shall be effective. All of the Lessor's right, title and interest in and to this Company Lease Agreement, the Lease Payments and the other amounts due to it hereunder and under the Project shall be assigned by the Lessor to the Trustee pursuant to the pledge of the Trust Estate under the Bond Resolution no later than the execution and delivery hereof.

**SECTION 902. Lease Payments to Trustee.**

The Lessor and the Lessee hereby agree that from and after the adoption of the Bond Resolution and the execution of this Company Lease Agreement, so long as the same shall remain in effect, payment by the Lessee to the Trustee or, if applicable, to the successor thereto of any moneys or sums due hereunder from the Lessee to the Lessor shall satisfy the obligation of the Lessee to pay such money or sums.

**SECTION 903. Assignment and Subleasing by Lessee.**

This Company Lease Agreement may not be assigned or subleased by the Lessee without the prior written consent of the Lessor and the Applicable Series 2011 Local Units, in their sole discretion, as the Lessee entered into this Company Lease Agreement as the successful respondent pursuant to the Company RFP and all applicable law, and the Lessor and the Series 2011 Local Units have selected the Lessee, and not any assignee, to receive the rights, and perform the duties and obligations hereunder. Any such purported assignment or sublease shall be deemed null and void without such prior written consent.

**SECTION 904. Restriction on Mortgage or Sale of Project by Lessee.**

The Lessee shall not mortgage, sell, assign, transfer or convey the Projects or any portion thereof during the Term of this Company Lease Agreement without the prior written consent of the Lessor and the Applicable Series 2011 Local Units, in their sole discretion, as the Program Documents contemplate such Projects being available, directly in the case of the Capital Improvement Projects, or indirectly in the case of the Renewable Energy Projects as a source of power, for the benefit of the Series 2011 Local Units.

**SECTION 905. Reorganization.**

It is understood and agreed by the parties hereto that reorganization of the Lessee with the consent of the Lessor shall not constitute an assignment under this Article IX.

(a) An Event of Default hereunder means the occurrence of any one or more of the following events:

(i) The Lessee fails to (A) make any Basic Lease Payment as it becomes due or (B) make any Additional Lease Payment as it becomes due or maintain any insurance requirement set forth hereunder, and in the case of (B) only, such failure is not cured within thirty (30) days after written notice thereof has been given to the Lessee by the Lessor or the Trustee; provided, however, if the Basic Lease Payment is paid with funds from the County Reserve, such payment will not constitute an Event of Default.

(ii) The Lessee fails to perform or observe any other covenant, condition or agreement to be performed or observed by it hereunder or under any Company Document, and such failure is not cured within ninety (90) days after written notice thereof has been given to the Lessee by the Lessor or the Trustee; provided, however, that if such failure cannot be cured within said ninety (90) day period, the Lessee shall not be in default if it has commenced to cure within such ninety (90) day period, it continuously proceeds with the cure, and if such action to cure the default is acceptable to the Lessor and the Lessor indicates the same in writing.

(iii) The discovery by the Lessor or the Trustee that any material statement, representation or warranty made by the Lessee in this Company Lease Agreement, or in any writing delivered by the Lessee pursuant hereto or in connection herewith, is false, misleading or erroneous in any material respect.

(iv) The Lessee becomes insolvent or admits in writing its inability to pay its debts as they mature or applies for, consents to or acquiesces in the appointment of a trustee, receiver or custodian for the Lessee or a substantial part of its property, or in the absence of such application, consent or acquiescence, a trustee, receiver or custodian is appointed for the Lessee or a substantial part of its property and is not discharged within sixty (60) days; or any bankruptcy, reorganization, debt arrangement, moratorium or other proceeding under bankruptcy or insolvency law, or any dissolution or liquidation proceeding, is instituted by or, if permitted by law, against the Lessee and, if instituted against the Lessee, is consented to or acquiesced in by the Lessee or is not dismissed within sixty (60) days.

(b) Upon the occurrence of an Event of Default under this Section 1001, the Trustee shall transmit a written notice, including electronic mail, of such Event of Default to the Lessor, the Lessee and the Series 2011 Local Units within thirty (30) days of the Trustee's knowledge thereof.

(c) Upon the occurrence of an Event of Default under this Section 1001, all obligations of the Lessee under this Company Lease Agreement shall remain in full force and effect.

#### SECTION 1002. Remedies.

(a) Upon the occurrence and continuation of any Event of Default as described in Section 1001 hereof, at the option of the Lessor, the Mandatory Purchase Price with respect to the Project shall become immediately due and payable by the Lessee upon the Lessor's declaration. So long as the Lessor is not in default hereunder, the Lessor shall have the right to direct all remedial proceedings under this Company Lease Agreement, including the consent to remedies taken upon an Event of Default. Subject to the preceding sentence, the Lessor shall have the right, without any further demand or notice, to take one or any combination of the remedial steps below:

(i) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and exclude the Lessee from using it; provided, however, that if this Company Lease Agreement has not been terminated, the Lessor shall return possession of same to the Lessee when the Event of Default has been cured; and provided, further, that the Lessee shall continue to be responsible for the Lease Payments due hereunder during the remainder of the Lease Term.

(ii) With or without terminating this Company Lease Agreement, take possession of the Renewable Energy Projects, the SRECs, and any other portion of the Leased Property, and sell, lease or sublease its interest therein or any part thereof.

#### SECTION 1004. Election of Remedies; No Waiver of Elected Remedies.

No failure on the part of either party to exercise, and no delay in exercising any right or remedy so provided for herein, shall operate as a waiver thereof, nor shall any single or partial exercise by either party of any right or remedy so provided hereunder preclude any other or further exercise of any other right or remedy provided hereunder.

#### SECTION 1005. No Additional Waiver Implied by One Waiver.

In the event any agreement contained in this Company Lease Agreement should be breached by either party and thereafter waived by the other party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder, and shall not be construed to be an implied term hereof or a course of dealing between the parties hereto.

#### SECTION 1006. Agreement to Pay Attorneys' Fees and Expenses.

In the event either party to this Company Lease Agreement should default under any of the provisions hereof and the non-defaulting party should employ attorneys or incur other expenses for the collection of moneys or the enforcement, performance or observance of any obligation or agreement on the part of the defaulting party herein contained, the defaulting party agrees that it shall, on demand therefor, pay to the non-defaulting party the reasonable fees of such attorneys and such other expenses so incurred by the non-defaulting party.

COUNTY GUARANTY AGREEMENT  
(Sussex County Renewable Energy Program, Series 2011)

By and Between

MORRIS COUNTY IMPROVEMENT AUTHORITY

And

COUNTY OF SUSSEX

Dated: as of December 1, 2011

with respect to Morris County Improvement Authority's  
\$27,700,000 aggregate principal amount of  
County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011  
(Federally Taxable), consisting of:  
\$26,715,000 Series 2011A Bonds, and  
\$985,000 Series 2011B Note.

WHEREAS, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "Section 11"), which purposes include the development and implementation of the Renewable Energy Program;

WHEREAS, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "Shared Services Act"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "Service Agreement") between the County and the Authority, and consented to by Morris County;

WHEREAS, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "Authority Consultants") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

WHEREAS, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "Sussex County Consultants"), if any, and together with the Authority Consultants, the "Consultants"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

WHEREAS, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "Local Unit Facilities");

THIS "COUNTY GUARANTY AGREEMENT (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "County Guaranty Agreement") by and between the MORRIS COUNTY IMPROVEMENT AUTHORITY (including any successors and assigns, the "Authority"), duly created by resolution of the Board of Chosen Freeholders ("Board of Freeholders") of the hereinafter defined County as a public body corporate and politic of the State of New Jersey ("State") pursuant to and in accordance with the provisions of the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "Act") and other applicable law, and the COUNTY OF SUSSEX, a political subdivision of the State (the "County").

WHEREAS, the County of Sussex, New Jersey, a political subdivision of the State (the "County") desires to undertake the development and implementation of a renewable energy program (the "Renewable Energy Program") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "Renewable Energy Projects") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "Local Units");

WHEREAS, the Morris County Improvement Authority (the "Authority") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "Morris County Board of Freeholders") of the County of Morris (the "Morris County") in the State of New Jersey (the "State") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "Act"), and other applicable law;

WHEREAS, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "Capital Improvement Projects" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "Projects"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

Section 1. The full faith and credit of the County are hereby pledged for the full and punctual performance of the County Guaranty. Accordingly, the Freeholder-Director of the County shall, and hereby is, authorized and directed to execute and deliver the County Guaranty Certificate in the form set forth in Section 14.01 of the Bond Resolution upon initial issuance of the Series 2011 Bonds, as part of each such Series 2011 Bond. This County Guaranty Agreement shall not guaranty the payment of any redemption premium with respect to the Series 2011 Bonds. Capitalized terms not defined herein shall have the meaning ascribed to such terms in the Bond Resolution.

Section 2. The Authority agrees to apply the proceeds derived from the sale of the Series 2011 Bonds to Costs associated with the Projects for the Series 2011 Local Units, including payment of Costs of Issuance, Administrative Expenses and required reserves, if any, and such other matters as set forth in the Bond Resolution.

Section 3. The Authority will keep, or cause to be kept by the Trustee or otherwise, proper books of record and account in which complete and correct entries shall be made of its transactions relating to the Projects and which, together with all other books and papers of the Authority, shall at all reasonable times be subject to inspection by the County.

Section 4. Attached hereto as Exhibit A is the following information required by the County in order to discharge its obligations under this County Guaranty Agreement:

(a) The date of issuance, the maturity dates, the principal amortization, the interest rate or rates, and the Trustee and Paying Agent for the Series 2011 Bonds.

(b) The Basic Lease Payments and the Basic Lease Payment Dates.

Section 5. If, thirty (30) days prior to any Interest Payment Date or Principal Payment Date, the amounts that are on deposit in the Aged Account of the Revenue Fund established under the Bond Resolution are insufficient to provide for the payment of the principal of (including sinking fund payments, if any) and/or interest on the Series 2011 Bonds that are due and payable on such payment dates, the Trustee shall notify the County's Chief Financial Officer on such day of the amounts that are necessary to provide for the payment of the principal of and/or interest on the Series 2011 Bonds (the "Deficiency"). The County shall be obligated to make payment of the Deficiency to the Trustee no later than one (1) Business Day prior to the Interest Payment Date or the Principal Payment Date, as applicable, of the Series 2011 Bonds. Notwithstanding any other provision of this Guaranty Agreement, failure by the Trustee to give the County notice as provided herein shall not relieve the County of its obligations to make payment under the terms of the County Guaranty.

- 11 -

(a) Notwithstanding the foregoing provisions of this Section 5, upon the occurrence and continuance of the Deficiency one (1) Business Day prior to the Interest Payment Date or the Principal Payment Date,

(i) with respect to the Series 2011A Bonds only, the County may, in its sole discretion determine to exercise its right to cause the optional redemption or if applicable, defeasance and subsequent optional redemption, of all or a portion of the Series 2011A Bonds, which optional redemption is contemplated by Section 2.03(5)(a) and (b) of the Bond Resolution, and which defeasance is contemplated by Article XII of the Bond Resolution. In any such instance, the County may establish the defeasance date, as applicable, at any time, and the redemption date at any time on or after June 15, 2021, all with written notice to the Authority and the Trustee and otherwise in accordance with the terms of the Bond Resolution. Nothing in this Section 5(a)(i) is intended to diminish the County's rights to reimbursement, including those rights set forth in Section 7 hereof.

(ii) with respect to the Series 2011B Note only, [B Note subject to redemption?].

**Section 6.** Subject to Section 5(a) hereof, when notice has been provided, as described above, the County shall take all necessary actions to make payment of the Deficiency to the Trustee as provided above. Such actions shall include the adoption of an emergency appropriation or an emergency temporary appropriation and the funding of such appropriation in accordance with the requirements of the Local Budget Law (N.J.S.A. 40A:4A-1 *et seq.*), the levy of *ad valorem* taxes on all taxable property in the County, without limitation as to rate or amount, or any other actions that are legally permitted to be taken to meet the requirements of such County Guaranty (including the adoption of a bond ordinance pursuant to the provisions of the Local Bond Law).

**Section 7.** (a) The Authority hereby covenants to the County that in the event the County Guaranty is called upon, the Authority shall be obligated and shall take all actions within its power (in accordance with the terms of the Act), including causing the Trustee to pay over to the County all funds on deposit in the County Security Fund, if any, held by the Trustee under the Bond Resolution as monies therein shall not be part of the Trust Estate pledged to the payment of debt service on the Series 2011 Bonds, so as to enable the County to be reimbursed, to the maximum extent practicable, up to the amount that shall have been paid by the County pursuant to the terms of this County Guaranty Agreement (i.e., the Deficiency), at the earliest practicable date. The Authority shall not be obligated to pay the Deficiency from funds within its general control that are not contemplated by the Program Documents; the Authority, shall, however, pay or cause the Deficiency to be paid from amounts the Authority controls on deposit in the County Security Fund, or from any past due Basic Lease Payments it receives from the Company. The County and the Authority acknowledge and agree that as of the date of this Guaranty Agreement, it has been determined that the amount of the County Security Fund Requirement will be \$1,500,000, and there is no County Security Agreement, County Security Provider or other form of County Security, and any provisions herein with respect to such terms are hereby of no further force or effect.

- 12 -

(d) The extension of the time for payment of the principal of or interest on the Series 2011 Bonds or of the time for performance of any obligations, covenants or agreements under or arising out of the Program Documents;

(e) The modification or amendment (whether material or otherwise) of any obligation, covenant or agreement set forth in the Program Documents;

(f) The taking, suffering or the omission of any of the actions referred to in the Series 2011 Bond Resolution or of any actions under this County Guaranty Agreement;

(g) Any failure, omission, delay or lack on the part of the Authority to enforce, assert or exercise any right, power or remedy conferred on the Authority in this County Guaranty Agreement, the Series 2011 Bond Resolution or any other act or acts on the part of the Authority or any of the holders from time to time of the Series 2011 Bonds;

(h) The voluntary or involuntary liquidation, dissolution, sale or other disposition of all or substantially all of the assets, marshalling of assets and liabilities, receivership, insolvency, bankruptcy, assignment for the benefit of creditors, reorganization, arrangement, composition with creditors or readjustment or other similar proceedings affecting the Authority, the Company or any other Renewable Energy Program Interested Party or any assets of any of them, or any allegation or contest of the validity of the County Guaranty, or the Series 2011 Bond Resolution;

(j) The default or failure of the County fully to perform any of its obligations set forth in this County Guaranty Agreement.

**Section 9.** No set-off, counterclaim, reduction, recoupment, or diminution of any obligation, or any defense of any kind or nature (other than full and timely performance by the County of its obligations hereunder) which the County or the Authority has or may have against the Authority, the County, the Trustee, any other Renewable Energy Program Interested Party, or against any holder of the Series 2011 Bonds, shall be available to the County or the Authority hereunder against the Authority, the County, the Trustee, any other Renewable Energy Program Interested Party, or against any holder of the Series 2011 Bonds or anyone succeeding to the respective interests thereof.

**Section 10.** The County further guarantees that all payments made with respect to the Series 2011 Bonds, when made, will be final and agrees that if such payment is recovered from or repaid by or on behalf of the Authority or the holders of the Series 2011 Bonds in whole or in part in any bankruptcy, insolvency or similar proceeding instituted by or against the Authority or the Company, the County Guaranty shall continue to be fully applicable to such liabilities to the same

- 14 -

(b) Nothing herein provided shall in any way diminish the County's rights to receive payment from the County Security Fund for reimbursement of any County payment of the Deficiency. The Authority shall take all actions necessary, desirable or convenient to assist the County in any such reimbursement action, and simultaneously with the authorization, execution and delivery hereof, the Authority shall (i) deliver or cause to be delivered for the benefit of the County the County Reserve to be deposited with the Trustee in the County Security Fund created under the Bond Resolution, in which case no County Security Agreement shall exist, and further, the Authority shall (ii) incorporate into the Program Documents repayment provisions to the County relating to the County Security, including without limitation Section 5.07 of the Bond Resolution.

(c) As further security and further assurance for the Company's obligations to (i) make Basic Lease Payments, (ii) make those Additional Lease Payments constituting part of the Trust Estate, and (iii) pay interest at the Overdue Rate on such amounts in clauses (i) and (ii), all at the times, in the amounts, and otherwise in accordance with the terms and provisions of the Company Lease Agreement, the failure to make timely and full payment of which could cause any such Deficiency, the Authority hereby further assigns and pledges all of its right, title and interest in and to the Reimbursement Collateral to the County, to be held as collateral to secure such Deficiency payment; provided, however, that to the extent the County is never required to make payment under its County Guaranty or the County is reimbursed in full for its Deficiency payment(s) by or on behalf of the County Security Provider from the County Security, the County expressly acknowledges it shall have no further rights to the Reimbursement Collateral, and further, that the County Security Provider (upon issuance of the Series 2011 Bonds, with no County Security Agreement, being the Company) shall, in such instance, be exclusively entitled to any balance of the Reimbursement Collateral. This County Guaranty Agreement shall be deemed to be a security agreement for purposes of the Uniform Commercial Code and all other applicable law.

**Section 8.** The obligations of the County under this County Guaranty Agreement shall be full, absolute, irrevocable, and unconditional, and shall remain in full force and effect until the entire principal of (including Sinking Fund Installments, if any) and interest on the Series 2011 Bonds shall have been paid or duly provided for in accordance with the provisions of the Bond Resolution. The County Guaranty is a guaranty of payment and not of collectability. The obligations of the County hereunder shall not be affected, modified or impaired upon the occurrence from time to time of any event, including without limitation any of the following, whether or not with notice to, or the consent of, the County:

(a) The waiver, compromise, settlement, release or termination of any or all of the obligations, covenants or agreements of the Authority which are contained in the Bond Resolution and any other Program Document, or of the payment, performance or observance thereof;

(b) The failure to give notice to the County of the occurrence of an event of default under the provisions of this County Guaranty Agreement;

extent as though the payment so recovered or repaid had never been originally made on such liabilities.

**Section 11.** In the event of a default in payment of the principal of or interest on the Series 2011 Bonds when and as the same shall become due, whether at the stated maturity thereof or otherwise, the Authority, the Trustee or any party to whom the Authority's or the Trustee's rights have been assigned may proceed to enforce their rights hereunder and may proceed first and directly against the County under the terms of this County Guaranty Agreement without proceeding against or exhausting any other remedies which it may have and without resorting to any other security held by the Authority or the Trustee. In any such event, the County shall be subrogated to the rights of such party with respect to such security. All moneys recovered pursuant to this County Guaranty Agreement shall be applied in accordance with the provisions of the Bond Resolution.

**Section 12.** The County hereby acknowledges that it is an "obligated person" as such term is defined in Rule 15c2-12, and the preparation, negotiation, execution and delivery of the County Continuing Disclosure Agreement in accordance with Rule 15c2-12 is hereby approved in the form attached as Exhibit B hereto, and the Freeholder Director of the County is hereby authorized to execute the County Continuing Disclosure Agreement and to deliver the same to the Trustee and the Authority. **Section 13.** This County Guaranty Agreement shall terminate after (a) payment in full of the principal of and interest on the Series 2011 Bonds have been made, or provision for the payment of same has been made in accordance with the terms of the Bond Resolution, including without limitation Article XII thereof, provided, however, this Guaranty Agreement shall survive if payment of principal and interest is made pursuant to Section 10 hereof and (b) the County shall have been fully reimbursed for any payments made by it, if any, under the County Guaranty.

**Section 14.** This County Guaranty Agreement may be executed in any number of counterparts, each of which shall be executed by the Authority and by the County and all of which shall be regarded for all purposes as one original and shall constitute and be but one and the same. This County Guaranty Agreement shall be governed by the laws of the State.

**Section 15.** The County hereby acknowledges and consents to the irrevocable assignment of the right of the Authority to receive payments from the County under the provisions of the County Guaranty by the Authority to the Trustee for the benefit of the holders of the Series 2011 Bonds, as and to the extent provided in the Bond Resolution.

**Section 16.** Notwithstanding anything contained herein to the contrary, in the event that the form of government is changed so that there is no longer a Chief Financial Officer of the County, any notices contemplated hereunder shall be provided to and any actions contemplated to be taken hereunder shall be taken by the chief executive officer of the County.

In conjunction with the Company Lease Agreement, the Authority has entered into that certain "Power Purchase Agreement (Sussex County Renewable Energy Program, Series 2011)" with the Company, dated as of December 1, 2011, (the "*Power Purchase Agreement*") for the right and obligation to purchase from the Company electricity generated by the Renewable Energy Projects. The Authority has assigned certain of these rights and obligations to each of the Series 2011 Local Units pursuant to the terms of the respective "License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)", each dated as of December 1, 2011 (the "*Local Unit License Agreements*"), by and between each of the respective Series 2011 Local Units, as licensor, and the Authority, as licensee.

Simultaneously with the execution and delivery of the Company Lease Agreement, the Power Purchase Agreement, and the Local Unit License Agreements, (i) the Authority, the Trustee, and the Company have entered into that certain "Company Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (the "*Company Continuing Disclosure Agreement*") and (ii) the Authority, the County and the Trustee have entered into that certain "County Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (the "*County Continuing Disclosure Agreement*" and together with the Company Continuing Disclosure Agreement, the "*Continuing Disclosure Agreements*").

The Company Lease Agreement, the Power Purchase Agreement, the Local Unit License Agreements, the County Guaranty Agreement (as defined herein) and the Continuing Disclosure Agreements shall be collectively referred to herein as the "*Authority Financing Documents*".

The Series 2011A Bonds are dated the date hereof, mature in the principal amounts and bear interest at the rates of interest as stated therein and in the Bond Resolution, and are issued in fully registered form in denominations of \$5,000 or any integral multiple thereof. The Series 2011B Note is dated the date hereof and matures on January 15, 2013.

Interest on the Series 2011A Bonds is payable semiannually on June 15 and December 15 in each year until final maturity thereof (each an "*Interest Payment Date*"), commencing June 15, 2012. The Series 2011A Bonds are subject to optional [and mandatory sinking fund] redemption prior to their stated maturities in the manner and upon the terms and conditions set forth therein and in the Bond Resolution. Principal and redemption premium, if any, of the Series 2011 Bonds are payable by presentation and surrender thereof at the principal corporate trust office of U.S. Bank, National Association, Morristown, New Jersey (the "*Trustee*", "*Registrar*" and "*Paying Agent*"). Except as set forth below regarding payments made to Cede & Co., interest on the Series 2011 Bonds is payable by check of the Paying Agent mailed to each registered owner of the Series 2011 Bonds at the address of such registered owner shown on the registration books maintained by the Trustee, in its capacity as registrar, as of the first day of the month next preceding the Interest Payment Date.

The Series 2011 Bonds are issued in fully registered form without coupons, initially registered in the name of and held by Cede & Co., as nominee for The Depository Trust Company, New York, New York ("*DTC*"), an automated depository for securities and clearinghouse for securities transactions. Purchases of the Series 2011 Bonds will be made in book-entry-only form (without certificates) in denominations of \$5,000 or any integral multiple thereof. So long as DTC or its nominee is the registered owner of the Series 2011 Bonds, payment of the principal and redemption premium, if any, of and interest on the Series 2011 Bonds will be made by the Trustee or the Paying Agent, as the case may be, directly to Cede & Co., as nominee for DTC, in immediately available funds when due. Disbursal of such payments to the DTC participants is the responsibility of DTC, and disbursal of such payments to the beneficial owners of the Series 2011 Bonds is the responsibility of the DTC participants and not the responsibility of the Authority, the Trustee or the Paying Agent.

Payment of the principal of (including mandatory sinking fund installments, if any) and interest on the Series 2011 Bonds, but not any redemption premium, shall be fully, unconditionally and irrevocably guaranteed in accordance with the terms of (i) a guaranty ordinance of the County finally adopted by the Board of Chosen Freeholders of the County on August 17, 2011, (ii) a guaranty certificate to be executed by an authorized officer of the County within each Series 2011 Bond, and (iii) a "County Guaranty Agreement (Sussex County Renewable Energy Program, Series 2011)" dated as of December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Guaranty Agreement*") between the County and the Authority, as acknowledged by the Company, all pursuant to Section 37 of the Act (N.J.S.A. 40:37A-80) (collectively, the "*County*

*Guaranty*”).

In our capacity as bond counsel, we have examined (i) the Constitution and statutes of the State, including the Act, (ii) the Bond Resolution, (iii) the Authority Financing Documents, (iv) the County Guaranty, (v) a specimen of the Series 2011A Bonds and (vi) a specimen of the Series 2011 B Note, and such other documents, records of the Authority and instruments as we have deemed necessary to enable us to express the opinions hereinafter set forth. As to matters of fact, we have relied upon the representations of the Authority and, where we have deemed appropriate, representations or other certifications of public officials and, to the extent that we have deemed such reliance proper, on certain representations, certifications of facts, and statements of reasonable expectations made by the Authority in connection with the Series 2011 Bonds.

Further, in expressing such opinions, we have relied upon the genuineness, truthfulness and completeness of the resolutions, documents, records and instruments referred to above.

Based upon and subject to the foregoing, we are of the opinion that:

(1) The Authority has been duly created and is validly existing as a public body corporate and politic under the provisions of the Constitution and statutes of the State, including the Act, with the right and power to adopt the Bond Resolution, to enter into the Authority Financing Documents and to issue the Series 2011 Bonds.

(2) The Bond Resolution has been duly adopted by the Authority, is in full force and effect, is valid and binding upon the Authority, is enforceable in accordance with its terms and no other authorization for the Bond Resolution is required. The Bond Resolution creates the valid pledge which it purports to create of the Trust Estate.

(3) The Series 2011 Bonds have been duly authorized and issued by the Authority in accordance with law, including the Act, and in accordance with the Bond Resolution and are *valid and binding special obligations of the Authority, enforceable in accordance with their terms and the terms of the Bond Resolution*, and are entitled to the benefits of the Bond Resolution and the Act. Neither the State, nor the County (except to the extent of the County Guaranty, which does not guaranty the payment of redemption premium, if any), nor any municipality therein nor any other political subdivision thereof, other than the Authority (but solely to the extent of the Trust Estate in accordance with the terms of the Bond Resolution), is obligated to pay the principal of, redemption premium, if any, or interest on the Series 2011 Bonds, and neither the faith and credit nor the taxing power of the State, the County (except to the extent of the County Guaranty, which does not guaranty the payment of redemption premium, if any), any municipality therein or any other political subdivision thereof, is pledged to the payment of the principal of, redemption premium, if any, or interest on the Series 2011 Bonds.

(4) The Authority Financing Documents have each been duly authorized, executed and delivered by the Authority, and assuming their due authorization, execution and delivery by the other parties thereto, constitute valid and binding agreements of the Authority and such other parties, and are enforceable in accordance with their respective terms.

(5) The County has the full legal right and power to adopt and execute, as the case may be, the County Guaranty and the County Guaranty creates the valid and binding obligation of the County, enforceable in accordance with its terms. Under the County Guaranty, the County is obligated to make any required payments under the terms of the County Guaranty to the Authority or the Trustee out of the first funds becoming legally available to the County for this purpose and to provide the funds for such payments, if not otherwise available, from the levy of *ad valorem* taxes upon all the taxable property in the County without limitation as to rate or amount. The obligations of the County under the County Guaranty to make full payment of the principal of and interest on the Series 2011 Bonds (which does not include redemption premium, if any) shall be full, unconditional and irrevocable.

(6) Under current law, interest on the Series 2011 Bonds and any gain on the sale thereof are not includable as gross income under the New Jersey Gross Income Tax Act.

The above opinions are limited to and based upon the laws and judicial decisions of the State and the federal laws and judicial decisions of the United States of America as of the date hereof, and are subject to any amendment, repeal or other modification of the applicable laws or judicial decisions that served as the basis for their opinions or to any laws or judicial decisions hereafter enacted or rendered. No opinion is expressed regarding federal tax consequences arising with respect to the Series 2011 Bonds.

We note, in connection with the opinions expressed herein, that the enforceability of rights or remedies with respect to the Bond Resolution, the Series 2011 Bonds, the Authority Financing Documents and the County Guaranty may be limited, however, by bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights or remedies heretofore or hereafter enacted and that their enforcement may also be subject to the exercise of judicial discretion in appropriate cases. We express no opinion as to the availability of any particular remedy.

In rendering the opinions contained in paragraphs 4 and 5 above, we have relied upon the respective opinions, dated the date hereof, of independent counsel to the Company and the County, as the case may be, (i) with respect to the due authorization, execution and delivery of the Authority Financing Documents by the other parties thereto, (ii) with respect to the due authorization, adoption, execution and delivery of the County Guaranty by the County, including, without limitation, proper compliance with all publication, hearing and other procedural requirements of Section 37 of the Act (N.J.S.A. 40:37A-80) and of the Local Bond Law, constituting Chapter 169 of the Pamphlet Laws of 1960 of the State, (iii) to the effect that the County Guaranty has not been amended, modified or repealed since the date of final adoption and that the County Guaranty is still in full force and effect, and (iv) to the effect that the County Guaranty is a valid and binding obligation of the County, enforceable against the County in

accordance with its terms.

This opinion is being delivered to you at your request. Our engagement by you with respect to the opinions expressed herein does not require, and shall not be construed to constitute, a continuing obligation on our part to notify or otherwise inform you or the reliance parties hereof of the amendment, repeal or other modification of the applicable laws, judicial decisions, actions, facts, or circumstances that served as the basis for this opinion letter or of laws or judicial decisions hereafter enacted or rendered which impact on this opinion letter.

We have examined one of the Series 2011A Bonds as executed by the Authority and as authenticated by the Trustee, and, in our opinion, the form, execution and authentication of said Series 2011A Bonds are regular and proper. We have examined the Series 2011B Note as executed by the Authority and as authenticated by the Trustee, and, in our opinion, the form, execution and authentication of said Series 2011B Note is regular and proper.

Very truly yours,

**COUNTY CONTINUING DISCLOSURE AGREEMENT  
(SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011)**

THIS COUNTY CONTINUING DISCLOSURE AGREEMENT (SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011) (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "*County Continuing Disclosure Agreement*") is made and entered into as of December 1, 2011 by and among the COUNTY OF SUSSEX, NEW JERSEY , a political subdivision of the hereinafter defined State (the "*County*"), U.S. BANK NATIONAL ASSOCIATION (the "*Bank*"), a national banking association authorized and acting under the laws of the United States of America and further authorized to conduct business in the State of New Jersey (the "*State*"), where the Bank acts as trustee under and pursuant to the hereinafter defined Bond Resolution (including any successors and assigns, the "*Trustee*"), and the MORRIS COUNTY IMPROVEMENT AUTHORITY, a public body corporate and politic duly created and validly existing under the laws of the State (including any successors and assigns, the "*Authority*").

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and bio-mass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

**WHEREAS**, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "*Act*"), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy

Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "*Projects*"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and
- (ii) Byram Township School District, Frankford Board of Education, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Township Board of Education, High Point Regional Board of Education, Kittatinny Regional School District, Lafayette Township Board of Education, Lenape Valley Board of Education, Newton Board of Education (collectively, the "*Board of Education Series 2011 Local Units*"); and
- (iii) County and Sussex County Technical School (the "*County Series 2011 Local Units*");

(each a "*Series 2011 Local Unit*", and, collectively, the "*Series 2011 Local Units*"), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following

series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)" dated their date of delivery (the "*Series 2011A Bonds*") the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the "*Series 2011A Bonds*"), and (ii) one series of notes in the aggregate principal amount of \$985,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)" (the "*Series 2011B Note*", and together with the Series 2011A Bonds, "*Series 2011 Bonds*"), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year's worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*");

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the "*Bonds*") shall be issued pursuant to the terms of that certain "RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY" adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the "*Bond Resolution*"), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, the holders of any Additional Bonds issued under the terms of the Bond Resolution, the Act and all other applicable law shall also be entitled to the pledge of the Trust Estate under the Bond Resolution on a pro-rata basis with the holders of any Outstanding Bonds as defined therein, including the Series 2011 Bonds, although the guaranty of the County shall only extend to any such Series of Additional Bonds to the extent (i) the aggregate principal

amount of all such Series of Additional Bonds, when taken together with the aggregate principal amount of the Series 2011 Bonds, shall not exceed \$50,000,000, or (ii) the County adopts and executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County Security*") to be issued by a sufficiently rated banking or other financial institution, or if the County Security is provided by or on behalf of the Company, then the Company (in any such case, the "*County Security Provider*"), all to secure, in part, the County's payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for the payment of the Series 2011 Bonds), the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Security Agreement*") among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the "*EPC Contractor*"), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated [December \_\_], 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*EPC Contract*") between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the "*In-Kind Equity Contribution*") until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y)

the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic Lease Payment Date (the "Cash Equity Contribution") which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the In-Kind Equity Contribution, together with the Cash Equity Contribution shall be known as the "*Equity Contribution*"), (ii) a cash reserve in the amount of \$1,500,000 (the "*County Reserve*") to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution), which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

**WHEREAS**, should the County otherwise have insufficient sources of funds to make its Basic Lease Payments on time and in full, the Company shall have the ability to draw funds from the County Reserve in order to enable the Company to make its Basic lease Payments;

**WHEREAS**, should the Company fail to make its Basic Lease Payments on time and in full, thereby causing the County to make payments to the Series 2011 Bondholders under the County Guaranty, which in turn causes the County Security to be drawn upon to reimburse the County for all or a portion of any such County Guaranty repayments, (i) the County Security Agreement, if any, may provide that the Authority assign and pledge the Reimbursement Collateral to the County Security Provider, as reimbursement security for any such draw on the County Security, or (ii) to the extent no County Security Agreement shall exist, then the Company, as County Security Provider in such instance, shall only be entitled to such excess County Security, as Reimbursement Collateral, if any shall remain available, after and to the extent the County has been fully paid under its County Guaranty but only to the extent of any County Security provided by or on behalf of the Company;

**WHEREAS**, in the event the Company provides the County Security Fund requirement, in part, through such a covenant to provide immediately available funds, if applicable, but in any event to secure other Company obligations under the Company Documents, the Authority shall require the Company to further secure such obligations by pledging certain property interests of the Company and its member's interest in and to the Company to the Trustee, all as shall be set forth in the Company Lease Agreement and that certain "Pledge and Security Agreement

(Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the “*Company Pledge Agreement*”), and issued by the sole member of the Company, in favor of the Trustee, and acknowledged and accepted by the Company;

**WHEREAS**, the Company as a potential “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12 (“*Rule 15c-12*”) promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, shall be required to enter into that certain “Company Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the “*Company Continuing Disclosure Agreement*”) with the Authority and the Trustee, as dissemination agent (the “*Dissemination Agent*”) in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution and/or the Continuing Disclosure Agreements, the Authority shall (i) not be considered a “materially obligated person” within the meaning and for the purposes set forth in Rule 15c2-12, and (ii) be required to provide certain material events notices in accordance with Rule 15c2-12, and accordingly, the Authority shall be required to provide such material events notices under the terms of the Company Continuing Disclosure Agreement and the County Continuing Disclosure Agreement, all in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application dated July 19, 2011 (the “*Local Finance Board Application*”) to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the “*Local Finance Board*”) in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall by negotiated sale publicly offer the Series 2011 Bonds, in which public offering case the Authority shall have authorized (i): the distribution of a preliminary official statement “deemed final”

within the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the "*Preliminary Official Statement*"); and (ii) the execution and delivery of a bond purchase agreement (the "*Bond Purchase Agreement*") with an underwriter to be selected by the Authority through a fair and open process (alternatively, the "*Underwriter*") to purchase all of the Series 2011 Bonds, and (iii) delivery of a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the "*Official Statement*", and together with the Preliminary Official Statement, and the Bond Purchase Agreement, and any of the same or other offering or sale documents that may be required by the County "*Sale Documents*");

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 ("*Section 13*") of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the "*Sussex County Board of Freeholders*") and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Documents, the County Documents, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the "*Program Documents*"), and which report and amended report shall be accepted by both the County and Morris County by resolution adopted by the Sussex County Board of Freeholders and the Morris County Board of Freeholders pursuant to Section 13.

**COMPANY CONTINUING DISCLOSURE AGREEMENT  
(SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011)**

THIS COMPANY CONTINUING DISCLOSURE AGREEMENT (SUSSEX COUNTY RENEWABLE ENERGY PROGRAM, SERIES 2011) (including any amendments or supplements hereto from time to time in accordance with the terms hereof, this "*Company Continuing Disclosure Agreement*") is made and entered into as of December 1, 2011 by and among SUNLIGHT GENERAL SUSSEX SOLAR, LLC, a limited liability company organized and existing under the laws of the State of New Jersey (the "State") (including any successors and assigns, the "*Company*"), U.S. BANK NATIONAL ASSOCIATION (the "*Bank*"), a national banking association authorized and acting under the laws of the United States of America and further authorized to conduct business in the State, where the Bank acts as trustee under and pursuant to the hereinafter defined Bond Resolution (including any successors and assigns, the "*Trustee*"); and the MORRIS COUNTY IMPROVEMENT AUTHORITY, a public body corporate and politic duly created and validly existing under the laws of the State (including any successors and assigns, the "*Authority*").

---

**WHEREAS**, the County of Sussex, New Jersey, a political subdivision of the State (the "*County*") desires to undertake the development and implementation of a renewable energy program (the "*Renewable Energy Program*") for the financing, design, permitting, acquisition, construction, installation, operation and maintenance of renewable energy capital equipment and facilities such as solar panels, wind turbines, and hydro-electric, bio-diesel, geothermal, and biomass facilities, including any related electrical modifications, work related to the maintenance of roof warranties, or other work required, desirable or convenient for the installation of such systems (collectively, the renewable energy capital equipment and facilities, the "*Renewable Energy Projects*") for and on behalf of the County and its affiliates, and the local governmental units within the County, including without limitation municipalities, boards of education for school districts, local authorities and any other local government instrumentalities, public bodies or other local government entities (collectively, including the County, the "*Local Units*");

**WHEREAS**, the Morris County Improvement Authority (the "*Authority*") has been duly created by resolution no. 42 entitled "Resolution of the Board of Chosen Freeholders of Morris County, New Jersey creating the Morris County Improvement Authority" duly adopted by the Board of Chosen Freeholders (the "*Morris County Board of Freeholders*") of the County of Morris (the "*Morris County*") in the State of New Jersey (the "*State*") on April 10, 2002 as a public body corporate and politic of the State pursuant to and in accordance with the county improvement authorities law, constituting Chapter 183 of the Pamphlet Laws of 1960 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40:37A-44 *et seq.*, the "*Act*"), and other applicable law;

**WHEREAS**, as of the date hereof, the County has not created its own county improvement authority, and therefore pursuant to the Act, the County may determine to utilize the services of another county improvement authority, including without limitation the Authority, with the consent of both the County, a beneficiary county under the Act, and the Morris County Board of Freeholders, for any purpose for which an improvement authority shall exist, including those set forth in Section 11 of the Act (N.J.S.A. 40:37A-54, "*Section 11*"), which purposes include the development and implementation of the Renewable Energy Program;

**WHEREAS**, the County desires to implement the Renewable Energy Program through the Authority pursuant to the Act, the Uniform Shared Services and Consolidation Act, constituting Chapter 63 of the Pamphlet Laws of 2007 of the State, and the acts amendatory thereof and supplemental thereto (as codified at N.J.S.A. 40A:65-1 *et seq.*, the "*Shared Services Act*"), and all other applicable law, the terms of which agreement has been set forth in that certain "Service Agreement (Sussex County Renewable Energy Program)" dated as of March 1, 2011 (as amended and supplemented from time to time in accordance with its terms, the "*Service Agreement*") between the County and the Authority, and consented to by Morris County;

**WHEREAS**, the County has determined to enter into the Service Agreement and utilize the services of the Authority and the Authority Consultants (as hereinafter defined) for the following primary reasons: (i) the County does not have a county improvement authority, which type of entity possesses legal authority to enter into the kind of transactions that make a successful regional Renewable Energy Program more likely to succeed, (ii) Morris County has developed and implemented its own renewable energy program through the Authority, which Authority has retained (in accordance with all applicable law) experienced legal, engineering, energy consulting, and financial advisory consultants, consisting of the Authority's energy engineering and energy service consulting firms, Birsdall Services Group and Gabel Associates, its energy counsel and bond counsel, Inglesino, Pearlman, Wyciskala & Taylor, LLC, and its financial advisor, NW Financial Group, LLC, (collectively, the "*Authority Consultants*") and (iii) accordingly, it is more administratively efficient for the County to utilize the services of the Authority and the Authority Consultants to implement the Renewable Energy Program, with such changes as desired by the County, rather than incur the time and expense of the County establishing a new program;

**WHEREAS**, in addition, Sussex County may determine, but shall not be required, to seek the assistance of its auditor, financial advisor, if any, bond counsel, energy consultant, engineer or any other professional advisors deemed necessary, desirable and convenient by Sussex County (the "*Sussex County Consultants*", if any, and together with the Authority Consultants, the "*Consultants*"; to the extent Sussex County determines not to hire any Sussex County Consultants, references to the term Consultants herein shall be deemed to mean the Authority Consultants) to assist the Authority, the County and the Authority Consultants in connection with the Renewable Energy Program;

**WHEREAS**, the Renewable Energy Projects procured under the Renewable Energy Program, limited initially to solar panels, are to be installed on, in, affixed or adjacent to and/or for any other Local Unit controlled buildings, other structures, lands or other properties of the

Local Units (collectively, the "*Local Unit Facilities*");

**WHEREAS**, it may be necessary, desirable or convenient, in connection with the financing, design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects, to finance, design, permit, acquire, construct, renovate and install certain capital improvements to the Local Unit Facilities, including without limitation, improvements to or replacement of, roofing systems, if any (the "*Capital Improvement Projects*" and together with the Renewable Energy Projects and any Completion Project as defined in the hereinafter defined Bond Resolution, the "*Projects*"), and to the extent no Capital Improvement Projects are so financed, references herein shall have no meaning;

**WHEREAS**, the primary goal of the Renewable Energy Program is to expand the use of renewable energy sources available and utilized by the Local Units for their Local Unit Facilities, with the attendant environmental and financial benefits associated thereby, and to reduce the energy related operating costs to the Local Units for their Local Unit Facilities, all intended to be offered at no net cost to the Local Units;

**WHEREAS**, in order to implement the Renewable Energy Program, the Authority has determined to finance the respective Renewable Energy Projects and Capital Improvement Projects, if any, on, in or about the respective Local Unit Facilities, all as set forth on Exhibits B, C, and A to the hereinafter defined Local Unit License Agreement for each of the following participating Local Units:

- (i) Fredon Township, and Town of Newton (collectively, the "*Municipal Series 2011 Local Units*"); and
- (ii) Byram Township School District, Frankford Board of Education, Franklin Borough Board of Education, Green Township Board of Education, Hardyston Township Board of Education, High Point Regional Board of Education, Kittatinny Regional School District, Lafayette Township Board of Education, Lenape Valley Board of Education, Newton Board of Education (collectively, the "*Board of Education Series 2011 Local Units*"); and
- (iii) County and Sussex County Technical School (the "*County Series 2011 Local Units*");

(each a "*Series 2011 Local Unit*", and, collectively, the "*Series 2011 Local Units*"), through the issuance by the Authority of the hereinafter defined Series 2011 Bonds;

**WHEREAS**, in order to finance the Renewable Energy Projects for the Series 2011 Local Units on, in or about their Local Unit Facilities, the Authority shall sell the following series of Series 2011 Bonds, (i) one series of bonds in the aggregate principal amount of \$26,715,000 and entitled, "County of Sussex Guaranteed Renewable Energy Program Lease Revenue Bonds, Series 2011A (Federally Taxable)" dated their date of delivery (the "*Series*

2011A Bonds”) the terms of which sale shall be as set forth in that certain Bond Purchase Agreement between the Underwriter and the Authority (the “Series 2011A Bonds”), and (ii) one series of notes in the aggregate principal amount of \$985,000 and entitled, “County of Sussex Guaranteed Renewable Energy Program Lease Revenue Note, Series 2011B (Federally Taxable)” (the “Series 2011B Note, and together with the Series 2011A Bonds, “Series 2011 Bonds”), by the same sale method as the Series 2011A Bonds;

**WHEREAS**, after taking into account the hereinafter defined Equity Contribution, the Series 2011 Bonds shall also finance all other costs associated with the Renewable Energy Program that the Authority determines to be necessary, convenient or desirable for the successful implementation of the Renewable Energy Program, including without limitation (i) all or a portion of the Preliminary Program Costs, Administrative Expenses and Company Development Fees and Expenses (as such terms are defined in the hereinafter defined Bond Resolution), (ii) costs incurred in connection with the issuance of the Series 2011 Bonds, (iii) costs incurred or to be incurred in connection with the design, permitting, acquisition, construction, installation, operation and maintenance of the Renewable Energy Projects for the Series 2011 Local Units, (iv) one year’s worth of Series 2011A Bonds capitalized interest and (v) such other amounts as shall be set forth in the Bond Resolution (collectively, the *Series 2011 Project*”);

**WHEREAS**, the Series 2011 Bonds, and any Additional Bonds defined under the Bond Resolution (collectively, the “Bonds”) shall be issued pursuant to the terms of that certain “RESOLUTION AUTHORIZING THE ISSUANCE OF COUNTY OF SUSSEX GUARANTEED RENEWABLE ENERGY PROGRAM LEASE REVENUE NOTES AND BONDS (COUNTY OF SUSSEX PROGRAM), SERIES 2011 AND ADDITIONAL BONDS OF THE MORRIS COUNTY IMPROVEMENT AUTHORITY” adopted by the governing body of the Authority on September 28, 2011, as amended and supplemented from time to time in accordance with its terms, including by one or more Certificates of an Authorized Officer of the Authority, each dated the date of issuance of the respective series of Series 2011 Bonds (the “Bond Resolution”), all in accordance with Sections 17-19 of the Act (N.J.S.A. 40:37A-60, 61 and 62) and all other applicable law;

**WHEREAS**, pursuant to N.J.S.A. 40:37A-77 of the Act, N.J.S.A. 40A:65-4 of the Shared Services Act and other applicable law, upon or prior to the issuance of the Series 2011 Bonds, the Authority shall have entered into a “License and Access Agreement (Sussex County Renewable Energy Program, Series 2011)” dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, each agreement shall constitute a “Local Unit License Agreement”, and collectively, the “Local Unit License Agreements”) with each Series 2011 Local Unit that would, among other things, provide the Authority and/or its assignees the right and obligation to (i) access the Local Unit Facilities of each such Series 2011 Local Unit, most particularly their roofs, parking area and/or grounds and electrical systems (the “Local Unit License”), (ii) finance, design, permit, acquire, construct, install, operate and maintain the Renewable Energy Projects on, in, affixed or adjacent to, or for the benefit of such Local Unit Facilities, (iii) receive the right to the renewable energy produced from the Renewable Energy Projects financed by the Series 2011 Bonds, and (iv) sell all or a portion of the renewable energy produced from such Renewable Energy Projects through the

**WHEREAS**, the holders of any Additional Bonds issued under the terms of the Bond Resolution, the Act and all other applicable law shall also be entitled to the pledge of the Trust Estate under the Bond Resolution on a pro-rata basis with the holders of any Outstanding Bonds as defined therein, including the Series 2011 Bonds, although the guaranty of the County shall only extend to any such Series of Additional Bonds to the extent (i) the aggregate principal amount of all such Series of Additional Bonds, when taken together with the aggregate principal amount of the Series 2011 Bonds, shall not exceed \$50,000,000, or (ii) the County adopts and executes similar official action and documents constituting the County Guaranty;

**WHEREAS**, under the Company RFP, the Authority shall be obligated to obtain an equity contribution, a letter of credit, cash, a covenant to provide same, a reserve or other form of security acceptable to and, if necessary, issued for the benefit of the County (the "*County*

*Security*”) to be issued by a sufficiently rated banking or other financial institution, or if the County Security is provided by or on behalf of the Company, then the Company (in any such case, the “*County Security Provider*”), all to secure, in part, the County’s payment obligations under the County Guaranty (but not to secure the payment of debt service on the Series 2011 Bonds, as any such County Security shall be deposited in the County Security Fund created and defined under the Bond Resolution, which Fund shall not be a part of the Trust Estate pledged for the payment of the Series 2011 Bonds); the terms of which County Security may be set forth in a letter of credit and reimbursement or other agreement to be dated the first day of the month of issuance of the applicable series of Bonds (as the same may be amended and supplemented from time to time in accordance with its terms, the “*County Security Agreement*”) among, at a minimum, the Company, the County Security Provider, and the Authority, and acknowledged by the County;

**WHEREAS**, to the extent the need for a County Security Agreement has been eliminated due to the type of County Security found acceptable to the County and the Authority, then the provisions regarding the County Security shall not be set forth in any County Security Agreement, but rather shall be set forth in the Bond Resolution, the County Guaranty Agreement, the Company Lease Agreement, and as required, the other Program Documents (as hereinafter defined);

**WHEREAS**, under the Company Proposal, the Company is providing County Security acceptable to the County and the Authority in the form of the sum of (i) an equity contribution to be made by or on behalf of the Company, in the form of a combination of (a) the in kind acceptance by Power Partners MasTec LLC, of Charlotte, North Carolina and authorized to transact business in the State (including affiliates, the “*EPC Contractor*”), to delay receipt of payment for services performed by the EPC Contractor in connection with the construction of the Renewable Energy Projects for the Series 2011 Local Units, under that certain Turnkey Design, Engineering, Procurement and Construction Contract dated [December \_\_], 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the “*EPC Contract*”) between the Company and the EPC Contractor with respect to such Renewable Energy Projects) by and between the Company and the EPC Contractor, in the estimated amount of \$7,818,860 (the “*In-Kind Equity Contribution*”) until the earlier of (x) receipt of the Company of Section 1603 Grant proceeds for all the Renewable Energy Projects or (y) the Initial Basic Lease Payment Date and (b) a cash contribution in the amount currently anticipated to be \$1,500,000 but subject to increase or decrease, as applicable, so as to be equal to the excess of (x) the actual costs for which the Company is responsible in connection with the Renewable Energy Projects (including the initial funding of the County Reserve described below) over (y) the amount of the Series 2011 Bond proceeds, the Section 1603 Grant (as defined in the Company Lease Agreement) proceeds available to fund such costs through the Initial Basic Lease Payment Date (the “*Cash Equity Contribution*”) which will be funded by or on behalf of the Company no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013 (the *In-Kind Equity Contribution*, together with the Cash Equity Contribution shall be known as the “*Equity Contribution*”), (ii) a cash reserve in the amount of \$1,500,000 (the “*County Reserve*”) to be deposited in the County Security Fund for the benefit of the County, then as Reimbursement Collateral (as defined in the Bond Resolution),

which amount shall be funded no later than the earlier of (i) ninety (90) days after completion of the Renewable Energy Projects or (ii) March 15, 2013, and (iii) in the event of a Company default under the Company Documents, the SRECs and payments made by the Series 2011 Local Units under the Local Unit License Agreements, all of which would be available to repay the County once the County has made payment under the County Guaranty:

**WHEREAS**, the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above, has been deemed acceptable by the County and the Authority, in lieu of the amount of funds contemplated by the Company RFP to be deposited in the County Security Fund because the Company Proposal, including the Equity Contribution and the funding of the County Reserve described above (i) reduce the amount of the Series 2011 Bonds required to be issued by the County and (ii), shall eliminate the need to fund any County Deficiency Amount (as defined in the Company RFP);

**WHEREAS**, should the County otherwise have insufficient sources of funds to make its Basic Lease Payments on time and in full, the Company shall have the ability to draw funds from the County Reserve in order to enable the Company to make its Basic lease Payments;

**WHEREAS**, should the Company fail to make its Basic Lease Payments on time and in full, thereby causing the County to make payments to the Series 2011 Bondholders under the County Guaranty, which in turn causes the County Security to be drawn upon to reimburse the County for all or a portion of any such County Guaranty repayments, (i) the County Security Agreement, if any, may provide that the Authority assign and pledge the Reimbursement Collateral to the County Security Provider, as reimbursement security for any such draw on the County Security, or (ii) to the extent no County Security Agreement shall exist, then the Company, as County Security Provider in such instance, shall only be entitled to such excess County Security, as Reimbursement Collateral, if any shall remain available, after and to the extent the County has been fully paid under its County Guaranty but only to the extent of any County Security provided by or on behalf of the Company;

**WHEREAS**, in the event the Company provides the County Security Fund requirement, in part, through such a covenant to provide immediately available funds, if applicable, but in any event to secure other Company obligations under the Company Documents, the Authority shall require the Company to further secure such obligations by pledging certain property interests of the Company and its member's interest in and to the Company to the Trustee, all as shall be set forth in the Company Lease Agreement and that certain "Pledge and Security Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended or supplemented from time to time in accordance with its terms, the "*Company Pledge Agreement*"), and issued by the sole member of the Company, in favor of the Trustee, and acknowledged and accepted by the Company;

**WHEREAS**, the Company as a potential "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12 ("*Rule 15c-12*") promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, shall be required to enter into that certain "Company Continuing Disclosure

Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*Company Continuing Disclosure Agreement*") with the Authority and the Trustee, as dissemination agent (the "*Dissemination Agent*") in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution, as a "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12, the County will be required to enter into that certain "County Continuing Disclosure Agreement (Sussex County Renewable Energy Program, Series 2011)" dated December 1, 2011 (as the same may be amended and supplemented from time to time in accordance with its terms, the "*County Continuing Disclosure Agreement*" and together with the Company Continuing Disclosure Agreement, the "*Continuing Disclosure Agreements*"; the County Continuing Disclosure Agreement, along with the County Guaranty and the County Security Agreement, if any, shall be collectively known as the "*County Documents*") with the Dissemination Agent in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, pursuant to the terms of the Bond Resolution and/or the Continuing Disclosure Agreements, the Authority shall (i) not be considered a "materially obligated person" within the meaning and for the purposes set forth in Rule 15c2-12, and (ii) be required to provide certain material events notices in accordance with Rule 15c2-12, and accordingly, the Authority shall be required to provide such material events notices under the terms of the Company Continuing Disclosure Agreement and the County Continuing Disclosure Agreement, all in order to satisfy the secondary market disclosure requirements of Rule 15c2-12;

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with N.J.S.A. 40A:5A-6, 7 and 8 of the Local Authorities Fiscal Control Law, the Authority shall have made an application dated July 19, 2011 (the "*Local Finance Board Application*") to, and seek, obtain, and officially recognize the findings from, the Local Finance Board (the "*Local Finance Board*") in the Department of Local Government Services of the State Department of Community Affairs;

**WHEREAS**, in order to market and sell the Series 2011 Bonds, the Authority shall by negotiated sale publicly offer the Series 2011 Bonds, in which public offering case the Authority shall have authorized (i): the distribution of a preliminary official statement "deemed final" within the meaning and for the purposes of Rule 15c2-12 describing the terms of the Series 2011 Bonds, the Series 2011 Project and the other transactions contemplated hereby (the "*Preliminary Official Statement*"); and (ii) the execution and delivery of a bond purchase agreement (the "*Bond Purchase Agreement*") with an underwriter to be selected by the Authority through a fair and open process (alternatively, the "*Underwriter*") to purchase all of the Series 2011 Bonds, and (iii) delivery of a final Official Statement incorporating the terms of the sale of the Series 2011 Bonds and certain other information into the Preliminary Official Statement (the "*Official Statement*", and together with the Preliminary Official Statement, and the Bond Purchase Agreement, and any of the same or other offering or sale documents that may be required by the County "*Sale Documents*");

**WHEREAS**, prior to the issuance of the Series 2011 Bonds and in accordance with Section 13 (“*Section 13*”) of the Act (N.J.S.A. 40:37A-56), the Authority shall have made a detailed report regarding the Renewable Energy Program to Board of Chosen Freeholders of the County of Sussex (the “Sussex County Board of Freeholders”) and the Morris County Board of Freeholders, which report shall include, without limitation, descriptions of the Series 2011 Bonds, the Bond Resolution, the Company Documents, the County Documents, the Local Unit License Agreements, and if and as applicable, the Sale Documents (collectively, the “*Program Documents*”), and which report and amended report shall be accepted by both the County and Morris County by resolution adopted by the Sussex County Board of Freeholders and the Morris County Board of Freeholders pursuant to Section 13.

**NOW, THEREFORE**, in consideration of the premises and certain other consideration, the sufficiency of which is hereby acknowledged, the parties hereto mutually agree as follows:

# **Morris County Improvement Authority Sussex County Renewable Energy Program (County of Sussex) Series 2011**

## **1. Executive Summary**

This Report is being provided pursuant to the requirements of the competitive contracting provisions of the Local Public Contracts Law (N.J.S.A. 40A:11-4.1(k)), Public School Contracts Law, specifically, (N.J.S.A. 18A:18A-4.1(k)); Local Finance Board Notice 2008-20, December 3, 2008, *Contracting for Renewable Energy Services* (LFB Notice 2008-20); the Board of Public Utilities (BPU) protocol for measuring energy savings in PPA agreements (*Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines, Dated February 20, 2009*), and Local Finance Board Notice 2009-10, dated June 12, 2009, *Contracting for Renewable Energy Services: Update on Power Purchase Agreements* (LFB Notice 2009-10).

Attached is a Service Agreement ("Agreement"), regarding the Sussex County Renewable Energy Program, between the County of Sussex, New Jersey ("Sussex") and the Morris County Improvement Authority ("Authority"). The Agreement has been entered into pursuant to the interlocal services act and county improvement authority law. Pursuant to the Agreement, Sussex, which has not created its own county improvement authority, has determined to use the services of the Authority, which has developed and implemented a renewable energy program for Morris County, to develop and implement a renewable energy program for Sussex County. The Authority will act as the conduit for issuing bonds to finance the Sussex Renewable Energy Program and Sussex will provide the guaranty regarding the repayment of those bonds.

On September 8, 2011, the Authority issued a Request for Proposals (RFP), as amended, for a Power Purchase Agreement (PPA) for the design, acquisition, installation, tax ownership, commissioning, operation, and maintenance of solar systems (Solar Systems) to be located at certain county and local government facilities (Local Unit Facilities) across Sussex. Below is a complete list of all participating Local Units included in the RFP:

1. Byram Township School District
2. County of Sussex
3. Frankford Township Board of Education
4. Franklin Borough Board of Education
5. Fredon Township
6. Green Township Board of Education
7. Hardyston Board of Education
8. High Point Regional Board of Education

9. Kittatinny Regional School District
10. Lenape Valley Regional Board of Education
11. Newton Board of Education
12. Sussex County Technical School
13. Town of Newton

The goal of Sussex is to implement solar renewable energy projects that are environmentally responsible and economically beneficial to the County, its Local Units, and its citizens.

The Authority, on behalf of Sussex, intends to enter into a long-term (fifteen (15) year) PPA with the Successful Solar Respondent (Successful Respondent) to purchase solar electric power produced from installed renewable energy projects located at certain Local Unit Facilities for the Local Units identified above. Under a PPA, a developer designs and installs solar projects and the site energy user purchases the electricity produced at a fixed rate per kilowatt hour (kWh). A county or local government can only enter into a PPA if the PPA price is lower than the delivered cost of power from the local electric utility company. In a typical PPA, a Local Unit will, for a portion of its energy needs, save on its energy bills, and will be, to the greatest extent possible, insulated from energy market fluctuation, construction risks, operational risks, and financial risks.

Pursuant to the Agreement, Sussex has determined to use the professional services of the Consultants that administered the Morris County renewable energy program to provide those same services to Sussex in the development and implementation of its Renewable Energy program. The Sussex Evaluation Team (Evaluation Team) is comprised of: John Eskilson, Dennis McConnell and Bernard Re of Sussex; Steve Pearlman, Esq. and Deborah Verderame, Esq. of Inglesino, Pearlman, Wyciskala & Taylor, LLC; Tom Brys and Gerry Genna, of Birdsell Services Group; Douglas Bacher and Heather Litzebauer of NW Financial Group, LLC; and Steven Gabel, Richard Preiss and Cadence Bowden of Gabel Associates. The Evaluation Team assisted in developing and implementing the RFP, and administered the procurement process as well as a comprehensive evaluation of qualified proposals on the basis of price and non-price criteria.

This process was undertaken in accordance with competitive contracting provisions of the Local Public Contracts Law (N.J.S.A. 40A:11-4.1(k)) and on behalf of the board of education Local Units, the Public Schools Contracts Law (N.J.S.A. 18A:18A-4.1(k)) of the State of New Jersey (the "State"), all pursuant to (i) Local Finance Board Notice 2008-20, December 3, 2008, Contracting for Renewable Energy Services, (ii) the Board of Public Utilities protocol for measuring energy savings in PPA agreements (Public Entity Energy Efficiency and Renewable Energy Cost Savings Guidelines, Dated February 20, 2009), (iii) Local Finance Board Notice 2009-10 dated June 12, 2009, Contracting for Renewable Energy Services: Update on Power Purchase Agreements and applicable law.

Sussex received a proposal from one (1) Solar Respondent (Respondent): SunLight General Capital and Power Partners MasTec (SunLight/MasTec). In addition, shortly after the time for submission of proposals (i.e. 1:00 PM, Eastern time, October 13, 2011), a second Respondent arrived to submit a proposal. When informed that the submission period had closed and Sussex could not accept the second proposal, the second Respondent inquired as to the publicly announced PPA price submitted by SunLight/MasTec. When informed of the subject PPA price, the second Respondent indicated that their proposal was not competitive with the proposal of SunLight/MasTec, declined to leave their proposal and left.

The one (1) Respondent submitted the required RFP documents and, based on Phase I requirements (compliance with the minimum terms of the RFP), was deemed compliant. The SunLight/MasTec proposal, therefore, qualified to be further evaluated under Phase II (technical and economic evaluation) requirements. The Evaluation Team has undertaken an economic and technical review of the proposals to evaluate them in accordance with established criteria under Phase II evaluation. The Evaluation Team considered and weighed the following:

- Financial benefits;
- Technical design;
- Project experience;
- Vendor qualifications; and,
- Financial strength.

The SunLight/MasTec team possesses high quality management, installation capabilities, and sound solar development experience. In addition, the SunLight/MasTec proposal provides Sussex benefits in the following key areas:

1. It provides substantial direct energy cost savings;
2. It provides the Local Units the potential for additional savings through the sharing of revenues from the sale of Solar Renewable Energy Certificates (SRECs) and other environmental benefits;
3. Due to SunLight/MasTec's proposed capital investment, which reduces the required size of the Authority bonds, it provides a strong level of protection for Sussex from financial risk;
4. It provided additional financial protection for Sussex in the form of a Debt Service Reserve Fund; and,
5. It includes a restoration security providing for additional Local Unit protection at the end of contract.

Over the fifteen (15) years of the PPA, the SunLight/MasTec proposal yields nominal benefits of \$5.6 million or net present value (NPV) benefits of \$4.0 million. These

benefits have been calculated under the conservative assumption that bond interest rates will be at 5.0%. The RFP also required Respondents to submit an adjustment factor to the PPA Price to account for a change in the bond rate from the assumed level of 5.0% to the actual bond issuance rate. Based upon SunLight's adjustment factor and the current expectation for the bond issuance rate (4.6%), the SunLight/MasTec proposal would yield nominal benefits of \$5.9 million or net present value (NPV) benefits of \$4.3 million.

The Respondent provided a financial structure limiting the financial risk to Sussex (as the guarantor of the bonds) and the mitigated risk to the Authority as the conduit bond issuer. By offering to self-finance a substantial portion of the overall cost of the renewable energy projects in the amount of \$7.6 million, the SunLight/MasTec proposal allows the Authority, on behalf of Sussex, to significantly reduce its bond size. The Authority's \$26 million in bonds will be combined with SunLight/MasTec's \$7.6 million self-financing to finance the total project cost (\$33.6 million). The SunLight/MasTec proposal also protects Sussex from the potential risk of reductions in the price of SRECs. Moreover, by self-financing a portion of the total cost of the project this protection has a very high degree of certainty. In addition, SunLight/MasTec proposed to post a \$1.5 million reserve, funded with an equity contribution from the company, to provide additional financial protection to Sussex.

The Evaluation Team recognizes the value of the financial provisions of the SunLight/MasTec proposal in terms of the protection of Sussex, its guaranty and its bond rating. The preservation of this bond rating provides future economic benefits to Sussex and its citizens and businesses by allowing Sussex, through the Authority, to borrow money at low interest rates due to its Aa2 rating. Accordingly, a high premium is placed on its protection. The financial protections of the SunLight/MasTec proposal, including a significant reduction in the size of the Authority bond amounts, on behalf of Sussex, provides a strong and distinguishing level of protection which, in combination with other factors considered, lead to the recommended selection.

The RFP reserves the right for Sussex to conduct interviews with qualified Respondents. After reviewing all aspects of the submitted proposals, in particular the savings in energy costs preferred by Sussex and as required under applicable law (see the details in Section 8(a) and as reflected in the Evaluation Matrix through Phase II), the Evaluation Team decided to conduct an interview with SunLight/MasTec to better understand their proposal. Based on the results of the Phase II and Phase III evaluation, the Evaluation Team recommends that the proposal of SunLight/MasTec be accepted (see **Attachment 2** for the Evaluation Matrix). The SunLight/MasTec proposal results in significant savings on energy costs for the participating Local Units, and strong financial protections for the Authority and Sussex.

Members of the Sussex Evaluation Team have significant experience in evaluating proposals from solar developers submitted in response to similarly structured solar renewable energy programs. That experience has been drawn upon in the evaluation of the SunLight/MasTec proposal. The scoring in the Evaluation Matrix (see

**Attachment 2)** identifies SunLight/MasTec as a well qualified Respondent providing great overall value to Sussex. SunLight/MasTec's proposal scored 94 out of 100 points.

Given that there was only one (1) proposal officially received (as mentioned above a second proposal (which was withdrawn) arrived after the closing time for submission of proposals and could not be accepted), the Evaluation Team considered the possibility of rejecting the SunLight proposal and rebidding the RFP. For the following reasons, the Evaluation Team recommended not to rebid the RFP:

1. A major element supporting the financing and pricing of solar projects is the ability of the solar developer to capture the Federal benefit of the 1603 Grant. Since the 1603 Grant expires at the end of calendar year 2011, the timing of the RFP process was such to allow the solar developer the opportunity to capture this benefit. The Evaluation Team judged that there was not sufficient time to rebid the RFP and provide this opportunity. Without the benefit of the 1603 Grant, the Evaluation Team believes there would be a negative impact on the proposal pricing.
2. The SREC market has experienced a significant downturn in pricing and an increase in volatility. Given the current SREC market, the Evaluation Team judged the pricing of the SunLight proposal to be consistent with that market.
3. SunLight/MasTec is known to be a quality solar team with a successful security structure as part of their proposals. They have been the successful solar team on several county renewable energy programs. As such, SunLight/MasTec is familiar with the documentation required to close and execute the transaction, which is critical to realizing the 1603 Grant.
4. The SunLight/MasTec proposal provides a significant level of energy cost savings for the Local Units, while providing Sussex with important financial protections through its equity contribution which reduces the amount of the bonds required to be issued and its debt service reserve fund, which taken together virtually eliminate the potential for a Sussex deficiency should SunLight/MasTec default.

**Accordingly, the Evaluation Team recommends that the Authority select SunLight/MasTec as the Successful Respondent, subject to clarification of the SREC sharing issue discussed in Section 12, page 28.**

The evaluation of "price and non-price" factors allowed by law permits and supports this recommendation.

SunLight/MasTec has proposed to install and operate solar systems at seventeen Local Unit Facilities. The basic terms and benefits of the SunLight/MasTec proposal are as follows:

1. A fifteen (15) year PPA, with a first year rate of \$0.099 per kWh and annual escalation of 3% which results in a final price of \$0.150 in Year 15.
2. A 6.678 MW solar system. This is expected to generate approximately 8.0 million kWh per year. The solar energy will serve approximately 46% of the combined load for all Local Unit Facilities (see **Attachment 4**) based, conservatively, on the guaranteed level of solar generation.
3. Based upon the PPA Price in the SunLight/MasTec proposal, participating Local Unit Facilities will realize, in aggregate, an annual energy cost savings of approximately \$280,000 in the first year and these savings are expected to grow to approximately \$488,000 in the last year of the PPA (see **Attachment 3**). When based upon a less conservative, current bond issuance rate, with an adjusted PPA Price, the participating Local Unit Facilities would realize, in aggregate, an annual energy cost savings of approximately \$301,000 in the first year and these savings are expected to grow to approximately \$516,000 in the last year of the PPA.
4. Based upon the PPA Price in the SunLight/MasTec proposal, over the fifteen year term of the PPA, the Local Units, in aggregate, will realize \$5.6 million in energy cost savings on a nominal basis (\$4.0 million on a NPV basis) (see **Attachment 5**). When based upon a less conservative, current bond issuance rate, with an adjusted PPA Price, over the fifteen year term of the PPA, the Local Units, in aggregate, would realize \$5.9 million in energy cost savings on a nominal basis (\$4.3 million on a NPV basis).
5. Participating Local Unit Facilities will realize an average rate reduction, for the portion of their electricity purchased through this program, of 28% relative to utility delivered power in the first year.
6. A significant reduction in the amount of Authority bonds required to fund the renewable energy projects, on behalf of Sussex, to an amount of approximately \$26.0 million; which creates significant financial security to Sussex and the Authority.
7. A \$1.5 million reserve fund, funded with an equity contribution from the company, provides additional financial protection to Sussex and the Authority.
8. A stable and known cost of electricity for fifteen years allows for budgetary certainty for the participating Local Units.
9. Potential use of the locally manufactured solar panels of MX Solar, a New Jersey based solar panel company.

10. Restoration Security of \$375,000 to provide additional protection to the Local Units that will be set aside to cover the cost of system removal at the end of the term if such option is selected.

11. Sharing of SREC revenue benefits.

12. An educational component including an educational program, with the ability to access operational data for the solar systems via a web enabled system.

The above benefits may be recalculated after the sale of the Authority bonds if materially different from the estimate in this report.

## 2. Overview of the Sussex County Renewable Energy Program

The following is a brief synopsis describing the Morris County Improvement Authority, Sussex County Renewable Energy Program, Series 2011 (Solar Initiative) as outlined in the RFP.

On September 8, 2011, the Authority issued a Request for Proposals (RFP), as amended, for a Power Purchase Agreement (PPA) for the design, acquisition, installation, tax ownership, commissioning, operation, and maintenance of solar systems (Solar Systems) to be located at certain county and local government facilities (Local Unit Facilities) across Sussex County (Sussex). See Section 4 for a list of the final participating Local Units and Local Unit Facilities.

The goal of Sussex is to implement Renewable Energy Projects including Solar Systems that are both environmentally responsible and economically beneficial.

The RFP's total size (kW dc) of the Solar Systems at Sussex's thirteen (13) local units and seventeen (17) Local Unit Facilities was estimated to be 6.7 MW, thus reducing the carbon footprints of the Local Unit Facilities for the term of the agreement and, potentially, beyond.

Sussex intends to enter into a long-term (fifteen (15) year) PPA with the Successful Respondent to purchase solar electric power produced from installations located on some, or all, of the Local Unit Facilities identified above. Sussex does not intend to enter into a PPA unless the cost of the PPA is lower than the delivered cost of power from the local electric utility company.

In evaluating proposals, the Evaluation Team used a Proposal Evaluation Matrix (Matrix) to rank Respondents (see **Attachment 2**). The Matrix includes a three step process:

1. Phase I is a checklist to determine if the Respondent has included all required documentation and information in their proposal. Once all requirements have been met, a Respondent is deemed compliant and qualifies to move to the Phase II of the evaluation. As the RFP makes clear, if a Respondent does not meet the Phase I requirements, it does not receive further consideration.
2. Phase II is a weighted rating of the value provided by the proposal across several categories (financial benefits, technical design, experience, qualifications and financial strength) and evaluation factors within those categories.
3. Phase III is an interview of the Respondents and final evaluation.

The Respondent with the top ranking in Phase II and III, after being determined to be in compliance with the requirements of Phase I, will be recommended for award as the

Successful Respondent. The purpose of this Evaluation Report is to provide the Authority and Sussex with a full evaluation of qualified proposals, and to recommend which proposal provides the greatest value to the Authority, Sussex County and the Local Units.

### **3. Financial Structure for the Sussex County Renewable Energy Program**

The following is a brief synopsis of the financial structure as provided in the RFP.

The Authority will issue taxable bonds, on behalf of and guaranteed by Sussex County, to finance the solar systems to be designed and installed by a private solar developer for the benefit of the Local Units. This structure offers the opportunity for the Successful Respondent to maintain the tax ownership of the investment and will allow them to access the low cost of capital available in the public markets, through Sussex County's "Aa2" credit rating.

The benefits of the federal tax benefits (which Sussex cannot take as a public entity) and low cost county debt have been combined in Sussex's Solar Initiative.

This structure provides the Successful Respondent with the opportunity to take advantage of federal tax benefits (such as the 1603 Treasury Grant or the 30% renewable energy investment tax credit and five year accelerated depreciation). The Successful Respondent will also own and monetize SRECs realized through New Jersey's Renewable Portfolio Standard (RPS) Program. The value realized from the sale of SRECs in the competitive market is a major component supporting the financing of a solar project. The Successful Respondent will take on the responsibility and risk of managing SREC sales.

The Authority will enter into a series of license agreements with the local governments that desire renewable energy, to gain access to their roof and/or ground space and parking lots for the installation of solar panels. After the Authority issues the Sussex County guaranteed bonds, on behalf of Sussex, to finance the solar projects, the Authority will lease the solar panels to the competitively procured Successful Respondent, structuring that lease in such a way as to provide the Successful Respondent with an opportunity to become the tax owner of the solar projects.

The Successful Respondent, in turn, makes lease payments to the Authority to fully pay the debt service on the Authority bonds. Through a PPA, the Successful Respondent sells the electricity generated by the solar projects through the Authority back to the local government entities at a rate below the local utility tariff. The Successful Respondent must either provide some form of security to Sussex, or eliminate the need for it. As part of the RFP process, the Respondents had to include either a County Security Amount (CSA), or an alternate structure that would minimize or eliminate the CSA, to provide security that the lease payments will be made and that the Authority and Sussex have adequate financial protection.<sup>1</sup> The CSA calculates the difference between the lease payments and the revenue the Successful Respondent earns through SREC sales and PPA payments. This is to ensure that if the Successful Respondent

---

<sup>1</sup> See page 9 of the RFP Section 1.3.

defaults in any year during the fifteen year contract, Sussex will have sufficient reserve in the form of the CSA, together with remaining SREC and PPA revenues, to pay the remaining debt service (assuming the continuation of PPA payments and conservatively estimated SREC revenue streams).

The RFP also permitted Respondents to propose alternate structures using their own sources of financing.

This financing structure, in effect, allows the Successful Respondent to design, construct, own and operate the solar systems, assume the burdens of the project (pay the debt service and provide security), and embed its costs and revenue streams into a fixed, indexed sales price for the solar energy generated.

The program allows Local Units to demonstrate environmental responsibility while realizing economic benefits. The PPA offers a reduction in current energy costs for a portion of the Local Units energy needs and long term stability of energy prices.

#### 4. RFP Preliminary Solar System Size

The original RFP, as released on September 8, 2011, contained the results of a preliminary feasibility assessment, as performed by Sussex's Energy Consultants. This assessment estimated the technical potential for Solar Systems at fourteen (14) Local Units and eighteen (18) Local Unit Facilities. Released on September 20, 2011 Addendum 1, provided changes to the original Local Unit Facility list and system sizes.

The tranche list as included in the original RFP was as follows:

LU #	Local Unit	Facility	Local Unit Facility Solar KW Size			TOTAL
			Roof Mounted	Parking Canopy	Ground Mounted	
1	Byram Township School District	Byram Lakes Elem./ Int. School	38	455	0	493

<b>TOTAL</b>			<b>1,580</b>	<b>2,249</b>	<b>3,051</b>	<b>6,880</b>

The total system size across the above fourteen (14) local units was 6.880 MW. However, Addendum 1 released on September 20, 2011 decreased the system size from 6.880 MW to 6.681 MW. The following Local Unit Facilities were removed or amended as part of Addendum 1:

- Lafayette Township School (49 kW roof mounted system and 206 kW ground mounted system)
- Frankford Township School (309 kW ground mounted system)

The following represents the tranche list as updated through Addendum 1 to the RFP:

LU #	Local Unit	Facility	Local Unit Facility Solar KW Size			TOTAL

<b>Percentage</b>			<b>22.9%</b>	<b>33.7%</b>	<b>43.4%</b>	<b>100.0%</b>

Therefore, after the Addendum 1 changes, the total system size of the Sussex County program includes thirteen (13) Local Units and seventeen (17) Local Unit Facilities, with a solar system size of 6.681 MW.

## **5. PPA Pricing Design**

Sussex requested one PPA Price and index from the Respondents for the entire project. Respondents are required to insure that every Local Unit Facility is included in the response. Respondents were provided the option of submitting a proposal based upon public (County) financing, private financing or a combination in accordance with the RFP. Respondents were also required to provide two price adjustment factors to be used to adjust PPA rates upward or downward based on the final project development costs and the final interest rate on the debt service determined at the closing of project financing.

## 6. Respondent Response to RFP

The Authority received a proposal in response to the RFP from the following one (1) Respondent:

1. SunLight General Capital and Power Partners MasTec (SunLight/MasTec)

The proposal was determined by counsel to Sussex to have met the Phase I requirements of the RFP and was further evaluated under the Phase II evaluation.

Key information from the conforming proposal submitted by SunLight/MasTec is summarized below.

Note: Shortly after the time for submission of proposals (i.e. 1:00 PM, Eastern time, October 13, 2011), a second Respondent arrived to submit a proposal. When informed that the submission period had closed and Sussex could not accept the second proposal, the second Respondent inquired as to the publicly announced PPA price submitted by SunLight/MasTec. When informed of the subject PPA price, the second Respondent indicated that their proposal was not competitive with the proposal of SunLight/MasTec, declined to leave their proposal and left.

SunLight/MasTec proposed a fifteen (15) year PPA term to install solar at all seventeen (17) Local Unit Facilities. The total size of the solar systems to be installed is 6.7 MW dc. The total project cost is \$33.6 million although SunLight/MasTec offered to reduce the bond size to \$26.0 million through a \$7.6 million capital investment in the project. The capital investment would be provided in conjunction with the issuance of the Authority bonds.

SunLight/MasTec's first year PPA price is \$0.099 per kWh. The annual escalation rate is 3%. SunLight/MasTec offered SREC sharing at 50% of the upside on SRECs above \$300 after Year 5 to maturity, a debt service reserve fund of \$1.5 million, and restoration security of \$375,000.

## 7. Proposal Evaluation Matrix

Once proposals are deemed compliant based on Phase I requirements, the proposals are subject to Phase II and III evaluation in accordance with the process defined in the RFP. The evaluation was conducted in accordance with an evaluation matrix, which is based on a total potential score of 100. The Matrix is broken into the following criteria and weighting factors:

Financial Benefits (50)	NPV of Benefits Option - Sharing of Benefits Non-Material Changes to Program Documents
Technical Design/Approach (10)	Output Guarantee (kWh) Design Strategy Project Team Approach O&M Plan and Approach
Respondent Experience (10)	Project Management Contractor Expertise Project Experience New Jersey Experience
Financial Strength (20)	Financial Capability/Strength of Provider Financial Risk
Oral Interview Evaluation (10)	Presentation Explanation Key Factors Understanding Financial Factors/SREC Market

## **8. Financial Benefits Evaluation**

The Sussex County Renewable Energy Program has been developed and implemented with no capital cost to the Local Units. In addition to this benefit, below is a summary of the financial benefits section of the Phase II evaluation. Proposals were evaluated and awarded points in the Matrix based on their responses to the following criteria: NPV of benefits; sharing of benefits; and, non-material changes to documents. Since there was only one compliant bid, Gabel Associates completed the Phase II evaluation based upon their experience with other County solar programs.

### **a. NPV of Benefits**

Local Units realize economic benefits from the installation of renewable energy projects through the savings in energy costs by purchasing electricity from the solar project rather than from the local electric utility.

In calculating energy cost savings, the Evaluation Team compares a forecast of the cost of the local utility tariff rate electricity delivered to the Local Unit Facility that is avoided by purchasing the solar generation from the renewable energy projects at the PPA rate proposed by the Respondent and multiplies the difference by the expected solar output. This yields the projected savings in energy costs realized through the installation of the renewable energy projects.

It is important to note that the energy cost savings are calculated at the guaranteed level of solar generation (90% of the expected level). Thus, the level of energy cost savings are stated on a conservative basis. Actual energy cost savings to the Local Unit Facilities are likely to exceed the levels indicated in this Evaluation Report.

The forecast of the avoided cost of the local utility tariff rate is the result of a detailed analysis of each utility tariff by each of its components over the fifteen year term of the PPA. This detailed analysis takes into account many factors, including the following:

1. Those components of the utility tariff rate that are not avoided as a result of the solar installation. For example, the customer charge and a portion of demand charges are not avoided through the purchase of solar energy generated by the solar systems. In addition, if the local unit facility is purchasing the commodity component of electric supply in the competitive market, it is assumed that the local utility will continue this practice in the development of their non-solar electricity costs.
2. The most recent energy market fundamentals (ex. New York Mercantile Exchange futures, Energy Information Administration long term escalation rates and environmental and RPS programs such as the SREC program) are incorporated to provide the best indication of future energy market costs.

3. The impact on future energy costs of national, state and regional environmental initiatives currently being considered (ex. carbon credits). The forecast includes the low Environmental Protection Agency estimate for carbon legislation originally slated to start in 2012 but pushed out to 2015.
4. The impact that general energy market escalation will have upon long-term energy prices.

To calculate the NPV benefits provided by each proposal, guaranteed production values were used. In addition, a 5.00% discount rate was assumed to calculate NPV of benefits; which was the assumed interest cost of the Authority bonds in the RFP. This also assumes an average retail electric escalation of 3.6%.

**Attachment 1** summarizes the PPA pricing (first year PPA price and annual escalation) proposed by the conforming Respondents.

Sussex's energy cost savings are also shown in **Attachment 1**. The savings calculations in **Attachment 1** are shown in both NPV and nominal dollars, however, the most appropriate way to compare the value of projects is on a NPV basis to recognize the time value of money and the opportunity cost of capital.

Over the fifteen (15) years of the PPA, the SunLight/MasTec proposal yields nominal benefits of \$5.6 million or net present value (NPV) benefits of \$4.0 million. These benefits have been calculated under the conservative assumption that bond interest rates will be at 5.0%. The RFP also required Respondents to submit an adjustment factor to the PPA Price to account for a change in the bond rate from the assumed level of 5.0% to the actual bond issuance rate. Based upon SunLight's adjustment factor and the current expectation for the bond issuance rate (4.6%), the SunLight/MasTec proposal would yields nominal benefits of \$5.9 million or net present value (NPV) benefits of \$4.3 million.

The Respondent with the highest NPV of benefits (SunLight/MasTec) earned the maximum number of points (40) in the Matrix for this criterion.

A sensitivity analysis of the NPV benefits was also conducted by evaluating changes in the average electric rate escalation and is provided in **Attachment 5**. The results show that the SunLight/MasTec proposal will provide significant levels of energy cost savings, even assuming no escalation in the average electric rate.

#### **a. Option – Sharing of Benefits**

The RFP asked the Respondents whether they would be willing to share additional benefits with Sussex. As an example of such benefits, the RFP listed (a) sharing of SREC market revenues, (b) sharing in any Federal or State tax benefits, (c) sharing in other financial / environmental market value, (d) end on contract provisions beyond

those identified in the RFP and (e) any other additional services that would provide value to Sussex.

As it relates to the sharing in SREC market revenues, the level of this potential benefit and the probability of it occurring are very difficult to determine since it depends on future SREC prices. SREC prices will depend on the level of SREC supply and the cost and efficiency of new solar projects at that time. Scoring was based on whether or not SREC sharing was proposed and how beneficial the sharing would be to Sussex.

### **SunLight/MasTec**

SunLight/MasTec offered the following additional benefits:

1. SREC sharing in the amount of 50% of the upside of SRECs above \$300 after Year 5.
2. Should other environmental attributes arise in the future from these projects, SunLight/MasTec proposed to share in the proceeds from the sale of such attributes.
3. Should a change in law result in significantly more favorable tax treatment, SunLight/MasTec would use best efforts to share with Sussex.
4. Finally, they would deliver an educational program about the science and benefits of solar systems, including solar energy science kits, teacher training about renewable energy, the ability to access operational data and personnel to promote the educational program.

SunLight/MasTec was awarded the maximum value of five (5) points for this sharing proposal.

### **b. Non-Material Changes to Program Documents**

SunLight/MasTec proposed no changes to the program documents and received the maximum number of points in this section of the Matrix.

## 9. Technical Design/Approach

The evaluation of the technical design/approach has several elements including output guarantees, construction schedules, project team approach, and operation and maintenance plans. Below is a technical review of the proposal. The Proposal was evaluated and awarded points in the Matrix based on the responses to the following criteria: output guarantee, design strategy, project team approach, and operations and maintenance (O&M) plan and strategy.

### a. Output Guarantee (MWH)

The Respondent provided the output guarantees required in the RFP and were therefore awarded maximum points for this requirement. Below is a description of the Respondent's design strategy including their total system size and output.

#### SunLight/MasTec

Total System Size	Total System Output
6.678 MW	7.998 MWh

SunLight/MasTec's proposed capacity was compared with the conceptual site plans provided in the RFP. SunLight/MasTec based their proposal 100% on the Birdsall conceptual layouts without exception. The total system size is within 3kw of the conceptual site plans due to round-off differences. The SunLight/MasTec proposal will provide a 4.5% increase in kWh, over Birdsall's calculated production numbers. All system sizes and productions are within 90% of consumption at the facilities with the exception of Lenape Valley that will generate 90.5%. This is acceptable.

### b. Design Strategy

Below is a description of the proposal design strategy. The Respondent was evaluated based on the major system components and design of the systems. The Respondent received the maximum points for this requirement.

#### SunLight/MasTec

SunLight/MasTec's PV design followed the Birdsall concept layout exactly. This includes roof mounted PV panels, ground mounted PV panels, and parking canopies. Below is a description of the Major system components proposed by Sunlight/MasTec. All information was not included in the proposal but was provided in the oral interview. They are using quality products in all areas. The evaluation team accepts SunLight/MasTec's design and system components.

System Component	Manufacturer
PV Modules	Trina/Canadian/ MX Solar
Inverters	SMA/PV Powered
Mounting Systems	Allied Building, Panel Claw, Grizzly Bear
Canopy System	Baja/Protek/ Solar Ventures
DAS	Noveda or Deck

### c. Project Team Approach

Below is a description of the proposer's project team approach. Based on their responses, they were awarded the maximum points for this requirement.

Sunlight/MasTec's project team approach seemed well organized and complete. They have an experienced team which has completed similar large solar projects. In addition, they have also been the successful proposer at Somerset County Improvement Authority Tranche 2, Mercer County Improvement Authority for Mercer County Community College and Morris County Improvement Authority Tranche 2. All of the design and engineering will be completed by MasTec. They are a national energy contractor with experience, and technical depth to complete this project successfully. They have a plan to schedule installations with minimal disruptions, will be staffing locally, and plan on bringing in experienced solar contractors. They plan on meeting with local units for communications sessions, to assess the best time to schedule installations, and will be open on canopy designs to meet the needs of local units.

### d. Operations and Maintenance Plan and Approach

Below is a description of the proposal's O&M plan and approach. Based on their response, the respondent was awarded the maximum points for this requirement.

The operations and maintenance will be monitored on a daily basis by an inverter level monitoring package. This will provide the latest data for system performance and availability. It will also provide any error messages from the inverters, regarding the system operation, mal-function, and inverter status or system fault. The data acquisition system (DAS) will be designed for remote web based operation and the data will be transferred to a third party server via the internet.

SunLight MasTec also provided a comprehensive Operation and Maintenance procedures document at the oral interview. They have an acceptable approach for O&M.

## **10. Respondent Experience**

The evaluation of respondent experience has several elements including: project management, contractor experience, project experience, and New Jersey experience. Below is a summary of the SunLight/MasTec proposal.

### **a. Project Management**

SunLight/MasTec demonstrated their ability to successfully manage the project through the involvement of well qualified/experienced management, supervisory, and key staff. The respondent was awarded the maximum points for this requirement.

### **b. Contractor Experience**

SunLight/MasTec has teamed with very experienced and technically qualified EPC's. The maximum number of points for this section in the evaluation matrix is awarded.

### **c. Project Experience**

SunLight/MasTec has demonstrated extensive project experience with respect to similar types of projects in New Jersey and other States. Maximum number of points awarded for this section.

### **d. New Jersey Experience**

The SunLight/MasTec team has won other County Renewable Energy Program awards to implement solar systems. They and their contractors are well experienced in New Jersey. SunLight/MasTec has established an office in NJ to implement solar systems and will establish a second office in Sussex County, to maintain and enhance their NJ experience. The maximum number of points have been awarded for evaluation in this section.

## **11. Financial Strength**

The evaluation of the financial strength of the proposals has two (2) elements including financial capability/strength of provider and financial risk to Sussex. Below is a summary of the Respondent's proposal.

### **a. Financial Capability/Strength of Respondent**

Below is a description of the financial capability and the financial strength of the Respondent. The Respondents received the maximum amount of points for this section.

#### **SunLight/MasTec**

SunLight has financed 3.7 MW of projects since 2009 and has an additional 12.1 MW scheduled over the next year. SunLight's current equity is over \$10 million and they recently launched the SunLight General Solar Fund Two in the amount of \$30 million. Power Partners MasTec, LLC is a wholly-owned subsidiary of MasTec, Inc. a minority business enterprise with over 9,000 employees and annual revenues of \$2.3 billion (2010). MasTec has over \$500 million in bonding capacity. MasTec will provide the construction bond for the project installation. SunLight/MasTec has provided sufficient financial information and an adequate finance package.

### **b. County Security/Deficiency Amount**

Financial risk to Sussex specifically concerns proposals where the Authority is committing funds to the solar project and Sussex is committing its guaranty on those funds. A second, but much less significant, financial risk involves whether the solar developer is willing to offer a restoration security.

SunLight/MasTec has proposed to use the public financing approach which imposes a financial risk upon Sussex, however, their proposal to self-finance a substantial portion of the overall cost of the renewable energy projects has significantly reduced that risk by effectively eliminating the need to fund a County Security Amount (CSA). The SunLight/MasTec proposal has been structured such that, using the conservative SREC assumptions provided by the Authority, a CSA of approximately \$1.0 million exists only during the first year. For the majority of the program (years 2 through 15) there is no CSA and, in fact, a cushion is provided in each of the subject years.

In addition, SunLight/MasTec has proposed a \$1.5 million reserve fund to provide additional financial protection to Sussex. This reserve fund exceeds the annual bond service requirements. Finally, the SunLight/MasTec proposal offered a performance security of \$375,000 which would be built up through setting aside \$75,000 a year for five years beginning in Year 11 (a positive for Sussex). The SunLight/MasTec proposal allows the bond size to be significantly reduced and limit its associated risk to Sussex with a very high degree of certainty. Since there is still some financing risk to the

Sussex, the SunLight/MasTec proposal has been awarded less than the maximum number of points in this rating category.

The SunLight/MasTec Proposal reduced the bond size from \$33.6 million to approximately \$26.0 million by proposing to self finance \$7.6 million. This approach reduces financial risk to Sussex by reducing the amount of the Authority bonds required to be issued to approximately \$26.0 million. The smaller size of the Authority bond reduces the Sussex exposure and provides strong SREC price risk protection as the balance of transaction revenues (i.e. SRECs and PPA payments) should this Respondent default, are estimated to be fully sufficient to make all debt service payments on the bonds in all but the first year. In addition, the SunLight/MasTec proposal includes a \$1.5 million reserve fund to provide additional financial protection to Sussex.

## **12. Phase III Evaluation**

The RFP reserves the right for Sussex to conduct interviews with qualified Respondents. After reviewing all aspects of the submitted proposals, in particular the savings in energy costs preferred by Sussex and as required under applicable law (see the details in Section 8(a) and as reflected in the Evaluation Matrix through Phase II), the Evaluation Team decided to conduct an interview with SunLight/MasTec to explore all aspects of their proposal.

Prior to the interview, the Evaluation Team provided a list of issues (see **Attachment 6**) that they wanted SunLight/MasTec to address at the interview. SunLight/MasTec did an excellent job during their presentation and was able to explain all key issues as well as demonstrating an understanding of financial matters. Additionally, during the interview, the potential for the monetized sharing of SREC value in the early years (year 1 through 5) was discussed. The possible tax implications of such sharing will be reviewed. Pending the result of that review, SunLight/MasTec indicated that they would be open to the monetized sharing of SREC value in the early years. SunLight/MasTec received the maximum number of points for this criterion of the Evaluation Matrix.

### **13. Recommendation – Successful Respondent**

In recommending a Successful Respondent, the Evaluation Team uses the Proposal Evaluation Matrix to rank the Respondents.

The SunLight/MasTec team possesses high quality management, installation capabilities, and sound solar development experience. In addition, the SunLight/MasTec proposal provides Sussex benefits in the following key areas:

1. It provides substantial direct energy cost savings;
2. It provides the Local Units the potential for additional savings through the sharing of revenues from the sale of Solar Renewable Energy Certificates (SRECs) and other environmental benefits;
3. Due to SunLight/MasTec's proposed capital and in kind equity investment, which reduces the required size of the Authority bond issuance, it provides a strong level of protection for Sussex from financial risk;
4. It provided additional financial protection for Sussex in the form of a Debt Service Reserve Fund; and,
5. It includes a restoration security providing for additional Local Unit protection at the end of contract.

Over the fifteen (15) years of the PPA, the SunLight/MasTec proposal yields nominal benefits of \$5.6 million or net present value (NPV) benefits of \$4.0 million. These benefits have been calculated under the conservative assumption that bond interest rates will be at 5.0%. The RFP also required Respondents to submit an adjustment factor to the PPA Price to account for a change in the bond rate from the assumed level of 5.0% to the actual bond issuance rate. Based upon SunLight's adjustment factor and the current expectation for the bond issuance rate (4.6%), the SunLight/MasTec proposal would yields nominal benefits of \$5.9 million or net present value (NPV) benefits of \$4.3 million.

The Respondent provided a financial structure limiting the financial risk to Sussex. By offering to self-finance a substantial portion of the overall cost of the renewable energy projects in the amount of \$7.6 million, the SunLight/MasTec proposal allows the Authority, on behalf of Sussex, to significantly reduce its bond size. The Authority's \$26.0 million in bonds will be combined with SunLight/MasTec's \$7.6 million self-financing to finance the total project cost (\$33.6 million). The SunLight/MasTec proposal also protects Sussex (which will be providing its guaranty on the Authority bonds) from the potential risk of reductions in the price of SRECs. Moreover, by self-financing a portion of the total cost of the project, this protection has a very high degree of certainty. In addition, SunLight/MasTec proposed to post a \$1.5 million

reserve, funded with an equity contribution from the company, to provide additional financial protection to Sussex.

The Evaluation Team recognizes the value of the financial provisions of the SunLight/MasTec proposal in terms of the protection of Sussex, its guaranty and its bond rating. The preservation of this bond rating provides future economic benefits to Sussex and its citizens and businesses by allowing the Authority to borrow money at low interest rates due to its "Aa2" rating. Accordingly, a high premium is placed on its protection. The financial protections of the SunLight/MasTec proposal, including a significant reduction in the size of the Authority bond amounts, on behalf of Sussex, provides a strong and distinguishing level of protection which, in combination with other factors considered, lead to the recommended selection.

The overall Matrix scoring identified SunLight/MasTec as the Respondent providing the greatest value. Based on the above discussions, the evaluation indicates that SunLight/MasTec's proposal scored 94 out of a total of 100 points. The proposal scoring is shown in **Attachment 4**.

**Accordingly, the Evaluation Team recommends that the Authority select SunLight/MasTec as the Successful Respondent, subject to clarification of the SREC sharing issue discussed in Section 12, page 28.** This will result in estimated aggregate annual benefits of approximately \$280,000 in the first year, total savings of \$4.0 million (NPV) over the life of the PPA, and average rate reductions for electricity purchased through this program of 35% relative to utility delivered power. These benefits will be recalculated after the sale of bonds and may likely increase due to the conservative assumptions used in this analysis.

The evaluation of "price and non-price" factors allowed by law permits and supports this recommendation.

## **Interview Questions**

### **Sussex County Solar Program Interview Questions**

#### **SunLight General Capital / Power Partners MasTec October 19, 2011**

Sussex County would like to have a general discussion on the following items to better understand the basis for the Response to Request for Proposals:

1. Financial strength of Proposer.
2. Proposed solar project financing approach. Specific discussion regarding:
  - a. Equity contribution of \$7.6 million.
  - b. Debt Service Reserve Fund account of \$1.5 million.
  - c. CDA calculation:
    - i. O&M value.
3. Discuss plans to realize 1603 grant.
4. Proposer view of current and future SREC market.
5. Expected solar production - basis for expected output.
6. Guaranteed solar production.
  - a. How and when measured.
  - b. Financial implications of production shortfall.
7. Additional economic benefits:
  - a. SREC sharing:
    - i. 50% sharing above \$300 per SREC after year 5.
    - ii. How and when measured.
    - iii. Financial sharing mechanism
  - b. Refund bonds for savings
    - i. 50% sharing resulting from refunding
    - ii. Financial sharing mechanism
  - c. Other currently unidentified environmental benefits - Discuss potential
8. Fair market value purchase option tax implications and potential formula approach.
9. Proposer experience and qualifications.

10. "Technical Drawings and Specifications" section of the proposal, section 1.3.1 (Clarifications and Assumptions): Discuss items - 3 (module pricing timing), 7 (work schedule requirement) and 12 (Construction impediments and impact on PPA price).

The following are technical questions to be discussed that will help Sussex County better understand the basis for the Response to Request for Proposals:

1. I reviewed all of the proposed system productions estimates and compared them to the facilities consumption data. All system sizes and productions are within 90.5% of total consumption. Lenape Valley was the highest at 90.5%, all other were less than 90%.
2. Under Section 4 of the Sunlight Proposal (Technical Drawings and Specification) Power Partners MasTec Section 1.3.1 Item 13. Power Partners assumes the rooftop sites do not require any upgrades and are structurally sufficient to accept ballasted racking system.

Our Technical specification: Appendix C, Part 3 Section H. Roof installations: states contractor shall maintain roof integrity with installation.

3. Power Partners MasTec's List of contracts underway states "see attached". Is the attached the meant to be SunLight's list of projects underway or is there another list?
4. The proposal includes Business registrations forms for Pfister Energy Inc., Helios Solar Energy, LLC, and Lighton Elec, Inc. Please describe how these firms will be involved in this project?
5. Describe your installation strategy to minimize disruptions at schools and other facilities? What is the construction schedule you plan of follow for the project timeline?
6. **What specific manufacturer are you using for?**

System Component	Manufacturer
PV Modules	
Inverters	
Mounting Systems	
Canopy System	
DAS	

7. How will the operations be monitored after installation is completed? What is the response time for error messages? Problems with the system? Who do you plan on using? What is the maintenance plan you have for all site?
