

SECTION 5. CAPABILITY ASSESSMENT

2021 HMP Changes

- In the 2016 HMP, the capability assessment section was presented in Section 6 as part of the mitigation strategy. For the 2021 HMP update, the capability assessment was expanded and presented in Section 5 as a stand-alone section with capabilities expanded in each jurisdictional annex as well (Section 9 [Jurisdictional Annexes]).

According to FEMA’s *Mitigation Planning How-To Guide #3*, a capability assessment is an inventory of a community’s missions, programs, and policies and an analysis of its capacity to carry them out. Each jurisdiction has a unique set of capabilities available to accomplish mitigation and reduce long-term vulnerable to future hazard events. Capabilities include authorities, policies, programs, staff, and funding. Reviewing existing capabilities helps identify capabilities that currently implement mitigation and leads to loss reductions or that have the potential to be implemented in the future.

This assessment is an integral part of the planning process. The assessment process enables identification, review, and analysis of current federal, state, and local programs, policies, regulations, funding, and practices that could either facilitate or hinder mitigation.

During the original planning process, Sussex County and participating jurisdictions identified and assessed their capabilities in the areas of existing programs, policies, and technical documents. By completing this assessment, each jurisdiction learned how or whether they would be able to implement certain mitigation actions by determining the following:

- Limitations that could exist on undertaking actions.
- The range of local and state administrative, programmatic, regulatory, financial, and technical resources available to assist in implementing their mitigation actions.
- Actions deemed infeasible, as they are currently outside the scope of capabilities.
- Types of mitigation actions that could be technically, legally (regulatory), administratively, politically, or fiscally challenging or infeasible.
- Opportunities to enhance local capabilities to support long term mitigation and risk reduction.

During the plan update process, all participating jurisdictions were tasked with developing or updating their capability assessment, paying particular attention to evaluating the effectiveness of these capabilities in supporting hazard mitigation and identifying opportunities to enhance local capabilities to integrate hazard mitigation into their plans, programs, and day-to-day operations.

County and municipal capabilities in the Planning and Regulatory, Administrative and Technical, and Fiscal subjects can be found in the Capability Assessment section of each jurisdictional annex in Section 9 (Jurisdictional Annexes).

5.1 UPDATE PROCESS SUMMARY

The purpose of the capability assessment is to understand the planning, regulatory, administrative, technical, and financial capabilities present in Sussex County. This assessment helps the County and its jurisdictions identify strengths and opportunities that can be used to reduce losses from hazard events and reduce risks throughout Sussex County.

To complete the capability assessment, the contracted consultant met with Sussex County and each municipality virtually to review the capability assessment from the 2016 HMP and update accordingly. In addition to in-person meetings, the consultant reviewed plans and codes/ordinances to enhance the information provided by the jurisdictions.

A summary of the various federal and state capabilities available to promote and support mitigation and reduce risk in Sussex County are presented below. Information provided by the County and municipalities are presented in Volume II, Section 9 (Jurisdictional Annexes) of this plan update.

5.2 PLANNING AND REGULATORY CAPABILITY

Planning and regulatory capabilities are based on the implementation of ordinances, policies, local laws and state statutes, and plans and programs that relate to guiding and management growth and development. Planning and regulatory capabilities refer not only to the current plans and regulations, but also to the jurisdiction’s ability to change and improve those plans and regulations as needed. The following provides the planning and regulatory capabilities for Sussex County.

5.2.1 PLANNING AND REGULATORY CAPABILITIES – FEDERAL AND STATE

Table 5-1. Planning and Regulatory Capabilities – Federal and State

Capability	Details	
Disaster Mitigation Act (DMA)	Description:	The DMA is the current federal legislation addressing hazard mitigation planning. It emphasizes planning for disasters before they occur. It specifically addresses planning at the local level, requiring plans to be in place before Hazard Mitigation Assistance grant funds are available to communities. This plan is designed to meet the requirements of DMA, improving eligibility for future hazard mitigation funds.
	Responsible Agency:	FEMA
	Provides Funding for Mitigation:	HMPs designed to meet the requirements of DMA will remain eligible for future FEMA Hazard Mitigation Assistance funds
	Hazard:	All-natural hazards
National Flood Insurance Program (NFIP)	Description:	The NFIP is a federal program enabling property owners in participating communities to purchase insurance as a protection against flood losses in exchange for state and community floodplain management regulations that reduce future flood damages. The Flood Hazard Profile in Section 4.3.5 (Flood) provides information on recent legislation related to reforms to the NFIP. All municipalities in Sussex County participate in the NFIP.
	Responsible Agency:	FEMA
	Provides Funding for Mitigation:	Full compliance and good standing under the NFIP are application prerequisites for all FEMA grant programs for which participating jurisdictions are eligible under this plan.
	Hazard:	Flood
NFIP Community Rating System (CRS)	Description:	As an additional component of the NFIP, CRS is a voluntary incentive program that recognizes and encourages community floodplain management activities that exceed the minimum NFIP requirements. As a result, flood insurance premium rates are discounted to reflect the reduced flood risk resulting from the community actions meeting the three goals of the CRS: (1) reduce flood losses, (2) facilitate accurate insurance rating, and (3) promote the awareness of flood insurance. Municipalities, and the county as a whole, could expect significant cost savings on premiums if enrolled in the CRS program. At this time, no communities in Sussex County participate in the CRS program.
	Responsible Agency:	FEMA

Capability	Details	
	Provides Funding for Mitigation:	CRS premium discounts on flood insurance range from 5 percent for Class 9 communities up to 45 percent for Class 1 communities.
	Hazard:	Flood
Municipal Land Use Law	Description:	<p>The State of New Jersey Municipal Land Use Law (L.1975, c. 291, s. 1, effective August 1, 1976) is the legislative foundation for the land use process in the State of New Jersey, including decisions by Planning Boards and Zoning Boards of Adjustment. It defines the powers and responsibilities of boards and is essential to their functions and decisions. It also provides the required components of a municipal master plan.</p> <p>Every municipal agency must adopt and can amend reasonable rules and regulations, consistent with this act or with any applicable ordinance, for the administration of its functions, powers, and duties. These plans help jurisdictions review their land use plans and policies with public participation. The Municipal Land Use Law requires that each municipality prepare a comprehensive plan and update that plan every 10 years.</p>
	Responsible Agency:	State of New Jersey
	Provides Funding for Mitigation:	No
	Hazard:	All
State of New Jersey Hazard Mitigation Plan (2019 Update)	Description:	The State of New Jersey HMP includes an evaluation of the state’s overall pre- and post-hazard mitigation policies, programs, and capabilities; the policies related to development in hazard-prone areas; and the state’s funding capabilities. The State of New Jersey HMP thoroughly describes the federal and state programs available to Sussex County to promote mitigation. The State of New Jersey HMP was used as a resource in developing Sussex County’s HMP update.
	Responsible Agency:	NJOEM
	Provides Funding for Mitigation:	No
	Hazard:	All
Critical Area Protection Policy	Description:	<p>The following NJDEP programs both protect critical natural resources, and provide funding for the State, municipalities, and counties to purchase land for open-space preservation and recreation, which may directly or indirectly support hazard mitigation efforts:</p> <ul style="list-style-type: none"> • Green Acres Program • Blue Acres Program • Historical Preservation Program • Farmland Preservation • Wetlands Act of 1970 (N.J.S.A. 13:9A) • Soil and Erosion and Sediment Control Act (N.J.S.A. 4:24) <p>The Wetlands Act of 1970 (N.J.S.A. 13:9A) provide rules and regulations governing development in wetland areas of New Jersey. New Jersey has 15 soil conservation districts, following county boundaries that implement the New Jersey Soil Erosion and Sediment Control Act (N.J.S.A. 4:24), which governs certain aspects of new development.</p> <p>According to the Sussex County Comprehensive Farmland Preservation Plan of 2008, the State Development and Redevelopment Plan designates most of Sussex County as Rural and Environmentally-sensitive lands, and encourages the clustering of development within defined centers in order to preserve the county’s rural environment. In line with the 2003 Comprehensive Farmland Preservation Plan, the county’s mission continues to include farmland preservation. The county has undertaken initiatives to promote the economic well-being of local farmers and has identified additional initiatives to promote the local agricultural industry.</p>

Capability	Details	
	Responsible Agency:	NJDEP, Sussex County Agriculture Development Board, Morris Land Conservancy
	Provides Funding for Mitigation:	Yes – the various programs (Green Acres, Blue Acres) provide funding to jurisdictions to acquire land and properties and turn into open space. The Sussex County Preservation Trust can be used to acquire floodprone residential properties.
	Hazard:	Flood, Severe Weather
Uniform Construction Code (UCC)	Description:	<p>Building codes mandate best practices and technology, much of which is designed to reduce or prevent damage from occurring when structures are under stress.</p> <p>The UCC adopts up-to-date building codes as its Building Subcode and One- and Two-Family Subcode. These Subcodes contain requirements that address construction in both A and V flood zones. Also, all new construction is required to comply with the UCC for flood zone construction.</p> <p>New Jersey has enacted legislation directing the Department of Community Affairs (NJ DCA) to adopt a radon hazard code or revise the state building code to establish “adequate and appropriate standards to ensure that schools and residential buildings within tier one areas [as defined by the state] ... are constructed in a manner that minimizes radon gas and radon progeny entry and facilitates any subsequent remediation that might prove necessary.” See N.J. Stat. Ann. 52:27D-123a.</p> <p>The Department then adopted a radon hazard sub-code which does not reference existing model standards or guidance, but which sets forth the basic requirements for a passive sub-slab or sub-membrane depressurization system. See N.J. Admin. Code 5:23-10.4. The radon control standards and procedures apply to new residential construction (and school construction) in “tier one” areas, as defined by the state, and Appendix 10-A of the sub-code lists the specific municipalities that are designated as tier one areas.</p>
	Responsible Agency:	NJ DCA
	Provides Funding for Mitigation:	No
	Hazard:	All
Floodplain Management Policy	Description:	New Jersey State Law Flood Hazard Area Control Act (NJSA 58:16A-52): The Act and regulations attempts to minimize damage to life and property from flooding caused by development within fluvial and tidal flood hazard areas, to preserve the quality of surface waters, and to protect the wildlife and vegetation that exist within and depend upon such areas for sustenance and habitat. While it does not require local adoption, as it is enforced by the NJDEP, the floodplain ordinances of each municipality need to be reviewed to be in compliance with this new regulation.
	Responsible Agency:	New Jersey Department of Environmental Protection (NJDEP)
	Provides Funding for Mitigation:	No
	Hazard:	Flood
Growth Management Policy	Description:	Land preservation and recreation comprise one of the cornerstones of New Jersey’s smart growth policy. The New Jersey Statewide Comprehensive Outdoor Recreation Plan provides Statewide policy direction to the State, local governments, and conservation organizations in the preservation of open space and the provision of public recreation opportunities. The State Plan was prepared and adopted by the State Planning Commission according to the requirements of the State Planning Act of 1985 as amended (NJSA 52:18A-196 et seq.) to serve as an instrument of State policy to guide State agencies and local government in the exercise of governmental powers regarding planning, infrastructure investment and

Capability	Details	
		<p>other public actions and initiatives that affect and support economic growth and development in the State.</p> <p>Green Acres Program, Open Space Tax Program, and Development and Redevelopment Plan. The State Planning Act has enhanced the traditionally limited role of county land-use planning and control. Also provides tools for municipalities when preparing their master land use plans and better opportunity for a comprehensive approach to planning so not to harm or be in conflict with neighboring Municipalities' plans.</p>
	Responsible Agency:	
	Provides Funding for Mitigation:	No
	Hazard:	All

5.2.2 PLANNING AND REGULATORY CAPABILITIES – COUNTY AND LOCAL

Detailed information regarding these capabilities can be found in each jurisdictional annex found in Volume II, Section 9 (Jurisdictional Annexes).

5.3 ADMINISTRATIVE AND TECHNICAL CAPABILITY

Administrative and technical capabilities refer to the jurisdiction’s staff and their skills and tools that can be used for mitigation planning and implementation. It also refers to the ability to access and coordinate the resources effectively. The following provides the administrative and technical capabilities for Sussex County.

5.3.1 ADMINISTRATIVE AND TECHNICAL CAPABILITY – FEDERAL AND STATE

Table 5-2. Administrative and Technical Capability – Federal and State

Capability	Details	
Recovery Bureau	Description:	The Chief of the Recovery Bureau supervises the Mitigation, Public Assistance, and Finance Units. The Mitigation Unit undertakes hazard mitigation planning and the review of mitigation projects in advance of potential disasters and is also activated during and immediately after disasters to evaluate existing and proposed mitigation measures in the affected areas.
	Responsible Agency:	NJOEM
	Provides Funding for Mitigation:	No
	Hazard:	All
Mitigation Unit	Description:	The Mitigation Unit, within the Emergency Management Section, has the mission of enhancing state, county, and municipal risk reduction through the development and implementation of mitigation strategies. Hazard mitigation, by definition, is any sustained action that prevents or reduces the loss of property or human life from recurring hazards. The Mitigation Unit accomplishes this task by implementing and administering several grant-based programs in conjunction with FEMA.
	Responsible Agency:	NJOEM
	Provides Funding for Mitigation:	Yes
	Hazard:	All
Preparedness Bureau	Description:	The Preparedness Unit in the Preparedness Bureau is responsible for disseminating preparedness information in advance of a disaster or potential disaster. The Preparedness Unit maintains an extensive library of natural disaster preparedness and recovery information on its Plan and Prepare website (http://ready.nj.gov/plan-prepare/index.shtml). The disaster preparedness and recovery information featured prominently on the New Jersey State Police and NJOEM website home pages

Capability	
	<p>(http://njosp.org/ and http://ready.nj.gov/index.shtml) is a critical part of New Jersey's efforts to protect public health and safety and to minimize loss of life and property in the event of a disaster.</p> <p>Responsible Agency: NJOEM</p> <p>Provides Funding for Mitigation: No</p> <p>Hazard: All</p>
Hazard Mitigation Grant Program Administrative Plan	<p>Description: In the event that an active disaster declaration has necessitated a FEMA-approved Hazard Mitigation Grant Program (HMGP) Administrative Plan, the plan is reviewed to ensure compliance with the prevailing guidance and to set forth the administrative procedures, organization, and requirements for administering the HMGP in New Jersey. The HMGP Administrative Plan is developed by the state and details the process for prioritizing post-disaster mitigation funding of local mitigation projects.</p> <p>Responsible Agency: NJOEM</p> <p>Provides Funding for Mitigation: Yes</p> <p>Hazard: All</p>
Bureau of Dam Safety & Flood Control	<p>Description: The Bureau of Dam Safety & Flood Control leads the state's efforts filling the State NFIP Coordinator position and providing Community Rating System (CRS) support. In addition, the section's responsibilities include the funding of construction and operation of federal, state, and local flood control mitigation projects throughout the state. The section has also taken a lead role on the development and adoption of NJ Flood Hazard Area mapping, as well as an active partnership with FEMA on their Map Modernization Program efforts. The bureau assists communities participating in the NFIP and interested in joining CRS through the NJDEP Community Assistance Program Unit.</p> <p>Responsible Agency: NJDEP</p> <p>Provides Funding for Mitigation: Yes</p> <p>Hazard: Flood, Severe Weather</p>
Dam Safety Section	<p>Description: The NJDEP Dam Safety Section under the Bureau of Dam Safety & Flood Control has responsibility for overseeing dam safety in the state. The primary goal of the program is to ensure the safety and integrity of dams in New Jersey, and thereby protect people and property from the consequences of dam failures. The section also coordinates with the Division of State Police, local and county emergency management officials in the preparations and approval of emergency action plans.</p> <p>The Dam Safety Section reviews plans and specifications for the construction of new dams or for the alteration, repair, or removal of existing dams. The section must grant approval before the owner can proceed with construction. Engineers from the Dam Safety Section evaluate each project, investigate site conditions, and check recommended construction materials. During construction, engineers identify conditions that may require design changes, check for compliance with approved plans and specifications, and approve foundations before material is placed.</p> <p>Existing dams are periodically inspected to assure that they are adequately maintained, and owners are directed to correct any deficiencies found. The regulations require the owner to obtain a professional engineer to inspect their dams on a regular basis. These investigations include a comprehensive review of all pertinent material contained in the Section's files, a visual inspection, technical studies when necessary, and preparation of a comprehensive report.</p> <p>Responsible Agency: NJDEP</p> <p>Provides Funding for Mitigation: Yes</p>

Capability	
	<p>Hazard: Flood, Severe Weather</p>
<p>Division of Water Supply and Geoscience</p>	<p>Description: This Division works to ensure adequate, reliable, and safe water supply is available for the future. This goal is accomplished through the regulation of ground and surface water diversions, permitting of wells, permitting of drinking water infrastructure, monitoring of drinking water quality, and technical support for water systems to achieve compliance with all federal and state standards.</p> <p>Water Supply staff provides technical assistance to assist water systems during water supply emergencies, as needed to re-establish safe and adequate public water supplies, and to address routine non-compliance from significant deficiencies or poor water quality test results. The Drinking Water State Revolving Fund (DWSRF) program assists water systems in financing the cost of infrastructure through the use of federal and New Jersey Environmental Infrastructure Trust (NJEIT) funds. Additionally, Water Supply provides operator licensing and training support as well as financial assistance through the DWSRF program.</p>
	<p>Responsible Agency: NJDEP</p>
	<p>Provides Funding for Mitigation: Yes</p>
	<p>Hazard: All</p>
<p>New Jersey Geological and Water Survey</p>	<p>Description: The New Jersey Geological and Water Survey evaluates geologic, hydrogeologic and water quality data to manage and protect water resources, to identify natural hazards and contaminants, and to provide mineral resources including offshore sands for beach nourishment. Information provided by the survey includes GIS data and maps of geology, topography, groundwater, and aquifer recharge. In addition, the data tracks wellhead protection areas, aquifer thicknesses, properties and depths, groundwater quality, drought, geologic resources, and hazards such as earthquakes, abandoned mines, karst-influenced sinkholes, and landslides.</p>
	<p>Responsible Agency: NJDEP</p>
	<p>Provides Funding for Mitigation: No</p>
	<p>Hazard: Drought, Earthquake, Geological</p>
<p>Office of Planning Advocacy</p>	<p>Description: The New Jersey Office of Planning Advocacy (OPA) supports and coordinates planning throughout the state to protect the environment, mitigate development hazards and guide future growth into compact, mixed use development and redevelopment while fostering a robust long-term economy. The OPA implements the goals of the State Development and Redevelopment Plan to achieve comprehensive, long-term planning; and integrates that planning with programmatic and regulatory land use decisions at all levels of government and the private sector.</p>
	<p>Responsible Agency: New Jersey Department of the State</p>
	<p>Provides Funding for Mitigation: No</p>
	<p>Hazard: Natural Hazards</p>
<p>Office of the State Climatologist</p>	<p>Description: The Office of the New Jersey's State Climatologist (ONJSC) generates and archives climate data. Generated data are from the New Jersey Weather and Climate Network (NJWxNet), which is an assemblage of 55 automated weather stations situated throughout the state. A decade or more of hourly observations are available from some of the stations, while others have shorter records. Since fall 2012 observations are available on a five-minute basis.</p> <p>Along with these records, ONJSC archives or has ready access to National Weather Service Cooperative Weather Station data. These are daily observations from several dozen stations at any given time over the past century. Individual stations have as many as 120 years of data while other stations have started or ceased operating since the late 1800s. Another</p>

Capability	
	<p>source of generated data is the Community Collaborative Rain, Hail and Snow Network (CoCoRaHS), which includes daily observations of rain and snow from as many as several hundred volunteers throughout the state.</p> <p>Responsible Agency: Rutgers University</p> <p>Provides Funding for Mitigation: No</p> <p>Hazard: Natural Hazards</p>
New Jersey Climate Adaptation Alliance (NJADAPT)	<p>Description: NJADAPT focuses on climate change preparedness for New Jersey in key impact sectors (public health; watersheds, rivers and coastal communities; built infrastructure; agriculture; and natural resources).</p> <p>NJADAPT is a collaborative effort of scientists and data managers in academia, government, the private sector and non-governmental organization community who have developed a strategic plan for a New Jersey platform to host and apply climate science impacts and data. The NJADAPT website (http://www.njadapt.org/) includes a flood exposure profile for community discussions about hazard impacts; NJ Flood Mapper (which is a tool for flooding hazards and sea level rise); and Getting to Resilience (a tool used to help communities reduce vulnerability and increase preparedness).</p> <p>Responsible Agency: Rutgers University</p> <p>Provides Funding for Mitigation: No</p> <p>Hazard: Natural Hazards</p>
New Jersey Highlands Council	<p>Description: The Highlands Water Protection and Planning Council (Highlands Council) is a regional planning agency that works in partnership with municipalities and counties in the Highlands Region to encourage a comprehensive regional approach to implementing the 2004 Highlands Water Protection and Planning Act (the Highlands Act).</p> <p>The Highlands Act established the Highlands Council and charged it with the creation and adoption of a regional master plan to protect and enhance the natural resources within the New Jersey Highlands. The Highlands Regional Master Plan (RMP) was adopted by the Highlands Council on July 17, 2008 and became effective on September 8, 2008. Conformance with the Highlands RMP is a two-phase process: petition and implementation. During the petition process, municipalities and counties work in collaboration with Highlands Council staff to prepare draft documents that will integrate the land use and resource management requirements of the Highlands Act into local regulatory and planning documents. Once a petition is approved by the Highlands Council, work begins on implementation, which involves finalizing those documents for local adoption and ongoing management of resources.</p> <p>Southeastern areas of Sussex County are located in the Highlands Region. The Highlands Council may provide grant funding to municipalities and counties to support local hazard mitigation planning. Such plans would identify local level risks associated with extreme storm events and develop local actions that would potentially prevent or mitigate hazardous situations. For example, grants fund stormwater management plans which support green infrastructure for stormwater management, as well as stormwater mitigation plans. These plans should be in place prior to disaster events.</p> <p>Highlands Council grants may be used for planning, design, and/or engineering activities, but do not fund capital expenses.</p> <p>The Highlands Council is participating in the Governor’s Climate Resiliency initiative and is preparing to develop a Highlands Climate Change chapter of the Regional Master Plan.</p>

Capability	
	<p>The Highlands Council has initiated a stormwater management program for counties and municipalities to assist in advance planning. The Council also requires extensive green stormwater infrastructure for all projects reviewed.</p> <p>The Highlands was a member of the Advisory Committee when Sussex County developed their Green Stormwater Infrastructure Element.</p>
	Responsible Agency: New Jersey Highlands Council
	Provides Funding for Mitigation: Yes
	Hazard: All
North Jersey Transportation Planning Authority (NJTPA)	<p>Description: The NJTPA is the federally authorized Metropolitan Planning Organization for the 13-county northern New Jersey region. Each year, they oversee over \$2 billion in transportation improvement projects and provide a forum for interagency cooperation and public input.</p> <p>The Passaic River Basin Climate Resilience Planning Study was completed in 2019. The study focuses on the potential impacts that climate change will have on transportation infrastructure located within the Passaic River Basin, of which extreme southeastern Sussex County is a part of. The results of their analysis are included in the Sussex County HMP's risk assessment and their recommendations were shared with the Planning Partnership to reduce transportation asset vulnerability to climate change and increase resilience to existing and future heat or flooding events.</p>
	Responsible Agency: NJTPA
	Provides Funding for Mitigation: Yes - planning
	Hazard: All
U.S. Army Corps of Engineers (USACE)	<p>Description: The USACE works with NJDEP to mitigate flooding in Sussex County as needs arise.</p>
	Responsible Agency: USACE
	Provides Funding for Mitigation: Yes
	Hazard: Flood

5.3.2 ADMINISTRATIVE AND TECHNICAL CAPABILITY – COUNTY AND LOCAL

Table 5-3 summarizes the administrative and technical capabilities in Sussex County. Detailed information regarding administrative and technical capabilities in the County and the municipalities can be found in each jurisdictional annex found in Volume II, Section 9 (Jurisdictional Annexes).

Table 5-3. Administrative and Technical Capability – County and Local

Capability	
Sussex County Sheriff's Office, Division of Emergency Management (DEM)	Description: <p>The Sussex County Sheriff's Office has the responsibility for a wide range of law enforcement services: Bureau of Corrections; Bureau of Law Enforcement; and Security of the County Court Complex.</p> <p>The Sussex County DEM is a division of the Sheriff's Office. The Sussex County DEM is a county-level emergency service required by statute that coordinates resources to serve the needs of Sussex County during times of emergency events and disasters.</p> <p>In carrying out its responsibilities, the DEM oversees the emergency management activities of all county agencies and Sussex County's 24 municipalities. Each municipality has an emergency management coordinator with whom this division interacts and the coordinators, in turn, interact at the local level with police, fire, EMS, public works, public health, schools, etc.</p> <p>In addition to the foregoing, the DEM presents training and educational programs including personal emergency preparedness, access and functional needs and incident command for responders. The division also oversees two community alert programs, Swift911™ and Register Ready, that are of tremendous service to the public.</p> <p>The Sussex County DEM is leading the HMP update and hosting information about the HMP on their website (https://www.sussex.nj.us/cn/webpage.cfm?TID=7&TPID=11091) including a link to the citizen survey. As mitigation grant funding becomes available, the Sussex County DEM distributes information to the municipal coordinators at quarterly meetings.</p>
	Responsible Agency: <p>Sussex County Sheriff's Office, Division of Emergency Management (DEM)</p>
	Provides Funding for Mitigation: <p>No</p>
	Hazard: <p>All</p>
Sussex County Division of Planning and Economic Development	Description: <p>The Sussex County Division of Planning and Economic Development is responsible for providing staff and technical assistance to the County Planning Board, Agricultural Development Board, Solid Waste Advisory Committee, 208 Water Quality Policy Advisory Committee, Strategic Growth Advisory Committee and Board of Chosen Commissioners on all matters related to land use, development and conservation. The Division manages the following programs:</p> <ul style="list-style-type: none"> • Census data for the county • Housing Market • Cross Acceptance • Development Review • Economic Development • Farmland Preservation • Open Space Preservation • Regional Planning • Solid Waste Planning • Transportation Planning • Water Quality Management Planning • Conferences and Presentations

Capability		
	Responsible Agency:	Sussex County Division of Planning
	Provides Funding for Mitigation:	No
	Hazard:	All
Sussex County Planning Board	Description:	The Sussex County Planning Board is responsible for approving site plan and subdivision applications within their jurisdiction in accordance with the New Jersey County Planning Enabling Act. A Development Review Committee reviews all applications and acts on behalf of the full Board. Applications for waiver from County development standards are heard by the full Board with input from county engineering and planning staff.
	Responsible Agency:	Board of Chosen Commissioners
	Provides Funding for Mitigation:	No
	Hazard:	All
Sussex County Division of Engineering	Description:	<p>The Sussex County Division of Engineering is charged with overseeing the numerous facets associated with maintaining, improving, and monitoring the county's transportation network. The Division works closely with the Division of Facilities Management providing project support and civil/survey design services for a variety of facility related capital improvement projects. Additionally, the Division of Engineering provides technical support to the Division of Planning.</p> <p>Included within the department's responsibilities are tasks such as in-house design of road and bridge improvement projects, management of multimillion dollar design projects, monitoring the condition of bridges; signals; signs; traffic markings and other similar infrastructure items, developing long term capital budgets, construction stakeout, ROW surveys, management of county road and bridge construction projects, track traffic trends, and monitor work within the county right of way through road opening and driveway permits.</p> <p>The Division supported the update of the 2021 Sussex County HMP, is a member of the Steering Committee, and reviewed and contributed to the plan and County annex.</p>
	Responsible Agency:	Sussex County Department of Engineering
	Provides Funding for Mitigation:	No
	Hazard:	All
Sussex County Open Space Committee	Description:	The Sussex County Open Space Committee consists of seven voting members who are appointed by the Board of Chosen Commissioners. The members are drawn from the agricultural, nonagricultural and business communities. The Committee oversees the use of Open Space Trust Fund dollars to acquire lands and wetlands for the protection of environmentally sensitive areas; for the preservation of scenic, cultural or historically valuable areas; and for public outdoor recreation areas.
	Responsible Agency:	Board of Chosen Commissioners

Capability		
	Provides Funding for Mitigation:	Yes
	Hazard:	Flood
Sussex County Division of Public Works	Description:	<p>The Sussex County Division of Public Works is responsible for the proper maintenance, surfacing, resurfacing, drainage and repair of all County roads, bridges, and drains. The Office of Roads maintains all County roads, bridges, and drains and keeps them in a clear and safe condition. The Division is also in charge of removing all snow, ice, leaves, debris, or other matter that may impede or restrict travel within the County.</p> <p>The Division investigates complaints involving County roads and bridges and then takes proper action to see that the needed repairs are made with a minimum of delay.</p> <p>The Division supported the update of the 2021 Sussex County HMP, is a member of the Steering Committee, and reviewed and contributed to the plan and County annex.</p>
	Responsible Agency:	Division of Public Works
	Provides Funding for Mitigation:	No
	Hazard:	Hurricane, Nor'Easter, Flood, Severe Weather, Severe Winter Weather
	Description:	<p>The Sussex County Department of Health and Environmental Services' mission is to protect, promote, maintain and improve the health and quality of life for Sussex County citizens and visitors through a responsive, well managed and organized community effort. The Department has information on who to contact in times of emergency on their website (local radio stations, state and federal resources). The following are under the Department; some of which are described more fully below:</p> <ul style="list-style-type: none"> • Environmental Health • Public Health Nursing • Emergency Preparedness • HAZ-MAT • Special Child Health Services • Weights and Measures • Mosquito Control • Health Education Topics • Sussex-Warren Chronic Disease Coalition
Responsible Agency:	Department of Health and Environmental Services	
	Provides Funding for Mitigation:	No
	Hazard:	All

Capability		
Sussex County GIS Management	Description:	Geographic Information Systems (GIS) provides mapping and GIS services to meet the business needs of county divisions, constitutional offices, local government and not-for-profit organizations within Sussex County. This includes providing support and maintenance in the areas of data conversion, cartography, computer graphics and visualization, Global Positioning Systems (GPS), database design and software development. GIS Management supported the update of the 2021 Sussex County HMP, is a member of the Steering Committee, and reviewed and contributed to the plan and County annex.
	Responsible Agency:	Sussex County GIS Management
	Provides Funding for Mitigation:	No
	Hazard:	All Hazards
Sustainable Jersey	Description:	Sustainable Jersey is a nonprofit organization that provides tools, training and financial incentives to support communities as they pursue sustainability programs. By supporting community efforts to reduce waste, cut greenhouse gas emissions, and improve environmental equity, Sustainable Jersey aims to empower communities to build a better world for future generations. The organization also offers a certification program. Sustainable Jersey certification is a designation for municipal governments in New Jersey. All actions taken by municipalities to score points toward certification must be accompanied by documentary evidence and is reviewed. The certification is free and completely voluntary.
	Responsible Agency:	-
	Provides Funding for Mitigation:	No
	Hazard:	All
Sussex County HAZ-MAT Team	Description:	The Sussex County HAZ-MAT team, consists of 20+/- full time county employees trained to the technician level, available to respond to environmental and public health emergencies 24 hours a day, seven days a week. A collaborative effort between the Sussex County Sheriff's Office, the Sussex County Office of the Prosecutor, the Sussex County Division of Public Works, and the Sussex County Sussex County Department of Environmental and Public Health Services, the team was recognized by the State of New Jersey, Department of Environmental Protection as a Model Program for Hazardous Material Response. With the assistance of the County Office of Emergency Management and the Sussex County Public Safety Training Academy, the program has matured into a valuable asset and tool for the municipalities of Sussex County. State of the art haz-mat equipment including response vehicles, air monitoring instruments, personal protective equipment, and decon units were all paid for through Homeland Security Grants received from the State and Federal Government with very little impact from county tax dollars.
	Responsible Agency:	Sussex County Sheriff's Office, the Sussex County Office of the Prosecutor, the Sussex County Division of Public Works, and the Sussex County Sussex County Department of Environmental and Public Health Services
	Provides Funding for Mitigation:	No
	Hazard:	Hazardous Materials

Capability	
Sussex County Economic Development Partnership (SCEDP)	Description: The Sussex County Economic Development Partnership, Inc. (SCEDP) is dedicated to the creation of sustainable economic opportunity and prosperity to improve the quality of life in Sussex County, NJ. The SCEDP will proactively facilitate the recruitment, retention and expansion of business that will complement, and be consistent with, the character and environment of Sussex County.
	Responsible Agency: Sussex County Economic Development Partnership
	Provides Funding for Mitigation: No
	Hazard: -
Rutgers Cooperative Extension of Sussex County	Description: Rutgers Cooperative Extension is part of the Federal Land Grant University system serving as the educational outreach arm of the United States Department of Agriculture. Rutgers Cooperative Extension of Sussex County was established in 1912 and was the first Cooperative Extension program in New Jersey. The office provides research-based information to help Sussex County residents acquire knowledge to make informed decisions to maintain or improve their quality of life. Educational programs are provided without regard to race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, or marital or family status. Program delivery methods include: classes and conferences, telephone and in-person consultations, replies to emailed questions, newspaper columns, radio and television programs, bus trips, fairs and clubs, field meetings and demonstrations, computerized diet and financial analyses, videos, newsletters, fact sheets, speaking engagements for organizations and work sites, exhibits and displays, and web sites.
	Responsible Agency: Rutgers Cooperative Extension of Sussex County
	Provides Funding for Mitigation: No
	Hazard: All hazards

5.4 FISCAL CAPABILITIES

Fiscal capabilities are the resources that a jurisdiction has access to or is eligible to use to fund mitigation actions. The table below provides a list of programs, descriptions, and links for those jurisdictions seeking funding sources. This table is not intended to be a comprehensive list, but rather a tool to help begin identifying potential sources of funding.

Table 5-4. Fiscal Capabilities

Capability		
Federal		
Hazard Mitigation Grant Program	Description:	<p>The HMGP is a post-disaster mitigation program. FEMA makes these grants available to states by after each federal disaster declaration. The HMGP can provide up to 75 percent funding for hazard mitigation measures and can be used to fund cost-effective projects that will protect public or private property or that will reduce the likely damage from future disasters in an area covered by a federal disaster declaration. Examples of projects include acquisition and demolition of structures in hazard prone areas, flood-proofing or elevation to reduce future damage, minor structural improvements, and development of state or local standards. Projects must fit into an overall mitigation strategy for the area identified as part of a local planning effort. All applicants must have a FEMA-approved HMP (this plan).</p> <p>Additional information regarding the HMGP is available on the FEMA website: https://www.fema.gov/grants/mitigation</p> <p>Sussex County has received HMGP funding, including funding to purchase generators to provide continuity of operations during utility failures.</p>
	Responsible Agency:	FEMA
	Provides Funding for Mitigation:	Yes
	Hazard:	All
Flood Mitigation Assistance Program	Description:	<p>The FMA program combines the previous Repetitive Flood Claims and Severe Repetitive Loss Grants into one grant program. The FMA provides funding to assist states and communities in implementing measures to reduce or eliminate the long-term risk of flood damage to buildings, manufactured homes, and other structures insurable under the NFIP. The FMA is funded annually; no federal disaster declaration is required. Only NFIP insured homes and businesses are eligible for mitigation in this program. Funding for FMA is very limited and, as with the HMGP, individuals cannot apply directly for the program. Applications must come from local governments or other eligible organizations. The federal cost share for an FMA project is at least 75 percent. For the non-federal share, at most 25 percent of the total eligible costs must be provided by a non-federal source; of this 25 percent, no more than half can be provided as in-kind contributions from third parties. At minimum, a FEMA-approved local flood mitigation plan is required before a project can be approved. The FMA funds are distributed from FEMA to the state. NJOEM serves as the grantee and program administrator for the FMA program.</p> <p>The FMA program is detailed on the FEMA website: https://www.fema.gov/grants/mitigation/floods</p>
	Responsible Agency:	FEMA
	Provides Funding for Mitigation:	Yes
	Hazard:	Flood, Severe Weather
Building Resilient Infrastructure	Description:	<p>Building Resilient Infrastructure and Communities (BRIC) will support states, local communities, tribes and territories as they undertake hazard mitigation projects, reducing the risks they face from disasters and natural hazards. BRIC is a new FEMA</p>

Capability	
and Communities (BRIC) Program	<p>pre-disaster hazard mitigation program that replaces the existing Pre-Disaster Mitigation (PDM) program.</p> <p>The BRIC program guiding principles are supporting communities through capability- and capacity-building; encouraging and enabling innovation; promoting partnerships; enabling large projects; maintaining flexibility; and providing consistency. For additional information regarding the BRIC program, please refer to: https://www.fema.gov/grants/mitigation/building-resilient-infrastructure-communities</p>
	Responsible Agency: FEMA
	Provides Funding for Mitigation: Yes
	Hazard: All
Individual Assistance	Description: Individual Assistance (IA) provides help for homeowners, renters, businesses, and some non-profit entities after disasters occur. This program is largely funded by the U.S. Small Business Administration. For homeowners and renters, those who suffered uninsured or underinsured losses could be eligible for a Home Disaster Loan to repair or replace damaged real estate or personal property. Renters are eligible for loans to cover personal property losses. Individuals are allowed to borrow up to \$200,000 to repair or replace real estate, \$40,000 to cover losses to personal property, and an additional 20 percent for mitigation. For businesses, loans could be made to repair or replace disaster damages to property owned by the business, including real estate, machinery and equipment, inventory, and supplies. Businesses of any size are eligible. Non-profit organizations, such as charities, churches, and private universities are eligible. An Economic Injury Disaster Loan provides necessary working capital until normal operations resume after a physical disaster but are restricted by law to small businesses only. IA is detailed on the FEMA website: https://www.fema.gov/individual-disaster-assistance .
	Responsible Agency: FEMA
	Provides Funding for Mitigation: Yes
	Hazard: All
Public Assistance	Description: Public Assistance (PA) provides cost reimbursement aid to local governments (state, county, local, municipal authorities, and school districts) and certain non-profit agencies that were involved in disaster response and recovery programs or that suffered loss or damage to facilities or property used to deliver government-like services. This program is largely funded by FEMA with both local and state matching contributions required. PA is detailed on the FEMA website: https://www.fema.gov/public-assistance-local-state-tribal-and-non-profit .
	Responsible Agency: FEMA
	Provides Funding for Mitigation: Yes
	Hazard: All
Department of Homeland Security Grant Program	Description: The Homeland Security Grant Program (HSGP) plays an important role in the implementation of the National Preparedness System by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal of a secure and resilient nation. In FY 2020, the total amount of funds available under HSGP was \$1.12 billion. HSGP is comprised of three interconnected grant programs including the State Homeland Security Program, Urban Areas Security Initiative (UASI), and the

Capability	
	<p>Operation Stonegarden. Together, these grant programs fund a range of preparedness activities, including planning, organization, equipment purchase, training, exercises, and management and administration.</p> <p>Additional information regarding HSGP is available on the website: https://www.fema.gov/grants/preparedness/homeland-security.</p>
	<p>Responsible Agency: FEMA</p>
	<p>Provides Funding for Mitigation: Yes</p>
	<p>Hazard: All</p>
Fire Management Assistance Grant Program	<p>Description: Assistance for the mitigation, management, and control of fires on publicly or privately-owned forests or grasslands that threaten such destruction as would constitute a major disaster. Provides a 75% federal cost share and the state pays the remaining 25% for actual cost.</p> <p>Information on this program is available on the website: https://www.fema.gov/assistance/public/fire-management-assistance.</p>
	<p>Responsible Agency: FEMA</p>
	<p>Provides Funding for Mitigation: Yes</p>
	<p>Hazard: Wildfire</p>
Assistance to Firefighters Grant Program	<p>Description: The primary goal of the Assistance to Firefighters Grants is to enhance the safety of the public and firefighters with respect to fire-related hazards by providing direct financial assistance to eligible fire departments, nonaffiliated Emergency Medical Services organizations, and State Fire Training Academies. This funding is for critically needed resources to equip and train emergency personnel to recognized standards, enhance operations efficiencies, foster interoperability, and support community resilience.</p> <p>Information regarding this grant program is available on the website: https://www.fema.gov/grants/preparedness/firefighters.</p>
	<p>Responsible Agency: FEMA</p>
	<p>Provides Funding for Mitigation: Yes</p>
	<p>Hazard: Wildfire, Hazardous Materials</p>
High Hazard Potential Dams Grant Program	<p>Description: The Rehabilitation of High Hazard Potential Dams Grant Program provides technical, planning, design, and construction assistance in the form of grants to non-Federal governmental organizations or nonprofit organizations for rehabilitation of eligible high hazard potential dams.</p> <p>Information regarding this program is available on the website: https://www.fema.gov/emergency-managers-management/dam-safety/grants/high-hazard-potential-dam-awards#:~:text=The%20High%20Hazard%20Potential%20Dam%20(HHPD)%20Grant%20Awards,equivalent%20state%20agency%20is%20eligible%20for%20the%20grant.</p>
	<p>Responsible Agency: FEMA</p>
	<p>Provides Funding for Mitigation: Yes</p>
	<p>Hazard: Dam Failure</p>
	<p>Description: The Small Business Administration (SBA) provides low-interest disaster loans to homeowners, renters, business of all sizes, and most private nonprofit organizations.</p>

Capability	
Small Business Administration Loan	<p>SBA disaster loans can be used to repair or replace the following items damaged or destroyed in a declared disaster: real estate, personal property, machinery and equipment, and inventory and business assets.</p> <p>Homeowners could apply for up to \$200,000 to replace or repair their primary residence. Renters and homeowners could borrow up to \$40,000 to replace or repair personal property-such as clothing, furniture, cars, and appliances that were damaged or destroyed in a disaster. Physical disaster loans of up to \$2 million are available to qualified businesses or most private nonprofit organizations.</p> <p>Additional information regarding SBA loans is available on the SBA website: https://www.sba.gov/managing-business/running-business/emergency-preparedness/disaster-assistance.</p>
	<p>Responsible Agency: SBA</p>
	<p>Provides Funding for Mitigation: Yes</p>
	<p>Hazard: All</p>
Community Development Block Grant Program	<p>Description: CDBG are federal funds intended to provide low and moderate-income households with viable communities, including decent housing, a suitable living environment, and expanded economic opportunities. Eligible activities include community facilities and improvements, roads and infrastructure, housing rehabilitation and preservation, development activities, public services, economic development, and planning and administration. Public improvements could include flood and drainage improvements. In limited instances and during the times of “urgent need” (e.g., post disaster) as defined by the CDBG National Objectives, CDBG funding could be used to acquire a property located in a floodplain that was severely damaged by a recent flood, demolish a structure severely damaged by an earthquake, or repair a public facility severely damaged by a hazard event.</p> <p>Additional information regarding CDBG is available on the website: https://www.hudexchange.info/programs/cdbg-entitlement/.</p> <p>In Sussex County, the following municipalities are eligible for CDBG funding:</p> <ul style="list-style-type: none"> • Borough of Andover • Township of Andover • Borough of Branchville • Township of Byram • Township of Frankford • Borough of Franklin • Township of Fredon • Township of Green • Borough of Hamburg • Township of Hampton • Township of Hardyston • Borough of Hopatcong • Township of Lafayette • Township of Montague • Town of Newton • Borough of Ogdensburg • Township of Sparta • Township of Sandyston • Borough of Stanhope

State		
New Jersey Clean Energy Program	Description:	New Jersey's Clean Energy Program (NJCEP) promotes increased energy efficiency and the use of clean, renewable sources of energy including solar, wind, geothermal, and sustainable biomass. The results for New Jersey are a stronger economy, less pollution, lower costs, and reduced demand for electricity. NJCEP offers financial incentives, programs, and services for residential, commercial, and municipal customers. Refer to https://www.njcleanenergy.com/main/about-njcep/about-njcep for additional details on NJCEP. The program also offers a Community Energy Plan Grant for government entities (e.g. municipality, county, Green Team or environmental commission, or other Sustainable Jersey organization within a community or county). The grant will provide funding for an entity to create a Community Energy Master Plan to align local communities with the State Energy Master Plan
	Responsible Agency:	New Jersey Board of Public Utilities
	Provides Funding for Mitigation:	Yes
	Hazard:	Hazards impacted by climate change
Grant and Loan Programs	Description:	NJDEP offers a wide variety of funding opportunities for local governments and other types of organizations to fund numerous environmentally based projects. This includes funding for: air quality, energy, and sustainability; compliance and enforcement; engineering and construction; land use management; local government assistance; natural and historic resources; site remediation and waste management programs; and water resource management.

Capability		
		Information on each of the programs can be found on the NJDEP website: https://www.nj.gov/dep/grantandloanprograms/ .
	Responsible Agency:	NJDEP
	Provides Funding for Mitigation:	Yes
	Hazard:	All
Green Acres Program	Description:	Green Acres was created to meet New Jersey's growing recreation and conservation needs. This program has helped preserve over 1.2 million acres of land in New Jersey.
	Responsible Agency:	NJDEP
	Provides Funding for Mitigation:	Yes
	Hazard:	-
Blue Acres Program	Description:	Blue Acres provides funding for acquisition of land in floodways of the Delaware River, Sussex River, and Raritan River and their respective tributaries, for recreation and conservation purposes. Properties (including structures) that have been damaged by, or may be prone to incurring damage caused by, storms or storm-related flooding, or that may buffer or protect other lands from such damage, are eligible for acquisition.
	Responsible Agency:	NJDEP
	Provides Funding for Mitigation:	Yes
	Hazard:	Flood, Severe Weather
New Jersey Water Bank	Description:	The New Jersey Water Bank (NJWB) is a partnership between the NJDEP and the NJEIT to provide low cost financing for the design, construction, and implementation of projects that help protect and improve water quality and help ensure safe and adequate drinking water. The NJWB finances projects by utilizing two funding sources. The Trust issues revenue bonds which are used in combination with zero percent interest funds to provide very low interest loans for water infrastructure improvements. The NJDEP administers a combination of Federal State Revolving Fund capitalization grants, as well as the State's matching funds, loan repayments, State appropriations and interest earned on such funds.
	Responsible Agency:	NJDEP and New Jersey Environmental Infrastructure Trust
	Provides Funding for Mitigation:	Yes
	Hazard:	Flood, Severe Weather
New Jersey Redevelopment Authority	Description:	The New Jersey Redevelopment Authority (NJRA) is an independent state financing authority committed exclusively to the redevelopment of New Jersey's urban areas. NJRA offers several financing resources including site acquisition funding, predevelopment assistance, several development assistance resources, and technical assistance.
	Responsible Agency:	-
	Provides Funding for Mitigation:	Yes
	Hazard:	-
New Jersey Department of	Description:	The New Jersey Department of Community Affairs (NJDCA) is a state agency created to provide administrative guidance, financial support, and technical assistance to local governments, community development organizations, businesses, and individuals to

Capability		
Community Affairs		improve the quality of life in New Jersey. NJDCA offers a wide range of programs, funding, and services that respond to issues of public concern including fire and building safety, housing production, community planning and development, and local government management and finance. Among other funding sources, NJDCA administers CDBG funding and is typically the CDBG-Disaster Relief funding recipient for the State of New Jersey.
	Responsible Agency:	-
	Provides Funding for Mitigation:	Yes
	Hazard:	-
New Jersey Board of Public Utilities	Description:	The New Jersey Board of Public Utilities (BPU) works with private utility companies to provide analysis of natural hazard information affecting the provision of electric power, telecommunications, public water, sewage collection and treatment, and other regulated public utilities. The data are used during response and recovery efforts in the event of emergency or disaster and is also used to analyze impact of mitigation plans and projects. BPU also provides technical assistance for the Energy Resiliency Program
	Responsible Agency:	BPU
	Provides Funding for Mitigation:	Yes
	Hazard:	All
Environmental Infrastructure Financing Program	Description:	Qualified borrowers receive loans in two equal parts: Approximately one half to three quarters comes from a 0-interest State Revolving Fund maintained by the NJDEP. The other portion comes from proceeds of highly rated tax-exempt revenue bonds sold by the Trust. Combining these two funds results in a loan that is 50 to 75% lower than traditional loan rates.
	Responsible Agency:	NJDEP
	Provides Funding for Mitigation:	Yes
	Hazard:	-
New Jersey Small Cities Communities Development Block Grants	Description:	The New Jersey Small Cities Communities Development Block Grants provide funds for economic development, housing rehabilitation, community revitalization, and public facilities designated to benefit people with low and moderate incomes, or to address recent local needs for which no other source of funding is available to non-entitlement counties and municipalities. Information on the program is available on the website: https://www.nj.gov/dca/divisions/dhcr/offices/neighborhood.html .
	Responsible Agency:	NJDCA
	Provides Funding for Mitigation:	Yes
	Hazard:	-
New Jersey Conservation Foundation	Description:	The New Jersey Conservation Foundation (NJCF) is a private, not-for-profit organization. Through acquisition and stewardship, NJCF protects strategic lands, promotes strong land use policies, and forges partnerships to achieve conservation goals. Grants to help fund preservation activities. Information on the program is available on the website: https://www.njconservation.org/what-we-do/ .
	Responsible Agency:	NJCF

Capability		
	Provides Funding for Mitigation:	Yes
	Hazard:	-
The New Jersey Infrastructure Bank	Description:	<p>Two programs provide and administer low interest rate loans to qualified municipalities, counties, regional authorities, and water purveyors in New Jersey. Approximately \$350 million is awarded annually.</p> <p>1. NJEIT for the purpose of financing water quality infrastructure projects that enhance ground and surface water resources, ensure the safety of drinking water supplies, protect the public health and make possible responsible and sustainable economic development.</p> <p>2. The New Jersey Transportation Infrastructure Bank (NJTIB) is an independent State Financing Authority responsible for providing and administering low interest rate loans to qualified municipalities, counties, and regional authorities in New Jersey for the purpose of financing transportation quality infrastructure projects.</p> <p>Information on the program is available on the website: https://www.njib.gov/.</p>
	Responsible Agency:	NJDEP
	Provides Funding for Mitigation:	Yes
	Hazard:	-
Drinking Water State Revolving Fund	Description:	<p>The DWSRF program assists water systems in financing the cost of infrastructure through the use of federal and New Jersey Infrastructure Trust funds. Additionally, the Water Supply program provides operator licensing and training support as well as financial assistance through the DWSRF program.</p> <p>Information on the program is available on the website: https://www.state.nj.us/dep/watersupply/dws_loans.html.</p>
	Responsible Agency:	NJDEP
	Provides Funding for Mitigation:	Yes
	Hazard:	-
New Jersey Department of Transportation (NJDOT)	Description:	<p>Funding of the Program is typically federal through the Federal Highway Administration or State through the Transportation Trust Fund.</p> <p>Information on the program is available on the website: https://www.state.nj.us/transportation/business/localaid/funding.shtm.</p>
	Responsible Agency:	NJDOT
	Provides Funding for Mitigation:	Yes
	Hazard:	-
NJ Highlands Council – Open Space Partnership	Description:	<p>The Highlands Open Space Partnership Funding program is a matching grant program designed to support the acquisition of property for the protection of resources within the Highlands Region, and to further the goals of landowner equity as specified in the Highlands Water Protection and Planning Act of 2004 and the Highlands Regional Master Plan.</p> <p>The Highlands Council shall provide a maximum grant award of 50% of the total purchase price of the property. Applications will be considered for acquisition of property in fee simple or through conservation easements for any passive recreation or conservation purposes. See program details below for complete information.</p>
	Responsible Agency:	NJ Highlands Council. State agencies, Highlands county or municipal governments, and charitable conservancies are eligible to apply.

Capability		
	Provides Funding for Mitigation:	Yes – open space
	Hazard:	-
NJ Highlands Council – Plan Conformance Grants	Description:	Plan Conformance Grants provide funding to support costs associated with Plan Conformance activities (i.e. engagement of professionals and staff in the development of required Plan Conformance components).
	Responsible Agency:	Municipalities in the Highlands Region, as defined by the Highlands Act (Planning or Preservation Area), that have submitted a duly-adopted Notice of Intent to petition Highlands Council in accordance with the Council’s Plan Conformance Guidelines.
	Provides Funding for Mitigation:	Yes
	Hazard:	Harmful Algal Bloom
NJ Highlands – Transfer of Development Rights	Description:	Transfer of Development Rights (TDR) is a land-use tool that encourages transfer of development potential from areas a community wants to preserve (Sending Zones) to areas where growth is desired (Receiving Zones). The Highlands Act mandated the creation of a TDR program as an effective means of addressing landowner equity while advancing planning goals of the Act.
	Responsible Agency:	Any municipality in New Jersey can apply for funding.
	Provides Funding for Mitigation:	Yes
	Hazard:	-
County and Local		
Sussex County Farmland Preservation, Recreation, and Open Space Trust Fund	Description:	<p>The Farmland Preservation, Recreation, and Open Space Trust Fund is divided into two separate categories, each having its own distinct goals and objectives. The Farmland Preservation Program uses Trust Fund dollars to purchase development easements on farm land, forever protecting the agriculture use. The Open Space program uses Trust Fund dollars to acquire land and/or water areas for the protection of ecologically sensitive areas; preservation of areas of scenic, cultural or historic value; public outdoor recreational facilities (active or passive); preservation of lands of exceptional flora or fauna; and for the protection of critical water supplies.</p> <p>The Trust Fund cannot be used for construction and development of mitigation projects and is strictly used to acquire open space.</p> <p>Projects are selected through an open and competitive process, governed by state and local statutes. Funds can only be used to purchase land in Sussex County from willing sellers on a voluntary basis. The county does not condemn property if the owner is unwilling to sell.</p> <p>The Trust Fund is funded through a property tax assessment determined annually by the Board of Chosen Commissioners.</p>
	Responsible Agency:	Board of Chosen Commissioners, Open Space Advisory Committee
	Provides Funding for Mitigation:	Yes
	Hazard:	All

5.5 PLAN INTEGRATION

Described earlier in this section and within each annex, participating jurisdictions identified integration of hazard risk management into their existing planning, regulatory, and operational/administrative framework (“integration capabilities”) and intended integration promotion (integration actions). Volume II, Section 9

(Jurisdictional Annexes) provides details on how each jurisdiction integrates hazard mitigation into their existing capabilities.

5.5.1 INTEGRATION PROCESS

Hazard mitigation is a sustained action taken to reduce or eliminate the long-term risk to human life and property from hazards. Integrating hazard mitigation into a community's existing plans, policies, codes, and programs leads to development patterns that do not increase risk from known hazards or leads to redevelopment that reduces risk from known hazards. The Sussex County Planning Partnership was tasked with identifying how hazard mitigation is integrated into existing planning mechanisms. Section 9 (Jurisdictional Annexes) details how this is done for each participating municipality and the County. During this process, many municipalities recognized the importance and benefits of incorporating hazard mitigation into future municipal planning and regulatory processes and have added new mitigation actions to support this effort.

The Planning Partnership representatives will continue to incorporate mitigation planning as an integral component of daily government operations. Planning Partnership representatives will continue to work with local government officials to integrate the newly adopted hazard mitigation goals and actions into the general operations of government and partner organizations. Further, the sample adoption resolution presented in Appendix A (Plan Adoption) includes a resolution item stating the intent of the local governing body to incorporate mitigation planning as an integral component of government and partner operations. By doing so, the Planning Partnership anticipates that:

1. Hazard mitigation planning will be formally recognized as an integral part of overall planning and emergency management efforts.
2. The Hazard Mitigation Plan, Master Plans, Emergency Management Plans, and other relevant planning mechanisms will become mutually supportive documents that work in concert to meet the goals and needs of County residents.

Section 7 (Plan Maintenance) provides for additional information on the implementation of the mitigation plan through existing programs.
